DIRECTORS' REPORT TO THE SHAREHOLDERS

Your Directors present their Report together with the audited accounts of your Corporation for the year ended March 31, 2022.

Financial Results:

For the year ended March 31	2022 USD	2022 INR	2021 USD	2021 INR
Income	**1,100,056,945**	**81,932,241,264**	992,012,421	72,526,028,385
Profit/(Loss) before tax	**75,064,312**	**5,590,789,958**	83,608,349	6,112,606,419
Profit/(Loss)after tax	**59,458,264**	**4,428,451,503**	63,278,329	4,626,278,651

Review of operations:

During the fiscal year under review, the Corporation achieved an income of USD 1,100 Million (equivalent to INR 81.93 billion). The Corporation continues to invest in strengthening its business in the USA which is the largest IT market in the World. The increase in business and the focus on right sizing the USA operations while preparing for the next level of growth has helped the Corporation to earn healthy level of profits in the last few years.

Acquisitions / Incorporations / Mergers / Investments:

On May 7, 2021, Corporation has acquired 100% stake in Digital OnUs, Inc. for the total purchase consideration of USD 120 Million with an upfront consideration of USD 90 Million (adjusted for working capital and net debt), USD 10 mn linked to retention of key employees and the balance USD 20 mn will be paid at the end of FY22, FY23 and FY24 linked to performance based on capability expansion and penetration in Tech Mahindra accounts.

On June 18, 2021, Corporation has acquired 100% stake in Eventus Solutions Group, LLC for the total purchase consideration of USD 44 Million with an upfront consideration of USD 32 Million (adjusted for Net Debt and Working Capital) and balance will be paid at the end of FY22 and FY23 linked to financial performance and downstream revenue targets.

On October 25, 2021, Corporation has acquired 100% stake in Infostar LLC for the total purchase consideration of USD 105 Million with an upfront consideration of USD 55 Million. Membership Interest Purchase Agreement (MIPA) provides for the aggregate payment by the Corporation at the closing of the transactions contemplated therein (the "Closing") of approximately USD 55 million (excluding adjustment for net working capital and the bank balance), subject to certain adjustments as set forth in the MIPA, as well as earn-outs and other deferred payments after Closing not to exceed USD 43 million.

On November 17, 2021, Corporation has acquired 100% stake in Brainscale Inc. for the total purchase consideration of USD 26.7 million with an upfront consideration of USD 9.9 million and balance will be paid on capability expansion and penetration in Tech Mahindra accounts.

On December 3, 2021, Corporation has acquired 100% stake in Activus Connect LLC for the total purchase consideration of USD 62 Million with an upfront consideration of USD 40 Million and balance will be paid based on certain revenue and EBITDA targets as defined in the Equity Interest Purchase Agreement (EIPA).

On December 31, 2021, Corporation has acquired 100% stake in Green Investments LLC for the total purchase consideration of USD 122.4 Million with an upfront consideration of USD 92.4 Million and balance will be paid over 3 years linked to performance based on revenue growth and EBITDA.

On February 28, 2022, Corporation has acquired 100% stake in Citisoft Inc., for the total purchase consideration of GBP 9,650,000 (USD 12.6 million) as defined in the purchase agreement.

Incorporations:

Incorporated a wholly owned subsidiary under the laws of State of Delaware, United States of America in the name of "Healthnxt Inc." on April 27, 2021.

Mergers:

- Tech Mahindra Healthcare Systems Holdings LLC & Tech Mahindra Healthcare LLC are merged with The CJS Solutions Group, LLC w.e.f 22-June-2021.
- In February 2022 Tech Talenta Inc., Inc was merged with Tech Mahindra (Americas) Inc.

Board:

Mr. Manish Vyas, Mr. Lakshmanan Chidambaram, Mr. T N Manoharan, Mr. Guruprasad R Iyengar are the members of the Board of Directors.

Outlook for the current year:

The Corporation believes that the investments made over the last few years in cultivating long term relationships with existing & prospective customers will result in further increase in business.

Acknowledgements:

Your Directors gratefully acknowledge the contributions made by the employees towards the success of the Corporation. Your Directors also thank the customers, suppliers, bankers, State and Federal Government Authorities and the shareholder(s) for the co-operation and assistance received from them.

TECH MAHINDRA (AMERICAS), INC.

INDEPENDENT AUDITOR'S REPORT

To: Board of Directors

Tech Mahindra (Americas), Inc. a New Jersey Corporation,

a wholly owned subsidiary of Tech Mahindra Limited, an India Corporation

Plano, Texas

Qualified Opinion

We have audited the accompanying financial statements of Tech Mahindra (Americas), Inc., incorporated in New Jersey ("the Corporation"), which comprise the balance sheets as of March 31, 2022 and 2021, and the related statements of operations and comprehensive income, cash flows and changes in stockholder's equity, for the years then ended, and the related notes to the financial statements.

In our opinion, except for the possible effects of the matters described in the Basis for Qualified Opinion section of our report the financial statements referred to above present fairly, in all material respects, the financial position of Tech Mahindra (Americas), Inc. as of March 31, 2022 and 2021, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Qualified Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("US GAAP"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Tech Mahindra (Americas), Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The group's accounting policies require the company to consolidate its subsidiaries with controlling interest. For the purposes of these Ind AS Financial Statements, the Balance Sheet and Statement of Profit and Loss of its subsidiaries, Lightbridge Communications Corporation, Objectwise Consulting Group, Zen3 Infosolutions (America) Inc., Digital OnUS Inc., Eventus Solutions Group, LLC, The CJS Solutions Group, LLC, Tech Mahindra Credit Solutions Inc., HealthNxt Inc. and Mad*Pow Media Solutions, LLC, Austin GIS Inc., Brainscale Inc., Infostar LLC (Lodestone), Activus Connect LLC and Activus Connect PR, Green Investments LLC (Allyis) and Citisoft Inc. have not been consolidated. The non-consolidation of the abovementioned controlling interest subsidiaries is not in accordance with the group's accounting policies. The effects of this departure from the group's accounting policies on the Balance Sheet and Statement of Operations and Comprehensive Income, have not been determined.

The accounting treatment for the Corporation's investments in Zen3 Infosolutions (America) Inc., Brainscale Inc., Citisoft Inc., Infostar LLC (Lodestone) and Lightbridge Communications Corporation was provided by group management and therefore out of scope for the purpose of this report. The potential effect of this departure from accounting standards on the Balance Sheet and Statement of Operations and Comprehensive Income, have not been determined.

Other matters

As discussed in various notes to the financial statements, the Corporation has had numerous transactions with the parent (Tech Mahindra Limited) and affiliated companies.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedules of Revenue and Expenses are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been

subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech Mahindra (Americas), Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Tech Mahindra (Americas), Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech Mahindra (Americas), Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO, AND FORMING PART OF, THE FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED MARCH 31, 2022 AND MARCH 31, 2021

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) NATURE OF OPERATIONS

Tech Mahindra (Americas) Inc. ("TMA" or "the Corporation"), is a wholly owned subsidiary of Tech Mahindra Limited ("TML"), which is incorporated in the Republic of India. TMA was incorporated in the State of New Jersey on November 29, 1993, and provides computer consulting and programming support services.

On March 6, 2012, TMA formed Tech Talenta, Inc. (TechT). TechT is a Texas corporation, which is 100% owned (500,000 shares of $1.00 par value) by TMA and is accounted for on the cost method. TechT is engaged in the business of recruitment, fulfillment and ongoing management of local temporary contractor resources in the areas of IT Development, Product Engineering, IT System Support and Operations for clients across North America. On February 28, 2022, TMA merged with TechT ("Parent-Sub-Merger") where TMA shall be the corporation surviving the Parent-Sub-Merger and have received all of the property, rights, privileges, franchises, patents, trademarks, trade name, licenses and other assets of TechT. The balance of the investment is reported at $ nil, refer to Note 21 for further details.

The Corporation acquired a 100% investment in Lightbridge Communications Corporation (LCC), a Delaware Corporation on February 6, 2015, which is accounted for on the cost method. LCC provides integrated end-to-end solutions for wireless voice and data communications networks with offerings ranging from high level technical consulting to system design and optimization services, ongoing operations and maintenance services, and deployment services.

On March 3, 2015, TMA purchased 600,000 shares of Series A preferred stock of $0.001 par value per share of Avion Networks, Inc. ("Avion"), a Delaware corporation. Avion is in the business of providing engineering and technology services to customers in the telecommunication industry. TMA owns 30% of Avion and accounts for this investment under the equity method. The carrying value of investment was $ nil for both March 31, 2022 and 2021 after management carried out an impairment test which resulted in the impairment of the carrying value in Avion amounting to $3 million. Consequently, the Corporation recognized $ nil and $ nil of after-tax income from Avion during both years ended March 31, 2022 and 2021.

On May 4, 2017 the Corporation acquired CJS through Tech Mahindra Healthcare Systems Holding LLC., a Delaware Limited Liability Company. CJS is a consulting firm that specializes in providing resources to plan, manage, build, optimize and generally assist in the implementation of electronic medical records system ("EMR") in hospitals and health care systems.

On July 31, 2019, TMA acquired 65% membership interests of Mad*Pow Media Solutions, LLC. ("Mad*Pow"), at a cost of $16.7 million. TMA is bound to obtain the remaining interest over a period of three years subsequent to the initial acquisition date. The fair value of the embedded forward contract at the date of purchase was determined to be $11.6 million which represents the mandatorily obligation of TMA to acquire the remaining shareholding. During November 2020 and September 2021, the Corporation acquired an additional 23.34%, increasing the holding to 88.34%.

In October 2019 TMA's newly formed Canadian subsidiary, Tech Mahindra Canada, Inc. acquired 100% interest in Objectwise Consulting Group Inc.("Objectwise"). Subsequent to the acquisition Tech Mahindra Canada, Inc. amalgamated with Objectwise as the surviving entity.

On April 8, 2020 an amended purchase agreement was executed between the Corporation and the sellers of Zen3 Infosolutions America Inc. (incl. subsidiaries)("Zen 3"). The board of directors approved a total purchase consideration of $64 million. This agreement stipulated that ZenIndia shares would be acquired by Tech Mahindra Limited and a minority holder (holding 1 ZenIndia share). The transaction costs linked to the purchase agreement represents a prepayment towards contingent liabilities resulting from the acquisition. A total of $34.6 million has been paid to the seller. An additional amount of $4 million will be paid out equally over the next 2 years (at the end of each fiscal year). TMA paid $10.6 million linked to the earn-out during the current financial year. The remaining balance will be available as an earn-out payment potential and is currently totaling and estimated $11.6 million. The balance of the investment as at Match 31, 2022 was reported at $51.34 million.

On October 21, 2020, the Corporation acquired a 6% stake in Vitaltech Holdings ("Vitaltech") to the value of $3 million. The Corporation has not exercised the option to acquire an additional 8% shareholding in Vitaltech. The Warrants issued to the Corporation at the time of the initial investment is contingent on performance measures and the 36 month vesting period. TMA transferred the investment in Vitaltech to the newly formed subsidiary, HealthNxt Inc. (HealthNxt). HealthNxt was incorporated on April 27, 2021. The Corporation also made a capital contribution amounting to $2.4 million during the year. This has resulted in an investment being recognized in TMA of $5.4 million as at March 31, 2022.

During December 2020, TMA contributed capital of $100,000 towards a newly formed subsidiary, Tech Mahindra Credit Solutions Inc. ("TMCS").

The Corporation acquired 100% of the equity shareholding in Digital Onus, Inc. along with its subsidiaries in Canada and Mexico on May 7, 2021. The total purchase consideration is $120 million out of which $90 million, adjusted for net debt and working capital, was payable upfront. The balance of the investment was reported at $117.99 million at March 31, 2022. The remaining amount is linked to future performance and the retention of key employees and deferred consideration payable over the next three years. Digital Onus is focused on Cloud Native Development and Hybrid Cloud Automation services.

The Corporation acquired 100% of the equity shareholding in Eventus Solutions Group, LLC on June 18, 2021. The total purchase consideration is $44 million, adjusted for net debt and working capital, out of which $32 million was payable upfront. The balance of the investment was reported at $46.49 million at March 31, 2022. The remaining amount is linked to the retention and performance of key employees, financial performance and downstream revenue targets which will be paid out over the next two years. Eventus offers end-to-end customer engagement solutions, such as consulting, cloud based tools and automation services, and managed services.

The Corporation acquired 13.8% of the equity shareholding in Austin GIS, the Board of Directors approved the acquisition on August 26, 2021. The investment value amounts to $1.25 million. Austin GIS is a IoT/5G services provider that specializes in providing a wholistic Infrastructure as a Service (IaaS) solution offering. The entity was incorporated in 2021.

The Corporation acquired 100% of the equity shareholding in Brainscale Inc. on November 17, 2021 for a purchase consideration of $26.7 million, adjusted for net debt and working capital, out of which $9.9 million was payable upfront. The remaining amount is linked to the retention and performance of key employees, financial performance and downstream revenue targets which will be paid over the next three years. The balance of the investment was reported at $22.35 million at March 31, 2022. Brainscale is a Cloud focused business with expertise in Cloud Consulting, Enablement, Application Development and Data Analytic, headquartered in Princeton, New Jersey.

The Corporation acquired 100% of the equity shareholding in Infostar LLC on October 25, 2021 for a purchase consideration including earn-outs and other deferred payments after closing not to exceed $105 million, adjusted for net debt and working capital, out of which $58 million was payable upfront. The remaining amount is linked to the retention and performance of key employees, financial performance and downstream revenue targets which will be paid over the next four years. The balance of the investment was reported at $91.17 million at March 31, 2022. Infostar (d.b.a Lodestone) is a leading digital engineering quality assurance provider for new age digital companies. The entity is headquartered in Pleasanton, California.

The Corporation acquired 100% of the equity shareholding in Activus Connect LLC and Activus Connect PR LLC on December 3, 2021 for a purchase consideration of $62 million, adjusted for net debt and working capital, out of which $40 million was payable upfront. The balance will be paid based on certain revenue and EBITDA targets as defined in the equity interest purchase agreement . The balance of the investment was reported at $44.8 million at March 31, 2022. Activus Connect is a leading provider of work at home customer experience management solutions and is headquartered in Orlando, Florida.

The Corporation acquired 100% of the equity shareholding in Green Investments LLC (incl. subsidiaries) (“Allyis”) on December 31, 2021 at an enterprise value of $122.4 million, adjusted for net debt and working capital, out of which $92.4 million was payable upfront. This agreement stipulated that Allyis India would be acquired by Tech Mahindra Limited. The remaining amount is payable over the next three years and is linked to performance revenue growth and EBITDA. The balance of the investment was reported at $110 million at March 31, 2022. Allyis offers technology consulting and managed services that helps organizations reduce costs, improve performance, and meet their unique objectives and is headquartered in Seattle.

The Corporation acquired 100% of the equity shareholding in Citisoft Inc. on February 28, 2022 for a purchase consideration of GBP 9.65 million ($12.6 million) as defined in the purchase agreement. Prior to the TMA acquisition the structure was as follows Citisoft Plc, UK is 100% subsidiary of TML and Citisoft Inc, USA was step down subsidiary of Citisoft Plc.

(B) BASIS OF PRESENTATION

The financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) with the exception as stated below.

TMA have investments in subsidiaries which are listed in Note 9. U.S. generally accepted accounting principles (GAAP) require that all subsidiaries should be consolidated, and consolidated financial statements should be presented. Consolidated financial statements are the general-purpose financial statements of a parent company that has one or more subsidiaries. In certain circumstances, parent company-only financial statements may be required in addition to consolidated financial statements. ASC 810-10-45-11 permits presentation of parent company financial statements as a supplement to the consolidated financial statements when such a presentation is the most effective means of presenting pertinent information. The parent company-only financial statements are being presented without accompanying consolidated financial statements which is not accordance with US GAAP. Accordingly, these financial statements are not the general-purpose financial statements of the reporting entity, TMA.

The Corporation did not present the parent company only financial statements according to the proportionate share of the subsidiaries’ net assets as required in the rare instances in which parent company financials are presented without accompanying consolidated financial statements.

(C) USE OF ESTIMATES IN PREPARATION OF FINANCIAL STATEMENTS

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates and assumptions made by management include the determination of recognition of revenue, valuations of privately held equity securities and amortization of assets recognized. The Corporation bases its estimates on historical experience and on various other assumptions that are believed to be reasonable, the result of which forms the basis for making judgments about the carrying values of assets and liabilities. Actual results could differ from those estimates.

(D) CASH AND CASH EQUIVALENTS

Cash represents current accounts and demand deposits held at financial institutions. The Corporation considers all highly liquid investments with a maturity, when purchased, of three months or less to be cash equivalents. Cash equivalents include short-term highly liquid investments of sufficient credit quality that are readily convertible to known amounts of cash and have original maturities of three months or less. Cash equivalents are carried at cost, plus accrued interest, which approximates fair value. Cash equivalents are held to meet short-term liquidity requirements, rather than for investment purposes. Cash and cash equivalents are held at major financial institutions and are subject to credit risk to the extent those balances exceed applicable Federal Deposit Insurance Corporation (FDIC) limitations.

(E) ACCOUNTS RECEIVABLE

Accounts receivable consist of amounts due from customers on revenue contracts contracted directly by TMA and is recorded on the balance sheet as “Accounts receivables, net”. As of March 31, 2022 and 2021 the allowance for doubtful accounts was $1,629,154 and $660,076, respectively. Accounts receivables for services rendered to the parent company under the service contract are recorded separately on balance sheet as “Due from parent company”. TML assumes the business and entrepreneurial risks relating to all customer transactions.

(F) EQUITY METHOD INVESTMENTS

The Corporation accounts for investments in which it has significant influence but not a controlling financial interest using the equity method of accounting. Equity method investments are classified as “Equity Method Investments” in the balance sheet.

(G) EQUITY SECURITIES

The Corporation holds strategic investments in privately held equity securities in which the Corporation does not have a controlling interest or significant influence. Privately held equity securities without a readily determinable fair value are recorded at fair value as described. If, based on the terms of these privately held securities, the Corporation determines that the Corporation exercises significant influence on the entity to which these securities relate, the Corporation will apply the equity method of accounting for such investments.

Privately held equity securities are valued using significant unobservable inputs or data in an inactive market and the valuation requires the Corporation’s judgment due to the absence of market prices and inherent lack of liquidity. The carrying value is not adjusted for the Corporation’s privately held equity securities if there are no observable price changes in a same or similar security from the same issuer or if there are no identified events or changes in circumstances that may indicate impairment, as discussed below. In determining the estimated fair value of its strategic investments in privately held companies, the Corporation utilizes the most recent data available to the Corporation. Valuations of privately held companies are inherently complex due to the lack of readily available market data. In addition, the determination of whether an orderly transaction is for a same or similar investment requires significant management judgment including the nature of rights and obligations of the investments, the extent to which differences in those rights and obligations would affect the fair values of those investments, and the impact of any differences based on the stage of operational development of the investee.

The Corporation regularly assesses its privately held equity securities strategic investment portfolio for impairment. The Corporation’s impairment analysis encompasses an assessment of the severity and duration of the impairment and qualitative and quantitative analysis of other key factors including the investee’s financial metrics, the investee’s products and technologies meeting or exceeding predefined milestones, market acceptance of the product or technology, other competitive products or technology in the market, general market conditions, management and governance structure of the investee, the investee’s liquidity, debt ratios and the rate at which the investee is using its cash.

(H) PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost and depreciated using the straight-line method over an estimated useful life of three to five years.

(I) DEFERRED CONTRACT COST

Deferred contract cost is amortized at cost and depreciated using the straight-line method over an estimated useful life of three to five years.

(J) REVENUE AND EXPENSES

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which requires a corporation to recognize revenue when the corporation transfers control of promised goods and services to the customer. Revenue is recognized in an amount that reflects the consideration a company expects to receive in exchange for those goods or services. A corporation also is required to disclose sufficient quantitative and qualitative information to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers.

The Corporation adopted the provisions described in ASU 2014-09, Revenue from Contracts with Customers, also referred to as Topic 606. The Corporation adopted the standard using the full retrospective method. The impact of Topic 606 on reported revenue results was not material.

The Corporation determines the amount of revenue to be recognized through application of the following steps:- Identification of the contract, or contracts with a customer;

- Identification of the performance obligations in the contract;

- Determination of the transaction price;

- Allocation of the transaction price to the performance obligations in the contract; and-

Recognition of revenue when or as the Corporation satisfies the performance obligations.

TMA have entered in agreement with TML according to which TML have appointed TMA as a contract service provider for providing onsite software development services (“contract service provider agreement” or “agreement”). According to the terms of the agreement:

- TML will be securing contracts from customers for software development/modification of software and other related services to customers based in the USA.
- TMA in certain cases may enter into contracts with customers based in the USA in its own name and will render the agreed onsite services to TML.
- In respect of all contracts entered with customers, the entire underlying risk and rewards of such contracts shall be with TML alone.
- Costs which are not in relation to provision of service but emanate out of or due to the contracts, will also be reimbursed by TML.

TML pays remuneration to TMA for its services as contract service provider, on a cost-plus basis. This remuneration represents revenue for TMA.

In those cases when TMA may enter into contracts with customers in its own name, TMA recognizes respective revenue and accounts receivables from contract with customers in its books, however since according to the contract service provider agreement the entire underlying risk and rewards of such contracts is with TML alone and this revenue is fully repaid to TML, this revenue is fully netted and presented on net basis in these financial statements.

Amounts of remuneration for provision of services in accordance with the contract service provider agreement are recorded as revenue in the statement of operations. Accounts receivables due from TML in accordance with this agreement are recorded as “Due from parent company”.

TMA fully repays revenue contracted directly by TMA to TML. Accounts payable due to TML for revenue contracted directly by TMA are recorded in “Due to parent company” on the balance sheet.

Expenses are recorded when incurred.

(K) UNBILLED REVENUE

Unbilled revenue include revenue recognized in relation to efforts incurred on time and material contracts not billed as of the end of the reporting period and where services have been performed in accordance with the terms of respective contracts with customers.

(L) INCOME TAXES

TMA accounts for income taxes using Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Income Taxes. Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under SB ASC 740 the effect on the deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. TMA records valuation allowances against deferred tax assets as deemed necessary.

Per FASB ASC 740-10-20, the Corporation follows the recognition requirements for uncertain tax positions as required by generally accepted accounting principles in the United States of America. Income tax benefits are recognized for income tax positions taken on expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Corporation has analyzed tax positions taken for filing with the Internal Revenue Service (IRS) and all state jurisdictions where it operates.

In accordance with guidance in ASC 740-10-30-27, the Corporation uses a “separate return” method to allocate current and deferred taxes or benefits to members of the consolidated return group (“TMA and subsidiaries”) by applying ASC 740 to each member as if they were separate tax payers. Under the “separate return” method, the subsidiary is assumed to file a separate return with the taxing authority, thereby reporting its taxable income or loss and paying the applicable tax to or receiving the appropriate refund from the parent. Management concluded that no provision for income tax is required in the Corporation’s financial statements as a result of uncertain tax positions.

(M) RELATED PARTIES

Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise).

(N) FINANCIAL INSTRUMENTS

Financial assets and liabilities are recognized when the Corporation becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

Derivative financial instruments

The Corporation, when deemed appropriate, uses derivatives as a risk management tool to mitigate the potential impact of certain market risks. The primary market risks managed by the Corporation through the use of derivative instruments is interest rate risk. All derivatives are carried at fair value in our balance sheet in the following line items, derivative financial liabilities as applicable. The cash flow impact of the Corporation’s derivative instruments is primarily included in the statement of cash flows in net cash provided by operating activities.

(O) FAIR VALUE - DEFINITION AND HIERARCHY

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In determining fair value, the Corporation uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The valuation techniques used by the Corporation to determine fair value are consistent with the income approaches. The Corporation determines fair value based on assumptions that market participants would use in pricing an asset or liability in the principal or most advantageous market. When considering market participant assumptions in fair value measurements, the following fair value hierarchy distinguishes between observable and unobservable inputs, which are categorized in one of the following levels:

- Level 1 – Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access

- Level 2 – Valuations based on inputs, other than quoted prices included in Level 1, that are observable either directly or indirectly

- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Fair value is a market-based measure, based on assumptions of prices and inputs considered from the perspective of a market participant that are current as of the measurement date, rather than an entity-specific measure. Therefore, even when observable inputs are not readily available, the Corporation's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date.

The availability of valuation techniques and observable inputs can vary from investment to investment and are affected by a wide variety of factors, including the type of investment, whether the investment is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the investments existed. Accordingly, the degree of judgment exercised by the Corporation in determining fair value is greatest for investments categorized in Level 3. In some cases, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In such cases, the fair value measurement is generally categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

(P) LEASES

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, "Leases (Topic 842)" ("ASU 2016-02"), which requires lessees to record most leases on their balance sheets but recognize the expenses on their statements of operations in a manner similar to current accounting rules. ASU 2016-02 states that a lessee would recognize a lease liability for the obligation to make lease payments and a right-to-use asset for the right to use the underlying asset for the lease term. The new standard is effective for interim and annual periods beginning after December 15, 2020 (i.e. calendar periods beginning on January 1, 2021) on a modified retrospective basis. The Corporation performed early adoption of the ASU 2016-02 on a modified retrospective basis as of April 1, 2019.

The Corporation is a lessee in several non-cancellable operating leases, primarily for office space. The Corporation accounts for leases in accordance with ASC Topic 842, Leases. The Corporation determines if an arrangement is or contains a lease at contract inception. The Corporation recognizes a right-of-use (ROU) asset and a lease liability at the lease commencement date.

For operating leases, the lease liability is initially and subsequently measured at the present value of the unpaid lease payments at the lease commencement date. For finance leases, the lease liability is initially measured in the same manner and date as for operating leases and is subsequently measured at amortized cost using the effective-interest method. Key estimates and judgments include how the Corporation determines the discount rate it uses to discount the unpaid lease payments to present value, lease term and lease payments.

ASC 842 requires a lessee to discount its unpaid lease payments using the interest rate implicit in the lease or, if that rate cannot be readily determined, its incremental borrowing rate. Generally, the Corporation cannot determine the interest rate implicit in the lease because it does not have access to the lessor's estimated residual value or the amount of the lessor's deferred initial direct costs. Therefore, the Corporation generally uses its incremental borrowing rate as the discount rate for the lease. The Corporation's incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms. Because the Corporation does not generally borrow on a collateralized basis, it uses the interest rate it pays on its non-collateralized borrowings as an input to deriving an appropriate incremental borrowing rate, adjusted for the amount of the lease payments, the lease term and the effect on that rate of designating specific collateral with a value equal to the unpaid lease payments for that lease. The lease term for all of the Corporation's leases includes the non - cancellable period of the lease plus any additional periods covered by either a Corporation option to extend (or not to terminate) the lease that the Corporation is reasonably certain to exercise, or an option to extend (or not to terminate) the lease controlled by the lessor.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments, owed over the lease term (which includes termination penalties the Corporation would owe if the lease term assumes Corporation exercise of a termination option);
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the lease commencement date;
- Amounts expected to be payable under a Corporation-provided residual value guarantee; and
- The exercise price of a Corporation option to purchase the underlying asset if the Corporation is reasonably certain to exercise the option.

The ROU asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for lease payments made at or before the lease commencement date, plus any initial direct costs incurred less any lease incentives received.

For operating leases, the ROU asset is subsequently measured throughout the lease term at the carrying amount of the lease liability, plus initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received.

Lease expense for lease payments is recognized on a straight-line basis over the lease term.

ROU assets for operating and finance leases are periodically reduced by impairment losses. The Corporation uses the long-lived assets impairment guidance in ASC Subtopic 360-10, Property, Plant, and Equipment – Overall, to determine whether a ROU asset is impaired, and if so, the amount of the impairment loss to recognize.

The Corporation monitors for events or changes in circumstances that require a reassessment of one of its leases. When a reassessment results in the remeasurement of a lease liability, a corresponding adjustment is made to the carrying amount of the corresponding ROU asset unless doing so would reduce the carrying amount of the ROU asset to an amount less than zero. In that case, the amount of the adjustment that would result in a negative ROU asset balance is recorded in profit or loss.

Operating lease ROU assets are presented as operating lease right of use assets on the balance sheet. The current and the long-term portion of operating lease liabilities are presented separately as operating lease liabilities on the balance sheet.

(Q) COMMITMENTS AND CONTINGENCIES

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

(R) RECLASSIFICATIONS

The Corporation has reclassified certain amounts relating to its prior period results to conform to its current period presentation. These changes were mainly made from Prepaid expenses which was reclassified between current and non-current. These changes have not impacted the results of operations of prior periods.

2 SIGNIFICANT RISKS AND UNCERTAINTIES INCLUDING BUSINESS AND CREDIT CONCENTRATIONS

The Corporation is subject to credit risk to the extent any financial institution or customer with which it conducts business is unable to fulfil contracted obligations on its behalf. Management monitors the financial condition of those financial institutions and counterparties.

The Corporation's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents, amounts due from the parent company and equity securities.

As described in Note 1 (j), TMA entered in agreement with TML according to which TML have appointed TMA as a contract service provider for providing onsite software development services. Accordingly, all revenue of TMA comes from TML, the parent company of TMA. For the summary of all transactions of TMA with TML, refer to Note 23.

Total amount of revenue recorded for the year ended March 31, 2022 and 2021 was $1,100,057 and $992,012,421, respectively. Total amount due from the parent company as of March 31, 2022 and 2021 was $27,261,276 and $111,497,948, respectively. Total amount of revenue, which was directly contracted by TMA and remitted to the Parent company for the year ended March 31, 2022 and 2021 amounted to $14,977,856 and $22,211,946, respectively.

For information about revenue and accounts receivables concentration, on revenue contracted directly by TMA, refer to Note 4.

3 CASH AND CASH EQUIVALENTS

As of March 31, cash and cash equivalents consisted of the following:	2022	2021
Current accounts with banks	5,168,697	6,671,655
Money market mutual funds	3,000,000	-
	8,168,697	6,671,655

The Corporation places its cash on deposit with financial institution in the United States of America. Cash and cash equivalents are subject to credit risk to the extent those balances exceed applicable Federal Deposit Insurance Corporation limitations. The Federal Deposit Insurance Corporation covers $250,000 for substantially all depository accounts.

4 ACCOUNTS RECEIVABLE, NET

TMA in certain cases may enter into contracts with customers based in the USA in its own name and will render the agreed onsite services to TML. Revenue contracted directly by TMA and subsequently transferred back to TML has been treated as agency transactions for the purpose of these financial statements and accordingly presented on net basis.

As of March 31, accounts receivable consisted of the following:	2022	2021
Amounts due for services rendered and billed	3,903,871	5,488,320
Allowance for doubtful accounts	(1,629,154)	(660,076)
Amounts due for services rendered and billed, net	2,274,717	4,828,244
Amounts due for services rendered, not billed	1,051,333	520,868
	3,326,050	5,349,112

Bad debt write-off was $51,654 and $321,352 for the year ended March 31, 2022 and March 31, 2021, respectively.

(A) - TRADE RECEIVABLES: CREDIT RISK

The credit periods offered to customers vary according to the credit risk profiles of, and the invoicing conventions established in, the entity's markets. The contractual terms on invoices issued to customers vary and are payable upon receipt or immediate to within 120 days.

Aging analysis of trade receivables, is as follows:

	Less than 30 days	Between 30 to 60 days	More than 60 days	Total
Accounts receivable, gross as of March 31, 2022	1,083,110	873,330	1,947,431	3,903,871
Accounts receivable, gross as of March 31, 2021	3,963,590	544,112	980,618	5,488,320

(B) - REVENUE CONTRACTED DIRECTLY BY TMA AND ACCOUNTS RECEIVABLES CONCENTRATION

The Corporation provides services to customers in diversified customer base and geographic regions and, therefore, has low concentration of credit risk. The Corporation continuously evaluates the credit worthiness of its customers and generally does not require collateral.

Billed accounts receivable concentrations:

Two customers had accounts receivables balances that accounted for more than 10% of gross accounts receivables balance as of March 31, 2022. Total amount of accounts receivables balances of these customers amounted to $1,239,765, or 33% of gross accounts receivables balance as of March 31, 2022.

Accounts receivable concentration as of March 31, 2022

	Amount	Concentration, %
Customer 2	$793,765	21%
Customer 3	$446,000	12%
Customer 4	$302,500	8%

Three customers had accounts receivables balances that each individually accounted for more than 10% of gross accounts receivables balance as of March 31, 2022. Total amount of accounts receivables balances of these customers amounted to $2,866,397, or 52% of gross accounts receivables balance as of March 31, 2022.

Accounts receivable concentration as of March 31, 2021

	Amount	Concentration, %
Customer 1	$1,784,852	31%
Customer 2	$679,993	12%
Customer 3	$401,552	7%

Revenue from 2 customers, which individually accounted for 10% or more of total revenue contracted directly by TMA amounted to $5,867,487 for the year ended March 31, 2022, or 41% from total revenue contracted directly by TMA.

Concentration of revenue contracted directly by TMA for the year ended March 31, 2022

	Amount	Concentration, %
Customer 1	$3,623,487	25%
Customer 4	$2,244,000	16%
Customer 5	$1,245,695	9%

Revenue from 3 customers, which individually accounted for 10% or more of total revenue contracted directly by TMA amounted to $8,451,282 for the year ended March 31, 2022, or 38% from total revenue contracted directly by TMA.

Concentration of revenue contracted directly by TMA for the year ended March 31, 2021

	Amount	Concentration, %
Customer 1	$3,737,070	17%
Customer 2	$2,443,734	11%
Customer 3	$2,270,478	10%

5 NOTES RECEIVABLE/ DUE FROM AFFILIATED COMPANIES

(a) - Notes Receivable from Affiliated Companies

Notes receivable from affiliated companies consist of the following as of March 31, 2022:

Affiliated company	Note amount	Accrued interest	2022	2021
Lightbridge Communications Corporation	32,000,000	211,781	3,150,713	5,150,105
Lightbridge Communications Corporation	2,000,000	25,267	2,025,267	2,000,651
Lightbridge Communications Corporation	1,500,000	14,283	1,514,283	-
Comviva Technologies Americas Inc.	20,000,000	30,655	20,030,655	-
Tech Mahindra Servicos de Informatica LTDA*	3,000,000	328,810	-	-
Notes receivable from Affiliated Companies			26,438,932	7,000,000
Accrued interest			281,986	479,566
Total			**26,720,918**	**7,479,566**

All notes receivable from affiliated companies are unsecured, with maturity less than one year and carry interest at market rates ranging between Libor + 1% and Libor +2%. Accrued interest income from notes receivable from affiliated companies is included in prepaid expenses and other current assets.

* The note was overdue and an impairment provision was raised in the prior year for the carrying amount of $3,328,810. During the current year the note was settled by the affiliate and the provision was reversed.

(b) - Due from affiliated companies

The balance due from affiliates includes a balance of $ 4 million (2021: $1.3 million) which is net of provision.

6 INCOME TAXES

TMA accounts for income taxes under the provisions of the FASB ASC 740, Income Taxes, as described in Note 1 above.

Current income tax expense consists of the following:

Current income tax expense consists of the following:	**2022**	2021
Federal	10,524,448	13,449,565
State	4,119,752	4,586,178
	14,644,200	**18,035,743**
Deferred income tax expense benefit consists of the following:	2022	2021
Federal	2,467,478	(4,640,009)
State	894,370	(1,765,714)
Total	**3,361,848**	**(6,405,723)**
Total current and deferred income tax expense	**18,006,048**	**11,630,020**

Deferred tax asset consists of the following:	**2022**	**2021**
Federal	21,081,166	24,393,072
State	3,960,122	4,854,492
	25,041,288	**29,247,564**

As of March 31, 2022, and 2021, TMA had utilized all federal net operating losses (NOLs) available to be utilized for the respective years which were carried forward from prior years. TMA had utilized all state net operating losses (NOLs) available to be utilized for the respective years which were carried forward from prior years. TMA expects to be able to utilize the entire deferred tax benefit, therefore, no valuation allowance has been recorded to reduce the asset.

In accordance with the tax sharing arrangement between the Corporation and its wholly owned subsidiary, LCC, the Corporation recorded an amount payable to LCC as of March 31, 2022 and 2021, of $2.8 million and $2.7 million for LCC's NOL that the Corporation is able to utilize as part of filing a consolidated Federal income tax return. The amount payable to LCC was during the 2021 financial year. The closing amount of the deferred tax asset consists primarily of LCC's NOL.

In the ordinary course of business there are many transactions with affiliated companies that affect the calculation and estimation of the Corporation's tax liability. Although management believes that the Corporation's tax estimates are reasonable, there is no assurance that the final determination of tax liability will not be different from what is reflected in the Corporation's historical income tax provisions and accruals. As of March 31, 2022, the Corporation's tax years from 2016 to 2022 are open for examination by Federal and state tax authorities.

