As per the explanation, transaction with a related party shall include a single transaction or a group of transactions in a contract.

The requirement under Listing Regulations requires that for a listed Company, all RPTs are to be pre-approved by the Audit Committee. Hence, before entering into a RPT, the Finance Controller of Tech Mahindra will collate all the relevant information about the contract/arrangement/transaction viz., name of the related party and nature of relationship, nature of transaction etc. (Appendix 1 contains the format to capture information).

Along with the above information, the CFO and the Company Secretary will prepare a management note with justification for entering into the contract/arrangement/transaction which will also include whether the transaction is in the ordinary course of business and at arm’s length.

C. TRANSACTIONS WITH RELATED PARTIES – INTERNAL CONTROL FRAMEWORK

<table>

Requirements under SEBI Listing Regulations

In terms of Listing Regulations, the listed entity to formulate a policy on materiality of RPTs and on dealing with RPTs including clear threshold limits duly approved by the Board of Directors. Such policy to be reviewed by the Board of Directors at least once every three years and updated accordingly.

The Audit Committee will approve the RPTs in following manner:

RPTs to be preapproved by the Audit Committee. However, the Audit Committee is empowered to grant omnibus approval for RPTs to be entered into by the Company on following conditions:

a. The Audit Committee shall lay down the criteria for granting the omnibus approval in line with the policy on Related Party Transactions of the company and such approval shall be applicable in respect of transactions which are repetitive in nature.

b. The Audit Committee shall satisfy itself the need for such omnibus approval and that such approval is in the interest of the company;

c. Such omnibus approval shall specify following:
   (i) the name/s of the related party, nature of transaction, period of transaction, maximum amount of transaction that can be entered into
   (ii) the indicative base price / current contracted price and the formula for variation in the price if any and
   (iii) such other conditions as the Audit Committee may deem fit;

d. Where the need for Related Party Transaction cannot be foreseen and aforesaid details are not available, Audit Committee may grant omnibus approval for such transactions subject to their value not exceeding Rs. 1 crore per transaction.

e. Audit Committee shall review, at least on a quarterly basis, the details of RPTs entered into by the company pursuant to each of the omnibus approval given.

f. Such omnibus approvals shall be valid for a period not exceeding 1 year and shall require fresh approvals after the expiry of 1 year.

Exception to the above requirements is the transactions entered into between a holding company and its wholly owned subsidiary whose accounts are consolidated with such holding company and placed before the shareholders at the general meeting for approval.
All existing material related party contracts or arrangements entered into prior to the date of notification of these regulations and which may continue beyond such date shall be placed for approval of the shareholders in the first General Meeting subsequent to notification of these regulations.

**Material RPT**

Listing Regulations requires approval of all material RPTs by the shareholders through a resolution, with related parties abstaining from voting. A transaction is considered material if the transaction/transactions to be entered into individually or taken together with previous transactions during a financial year, exceeds ten percent of the consolidated annual turnover as per the last audited financial statements of the company (Material RPT).

Notwithstanding the above a transaction involving payments made to RPTs with respect to brand usage or royalty shall be considered material if the transaction(s) to be entered individually or taken together with previous transactions during a financial year exceeds five percent of the annual consolidated turnover of the company as per last audited financial statements of the Company*.

*inserted consequent to SEBI (Listing Obligations and Disclosure Requirements) (Amendment) Regulation 2018

**Arm’s length**

The term Arm’s length transaction is defined under the 2013 Act as follows: “Arm’s length transaction means a transaction between two related parties that is conducted as if they were unrelated, so that there is no conflict of interest”.

Pricing may not be the only determinant of a transaction being at arm’s length though it is an important factor. Therefore, the company would apply judgment to conclude whether a transaction can be considered to be on an arm’s length basis. The following has been considered to be helpful in concluding whether a transaction is on an arm’s length basis:

- The transaction is as per the prevailing price list / pricing policy / market price / at the same price (or margin) at which entered into with independent third parties
- The transaction is in line with third party quotations / bids
- The transaction is at a price / rate in line with Government guidelines / industry body (say NASSCOM, CII / ASSOCHAM etc. data) / specifications where relevant
- Cost sharing arrangements, where costs are shared based on the benefit derived
- Taking assistance of an expert – valuation specialist
- Principles under the transfer pricing guidelines (considering whether the pricing would be in line with what would have been charged to an unrelated party, without any conflict of interest)

Some of the cases in the examples covered in Standard on Auditing 550 on Related Parties (SA 550) below also cover pricing and therefore will be considered relevant for arm’s length pricing as well.
**Ordinary course of business**

The term ordinary course of business is not defined under the 2013 Act or the Rules thereunder. Therefore, it would depend on facts and circumstances of each case. The company would therefore exercise judgment to conclude whether a transaction can be considered to be in the ordinary course of business.