7 PROPERTY AND EQUIPMENT

Property and equipment, net, consisted of the following as of March 31,

	2022	2021
Plant and machinery	26,764,034	26,764,034
Computer and software	71,895,004	55,391,707
Furniture and equipment	1,747,236	1,747,039
Leasehold improvements	1,404,822	1,404,822
Office equipment	1,378,289	1,359,252
Accumulated depreciation	(85,075,221)	(73,614,474)
	18,114,164	**13,052,380**

Reconciliation of carrying value of property and equipment for the year ended March 31, was as follows:

	2022	2021
Carrying value at the beginning of the year	**13,052,380**	14,107,219
Additions	**16,594,607**	9,802,392
Disposals	**-**	(2,217,826)
Accumulated depreciation on disposals	**-**	2,161,921
Depreciation	**(11,532,823)**	(10,801,326)
Carrying value at the end of the year	**18,114,164**	**13,052,380**

8 INTANGIBLE ASSETS ACQUIRED THROUGH BUSINESS COMBINATIONS

At March 31, intangible assets are summarized as follows:

	2022	2021
Customer lists	**23,424,422**	23,424,422
Accumulated amortization	**(16,694,059)**	(14,787,322)
	6,730,363	8,637,100

9 INVESTMENTS IN SUBSIDIARIES

Total	**165,077,638**	**139,665,861**

16 ACCRUED EXPENSES AND OTHER FINANCIAL LIABILITIES AND OTHER NON-CURRENT FINANCIAL LIABILITIES (CONTINUED)

Other non-current financial liabilities consisted of the following at March 31:

	2022	2021
Financial liability under license agreements – long-term portion	**33,840,275**	60,310,635
Contingent consideration – long-term portion	**85,426,939**	14,729,305
Other payroll related liabilities – long-term portion	**5,012,034**	3,973,390
Accrued payroll related taxes - long-term portion (*)	**-**	10,405,060
Total	**124,279,248**	**89,418,390**

* Due to the impact of the Covid-19 pandemic the Corporation was allowed a deferral of the employer portion of social security tax deposits for the period between April and December 2020, TMA paid $9,761,556 of the deferral amount during December 2021. TMA entered into a tax credit and deferral agreement.

The following table shows the remaining undiscounted cash flows for the financial liability under the license agreements:

	2022
Future obligation commitment	
Year one	**27,928,750**
Year two to four	**37,007,908**
Total undiscounted liability	**64,936,658**
Imputed interest	**3,167,633**
Total amortized cost under contractual obligation	**61,769,025**

17 COMMON STOCK

Ordinary shares of $1 each	**2022 Number of shares**	**2021 Number of shares**
Issued and fully paid	**300,391,874**	170,521,745

The Corporation is authorized to issue 450,000,000 shares of common stock, par value $1 per share, of which 300,391,874 and 170,521,745 shares were issued and outstanding on March 31, 2022 and 2021 respectively.

The sole shareholder, TML; being the sole owner of common stock is entitled to one vote per share, and to receive dividends and, upon liquidation or dissolution, is entitled to receive all assets available for distribution to stockholders. There are no preemptive or other subscription rights and there are no redemption or sinking fund provisions with respect to such shares.

18 EMPLOYEE BENEFITS

TMA's medical benefits are provided under a partially self-insured plan and a contract with an insurance company for major stop-loss coverage. Under the insurance contract, TMA is liable for all expenses under an aggregate annual maximum based on the number of persons covered. Management has included in accrued expenses claims payable and an estimate of incurred but not paid claims as of the year end.

Employees of TMA may be allotted/granted shares in TML in terms of several Employee Stock Option plans. The allotment of options to eligible employees is decided by the Compensation Committee which is comprised of certain directors of TML. However, it is the opinion of management that the options granted to the employees relate to the services rendered to the parent company and therefore need not be accounted for by TMA under FASB ASC 718, Compensation - Stock Compensation as these options relate to shares of TML.

The Corporation maintains a nonqualified deferred compensation plan established under Section 457(b) of the Internal Revenue Code for eligible staff.

19 LEASES

Information as of and for the year ended March 31, 2022:

The Corporation has several non-cancellable operating leases, primarily for office space that expire over the next five years. These leases generally contain renewal options for periods ranging from two to five years. Because the Corporation is not reasonably certain to exercise these renewal options, the options are not considered in determining the lease term and associated potential option payments are excluded from lease payments. The Corporation's leases generally do not include termination options for either party to the lease or restrictive financial or other covenants. Payments due under the lease contracts include mainly fixed payments.

Total lease cost for the year ended March 31, 2022 amounted to $4,286,525.

Amounts reported in the balance sheet as of March 31, 2021 were as follows:

	2022	2021
Operating lease ROU assets	**6,041,252**	10,409,733
Operating lease liabilities – short-term	**3,050,583**	4,256,480
Operating lease liabilities – long-term	**3,941,755**	5,695,523
Total operating lease liabilities	**6,992,338**	9,952,003

Maturities of operating lease liabilities under non-cancellable leases as of March 31, 2022 are as follows:

	Operating leases
In 1 year	3,171,150
In 2 to 5 years	4,044,304
Thereafter	-
Total undiscounted lease payments	7,215,454
Less: imputed interest	(223,116)
Total lease liabilities	6,992,338

Other information related to leases as of March 31, 2022 was as follows:

	2022	2021
Supplemental cash flow information		
Cash paid for amounts included in the measurement of lease liabilities:	**(4,903,139)**	(4,507,056)
ROU assets obtained in exchange for lease obligations	**938,723**	1,796,674
Reductions to ROU assets resulting from reductions to lease obligations	**(5,307,204)**	(1,672,332)
Weighted average remaining lease term	**2 years**	2 years
Weighted-average discount rate	**2%**	2%

20 COMMITMENTS AND CONTINGENCIES

The Corporation is involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Corporation's financial position, results of operations, or liquidity.

21 MERGER WITH COMPANIES UNDER COMMON CONTROL

Tech Talenta, Inc.

On February 28, 2022 the Board of Directors approved the transfer of the entire issued and outstanding capital of Tech Talenta Inc. ("TechT") to TMA. The separate existence of TechT ceased on March 1, 2022, which management considered as the effective date of the merger. The results of operations for March 1, 2022 to March 31, 2022 in the amount of $55,284 was included in TMA's results as though the transfer of net assets had occurred at March 1, 2022. From that date to the end of the period and all future periods the results of TechT will be those of the combined operations. The substance of the TechT transaction did not result in a change of reporting entity for TMA and was prospectively accounted for as described above.

Merger gain	3,826,860

22 FINANCIAL INSTRUMENTS

Interest rate swap - designated as a hedge

Derivative financial instruments are used by the Corporation principally in the management of its interest rate exposures. The Corporation does not hold or issue derivative financial instruments for trading purposes. For derivative instruments that are designated and qualify as cash flow hedges, the gain or loss on the effective portion of the derivative is reported as a component of other comprehensive income and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings.

Interest Rate Swaps. The Corporation uses interest rate swaps to manage its interest rate risk. The swaps are designated as cash flow hedges with the changes in fair value recorded in AOCI and as a derivative asset or liability, as applicable. The swaps settle periodically in arrears with the related amounts for the current settlement period payable to, or receivable from, the counter-parties included in accrued liabilities or receivables, respectively, and recognized in earnings as an adjustment to Interest Expense from the underlying debt to which the swap is designated. As of March 31,2022 and 2021, the Corporation had a series of U.S. dollar denominated interest rate swaps outstanding with effectively fixing the interest on variable rate debt, exclusive of lender spreads, on a floating leg for a specified notional principal amount.

The Corporation's interest rate swap derivative financial instruments at March 31, 2022 are as follows:

	Average Contracted Fixed Interest Rate		Notional Principal Value		Fair Value assets (liabilities)	
	2022	**2021**	**2022**	**2021**	**2022**	**2021**
	%	**%**				
Cash Flow Hedges

	(1,292,348)	83,828,462

24 FAIR VALUE HIERARCHY

The following tables summarize those assets and liabilities measured at fair value on a recurring basis:

The fair values of the Corporation's financial assets and liabilities by category as at March 31, 2022 were as follows:

	Level 1	Level 2	Level 3	Total
Assets				
Equity securities	1,887,638	-	-	1,887,638
Liabilities				
Derivative financial liabilities	2,291,683	-	-	2,291,683
Total	4,179,321	-	-	4,179,321

The fair values of the Corporation's financial assets and liabilities by category as at March 31, 2021 were as follows:

	Level 1	Level 2	Level 3	Total
Assets				
Equity securities	13,000,001	-	-	13,000,001
Liabilities				
Derivative financial liabilities	(481,151)	-	-	(481,151)
Total	12,518,850	-	-	12,518,850

Liabilities related to contingent consideration that are measured at fair value in connection with certain acquisitions have not been categorized in the fair value hierarchy but are included in Note 16.

25 SUBSEQUENT EVENTS

On May 12, 2022 the board resolved to incorporate a wholly owned subsidiary in Texas, USA to enter into a new line of business activity as part of Mahindra & Entertainment - TV Animation, Gaming and VFX by setting up a studio that will create extra ordinary content & experience powered by technology, developers and artists. It is proposed to incorporate a new company with an authorized share capital of 1000 shares of USD 1 each.

The Corporation has evaluated subsequent events through May 24, 2022, the date the financial statements were available to be issued. No significant events occurred subsequent to the balance sheet date but prior to May 24, 2022, that would have a material impact on the financial statements.

DIRECTORS' REPORT TO THE SHAREHOLDERS

Your Directors present their Report together with the audited accounts of your Company for the year ended March 31, 2022.

For the year ended March 31,	**2022 US$**	2021 US$
Income	**29,369,136**	29,624,656
Profit/(Loss) before tax	**5,354,560**	6,628,284
Profit/(Loss) after tax	**3,957,992**	4,482,871

Review of Operations:

During the year under review, your company recorded an income of US$ 29,369,136 decrease by 1% over the previous year income of 29,624,656. Profit after tax for the current year was decreased to US$ 3,957,992 compared with previous year US$ 4,482,871.

On January11, 2017 the Company has established an international branch in India at Hyderabad and transactions for this branch are included in these consolidated financial statements.

Board

The Board of Directors are Mr. Krishna Bala, Mr. Manish Vyas and Mr. Lakshmanan Chidambaram.

Dividend

During the year under review, Board has approved a final dividend at the rate of US$ 40 per share amounting to US$ 4,000,000 for the financial year 2021- 22 and for the financial year 2020-21 it was US$ 5 million.

Outlook for the current year and Impact of Covid-19

During the year the incidence of Covid-19 developed into a global pandemic. The directors have assessed the impact of Covid-19 on the business at the balance sheet date and consider that the company's assets are expected to realise their carrying value in the ordinary course of business and that all known liabilities have been included. The company has not experienced any adverse impact on the demand for its services which continue to be provided to its customers with minimal disruption. Despite the worldwide uncertainty caused by Covid-19, and its potential to impact the company, the directors are confident that due to the nature of the company's customer base and its current financial strength, any potential detrimental effect on its business is not expected to be significant.

Acknowledgements:

Your Directors gratefully acknowledge the contributions made by the employees towards the success of the Company. Your Directors also thank the customers, suppliers, bankers, State and Federal Government Authorities and the shareholder/s for the co-operation and assistance received from them.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Stockholders
of Tech Mahindra Technologies, Inc.

Opinion

We have audited the accompanying financial statements of Tech Mahindra Technologies, Inc., a Delaware corporation, which comprise the balance sheets as of March 31, 2022 and 2021, and the related statements of income, statements of income, stockholder's equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Tech Mahindra Technologies, Inc. as of March 31, 2022 and 2021, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of India branch of Tech Mahindra Technologies, Inc., which statements reflect total assets of approximately $7,936,000 and $5,987,000, as of March 31, 2022 and 2021, respectively, and total revenues of approximately $3,763,000 and $3,908,000, respectively, for the years then ended. Those statements were audited by other auditors, whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for India Branch of Tech Mahindra Technologies, Inc., is based solely on the report of the other auditors.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Tech Mahindra Technologies, Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech Mahindra Technologies, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Tech Mahindra Technologies, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech Mahindra Technologies, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

See accompanying notes to consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Nature of operations

Tech Mahindra Technologies Inc. the “Company” was incorporated as a Delaware corporation on September 28, 2000. The Company was formed to provide software development, professional engineering and information services. The Company is now a wholly owned subsidiary of Tech Mahindra Limited (the parent company). During 2014, the Company changed its name from Satyam Technologies Inc. to Tech Mahindra Technologies Inc. On January 11, 2017, the Company has established an international branch in India, the transactions for this are included in these consolidated financial statements.

2. Summary of significant accounting policies

This summary of significant accounting policies of Tech Mahindra Technologies Inc. is presented to assist in understanding the Company’s consolidated financial statements.

Basis of presentation and consolidation

The consolidated financial statements are presented on the accrual method of accounting as prescribed by the generally accepted accounting principles (GAAP) in the United States of America. The consolidated financial statements include the foreign branch in India. All inter-company balances and transactions have been eliminated.

Use of estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

For the purposes of the statements of cash flows, cash and cash equivalents are defined as highly liquid investments with maturity dates of three months or less. Included in the cash equivalents is the certificate of deposits with original maturities greater than three months and remaining maturities less than one year.

Accounts receivable

The Company carries its accounts receivable at cost less an allowance for doubtful accounts. Allowance for doubtful accounts is maintained with respect to accounts determined to be uncollectible in the current period. Management determines the allowance for doubtful accounts based upon historical experience and assessment of the collectability of existing specific accounts. Accounts are written off against the allowance when they are deemed uncollectible. At March 31, 2022 and 2021, the Company considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required.

Property and equipment

Property and equipment are recorded at cost less depreciation. Depreciation and amortization are computed using the straight-line method over useful lives, which range from 3 to 5 years. Leasehold improvements are amortized over the shorter of the useful life of the related assets or remaining lease term.

Depreciation expenses were $207,660 and $262,101 during the years ended March 31, 2022 and 2021, respectively.

Expenditures for maintenance and repairs which are not for the permanent improvement, betterment or restoring property are charged directly to appropriate operating accounts at the time the expense is incurred.

Impairment of long-lived assets

The Company is required, under current accounting standards to review the carrying value of its long-lived assets, whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. As of March 31, 2022, management has determined that no impairment exists. Accordingly, no adjustments have been made to the carrying values of long-lived assets.

Income taxes

The Company accounts for income taxes in accordance with the FASB ASC 740 (formerly SFAS No. 109, “Accounting for Income Taxes”), which requires an asset and liability approach to financial accounting and reporting of income taxes. Deferred income tax assets and liabilities are computed annually for differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized.

Financial Accounting Standards Board issued FIN 48 now known as ASC No. 740–10 “Accounting for Uncertainty in Income Taxes”, the Company adopted FIN 48, thereafter, recognizes the tax benefits from uncertain tax positions only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the consolidated financial statements from such positions are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement.

In evaluating the Company’s tax provisions and accruals, future taxable income, and the reversal of temporary differences, interpretations and tax planning strategies are considered. The Company believes their estimates are appropriate based on current facts and circumstances.

Revenue recognition

The Company earns revenue from software development and consulting services. Revenue is recognized upon transfer of control of promised services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for services are either on a time bound fixed price or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

In arrangements for engineering services with customers, the Company has the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering engineering services and other related services as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the company is unable to determine the standalone selling price, the company uses the expected cost plus margin approach in estimating the standalone selling price. For time and material related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts/ incentives amount to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the Company recognizes the liability based on its estimate of the customer’s future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs. For the years ended March 31, 2022 and 2021, volume discounts which reduced the revenue amounted to $129,900 and $236,250, respectively.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

Contract Assets and Contract Liabilities

A contract asset results when goods or services have been transferred to the customer, but payment is contingent upon a future event, other than the passage of time. The Company does not have any material unbilled receivables, therefore, does not have any contract assets. The Company only has accounts receivable as disclosed on the face of the balance sheet. Included in the accounts receivable as of March 31, 2022 and 2021, total unbilled of $527,409 and $675,723, which refers to the revenue that was earned but not billed as of the end of the year.

The Company records contract liabilities to unearned revenue when the Company receives customer payments in advance of the performance obligations being satisfied on the Company's contracts. As of March 31, 2022 and 2021, unearned revenue amounted to $0 and $210,003, respectively.

Employee benefits

401(k) savings plan

The Company has established a defined contribution savings plan under Section 401(k) of the Internal Revenue Code, which covers substantially all employees who meet minimum age and services requirements and allows participants to defer a portion of their annual compensation on a pre-tax basis. Company contributions to the plan may be made at the discretion of the Board of Directors. For the years ended March 31, 2022 and 2021, the Company did not make any contribution to the plan.

Gratuity

The Company accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method for the Company. Actuarial gains and losses are recognized in full in other comprehensive income and accumulated in equity in the period in which they occur.

Provident fund

The eligible employees of the Company are entitled to receive the benefits of Provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary (currently at 12% of the basic salary) which are charged to the statement of income. The provident fund contributions are paid to the Regional Provident Fund Commissioner by the Company. The Company has no further obligations for future provident fund and superannuation fund benefits other than its annual contributions.

Foreign currency

Foreign translation adjustments

The Company's other comprehensive income consists of foreign currency translation adjustments from the branch not using the U.S. dollar as its functional currency.

All assets and liabilities are translated using the exchange rate on the date of the balance sheet. Revenues, expenses, and net income are translated using prevailing on the date of the transaction. The foreign exchange adjustment that results from these translations appears in other comprehensive income.

Foreign currency transactions are recorded at exchange rates.

Foreign exchange gain and loss

Transaction gain and losses are included in net income which results from transactions denominated in a currency other than an its functional currency.

Reclassification

Certain prior year amounts have been reclassified to conform to the current year presentation. These changes have no impact on previously reported consolidated net income or consolidated stockholder's equity.

New accounting pronouncements

In February 2016, the Financial Accounting Standards Board issued a new accounting pronouncement that requires lessees to record assets and liabilities on the balance sheet for lease-related rights and obligations and disclose key information about certain leasing arrangements. This new standard establishes a right-of-use ("ROU") model that requires a lessee to recognize a ROU assets and lease liability on the balance sheet for all leases with a term longer than 12 months. Leases will be classified as financing or operating, with classification affecting the pattern of expense recognition in the statement of operations. ASU 2019-10 delayed this one year to years beginning after December 15, 2020, however, as a result of COVID 19 this is now move to another year beginning after December 15, 2021 or the 2022 calendar year. The Company will the adopt the standard, including the related amendments, using the modified retrospective approach, applying the provisions of the new standard on its effective date. Management is currently evaluating the potential impact that the adoption of this standard will have on the Company's financial position, results of operations, and related disclosures.

3. Risks and uncertainties

In the normal course of business, the Company maintains its cash balances in a financial institution, which at times may exceed federally insured limits. The Company has not experienced any losses in such account and believes it is not subject to any significant credit risk as all its deposits are maintained in a high-quality financial institution. The balance in excess of the FDIC limits at March 31, 2022 and 2021 was approximately $2,756,000 and $3,682,000, respectively.

The Company operates in the computer industry. The fluctuations in information technology spending caused by market conditions or availability of qualified personnel to complete the projects may have significant effect on the profitability of the Company.

The Company may be exposed to currency risk which is the potential risk of loss from fluctuating foreign exchange rates related to its foreign transactions and foreign operations.

COVID-19 has spread across most of the world including the United States of America where the Company has its operations. However, the Company's operations had not affected significantly for the current year. The impact of COVID 19 may be different from that estimated by the Company and the Company will continue to closely monitor any material changes in future economic conditions.

4. Major customers and subcontractors

Major customers

Accounts receivable balances are typically unsecured and are derived from revenues earned from customers. For the year ended March 31, 2022, the Company had three major customers, one of which is the Company's parent company (See Note 5. Related party transactions). These three customers accounted for approximately 89% and 80% of revenue and accounts receivable, respectively. For the year ended March 31, 2021, the Company had three major customers (including the Company's parent company) which accounted for 90% and 72% of revenue and accounts receivable, respectively.

Major subcontractors

For the year ended March 31, 2022, the Company had four major service providers which represents approximately 80% of the total subcontracting and 68% of accounts payable. For the year ended March 31, 2021, one supplier accounted for 46% of subcontracting expense and 45% accounts payable,

5. Related party transactions

The Company is wholly owned subsidiary of Tech Mahindra Limited, an India based company (parent company).

The Company has entered into professional service agreements with its parent company, including with Tech Mahindra Network Services International, Inc., Tech Mahindra Americas, Inc. and Tech Mahindra Growth Factories Limited, which are subsidiaries of the parent company.

In addition, the Company through its Branch made contribution to Tech Mahindra Foundation (a non-profit organization) the Corporate Social Responsibility (CSR) arm of Tech Mahindra.

Transactions based upon terms agreed between the parties during the years ended March 31, 2022 and 2021 are as follows:

	March 31, 2022	March 31, 2021
Services Received / Operating Expense from:		
Tech Mahindra Limited (for rent of the foreign branch)	**$666,146**	$670,994
Tech Mahindra Americas, Inc. (for other operating and reimbursable expenses)	**1,309,515**	1,532,206
	$1,975,661	$2,203,200

	$300,238	$151,158
Contribution made towards CSR - India Branch		
Tech Mahindra Foundation	**$40,721**	$41,376

Loan receivable from Tech Mahindra (Americas) Inc.

On March 30, 2021, the Company entered into loan agreement with Tech Mahindra (Americas) Inc., the borrower, a related party, for an unsecured loan of $5 million. The loan is subject to interest of LIBOR plus eighty basis points (~ 1% p.a.) per annum on the amount borrowed and the interest is calculated from the date of disbursement. The interest is payable at the end of the tenure of the loan. The borrower agrees to repay the loan amount on or before September 30, 2021, with the borrower's option to repay the loan either in full or in installments. This was fully collected during 2022.

6. Property and equipment, net

Property and equipment consisted of the following:

	March 31, 2022	March 31, 2021
Furniture and fixtures	**$49,521**	$49,521
Office equipment	**4,438**	4,438

7. Software

The software pertains to the total costs of $449,987 incurred when the Company obtained a contract for the development of a commercial product beginning February 2017. Costs incurred by the Company were capitalized and reported as work in progress on the balance sheet as of March 31, 2020. During the year March 31, 2021, the Company began amortization when the product first became available for general release to customers. The annual amortization is computed using the straight-line method over the estimated economic life of the product of 3 years, as this amount is greater than amount based on the ratio of current revenue and total expected revenue.

The accumulated amortization as of March 31, 2022 and 2021 is $299,991 and $149,996, respectively.

8. Income taxes

Deferred tax assets and liability consist of the following as of March 31, 2022 and 2021:

Benefits paid	**(13,854)**	(8,617)
DBO at end of current period	**$75,206**	$57,995
C. Expected benefit payments for the year ending March 31:		
2022 (PY 2021)	**$-**	$6,839
2023 (PY 2022)	**1,280**	6,839
2024 (PY 2023)	**1,451**	8,754
2025 (PY 2024)	**1,478**	9,985
2026 (PY 2025)	**1,544**	11,900
2027 (PY 2026)	**1,900**	59,773
2028 (PY 2027)-2032 (PY 2031)	**79,427**	-
Total	**$87,080**	$104,090
D. Amounts recognized in statement of Profit & Loss:		
Current Service Cost	**$11,875**	$10,806
Past service cost - plan amendements	**14,513**	-
Service Cost	**26,388**	10,806
Actuarial (gains)/losses	**-**	(15,867)
Net interest on net defined benefit liability / (asset)	**4,090**	3,967
Cost recognized in P&L	**$30,478**	$(1,094)
E. Amounts recognized in Other Comprehensive income (OCI):		
Net Gain/(Loss)	**$3,298**	$(15,867)
Cumulative (Gain)/ Loss Recognized via OCI at Prior Period End	**-**	-
Cumulative (Gain)/ Loss Recognized via OCI at Current Period End	**$3,298**	$(15,867)

F. The Principal Assumptions used for the purposes of the actuarial valuation as follows:

Discount Rate(s)	**6.20%**	6.20%
Expected Rate(s) of salary increase		
Top Management	**4.00%**	4.00%
Middle Management	**4.00%**	4.00%
Other Staff	**8.00%**	8.00%

10. Grants repayable

In connection with the development of commercial product described in Note 7. Software, the Company has obtained a conditional funding contract. As per the contract, the Company will periodically receive funds up to a maximum of $270,000 and has to return the same with time value based on 5% of the gross sale value realized from marketing this product expected to be refunded over a period of 5 years after completion of development of product. As of March 31, 2022 and 2021, the outstanding grant repayable was $269,201 and $269,201, respectively.

11. Accrued compensated absences

Employees of the Company are entitled to paid vacation and sick days depending on length of service and other factors. As at March 31, 2022 and 2021, the Company accrued a total of $266,616 and $349,090, respectively, of unused vacation and sick leave. This accrued compensated absence account is included in the accrued expenses and other liabilities account.

12. Deferred payroll tax

The Coronavirus Aid, Relief, and Economic Security (CARES) Act Section 2302 permits the deferral of payment of the employer portion of social security taxes between March 27, 2020 and December 31, 2020, with 50% of the deferred amount due December 31, 2021 and the remaining 50% due December 31, 2022. The remaining balance as of March 31, 2022 is at $287,457 which is included in the accrued expenses and other liabilities account.

13. Commitments

Leases

The Company entered into a three-year non-cancelable operating lease agreement for its branch office in Hyderabad, India with its parent company. The lease agreement expired on March 1, 2020 and renewed for another three years expiring 2023. In addition, the Company also entered into lease agreements for its US offices with an unrelated party from earliest date effective April 1, 2019 and latest lease ends January 2023. The future lease payments for the year ending March 31, 2023 is $752,250.

The Company did not record the effect of deferred rent since the amount is not material.

For the years ended March 31, 2022 and 2021, the total rent expense associated with this lease is $879,963 and $870,048, respectively, which is included in selling, general and administrative expenses.

14. Common stock

Each share of common stock is entitled to one vote. The holders of common stock are also entitled to receive dividends whenever funds are legally available and when declared by the Board of Directors, subject to the prior rights of holders of all classes of stock outstanding..

During the year ended March 31, 2022, the Company's board of directors declared and paid dividend at the rate of $50 per share on the outstanding number of shares of 100,000 for the total of $5 million.

15. Subsequent events

The Company evaluated its consolidated financial statements for subsequent events through June 9, 2022, the date of the consolidated financial statements were issued.

INDEPENDENT AUDITOR'S REPORT

To: Management
CJS Solutions Group, LLC and Subsidiaries.
6440 Southpoint Parkway
Suite 300
Jacksonville, FL 32216

Opinion

We have audited the accompanying financial statements of CJS Solutions Group, LLC and its subsidiaries (Collectively referred to as the "Company"), which comprise the consolidated balance sheets as of March 31, 2022 and March 31, 2021, and the related consolidated statements of operations and comprehensive gain/(loss), consolidated statements of changes in member's equity and consolidated statements of cash flows for the periods then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of March 31, 2022 and March 31, 2021, and the results of its operations and its cash flows for the periods then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other matters

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Consolidated Supplemental Schedule of Revenues and Expenses is presented for purposes of additional analysis and are not a required part of the financial statements. The information has been subjected to the auditing procedures applied in the audit of financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AT MARCH 31, 2022 and MARCH 31, 2021

1. NATURE OF OPERATIONS

The CJS Solutions Group, LLC (the "Parent") and Subsidiaries (the "Company") is a consulting firm that specializes in providing resources to plan, manage, build, optimize and generally assist in the implementation of electronic medical records systems ("EMR") in hospitals and health care systems.

The consolidated financial statements of the Company includes The CJS Solutions Group, LLC d/b/a The HCI Group and its wholly owned subsidiaries, Healthcare Clinical Informatics Ltd., CJS Solutions Group Canada ULC and HCI Group Australia Pty Ltd.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF CONSOLIDATION AND CHANGE OF YEAR END

The accompanying consolidated financial statements reflect the consolidated results of the Parent and its subsidiaries for the period ended March 31, 2022 and March 31, 2021. All significant intercompany accounts and transactions have been eliminated in consolidation.

The financial year end of the Company was changed during the previous year from 31 December to 31 March so as to be coterminous with the year end of its ultimate holding company. Accordingly, the current financial statements are prepared for 15 months from January 1, 2020 to March 31, 2021 and as a result, the comparative figures stated in the income statement, statement of changes in equity, cash flow statement and the related notes are not comparable.

B. BASIS OF ACCOUNTING

These consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

C. ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires the Company to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

D. REVENUE RECOGNITION

Revenue from consulting services contracts is recognized as the services are performed and amounts are earned. The Company considers amounts to be earned once evidence of an arrangement has been obtained, services are provided, fees are fixed or determinable, and collectability is reasonably assured.

Revenues from these services and reimbursed costs for out of pocket expenses are presented on the statement of operations and comprehensive loss, net of allowances or adjustments for agreed changes to reimbursed costs.

E. COST OF REVENUE

Direct costs for employee or contractor placements consists of salaries and contract payments (mainly from hours), payroll taxes, insurance costs as well as reimbursable costs such as travel, lodging or entertainment.

F. ADVERTISING AND MARKETING

The Company expenses all advertising costs as incurred. Advertising costs incurred for the year ended March 31, 2022, were $757,557, and for the 15 months ended March 31, 2021, were $1,067,368.

G. INCOME TAXES

CJS, was formed as a Limited Liability Company. On May 5, 2017 management elected to have the entity file an income tax return as a corporation.

In accordance with guidance in ASC 740-10-30-27, the Company uses a "separate return" method to allocate current and deferred taxes or benefits to members of the consolidated return group ("TMA and subsidiaries") by applying ASC 740 to each member as if they were separate tax payers. Under the "separate return" method, the subsidiary is assumed to file a separate return with the taxing authority, thereby reporting its taxable income or loss and paying the applicable tax to or receiving the appropriate refund from the Parent.

CJS accounts for income taxes using Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Income Taxes. Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740 the effect on the deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. CJS records valuation allowances against deferred tax assets as deemed necessary.

Per FASB ASC 740-10-20, the Company follows the recognition requirements for uncertain tax positions as required by generally accepted accounting principles in the United States of America. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Company has analyzed tax positions taken for filing with the Internal Revenue Service (IRS) and all state jurisdictions where it operates.

For the foreign subsidiaries deferred tax assets are only recognized if it is probable that they will be used.

H. CASH

The Company considers all highly-liquid investments with maturities of three months or less to be cash or cash equivalents.

The Federal Deposit Insurance Corporation covers $250,000 for substantially all depository accounts held by a financial institution in the United States of America. As of March 31, 2022 and March 31, 2021, the Company had $1,900,743 and $1,538,471 respectively with financial institutions in excess of the federally insured limit.

The Financial Services Compensation Scheme covers small businesses in the United Kingdom that hold deposits at member banks up to £85,000. As of March 31, 2022 and March 31, 2021 such balances held in the United Kingdom exceeded the insured limits by $1,348,943 (£1,079,155) and $983,666 (£786,933) respectively.

I. ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

Accounts receivable are the amounts owed on invoiced contractual agreements either in process or completed by the Company. Accounts receivable are considered delinquent when payment is not received under terms described within the individual contract’s terms.

An allowance for doubtful accounts is provided for those balances considered to be uncollectible based upon historical experience and the Company’s specific review of outstanding account balances. Company policy is that accounts overdue in excess of 365 days and not subject to offsetting is a strong indicator that the receivable has potentially impaired. Bad debts are written off against the allowance when identified.

J. UNBILLED RECEIVABLES

Unbilled receivables represent accrued revenue earned and recognized on projects for which invoices have not yet been presented to the customer.

K. PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost less accumulated depreciation. Depreciation is provided by the straight-line method and is generally based on the following lives:

- Computers and technology peripherals – five years;
- Furniture and fixtures – seven years;
- Leasehold improvements – lesser of remaining life of lease or estimated useful life of equipment.

Expenditures for maintenance and repairs are charged to income as incurred. Additions and betterments are capitalized. When assets are retired or otherwise disposed, the related cost and accumulated depreciation are removed from the appropriate accounts and any resulting gain or loss is reflected in operations.

The Company annually reviews the status of property and equipment held by the Company for any impairment of those assets. Any such impairment would result in a permanent reduction in the recorded value of the asset. No such impairments existed at March 31, 2022 and March 31, 2021.

L. FOREIGN EXCHANGE RATES

The Company translates the operations and balances of its foreign subsidiaries into U.S. Dollars. Assets and liabilities are translated into U.S. Dollars at year-end exchange rates. Income and expense items are translated at the average rates of exchange prevailing during the year. Translation adjustments are included in “Other Comprehensive Loss” and “Accumulated Other Comprehensive Loss”. Transactions in currencies other than the functional currency of the related subsidiary are converted at the foreign exchange rate on the date of the transaction. Gains and losses, which result from foreign currency transactions, are included in Other Expenses.

M. GOODWILL

Goodwill resulting from business combinations represents the excess of the fair value of the consideration transferred over the fair value of the net assets acquired and liabilities assumed as of the acquisition date. During 2015, the Company elected the private company accounting alternatives provided in Accounting Standards Update (ASU) 2014-02, Intangibles – Goodwill and Other (Topic 350). Pursuant to these elections, the Company prospectively amortized goodwill on a straight-line basis over a ten-year period. Impairment testing will be performed at the entity level whenever events occur, or circumstances changes, which indicates that the fair value of the Company may be below its carrying amount.

N. IDENTIFIABLE INTANGIBLES

Identifiable definite lived intangibles are stated at fair value as of date of acquisition and are amortized over their estimated useful lives. The Company amortizes customer relationships on a straight-line basis over a six-year period. Under the provisions of (Topic 350) Intangibles - Goodwill and Other, identifiable intangible assets with definite lives are tested for impairment if conditions exist that indicate the asset might be impaired. The impairment assessments made at March 31, 2022 and March 31, 2021 did not result in any impairment charges.

O. RELATED PARTIES

All companies within the Group are considered to be related parties. Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise). The Company conducted business, involving a lease agreement with a provider in which an employee of the Company holds an interest. Transactions involving related parties are carried out on an arm’s length basis.

P. LEASES

The company determines if an arrangement is a lease at inception of the arrangement. These leases are classified as either an operating lease or a finance lease. Based on the evaluation of leases for the period ended March 31, 2022, no leases meet the criteria for classification as a finance lease. Operating leases are capitalized on the consolidated balance sheet through a right-of-use (“ROU”) asset and a corresponding lease liability. ROU assets represent the company’s right to use an underlying asset for the lease term, and lease liabilities represent the obligation to make lease payments arising from the lease.

Operating leases are included in operating lease ROU assets, current operating lease liabilities, and long-term operating lease liabilities in our consolidated balance sheets. Operating lease ROU assets and liabilities are recognized at the commencement date of an arrangement based on the present value of lease payments over the lease term. The operating lease ROU asset also includes any lease payments made to the lessor prior to lease commencement, less any lease incentives, and initial direct costs incurred. Lease expense for operating lease payments is recognized on a straight-line basis over the lease term.

The company enters into long-term contracts to lease office space in support of company operations and these have all been determined to represent operating leases.

Q. CAPITAL WORK IN PROGRESS

Capital work-in-progress are costs incurred in the construction of the new corporate office lease space. Capital work-in-progress is stated at cost and not depreciated. Depreciation on capital work-in-progress commences when the assets are ready for their intended use and have been transferred to and disclosed under the fixed assets.

3. ACCOUNTS RECEIVABLE, NET

At March 31, 2022 and March 31, 2021, accounts receivable balances were as follows:

	March 31, 2022	March 31, 2021
Amounts due for services rendered and billed	**$ 20,883,125**	$ 12,868,386
Less: allowance for doubtful accounts	**(1,040,248)**	(962,403)
Amounts due for services rendered and billed, net	**19,842,877**	11,905,983
Amounts due for services rendered, not billed	**2,837,433**	3,460,670
Total accounts receivable, net	**$ 22,680,310**	$ 15,366,653

4. INCOME TAXES

CJS accounts for income taxes under the provisions of the FASB ASC 740, Income Taxes , as described in Note 2G above.

	12 months to	15 months to
Current income tax expense consists of the following:	**2022**	2021
Federal	**$ 236,607**	$ 1,564,730
State	**62,263**	585,546
	298,870	2,150,276
Deferred income tax benefit consists of the following:		
Federal	**(1,434,107)**	(1,888,916)
State	**(343,688)**	(302,022)
	(1,777,795)	(2,190,938)
Total current and deferred income tax benefit	**$ (1,478,925)**	$ (40,662)

	March 31,	March 31,
	2022	2021
Deferred tax asset consists of the following:		
Federal	**6,960,335**	5,519,574
State	**1,961,416**	1,617,726
	$ 8,921,751	$ 7,137,300

As of March 31, 2022, CJS had incurred net operating losses (NOLs) available to be carried forward of $732,694. No deferred tax asset has been raised regarding net operating losses (NOLs) as CJS is not expected to make future taxable profits in the foreseeable future. A valuation allowance has been recognized in order to reduce the deferred tax asset value to nil.

In the ordinary course of business there are many transactions with affiliated companies that affect the calculation and estimation of the Company's tax liability. Although management believes that the Company's tax estimates are reasonable, there is no assurance that the final determination of tax liability will not be different from what is reflected in the Company's historical income tax provisions and accruals.

The Company does not anticipate any amount to be recognized related to the Company's uncertain tax position.

5. PROPERTY AND EQUIPMENT

	March 31,	March 31,
	2022	2021
At March 31, 2022 and March 31, 2021, property and equipment balances were as follows:		
Computer and software	**$2,407,123**	$3,030,205
Furniture and equipment	**171,118**	142,328
Leasehold improvements	**360,248**	360,248
Office equipment	**35,375**	35,375
Less: accumulated depreciation	**(1,554,659)**	(1,539,992)
	$ 1,419,205	$ 2,028,164

	March 31, 2022	March 31, 2021
Reconciliation of carrying value of property and equipment for the periods ended March 31, was as follows:		
Carrying value at the beginning of the year	**2,028,164**	583,748
Additions and transfers from capital work in progress	**78,064**	2,029,452
Disposals	**(672,357)**	(231,696)
Accumulated depreciation on disposals	**584,668**	211,764
Depreciation	**(599,334)**	(565,104)
Carrying value at the end of the year	**$ 1,419,205**	$ 2,028,164

Total depreciation expense for the year ended March 31, 2022 and for the 15 months ended March 31, 2021 was $977,673 and $1,103,220 respectively. Included in this depreciation amount is the depreciation of the Right-of-use asset relating to operating leases of $378,388 and $538,116 for the year ended March 31, 2022 and for the 15 months ended March 31, 2021, respectively. The depreciation policies followed by the Company are disclosed in Note 2K.

6. INTANGIBLE ASSETS, NET

	March 31, 2022	March 31, 2021
At March 31, 2022 and March 31, 2021, intangible asset balances were as follows:		
Customer contract and related relationships	**$ 32,600,000**	$32,600,000
Less: accumulated amortization	**(26,655,466)**	(21,222,133)
	$ 5,944,534	$ 11,377,867

Amortization expense for the year ended March 31, 2022 and 15 months ended March 31, 2021 was $5,433,333 and $6,791,667 respectively. The amortization policies followed by the Company are described in Note 2N.

Amortization expense of intangible assets subject to amortization for the three years succeeding March 31, 2022 is as follows:

Years ending March 31,	**$**
2023	5,433,333
2024	511,201
2025	-
	5,944,534

7. GOODWILL, NET

	March 31, 2022	March 31, 2021
The changes in the carrying amount of goodwill at March 31, 2022 and March 31, 2021 are as follows:		
Goodwill	**$ 59,510,430**	$ 59,510,430
Less: accumulated amortization	**(28,196,487)**	(22,523,209)
	$ 31,313,943	$ 36,987,221

Amortization expense for the year ended March 31, 2022 and 15 months ended March 31, 2021 was $5,673,279 and $7,091,599 respectively. The Company reviewed its goodwill as of March 31, 2022 and determined that no impairment of goodwill has occurred. The amortization policies followed by the Company are described in Note 2M.

Amortization expense of goodwill subject to amortization for the five years succeeding March 31, 2022 and thereafter is as follows:

Years ending March 31,	**$**
2023	5,673,279
2024	5,673,279
2025	5,673,279
2026	5,673,279
2027	5,673,279
Thereafter	2,947,547
	31,313,943

8. TRANSACTIONS WITH RELATED PARTIES

During the year ended March 31, 2022 and 15 months ended March 31, 2021, the Company had transactions with the following related parties. At March 31, 2022 and March 31, 2021 the Company had payables due (to) from related parties as follows:

	12 months to	15 months to

9. SHORT-TERM DEBT AND LINE OF CREDIT FACILITY

On December 12, 2018 the Company entered into an uncommitted line of credit with JP Morgan Chase (the "Bank") which is renewed annually. The current maximum borrowing available under this uncommitted line is $37,500,000. The line is collateralized by the assets of the Company and is not committed and is recallable. The balance outstanding on this line of credit at March 31, 2022 and March 31, 2021 was zero. The loan was repaid during the March 31, 2021 financial year. The loan Interest accrues at:

1) a variable rate equal to the Base Rate plus a margin offered by the Bank and accepted by the undersigned;
2) a floating rate equal to the Eurodollar rate applicable to such loan plus a margin offered by the bank and accepted by the undersigned or a fixed rate as offered per the Bank's discretion to the undersigned and the Company may accept the offered rate.

Interest expense for the year ended March 31, 2022 and 15 months ended March 31, 2021 and the year ending were $0 and $45,623 respectively.

	12 months to March 31, 2022	15 months to March 31, 2021

Repayment of uncommitted loans	**-**	(41,500,000)
Closing balance of outstanding uncommitted loans	**-**	-
	-	-

10. MEMBERS' EQUITY

The Company entered into an Agreement and Plan of Merger with Tech Mahindra HealthCare, LLC on March 6, 2017. Under the terms of the agreement, the Company was merged into a newly created merger subsidiary of Tech Mahindra Health Systems Holdings, LLC with the Company surviving the merger. The closing date of the merger was after the close of business on May 4, 2017. Tech Mahindra Healthcare Systems Holdings, LLC ("Holdco") entered into a Limited Liability Company Agreement of Tech Mahindra Healthcare LLC, dated April 7, 2017, as sole initial member. On May 4, 2017, Tech Mahindra (Americas) Inc. ("TMA"), acquired 84.7% holding in Tech Mahindra Holdco, a Delaware Limited Liability Company. On June 30, 2019 TMA acquired a further 4.07% from the minority holder this was followed by a further purchase of an additional 4.08% on May 31, 2020 and by TMA from the same minority shareholder. At March 31, 2022 TMA has 100% interest in the Company.

11. EMPLOYEE BENEFITS

The Company has established a salary deferral plan under Section 401(k) of the Internal Revenue Code. The plan allows eligible employees to defer a portion of their compensation. Such deferrals accumulate on a tax deferred basis until the employee withdraws the funds. The Company, at its option, may match a portion of the employee's contribution. The Company has elected not to match a portion of employee's contribution at this time.

12. COMMITMENTS AND CONTINGENCIES

Real Estate Leases

In February 2016, the FASB issued Accounting Standards Update No. 2016-02 (Topic 842) "Leases." Topic 842 supersedes the lease requirements in Accounting Standards Codification Topic 840, "Leases." Under Topic 842, lessees are required to recognize assets and liabilities on the balance sheet for most leases and provide enhanced disclosures. Leases will continue to be classified as either finance or operating. The company adopted Topic 842 effective January 1, 2019. The most significant effects of Topic 842 were the recognition of right of use assets and of operating lease liabilities. We applied Topic 842 to all leases as of January 1, 2019. In the adoption of Topic 842, we carried forward the assessment from Topic 840 of whether our contracts contain or are leases, the classification of our leases, and remaining lease terms. The standard does not have a significant effect on our consolidated results of operations and cash flows.

On November 17, 2019 the company's holding company, Tech Mahindra (Americas), Inc. "TMA", has entered into a building lease with NortgateArinso, Inc. for business use and occupancy of office space by CJS Solutions Group ("CJS") in Jacksonville, Florida. The lease commenced on January 31, 2020 and is effective until July 30, 2025. The lease is subject to an annual increase of 3% applied from August 1st, 2020. In addition to the rental payable the company will also be responsible to pay Florida State Sales Tax to the landlord. The company has accounted for this new lease as at March 31, 2022, in terms of the policies set out in Note 2P of the accounting policies above.

Rent expense for the year ended March 31, 2022 and 15 months ended March 31, 2021 was $314,538 and $342,298 respectively. The future minimum lease commitments are as follows:

Years ending March 31,	**$**
2023	**409,674**
2024	**528,388**
2025	**557,586**
2026	**190,655**
2027	**-**

13. LITIGATION AND CONTINGENCIES

The Company is involved in various legal proceedings in the ordinary course of its business. Although management of the Company cannot predict the ultimate outcome of these proceedings excluding the settlement of the below class action with certainty, it believes that the ultimate resolution of the Company's proceedings, including any amounts it may be required to pay in excess of amounts reserved or covered by insurance, will not have a material effect on the Company's financial statements. The Company was named as a defendant in certain class action lawsuits and some pending lawsuits due to prior practices mainly related to overtime payments. Management has provided $172,000 for the Timothy Borup case, but for the other cases management cannot conclude with a high probability that the settlements or cases will result in any financial liability. The only known, likely and estimable potential liability payable, except for the issue discussed above, is a settlement payment in the amount of $400,000.

On dissolution of HCI Group UK limited, two 100% subsidiaries of that company namely, HCI Group Australia Pty Ltd (Australian entity) & Healthcare Clinical Informatics (UK entity) are now 100% subsidiaries of CJS Solutions Group LLC (US entity).

14. CONCENTRATION OF CREDIT RISK

REVENUE AND ACCOUNTS RECEIVABLE

The majority of the Company's sales are credit sales. The following are customer concentration for sales for the year ended March 31, 2022 and 15 months ended March 31, 2021 and billed accounts receivable as at March 31, 2022 and March 31, 2021.

Revenue concentration for the 12 months ended March 31, 2022:	**Amount, $**	**Concentration**
Customer 1	17,826,677	21%
Customer 2	17,335,787	20%
Customer 3	5,540,621	6%
Customer 4	3,963,709	5%
Customer 5	3,876,738	5%

Billed accounts receivable concentrations as at March 31, 2022:	Amount, $	Concentration
Customer 1	9,093,615	46%
Customer 2	4,414,036	22%
Customer 6	697,179	4%
Customer 7	688,240	3%
Customer 3	578,725	3%

Revenue concentration for the 15 months ended March 31, 2021:	Amount, $	Concentration
Customer 2	28,022,671	20%
Customer 3	15,743,889	11%
Customer 8	14,799,573	11%
Customer 1	9,614,053	7%
Customer 5	9,519,984	7%

Billed accounts receivable concentrations as at March 31, 2021:	Amount, $	Concentration
Customer 1	3,455,892	29%
Customer 2	2,507,461	21%
Customer 3	1,364,901	11%
Customer 5	1,102,749	9%
Customer 9	752,667	6%

15. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is defined under Accounting Standards Codification (“ASC”) 820, “Fair Value Measurements and Disclosures” (“ASC 820”), as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a three-level hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

Level 1–inputs to the valuation methodology are quoted prices (unadjusted) for an identical asset or liability in an active market.

Level 2–inputs to the valuation methodology include quoted prices for a similar asset or liability in an active market or model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability.

Level 3–inputs to the valuation methodology are unobservable and significant to the fair value measurement of the asset or liability.

The carrying amounts of cash, accounts receivable and accounts payable approximate fair value due to the short-term maturity of the instruments. The carrying amounts of the Company’s floatable interest rate debt are considered reasonable estimates of fair value.

16. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through May 31, 2022. No significant events occurred subsequent to the balance sheet date that would have a material impact on the financial statements.

SUPPLEMENTAL SCHEDULE

TECH MAHINDRA LLC

INDEPENDENT AUDITOR'S REPORT

To: Board of Directors Tech Mahindra LLC
A Delaware Limited Liability Company,
a wholly owned subsidiary of Tech Mahindra Limited, an India Corporation
Plano, Texas

Opinion

We have audited the accompanying financial statements of Tech Mahindra LLC, a Delaware Limited Liability Company, which comprise the balance sheets as of March 31, 2022 and 2021, and the related statements of operations, changes in member's equity and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Tech Mahindra LLC as of March 31, 2022 and 2021, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Tech Mahindra LLC and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other matters

As discussed in Note 4 to the financial statements, the Company has had numerous transactions with the parent company.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedules of Revenue and Expenses are presented for purposes of additional analysis and are not a required part of the financial statements. The information has been subjected to the auditing procedures applied in the audit of financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech Mahindra LLC's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Tech Mahindra LLC's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech Mahindra LLC's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO THE FINANCIAL STATEMENTS AT MARCH 31, 2022 AND MARCH 31, 2021

A DELAWARE LIMITED LIABILITY COMPANY AND WHOLLY OWNED SUBSIDIARY OF TECH MAHINDRA LTD.

1. NATURE OF OPERATIONS

Tech Mahindra LLC (the "Company" or "TMLLC") is a wholly owned subsidiary of Tech Mahindra Ltd. ("TML"). The Company was incorporated in the State of Delaware on June 14, 2018. The Company is engaged in the business of providing software development services onsite for clients across the United States of America.

In terms of an signed agreement between the company and Tech Mahindra Limited ("TML"), the company will enter into contracts with customers based in the United States of America for the development or modification of software and other related services. The company will then outsource all of these services to TML, who will accept the responsibility of fulfilling the terms of these agreements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PREPARATION

The Company has adopted the Financial Accounting Standards Board (FASB) Codification (Codification or ASC). The Codification is the single official source of authoritative accounting principles generally accepted in the United States of America (U.S. GAAP) recognized by the FASB to be applied by non-governmental entities. All of the Codification's content carries the same level of authority.

B. BASIS OF ACCOUNTING

These financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

C. ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

D. REVENUE AND EXPENSES

Effective December 17, 2018, the Company has entered into a contract with Tech Mahindra Ltd.("TML") to outsource all services to TML. Under the contract with TML, the Company has agreed to outsource all of the services to TML at the price agreed between the Company and it's customers. Revenue derived from the outsource of these services is recognized on time and material basis, provided that no uncertainties regarding customer acceptance exist and collection of the related receivable is probable.

Management determined, by virtue of the rights and obligations resulting from its master services agreement with TML, that it does not meet the control indicators as defined in ASC 606. The Company conducts services as agent of TML and recognizes revenue as the net amount of consideration that it retains after paying TML the consideration received in exchange for the goods or services to be provided by TML.

E. INCOME TAXES

As a single member LLC, the Company's income and deductions are reported on the LLC member's corporate income tax return as a "disregarded entity" for income tax purposes. Accordingly, the member of the Company will be responsible for income taxes; therefore, no provision for income taxes is included in these financial statements. Due to various timing differences, income is recognized in different periods for tax reporting purposes than for financial statements purposes.

F. CASH AND CASH EQUIVALENTS

The Company considers all highly-liquid investments with maturities of three months or less to be cash or cash equivalents.

The Company places its cash on deposit with a financial institution in the United States of America. The Federal Deposit Insurance Corporation covers $250,000 for substantially all depository accounts. As of March 31, 2022, the Company had $810,475 (2021: $0) in excess of the Federally insured limit with the financial institution.

G. ACCOUNTS RECEIVABLE AND ALLOWANCE FOR BAD DEBTS

Accounts receivable are the amounts owed on invoiced contractual agreements either in process or completed by the Company. Accounts receivable are considered delinquent when payment is not received under terms described within the individual contract's terms.

An allowance for doubtful accounts is provided for those balances considered to be uncollectible based upon historical experience and the Company's specific review of outstanding account balances. Company policy is that accounts overdue in excess of 365 days is an indicator that the receivable has potentially impaired. Bad debts are written off against the allowance when identified.

H. UNBILLED RECEIVABLES

Unbilled receivables represent accrued revenue earned and recognized on projects for which billings have not yet been presented to the customer.

I. RELATED PARTIES

All companies within the Group are considered to be related parties. Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise).

J. RECLASSIFICATIONS

The Company has reclassified certain amounts relating to its prior period results to conform to its current period presentation. These changes were mainly made from accrued expenses and other current liabilities and accounts receivable where provision for discounts is presented separately on the balance sheet. These changes have not impacted the results of operations of prior periods.

3. ACCOUNTS RECEIVABLE, NET

At March 31, 2022 and 2021, accounts receivable balances were as follows:

	2022	**2021**
Amounts due for services rendered and billed	$16,893,402	$9,110,330
Less: allowance for discounts	(286,532)	(177,148)
Amounts due for services rendered and billed, net	16,606,870	8,933,182
Amounts due for services rendered, not billed	2,444,745	2,861,189
Total accounts receivable, net	**$19,051,615**	**$11,794,371**

4. TRANSACTIONS WITH PARENT COMPANY

During the period ended March 31, 2022 and 2021, the Company had transactions with Tech Mahindra Ltd.("TML"). At March 31, 2022 and 2021 the Company had payables due to TML as follows:

	2022	**2021**
Beginning balance, due to	$(9,092,990)	$(7,301,496)
Cost of services from TML	$(103,016,994)	(59,394,006)
Reimbursements	$-	4,000,000
Payments to parent company	$97,152,234	53,509,034
Revenue from TML	172,117	93,478
Ending balance, due to	**$(14,785,633)**	**$(9,092,990)**
Due (to) consists of:		
Amounts due to TML	$(14,826,701)	$(13,101,355)
Amounts due from TML	41,068	4,008,365
	$(14,785,633)	**$(9,092,990)**

Amounts due to and receivable from TML are interest free and payable on demand.

5. LITIGATION AND CONTINGENCIES

The Company is not involved in any legal proceedings in the ordinary course of its business.

6. CONCENTRATION OF CREDIT RISK

REVENUE AND ACCOUNTS RECEIVABLE

The majority of the Company's sales are credit sales. The concentration for revenue and billed accounts receivable, for the period ended March 31, 2021, is predominately from the following customers:

Billed accounts receivable as at 31 March, 2022	**Amount, $**	**Concentration**
Customer 1	6,646,363	39%
Customer 4	4,391,698	26%
Customer 5	2,107,684	12%
Billed accounts receivable as at 31 March, 2021	**Amount, $**	**Concentration**
Customer 1	4,111,514	45%
Customer 2	2,090,413	23%
Customer 3	964,430	11%
Revenue concentration for the 12 months ended March 31, 2022	**Amount, $**	**Concentration**
Customer 1	52,803,701	51%
Customer 2	22,705,661	22%
Customer 5	9,839,194	10%
Revenue concentration for the 12 months ended March 31, 2021	**Amount, $**	**Concentration**
Customer 1	29,605,670	50%
Customer 2	14,286,169	24%
Customer 3	8,762,986	15%

7. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is defined under Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures" ("ASC 820"), as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a three-level hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

Level 1–inputs to the valuation methodology are quoted prices (unadjusted) for an identical asset or liability in an active market.

Level 2–inputs to the valuation methodology include quoted prices for a similar asset or liability in an active market or model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability.

Level 3–inputs to the valuation methodology are unobservable and significant to the fair value measurement of the asset or liability.

The carrying amounts of cash, accounts receivable and accounts payable approximate fair value due to the short-term maturity of the instruments. The carrying amounts of the Company's floatable interest rate debt are considered reasonable estimates of fair value.

8. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through May 9, 2022. No significant events occurred subsequent to the balance sheet date that would have a material impact on the financial statements.

DIRECTORS' REPORT

TO THE SHAREHOLDERS

This report together with the audited accounts of Citisoft, Inc. for the year ended March 31, 2022 is given below.

Review of Operations:

During the year under review, Citisoft, Inc. has recorded an income of US$ 23,599,004 and Profit /(loss) after tax was US$ 1,628,817 excluding affiliates revenue and cost of revenue. The Company continues to invest in strengthening its operations and administrative infrastructure to support anticipated growth in the coming years.

Dividends:

During the year under review, no dividend is recommended for the year ended 31st March, 2022.

Directors:

The directors who served during the year were as follows:

Mr. Vikram Nair

Mr. Lakshmanan Chidambaram

Mr. Thomas J. Secaur

Mr. Paul V. Migliore

Outlook for the current year:

Business has been encouraging in US and the Company is cautiously optimistic of the future.

COVID-19

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

Acknowledgements:

Your Directors gratefully acknowledge the contributions made by the employees towards the success of the Company. Your Directors also thank the customers, suppliers, bankers, State and Federal Government Authorities and the shareholder/s for the co-operation and assistance received from them.

Mr. Thomas J. Secaur
Director

NOTES TO FINANCIAL STATEMENTS

Note 1 - Nature of Business and Summary of Significant Accounting Policies

Nature of Activities

Citisoft, Inc. (the “Company”) was incorporated in Delaware on September 16, 2002, and provides consulting and information technology services to the investment and financial services industry. Prior to March 1, 2022, the Company was a wholly-owned subsidiary of Citisoft Limited (formerly Citisoft Plc), located in the United Kingdom, which was a wholly-owned subsidiary of Tech Mahindra Limited, a provider of information technology services, internet services, business process outsourcing and software development. Tech Mahindra’s head office is located in Pune, Maharashtra, India. As of February 28, 2022, the Company underwent a restructuring through a Share Purchase Agreement whereby ownership of the Company was transferred from Citisoft Limited to Tech Mahindra (Americas) Inc. thereby becoming a wholly-owned subsidiary of the latter. On October 1, 2021, the Company set up a UK branch operation. On March 1, 2022, the business and assets of Citisoft Limited were transferred to the Company via an Asset Purchase and Business Transfer Agreement. The Company now provides services to customers throughout the United States, Canada and United Kingdom. The breakdown of sales for the year ended March 31, 2022 is as follows:

United States	$	19,219,133	82%
Canada		4,099,194	17%
United Kingdom		280,677	1%

Basis of Presentation

The financial statements have been prepared by the Company to reflect the results of operations and financial position of Citisoft, Inc. as of and for the year ended March 31, 2022 and the UK Branch for the period March 1, 2022 to March 31, 2022, in which all significant inter-company balances and transactions have been eliminated.

Fair Value Measurements

The Company follows the fair value standard which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. These standards require an entity to maximize the use of observable inputs (such as quoted prices in active markets) and minimize the use of unobservable inputs (such as appraisals or valuation techniques) to determine fair value.

The fair value standards require that for each item carried at fair value that such be disclosed in accordance with the valuation methods used which fall into three categories as follows:

Level 1 – inputs are quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at measurement date.

Level 2 – inputs are other than quoted prices included in Level 1 that are either directly or indirectly observable.

Level 3 – inputs are unobservable for the instrument and include situations where there is little, if any, market activity for the instrument. The inputs into the determination of fair value require significant management judgment or estimation.

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level of input that is significant to the fair value measurement in its entirety.

It is possible that redemption rights may be restricted or eliminated by investment managers in the future in accordance with the underlying fund agreements. Market price is affected by a number of factors, including the type of instrument and the characteristics specific to the instrument. Instruments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observable inputs and a lesser degree of judgment used in measuring fair value. It is reasonably possible that change in values of these instruments will occur in the near term and that such changes could materially affect amounts reported in these financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company defines cash equivalents as short-term highly liquid investments with original maturities of three months or less. Cash and cash equivalents are reported at cost plus earned interest. Cash and claims to cash that are restricted as to withdrawal or uses in the ordinary course of business are classified as deposits and included in prepaid expenses and other assets in the balance sheet at March 31, 2022.

The Company places its temporary cash investments in high credit financial institutions. However, portions of temporary cash investments may exceed FDIC insured levels. Management monitors, on a regular basis, the financial condition of the financial institutions, along with their balances, to reduce the risk of balances exceeding FDIC insured limits.

Accounts Receivable

The Company grants credit to its customers during the normal course of business. The Company performs ongoing credit evaluations of its customers' financial condition and generally requires no collateral from its customers. Accounts receivable balances are typically unsecured and are derived from revenues earned from customers primarily located in the United States of America. The Company monitors the creditworthiness of its customers to which it grants credit limits in the normal course of business, and its historical experience of potential credit losses which, when realized, have been within the range of management's expectations.

Investments

The Company's investments in marketable securities are reported in accordance with Accounting Standards Codification ("ASC") Topic 320, Investments - Debt and Equity Securities (ASC 320). Under this standard, debt and equity securities are classified into one of the following three reporting categories: held to maturity securities, trading securities or available-for-sale securities. The Company has classified marketable securities as available-for-sale securities and are recorded at fair market value at year end, with unrealized gains and losses being excluded from earnings and reflected as a component of other comprehensive income. The basis on which cost is determined in computing realized gain or loss is specific identification of the securities sold.

Below is a summary of the relationship between the cost and fair values of marketable securities held by the Company at March 31, 2022:

	Level 1	
Aggregate Fair Value	**Cost**	**Accumulated Holding Gain**
$ 1,426,234	$ 1,052,580	$ 373,654

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives which are three to five years for computer equipment, five years for furniture and fixtures and fifteen years for leasehold improvements (or the lesser of the life of the lease). When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is recognized in income for the period. The cost of maintenance and repairs is charged to income as incurred; significant renewals and betterments are capitalized.

At March 31, 2022, property and equipment consisted of the following:

Computer equipment	$	325,689
Leasehold improvements		93,213
Furniture and fixtures		192,653
Office equipment		46,742
		658,297
Less: accumulated depreciation		493,731
Property and equipment, net	**$**	**164,566**

Depreciation expense amounted to $37,853 for the year ended March 31, 2022.

Goodwill

Goodwill represents the difference between the purchase price and the fair value of assets and liabilities acquired in a business combination. The Company accounts for goodwill in accordance with ASC Topic 350, Intangible-Goodwill and Other (ASC 350). ASC 350 states certain intangible assets are not subject to amortization but are tested for impairment annually.

The entire balance of goodwill at March 31, 2022 is attributable to the 2002 acquisition of The Rowan Group, a company organized by the three senior executives who continue to manage the marketing and management activities of the Company.

The Company amortizes goodwill on a straight-line basis over a period of ten (10) years in accordance with ASC 350. Amortization expense amounted to $54,664 for the year ended March 31, 2022.

Accounting for the Impairment of Long-Lived Assets

The Company accounts for impairment or disposal of long-lived assets in accordance with ASC Topic 360, Property, Plant, and Equipment (ASC 360). ASC 360 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the book value of the asset may not be recoverable. The Company evaluates at each balance sheet date whether events and circumstances have occurred that indicate possible impairment. Impairment is measured by comparing the undiscounted future cash flows for the carrying value of the assets held at the Company's location. If the total expected undiscounted future cash flows are less than the carrying amount of the asset, the Company records an impairment charge. Management believes no event has occurred that would impair the value of long-lived assets recorded in the accompanying financial statements.

Revenue Recognition

The Company follows ASC Topic 606, Revenue from Contracts with Customers (ASC 606). ASC 606 provides comprehensive guidance for recognizing revenue from contracts with customers. Revenue is recognized when the entity transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. The guidance includes a five-step framework that requires an entity to: (i) identify the contract(s) with a customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract, and (v) recognize revenue when the entity satisfies a performance obligation.

Revenues from the performance of time-and-material consulting projects are recognized as the services are performed. Revenues from fixed price engagements are recognized on the percentage of completion basis with revisions to estimates reflected in the period in which changes become known. Provision for losses on such engagements is made during the period in which a loss becomes probable and can be reasonably estimated.

In accordance with ASC Topic 606, Revenue Recognition (ASC 606), the Company has accounted for reimbursements received for out-of-pocket expenses incurred as revenues in the statement of income and comprehensive income.

All contracts require the Company's clients to pay for out-of-pocket expenses, principally travel related expenses. Accordingly, revenue includes amounts billed for these costs and cost of revenue includes the related actual costs incurred. The timing of revenue recognition is entirely over time as services are provided. Generally, billing occurs subsequent to revenue recognition, resulting in billed receivables, which have been recorded under accounts receivable, trade on the accompanying balance sheet.

Revenue by performance obligation is as follows for the year ended March 31, 2022:

Services Transferred over Time	**Consulting Revenue**	**Consulting Revenue Affiliates**
Strategic assessment	$ 354,117	$ -
Systems strategy and selection	1,088,113	-
Systems implementation	14,261,947	1,458,225
Program and project management	3,865,209	-
Outsourcing evaluation	3,780	-
Outsourcing transition	4,025,838	-
	$ 23,599,004	**$ 1,458,225**

Advertising Costs

The Company expenses the costs of advertising as incurred. Advertising costs amounted to approximately $81,500 for the year ended March 31, 2022 and are included in selling, general and administrative expenses in the accompanying statement of income and comprehensive income.

Variable Interest Entities

Variable Interest Entities ("VIE's") are entities to which the usual condition of consolidation (ownership of a majority voting interest) does not apply. This interpretation focuses on financial interests that indicate control. Variable interests are rights and obligations that convey economic gains or losses from changes in the values of the VIE's assets and liabilities.

If a company holds a majority of the variable interests of an entity, it would be considered the primary beneficiary. The primary beneficiary would be required to include assets, liabilities and the results of operations of the VIE in its financial statements. Management has determined that no variable interest entities exist which would require disclosure or consolidation in the financial statements as of March 31, 2022.

Income Taxes

Income taxes are accounted for in accordance with the provisions of ASC Topic 740, Income Taxes (ASC 740). The provisions for deferred income tax expense or benefit represent the net change during the year in the Company's deferred income tax assets or liabilities.

Deferred income tax assets represent the amount of taxes recoverable in future years (based on current tax laws) resulting from future net tax deductions arising from the temporary differences in the reporting of certain types of income and expense items for financial statement and income tax reporting purposes.

Deferred income tax liabilities represent the amount of taxes payable in future years (based on current tax laws) resulting from the future net taxable amounts arising from temporary differences in the reporting of certain types of income and expense items for financial statements and for income tax reporting purposes.

In accordance with ASU 2015-17, Income Taxes: Balance Sheet Classification of Deferred Taxes, the presentation of deferred income taxes is required to be presented as noncurrent in a classified balance sheet. Accordingly, the Company has classified the deferred tax assets and liabilities as noncurrent in the accompanying balance sheet.

The Company accounts for uncertain income tax positions under ASC 740. ASC 740 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return and also provides guidance on classification, interest and penalties, disclosure and transition.

As of March 31, 2022, the Company had no material unrecognized tax benefits and no adjustments to liabilities or operations required under ASC 740. The Company's practice was and continues to be to recognize interest and penalty expenses related to uncertain tax positions in income tax expense, which were zero for the year ended March 31, 2022. Generally, the three preceding tax years are subject to examination by federal and state taxing authorities. There are no income tax examinations currently in process.

Future Accounting Pronouncement

In February 2016, the FASB issued ASU No. 2016-02, Leases, which requires a lessee to recognize a right-of-use asset and a lease liability for all leases, initially measured at the present value of the lease payments, in its balance sheet. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. The guidance also expands the required quantitative and qualitative disclosures surrounding leases. The ASU is effective for fiscal year ending March 31, 2023 for the Company. The Company is evaluating the impact of the new guidance on the financial statements.

Management believes that other pending accounting standards would have limited impact on the Company and, accordingly, have not outlined those standards here.

Subsequent Events

The Company has evaluated subsequent events through June 7, 2022, the date the financial statements were approved to be issued.

Note 2 - Asset Purchase and Business Transfer Agreement

On March 1, 2021, the Company entered into an Asset Purchase and Business Transfer Agreement ("Agreement") with and among Citisoft Limited. As of the date of the Agreement, the Company agreed to purchase all net assets of Citisoft Limited (formerly Citisoft Plc) for a purchase price amount of 1,360,000 GBP ($1,844,432 USD) cash. The Citisoft Limited cash balance on hand as of the Agreement date was $990,065 USD and is classified within other receivables on the accompanying balance sheet.

As the acquired net assets of Citisoft Limited are considered a transaction that falls under common control, it is exempt from the ASC 805, Business Combinations, accounting treatment. As a result, the Company, as the purchaser, recognized the assets acquired and liabilities assumed of Citisoft Limited as of the date of the Agreement at their carrying value and the net assets acquired will not be stepped up in fair value. A deemed dividend for the excess of purchase price over net assets received as part of the transaction totaling $808,746 was recorded through retained earnings.

Note 3 - Federal Payroll Protection Program Loan Payable

The Company entered into an agreement on May 1, 2020 under the Paycheck Protection Program ("PPP") to borrow $1,528,517. The PPP, established as part of the Coronavirus Aid, Relief and Economic Security Act ("CARES Act''), provides for loans to qualifying businesses for amounts up to 2.5 times of the average monthly payroll expenses of the qualifying business. The loans and accrued interest are forgivable after a period of eight or twenty four weeks as long as the borrower uses the loan proceeds for eligible purposes, including payroll, benefits, rent and utilities and maintains its payroll levels. The amount of loan forgiveness will be reduced, with exceptions, if the borrower terminates employees or reduces salaries by more than 25% during the eight or twenty-four week period.

As of March 31, 2022, the Company had used the entire amount of the loan on qualified costs and, in accordance with ASC 958, Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made, has recorded the full amount of the PPP loan as gain on extinguishment of debt as other income in the accompanying statement of income and comprehensive income for the year ended March 31, 2022. On May 20, 2021, the Company received an official notification of forgiveness from the SBA for the full amount of the loan.

Note 4 - Accrued Expenses

Accrued expenses consist of the following as of March 31, 2022:

Employee bonus and vacation	$	1,675,181
Executive benefit plan		994,936
Canadian tax accrued on sales and services		653,168
Payroll taxes		173,961
Professional fees and other		203,470
	$	**3,700,716**

Note 5 - Income Taxes

The provision for income taxes is comprised of the following for the year ended March 31, 2022:

Current provision (benefit):	
Federal	$ 263,450
State	236,247
Foreign	534,600
	1,034.297
Deferred provision (benefit):	
Federal	(86,253)
State	(744)
	(86,997)
Total	**$ 947,300**

As of March 31, 2022, net operating loss carryforwards for federal and state income tax purposes were either utilized in full or became available for carry-back to prior years with taxable income with a change in tax law.

Significant components of activities that gave rise to the deferred tax assets and liabilities included in the financial statements as of March 31, 2022 are as follows:

Deferred tax assets (liabilities):	
Accrued expenses and allowance for doubtful accounts	$ 214,795
Net operating loss, other lossses and charitable contribution carryforward	70,624
	285,419
Depreciation and amortization	(145,324)
Net deferred tax assets	**$ 140,095**

In assessing the reliability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon generating future taxable income during the periods in which temporary differences representing net future deductible amounts become deductible.

As of March 31, 2022, management believes a valuation allowance for any deferred tax assets is not necessary as the value of deferred tax assets is expected be realized through profitability in subsequent years.

Note 6 - Related Party Transactions

The Company obtained consulting support services and related expenses from its parent company, Citisoft Plc, totaling $1,458,225 for the period April 1, 2021 to February 28, 2022. These services were in turn billed to the Company's customers in the amounts at which it was invoiced by Citisoft Plc. At March 31, 2022, the Company was indebted to Citisoft Limited (formerly Citisoft Plc) in the amount of $165,546 in connection with consulting support services.

Note 7 - Contingencies and Commitments

Lease Agreement

The Company has an operating lease for its office premises through August 31, 2025. The Company is contingently liable for the performance of certain customary obligations associated with office premise leases and that performance is secured by a collateralized letter of credit issued by the Company's primary bank. Management fully expects to comply with all of the related lease obligations and provisions. Total rent expense including maintenance costs amounted to approximately $138,000 for the year ended March 31, 2022.

On November 1, 2020, the Company entered into a one year agreement to lease office space in Canada through October 31, 2021. This agreement was renewed for another year through October 31, 2022. Total rent expense under this arrangement amounted to approximately $16,600 for the year ended March 31, 2022.

The future minimum rental payments required under the real estate lease agreements is as follows for the years ending March 31:

2023	$ 169,200
2024	163,000
2025	166,200
2026	69,900

Note 8 - Common Stock

As of March 31, 2022, the Company has authorized 1,000 shares of common stock with a $0.01 par value, of which 1,000 shares were issued and outstanding. All of the outstanding shares are held by the parent company, Tech Mahindra (Americas) Inc.

Note 9 - Significant Customers

During the years ended March 31, 2022, approximately $7,100,000 of the Company's sales, excluding amounts billed for consulting revenue by affiliate, were to two customers. Amounts due from these customers and included in accounts receivable, trade at March 31, 2022 amounted to approximately $707,000.

Note 10 - Retirement Plan

Supplemental Executive Retirement Plan

The Company has in effect a non-qualified deferred compensation arrangement for certain select employees. All contributions made by the Company are subject to a four year vesting period starting on the date the contribution was made and will be allocated to each participant's individual account within the Plan's investment account. For the year ended March 31, 2022, the Company contributed $450,000 to the Plan. Contributions accumulated under the Plan are invested in marketable securities and are carried at fair market value, which, as of March 31, 2022, amounted to $1,426,234, and are included in investments on the accompanying balance sheet. (See Note 1)

Corporate Owned Incentive Life Insurance Plan

The Company has in effect a Nonqualified Deferred Pension Life Insurance Plan (the "Plan") for all eligible employees. Each employee participant may elect to defer compensation to the Plan pre-tax, subject to Internal Revenue Service limitations.

While the Company expects to continue the Plan indefinitely, it has reserved the right to modify, amend or terminate the Plan. In the event of termination, the entire amount contributed under the Plan must be applied to the payment of benefits to the participants or to their beneficiaries, as defined in the Plan, of each participant.

INDEPENDENT AUDITORS' REPORT

To TECH MAHINDRA GmbH, Düsseldorf

Opinions

We have audited the annual financial statements of TECH MAHINDRA GmbH, Düsseldorf, which comprise the balance sheet as at 31 March 2022, and the income statement for the financial year from 1 April 2021 to 31 March 2022, and notes to the financial statements, including the recognition and measurement policies presented therein. In addition, we have audited the management report of TECH MAHINDRA GmbH for the financial year from 1 April 2021 to 31 March 2022.

In our opinion, on the basis of the knowledge obtained in the audit,

– the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law applicable to corporations and give a true and fair view of the assets, liabilities and financial position of the Company as at 31 March 2022 and of its financial performance for the financial year from 1 April 2021 to 31 March 2022, in accordance with German Legally Required Accounting Principles, and

– the accompanying management report as a whole provides an appropriate view of the Company's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development.

Pursuant to Section 322 (3) sentence 1 HGB [Handelsgesetzbuch: German Commercial Code], we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

Basis for the Opinions

We conducted our audit of the annual financial statements and of the management report in accordance with Section 317 HGB and the German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report" Section of our auditor's report. We are independent of the Company in accordance with the requirements of German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinions on the annual financial statements and on the management report.

Responsibilities of Management for the Annual Financial Statements and the Management Report

Management is responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to business corporations, and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles. In addition, management is responsible for such internal control as they, in accordance with German Legally Required Accounting Principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, management is responsible for assessing the Company's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, management is responsible for the preparation of the management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, management is responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Section 317 HGB and in compliance with the German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgement and maintain professional scepticism throughout the audit. We also:

– Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

– Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures (systems) relevant to the audit of the management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of these systems of the Company.