Examples of transactions that the Company would consider to be in the ordinary course of business would include those that form part of the Revenue from Operations, the costs of goods sold and the normal expenses incurred for operating the business (considering the business rationale and without any conflicted terms and conditions as compared to transactions with independent third parties).

A transaction proposed to be disclosed as part of other income or other expenses, exceptional or extraordinary will generally be assessed on a case to case basis as to whether they could be considered to be in the ordinary course of business.

The Application and Other Explanatory Material of SA 550 on Related Parties issued by the ICAI provides examples of transactions that can be considered to be outside the entity's normal course of business (akin to ordinary course of business). Although these are not conclusive, they will be considered as guidance to be used, based on facts and circumstances, to conclude as to whether a transaction can be considered to be in the ordinary course of business.

The examples provided in SA 550 that may be considered to be outside the entity's normal course of business include:

- Complex equity transactions, such as corporate restructurings or acquisitions.
- Transactions with offshore entities in jurisdictions with weak corporate laws.
- The leasing of premises or the rendering of management services by the entity to another party if no consideration is exchanged.
- Sales transactions with unusually large discounts or returns.
- Transactions with circular arrangements, for example, sales with a commitment to repurchase.
- Transactions under contracts whose terms are changed before expiry.

Based on the results of the analysis, the CFO /Company Secretary would bucket the transactions into the following 4 categories:

(i) In the ordinary course of business and at arm’s length
(ii) Not in the ordinary course of business but at arm’s length
(iii) In the ordinary course of business but not at arm’s length
(iv) Not in the ordinary course of business and not at arm’s length basis

For items in (i) to (iv) prior consent of Audit Committee will be required under 2013 Act. However, for items in (ii) to (iv), in addition to prior consent of Audit Committee, prior approval of Board of Directors and prior approval of the shareholders will also be required if the transaction to be entered into individually or taken together with previous transaction
during the financial year exceeds the threshold provided above or such limits as may be amended by Ministry of Corporate Affairs from time to time.

For item (i) to (iv) above, prior approval of the Audit Committee alone will be required as per Listing Regulations unless such transaction is covered by an omnibus approval granted by the Audit Committee from time to time. If the transaction with a related party is a Material RPT, then such Material RPT shall require approval of the Board and also that of shareholders through a resolution and all related parties shall abstain from voting on such resolutions irrespective of whether the entity is a party to the particular transaction or not.

The CFO will bring such Material RPT to the attention of the Audit Committee so that the Board and Shareholders’ Approval can be sought, if required.

Most of the transactions which Tech Mahindra are with its wholly owned subsidiaries promoted/acquired for furthering its business interest & the transactions are in the ordinary course of the business. It is pertinent to note here that the provisions of the 2013 Act and the Listing Regulations excludes the transactions between the company & its wholly owned subsidiaries whose accounts are consolidated with the Company and placed before the shareholders at the general meeting for approval from the purview of the related party transactions. Based on the above, the Audit Committee will peruse the proposed transaction and where appropriate and satisfied, pre-approve the same.

**Related Party, Relatives and RPTs – System and Process Controls**

In line with the requirements of Listing Regulations and 2013 Act, the Company will follow the steps mentioned below, for approval of RPTs:

a. Place all RPTs irrespective of them being in the ordinary course of business or at arm’s length before the Audit Committee in their first meeting of every financial year.

b. Based on the Company policy, any transaction with parties covered in a restricted list i.e. entities with whom the Company cannot enter into contracts or transactions unless approved, will not be undertaken unless confirmation has been obtained from the Secretarial Department that such transactions are preapproved by the Audit Committee.

c. Based on declaration received from the Directors and KMPs list of all related parties and their relatives will be updated in the IT System. One master list will be maintained by the secretarial team of all Related Parties.

f. A note with relevant particulars will be perused by the Audit Committee for approval of the new transactions entered into w.e.f. April 1, 2014.

g. Once the Audit Committee approves the transactions, the subsequent events in the IT systems viz., raising of PR/PO/SO will be done and will be approved by the CFO/Company Secretary or the delegated authority, if applicable.

h. On a monthly basis, the transactions of all the related parties from the IT Systems will be generated and analyzed by the Head of Accounts and the same will be shared with the CFO/Company Secretary for their review.

i. The Company will seek omnibus approval of the Audit Committee on a yearly basis for RPTs of repetitive in nature provided required information is available.

D. VOTING ON THE RESOLUTION FOR APPROVAL OF RPT

a. No director will participate in any audit committee meeting / Board meeting discussion for approval of RPT in which he / she is interested.

b. d. **Omnibus blanket approval**: Omnibus blanket approval of Audit Committee will be taken for transactions with related parties subject to a cap of Rs.1 crore per transaction with a validity of 1 year to cover situations where transaction cannot be foreseen and details as per E.(c) above are not available.