– Evaluate the appropriateness of accounting policies used by management and the reasonableness of estimates made by management and related disclosures.

– Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.

– Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles.

– Evaluate the consistency of the management report with the annual financial statements, its conformity with [German] law, and the view of the Company's position it provides.

– Perform audit procedures on the prospective information presented by management in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by management as a basis for the prospective information and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

TECH MAHINDRA GMBH, DÜSSELDORF/GERMANY
NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR

1 April 2021 to 31 March 2022

General information about the annual financial statements

TECH MAHINDRA GmbH is located in Düsseldorf and registered at the Registry court in Düsseldorf, Registry court number, HRB 47738. The company is a large corporation within the meaning of Section 267 (3) HGB.

The annual financial statements were prepared in accordance with the provisions of the German Commercial code (HGB) in the current version and the supplementary provisions of the German limited liability company law (Gesetz betreffend Gesellschaften mit beschränkter Haftung (GmbHG)).

The financial statements comprise balance sheet, income statement and notes (including the fixed-asset movement schedule). The income statement was prepared in accordance with the nature of expense method (§ 275 (2) HGB).

Disclosures on accounting policies

Intangible assets are measured at cost and amortized on a straight-line basis over their economic useful life. Purchased software is amortized over their useful life of four years. Intangible asset, which are fully amortized, will be presented as disposal in the last year of amortization.

Tangible assets are valued at cost and depreciated over their estimated useful life on a straight-line basis. Operating and office equipment is depreciated over a useful life of three to ten years.

Low-value assets with costs of up to EUR 800.00 are immediately recognized as depreciation expense and directly presented as disposal.

Investments and other financial assets are recognized at cost. If necessary, the applicable lower value has been recognized at the reporting date.

Receivables and other assets are recognized at nominal value. In order to cover all recognizable risks as at the balance sheet date, allowances for bad debts are set aside.

Cash-in-hand and bank balances are recognized at nominal value.

Prepaid expenses are incurred before the balance sheet date to the extent that these constitute expenditures for a certain time thereafter.

Deferred taxes will be determined for temporary differences between the carrying amounts of assets and liabilities under commercial law and their tax bases and for usable loss carryforwards. Deferred taxes are calculated on the basis of an average income tax rate of 31 %. Any net resulting tax burden would be recognized in the balance sheet as deferred tax liabilities. In the event of a tax relief (deferred tax asset), the option granted in Section 274 (1) Sentence 2 HGB is exercised, and a balance sheet entry is waived. In the current financial year, there was a total asset surplus not shown in the balance sheet. This is mainly due to valuation differences between the commercial balance sheet and the tax balance sheet with regard to pension provisions.

Provisions were recognized for all further uncertain liabilities. They reflect all identifiable risks. In accordance with section 253 (1) sentence 2 of the HGB, provisions are measured at the settlement amount dictated by prudent business judgement.

Provisions from pension obligations were calculated based on the projected unit credit method by an actuarial. The underlying assumptions are presented in following explanations to the balance sheets.

Liabilities are recognized at their settlement amount.

Income and expenses are recognized in the income statement on an accrual basis. Revenue is recognized at the time when services are rendered.

Assets and liabilities in foreign currencies are valued in the annual financial statements at the average rate for the date of initial recognition. On the reporting date, assets and liabilities denominated in foreign currencies with a remaining term of up to one year are converted at the exchange rate prevailing on the balance sheet date. Non-current receivables and liabilities denominated in foreign currencies are valued in accordance with the lower of cost or market principle (section 256a sentence 2 HGB) and recognized at the exchange rate on the balance sheet date provided that the exchange rate on the transaction date was not lower (for assets) or higher (for liabilities). Profit and loss from converting foreign currency transactions into local currency are recognized separately in the income statement under “Other operating income” and “Other operating expenses”.

Balance Sheet

Fixed Assets

With regard to the development of intangible assets, tangible assets and financial assists we refer to the fixed-asset movement schedule (as appendix to the notes).

Financial assets

The company holds the share in the following investments:

TechM IT Services GmbH, Wien/Austria:

	31 March 2022	31 March 2021
Shareholding relationship	100 %	100 %
Equity in kEUR	109	107
Result for the year in kEUR	2	7

TECH MAHINDRA Norway A.S, Fornebu/Norway:

	31 March 2022	31 March 2021
Shareholding relationship	100 %	100 %
Equity in kNOK	31,706	10,876
Result for the year in kNOK	20,830	3,134
FX-rate as of March 31	8.73427 NOK/ EUR	9.9888 NOK/ EUR

Tech Mahindra Luxembourg S.à r.l., Luxembourg:

	31 March 2022	31 March 2021
Shareholding relationship	100 %	100 %
Equity in kEUR	86	35

** through investment in Beris consulting GmbH, Wolfsburg

*The equity and the result for the year were derived from the internal IFRS reporting package for Beris consulting GmbH, Wolfsburg, and for LINEAS Informationstechnik GmbH, Braunschweig, as of 31 March 2022. The Beris consulting GmbH and its subsidiary, LINEAS Informationstechnik GmbH, Braunschweig, were acquired during the current financial year. Contrary to TECH MAHINDRA GmbH, their financial year is still ending on 31 December and statutory accounts as of 31 December 2021 are not prepared yet. As a result, the result for the year includes only the profits from the acquisition date 1 October 2021 to 31 March 2022.

Current Assets

Inventory

Inventory comprises only of prepayments to suppliers in the current financial year.

Trade receivables and other assets

Trade receivables and other assets comprise as follows:

	As of 31, March 2022	Amounts due after more than 1 year	As of 31, March 2021	Amounts due after more than 1 year
Trade receivables	18,035,658.42 €	0.00 €	14,769,041.54 €	0.00 €
Receivables from affiliated companies	35,977,324.38 €	0.00 €	24,678,851.26 €	0.00 €
Other Assets	3,667,904,93 €	0.00 €	1,452,607.16 €	0.00 €
Total	**57,680,887.73 €**	**0.00 €**	**40,900,499.96 €**	**0.00 €**

Receivables from affiliated companies comprise receivables from shareholders in the amount of kEUR 35,942 (prior year: kEUR 24,520).

Receivables from affiliated companies contain loan receivables in the amount of kEUR 5,221 (previous year: kEUR 10,387), for which an allowance has been setup in the amount of kEUR 5,220 (prior year: kEUR 10,387), due to uncollectability. The remaining receivables from affiliated companies result from trade receivables.

Other assets contain mainly deposits, tax receivables as well as salary and travel expense advance payments to employees.

Subscribed capital

The entity's subscribed capital amounts to kEUR 601 (prior year: kEUR 601) and is fully paid in.

Provision for pension obligations

The actuarial report to determine the provision for pension obligations considers future salary increases as well as increases in pension benefits. To calculate the pension obligation the mortality tables "Richttafeln 2018 G" by Klaus Heubeck were applied.

The following assumptions were applied to determine the pension obligation as of 31 March 2022:

	31 March 2022	31 March 2021
Discount rate	1.81 %	2.19 %
Expected wage and salary increases	2.0 %	2.0 %
Expected increase in pension benefits	1.0 %	1.0 %

The provision for pension obligations is calculated in accordance with § 253 (2) HGB (German Commercial Code) using the average market rate of interest for the past ten financial years and a duration of 15 years, which is published by the German Central Bank (Deutsche Bundesbank).

In the case of the provisions for post-employment benefit obligations, the difference between the amount recognized using the average market rate of interest for the past ten financial years and the amount recognized using the average market rate of interest for the past seven financial years amounts to EUR 20,501 (prior year EUR 15,230) in the current financial year. This amount is restricted from distribution to the shareholder in accordance with § 253 (6) sentence 2 HGB.

All pension obligations are covered by reinsurance policies. Pursuant to § 246 (2) sentence 2 HGB the reinsurance policies have been offset against the pension obligations, as claims against a reinsurance policy that is not accessible to all other creditors and serves exclusively to meet pension obligations:

	31, March 2022 kEUR	31, March 2021 kEUR
The fair value of the plan assets	385	373
Pension obligation	525	495
Net amount	140	122

Due to the netting of the pension obligation with the plan assets, expenses for additions to the pension provision in the amount of kEUR 30 were netted with personnel expenses in the amount of kEUR 12 as part of the pension expenses. The fair-value of the plan assets were determined using actuarial valuation methods.

Besides the netted pension obligation, in the prior year, the provision contained also outstanding contributions to the reinsurance policy.

Other Provisions

As in the prior year, other provisions largely contain provisions for outstanding invoices for utilized subcontractor services (kEUR 1,951; prior year kEUR 4,530), provision for outstanding charges from the shareholder (kEUR 2,925; prior year kEUR 4,293).

Obligations for employee commitments comprise obligations for outstanding vacation days, bonus and severance payments amount to kEUR 1,319 (prior year kEUR 1,633).

Liabilities

Remaining maturities are as follows:

	31 March 2022	Remaining Maturity less than 1 year	Remaining Maturity more than 1 year and less than 5 years	Remaining Maturity more than 5 years
Liabilities to banks	3,573,366.42 €	3,573,366.42 €	0.00 €	0.00 €
Trade payables	21,138,045.88 €	21,138,045.88 €	0.00 €	0.00 €
Payables to affiliated companies	11,551,657.09 €	11,551,657.09 €	0.00 €	0.00 €
Other liabilities	763,167.76 €	763,167.76 €	0.00 €	0.00 €
Thereof relating to social security and similar obligations	9,176.73 €	9,179.73 €	0.00 €	0.00 €
Thereof relating to taxes	738,718.14 €	738,718.14 €	0.00 €	0.00 €
Total	**37,026,237.15 €**	**37,026,237.15 €**	**0.00 €**	**0.00 €**

	31 March 2021	Remaining Maturity less than 1 year	Remaining Maturity more than 1 year and less than 5 years	Remaining Maturity more than 5 years
Liabilities to banks	933,583.34 €	933,583.34 €	0.00 €	0.00 €
Trade payables	430,294.10 €	430,294.10 €	0.00 €	0.00 €
Payables to affiliated companies	17,988,634.48 €	17,988,634.48 €	0.00 €	0.00 €
Other liabilities	982,238.29 €	982,238.29 €	0.00 €	0.00 €
Thereof relating to social security and similar obligations	3,810.71 €	3,810.71 €	0.00 €	0.00 €
Thereof relating to taxes	977,442.99 €	977,442.99 €	0.00 €	0.00 €
Total	**20,334,750.21 €**	**20,334,750.21 €**	**0.00 €**	**0.00 €**

Liabilities to the shareholder amount to kEUR 11,552 (prior year: kEUR 12,759).

Liabilities to affiliated companies result from deliveries and services (kEUR 11.552; prior year: kEUR 12,941) and in the prior years from loans (prior year kEUR 5,048).

Other liabilities comprise mainly VAT payables as well as social security contributions and taxes.

Income statement disclosures

Revenue

As in the prior year, revenue mainly relates to income from subcontracting activities relating to the rendering of IT services. They are all generated in Germany. Tech Mahindra GmbH is acting as service agent (“Dienstleistungskommissionär”) as all material chances and risks related to the provided services are located at Tech Mahindra Limited.

Revenues are presented in the amount of actual costs plus a 7 % mark-up, charged to Tech Mahindra Limited. These amounts are presented as receivables from affiliated companies from Tech Mahindra Limited. Invoices charged by Tech Mahindra GmbH to customers locally are presented as trade receivables until they are paid. Corresponding to the trade receivables, liabilities to affiliated companies are recognized.

Further, prior year revenues include rental in the amount of kEUR 29 due to the sublease of not needed office space.

Other operating income

Other operating income mainly includes income from release of allowance for doubtful trade receivables from affiliated companies in the amount of kEUR 5,166 (previous year: kEUR 2,547) as well as income from exchange rate differences amounting to kEUR 193 (previous year: kEUR 30) and income from settling private use of company cars.

Other operating expenses

Other operating expenses include, in particular, additions to the allowances for doubtful accounts (kEUR 21; prior year: kEUR 87) travel and distribution costs (kEUR 805; prior year: kEUR 242), legal and consulting costs (kEUR 1,856; prior year: kEUR 1,664), recruiting cost (kEUR 1,219) and premises costs (kEUR 1,775; prior year: kEUR 2,053).

Expenses from currency conversion amount to kEUR 129 (prior year: kEUR 678).

Other Interest and similar income

Other interest and similar income include in current and prior year only interest from affiliated companies.

Other Interest and similar expenses

Other interest and similar expenses include interest expenses to affiliated companies in amount of kEUR 9 (prior year: kEUR 339) as well as interest charged to the provisions for pensions and similar obligations (kEUR 3; prior year: kEUR 4).

Taxes on income

Income taxes comprise as follows:

	31 March 2022	31 March 2021
Current Income tax expenses	-2,559,132.53 €	-935,920.57 €
Tax refund prior years	0.00 €	672,393.07 €
Total expenses on Income taxes	**-2,559,132.53 €**	**-263,527.50 €**

Other disclosures

Other financial obligations

The other financial obligations mainly result from office rental contracts an amount up to kEUR 1,034 (prior year: kEUR 1,396) due in the next 12 months and kEUR 1,233 (prior year: kEUR 1,939) for following remaining duration of the agreements.

Employees

In the fiscal year 2021/2022 in average the following number of employees were employed:

Company areas	number of employees
technical consultant	562
sales and support employees	31
Total	**593**

Management and Remuneration of the members of the Management

Managing directors of the company are

- Mr. Mukul Dhyani, Frankfurt am Main, Chief operating Office,
- Mr. Mandar Vasant Bhairavkar, Milton Keynes/UK,

As the CFO is been paid by the group company in the UK, no remuneration of the members of the management has been disclosed, with regard to option of § 286 (4) HGB.

Advisory Board

The entity has an advisory board, which is composed of the following two members:

Rajesh Chandiramani, Mumbai/Indien, TECH MAHINDRA Ltd., Manager

Manish M Vyas, Texas/USA, TECH MAHINDRA Ltd., Manager

In the reporting year, the members of the advisory board did not receive any remuneration from the entity for their activities.

Events after the balance sheet date

No significant subsequent events after the balance sheet date, which have a significant impact on the income statement and the balance sheet, have been occurred.

Auditor's fee

In fiscal 2021/2022 the auditor's fee to KPMG Aktiengesellschaft Wirtschaftsprüfungsgesellschaft, Düsseldorf, in the amount of kEUR 36 (prior year: kEUR 36) were recognized as an expense, which relates exclusively to auditing services.

Group financial statements

TECH MAHINDRA Limited, Pune/India is the sole shareholder of TECH MAHINDRA GmbH.

The Company's financial statements are included in the consolidated financial statements of TECH MAHINDRA Limited, Pune/India. TECH MAHINDRA Limited prepares the consolidated financial statements for the smallest and largest consolidated group in accordance with general accepted accounting standards in India, which are derived from the Inter¬national Financial Reporting Standards (IFRS). In accordance with the options of § 291 HGB, TECH MAHINDAR GmbH does not prepare consolidated financial statements. The published consolidated financial statements of TECH MAHINDRA Limited are available on the company's Internet site at www.techmahindra.com as well as at the German Commercial register (Unternehmensregister) in English Language.

Proposal or resolution on the appropriation of net profit

The management is proposing the following appropriation of net profit in agreement with the shareholders:

The profit of kEUR 10,283 will be carried forward and netted with the retained earnings.

Düsseldorf, 20th June 2022

MANAGEMENT REPORT FOR THE FINANCIAL YEAR 1 APRIL 2021 TO 31 MARCH 2022

1 Corporate Profile

1.1 General business activities

TECH MAHINDRA GmbH (as follows: company or TECH MAHINDRA) is a wholly owned German subsidiary of Tech Mahindra Limited, Pune/India (“TM Ltd.”). It was established in 2001. The company’s business activities are focused on the provision of consultancy technology and rendering outsourcing services in the communications sector.

We generally perform our services on behalf of our parent company within the scope of a service agreement. Our parent company reaches agreements with the customer regarding those business activities. We are a subcontractor to our parent company and are therefore not subject to material risks. Remuneration for our activities is based on the reimbursement of costs incurred plus a mark-up.

Since 2015 we have also concluded a significant number of agreements directly with customers.

1.2 Financial performance measures

TECH MAHINDRA is part of the global Tech Mahindra Limited, Pune/India (“TM Ltd.”) group and its reporting system. The financial performance indicators of the company are revenues as well as result for the year and are described in section 2 and 3 of this report. As there is no break-down of group budgets on company level, the company reviews its financial performance indicators mainly by comparison to prior fiscal years.

1.3 Non-financial performance indicators

We note that the following non-financial performance indicators are important but are not currently used in the direct management of our company.

- **Occupational safety**

The constant and consistent implementation of safety guidelines ensures that the risk of accidents is reduced as far as possible. Occupational safety is the highest principle of management and is more important than the principle of profit maximization.

- **Training Measures**

The nature of our business means that we require highly qualified employees for work on high-tech and telecommunications projects. Training is carried out according to need and is primarily conducted by employees at the Tech Mahindra development centers in India. Training measures are monitored and evaluated by the HR department, an employee’s superior and the employee him- or herself.

2 Report on Economic Conditions and Business

2.1 Development of the overall economy and the industry

The German Council of Economic Experts (GCEE) expects gross domestic product (GDP) in Germany is likely to reach the level last seen before the crisis that is in the fourth quarter of 2019, during the first quarter of 2022. A variety of bottlenecks on the supply side are disrupting global value chains and, combined with the pandemic-related restrictions that are still in place, are holding back growth. It is therefore forecasting that Germany’s economic output will increase by 2.7 % in 2021 and by 4.6 % in 2022.

The recovery of the global economy has been accompanied not only by supply-side bottlenecks but also by a rise in commodity and energy prices. This has resulted in a sharp increase in consumer price inflation, which was already elevated owing to low prices in the previous year and one-off effects. The GCEE predicts an inflation rate for Germany of 3.1 % in 2021 and 2.6 % in 2022.

After years of robust growth in the past few years, the German economy had thus embarked upon a period of economic boom in 2019, before the beginning of the COVID 19 pandemic. In this economic climate, the ECB’s sustained expansionary monetary policy is partly responsible for a further increase in capacity overutilization in the economy as a whole. With regard to further impacts from the COVID 19 pandemic on the economic environment, we refer to section 4.2 - Outlook.

The sector in which our company operates, benefits considerably from increasingly strong digitalization and the continuously high need for investment in IT. Entities know that in order to create sustainable competitiveness, they need to develop digitally within the company or face irrelevance. These challenges also provide opportunities for the global technology industry.

2.2 Report on business

2.2.1 Development of revenue

As our revenues are mainly based on reimbursement of costs incurred plus a 7 % mark-up ("cost-plus method") as part of a service agreement, the general economic and industry development have only a limited effect on the business development of our company.

Revenue from the service agreement rose substantially (+60.7%) from kEUR 75,093 to kEUR 120,706 due to a significant increase in projects and related higher subcontracting, which have been charged to our parent company.

In the prior year, the company records also insignificant rental income in the revenue in the amount of kEUR 29 due to the sublease of not needed office space till October 2020.

2.2.2 Investments

In order to expand business activities, the company acquired in October 2021 all shares in the BERIS consulting GmbH, Wolfsburg (including its subsidiary LINEAS Informationstechnik GmbH, Braunschweig), for acquisition costs in the amount of kEUR 6,032.

Further, the company acquired IT - and office – equipment in the fiscal year 2021/2022 in the amount of kEUR 364 and software in the amount of kEUR 16.

2.2.3 Employees

As at 31 March 2022, the Company counts 593 employees (31 March 2021: 584 employees). Due to the economic impacts of the COVID 19 pandemic, the company and its workers council signed an agreement on 20 April 2020 with regard to the implementation of short-time work at the company. This agreement was originally designated for a duration of 12 months but had been extended to 31 March 2022. As no employee was in short-time work on 31 March 2022, the agreement ceases on 31 March 2022.

The nature of our business demands the employment of highly skilled personnel who participate in high-tech and telecommunication projects. That makes it necessary to employ staff from the TECH MAHINDRA development centers in India.

Our employees are working at client companies throughout Germany, including Bonn, Munich, Koblenz, Wolfsburg and Hamburg. Most of our employees have a university degree and several of them have even postgraduate qualifications.

3 Business development

3.1 Results of operations

Under the service agreement concluded with the parent company, TECH MAHINDRA is reimbursed for the cost incurred and receives a mark-up of 7 %, so that TECH MAHINDRA always disposes on constant cash inflows and realizes revenue that more than compensate the costs. In the period for the financial year 2021/2022, the Company reported a net profit of kEUR 10,283, compared to a net profit of kEUR 4,716 in the prior year. This profit for the year corresponds to 8.5 % of the total revenue (prior year: 6.3 %). The improvement in profits relates mainly to the release of an allowance for bad debts from affiliated companies in the amount of kEUR 5,167.

The cost of materials, which related exclusively to purchased services, totaled kEUR 62,818 (prior year: kEUR 26,354). The materials usage ratio (ratio of cost of materials to revenue) increased from 35.1 % to 52.0 % due to an increased need for purchased services at some projects.

The increase in employee benefits expense from kEUR 38,463 to kEUR 41,477 is mainly due to salary increase including bonuses. The employee benefits expense ratio (ratio of employee benefits expense to revenue) amounts to 34.4 % (prior year: 51.2 %). The decrease in employee benefits expense ratio is related to increased materials usage ratio as the temporary increased need of personnel for the projects has been compensated by purchased services.

Other operating expenses increased from kEUR 6,772 to kEUR 7,910. While travel costs increased (+ kEUR 562), exchange loss dropped by kEUR 552 and vehicle costs declined by kEUR 218. Also operating expense include in the current year recruitment costs in the amount of kEUR 1,219.

3.2 Net assets

The equity ratio improved from 29.9 % to 34.3 % and the equity amounts to kEUR 23,471 due to the profit of the year in amount of kEUR 10,283.

The Company's assets are dominated by trade receivables as well as receivables from affiliated companies.

Trade receivables rose slightly from kEUR 14,769 to kEUR 18,036 despite the significant sales increase mainly due to ongoing improvements of the receivable management.

The increase of receivables from affiliated companies from kEUR 24,679 to kEUR 35,977 relates mainly to the improvement of revenues.

The variance in cash and cash equivalents as part of the cash funds is presented together with the information on the financial position below.

The lower other accruals as compared to last year were primarily due lower provisions for outstanding invoices at the end of the fiscal year, which is also reflected in increased trade payables in the current year.

Liabilities to affiliated companies decreased to kEUR 11,552 as compared to kEUR 17,989 of last year as they company used the collected liquid funds to reduce liabilities.

3.3 Financial situation

As of 31 March 2022, the company's cash funds (cash-in-hand, bank balances) amounted to kEUR 178 (31 March 2021: kEUR 145).

The operative cash flow decreased in current year to EUR 3.8 million (prior year EUR 7.5 million) despite a continuous improvement of the third-party trade receivable management due to major repayments of intercompany liabilities and increased receivables from affiliated companies.

Further cash funds were reduced by an investment cash flow of EUR – 6.4 million., which is mainly due to the acquisition of the BERIS consulting GmbH, Wolfsburg (including its subsidiary LINEAS Informationstechnik GmbH, Braunschweig). The investment activities were partly funded by new bank loans of EUR 2.6 million.

The service agreement ensures continuous cash inflow for the financing of current business activities.

3.4 Overall Assessment of the Economic Situation

In the opinion of the management of the company, the business development is generally satisfying. The management is satisfied with the development of sales and the profit for the year considering the current situation.

The company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue and intangible assets. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the company, as at the date of approval of this management report has used internal and external sources of information including economic forecasts. The company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

4 Outlook, risks and opportunities for future development

4.1 Report on risks and opportunities

4.1.1 Risk management

The company has a financial reporting system, which is integrated into the TECH MAHINDRA group reporting structures. This supports the company in the ongoing monitoring and management of business development by means of target, actual and budget comparisons on group level.

As a result of the service agreement described above, the company has constant cash inflows and revenue above the level of its costs. Owing to the agreements that are in place, the company is not subject to significant business risk.

4.1.2 Risks and opportunities for future development

A number of the risks we face relate to the development of offshore services, increased competition and lower revenues as well as lower profits. We are focused on overcoming those risks by continuing to increase our marketing activities, developing clear quality guarantees for existing customers, extending our activities beyond our usual areas of business (e.g. OSS, VAS and networks) and entering new markets.

As risk, we define future developments or events, which have impact on the budgeted results of the company and the group respectively. We classify the risks in economic risks, employee related risks and technology risks. The company is facing the following risks, which are present from risks with highest occurrence and the highest possible impact to the lowest occurrence and lowest financial impact.

- Economic risks

  Due to the COVID-19 pandemic the global economic trend is slowing down, and companies could consider cutting their budgets with regard to investment in the IT infrastructure or to postpone IT - projects.

- Employee related risks:

  With the evolving IT industry, right skillset and talent is required to respond quickly to the ongoing changes. The inability to cost effective hiring and retaining increased number of professionals with the required skillset is to be consider as a risk.

- Technology risks:

  The industry has been seeing a shift to disruptive technologies which are continually evolving. This shift coupled with changes in business models and consumer spending patterns could be a threat to the growth in traditional IT spends and technology obsolescence.

  The following opportunities are currently followed by the company:

- Digitalization Trend

  The COVID-19 pandemic showed a significant need to digitalize processes in companies and further improve the IT infrastructure. The TECH MAHINDRA group provides the necessary services to these companies, which comprises significant business opportunities for the company.

- Employees

  The company sees a big opportunity, that its recruits also employee in India, which offers more skilled and trained IT – professionals then the limited market in Germany and Europe.

- Cost advantage

  Due to the possibility to outsource part or complete orders to its shareholder in India, which has a different and lower cost structure, the company has a cost advantage in regard to its competitors.

4.1.3 Overall assessment of the risk and opportunity situation

Despite the COVID-19 pandemic, the overall view of the company's risk and opportunity situation remains essentially unchanged. Currently, there are no risks recognizable, that either alone or in combination with other risks could endanger the continued going concern of the company.

4.2 Outlook

4.2.1 General economic outlook

Due to the economic impact of the COVID-19 pandemic, the German government expects annual average growth in real gross domestic product (GDP) of 1.8 % in the remaining year of 2022, for 2023 a phase of recovery is predicted with a growth of 3.6%. Due to the Ukraine conflict, which has been escalating since February 2022, there is a risk that the development of the global and German economy will be subject to a high level of uncertainty in the forthcoming year.

4.2.2 Companies outlook

Taking into account the current order backlog and business situation, we expect slightly revenue increase in the financial year 2022/2023 and the following years, despite the current economic impacts of the COVID-19 pandemic. The company's business will primarily consist of follow-up orders and acquired contracts. We also plan to generate growth by extending our range of services and entering new markets. Profit for the year will slightly increase in comparison to the profit in the current year.

The company has good prospects in the financial year 2022/2023 as we plan to develop additional businesses activities in new areas and segments. We expect the profit/revenue ratio to remain at the same level due to the nature of our business model (cost-plus method). However, increased volumes of business and higher revenue mean that we expect profits to increase in the coming years.

We assume gradual growth in the future since the companies are under cost pressure. We continue to expect demand for outsourcing and offshoring as well as managed service to increase. The introduction of new technologies is often accompanied by a lack of technical skills, which TECH MAHINDRA can provide.

Currently, we do not foresee any impact from the conflict in the Ukraine on the companies business, as the company has no business activities in the Ukraine, Belarus or Russia. Also, we do not expect any impact on the companies business, due to rising energy or similar costs, contrary this might initiate further projects for digitalization in order to cut costs, which the company can benefit from.

The predicted slightly increase in revenue and profit is based on an increased volume of business, which will result in higher reimbursable operating costs.

The company has considered the possible effects that may result from COVID-19 pandemic as well as the Ukraine conflict and does as of the date of this report not foresee any impact on its current business plan.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of Tech Mahindra Limited

Report on the Audit of the Financial Statements of Tech Mahindra IT Services GmbH

Opinion

We have audited the financial statements of Tech Mahindra IT Services GmbH ("the Company"), which comprise the balance sheet as at 31 March 2022, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give a true and fair view in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ('SAs') specified under section 143 (10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Schedule III (Division II) to the Companies Act, 2013, as applicable, to the financial statements. This responsibility also includes maintenance of adequate accounting records for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Company's Internal Control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the management and Board of Directors.
- Conclude on the appropriateness of the management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter - Restriction on Use

These financial statements are prepared for the use of the Company and the ultimate holding Company, Tech Mahindra Limited, to comply with the requirements of the Act. These financial statements are not the statutory financial statements of the Company. As a result, these financial statements may not be suitable for any other purpose. Our report must not be copied, disclosed, quoted, or referred to, in correspondence or discussion, in whole or in part to anyone other than the purpose for which it has been issued without our prior written consent.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1 Corporate information

The Company was incorporated on August 08, 2014, with principal place of business at Albertgasse 35, 1080 Vienna, Austria. The financial statements are expressed in Euro.

The principal activities of the Company are providing consultancy and services relating to information technology and development of software solutions and products for banking and finance industry which include activities such as retail, corporate, investment, wealth management and micro finance.

The Company's immediate holding company is Tech Mahindra GmbH, incorporated in Dusseldorf, Germany and ultimate parent company is Tech Mahindra Limited, incorporated in India. The Ind AS financial statements of the Company for the year ended 31 March 2022 were authorised for issue by the Board of Directors on 16 June 2022.

2 Significant accounting policies:

2.1 Statement of Compliance

The Ind AS financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, as amended from time to time.

2.2 Basis of preparation of financial statements

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Schedule III (Division II) to the Companies Act, 2013, as applicable, to the financial statements.

The Company is not domiciled in India and hence was not incorporated under Companies Act, 2013 or under any previous Company law in India. These financial statements do not constitute a set of statutory financial statements in accordance with local laws of the Country in which the Company is incorporated.

These financial statements are prepared for the use of the Company and the ultimate holding Company, Tech Mahindra Limited, to comply with the requirements of the Act.

These financial statements have been prepared under the historical cost convention on an accrual and going concern basis except for certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

The accounting policies adopted in the preparation of these financial statements are consistent with those of the previous year except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy.

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle of 12 months. The Statement of cash flows has been prepared under indirect method.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

These financial statements are presented in Euro ("EUR") which is also the Company's functional currency. All amounts have been reported in Euros in hundreds, except for share and earnings per share data, unless otherwise stated. Further, amounts which are less than half a hundred are reported as '0'.

2.3 Use of estimates

The preparation of financial statements requires the management of the company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

2.4 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.5 Revenue recognition

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services. Revenue from cost plus contracts are recognised based on the terms of the contract over the service period. Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms. Contract liability arises when there is Company's obligation to transfer goods or services to a customer for which the entity has received consideration ("Advances from Customer") or the amount is due from the customer ("Unearned Revenue").

2.6 Leases

At inception of the contract, the Company determines whether the contract is a lease or contains a lease arrangement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a Lessee

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate specific to the lease being evaluated for a portfolio of leases with similar characteristics. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in standalone statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

2.7 Foreign currency transactions:

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the date of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognised in the profit or loss.

2.8 Financial Instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost using the effective interest method less impairment losses, if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial assets not measured at amortised cost are carried at fair value through profit or loss (FVTPL) on initial recognition, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in ‘other comprehensive income’, for investment in equity instruments which are not held for trading.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest rate method or at FVTPL. For financial liabilities carried at amortised cost, the carrying amounts approximate fair values due to the short term maturities of these instruments. Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised in a business combination, or is held for trading or it is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company retains substantially all the risk and rewards of transferred financial assets, the Company continues to recognise the financial asset and also recognises the borrowing for the proceeds received. The Company derecognises financial liabilities when, and only when, the Company’s obligation are discharged, cancelled or have expired.

2.9 Taxes on income

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the country.

The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted as at the reporting date and applicable for the period.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are recognised in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying units intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax asset are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when it relates to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

2.10 Earnings per Share:

"Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period. For calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares)."

2.11 Provisions and contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are neither recognised nor disclosed in the financial statements.

2.12 Recent pronouncements

The Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. On 23 March 2022, MCA amended the Companies (Ind AS) Amendment Rules, 2022, which are applicable from 1 April 2022. The Company does not expect the amendments to have any significant impact on the financial statements.

Earnings per share:		
Earnings per share (Basic) (in Euro)	4	14
Earnings per share (Diluted) (in Euro)	4	14

17 Financial Instruments and Risk Review

The Company's activities expose it to a variety of financial risks i.e. market risk, credit risk and liquidity risk. The Company operates a risk management policy and program that performs close monitoring of and responding to each risk factors. Following are the financial risk factors.

(a) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

(b) Credit Risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables.

Trade Receivable

Trade receivables consist of a single related party customer. Average credit period ranges from 20-30 days and no interest is charged on overdue receivables. The Company uses a practical expedient by computing the expected credit loss allowance for trade receivable based on a provision matrix which takes into account historical credit loss experience and adjusted for forward looking experience. As there is no history of defaults, no allowance for doubtful trade receivables based on the expected credit loss model is made.

Age of receivables

EUR in Hundreds

Particulars	As at 31-March-2022	As at 31-March-2021
Within the credit period	77	80
90-180 days past due	-	-
180- 365 days past due	-	-
More than 365 days past due	-	-

Cash and Bank Balances:

The Company maintains its cash and cash equivalents with bank having good reputation and high quality credit rating.

Credit Risk Exposure:

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was EUR 105,413 and EUR 109,342 as of 31 March 2022 and 31 March 2021 respectively, being the total of the carrying amount of balances with banks, trade receivables and other financial assets.

Liquidity Risk:

Liquidity risk refers to the risk that the company cannot meet its financial obligation. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirement.

The table below provides details regarding the contractual maturities of significant financial liabilities as on 31 March 2022:

INDEPENDENT AUDITOR'S REPORT

To the General Meeting of Tech Mahindra Norway AS

Opinion

We have audited the financial statements of Tech Mahindra Norway AS (the Company), which comprise the balance sheet as at 31 March 2022, the income statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion

- the financial statements comply with applicable statutory requirements, and
- the financial statements give a true and fair view of the financial position of the Company as at 31 March 2022, and its financial performance for the year then ended in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company as required by laws and regulations and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Board of Directors and the Managing Director (management) are responsible for the information in the Board of Directors' report. The other information comprises information in the annual report, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the information in the Board of Directors' report.

In connection with our audit of the financial statements, our responsibility is to read the Board of Directors' report. The purpose is to consider if there is material inconsistency between the Board of Directors' report and the financial statements or our knowledge obtained in the audit, or whether the Board of Directors' report otherwise appears to be materially misstated. We are required to report if there is a material misstatement in the Board of Directors' report. We have nothing to report in this regard.

Based on our knowledge obtained in the audit, it is our opinion that the Board of Directors' report

- is consistent with the financial statements and
- contains the information required by applicable legal requirements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern. The financial statements use the going concern basis of accounting insofar as it is not likely that the enterprise will cease operations.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error. We design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- conclude on the appropriateness of management's use of the going concern basis of accounting, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a true and fair view.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Oslo, 24th June 2022

Tech Mahindra Norway AS

Gaurav Gupta
Chairman of the Board

Rajesh Barwal
Board Member

NOTES TO THE ACCOUNTS, YEAR ENDED 31 MARCH 2022

Note 1 Accounting policies

The financial statements have been prepared in accordance with the Norwegian Accounting Act of 1998 and generally accepted accounting principles for small entities in Norway.

Valuation and classification of assets and liabilities

Assets intended for permanent ownership or use in the business are classified as non-current assets. Other assets are classified as current assets. Receivables due within one year are classified as current assets. The classification of current and non-current liabilities is based on the same criteria.

Current assets are valued at the lower of historical cost and fair value.

Fixed assets are carried at historical cost, but are written down to their recoverable amount if this is lower than the carrying amount and the decline is expected to be permanent. Fixed assets with a limited economic life are depreciated in accordance with a reasonable depreciation schedule.

Foreign currency

All balance sheet items denominated in foreign currencies are translated into NOK at the exchange rate prevailing at the balance sheet date.

Receivables

Trade receivables and other receivables are carried at face value less an allowance for expected losses. An estimate is made for doubtful debts based on a review of all amounts outstanding at the balance sheet date.

Cash and cash equivalents

Cash and cash equivalents include cash, bank deposits and other monetary instruments with a maturity of less than three months at the date of purchase.

Pensions

The company has a defined contribution plan and pays fixed contributions to an insurance company. After the contribution has been made the company has no further commitment to pay contributions relating to employee service in the current and prior periods. When employee services are rendered, the company recognizes the contribution payable in exchange for that service as a liability after deducting any contribution already paid. Prepaid contributions are reflected as an asset (pension fund) to the degree the contribution can be refunded or will reduce future payments.

Revenues

Arising form delivery of services:

Revenue is recognised when the service is performed. Revenue is measured at the fair value of the consideration received or receivable.

Cost of sales and other expenses

In principle, cost of sales and other expenses are recognised in the same period as the revenue to which they relate. In instances where there is no clear connection between the expense and revenue, the apportionment is estimated. Other exceptions to the matching criteria are disclosed where appropriate.

Income taxes

Tax expenses are matched with operating income before tax. Tax related to equity transactions e.g. group contribution, is recognised directly in equity.

Tax expense consists of current income tax expense and change in net deferred tax. The tax expense is allocated to ordinary income and the effect of extraordinary items in accordance with the respective taxable income. Deferred tax liabilities and deferred tax assets are presented net in the balance sheet.

Change in presentation during the year and comparative figures

During financial year 2020, Management changed the presentation of revenue and other operating expenses, from 'gross' presentation to 'net' presentation. The Company and its Parent Company act as sub-contractors to Tech Mahindra Limited (the 'Ultimate Parent Company') with respect to revenue contracts with external customers, where the risks are borne by the Ultimate Parent Company. Remuneration for such sub-contracting activities is based on the reimbursement of costs incurred plus a mark-up in accordance with a service agreement with the Ultimate Parent Company. Until 2020, the revenue from external customers and equivalent sub-contracting charges from the Ultimate Parent Company were shown on a gross basis in the financial statements of the Company under 'Revenue' and 'Other operating expenses' respectively. During 2020, in order to be consistent with the presentation followed by the Parent Company, the revenue from external customers is changed to net presentation of such sub-contracting charges.

Leases

Leases are accounted for as financial or operational leases after a specific assessment by the individual deal. Operating assets in leases assessed as financial leases are capitalized in the balance sheet and depreciated as fixed assets fixed assets. The installment part of the lease obligation is shown as other long-term debt. The obligation is reduced by paid rent after deduction of calculated interest cost.

Note 2 Number of employees, benefits, loan to employees etc.

	2021/2022	2020/2021
Average number of employees during the year:	15	19

Directors' remuneration

		Pensions	Other benefits	Salaries, fees	Pensions	Other benefits

Group companies	50,037,823	14,677,361		7,035,406
External	1,781,267	240,247		
Total	**51,819,091**	**14,917,607**	**-**	**7,035,406**

Note 7 Income tax expense

Specification of income tax expense:

	2021/2022	2020/2021
Current income tax expense	-	1,426,736
Changes in deferred tax	(15,667,568)	(542,699)
Effect of changes in tax rules	-	-
Tax on ordinary profit/(loss)	**(15,667,568)**	**884,037**

Specification of tax payable

	2021/2022	2020/2021
Current year income tax payable	-	1,426,736
Income tax payable for previous years (refer note i)	3,516,585	2,089,849
Prior year adjustments	-	-
Current income tax payable in Balance Sheet	**3,516,585**	**3,516,585**

i.Income tax payable for previous year refers to income tax payable for the period1 April 2020 to 31 March 2021,for which the due date for filing of return is 31 May 2022.

Specification of the tax effect of temporary differences and losses carried forward:

	2021/2022		2020/2021	
	Benefit	Liability	Benefit	Liability
Fixed assets	725,510		439,404	-
Leases		(185,715)	13,764	-
Tax loss c.f.	15,580,940			
Total	**16,306,450**	**(185,715)**	**453,168**	**-**

Reference is made to note 12 regarding acquisition from Tech Mahindra Limited. The Company has taken over the tax positions of the branch, including a tax loss carry forward of NOK 76.8 million.

Note 8 Equity transactions

This year's change in equity:	Share capital	Other paid-in equity	Other equity	Total equity
Equity at 1 April 2021	30,000	-	10,846,063	10,876,063
Profit/(loss) of the year		-	21,271,274	21,271,274
Received/given group contribution		-	-	-
Equity at 31 March 2022	**30,000**	**-**	**32,117,336**	**32,147,336**

This year's change in equity:	Share capital	Other paid-in equity	Other equity	Total equity
Equity at 1 April 2020	30,000	-	7,711,745	7,741,745
Profit/(loss) of the year		-	3,134,318	3,134,318
Received/given group contribution		-	-	-
Equity at 31 March 2021	**30,000**	**-**	**10,846,063**	**10,876,063**

Note 9 Bank deposits

Bank deposits, cash etc. include restricted tax deduction funds of NOK 1,235,675.43 (March 2020: NOK 812,997.43).

Note 10 Subsequent events

The Company does not foresee any material impact on its revenue and customer's ability to pay due to the prolonged lock down and other impacts of the COVID-19 pandemic. However, the impact assessment of COVID-19 is a continuous process given the uncertainties associated with its nature and duration.

Note 11

Previous year numbers have been re-grouped or re-classified as required.

Note 12 – Acquisition from Tech Mahindra Limited

In 2021 Tech Mahindra Limited decided to discontinue the activities in the Norwegian branch. The employees and the business was taken over by Tech Mahindra Norway AS, and with effect from 1 April 2021 the Company also concluded an asset purchase agreement with Tech Mahindra Limited to buy the assets and liabilities of the Norway branch. The assets acquired consisted mainly of cash, current assets and some short term liabilities.

The consideration paid was NOK 10.5 million. The tax position of the Norway branch is taken over by Tech Mahindra Norway AS.

ANNEX OF ANNUAL ACCOUNTS MARCH 31ST 2022

GENERAL

Financial year

The company TECH MAHINDRA LUXEMBOURG SARL (R.CS B244350) was incorporated on May 27th, 2020 for an unlimited period, as Limited company. The registered office of the company is established in 27, rue de Luxembourg - 8077 Bertrange.

The company has the purpose of the Expansion of IT services and solutions.

The Company's financial year begins on the April 1st and closes on the March 31st.

According to the article n° 313 of the law modified of August 10th, 1915 on trading companies, the company is exempted to establish the consolidated accounts.

GENERAL PRINCIPLES

The annual accounts of the Company are drawn up in conformity with the Luxembourg legal and regulatory requirements and according to generally accepted accounting principles applicable in Luxembourg.

Note 01 Main rules of evaluation

Foreign currency translation

The Company maintains its accounts in Euro (EUR); the balance sheet and the account of profits and losses are expressed in this currency.

At the closing date of the balance sheet:

- Formation expenses as well as intangible, tangible and financial fixed assets expressed in another currency than the currency of the balance sheet are translated at the historical foreign exchange rate;
- Other assets and liabilities are translated separately respectively at the lower or at the higher of the value converted at the historical exchange rate or the value determined on the basis of the exchange rates effective at the balance sheet date.

The unrealized exchanges losses are recorded in the profit and loss account. The realized exchange gains are recorded in the profit and loss account at the moment of their realization. Consequently, only realized exchange gains and losses and unrealized exchange losses are reflected in the profit and loss accounts.

Formation expenses

The formation expenses are taken in charge immediately or amortized on a linear basis over a period of 5 years.

Intangible assets

Intangible assets are accounted in their acquisition price, deduction made by the corrections values.

The corrections values are calculated in a linear way on basis of their estimated useful life's.

Tangible assets

The tangible assets are accounted in their acquisition price, deduction made by the corrections values.

The corrections values are calculated in a linear way on basis of their estimated useful life's.

Financial fixed assets

Participations in affiliated companies as well as participations and securities characterized as fixed assets are valued individually at the lower of acquisition cost or market value.

The determination of the market value is based on the financial statements of the companies to be valued and/or on other available information and documents.

Receivables itemized as financial fixed assets are valued at face value. A value adjustment is carried out whenever the estimated realizable value is lower than the face value.

Accounts receivable

Accounts receivable are valued at their nominal value. A value adjustment is carried out whenever the estimated realizable value is lower than the nominal value.

Stocks

The raw and consumable are estimated at the lowest acquisition price determined according to the method average prices.

Products in progress of manufacturing and finished products are estimated at the cost price which includes (according to the art. 61 (2)) the purchase price of the raw and consumable, the direct costs of production, as well as a share of the indirect expenses. A value adjustment is applied when the estimated value of realization is lower than the cost price.

Marketable securities

The acquisition cost of marketable securities is determined on basis of the method average prices (or FIFO or LIFO or similar method). A value adjustment is applied when the estimated value of realization is lower than the acquisition cost.

Provisions for risks and charges

Provisions shall be made at year end for the purpose of covering all and any foreseeable risk and expense. Provisions relating to previous years shall be received on a regular basis and taken into result when becoming without purpose.

The immune capital gains

The immune capital gains are accounted for their difference between the value of realization of fixed assets and the accounting net value. The capital gains are deducted from the purchase price of fixed assets acquired in re-use.

Subsidies of investment

The subsidies of investment are accounted as soon as the company considers, in best of its knowledge, their probable or unquestionable obtaining.

They are accounted under deduction of the deferred taxes.

Amount net turnover

Net amount of the turnover includes amounts resulting from the sale of products and from the service corresponding to the common activities of the company, the deduction made by reductions on sales, as well as by value-added tax and the others taxes were directly connected to the turnover.

DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2022

The directors present their report and the financial statements for the year ended 31 March 2022.

Directors' responsibilities statement

The directors are responsible for preparing the Strategic report, the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies for the Company's financial statements and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements and other information included in Directors' reports may differ from legislation in other jurisdictions.

Results and dividends

The profit for the year, after taxation, amounted to £8,476,215 (2021 loss £12,313,738).

No ordinary dividends were paid. The directors do not recommend payment of a final dividend.

Directors

The directors who served during the year were:

Mr Lakshmanan Chidambaram

Mr Vikram Nair

Mr Belavadi Sathisha

Mr Manish Upadhyay (appointed 11 June 2021)

Disclosure of information to auditors

Each of the persons who are directors at the time when this Directors' report is approved has confirmed that:

- so far as the director is aware, there is no relevant audit information of which the Company's auditors are unaware, and
- the director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Auditors

The auditors, MHA MacIntyre Hudson, will be proposed for reappointment in accordance with section 485 of the Companies Act 2006.

This report was approved by the board and signed on its behalf.

Vikram Nair

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF TECH MAHINDRA LONDON LIMITED

Opinion

We have audited the financial statements of Tech Mahindra London Limited (the 'Company') for the year ended 31 March 2022, which comprise the Statement of comprehensive income, the Statement of financial position and the related notes, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 March 2022 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the United Kingdom, including the Financial Reporting Council's Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the Annual Report other than the financial statements and our Auditors' report thereon. The directors are responsible for the other information contained within the Annual Report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic report and the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic report and the Directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic report or the Directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the Directors' responsibilities statement set out above the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

•Discussions held with management and those charged with governance around any legal claim. •Audit work performed over key risk areas identified such as management override and reviewing accounting estimates for bias.

•Review of financial statement disclosures to ensure accounting policies have been correctly followed.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our Auditors' report.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an Auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

1. General information

Tech Mahindra London Limited (formerly known as Mahindra Engineering Services (Europe) Limited) is a private company limited by shares incorporated in England and Wales. The registered office is Atrium Court, The Ring, Bracknell, Berkshire, RG12 1BW.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The following principal accounting policies have been applied:

2.2 Financial reporting standard 102 reduced disclosure exemptions

The company has taken advantage of the following disclosure exemptions in preparing these financial statements, as permitted by the FRS 102 “The Financial Reporting Standard applicable in the UK and Republic of Ireland”:

- the requirements of Section 7 Statement of Cash Flows;
- the requirements of Section 3 Financial Statement Presentation paragraph 3.17(d);
- the requirements of Section 33 Related Party Disclosures paragraph 33.7.

This information is included in the consolidated financial statements of Tech Mahindra Limited as at 31 March 2022 and these financial statements may be obtained from Gateway Building, Apollo Bunder, Mumbai, Maharashtra, 40001, India..

2.3 Going concern

At the time of approving the financial statements, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus the directors continue to adopt the going concern basis of accounting in preparing the financial statements.

2.4 Foreign currency translation

Functional and presentation currency

The Company’s functional and presentational currency is GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges.

2.5 Interest income

Interest income is recognised in profit or loss using the effective interest method.

2.6 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2.7 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Statement of financial position date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

2.8 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

Investments in unlisted Company shares, whose market value can be reliably determined, are remeasured to market value at each balance sheet date. Gains and losses on remeasurement are recognised in the Statement of comprehensive income for the period. Where market value cannot be reliably determined, such investments are stated at historic cost less impairment.

Investments in listed company shares are remeasured to market value at each Statement of financial position date. Gains and losses on remeasurement are recognised in profit or loss for the period.

2.9 Associates and joint ventures

Associates and Joint Ventures are held at cost less impairment.

2.10 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.11 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.12 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.13 Financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of financial position when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

3. Auditors' remuneration

	2022 **£**	2021 £
Fees payable to the Company's auditor and its associates for the audit of the Company's annual financial statements	**6,350**	5,350

The Company has taken advantage of the exemption not to disclose amounts paid for non audit services as these are disclosed in the group accounts of the parent Company.

4. Employees

Staff costs were as follows:

The Company has no employees other than the directors, who did not receive any remuneration (2021 £NIL).

The average monthly number of employees, including directors, during the year was 0 (2021 0).

5. Income from investments	**2022** **£**	2021 £

BOARD OF DIRECTORS REPORT

The Board of Directors of Tech Mahindra Sweden AB, Stockholm, hereby issue the Annual Report for the financial year 2021-04-01 to 2022-03-31.

The annual reports are stated in Swedish Kronor (SEK) and refer to the individual company Tech Mahindra Sweden AB.

Directors

The directors who served during the year were Mr. Gaurav Gupta and Mr. Rajesh Premraj Barwal. During the year under review, Mr Kishan Chuckun resigned on 31st August 2021 and Mr Niraj Akhouri was appointed with effect from 1st September 2021 as a Director of the company.

General Information about the business:

The company's business activities focus on providing consulting technology and outsourcing services to all the sectors.

In general, the company renders services to its parent company under Service Provider agreement. This form of transactions implies that the contracts are concluded between the parent company and the end customer. Sweden AB thereby acts as a sub-contractor for the parent company and does not bear any risks. The compensation for such services rendered is based on the reimbursement of cost incurred plus a mark-up.

The company's registered office is in Stockholm, Sweden.

Multi-year comparison*

The amounts in Multi-year comparison are shown in KSEK

Tech Mahindra aims at delivering tomorrow's experiences today, and believes that the 'Future is Now'.

Tech Mahindra Limited have also offices in several cities in India, USA, UK, Singapore, Australia, New Zeeland, Germany, Malaysia, Thailand, United Arab Emirates, Indonesia, Belgium and Canada.

Significant events during the financial year:

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue and intangible assets. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established

AUDITOR'S REPORT

To the general meeting of the shareholders of Tech Mahindra Sweden AB , corp. id 559063-4043

Report on the annual accounts

Opinions

We have audited the annual accounts of Tech Mahindra Sweden AB for the financial year 2021-04-01—2022-03-31.

In our opinion, the annual accounts have been prepared in accordance with the Annual Accounts Act, and present fairly, in all material respects, the financial position of Tech Mahindra Sweden AB as of 31 March 2022 and its financial performance for the year then ended in accordance with the Annual Accounts Act. The statutory administration report is consistent with the other parts of the annual accounts.

We therefore recommend that the general meeting of shareholders adopts the income statement and balance sheet.

Basis for Opinions

We conducted our audit in accordance with International Standards on Auditing (ISA) and generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of Tech Mahindra Sweden AB in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Responsibilities of the Board of Directors and the Managing Director

The Board of Directors and the Managing Director are responsible for the preparation of the annual accounts and that they give a fair presentation in accordance with the Annual Accounts Act. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts The Board of Directors and the Managing Director are responsible for the assessment of the company's ability to continue as a going concern. They disclose, as applicable, matters related to going concern and using the going concern basis of accounting. The going concern basis of accounting is however not applied if the Board of Directors and the Managing Director intend to liquidate the company, to cease operations, or has no realistic alternative but to do so.

Auditor's responsibility

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and generally accepted auditing standards in Sweden will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of the company's internal control relevant to our audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors and the Managing Director.
- Conclude on the appropriateness of the Board of Directors' and the Managing Director's, use of the going concern basis of accounting in preparing the annual accounts. We also draw a conclusion, based on the audit evidence obtained, as to whether any material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion about the annual accounts. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We must inform the Board of Directors of, among other matters, the planned scope and timing of the audit. We must also inform of significant audit findings during our audit, including any significant deficiencies in internal control that we identified.

Report on other legal and regulatory requirements

Opinions

In addition to our audit of the annual accounts, we have also audited the administration of the Board of Directors and the Managing Director of Tech Mahindra Sweden AB for the financial year 2021-04-01—2022-03-31 and the proposed appropriations of the company's profit or loss.

We recommend to the general meeting of shareholders that the profit be appropriated in accordance with the proposal in the statutory administration report and that the members of the Board of Directors and the Managing Director be discharged from liability for the financial year.

Basis for Opinions

We conducted the audit in accordance with generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor’s Responsibilities section. We are independent of Tech Mahindra Sweden AB in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Responsibilities of the Board of Directors and the Managing Director

The Board of Directors is responsible for the proposal for appropriations of the company’s profit or loss. At the proposal of a dividend, this includes an assessment of whether the dividend is justifiable considering the requirements which the company's type of operations, size and risks place on the size of the company's equity, consolidation requirements, liquidity and position in general.

The Board of Directors is responsible for the company’s organization and the administration of the company’s affairs. This includes among other things continuous assessment of the company’s financial situation and ensuring that the company's organization is designed so that the accounting, management of assets and the company’s financial affairs otherwise are controlled in a reassuring manner.

The Managing Director shall manage the ongoing administration according to the Board of Directors' guidelines and instructions and among other matters take measures that are necessary to fulfill the company's accounting in accordance with law and handle the management of assets in a reassuring manner.

Auditor’s responsibility

Our objective concerning the audit of the administration, and thereby our opinion about discharge from liability, is to obtain audit evidence to assess with a reasonable degree of assurance whether any member of the Board of Directors or the Managing Director in any material respect:

- has undertaken any action or been guilty of any omission which can give rise to liability to the company, or
- in any other way has acted in contravention of the Companies Act, the Annual Accounts Act or the Articles of Association.

Our objective concerning the audit of the proposed appropriations of the company’s profit or loss, and thereby our opinion about this, is to assess with reasonable degree of assurance whether the proposal is in accordance with the Companies Act.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with generally accepted auditing standards in Sweden will always detect actions or omissions that can give rise to liability to the company, or that the proposed appropriations of the company’s profit or loss are not in accordance with the Companies Act.

As part of an audit in accordance with generally accepted auditing standards in Sweden, we exercise professional judgment and maintain professional scepticism throughout the audit. The examination of the administration and the proposed appropriations of the company’s profit or loss is based primarily on the audit of the accounts. Additional audit procedures performed are based on our professional judgment with starting point in risk and materiality. This means that we focus the examination on such actions, areas and relationships that are material for the operations and where deviations and violations would have particular importance for the company’s situation. We examine and test decisions undertaken, support for decisions, actions taken and other circumstances that are relevant to our opinion concerning discharge from liability. As a basis for our opinion on the Board of Directors’ proposed appropriations of the company’s profit or loss we examined whether the proposal is in accordance with the Companies Act.

NOTES TO ACCOUNT FOR THE YEAR ENDED 31 MARCH 2022

Note 1 Accounting policies

The financial statements have been prepared in accordance with the Annual Accounts Act and general advice from Swedish Accounting Standards Board BFNAR 2012:1 Annual accounts and consolidated accounts.

The policies are unchanged compared with the previous year.

Revenue recognition

Revenue relates to income from sub-contracting activities relating to rendering of IT services on behalf of the Parent Company 'Tech Mahindra Limited'.

Revenue is recognised on the basis of reimbursement of costs incurred plus markup.

Revenue is measured at the fair value of the consideration received or receivable.

Receivables

Receivables are recorded in the amounts at which they are expected to be received.

Other assets, provisions & liabilities

Other assets, provisions & liabilities are recorded at cost of acquisition unless otherwise stated below.

Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and bank balances which are recognised at nominal value.

Tangible Fixed Assets

Tangible Fixed Assets are recorded at cost of acquisition less accumulated depreciation and any write downs.

The assets are depreciated on straight line basis over the estimated useful life apart from land, which is not depreciated.

The useful life is reviewed at every balance sheet date. The useful life of computers and laptops is 3 years.

Other expenses

Other expenses are recognised in the same period as the revenue to which they relate.

Income taxes

Current tax is income tax for the current financial year that refers to the year's taxable earnings.

Current tax is stated at the probable amount according to the tax rates and tax rules applicable on the Balance Sheet date.

Foreign currency translation

Monetary receivables and liabilities in foreign currencies have been restated at the closing rate.

Exchange differences arising on settlement or restatement of monetary items are recognised in the income statement in the financial year in which they occur, either as an operating item or a financial item, on the basis of the underlying business transaction.

Note 2 Number of employees, benefits, loan to employees etc.

	31-Mar-21	31-Mar-21
Average number of employees:	24	15

The average number of employees is based on hours worked related to normal working hours paid for by the company.

Note 3 Personnel costs

Payroll costs	**2021/2022**	**2020/2021**
Wages and salaries	20,957,143	10,152,264
Social security tax	6,887,236	3,260,471
Pension costs	5,336,961	2,936,757
Other benefits	2,873,869	1,327,576
Total	**36,055,209**	**17,677,068**

Note 4 Share capital and shareholder information

The share capital in the company at 31 March 2022 consists of the following classes:

TC INTER-INFORMATICS a.s. is a supplier for engineering services in the field of engineering. It is a 100 % subsidiary of TECH MAHINDRA LONDON LIMITED, which is a member of the Tech Mahindra Group.

The company's strategy is based on the overall Group's strategy:

By providing comprehensive solutions in the field of engineering services to help customers improve their market position (e.g. by transferring new knowledge and experience, reducing costs, accelerating and streamlining internal processes).

REPORT ON THE COMPANY BUSINESS ACTIVITIES AND MANAGEMENT

Past and projected developments and outlook for the next period

The financial year 2021 was already marked by a gradual increase in the field of aviation which was most negatively affected by the market situation during the Covid-19 pandemic.

This issue concerns mainly a strategic customer Airbus Group and Safran Group.

There is a gradual capacity release regarding designers, who had been due to the incurred crises in aviation successfully and for a temporary period of time involved in projects in areas of Rail and Machinery, and who are currently working on projects in these fields, back into aviation.

Since the company was thus able to maintain namely the same capacities and subsequently return those to aerospace projects according to the customers´ requirements, it created a very good starting position for a successful restart of cooperation that is the basis for further strategic cooperation.

Especially with the company Safran Cabin Germany and Safran Cabin CZ,
TC INTER-INFORMATICS is becoming the only external strategic service provider.
In addition to the standard services we have been providing on a long-term basis, we have successfully launched and thus expanded our cooperation in the field of embedded software engineering, for controlling embedded appliances in Safran´s main production products in Herborn, Germany.

The company also expects a further increase in orders in the fields of Rail + Machinery, which were not negatively affected by Covid situation.

For the new upcoming financial period a new business plan has been created that takes into account the main growth factors, new areas of business interest and the necessary knowledge and capacity to ensure implementation.

This is mainly due to further growth in existing customers such as Škoda Transportation, Safran Group, Airbus Group or Doosan Bobcat.

A further expansion into another new field – Automotive – is expected, which in addition to the three (3) existing business units (Aerospace, Rail and Machinery) will contribute to even greater stability of the company which will be in this way in the future able to cope even more successfully with possible crisis scenarios in the concerned area caused by the negative market situation.

The basis of the expansion is to build a so called core team with the active support of the owner, mainly due to his long-term experience and references in this field.

At the same time, the company also responds to the market situation within its marketing campaign, it uses its local presence and expands its competences.

In line with the new business plan, two main performance indicators of the company, i.e. Revenue and Ebitda, have been defined by the owner as the new target for the financial year 2022.

Among significant events expected to occur during the new business and financial year counts especially the expected announced Airbus CFT for Cabin & Cargo and the presentation of TC INTER-INFORMATICS together with the owner TechM at trade fair Hamburg Interiors Expo 2022.

The company also plans to relocate to new representative premises within the given location, which was unfortunately delayed due to the Covid-19 pandemic.

Also in the new financial year in 2022, the company focuses primarily on **business activities in Europe with the aim of further growth.**

Due to the fact that the company has no business activities, partners or suppliers in Ukraine or, else in Russia, the crisis in Ukraine has no negative impact on the company TC INTER-INFORMATICS.

The management of TC INTER-INFORMATICS a.s. here expresses its thanks and appreciation to all employees for the work done in the past period and at the same time for their trust and loyalty to the company.

Research & Development activities

The company did not spend any Research & Development funds in 2021.

Activities in the field of environment and labour relations

The company adheres to all regulations in the field of labour relations and creates good working conditions. The company has no environmental activities.

Information on facts occurring after the balance sheet date

After the balance sheet date until the date of preparation of the accounts, there were no facts that were material and would had not been described in the notes on the accounts.

Affidavit

The data provided in the Annual Report of TC INTER-INFORMATICS a.s. for the period from 1 April 2021 to 31 March 2022 correspond to facts and no material circumstances that could affect the precise and correct assessment of the company were omitted.

10) Conclusion

Board of Directors of TC INTER-INFORMATICS a.s., based in Prague 9, Kolčavka 3/75, as the statutory body of the controlling entity, pursuant to Section 82 of Act No. 90/2012 Coll. on Business Corporations, (hereinafter referred to as the "ZOK"), prepared the following report on relations between the controlling and controlled entity and the persons controlled by this controlling entity (hereinafter referred to as connected persons) for the financial year from 1 April 2021 to 31 March 2022.

1. <u>Controlling entity</u>

a. Company: TECH MAHINDRA LONDON LIMITED

b. Based: Atrium Court, The Ring, Bracknell, Berkshire, RG12 1BW, United Kingdom of Great Britain and Northern Ireland

c. Company existing under the law of England and Wales registered under registration number 4117035

2. <u>Controlled entity</u>

a. Company: TC INTER-INFORMATICS a.s

b. Based: Prague 9, Kolčavka 3/75, Post Code 190 00

c. Registered in the Commercial Register maintained by the Municipal Court in Prague, section B, insert 8494

3. <u>Related persons - Persons controlled by the same person</u>

a. Company: none

4. <u>Scheme of indicated persons</u>

TECH MAHINDRA LONDON LIMITED - controlling (mother) company Controlled (subsidiary) companies:

TC INTER-INFORMATICS a.s

- Based in Prague 9, Kolčavka 3/75, Post Code 190 00
- Registered in the Commercial Register maintained by the Municipal Court in Prague, section B, insert 8494

5. <u>Structure of relationships, role of the controlled person, method and means of controlling the person or connected persons</u>

a. In the group, individual companies have subsequently divided the following roles:

  i. TECH MAHINDRA LONDON LIMITED - company owner, definition of the scope of the object of the activity

  ii. TC INTER-INFORMATICS a.s . - provision of services to the defined extent

b. All relations between 1 April 2021 and 31 March 2022 were managed and implemented in accordance with the set processes in the group. No specific operations have been carried out which would have been atypical.

6. <u>Overview of mutual contracts concluded with the controlling entity and related persons:</u>

a. In the period from 1 April 2021 to 31 March 2022, no other contracts were concluded between the controlled entity and the controlling entity, which dealt with business relations according to the regular rules in force in the group.

b. The volumes of mutual relations and balances of receivables and liabilities as of 31 March 2022 are shown in the financial statements of TC INTER-INFORMATICS a.s.

c. List of concluded contracts:

   i. The contract service provider agreement of 13 February 2019 between Tech Mahindra Limited and TC INTER-INFORMATICS a.s.

7. <u>Assessment of the injury suffered by the controlled person and its compensation</u>

a. Due to the nature of the business and the relevant contracts concluded, in our opinion there was no harm done to the controlled entity.

8. <u>Assessment of the advantages and disadvantages of relations with the controlling entity and related persons, including possible risks</u>

a. Relations with the controlling entity take place under standard conditions that are advantageous for both individual companies.

9. <u>Confidentiality of Information</u>

a. Confidential information that can't be made publicly available is considered to be information and facts that are part of the business secrets of the Controlling Entity, the Controlled Entity and the Connected Persons, as well as information that has been disclosed as confidential to any of these persons. Furthermore, it is all information from the business dealings that could lead, on its own or in connection with other information and facts, to the detriment of any of those persons.

10. <u>Conclusion</u>

a. Board of Directors of TC INTER-INFORMATICS a.s . states that, with due managerial care, it has made the necessary efforts to identify the circle of connected persons, in particular by questioning the controlling entity about the circle of persons controlled by that person.

b. The Board of Directors of TC INTER-INFORMATICS a.s. considers that the pecuniary benefits or consideration, provided on the basis of the above specified relationships were provided in the usual amount.

c. This report on relations was prepared by the statutory body of the controlled entity TC INTER-INFORMATICS a.s. on 13 May 2022.

Ing. Karel Kollert
Member of the Board of Directors

TC INTER-INFORMATICS a.s.

INDEPENDENT AUDITOR'S REPORT

To the shareholders of TC INTER-INFORMATICS a.s.

Opinion

We have audited the accompanying financial statements of TC INTER-INFORMATICS a.s. (hereinafter also the “Company”) prepared in accordance with accounting principles generally accepted in the Czech Republic, which is comprised of the balance sheet as at 31 March 2022, the income statement, statement of changes in equity and cash flow statement for the period from 1 April 2021 to 31 March 2022 and notes to the financial statements, including a summary of significant accounting policies, and other explanatory information. For details of the Company, see the introductory part of the notes to the financial statements.

In our opinion, the financial statements give a true and fair view of the financial position of TC INTER-INFORMATICS a.s. as at 31 March 2022, of its financial performance and its cash flows for the period from 1 April 2021 to 31 March 2022 in accordance with accounting principles generally accepted in the Czech Republic.

Basis for Opinion

We conducted our audit in accordance with the Act on Auditors and Auditing Standards of the Chamber of Auditors of the Czech Republic, which are International Standards on Auditing (ISAs), as amended by the related application clauses. Our responsibilities under this law and regulation are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Act on Auditors and the Code of Ethics adopted by the Chamber of Auditors of the Czech Republic and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

In compliance with Section 2(b) of the Act on Auditors, the other information comprises the information included in the Annual Report other than the financial statements and auditor’s report thereon. The Statutory Body is responsible for the other information.

Our opinion on the financial statements does not cover the other information. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge about the Company obtained in the audit or otherwise appears to be materially misstated. In addition, we assess whether the other information has been prepared, in all material respects, in accordance with applicable law and regulation, in particular, whether the other information complies with law and regulation in terms of formal requirements and procedure for preparing the other information in the context of materiality, i.e. whether any non¬compliance with these requirements could influence judgments made on the basis of the other information.

Based on the procedures performed, to the extent we are able to assess it, we report that:

- The other information describing the facts that are also presented in the financial statements is, in all material respects, consistent with the financial statements; and
- The other information is prepared in compliance with applicable law and regulation.

  In addition, our responsibility is to report, based on the knowledge and understanding of the Company obtained in the audit, on whether the other information contains any material misstatement of fact. Based on the procedures we have performed on the other information obtained, we have not identified any material misstatement of fact.

Responsibilities of the Company’s Statutory bodies for the Financial Statements

Statutory bodies are responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the Czech Republic and for such internal control as Statutory bodies determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Statutory bodies are responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Statutory bodies either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the above mentioned laws and regulations will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the above law or regulation, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the statutory bodies.
- Conclude on the appropriateness of the Statutory bodies' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the statutory bodies regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1. DESCRIPTION OF THE COMPANY

TC INTER-INFORMATICS a.s. is a joint stock company seated at Kolčavka 3/75, 190 00 Praha 9, Czech Republic, identification number 270 70 115. The Company was incorporated following its registration in the Register of Companies held by the Court in Prague on 23 June 2003, section B, part 8494.

The principal activities of the Company are production, trade and services not stated in Annexes 1 to 3 in Entrepreneurs Act.

These financial statements are prepared as individual financial statements.

The company complies with the Commercial Act in its entirety.

There are no agreements between shareholders stipulating control without respect to the share on share capital.

There is no profit transfer agreement either agreement to perform control.

These financial statements are presented in thousands of Czech crowns (CZK '000), unless stated otherwise.

The following table shows individuals and legal entities with an equity interest greater than 20 percent and the amount of their equity interest:

Shareholder	**% on share capital**
TECH MAHINDRA LONDON LIMITED	100 %
Total	**100 %**

Changes and amendments made in the period from 1 April 2020 to 31 March 2021 at the Register of Companies:

The change of the name of 100% shareholder was registered in the Commercial Register on February 7, 2022 from MAHINDRA ENGINEERING SERVICES (EUROPE) LIMITED to TECH MAHINDRA LONDON LIMITED.

Board of Directors and Supervisory Board at 31 March 2022

	Function	**Name**
Board of Directors	Chairman	Belavadi Krishna Rao Sathisha
	Member	Venkateswara Rao Gajjala
	Member	Karel Kollert

The members of the Supervisory Board have not been appointed.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Company's accounting books and records are maintained and the financial statements were prepared in accordance with the Accounting Act 563/1991 Coll., as amended; the Regulation 500/2002 Coll. which provides implementation guidance on certain provisions of the Accounting Act for reporting entities that are businesses maintaining double-entry accounting records, as amended; and Czech Accounting Standards for Businesses, as amended.

Financial statements are prepared as of 31 March 2022 and for the period from 1 April 2021 to 31 March 2022 (hereinafter "year 2021").

3. ACCOUNTING PRINCIPLES AND POLICIES AND THEIR CHANGES

The company used the following measurement basis during preparation of financial statements for 2021:

a) Intangible fixed assets

Intangible fixed assets are measured at costs that include cost of purchase and other costs associated with the acquisition.

Internally generated intangibles are measured at internal costs incurred.

Intangibles with cost exceeding CZK 60 thousand in 2021 are amortized to expenses.

Method of amortization - the company amortizes intangibles in accordance with Income Tax Act.

Capital expenditure increases the cost of intangible assets. Repairs and maintenance expenditure is expensed when incurred.

Provisioning

Provisions were made against impaired/obsolete intangible fixed assets based on the results of the inventory taking, to the extent that the valuation temporarily does not correspond with the actual balance.

b) Tangible fixed assets

Tangible fixed assets are measured at costs that include cost of purchase and other costs associated with the acquisition.

Tangibles with cost exceeding CZK 20 thousand in 2021 are depreciated.

Method of depreciation – the company depreciates tangibles in accordance with Income Tax Act.

Capital expenditure increases the cost of tangible assets. Repairs and maintenance expenditure is expensed when incurred.

c) Cash

Cash consists of stamps, cash in hand and cash at bank. Cash is measured at nominal value.

d) Inventory

Inventory is accounted for under method B.

Work is measured at costs incurred. Costs incurred are measured at actual costs determined by the entity. Costs incurred include direct costs and may include also attributable indirect costs related to the period.

e) Receivables

Upon origination, receivables are stated at their nominal value as subsequently reduced by appropriate provisions for doubtful and bad amounts. Receivables acquired for consideration or as an investment to the equity are stated at cost less provisions for doubtful and uncollectible amounts.

The Company recognizes provisions for receivables based on ageing analysis and individual assessment.

Estimated receivables are measured based on best professional estimates and judgements.

f) Equity

Share capital is recognized in the amount registered at the Commercial Register of the City Court of Prague. Contributions exceeding share capital are recognized as other capital funds. They consist of monetary contributions exceeding the amount of share capital.

The company can create other capital funds based on the resolution of annual meeting.

g) Liabilities

Long-term and current liabilities are measured at nominal values.

Estimated liabilities are measured based on best professional estimates and judgements.

h) Reserves

Reserves to cover liabilities and expenditure the nature of which is clearly defined and which are either likely to be incurred or certain to be incurred as of the balance sheet date but uncertain as to their amount or as to the date on which they will arise.

The company creates reserves for known risks for which a future probable liability is assumed, in particular a restructuring reserve, a reserve for outstanding vacation days and anniversaries, a reserve for repairs under warranty.

i) Leasing

Lease repayments are expensed as incurred. The initial lump-sum payment related to leases is amortised and expensed over the lease period.

j) Foreign currency translation

Assets and liabilities acquired for foreign currency are measured at Czech crowns at an exchange rate ruling at the date of the transaction. Monetary items were translated as of the balance sheet using Czech National Bank exchange rates as at 31.3.

All exchange gains and losses are recognized as financial income or financial expenses in the income statement.

k) Accounting for revenue and expenses

Revenue and expenses are recognized on an accrual basis in the period to which they relate.

l) Income tax

Tax expense is calculated using the actual tax rate and accounting profit increased or decreased by temporarily or permanently non-deductible expenses and non-taxable income. Further the tax base is adjusted for gifts, other items like tax losses, research and development incentives and tax reliefs.

Deferred tax represents tax impact of temporary differences between carrying amounts of assets and liabilities and their tax bases taking into account the moment of realization. In accordance with the prudence principle the entity does not recognize deferred tax assets.

m) Subsequent events

The impact of events occurring between the balance sheet date and the date of preparation of financial statements is recognized if these events provided additional information about transactions existing at balance sheet date.

The impact of significant events occurring between the balance sheet date and the date of preparation of financial statements is disclosed in the notes to the financial statements if these events relate to transactions occurring after the balance sheet date.

4. NON-CURRENT ASSETS

Up to 60 days overdue	1 146	2 475
Up to 90 days overdue	0	163
Up to 365 days overdue	0	0
Over 365 days overdue	1 162	4 510
Total overdue receivables	**2 410**	**16 521**

Provision for bad debts (CZK thousand):

As of 31 March 2021	1 707
Release of provisions	-546
Creation of provisions	518
As of 31 March 2022	1 679

There are no receivables more due in more than 5 years.

Estimated receivables consist mainly of expected receivables for unbilled services.

7. PREPAYMENTS

Prepayments include mostly rent of licences, rent of hardware, training. They are expensed in a period they relate to.

8. EQUITY

Share capital consists of 51 shares fully paid up with a nominal value of CZK 500,000 each. Other capital funds in the amount of CZK 180,827 thousand as of 31 March 2022 represent contributions beside share capital (as of 1 April 2021: CZK 129,977 thousand). The shareholder approved the provision of a voluntary contribution to the Other Capital Funds in the amount of CZK 50,850,000 see the Resolution dated August 16, 2021. This contribution has been repaid by capitalizing the loan provided by the parent company from the loan.

9. PROVISIONS

	Balance b/f 1 April 2021	Additions	Release	Balance c/f 31 March 2022
Restructuralization	4 696	0	-2 020	2676
Unused vacation	3 224	3 088	-3 374	2 938
Other employee benefits	268	147	-268	147

Total	**9 972**	**3 518**	**-5 996**	**7 494**

10. LIABILITIES

The Company has no liabilities due in more than 5 years.

Long-term liabilities at 31 March 2022 amount to CZK 0 thousand (at 31 March 2021: CZK 0 thousand). Current liabilities at 31 March 2022 amount to CZK 22,478 thousand, including trade payables of CZK 2,510 thousand (at 31 March 2021: CZK 104,206 thousand, including trade payables of CZK 4,289 thousand).

Accruals represent mainly subcontracts and services provided in 2021.

Related party liabilities are presented in note 15.

11. INCOME TAX

Analysis of deferred tax asset:

- difference between carrying amount and tax base of non-current assets: CZK 635 thousand
- provisions related to non-current assets: CZK 319 thousand
- provisions: CZK 1,424 thousand
- unused tax losses: CZK 15,389 thousand

Deferred tax asset amounts to CZK 17,767 thousand. The company does not recognize the deferred tax asset in accordance with the principle of prudence.

12. REVENUE

Revenue from sale of services (CZK thousand)	**31 March 2021**	**31 March 2022**
1. Domestic sales	73 687	109 230
2. EU sales	27 369	32 290
3. Third countries	5 507	9 165
Revenue from sale of goods (CZK thousand)	0	90
Total	**106 563**	**150 775**

Other operating revenues represent mainly subsidies received in relation to the COVID-19 pandemic.

13. STAFF COSTS

Analysis of staff costs (in CZK thousand):

	Total as at 31 March 2021	**Including: Board of directors**	**Total as at 31 March 2022**	**Including: Board of directors**
Average number of employees	125	3	103	3
Salaries	75 434	3 821	66 677	3 967

Total	**8 388**	**545**

16. SIGNIFICANT EVENTS AFTER BALANCE SHEET DATE

No events occurred subsequent to the balance sheet date that would have a material impact on the financial statements.

In late February 2022 ongoing political tension between Russia and Ukraine escalated in a conflict with a military invasion of Russian forces in Ukraine. The worldwide reaction to Russia's violation of international law and aggression against Ukraine was the imposition of extensive sanctions and limitations on business activity. We consider these acts as non-adjusting post balance sheet events. Overall effect of the recent development is increased volatility in the financial and commodity markets, as well as consequences on the economy in general. Business risks comprising adverse effects of economic sanctions imposed on Russia, business interruptions (including supply chain), increased occurrences of cyber-attacks, legal and regulatory compliance risk and many other are difficult to assess and the full nature and possible effects of these are unknown.

17. STATEMENT OF CHANGES IN EQUITY

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Tech Mahindra (Thailand) Limited

Opinion

I have audited the financial statements of Tech Mahindra (Thailand) Limited (the "Company"), which comprise the statement of financial position as at 31 March 2022, the statements of income and changes in equity for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2022 and its financial performance for the year then ended in accordance with the Thai Financial Reporting Standard for Non-Publicly Accountable Entities (TFRS for NPAEs).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Company in accordance with the Code of Ethics for Professional Accountants issued by the Federation of Accounting Professions that is relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with TFRS for NPAEs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

These notes form an integral part of the financial statements.

The financial statements issued for Thai statutory and regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the

Thai language statutory financial statements, and were approved and authorized for issue by the director on 24 June 2022.

1 General information

Tech Mahindra (Thailand) Limited, the "Company", is incorporated in Thailand on August 26, 2005 and has its registered office at 54 BB Building, 13th Floor, Room 1304, Sukhumvit 21 Road (Asoke), Kwang Klongtoey Nua, Khet Wattana, Bangkok and the principal businesses of the Company are providing IT services and development for computer software.

2 Basis of preparation of the financial statements

The financial statements are prepared in accordance with Thai Financial Reporting Standard for Non-Publicly Accountable Entities (TFRS for NPAEs); guidelines promulgated by the Federation of Accounting Professions (TFAC). In addition, the Company has complied with Thai Financial Reporting Standard for Publicly Accountable Entities (TFRS for PAEs).

TFRS	Topic
TAS 12	Income Taxes

The financial statements are prepared and presented in Thai Baht. They are prepared on the historical cost basis except as stated in the accounting policies.

The preparation of financial statements in conformity with TFRS for NPAEs requires management to make judgements, estimates and assumptions that affect the application of the Company's accounting policies. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Going concern

As 31 March 2022, the Company has net loss of Baht 167.61 million for the year ended 31 March 2022 (2021: Baht 550.83 million) and, as of that date, the Company's current liabilities exceeded its current assets by Baht 187.67 million (2021: Baht 414.67 million), deficit of Baht 713.45 million (2021: Baht 545.84 million) and capital deficiency of Baht 241.38 million (2021: Baht 539.84 million). The condition indicates the existence of uncertainty which may cast doubt about the Company's ability to continue as a going concern. The Company's management, however, believes that the going concern basis of financial statement presentation is appropriate to prepare its financial statements since the Company's shareholders provided financial support to the Company and are major debtors of the Company. Moreover, the management believe that the Company will has sufficient working capital from its future operation to be used in their operations in the next 12 months from 31 March 2022. Moreover, after the reporting period, the Company increased its authorised share capital from Baht 472.06 million to Baht 637.81 million to use in operation (note 15). The financial statements do not include any adjustments relating to the recoverability and classification of the recorded assets amounts or to amounts and classification of liabilities that may be necessary if the Company is unable to continue as a going concern.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Foreign currency transactions

Transactions in foreign currencies are translated to Thai Baht at the foreign exchange rates ruling at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to Thai Baht at the exchange rates at that date. Gains or losses arising on translation are recognised in the statement of income.

(b) Cash and cash equivalents

Cash and cash equivalents comprise cash balances.

(c) Trade, lease and other receivables

Trade and other receivables are stated at their invoice value less allowance for doubtful accounts.

Receivable under finance lease contracts are carried at outstanding amount, net of unearned interest income less allowance for doubtful accounts.

Unbilled trade accounts receivable represents the gross unbilled amount expected to be collected from customers for contract work performed to date. It is measured at cost plus profit recognised for the portion of work performed, less progress billings and recognised losses.

The allowance for doubtful accounts is provided at the estimated collection losses on receivables at the end of the year. Such estimates are assessed primarily on analysis of payment histories and future expectations of customer payments. Bad debts are written off when incurred.

(d) Leasehold improvement and equipment

Leasehold improvement and equipment are measured at cost less accumulated depreciation and losses on decline in value.

Cost includes expenditure that is directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located and capitalized borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

When parts of an item of leasehold improvement and equipment have different useful lives, they are accounted for as separate items (major components) of leasehold improvement and equipment .

Any gains and losses on disposal of an item of leasehold improvement and equipment are determined by comparing the proceeds from disposal with the carrying amount of leasehold improvement and equipment are recognised in the statement of income.

Subsequent costs

The cost of replacing a part of an item of leasehold improvement and equipment are recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of leasehold improvement and equipment are recognised in the statement of income as incurred.

Depreciation

Depreciation is calculated based on the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value. Depreciation is charged to the statement of income on a straight-line basis over the estimated useful lives of each component of an item of leasehold improvement and equipment. The estimated useful lives are as follows:

Office equipment	2	years
Computer	3	years
Leasehold improvement	Period of lease 2	years

(e) Losses on decline in value

The carrying amounts of the Company's assets are reviewed at each reporting date to determine whether there is any indication of a permanent decline in value. If any such indication exists, the assets' recoverable amounts are estimated. A loss on decline in value is recognised if the carrying amount exceeds its recoverable amount. A loss on decline in value is recognised in the statement of income.

(f) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate method.

Provision for retirement benefits

Provision for retired benefits are recognised using the best estimate method at the reporting date.

The Company derecognises the provision when actual payment is made.

Onerous contracts

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting the Company's obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

(g) Revenue

Revenue excludes value added taxes and is arrived at after deduction of trade discounts.

Sale of goods

Revenue from sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there is continuing management involvement with the goods or there are significant uncertainties regarding recovery of the consideration due, associated costs or the probable return of goods.

Service contracts revenue

Services contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments to the extent that it is probable that they will result in revenue and can be measured reliably. As soon as the outcome of a service contract can be estimated reliably, contract revenue and expenses are recognised in the statement of income in proportion to the stage of completion of the contract.

The stage of completion is assessed based on the proportion of total labour hours incurred to date to the estimated total labour hours of each contract. When the outcome of a service contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. An expected loss on a contract is recognised immediately in the statement of income.

Other income

Interest and other income are recognised in the statement of income as it accrues.

(h) Operating lease

Payments made under operating leases are recognised on a straight-line basis over the term of the lease.

(i) Finance costs

Interest expenses and similar costs are recognised on accrual basis.

(j) Income tax

Income tax expense for the year comprises current and deferred tax. Which is recognised in the statements of income.

Current tax is recognised in respect of the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Current deferred tax assets and liabilities are offset in the financial statements.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realized.

At the Extraordinary general meeting of shareholders of the Company held on 9 July 2021, the shareholders approved to increase the authorised share capital from Baht 6 million (60,000 shares at Baht 100 par value) to Baht 472 million (4,720,650 shares at Baht 100 par value), by issuing 4,660,650 new shares at Baht 100 par value. The increase of share capital was registered with the Ministry of Commerce on 2 August 2021.

Moreover, during the year, the Company received advance money transfer for the increase in share capital amounting to Baht 165.75 million. After the reporting period, the Company registered the increase in share capital according to note 15.

12 Promotional privileges

The Company has been granted promotional certificates by the office of the Board of Investment relating to the investment in enterprise software and digital content with certificate no. 1044(7)/2556, dated January 15, 2013. The Company has been granted several privileges including the exemption of import duty on machinery that approved by the Board and the exemption of corporate income tax for net profit from the promoted activities for a period of eight years from the date when income is first derived.

In accordance with the Notification of the Board of Investment No. Por. 14/2541 dated December 30, 1998, regarding revenue reporting of a promoted industry, the Company is required to report revenues separately for domestic and export and from the promoted and non-promoted businesses. For the years ended March 31, all sales were domestic sales and such information is as follows:

	2022			2021		
	Promoted businesses	Non-promoted businesses	Total	Promoted businesses	Non-promoted businesses	Total
			(in Baht)			
Local sales	646,603,065	459,222,669	1,105,825,734	319,552,551	352,324,601	671,877,152

As a promoted company, the Company must comply with certain conditions and restrictions provided in the promotional certificate.

13 Income tax

Income tax using the Thai corporation tax rate	20	(33,521,236)	20	(109,183,307)
Current year tax losses from promotional privileges for which no deferred tax assets was recognised		10,674,185		114,224,718
Current year losses for which no deferred tax asset was recognised		55,719,291		-
Tax effect of income and expenses that are not taxable income or not deductible in determining taxable profit, net and others		(32,872,240)		-
Under provided in prior years		-		(126,648)
Total	**-**	**-**	**1**	**4,914,763**

Movements in deferred tax asset and liability during the year were as follows:

	At 1 April 2020	(Charged)/ credited to statement of income	At 31 March 2021
		(in Baht)	
Deferred tax assets			
Other payable - accrued costs and expenses	4,759,594	(4,759,594)	-
Provision for retirement benefits	298,949	(298,949)	-
Total	**5,058,543**	**(5,058,543)**	**-**
Deferred tax liability			
Depreciation charge	(17,132)	17,132	-
Total	**(17,132)**	**17,132**	**-**
Net	**5,041,411**	**(5,041,411)**	**-**

Deferred tax assets arising from temporary differences not recognised in the financial statements are as follows:

	2022	2021
	(in Baht)	
Deductible temporary differences - provisions	52,371,642	87,007,403
Loss carry forward	100,667,755	34,389,800
Total	**153,039,397**	**121,397,203**

The tax losses expire in 2026 - 2027. The deductible temporary differences do not expire under current tax legislation. The Company has not recognised these items as deferred tax assets because it is not probable that the Company will have sufficient future taxable profit to utilise the benefits therefrom.

14 Commitments

As at March 31, the Company has non-cancellable lease commitments for building rental to be paid in the future as follows:

	2022	2021
	(in Baht)	
Non-cancellable operating lease commitments		
Within one year	98,600	1,331,100
Total	**98,600**	**1,331,100**

Rental agreement

The Company has entered into lease and service agreement for the office space, the terms of the agreement is 2 years. The contract will be terminated within 2022. However, company has renewed the lease arrangement on 16 May 2022 for one year.

Bank guarantees

In 2021, the Company has letter of guarantees without collateral issued by a bank on behalf of the Company in respect of the contractual compliance with a company amounting to Baht 27.16 million.

15 Events after the reporting period

At the Extraordinary general meeting of shareholders of the Company held on 1 April 2022, the shareholders approved to increase the authorised share capital from Baht 472 million (4,720,650 shares at Baht 100 par value) to Baht 638 million (6,378,150 shares at Baht 100 par value), by issuing 1,657,500 new shares at Baht 100 par value. The increase of share capital was registered with the Ministry of Commerce on 20 April 2022.

AUDIT REPORT

All shareholders of Tech Mahindra (Beijing) IT Services Limited. :

I. Audit Opinion

We have audited the financial statements of Tech Mahindra (Beijing) IT Services Limited. (hereinafter referred to as "Mahindra Company"), including the balance sheet as at December 31, 2021, the income statement, the cash flow statement and the relevant notes to the financial statements of year 2021.

In our opinion, the attached financial statements were prepared in accordance with the provisions of the accounting standards for enterprises in all major aspects, and fairly reflected the financial situation of Mahindra Company as at December 31, 2021, as well as the operating results and cash flow of the year 2021.

II. Basis of Forming Audit Opinions

We conducted the audit work in accordance with the auditing standards for Chinese Certified Public Accountant. The "Responsibility of Certified Public Accountant for Auditing Financial Statements" part of the audit report further elaborated our responsibilities under these standards. In accordance with the code of ethics for Certified Public Accountant in China, we were independent of Mahindra Company and have fulfilled our other ethical responsibilities. We believe that the audit evidence we have obtained was sufficient and appropriate and provided a basis for issuance of audit opinions.

III. Other Information

The management layer of Mahindra Company (hereinafter referred to as management) was responsible for other information. Other information included information covered in Mahindra Company's 2021 annual report, but not the financial statements and our audit report.

Our audit opinions on the financial statements didn't cover other information, nor did we publish any form of verification conclusions on other information.

In combination with our audit of the financial statements, it was our responsibility to read other information and, in the process, considering whether there was material inconsistency or seemed to be material misstatement between the other information and the financial statements or situation that we learned during the audit.

Based on the work we have performed, we should report the fact if we confirmed that there was a material misstatement in other information. In this respect, we had nothing needed to report.

IV. Responsibilities of Management and Those Charged with Governance

The management was responsible for preparing financial statements in accordance with the provisions of the accounting standards for enterprises to achieve fair reflection and to design, implement and maintain necessary internal control, so as to make the financial statements free from material misstatement caused by fraud or error.

In preparing the financial statements, management was responsible for assessing the continuing business ability of the Mahindra company, disclosing matters related to the continuing business (if applicable), and applying the continuing business assumption, unless management planned to liquidate the Mahindra company, terminate operations or have no other realistic options.

Those Charged with Governance was responsible for supervising the financial reporting process of Mahindra Company.

V. The Responsibility of Certified Public Accountants for Auditing Financial Statements

Our goal was to obtain reasonable assurance on whether the financial statements as a whole were free from material misstatement caused by fraud or error, and to issue an audit report containing audit opinions. Reasonable assurance was a high level of assurance, but it did not guarantee that the audit executed in accordance with the audit standards having a material misstatement can always be found. A misstatement may be caused by fraud or error, and was generally considered to be significant if it was reasonably expected that the misstatement, individually or collectively, may affect the economic decisions made by the users of the financial statements based on the financial statements.

In the process of performing the audit according to the audit standards, we exercised professional judgment and maintained professional skepticism. At the same time, we also carried out the following works.

(1) Identifying and assessing material misstatement risks in financial statements due to fraud or error, designing and implementing audit procedures to address these risks, and obtaining sufficient and appropriate audit evidence as the basis for the issuance of audit opinions. Since fraud may involve collusion, forgery, willful omission, misrepresentation or overriding internal control, the risk of a material misstatement resulting from failure to detect fraud was higher than the risk of a material misstatement resulting from failure to detect error.

(2) Understanding internal controls related to audit to design appropriate audit procedures.

(3) Evaluating the appropriateness of accounting policies adopted by management and the rationality of accounting estimates and relevant disclosures.

(4) Drawing conclusions about the appropriateness of management's use of the going concern assumption. At the same time, based on the audit evidence obtained, a conclusion can be drawn on whether there was significant uncertainty in matters or situations that may lead to significant doubts about the continuing operation ability of Mahindra Company. If we concluded that there was significant uncertainty, as the requirements of the audit standards, we should draw the attention of statement users to the relevant disclosures in the financial statements in the audit report; if the disclosure was insufficient, we should express a non-unqualified opinion. Our conclusions were based on information available as of the audit report date. However, future events or circumstances may cause the unsustainable operation of the Mahindra Company.

(5) Evaluating the overall presentation, structure and content (including disclosure) of the financial statements, and assessing whether the financial statements fairly reflected relevant transactions and events.

We made communication with governance layer on planned audit scope, time arrangement, major audit findings and other matters, including the internal control deficiencies of concern that we identified during the audit.

NOTES TO FINANCIAL STATEMENTS 31 DEC. 2021

(The currency are presented in RMB except otherwise stated)

I. The Company's General Profile

As a wholly foreign-owned enterprises, Tech Mahindra (Beijing) IT Services Limited was invested and established by Tech Mahindra Limited. The Company was approved to be established by Beijing Municipal Government according to policy document SWZJZZ[2007]No.05422, obtained Enterprise's Legal Person Registration in the Industry and Commerce Administration Bureau of Beijing on Sep.24, 2007 with the Business License 91110105666903783P.The registered capital of the company is US$2,500,000.00.The Company's registered address is 2201 room, Building 8, No. 25 Ganluyuan nanli, Chaoyang District, Beijing. Legal representative: Mr. Jagdish Mitra.

Scope of Business: Technical services, technical advice, design, development, production and computer networking, telecommunications and electronic technology-related applications; product sales of assets.

II. Basis of Preparation

1 Basis of preparation

The financial statement is prepared under going concern assumption based on the actual transactions taking place which is required by ASBE (Accounting Standards for Business Enterprise) and its application guidelines, explanatory notes and other relevant regulations issued by the Ministry of Finance of PRC.

According to the relevant rules in the ASBE, accounting measurement of our company is based on accrual basis. This financial statement use historical cost as the measurement basis, except for the financial assets. If impairment is taking place, our company will account for the impairment according to relevant rules.

2 Going concern

This financial statement is presented under going concern assumption, our company has the ability to operate continuously at least 12 months from balance sheet date.

III. Compliance of Accounting Standards of Business Enterprises

The financial statements prepared by the Company are subject to requirements from the Accounting Standards and present fairly the Company's financial position, operation results, cash flow and other related information.

IV. Significant Accounting Policies and Accounting Estimates

1. Accounting period

The accounting period of the Company is from 1 January to 31 December.

2. Operating period

Normal operating period is the period from acquiring asset for processing to the realization of cash and cash equivalent. Our company use 12 months as an operating period and use this as a standard to categorize the liquidity of asset and liability.

3. Book-keeping Currency

The company's financial records and the financial statements are stated in Renminbi.

4. The categorization standard of cash and cash equivalent

Cash and cash equivalent in our company include cash, cash in bank that can be used at any time and investment we held which is short period, usually 3 months from purchase to maturity, strong liquidity, easy to transfer to any pre-determined amount of cash and low risk of value fluctuation.

5. Foreign exchange translation

(1) The translation method of foreign transaction

The foreign transaction in our company, in initial recognition, should be translated to presentation currency according to the exchange rate on the transaction date, however, the foreign currency exchange or other transactions involved foreign currency exchange business should be translated using actual exchange rate in the transaction.

(2) The translation method involving foreign currency monetary and non-monetary items

At balance sheet date, for foreign currency monetary items, we use exchange rate at balance sheet date, and for the exchange rate differences, we accounted for in profit and loss, except: a. foreign currency borrowing cost related to acquire asset that can be capitalized should be treated under borrowing cost capitalization rules; b. for foreign currency monetary items available for sale, apart from the exchange differences caused by other current amount changes than amortized cost that should be accounted for in other comprehensive income, other differences should also be accounted for in profit and loss

For foreign currency non-monetary items measured by historical cost, we still use presentation currency translated by the exchange rate at transaction date. For foreign currency non-monetary items measured by fair value, we use the exchange rate at the fair value determination date. The differences between the presentation currency after translation and the original presentation currency should be accounted for in profit and loss or other comprehensive income as fair value changes (including exchange rate changes.

(3) Translation method of foreign currency financial statements

When consolidated financial statements involve overseas operation, if the operation is foreign currency monetary items due to net investment in overseas operation, the exchange differences due to exchange rate fluctuation should be accounted for in other comprehensive income as foreign currency financial statements exchange differences; in the case of overseas operation disposal, the differences should be accounted for in the profit and loss

The foreign currency financial statement of overseas operation should be translated to Renminbi financial statements using the following method: for assets and liabilities in the Statement of Financial Position, we use exchange rate at balance sheet date; for shareholder's equity, apart from retained earnings, other items should use the exchange rate at the date when it is happened. For income and expenses items in the income statement, we use weighted average exchange rate at the transaction date. The opening balance of retained earnings is the ending balance of the previous year after translation; the ending balance of retained earnings is presented by calculation under profit distribution items after translation; the differences between total asset and total liability and equity should be accounted for in other comprehensive income as foreign currency financial statements exchange differences. When we dispose of overseas operation and lose control, the foreign currency financial statements exchange differences related to overseas operation presented under shareholder's equity in the Statement of Financial Position should be, all or in proportion according to the percentage of overseas operation disposed of, transferred into profit and loss.

For foreign currency cash flow, we use weighted average exchange rate at the date of cash inflow or outflow to translate and the differences should be presented in the Statement of cash flows as an adjusted item.

The opening balance and the actual amount of the previous period should be presented using the amount after translation of the financial statement of previous period.

When we dispose of all shareholder's equity of overseas operation or lose control due to disposal of partial investment or other reasons, the foreign currency financial statements exchange differences of shareholder's equity belongs to the parent company under shareholder's equity in the Statement of Financial Position should be transferred into profit and loss in full.

When we dispose partial investment or other reason that results of lower percentage of shareholding of overseas operation without losing control, the differences of foreign currency financial statement should be accounted for as minority shareholding rather than profit and loss. When the disposal of overseas operation is partial investment of associate or joint venture, the differences of foreign currency financial statement related to this operation should be transferred into profit and loss in proportion to the percentage of disposal.

6. Financial Instrument

A financial asset or financial liability is recognized when the Company becomes a party to a financial instrument contract.

(1) Classification, confirmation and measurement of financial assets

According to the business mode of managing financial assets and the contractual cash flow characteristics of financial assets, the Company divides financial assets into: Financial assets measured at amortized cost. Financial assets measured at fair value with changes included in other comprehensive income. Financial assets are measured at fair value and whose movements are included in the current profits and losses.

Financial assets are measured at fair value at initial recognition. For financial assets measured at fair value and whose changes are included in current profits and losses, relevant transaction costs are directly included in current profits and losses. For other types of financial assets, relevant transaction costs are included in the initial recognition amount. Accounts receivable or notes receivable arising from the sale of products or the provision of labor services that do not contain or take into account significant financing components shall be initially recognized by the Company in accordance with the amount of consideration that the Company is expected to be entitled to receive.

Financial assets measured at amortized cost

The Company's business model of managing financial assets measured in amortized cost is aimed at collecting contractual cash flow, and the contractual cash flow characteristics of such financial assets are consistent with the basic lending arrangements, that is, the cash flow generated on a specific date is only the payment of principal and interest based on the unpaid principal amount. For such financial assets, the Company adopts the effective interest rate method and carries out subsequent measurement according to amortized cost. The profits or losses arising from amortization or impairment are included into the current profits and losses.

Financial assets measured at fair value with changes included in other comprehensive income

The Company's business model for managing such financial assets is to collect and sell contractual cash flow, and the contractual cash flow characteristics of such financial assets are consistent with the basic lending arrangements. The Company measures these financial assets at fair value and their changes are included in other comprehensive income, but impairment loss or gain, exchange gain or loss and interest income calculated according to the effective interest rate method are included into the current profit and loss.

In addition, the Company designates some non-tradable equity instrument investments as financial assets measured at fair value with changes included in other comprehensive income. The Company shall record the relevant dividend income of such financial assets into the current profits and losses, and the change of fair value into other comprehensive income. When the financial asset is derecognized, the accumulated gains or losses previously included in other comprehensive income will be transferred from other comprehensive income to retained income and will not be included in current profits and losses.

Fair value through Profit and Loss Financial assets

The Company classifies the above financial assets measured at amortized cost and financial assets measured at fair value with changes included in other comprehensive income into financial assets measured at fair value with changes included in current profits and losses. In addition, during initial recognition, in order to eliminate or significantly reduce accounting mismatch, the Company designated part of financial assets as financial assets measured at fair value with changes included in current profit and loss. For such financial assets, the Company adopts fair value for subsequent measurement, and the changes in fair value are included into the current profit and loss.

(2) Classification, recognition and measurement of financial liabilities

Financial liabilities upon initial recognition are classified as financial liabilities which are measured at fair value and whose changes are included in current profits and losses and other financial liabilities. For the financial liabilities measured at fair value with the changes included into the current profits and losses, the relevant transaction costs are directly included into the current profits and losses, and the relevant transaction costs of other financial liabilities are included in the initial recognition amount.

Fair value through Profit and Loss Financial liabilities

Financial liabilities measured at fair value with changes included in current profits and losses, which include transactional financial liabilities (including derivatives belonging to financial liabilities) and financial liabilities designated to be measured at fair value with changes included in current profits and losses at initial recognition.

Trading financial liabilities (including derivatives belonging to financial liabilities) are subsequently measured according to their fair values. Except for those related to hedge accounting, changes in fair values are included in current profits and losses.

Financial liabilities designated to be measured at fair value with changes included in current profits and losses. Changes in the fair value of this liability caused by changes in the Company's own credit risk are included in other comprehensive income. When the liability is derecognized, the accumulated change in fair value caused by changes in its own credit risk included in other comprehensive income is transferred to retained earnings. Changes in fair value are accounted into current profits and losses. If the above-mentioned treatment of the impact of changes in the credit risk of these financial liabilities will cause or expand accounting mismatch in profits and losses, the Company will include all profits or losses of the financial liabilities (including the impact amount of changes in the credit risk of the enterprise itself) into the current profits and losses.

Other financial liabilities

Except for financial liabilities and financial guarantee contracts formed by the transfer of financial assets that do not meet the conditions for termination of recognition or continue to be involved in the transferred financial assets, other financial liabilities are classified as financial liabilities measured at amortized cost and subsequently measured at amortized cost. Gains or losses arising from termination of recognition or amortization are included in current profits and losses.

(3) Basis of Confirmation and Calculation of financial instruments

Financial assets shall be derecognized if they meet one of the following conditions: (1) The termination of the contractual right to receive cash flow from the financial asset. (2) The financial asset has been transferred, and almost all risks and rewards related to the ownership of the financial asset have been transferred to the transferee. (3) The financial asset has been transferred. Although the enterprise has neither transferred nor retained almost all risks and rewards in the ownership of the financial asset, it has given up its control over the financial asset.

If the enterprise neither transfers nor retains almost all the risks and rewards of the ownership of the financial assets, and does not give up the control over the financial assets, the relevant financial assets shall be recognized according to the extent of continuous involvement in the transferred financial assets, and the relevant liabilities shall be recognized accordingly. The degree of continuous involvement in the transferred financial assets refers to the risk level faced by the enterprise due to the change in the value of the financial assets.

If the overall transfer of financial assets meets the conditions for termination of recognition, the difference between the book value of the transferred financial assets and the sum of the consideration received due to the transfer and the accumulated amount of changes in fair value originally included in other comprehensive income shall be included into the current profits and losses.

If the partial transfer of financial assets meets the conditions for termination of recognition, the book value of the transferred financial assets shall be apportioned according to its relative fair value between the derecognized part and the non-derecognized part, and the difference between the sum of the consideration received due to the transfer and the accumulated change in fair value originally included in other comprehensive income that shall be apportioned to the derecognized part and the allocated aforesaid book amount shall be included into the current profits and losses.

For financial assets sold by the Company with recourse, or for endorsement and transfer of held financial assets, it is necessary to determine whether almost all risks and rewards in the ownership of the financial assets have been transferred. If almost all risks and rewards in the ownership of the financial asset have been transferred to the transferee, the recognition of the financial asset shall be terminated. If almost all risks and rewards on the ownership of a financial asset are retained, the recognition of the financial asset shall not be terminated. If almost all risks and rewards related to the ownership of financial assets have not been transferred or retained, it shall continue to judge whether the enterprise retains control over the assets and carry out accounting treatment according to the principles mentioned in the preceding paragraphs.

(4) Termination of recognition of financial liabilities

If the current obligation of the financial liability (or part thereof) has been relieved, the Company terminates the recognition of the financial liability (or part thereof). The Company (the borrower) and the lender sign an agreement to replace the original financial liabilities by assuming new financial liabilities. If the contract terms of the new financial liabilities and the original financial liabilities are substantially different, the original financial liabilities shall be derecognized and a new financial liability shall be recognized at the same time. If the Company makes any substantial modification to the contract terms of the original financial liability (or part thereof), the original financial liability shall be derecognized and a new financial liability shall be recognized in accordance with the modified terms.

If financial liabilities (or part thereof) are derecognized, the Company shall include the difference between its book value and the consideration paid (including transferred non-cash assets or liabilities assumed) into the current profits and losses.

(5) Offset of financial assets and financial liabilities

When the Company has the legal right to offset the recognized amount of financial assets and financial liabilities, and such legal right is currently enforceable, and the Company plans to settle the financial assets on a net basis or realize the financial assets and settle the financial liabilities at the same time, the financial assets and financial liabilities are listed in the balance sheet at a net amount after mutual offset. In addition, financial assets and financial liabilities shall be listed separately in the balance sheet and shall not be offset against each other.

(6) The fair value determination method of financial assets and financial liabilities

Fair value refers to the price that market participants can receive from selling an asset or pay to transfer a liability in an orderly transaction on the measurement date. Where there is an active market for financial instruments, the Company adopts quotations in the active market to determine their fair values. Quoted price in active market refers to the price easily obtained from exchanges, brokers, industry associations, pricing service agencies, etc. on a regular basis, and represents the price of market transactions actually occurred in fair trading. If there is no active market for financial instruments, the Company uses evaluation techniques to determine their fair values. Evaluation techniques include reference to prices used in recent market transactions by parties familiar with the situation and willing to trade, reference to current fair values of other financial instruments that are substantially the same, discounting cash flow technique, option pricing model, etc. In valuation, the Company adopts valuation techniques that are applicable under current circumstances and are supported by sufficient available data and other information, selects input values that are consistent with the characteristics of assets or liabilities considered by market participants in transactions related to assets or liabilities, and gives priority to the use of relevant observable input values as much as possible. If the relevant observable input value cannot be obtained or it is not impracticable to obtain it, the non-input value shall be used.

(7) Equity instruments

Equity instruments refer to contracts that can prove ownership of the Company's residual equity in assets after deducting all liabilities. The issuance (including refinancing), repurchase, sale or cancellation of equity instruments by the Company are treated as changes in equity, and transaction costs related to equity transactions are deducted from equity. The Company does not recognize changes in the fair value of equity instruments.

Dividends (including "interest" generated by instruments classified as equity instruments) distributed by the Company's equity instruments during their existence shall be treated as profit distribution.

7. Receivables

Receivables include notes receivables, trade receivables and other receivables, etc.

(1) Standards for confirming doubtful debt

- The death or bankruptcy of the debtor, whose receivables still cannot be recovered after the debt has been paid off by his/her bankruptcy assets or heritage.
- Debt still cannot be recovered after three years of overdue debt owed by the debtor.

(2) The measurement method we use is allowance method.

8. Fixed Assets

(1) Confirmation conditions for fixed assets

Fixed Assets refer to tangible assets held for the purpose of producing goods, providing labor services, renting or operating management, and having a service life of more than one fiscal year. Fixed assets are recognized only when the economic benefits associated with them are likely to flow into the Company and their costs can be reliably measured. Fixed assets are initially measured at cost and taking into account the impact of projected abandonment costs.

(2) Categorization of fixed assets

Fixed assets can be divided into Property, Plant and Equipment, Transportation vehicle, Land, Office equipment, Electronic devices, etc.

(3) Initial Measurement of fixed asset

Fixed asset will be measured at historical cost.

(4) Depreciation methods for various types of fixed assets

a . Fixed assets are depreciated over their useful lives using the straight-line method from the month following the scheduled availability. The service life, estimated net residual value and annual depreciation rate of various fixed assets are as follows:

Category	Depreciation Method	Depreciation period (Year)	Residual rate(%)	Annual depreciation rate (%)
Electronic equipment	**straight-line depreciation**	**3**	**5**	**33.37**

b. The estimated net residual value refers to the expected state after the estimated useful life of the fixed assets has expired and is at the end of its useful life. The amount currently obtained by the Company from the disposal of the assets after deducting the estimated disposal expenses.

c. Impairment test method and Impairment provision method for fixed assets

For details of Impairment test method and impairment provision method for fixed assets, please refer to "Long-Term Asset Impairment".

d. Recognition basis and valuation method of fixed assets acquired by finance lease

A finance lease is a lease that transfers substantially all the risks and rewards associated with ownership of an asset, and its ownership may or may not be transferred. If it is reasonable to determine the ownership of the leased asset at the expiration of the lease term, the depreciation shall be calculated within the useful life of the leased asset; If it is not reasonable to determine the ownership of the leased asset at the expiration of the lease term, depreciation shall be calculated within a relatively short period of the lease term and the service life of the leased assets.

e. Others

The subsequent expenses related to fixed assets, if the economic benefits related to the fixed assets are likely to flow in and their costs can be reliably measured, are included in the cost of fixed assets and the book value of the replaced part should be terminated. The subsequent expenditures other than mentioned as above are recognized in profit or loss in the period in which they are incurred.

The fixed asset is derecognized when the fixed asset is in disposal or is not expected to generate economic benefits by using or disposal. The difference between the disposal income from the sale, transfer, retirement or damage of the fixed assets less the carrying amount and related taxes is recognized in profit or loss for the current period.

The Company reviews the useful life, estimated net residual value and depreciation method of fixed assets at least at the end of the year, and changes as an accounting estimate if changes occur.

9. Construction in progress

The cost of construction in progress is determined based on actual project expenditure, including various project expenditures incurred during the construction period, capitalized borrowing costs before the project reaches the expected usable status, and other related expenses. Construction in progress is carried forward to fixed assets when it is ready for its intended use.

For details of the impairment test method and impairment provision method for construction in progress, please refer to "Long-Term Asset Impairment".

10. Intangible Assets

(1) Intangible assets

Intangible assets refer to identifiable non-monetary assets without physical form owned or controlled by the Company.

Intangible assets are initially measured at cost. Expenditure related to intangible assets is included in the cost of intangible assets if the relevant economic benefits are likely to flow to the Company and its costs can be measured reliably. Expenditure on other items other than this is recognized in profit and loss when incurred.

The acquired land use rights are usually accounted for as intangible assets. The related land use rights and building construction costs of self-developed and constructed buildings are accounted for as intangible assets and fixed assets, respectively. In the case of purchased houses and buildings, the relevant price is distributed between the land use rights and the buildings. If it is difficult to allocate them reasonably, all of them are treated as fixed assets.

Since the intangible assets with limited useful life are available for use, the original value minus the estimated net residual value and the accumulated amount of impairment reserve shall be amortized by the straight-line method during their expected service life. Intangible assets with uncertain service life shall not be amortized.

At the end of the period, the useful life and amortization methods of intangible assets with limited useful life are reviewed, and if any change occurs, it is treated as a change of accounting estimate. In addition, the useful life of intangible assets with uncertain service life is also reviewed. If there is evidence that the period for which the intangible assets bring economic benefits to the enterprise is foreseeable, the useful life of intangible assets is estimated and amortized according to the amortization policy of intangible assets with limited useful life

(2) Research and development expenditure

The company's expenditure for internal research and development project is divided into research phase expenditure and development phase expenditure.

Expenditures for the research phase shall be recognized in profit or loss when incurred.

Expenditures for the development phase that meet the following conditions shall be recognized as intangible assets, and expenditures in the development stage that fail to meet the following conditions are included in current profit and loss:

a. It is technically feasible to complete the intangible asset to enable it to be used or sold.

b. The intent to complete the intangible asset and use or sell it;

c. The way in which intangible assets generate economic benefits, including the ability to prove that the products produced from the intangible assets having a market or the intangible assets having a market, and the intangible assets will be used internally, which can prove its usefulness;

d. sufficient technical, financial resources and other resources for supporting the development of the intangible assets and the ability to use or sell the intangible assets.

e. Expenditure attributable to the development phase of the intangible asset can be reliably measured.

(3) Impairment test method and Impairment provision method for intangible assets

For details of the impairment test method and impairment provision method, please refer to "Long-Term Asset Impairment".

11. Long-term deferred expenses

The long-term deferred expenses are all expenses that have occurred but shall be borne by the reporting period and subsequent periods with amortization period of more than one year. The company's long-term deferred expenses mainly include lease of land use right and renovation costs of factory building. Long-term deferred expenses are amortized on a straight-line basis over the estimated benefit period.

12. Employee Compensation

The Company's employee compensation mainly includes short-term employee remuneration, Post-employment Benefits, Termination Benefits and benefits for other long-term employee. Among them:

Short-term employees remuneration mainly includes wages, bonuses, allowances and subsidies, employee welfare fees, medical insurance premiums, maternity insurance premiums, work injury insurance premiums, housing fund, labor union funds, employee education funds, and non-monetary benefits. The Company recognizes the actual short-term employee's remuneration as a liability in the accounting period in which employees provide services to the Company and recognizes them in profit or loss or related asset costs. Non-monetary benefits are measured at fair value.

Post-employment Benefits mainly include basic retirement security, unemployment insurance, and annuities. The Post-employment Benefit Scheme includes a Defined Contribution Plan and a Defined Benefit Plan. If a Defined Contribution Plan is adopted, the corresponding amount of the deposit shall be included in the relevant asset cost or current profit and loss as incurred. (1) The Defined Contribution Plan is recognized as a liability based on a fixed fee paid to an independent fund and is included in the current profit and loss or related asset costs; (2) The Defined Benefit Plan is accounted for using the expected cumulative benefits unit method Specifically, the Company will convert the welfare obligation arising from the Defined Benefit Plan into the final value of the departure time according to the formula determined by the expected cumulative benefits unit method; then it is attributed to the employee's in-service period and is included in the current profit and loss or related asset cost.

If the labor relationship with the employee is terminated before the employee's labor contract expires, or if the employee is encouraged to accept the reduction voluntarily, when cannot withdrawing unilaterally the dismissal benefits provided by the termination of the labor relationship plan or the reduction proposal, and when confirming the costs associated with the restructuring involving the payment of the dismissal benefits, whichever is earlier, the Company will recognize the employee compensation liabilities arising from the dismissal benefits, and included in the current profit and loss. However, if the dismissal benefits are not expected to be fully paid within 12 months after the end of annual reporting period, they shall be treated in accordance with other long-term employee compensations.

The internal retirement plan for employees shall be treated in the same way as the above-mentioned dismissal benefits. The company will pay the internal retired staff the salary and the social insurance premiums from the employee's lay-off to normal retirement, and will include in the current profit and loss (dismissal benefits) when the conditions of the estimated liabilities are met.

If the other long-term employee benefits provided by the Company to the employees are in line with the Defined Contribution Plan, they shall be accounted for Defined Contribution Plan, and otherwise accounted for the Defined Benefit Plan.

13. Income

The company confirms the realization of the business revenue as per the following regulations, keeps accounts as per the realized income and records into the current profits and losses.

(1) Commodity Sales Revenue

When the main risks and rewards of commodity ownership is transferred to the buyer without retaining the continuing management rights usually associated with the ownership and without effectively controlling of the sold commodity, if the amount of revenue can be reliably measured, and the relevant economic benefits are likely flow into enterprise and the relevant costs incurred or will be incurred can be reliably measured, the sales revenue of commodities shall be confirmed.

(2) Income from labor services

In the case the results of the labor service transaction can be reliably estimated, the labor income provided is confirmed on the balance sheet date according to the percentage of completion method. The completion progress of the labor transaction is determined by the ratio of the completed work or the proportion of the labor service provided to the total labor service, or by the ratio of labor costs incurred to the estimated total cost.

Reliable estimates of results of the labor transactions provided mean that it can be simultaneously met a.) The amount of income can be measured reliably; b.) Relevant economic benefits are likely to flow into the enterprise; c.) The degree of completion of the transaction can be determined reliably, d.) The costs that have occurred and will occur in the transaction can be measured reliably.

(3) Revenue from charge for use

Revenue shall be recognized on an accrual basis in accordance with the relevant contract or agreement.

14. Government grants

Government grant refers to the company's acquisition of monetary and non-monetary assets from the government free of charge, excluding the capital invested by the government as an investor and enjoying the corresponding owner's rights and interests. Government grants include assets-related grants and revenue-related grants.

Government grants related to assets are recognized as deferred earnings and are divided into current profits and losses in a reasonable and systematic way during the service life of the assets concerned. The government grants related to revenue, which are used to compensate for the related cost or loss in the subsequent period, shall be recognized as deferred income, and shall be recognized in profit or loss in the period in which the related costs or losses are recognized; if it is used to compensate the related costs or losses that has occurred, it shall be directly recognized in the current profit and loss.

Government grants related to the daily activities of the Company shall be included in other income or cost deductions according to the nature of the economic business; government subsidies unrelated to daily activities shall be included in the non-operating revenues and expenses.

When the recognized government grants need to be returned, if there are relevant deferred earnings balances, the book balance of related deferred earnings shall be deducted, and the excess part shall be included in the current profits and losses or the book value of assets shall be adjusted, otherwise, the book value of assets shall be directly included in the current profits and losses.

15. Deferred Income Tax Assets / Deferred Income Tax Liabilities

(1) Current Income Tax

On the balance sheet date, the current income tax liabilities (or assets) formed in the current and previous periods are measured by the expected amount of income tax payable (or returned) in accordance with the provisions of the Tax Law. The amount of taxable income on which current income tax expenses are calculated is based on the corresponding adjustment of pre-tax accounting profits in the reporting period in accordance with the relevant tax laws.

(2) Deferred Income Tax Assets and Deferred Income Tax Liabilities

The difference between the book value of certain assets and liabilities and their tax basis, and the temporary difference between the book value of items that are not recognized as assets and liabilities but which can be determined as their tax basis according to the tax law, are confirmed by the balance sheet liability method.

Taxable temporary differences which related to the initial recognition of goodwill and the initial recognition of an asset or liability arising from a transaction that is neither a business combination nor an accounting profit or taxable income (or deductible loss), relevant deferred income tax liabilities shall not be recognized. In addition, for taxable temporary differences related to investments in subsidiaries, associates and joint ventures, if the Company is able to control the turnaround time of temporary differences, and the temporary difference is unlikely to be reversed in the foreseeable future, the related deferred income tax liabilities shall not be recognized. Except for the above exceptions, the Company recognizes all other deferred income tax liabilities arising from taxable temporary differences.

Taxable temporary differences which related to the initial recognition of an asset or liability arising from a transaction that is neither a business combination nor an accounting profit or taxable income (or deductible loss), relevant deferred income tax liabilities shall not be recognized. In addition, for taxable temporary differences related to investments in subsidiaries, associates and joint ventures, if the temporary difference is unlikely to be reversed in the foreseeable future, or the amount of taxable income used to offset the temporary difference is unlikely to be obtained in the future, the deferred income tax assets concerned shall not be recognized. Except for the above exceptions, the Company recognizes other deferred income tax assets that can offset temporary differences, subject to the amount of taxable income that is likely to be obtained to offset temporary differences.

For deductible losses and tax credits that can be carried forward in subsequent years, the corresponding deferred income tax assets are recognized to the extent that it is probable that the future taxable income shall be used to offset the deductible losses and tax credits.

On the balance sheet date, the deferred income tax assets and deferred income tax liabilities shall be measured at the applicable tax rates in the period in which the related assets are recovered or the related liabilities are recovered in accordance with the tax laws.

On the balance sheet date, the book value of deferred income tax assets is reviewed. and the book value of deferred income tax assets is written down if it is likely that sufficient taxable income will not be available to offset the benefits of deferred income tax assets in the future. When it is possible to obtain sufficient taxable income, the amount written down shall be reversed.

(3) Income tax expenses

Income tax expenses include current income tax and deferred income tax.

In addition to recognizing that the current income tax and deferred income tax related to other transactions and matters directly included in shareholder’s rights and interests shall be recognized in other comprehensive income or shareholder’s rights and interests, and the book value of adjusted goodwill from deferred income tax resulting from the merger of enterprises, the other current income tax and deferred income tax expenses or gains shall be recognized in profit or loss for the current period.

(4) Offset of Income Tax

When the company has legal rights to settle on a net basis, and intends to settle on a net basis or acquire assets and pay off liabilities at the same time, the company’s current income tax assets and current income tax liabilities shall be presented on a net basis after the offset.

When it has the legal right to settle current income tax assets and current income tax liabilities on a net basis, and deferred income tax assets and deferred income tax liabilities are related to the income tax levied by the same tax administration department on the same tax payer or to different tax payers, but in the future, during each important period of deferred income tax assets and liabilities being reversed, the taxpayer involved intends to settle the current income tax assets and liabilities on a net basis, or acquire assets and pay off liabilities simultaneously, the deferred the income tax assets and deferred income tax liabilities of the Company shall be presented on a net basis after offset.

Profit/ (Loss) after Tax	1,995,057,495	1,200,218,971
Profit /(Loss) Carried forward to Balance Sheet	1,995,057,495	1,200,218,971

DIVIDEND

The Board of Directors declared an Interim Dividend @ ₹ 1000/- per equity share on the Face Value of ₹ 10/- during the financial year 2021-22. The dividend pay-out was ₹ 1,000 million. Your Directors are of the opinion that the said Interim Dividend be treated as final dividend for the financial year 2021-22.

TRANSFER OF UNCLAIMED DIVIDEND TO INVESTOR EDUCATION AND PROTECTION FUND

Since there is no unpaid/unclaimed Dividend as on 31st March, 2022, the provisions of Section 125 of the Companies Act, 2013, read with rules framed there under, does not apply.

RESERVES

The Board does not propose to carry any amount to General Reserves of the Company.

BUSINESS OVERVIEW / STATE OF COMPANY'S AFFAIRS

The operational income during the financial year 2021-22 is ₹ 8,892 million against the previous year ₹ 7,855 million. The profit before tax is ₹ 2,310 million against the previous year ₹ 1,566 million.

The head count of the Company was 6925 in March 2022 vis a vis 7801 in March 2021.

During the year the Company has earned a mutual fund gain of ₹ 98 million. The Company invests all its surplus funds in debt (Liquid, Growth, Low duration schemes) funds which provide slightly better post tax yield than a traditional FDs or ICDs.

There are no changes in the nature of the business carried out by your Company during the period under review nor there any material changes or commitments affecting the financial position of the Company after the closure of the financial year of the Company and till the date of the subject Board's Report.

MERGER SCHEME RELATED UPDATES

On January 29, 2021, the Board of Directors of the Company passed a resolution to consider and approve the Scheme of Merger by Absorption of the Company and Born Commerce Private Limited (Fellow Subsidiary) with its holding company Tech Mahindra Limited and their respective shareholders under the provisions of section 230 to 232 of the Companies Act, 2013. Accordingly, the Company has filed the application before Hon'ble National Company Law Tribunal ("NCLT"), Mumbai. The appointed date under the proposed scheme is April 1, 2021. However, as the Hon'ble National Company Law Tribunal, Mumbai ("NCLT") is yet to approve the same, the Scheme is not yet effective. The Company has filed petition with Mumbai NCLT for sanctioning the scheme on January 22, 2022. The petition admission hearing is pending with NCLT.

There are no material orders passed by the regulators or courts or tribunals impacting the going concern status and Company's operations in future.

Further no application against the Company has been filed or is pending under the Insolvency and Bankruptcy Code, 2016, nor the Company has done any one time settlement with any Bank or Financial institutions.

FIXED DEPOSITS

Your Company has not accepted any fixed deposits and, as such, no amount of principal or interest was outstanding as on the balance sheet date.

STATUTORY AUDITORS

The members at their meeting held on 12th July, 2018 appointed M/s B S R & Co. LLP, Chartered Accountants, [ICAI Firm Registration No. 101248W/W-100022] as the Statutory Auditors of the Company for the period of five years with effect from Financial Year 2018-19 i.e. from the conclusion of the thirteen Annual General Meeting held in Financial year 2018-19 till the conclusion of the Annual General Meeting for the Financial Year 2022-23.

Pursuant to the amendment to Section 139 of the Companies Act, 2013 which was notified on May 7, 2018, ratification of appointment of Statutory Auditors at every AGM is no longer required.

There are no qualifications, reservation or adverse remark or disclaimer made in the audit report for the Financial Year 2021-22. Further there are no frauds reported by the auditors during the year under review.

The Company has received a certificate from M/s B S R & Co. LLP, Chartered Accountants to the effect that they are eligible in terms of Section 141 of the Companies Act, 2013 to act as statutory auditors of the Company.

SHARE CAPITAL

The Company has not issued any equity shares carrying differential rights, sweat equity shares, employee stock options nor provided money for purchase of its own shares by employees or by trustees for the benefit of employees during the financial year. The Company's paid up equity capital is ₹ 10,000,000/- comprising of 1,000,000 equity shares of Face Value ₹ 10/- each.

ANNUAL RETURN

Pursuant to the provisions of Section 134(3)(a) and Section 92(3) of the Companies Act, 2013 read with Rule 12 of the Companies (Management and Administration) Rules, 2014, the Annual Return of the Company for the Financial Year ended 31st March, 2022 is uploaded on the website of the Company and can be accessed at https://techmbs.in/about-tech-mahindra-business-services/compliance-and-policies

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Your Company is committed to play its role as an enlightened corporate citizen. The CSR vision of the Company is "Empowerment through Education."

Pursuant to the guidelines prescribed under Section 135 of the Companies Act, 2013, your Board has formed a CORPORATE SOCIAL RESPONSIBILITY (CSR) Committee and the CSR Policy as recommended by the CSR Committee was also approved by the Board. The policy is uploaded on the website of the Company.

The disclosures as per Companies (Corporate Social Responsibility Policy) Rules, 2014, as amended from time to time is forming part of the Board's report as **Annexure 1.**

DIRECTORS

During the year Ms. Suchitra Kerkar resigned as Director with effect from 30th April, 2021, Mr. Manoj Bhat resigned as Director with effect from 30th July, 2021 and Mr. Ritesh Idnani resigned as Director with effect from 10th September, 2021.

Pursuant to the provisions of the section 161(1) of the Companies Act, 2013 read with the Articles of Association of the Company, Ms. Kunal Jesrani was appointed as Director with effect from 20th July, 2021.

Pursuant to the provisions of Section 152(6)(c) of the Companies Act 2013, Mr. Sujit Baksi, Director is liable to retire by rotation and being eligible offers himself for reappointment.

BOARD AND COMMITTEES OF BOARD

The Ministry of Corporate Affairs by its Notification dated 13th July, 2017 amended Rule 6 of the Companies (Meetings of Board and its Powers) Rules, 2014 and Rule 4 of Companies (Appointment and Qualification of Directors) Rules, 2014. The provisions in respect of appointment of independent directors on the board of unlisted wholly owned subsidiary Company are no more applicable.

Also such unlisted wholly owned subsidiary Company need not constitute/have Audit Committee and Nomination & Remuneration Committee of the Board.

The CSR Committee of the Company comprises of following members Mr. Sujit Baksi, Mr. Birendra Sen and Ms. Kunal Jesrani. During the Financial year 2021-22, 1 (One) meeting of the CSR Committee was held on 19th April, 2021.

During the Financial Year 2021-22, 6 (six) Board meetings were held on 19.04.2021, 20.07.2021, 18.10.2021, 14.12.2021, 18.01.2022, 28.03.2022 The Governance Policies comprising of Policy on Appointment and removal of Directors, Policy on Remuneration to the Directors and other Employees is available on the website of the Company.

STATEMENT OF COMPLIANCE WITH APPLICABLE SECRETARIAL STANDARDS

Your Directors state that the Company has complied with the applicable Secretarial Standards during the year under review.

PARTICULARS OF LOANS, GUARANTEES OR INVESTMENTS UNDER SECTION 186

The particulars of loans/advances, guarantees and investments under Section 186 of the Companies Act, 2013 are given in the notes forming part of the Financial Statements.

PARTICULARS OF CONTRACTS OR ARRANGEMENTS WITH RELATED PARTIES

All transactions entered into with Related Parties as defined under the Companies Act, 2013 during the financial year were in the ordinary course of business and on an arm's length pricing basis and do not attract the provisions of Section 188 of the Companies Act, 2013. Suitable disclosure as required by the Accounting Standards (AS18) has been made in the notes to the Financial Statements. The particulars of related party transactions in prescribed **Form AOC -2** is annexed herewith as **Annexure 2**.

PARTICULARS OF EMPLOYEES

The information required under Rule 5(2) & of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 forms part of this Report. However, pursuant to first proviso to Section 136(1) of the Act, this Report is being sent to the Shareholders excluding the aforesaid information. Any shareholder interested in obtaining said information, may write to the Company at the Registered Office / Corporate Office of the Company and the said information is open for inspection at the Registered Office of the Company.

SECRETARIAL AUDIT REPORT

Pursuant to the provisions of Section 204 of the Companies Act, 2013 and the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the Secretarial Audit Report given by Mr. Yogesh Kandalgaonkar, Practising Company Secretary, Pune is annexed with the Board's Report as **Annexure 3**. The Secretarial Audit report is unqualified and without any reservation or adverse remark.

COST RECORDS AND AUDIT

Maintenance of cost records and requirement of cost audit as prescribed under the provisions of Section 148(1) of the Companies Act, 2013 are not applicable for the business activities carried out by the Company.

RISK MANAGEMENT POLICY

The Company believes that it operates in a business environment that is characterized by increasing globalization of markets, intensifying competition and is exposed to multiple risks in the ordinary course of business. This is inevitable, as there can be no entrepreneurial activity without the acceptance of risks and associated profit opportunities.

The Company's risk management objectives are:

- Identify and manage existing and new risks in a planned and coordinated manner with the minimum of disruption and cost.
- Develop a "risk" culture that encourages all staff to identify risks and associated opportunities and to respond to them with effective action plans.

Risk identification refers not only to the systematic identification of risks but also to the identification of their root causes & impact. It is a continuous process for existing as well as new risks emerging out of evolving business dynamics.

The Company follows a process of identifying any risks and communicates the same to the Risk Management Oversight Committee (RMOC) through Risk Managers for monitoring.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

Your Company has an adequate system of internal controls commensurate with its size and the nature of its business. It ensures that transactions are authorized, recorded, and reported correctly apart from safeguarding its assets against loss from wastage, unauthorized use and disposition.

The internal control system is supplemented by well documented policies, guidelines and procedures. The Purpose of the internal audit is to provide independent and objective reviews on a continuous basis with assessments of the policies, business activities, operations, systems and controls followed within the Company to add value, improve processes and assist the organisation to achieve its goals and objectives. The Internal audit scope is prepared in accordance with the internal policy and processes as well as external regulatory and other compliances.

DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to provisions of Section 134(5) of the Companies Act, 2013, your Directors, based on the representation received from the Operating Management, and after due enquiry, confirm that:

(i) in the preparation of the annual accounts, the applicable accounting standards have been followed along with proper explanation relating to material departures, if any;

(ii) the directors have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit of the Company for that period;

(iii) the directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

(iv) the directors have prepared the annual accounts on a going concern basis;

(v) the directors have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

HUMAN RESOURCE MANAGEMENT

Employees are the core of our business and are our most valuable assets. Our Focus is to deliver Fantastic People Experience for all our employees. We are proud winners of three consecutive wins of the Gallup Great Workplace Awards. We are amongst the Top 40 organizations worldwide to be recognized for our cutting-edge Best People Practices.

We have successfully sustained and enhanced our organization's culture through employee centric initiatives such as Employee Assistance Program, Helping Hands, Diversity and Inclusive program, Gift a Leave, Fun Days, Celebration of Festivals, Focus on Development, Employee Growth Initiatives, Employee Surveys, Monthly Performance Incentives for advisors and contemporary learning and development initiatives. During the last 2 years we have taken several initiatives like Flexible and Remote Working, Reimbursement of Covid 19 Vaccine for our employees, Reimbursement of Internet Allowance, Antigen Testing @ office, Vaccination Drives @ office, Online Champaign to increase awareness on Covid 19, myths and precautions, Support given to employees who got impacted by Covid 19 etc., and kept employee wellness as our top most priority.

During the year we have hired around 3468 employees, with around 96% sourced through internal channels, this has had a very positive impact of an overall reduction in recruitment costs. Through our multipronged people management strategy we have been able to nurture talent and have created opportunities for both personal and professional growth across the organization and the group for our employees.

POLICY FOR PREVENTION OF SEXUAL HARASSMENT

The Company has in place an Anti-Sexual Harassment Policy in line with the requirements of The Sexual Harassment of Women at Workplace (Prevention, Prohibition & Redressal) Act, 2013. All employees (permanent, contractual, temporary, trainees) are covered under this policy.

The status of complaints received under POSH and redressed by the POSH Committee of the Company, during the financial year under review, are given below:

a) Number of complaints received - 11

b) Number of complaints redressed – 8

c) Number of complaints pending – 3 (received in March 2022)

Your Directors state that during the year under review, there were no cases filed pursuant to the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION & FOREIGN EXCHANGE EARNINGS AND OUTGO

1. **Conservation of Energy & Technology Absorption**

   The Company being in the service industry, the rules pertaining to conservation of energy does not apply to the Company. The Company is constantly acquiring new hardware and software solutions and upgrading its existing hardware and software to provide more and better services to its customers.

2. **Foreign Exchange earnings and outgo**

   The foreign exchange earnings of your Company during the year were ₹ 8,892 million. (Previous Year - ₹ 7,855 million.) while the outgoings were ₹ 720 million. (Previous Year - ₹ 506 million).

ACKNOWLEDGEMENTS

Your Directors gratefully acknowledge the contributions made by employees towards the success of your Company. Your Directors are also thankful for the co-operation and assistance received from its customers, vendors, bankers, STPI, Excise authorities and other regulatory and governmental authorities in India and abroad and its shareholders.

ANNEXURE 3

Form No. MR-3
Secretarial Audit Report
For the Financial Year Ended 31.03.2022
[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Tech Mahindra Business Services Limited
Spectrum Towers, Mindspace Complex,
Off Link Road, Malad (West),
Mumbai 400064.

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Tech Mahindra Business Services Limited (CIN: U72900MH2006PLC159149)**, (hereinafter called the "Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering the Financial Year ended on **31st March 2022** complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on **31st March 2022** according to the provisions of:

(i) The Companies Act, 2013 (the Act) and the Rules made thereunder;

(ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the Rules made thereunder (Not applicable to the Company during the audit period);

(iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder (The Company is an Unlisted Company and the shares of the Company are not in dematerialized form therefore provisions of the Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder are not applicable to the Company during the audit period);

(iv) Foreign Exchange Management Act, 1999 and the Rules and Regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings (Not applicable to the Company during the audit period);

(v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') are not applicable to the Company during the audit period as the Company is an unlisted Company:-

   (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

   (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;

   (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;

   (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;

   (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;

   (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with Client;

   (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; and

   (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018;

(vi) As informed to me, the Company has complied with the following laws applicable specifically to the Company during the audit period:

   (a) the Information Technology Act, 2000;

   (b) the Indian Telegraph Act, 1885.

I have also examined compliance with the applicable clauses of the following:

(i) Secretarial Standards (SS-1 and SS-2) issued by The Institute of Company Secretaries of India.

(ii) The Listing Agreements entered into by the Company with Stock Exchange(s) and The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. (Not applicable to the Company during the audit period as the Company is an unlisted Company.)

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that the Board of Directors of the Company is duly constituted with Non-Executive Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, (except for two board meetings conducted at a shorter notice, for which all the directors consented unanimously), and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at the Board Meetings and Committee Meeting were carried out unanimously as recorded in the minutes of the respective meetings.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that the Board of Directors of the Company had in its meeting held on 29th January, 2021 approved the Scheme for Merger by Absorption of the Company (the “Transferor Company”) with its holding Company, Tech Mahindra Limited (the “Transferee Company”) and their respective Shareholders with Appointed Date as 1st April, 2021 in accordance with the provisions of Sections 230 to 232 and other applicable provisions of the Companies Act, 2013, subject to the approvals of the Hon’ble National Company Law Tribunal (“NCLT”), Mumbai. The Transferor Company is a Wholly Owned Subsidiary of the Transferee Company. The Company subsequently filed the petition with the Hon’ble National Company Law Tribunal (“NCLT”) Mumbai and the same is pending with the Tribunal.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of Tech Mahindra Business Services Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Tech Mahindra Business Services Limited (hereinafter referred to as "the Company"), which comprise the Balance Sheet as at 31 March 2022, and the Statement of Profit and Loss (including other comprehensive income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Information Other than the Financial Statements and Auditors' Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Board's Report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion.

  Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
    b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
    c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
    d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
    e) On the basis of the written representations received from the directors as on 31 March 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”.

(B) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditor’s) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

a) The Company has disclosed the impact of pending litigations as at 31 March 2022 on its financial position in its financial statements - Refer Note 23 to the Financial statements.

b) The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any on long term contracts including derivative contracts. Refer Note 25 to the financial statements.

c) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

d) i. The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:

- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Company or
- provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

ii. The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall:

- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Funding Party or
- provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries; and

iii. Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (d) (i) and (d) (ii) contain any material mis-statement.

e) The dividend declared or paid during the year by the Company is in compliance with Section 123 of the Act.

iv. With respect to the matter to be included in the Auditor’s Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

Annexure A to the Independent Auditor's report on the financial statements of Tech Mahindra Business Services Limited for the year ended 31 March 2022

(Referred to in our report of even date)

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified in a phased manner over a period of two years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.

(c) The Company does not have any immovable property (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee). Accordingly, clause3(i)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

(e) According to information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

(ii) (a) The Company is a service company, primarily rendering voice based call centre services. Accordingly, it does not hold any physical inventories and thus, clause 3(ii)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been sanctioned any working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets at any point in time during the year. Accordingly, clause 3(ii)(b) of the Order is not applicable.

(iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not has not provided any guarantee or security or granted advances in the nature of loans, secured or unsecured to companies, limited liability partnership and other parties. The Company has made investments and extended a loan to one entity during the year in respect of which the requisite information is given in (a) below.

(a) Based on the audit procedures carried on by us and as per the information and explanations given to us, the Company has granted a loan to a party other than subsidiaries as below:

Particulars	Loans (INR million)
Aggregate amount during the year	250
- Other related party (Mahindra Educational Institutions)	
Balance outstanding as at balance sheet date	-
- Other related party (Mahindra Educational Institutions)	

(b) According to the information and explanations given to us and based on the audit procedures conducted by us, we are of the opinion that the investments made and the terms and conditions of the grant of loans are, prima facie, not prejudicial to the interest of the Company.

(c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in the case of a loan given, the repayment of principal and payment of interest has been stipulated and the repayments or receipts have been regular (it may be noted that the loan has also been repaid during the year). Further, the Company has not given any advance in the nature of loan to any party during the year.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no overdue amount for more than ninety days in respect of loans given.

(e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no loan or advance in the nature of loan granted falling due during the year, which has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to same parties.

(f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment.

(iv) According to the information and explanations given to us and on the basis of our examination of records of the Company, in respect of investments made and loans, guarantees and security given by the Company, in our opinion, the provisions of section 185 and 186 of the Companies Act, 2013 have been complied with.

(v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.

(vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under section 148 of the Act, for any of the services rendered by the Company. Accordingly, the provisions of paragraph 3(vi) of the Order is not applicable.

(vii) (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective July 1, 2017, these statutory dues has been subsumed into GST. According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Provident fund, Employees' State Insurance, Income-Tax, Goods and Services Tax (GST), Duty of Customs and other statutory dues have generally been regularly deposited by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of cess.

According to the information and explanations given to us, no undisputed amounts payable in respect of Provident fund, Employees' State Insurance, Income-Tax, GST, Duty of Customs and other statutory dues were in arrears as at March 31, 2022 for a period of more than six months from the date they became payable, except for the following:

Name of statute	Nature of dues	Amount (₹ in Million)	Period to which the amount relates	Due Date	Date of payment
The Employees' Provident Fund and Miscellaneous Provisions Act, 1952	Employer and employee contribution to Provident fund	0.20	July 2017 to September 2021	Various	Not yet paid

(b) According to the information and explanations given to us, statutory dues relating to Provident Fund, Employees State Insurance, Income-Tax, GST, Service tax, Duty of excise, Sales tax, Value added tax, Duty of Customs or other statutory dues which have not been deposited on account of any dispute, except for the following:

Name of statute	Nature of dues	Amount unpaid (₹ in Million)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income tax	377	A.Y. 2010-11	Income Tax Appellate Tribunal
Income Tax Act, 1961	Income tax	17	A.Y. 2016-17	Income Tax Appellate Tribunal
Finance Act, 1994	Service tax	86*	F.Y. 2007-08 to 2017-18	Commissioner of Service Tax

* excluding interest but includes penalties

(viii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income-tax Act, 1961 as income during the year.

(ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any loans or borrowings from any lender during the year. Accordingly, clause 3(ix)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any loans or borrowings during the year and accordingly, has not been declared a wilful defaulter by any bank or financial institution or government or government authority.

(c) According to the information and explanations given to us by the management, the Company has not obtained any term loans. Accordingly, clause 3(ix)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we report that no funds have been raised on short-term basis by the Company. Accordingly, clause 3(ix)(d) of the Order is not applicable.

(e) The Company does not hold any investment in subsidiary, associate or joint venture (as defined under the Companies Act, 2013) during the year ended 31 March 2022. Accordingly, clause 3(ix)(e) of the Order is not applicable.

(f) The Company does not hold any investment in subsidiary, associate or joint venture (as defined under the Companies Act, 2013) during the year ended 31 March 2022. Accordingly, clause 3(ix)(f) is not applicable.

(x) (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments). Accordingly, clause 3(x)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable.

(xi) (a) Based on examination of the books and records of the Company and according to the information and explanations given to us, considering the principles of materiality outlined in Standards on Auditing, we report that no fraud by the Company or on the Company has been noticed or reported during the course of the audit.

(b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Companies Act, 2013 has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(c) Based on the information and explanations provided to us, the Company is not required to have a vigil mechanism as per Companies Act, 2013 or SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

(xii) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.

(xiii) According to the information and explanations given to us, the provisions of Section 177 of the Act are not applicable to the Company and accordingly, the requirements as stipulated by the provisions of Section 177 of the Act are not applicable to the Company. In our opinion and according to the information and explanation given to us and based on our examination of the records of the Company, all transactions with related parties are in compliance with Section 188 of the Act, where applicable, and the details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) (a) Based on information and explanations provided to us and our audit procedures, in our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the internal audit reports of the Company issued till date for the period under audit.

(xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Companies Act, 2013 are not applicable to the Company.

(xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.

(b) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable.

(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.

(d) According to the information and explanations provided to us, the Group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016) has more than one CIC as part of the Group. The Group has six CIC as part of the Group.

(xvii) The Company has not incurred cash losses in the current and in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) In our opinion and according to the information and explanations given to us, there is no unspent amount under sub-section (5) of Section 135 of the Companies Act, 2013 pursuant to any project. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

Annexure B to the Independent Auditor’s Report on the financial statements of Tech Mahindra Business Services Limited for the year ended 31 March 2022

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2(A)(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Tech Mahindra Business Services Limited (“the Company”) as of 31 March 2022 in conjunction with our audit of the financial statements of the Company as at and for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “Guidance Note”).

Management’s and Board of Directors’ Responsibilities for Internal Financial Controls

The Company’s Management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to financial statements based on the criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to Financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company’s internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

STATEMENT OF CHANGES IN EQUITY

a. Equity Share Capital

Particulars	Number of Shares	Equity Share Capital ₹ in Million
Balance at April 1, 2021	**1,000,000**	**10**
Changes in equity share capital during the year	-	-
Balance at March 31, 2022	**1,000,000**	**10**
Balance at April 1, 2020	**1,000,000**	**10**
Changes in equity share capital during the year	-	-
Balance at March 31, 2021	**1,000,000**	**10**

b. Other Equity

₹ in Million

Particulars	Reserves & Surplus		Items of Other Comprehensive Income	Total
	Capital Redemption Reserve	Surplus in Statement of Profit and Loss	Cash Flow Hedge Reserve	
Balance as of April 1, 2021	**666**	**3,633**	**(71)**	**4,228**
Profit for the year	-	1,995	-	1,995
Other Comprehensive Income	-	(17)	137	120
Total Comprehensive income	**-**	**1,978**	**137**	**2,115**
Interim Dividend	-	(1,000)	-	(1,000)
Balance at March 31, 2022	**666**	**4,611**	**66**	**5,343**
Balance as of April 1, 2020	**666**	**3,341**	**11**	**4,018**
Profit for the year	-	1,200	-	1,200
Other Comprehensive Income	-	(8)	(82)	(90)
Total Comprehensive income	**-**	**1,192**	**(82)**	**1,110**
Interim Dividend	-	(900)	-	(900)
Balance at March 31, 2021	**666**	**3,633**	**(71)**	**4,228**

A description of the purposes of each reserve within equity:

1. Capital Redemption Reserve pertains to nominal value of Redeemable Non Convertible preference shares redeemed out of profits. The nominal value of shares was transferred to Capital Redemption Reserves.
2. Surplus in Statement of Profit and Loss - This represents the undistributed profits of the Company accumulated at the year end.
3. Cash Flow Hedge Reserve pertains to the portion of the gain or loss on the hedging instrument that is determined to be an effective hedge recognised in other comprehensive income.

As per our report of even date attached

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2022

1. Corporate Information:

Tech Mahindra Business Services Limited (the 'Company') head quartered in Mumbai, Maharashtra, India provides voice based call centre services to 'Hutchison 3G UK Limited', 'TPG Telecom Limited' (formerly known as Vodafone Hutchison Australia Pty Limited), 'Hutchison 3G Ireland Limited' and Tech Mahindra Limited.

The Company was converted from a Private Limited Company to a Public Limited Company with effect from December 27, 2012 and the name has been changed from Hutchison Global Services Limited to Tech Mahindra Business Services Limited with effect from July 13, 2013.The Company is now a 100% subsidiary of Tech Mahindra Limited. Also refer note 36 on scheme of merger.

2. Significant accounting policies:

2.1 Statement of Compliance:

These financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) Amendment Rules, 2016, and other relevant provisions of the Companies Act, 2013.

Details of the Company's accounting policies are included in paragraph 2.

These financial statements were authorised and issued on April 30, 2022.

2.2 Basis for preparation of financial statements:

These financial statements have been prepared on the historical cost basis and on an accrual basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on their value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purpose in these financials statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as value in use in Ind AS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are not based on observable market data (unobservable inputs) Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

2.3 Use of Estimates:

The preparation of financial statements requires the management of the company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimated and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Critical accounting estimates

i) Income taxes

Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions. The policy for the same has been explained under Note 2.12.

ii) Provisions

Provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. The policy for the same has been explained under Note 2.14.

iii) Defined benefit plans and compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The policy for the same has been explained under Note 2.10.

iv) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment, including assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics. Refer note 2.5 for detailed accounting policies on leases.

2.4 Property, Plant & Equipment and Other Intangible Assets:

Property, plant & equipment and other intangible assets are stated at actual cost less accumulated depreciation and net of impairment. The actual cost capitalized includes

a) material cost, freight, installation cost, non-refundable duties and taxes, eligible borrowing costs and other incidental expenses incurred during the construction / installation stage.

b) the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on Property, Plant & Equipment including assets taken on lease, other than freehold land is charged based on straight line method on an estimated useful life that has been assessed as under based on technical advice, considering the nature of the asset, estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Plant and Equipments	3 to 4 years
Computer Hardware	4 years
Office Equipment	3 to 4 years
Furniture and Fixtures	3 to 6 years
Vehicles	4 years
Leasehold Improvements	Lower of lease period or expected occupancy.

The estimated useful lives and residual values of the Property, Plant & Equipment and Other Intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of Property, Plant & Equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant & Equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the profit or loss.

Project specific intangible assets are amortized over their estimated useful lives on a straight line basis or over the period of the license/project period, whichever is lower.

2.5 Leases:

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee:

At the inception of a contract, the Company assesses whether a contract, is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

i. The contract involves the use of an identified asset- this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;

ii. The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period; and

iii. The Company has the right of direct the use of the asset. The Company has this right when it has the decision making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:

a) The Company has the right to operate the asset; or

b) The Company designed the asset in a way that predetermines how and for what purposes it will be used.

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost at inception which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located, less any lease incentives received.

The right-of-use assets is subsequently depreciated using the straight line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjustment for certain remeasurement of the lease liability. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date of the lease, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Company’s incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments included in the measurement of lease liability fixed payments, including in-substance fixed payments, amounts expected to be paid under a residual value guarantee and the exercise price under a purchase option that the Company is reasonably certain to exercise and penalties for early termination of a lease unless the Company is certain not to terminate early. The lease liability is measured at amortised cost using the effective interest method. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset, or is recorded in statement of profit or loss if the carrying amount of the right-of-use asset has been reduced to zero

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Lease Modification

For lease modifications, the Company has adopted practical expedient given in the amendments to IND AS 116, notified by Ministry of Corporate Affairs on 24 July 2020.

2.6 Impairment of Assets:

i) Financial assets

The Company applies the expected credit loss model for recognizing impairment loss on financial assets.

Expected credit loss is the difference between the contractual cash flows and the cash flows that the entity expects to receive discounted using effective interest rate.

Loss allowances for trade receivables are measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. Lifetime expected credit loss is computed based on a provision matrix which takes into account historical credit loss experience adjusted for forward looking information.

For other financial assets, expected credit loss is measured at the amount equal to twelve months expected credit loss unless there has been a significant increase in credit risk from initial recognition, in which case, those are measured at lifetime expected credit loss.

ii) Non-financial assets

The Company assesses long-lived assets such as property, plant, equipment and acquired intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or group of assets may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the asset or group of assets. The recoverable amount of an asset or cash generating unit is the higher of its fair value less cost of disposal (FVLCD) and its value-in-use (VIU). The VIU of long-lived assets is calculated using projected future cash flows. FVLCD of a cash generating unit is computed using turnover and earnings multiples.

If the recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the reporting date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the impairment losses previously recognized are reversed such that the asset is recognized at its recoverable amount but not exceeding written down value which would have been reported if the impairment losses had not been recognized initially.

2.7 Revenue recognition:

Revenue from voice based call centre services include revenue earned from services rendered on ‘time and material’ basis and time bound fixed price engagements.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services, net of indirect taxes, discounts, rebates, credits, price concessions, incentives, performance bonuses, penalties, or other similar items.

Revenue from time and material contracts is recognised as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognised as unbilled revenue.

Revenue from fixed price maintenance contracts is recognised based on the right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered. If invoicing is not consistent with value delivered, revenue is recognized as the services are performed. When services are performed through an indefinite number of repetitive acts over a specified period, revenue is recognised on a straight□line basis over the specified period unless some other method better represents the manner in which services are performed.

Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability arises when there is Company’s obligation to transfer goods or services to a customer for which the entity has received consideration (“Advances from Customer”) or the amount is due from the customer (“Unearned Revenue”).

Disaggregation of revenue is reported under segment reporting.

Deferred contract costs are incremental costs of obtaining a contract which are recognised as assets and amortised over the tenure of the contract.

Dividend income is recognized when the Company's right to receive dividend is established. Interest income is recognized using effective interest rate method.

2.8 Foreign currency transactions:

The functional currency of the Company is Indian Rupees (₹).

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the dates of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are included in the statement of profit or loss.

2.9 Financial Instruments:

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortized cost is carried at fair value through profit or loss (FVTPL) on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized to profit or loss.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses on remeasurement recognized in profit or loss.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method or at FVTPL. Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised in a business combination, or is held for trading or it is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derivative financial instruments and hedge accounting

The Company is exposed to foreign currency fluctuations on foreign currency assets, liabilities and forecasted cash flows denominated in foreign currency. The Company uses foreign currency forward contracts / options to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. The Company designates some of these as cash flow hedges applying the recognition and measurement principles set out in the Ind AS 109 Financial Instruments.

The use of foreign currency forward contracts / options is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Company's risk management strategy. The counter party to the Company's foreign currency forward contracts is generally a bank. The Company does not use derivative financial instruments for speculative purposes.

Foreign currency forward contract derivative instruments are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognized in other comprehensive income and accumulated under Hedging Reserve and the ineffective portion is recognized immediately in the Statement of Profit and Loss.

Amounts previously recognized in other comprehensive income and accumulated in hedging reserve are reclassified to profit or loss in the same period in which gains / losses on the item hedged are recognized in the Statement of Profit or Loss.

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognized in the Statement of Profit and Loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on the hedging instrument classified in hedging reserve is retained there and is classified to Statement of Profit and Loss when the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in hedging reserve is transferred to the Statement of Profit and Loss for the period.

iii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The Company derecognises financial liabilities when, and only when, the Company's obligation are discharged, cancelled or have expired.

2.10 Employee Benefits:

i) Gratuity:

The Company accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the balance sheet date using the Projected Unit Credit method.

Actuarial gains and losses are recognised in full in other comprehensive income and accumulated in equity in the period in which they occur. Past service cost is recognised in profit or loss in the period of a plan amendment.

ii) Provident Fund:

The eligible employees of the Company are entitled to receive the benefits of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary which are charged to the statement of profit and loss on accrual basis. The provident fund contributions are paid to the Regional Provident Fund Commissioner by the Company.

The Company has no further obligations for future provident fund and superannuation fund benefits other than its annual contributions.

iii) Superannuation and ESIC:

Superannuation fund and employees' state insurance scheme (ESI), which are defined contribution schemes, are charged to the statement of profit and loss on accrual basis.

iv) Compensated absences:

The Company provides for compensated absences subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is provided based on the number of days of unavailed leave at each balance sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method.

The liability which is not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized based on the actuarial valuation as at the balance sheet date.

Actuarial gains and losses are recognised in full in in the Statement of Profit and Loss in the period in which they occur.

The company also offers a short term benefit in the form of encashment of unavailed accumulated compensated absence above certain limit for all of its employees and same is being provided for in the books at actual cost.

2.11 Borrowing costs:

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to the statement of profit and loss.

2.12 Taxation:

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the respective countries.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Deferred income taxes

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.The Company recognises interest levied and penalties related to income tax assessments in income tax expenses.

2.13 Earnings per Share:

Basic earnings / (loss) per share are calculated by dividing the net profit / (loss) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the year and also after the balance sheet date but before the date the financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings / (loss) per share, the net profit / (loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

2.14 Provision, Contingent Liabilities and Contingent Assets:

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as finance cost.

Contingent liabilities and contingent assets are not recognised in the financial statements.

2.15 Recent Pronouncement :

The Ministry of Corporate Affairs (“MCA”) notifies new standard or amendments to the existing standards. On March 23, 2022, MCA amended the Companies (Ind AS) Amendment Rules, 2022, which are applicable from April 1, 2022. The Company does not expect the amendments to have any significant impact on the financial statements.

* The figures in bracket indicate demands paid under disputes.

** There are no adjustment /addition made in the assessment order by the Assessing Officer. The Assessing Officer has inadvertently erred in computing total income of the Company. Due to incorrect computation of income, a demand has been raised on the Company. The Company has filed petition for rectification u/s 154 of the Income tax Act, 1961 and also filed appeal to the Commissioner of Income tax (Appeals).

excluding interest including penalty.

iii. The Company is subject to legal proceedings and claims including with customer, which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial condition other than those for which provisions are already recorded in the financials statement.

iv. Bank guarantee outstanding as at March 31,2022: ₹ 7 million (March 31, 2021 ₹ 7 million)

24. Details of employee benefits as required by the Ind AS 19 – Employee Benefits are as under:

i. Defined Contribution Plan

Contribution to Defined Contribution Plans recognized as expenses for the year ended are as under:

Amount in ₹ Million

Particulars	**For the year ended March 31, 2022**	**For the year ended March 31, 2021**
Employer's Contribution to Provident Fund	**176**	119
Employer's Contribution to Employee's State Insurance	**1**	4

In addition to above mentioned defined contribution plan the Company pays employer contribution in Ireland as per local laws.

ii. **Defined Benefit Plan**

The benefit plan comprises of Gratuity. The Gratuity plan is unfunded. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method. Actuarial gains and losses in respect of defined benefit plans are recognised in other comprehensive income.

a) **Changes in the present value of defined benefit obligation**

Amount in ₹ Million

Particulars	**For the year ended March 31, 2022**	**For the year ended March 31, 2021**
Defined benefit obligation at the beginning of the period	**214**	186
Interest cost	**16**	12
Current Service Cost	**30**	18
Benefit Paid	**(43)**	(12)

d) **Actuarial Assumptions**

Particulars	**As at**	
	March 31, 2022	**March 31, 2021**
Discount Rate (per annum)	**6%**	5.4%
Salary Escalation Rate (per annum)	**7%**	7%
Attrition Rate	**0% to 59%**	0% to 58%
Mortality Rate	**Indian Assured Lives Mortality (2006-08) Ult**	Indian Assured Lives Mortality (2006-08) Ult

The estimates of future salary escalations considered in actuarial valuation, takes into account inflation, seniority, promotions and other relevant factors, such as demand and supply in the employment market.

e) The significant actuarial assumptions for the determination of the defined benefit obligations are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

If the discount rate increases (decreases) by 0.50%, the defined benefit obligations would decrease by 7 million (increase by 8 million) as of March 31,2022

If the expected salary growth increases (decreases) by 0.50%, the defined benefit obligations would increase by 8 million (decrease by 8 million) as of March 31,2022.

f) **Expected benefit payments for the year ended**

Amount in ₹ Million

March 31, 2026	42
March 31, 2027	36
March 31, 2028 to March 31, 2032	137

iii. The Code on Social Security 2020

The Code on Social Security, 2020 (‘Code’) relating to employee benefits during employment and post-employment benefits received Presidential assent on 28 September 2020 and has been published in the Gazette of India. The effective date from which the changes are applicable is yet to be notified. The Ministry of Labour And Employment has issued draft rules under the Code on Social Security, 2020 on 13 November 2020 and invited suggestions. The Company will assess the impact and complete the evaluation once the rules are notified and will provide a disclosure of the impact in its financial statements in the period in which, the Code becomes effective and the related rules are notified.

25. Financial Instruments

The Company is exposed primarily to fluctuations in foreign currency exchange rates, credit risk and liquidity risk, which may impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential effects on the financial performance of the Company. The Company’s Board of directors has overall responsibility for the establishment and oversight of the Company’s risk management framework. The Company’s risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions.

Fair value hierarchy

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

The different levels have been defined as follows:

Level-1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level-2 – Inputs other than quoted prices included within level-1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level- 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Amount in ₹ Million

Other Financial Liabilities	-	168	-	168
Total	**-**	**168**	**-**	**168**

Credit Risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms and conditions.

The Company's financial instruments that are subject to credit risk predominantly consist of trade receivables including unbilled revenue, mutual fund investment, forward contracts, cash and cash equivalent and other financial assets.

The Company invests only in debt mutual funds with top mutual funds houses having very good credit rating and having a good Assets under Management.

The credit terms agreed with the customer is 30-45 days and the average collection period of the Company is around 51 days. Over the last 10 years, the Company has faced no significant credit default from its customers, it has always received full realization of all its invoices.

The counterparty for the forward contracts booked is normally a bank with a high quality credit rating. The Company books plain vanilla forward contract to protect its exchange rate risk.

Exposure to Credit Risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹5,068 Million and ₹ 4,001 Million as of March 31,2022 and March 31, 2021 respectively, being the total of the carrying amount of trade receivables, investments, cash and cash equivalents, other balance with banks, and other financial assets.

In addition, the Company is exposed to credit risk in relation to financial guarantees given to banks provided by the Company. The Company's maximum exposure in this respect is the maximum amount the Company would have to pay if the guarantee is called on.

Trade receivable

Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each Balance Sheet date whether a financial asset or a group of financial assets is impaired. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. As on March 31,2022 and March 31, 2021 expected credit loss provision is ₹ Nil.

Market Risk

Market risk is the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company exposure to market risk is primarily on account of foreign currency exchange rate risk and mutual fund price risk.

i. Foreign Currency Exposures

The Company's revenue is denominated in GBP, AUD, NZD, USD and EUR. The majority of the costs are in Indian Rupees. This exposes the company to currency fluctuation. The Company monitors and manages the financial risk relating to its operations by analysing its foreign exchange exposure by the level and extent of currency risks.

Amount in ₹ Million

Particulars	Foreign Currency Amount in Million		Indian Rupees Equivalent	
	As at March 31,2022	As at March 31, 2021	**As at March 31, 2022**	As at March 31, 2021
Trade Payable	**USD 0**	USD 0	**12**	27
Trade Payable	**EUR 0**	EUR 0	**1**	8
Trade Payable	**GBP 0**	GBP 0	**12**	30
Trade Receivables	**AUD 5**	AUD 6	**261**	328
Trade Receivables	**EUR 2**	EUR 1	**178**	75
Trade Receivables	**GBP 7**	GBP 9	**704**	863
Trade Receivables	**NZD 1**	NZD 1	**51**	36
Lease Liabilities	**EUR 0**	EUR 0	**36**	57

Forward Exchange / Contracts

The Company's revenue is denominated in GBP, AUD, NZD and EUR. The majority of the costs are in Indian Rupees. This exposes the Company to currency fluctuation.

The Company monitors and manages the financial risk relating to its operations by analysing its foreign exchange exposure by the level and extent of currency risks.

The Company uses derivative financial instruments governed by the policies approved by the Board such as forward to manage and mitigate its foreign currency exposure. The Company has a risk management policy approved and adopted by the Board, which is used to hedge forex fluctuation. The counterparty is generally a bank. The Company can enter into a contract for 1 day to 3 years depending on the nature of forex billing.

The following are outstanding currency exchange forward contracts, which have been designated as cash flow hedges as of:

As at March 31, 2022

Foreign Currency	Amount of contracts (In million)	Fair value (₹ in million) (Gain)/Loss
AUD / INR	**4**	**6**
EUR / INR	**2**	**(3)**
GBP / INR	**27**	**(137)**

As at March 31, 2021

Foreign Currency	Amount of contracts (In million)	Fair value (₹ in million) (Gain)/Loss
AUD / INR	6	(2)
EUR / INR	4	(10)
GBP / INR	32	166

The movement in Hedging Reserve for derivatives designated as Cash Flow Hedges is as follows:

Amount in ₹ Million

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
Credit /(Debit) balance at the beginning of the year	**(71)**	11
Changes in the fair value of the effective portion of cash flow Hedges	**183**	(110)
Tax impact on effective portion of outstanding cash flow hedges	**(46)**	28
Credit / (Debit) balance at the end of the year	**66**	(71)

Net gain on derivative instruments of ₹ 70 smillion recognized in Hedging Reserve as at March 31,2022, is expected to be transferred to the statement of profit and loss by March 31, 2023.

ii. Interest Rate Risk

The Company's investment is primarily in Debt Mutual Funds, hence the Company is not significantly exposed to interest rate risk.

iii. Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The Company has always generated sufficient cash flows from its operations to meet its financial obligations as and when they fall due.

As at March 31, 2022

Amount in ₹ Million

Total	**168**	**-**	**-**	**-**	**168**

26. Disclosures for Revenue from Contracts with Customers

i. Performance obligations and remaining performance obligations

The remaining performance obligations disclosure provides the aggregate amount of the transaction price yet to be recognized as of the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation for contracts where the entity has a right to consideration from a customer in an amount that corresponds directly with the value to the customer of the entity's performance completed to date. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in scope of contracts, periodic revalidations, and adjustments for revenue that has not materialized and adjustments for currency.

ii. Contract assets and liabilities

The contract assets primarily relate to Company's rights to consideration for work completed but not billed at the reporting date due to contractual terms. The contract assets are transferred to receivables when the rights become unconditional.

The contract liabilities primarily relate to the advance consideration received from customers. Revenue is recognized from the contract liability amounts as and when services are delivered and related performance obligations satisfied. The unused credit or balance is deferred until used by the customer or expired.

Significant changes in the contract liabilities balances during the year months ended March 31,2022 as follows:

Amount in ₹ Million

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
Contract liabilities:		
Opening Balance	**123**	35
Less: Revenue recognized during the reporting year	**(118)**	(38)
Add: Invoiced during the year but, not recognized as revenues	**38**	126
Add: Transaction loss / (Gain)	**(1)**	0
Closing Balance	**42**	123

iii. Contract Price

The following table provides information in respect of amount of revenue recognized in the statement of profit and loss with the contracted price showing separately each of the adjustments made to the contract price:

Amount in ₹ Million

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
Contracted transaction	**9,194**	8,051
Less: Adjustment for upfront discount and rebate	**(302)**	(196)
Revenue recognized in the statement of profit and loss	**8,892**	7,855

27. Earnings Per Share is calculated as follows:

₹ in Million except earnings per share

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
Net Profit attributable to shareholders	**1,995**	1,200
Equity Shares outstanding as at the year (in nos.)	**1,000,000**	1,000,000
Weighted average Equity Shares outstanding as at the end of the year in nos.)	**1,000,000**	1,000,000
Weighted average number of Equity Shares used as denominator for calculating Basic Earnings Per Share	**1,000,000**	1,000,000
Number of Equity Shares used as denominator for calculating Diluted Earnings Per Share	**1,000,000**	1,000,000
Nominal Value per Equity Share (in ₹)	**10.00**	10.00
Earnings Per Share		
Earnings Per Share (Basic) (in ₹)	**1,995**	1,200
Earnings Per Share (Diluted) (in ₹)	**1,995**	1,200

28. Segment Reporting

Ind AS 108 establishes standards for the way that companies report information about their operating segments and related disclosures, as applicable about products and services, geographic areas, and major customers.

Based on the "management approach" as defined in Ind AS 108, the management evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented business segments and geographic segments.

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance. The Company's chief operating decision maker monitors the operating results of the Company's business as single segment.

Business Segment:

The Company is engaged in the business of providing voice based call centre services. As the Company is engaged in only one business segment, the Balance Sheet as at March 31,2022, Statement of Profit, and Loss for the year ended then pertain to only one business segment.

Geographical Segments:

Amount in ₹ Million

Sr. No	Particulars	Within India	Outside India	Total
1	Segment revenue by location of customers	**9** [23]*	**8,883** [7,832]*	**8,892** [7,855]*
2	Carrying amount of segment asset (Gross)	**7,747** [6,103] *	**1,373** [1,763] *	**9,120** [7,866] *
3	Additions to tangible and intangible assets	**840** [7,889]*	**13** [10]*	**853** [568]*

(*) Figures in bracket refer to amount for the year ended March 31, 2021.

During the year ended March 31, 2022, two customers from total revenue of ₹ 7,722 million individually accounted for more than 10% of the revenue. Geographies contributed more than 10% of total revenue are as below:

Amount in ₹ Million

Sr. No	Countries	For the year ended March 31, 2022	For the year ended March 31, 2021
1	United Kingdom	**6,280**	5,620
2	Australia	**1,442**	1,186
3	Ireland	**1,064**	1,026
4	India	**9**	23
5	Rest of World	**97**	-
	Total	**8,892**	7,855

29. Related Party Disclosures

As required by Ind AS 24 - Related Party Disclosures, following are details of transactions during the year ended March 31,2022 and outstanding balances as of that date with the related parties of the Company as defined in Ind AS 24:

Note: The Company contributes to Tech Mahindra Foundation and Mahindra Educational Institutions, associate companies, in relation to CSR expenditure.

41. Proposed Scheme of Merger by Absorption

On January 29, 2021, the Board of Directors of the Company passed a resolution to consider and approve the Scheme of Merger by Absorption of the Company and Born Commerce Private Limited (Fellow Subsidiary) with its Holding Company i.e. Tech Mahindra Limited and their respective shareholders under the provisions of section 230 to 232 of the Companies Act, 2013. Accordingly, the Company has filed the application before Hon'ble National Company Law Tribunal ("NCLT"), Mumbai. The appointed date under the proposed scheme is April 1, 2021. However, as the Hon'ble National Company Law Tribunal, Mumbai ("NCLT") is yet to approve the same, the Scheme is not yet effective.

Once this Scheme comes into effect, the Company will stand dissolved without winding-up. The entire business and whole of the Undertaking of the Company shall be and stand vested in or be deemed to have been vested in the Holding Company, as a going concern.

42. Previous year figures have been regrouped wherever necessary, to correspond with the current year's classification / disclosure.

TECH MAHINDRA (SHANGHAI) CO., LTD.

INDEPENDENT AUDITORS' REPORT

TO TECH MAHINDRA (SHANGHAI) CO., LTD.

1. Opinion

We have audited the financial statements of Tech Mahindra (Shanghai) Co., Ltd. (the Company), which comprise the statement of financial position as at December 31, 2021, and the statement of comprehensive income, statement of changes in equity and statement of Cash Flows for the year then ended, and notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2021, and its financial performance and its cash flows for the year then ended in accordance with China Accounting Standards for Business Enterprises and the China "Accounting System for Business Enterprises".

2. Basis for Opinion

We conducted our audit in accordance with China Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with China Accounting Standards for Business Enterprises and the China "Accounting System for Business Enterprises", and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

4. Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level assurance, but is not a guarantee that an audit conducted in accordance with China Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

During the process of our audit in accordance with China Auditing Standards, we exercise professional judgment and maintain professional skepticism. We also:

(1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

(3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

(4) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, we shall not express unqualified opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

(5) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the those Charged with Governance about planned scope and timing of the audit, as well as significant findings from the audit, including notable internal control weaknesses identified from the audit.

NOTES TO FINANCIAL STATEMENTS OF 2021

(All amounts in RMB Yuan unless otherwise stated)

I. GENERAL INFORMATION OF THE COMPANY.

Tech Mahindra (Shanghai) Co., Ltd. ("the Company") is a limited liability company (wholly-owned foreign corporation) invested by Tech Mahindra Limited. Registered at China (Shanghai) Pilot Free Trade Zone Market Supervision Administration, the Company was established on December 23, 2002 and obtained the business license with Uniform Social Credit Code No. 91310115744229270H. Residential address of the Company is Room 23102, 23104, 23202, 23204, Pudong Software Park, No.498 Guoshoujing Road, China (Shanghai) Pilot Free Trade Zone and the registered capital is USD 16,900,000. The Company has an approved operating period of 20 years.

The approved business scope is: software designing, developing, production, testing and maintenance (including embedded system software, computer aid design, manufactory and engineering service softwares, enterprise resource solution softwares, enterprise integrating softwares, custom relationship management softwares etc.); sales of the self-produced products and related technical consulting services; providing outsourcing design, research and development services in the fields of machinery and electronics; providing comprehensive logistics solution design; wholesale, import & export and agency business(except auction) of electronic equipment, machinery and parts, steel products, computer hardwares and softwares, and providing related technical and auxiliary services. [Goods under state trade control are not included, and activities related to administrative permission should be operated with approval]

II. BASIS OF PREPARATION

The financial statements have been prepared in accordance with the Accounting Standards for Business Enterprises and "Accounting System for Business enterprises" as promulgated by the State of the People's Republic of China.

III. COMPLIANCE STATEMENT

The financial statements have been prepared in accordance with "Accounting System for Business Enterprises", and present fairly, in all material respects, the financial position, financial performance, cash flows and the related financial information.

IV. PRINCIPAL ACCOUNTING POLICIES

(a) Accounting period

The Company's accounting year starts on 1 January and ends on 31 December.

(b) Recording currency

The recording currency of the Company is the Renminbi (RMB).

(c) Basis of accounting and measurement bases

The Company follows the accrual basis of accounting. Assets are initially recorded at actual costs on acquisition and subsequently adjusted for impairment, if any.

(d) Foreign currency translation

Except for the accounting treatment of paid-in capital, foreign currency transactions are translated into RMB at the exchange rates stipulated by the People's Bank of China ("the stipulated exchange rates") on the transaction date in which the transactions took place. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated into RMB at the stipulated exchange rates at the balance sheet date. Exchange differences arising from these translations are expensed, except for those attributable to foreign currency borrowings that have been made specifically for the construction of fixed assets, which are capitalized as part of the fixed asset costs and those arising in the pre-operating period, which are recorded as long-term deferred expenses.

Contributions to paid-in capital made in foreign currencies are translated into the RMB denominated paid-in capital account at the stipulated exchange rates at the contribution dates. Exchange differences arising from foreign currency capital contribution should be recognized as capital surplus.

(e) Cash and cash equivalents

For the purposes of the cash flow statement, cash refers to all cash in hand and all deposits. Cash equivalents refer to short-term and highly-liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(f) Receivables and provision for bad debts

Receivables comprise accounts receivable and other receivables. The provision method is used to account for potential bad debts identified by management. Receivables are presented at actual amounts net of provision for bad debts.

Accounts receivable

Accounts receivable comprises related party receivables and receivables from non-related parties.

The Company makes specific bad debts provision on an individual basis for accounts receivable that are distinctively different from any other receivable in recoverability. If there are indications that the balances cannot be recovered, the specific provision will be adjusted accordingly. General provision for bad debts is adopted to the other accounts receivable using ageing analysis:

Other receivables

Specific provisions are made for other receivables on an individual basis.

Recognition criteria of bad debts loss

Where evidence exists that balances cannot be recovered due to the debtor's de-registration, bankruptcy, insolvent and death, etc., bad debts are recognized and corresponding provision for bad debts is written off after the approval of the Company's general manager or the board pursuant to the authorization policies established in the Company.

(g) Fixed assets and depreciation

Fixed assets are tangible assets that are used in production, including sales of goods, rendering of services and leases, or held for management purposes, which have useful lives of more than one year and have relatively high unit price.

Fixed assets purchased or constructed by the Company are recorded at cost.

Fixed assets are depreciated using the straight-line method to allocate the cost of the assets to their estimated residual values over their estimated useful lives. For the fixed assets being provided for impairment loss, the related depreciation charge is prospectively determined based upon the adjusted carrying amounts over their remaining useful lives.

The estimated useful lives, estimated residual values expressed as a percentage of cost and annual depreciation rates are as follows:

	Estimated Useful Lives	Estimated Residual Value	Annual Depreciation Rate
Computer	3 yrs	0%	33.33%
Network equipment	5 yrs	0%	20.00%
Offince equipment	3 / 5 yrs	0%	33.33% / 20.00%
Furniture	3 yrs	0%	33.33%

When fixed assets are sold, transferred, disposed of or damaged, gains and losses on disposal are determined by comparing the proceeds with the carrying amount of the assets, adjusted by related taxes and expenses, and are included in non-operating income or expenses.

The repair and maintenance expenses of fixed assets should be expensed directly for the current period. Subsequent expenditures for major reconstruction, expansion, improvement and renovation are capitalized when it is probable that future economic benefits in excess of the original assessment of performance will flow to the Company; the other subsequent expenditures should be recognized as costs or expenses for the current period. Capitalized expenditures arising from major reconstruction, expansion and improvement are depreciated using the straight-line method over the remaining useful lives of the fixed assets. The renovation expenses are depreciated using the straight-line method over the shorter of the interval of renovation and the estimated useful lives.

(h) Long-term deferred expenses

Long-term deferred expenses are expenses paid by an enterprise, for which the amortization period is more than one year (excluding one year), including land royalty and maintenance, etc. long-term deferred expenses should be amortized evenly over the respective beneficial periods and presented at an amount net of accumulated amortization.

Leasehold improvements

Leasehold improvements should be amortized evenly over the shorter of the lease term and the useful live, and presented at an amount net of accumulated amortization.

(i) Impairment of assets

In addition to the recognition of provisions for impairment loss on receivables and inventories which have been described in their respective accounting policies, individual assets for which there are indications that the carrying values are higher than their recoverable amounts, arising from the occurrence of events or changes in circumstances, are reviewed for impairment. If the carrying value of such assets is higher than the recoverable amount, the excess is recognized as an impairment loss.

The recoverable amount of an individual asset is the higher of its net selling price and its value in use. The net selling price is the amount obtainable from the sale of the asset in an arm's length transaction between knowledgeable and will parties, after deducting any incremental direct disposal costs. Value in use is the present value of estimated future cash flows expected being derived from continuing use of the asset and from its disposal at the end of its useful life.

When there is an indication that the need for an impairment provision recorded in a prior period no longer exists or has decreased, the provision for impairment loss is reversed. The increased carrying amount of the assets should not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years.

(j) Borrowing costs

Borrowing costs, including interests and ancillary costs, incurred in connection with specific borrowings obtained for the acquisition or construction of fixed assets are capitalized as costs of the fixed assets when capital expenditures and borrowing costs are incurred and the activities have commenced to enable the assets to be ready for their intended use. The capitalization of borrowing costs ceases when the assets are ready for their intended use. Borrowing costs incurred thereafter are expensed.

(k) Revenue recognition

Revenue from the sale of goods is recognized when significant risks and rewards of ownership of the goods are transferred to the buyer, the Company retains neither continuing managerial involvement nor effective control over the goods sold, and it is probable that the economic benefit associated with the transaction will flow to the Company and the relevant revenue and costs can be measured reliably.

Revenue from the rendering of services shall be recognized at the time of service provided and consideration received or receivable.

Interest income should be measured based on the period between the acquisition date and the maturity date and the applicable interest rate.

Subsidy income shall be recognized at the time of receipt.

(l) Employee benefits

The full-time employees of the Company are entitled to staff welfare benefits under existing PRC legislation, including pension benefits, medical care, unemployment insurance, housing fund and other benefits.

The Company is required to accrue for these benefits based on certain percentages of the employees' salaries, subject to certain ceilings, in accordance with the relevant PRC regulations, these benefits are levied by the human resource and social security bodies. The contributions are expensed as incurred.

(m) Accounting for income taxes

The Company accounts for enterprise income taxes using the tax payable method. Under the tax payable method, tax expense is recognized based on current period taxable income and tax rates.

V. TAXATION

Major applicable taxes and tax rate for the Company:

Tax	Tax rate (%)	Tax base
General VAT taxpayer	13.6	Taxable sales
Enterprise income taxes	25	Payable turnover tax
City maintenance tax	7.1	Payable turnover tax
Education surtax	3	Payable turnover tax
Local education surtax	.2	Payable turnover tax

NOTES TO FINANCIAL STATEMENT.

NOTE 1 - DESCRIPTION OF OPERATIONS AND BASIS OF PRESENTATION

Tech Mahindra Communications Japan Co. Ltd (“TMCJ” or “the Company”) incorporated in Japan in 2006 under the name K Vision. On March 14, 2019, Tech Mahindra Limited (“Tech Mahindra”), incorporated in India, through its subsidiary, Tech Tech Mahindra London Limited (Formerly known as Mahindra Engineering Services (Europe) Limited), incorporated in the United Kingdom, completed the acquisition of the shares of the Company.

The Company is supplying all the elements required for the establishment and deployment of communication networks and provides related construction services in Japan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in Japan (“JGAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Cash and cash equivalents:

Cash and cash equivalents consist of certain highly liquid investments with maturities of three months or less at the date of purchase and consist of money market funds.

Trade receivables:

The Company believes that the concentration of credit risk in its trade receivables is mitigated by the Company’s credit evaluation process, relatively short collection terms, and dispersion of its customer base. Management evaluates the collectability of trade receivables based on a combination of factors. Management regularly analyzes significant customers accounts, and, when management becomes aware of a specific customer’s inability to meet its financial obligations, such as in the case of bankruptcy filings or deterioration in the customer’s operating results or financial position, a specific reserve for bad debts is recorded to reduce the related receivable to the amount management reasonably believes is collectible. Reserves for doubtful accounts for all other customers are also recorded based on a variety of factors including the length of time the receivables are past due, the financial health of the customer, macroeconomic considerations, and historical experience. If circumstances related to specific customer change, estimates of the recoverability of receivables could be further adjusted or the related receivables could be written off to the allowance as uncollectible. The Company has not experienced significant losses on trade receivables from any particular customer or geographic region.

Property and equipment:

Property and equipment are stated at cost and are being depreciated using straight-line and accelerated methods over the estimated useful lives of the related assets.

Fair value of financial instruments:

The fair value of cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities, and other short-term liabilities approximate the carrying value due to their short-term, highly liquid nature. The carrying amounts of long-term debt approximate fair value, based on interest rates currently available for similar terms and maturities.

Income taxes:

Deferred income tax assets and liabilities are recognized on the differences between the financial statement and tax basis of assets and liabilities and on net operating loss carryovers using enacted tax rates. A valuation allowance is provided to offset deferred income tax assets if, based on available evidence, it is more likely than not that a portion of the deferred income tax assets will not be realized.

Accounting Principles

Cash accounting is being followed as per standard accounting practices followed in Japan. Last year Balance sheet figures has been recasted accordingly.

DIRECTORS' REPORT

Your Directors present their Report together with the audited accounts of vCustomer Philippines, Inc. (vCPI) for the year ended March 31, 2022.

Financial Results (PHP):

For the years ended	**March 31, 2022**	March 31, 2021
Revenue	**410,277,483**	333,410,777
Profit	**27,352,039**	12,847,826

Review of Operations:

For the fiscal year ended March 31, 2022, vCPI reported revenue amounted to PHP 410,277,483, an increase of PHP 76,866,706 over the last reporting year ended March 31, 2021. Profit for the fiscal year ended March 31, 2022 amounted to PHP 27,352,039, 113% increase over the last reporting year.

Future Plans and Appropriations:

vCPI made a reversal of the Appropriated Retained Earnings of PHP 296,000,000 intended for the expansion projects due to the completion of the said projects. Additional appropriation of PHP 313,000,000 from its current retained earnings as at March 31, 2022 to be used by the Company for its expansion projects, office renovation and equipment upgrade in the year 2022 until 2024. vCPI is expecting engagement of additional account/clients and increase and employee headcount.

COVID-19

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

Acknowledgements:

Your Directors gratefully acknowledge the contributions made by the employees towards the success of the Company. Your Directors also thank the customers, suppliers, bankers, Government Authorities and the shareholder/s for the co-operation and assistance received from them.

REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Stockholders
vCustomer Philippines, Inc.
3rd Floor, eCommerce Plaza, Eastwood Cyberpark
Quezon City, Philippines

Report on the Audit of the Separate Financial Statements

Opinion

We have audited the separate financial statements of vCustomer Philippines, Inc., a wholly owned subsidiary of Tech Mahindra Limited, which comprise the separate statements of financial position as at March 31, 2022 and 2021, and the separate statements of comprehensive income, separate statements of changes in equity and separate statements of cash flows for the years ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying separate financial statements present fairly, in all material respects, the unconsolidated financial position of the Company as at March 31, 2022 and 2021, and its unconsolidated financial performance and its unconsolidated cash flows for the years ended, in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Separate Financial Statements section of our report. We are independent of the Company in accordance with Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the separate financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Separate Financial Statements

Management is responsible for the preparation and fair presentation of the separate financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of the separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these separate financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the

audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the separate financial statements, including the disclosures, and whether the separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on the Supplementary Information Required Under Revenue Regulations No. 15-2010 of the Bureau of Internal Revenue

Our audit was conducted for the purpose of forming an opinion on the basic separate financial statements taken as a whole. The supplementary information in Note 26 to the basic separate financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic separate financial statements. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in our audit of the basic separate financial statements. In our opinion, the information is fairly stated in all material respects in relation to the basic separate financial statements taken as a whole.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

1. Reporting Entity

vCustomer Philippines, Inc. (the "Company") was registered with the Securities and Exchange Commission (SEC) on February 24, 2010. The primary purpose of the Company is to carry on the business of providing services to customers in any part of the world through any and all medium of communication including internet and telephone including management services, solutions to business problems, web designing, customer relations, development/production of software and software systems, data warehousing, data mining, processing and analysis of software and software systems, consultancy and advisory services in software and software systems, without operating as a public utility; to carry on the business of data processing and analysis including assimilation, sorting, processing and communication of data and graphs, development of computer analysis, software development, data preparation and verification, data analysis, data transmission and computation through the computer or other devices encompassing digital, analog and graphic processes and any other information technology; to undertake merchandising and logistics activities in the areas of electronic commerce, as well as other forms of commerce and commercial transactions; and to undertake the operation and management of e-mail services centers, customer response centers, computer education and training centers for the foregoing operations, loyalty incentive and motivation programmes, direct marketing activities, database management, back office support and all internet and web related work.

The Company is a wholly-owned subsidiary of Tech Mahindra Limited (the "Ultimate Parent"), a corporation organized and existing under the laws of India. The Company's registered business address is at 3rd Floor, eCommerce Plaza, Eastwood Cyberpark, Quezon City, Philippines.

2. Basis of Preparation

Statement of Compliance

The separate financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs). PFRSs are based on International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB). PFRSs which are issued by the Philippine Financial Reporting Standards Council, consist of PFRSs, Philippine Accounting Standards, and Philippine Interpretations.

The Company also prepares and issues consolidated financial statements for the same reporting period as the separate financial statements presented in accordance with PFRSs. The consolidated financial statements may be obtained at the Company's registered address as disclosed in Note 1.

Basis of Measurement

The separate financial statements have been prepared on a historical cost basis of accounting except for retirement benefits obligation which is recognized at the present value of the defined benefit obligation.

Functional and Presentational Currency

These separate financial statements are presented in Philippine Peso, the currency of the primary economic environment in which the Company operates. All amounts are recorded in the nearest peso, except when otherwise indicated.

Authorization for the Issuance of the Consolidated Financial Statements

The separate financial statements were approved and authorized for issue by the Board of Directors (BOD) on May 13, 2022.

3. Adoption of Amendments to Standards and Interpretations

The Company has adopted the following amendments to standards starting April 1, 2021 and accordingly, changed its accounting policies. Except as otherwise indicated, the adoption of these new and amendments to standards did not have any significant impact on the Company's separate financial statements. These are as follows:

- COVID-19-Related Rent Concessions (Amendment to PFRS 16, Leases). The amendments introduce an optional practical expedient that simplifies how a lessee accounts for rent concessions that are a direct consequence of COVID-19. A lessee that applies the practical expedient is not required to assess whether eligible rent concessions are lease modifications, and accounts for them in accordance with other applicable guidance. The practical expedient applies if:

- the revised consideration is substantially the same or less than the original consideration;
- the reduction in lease payments relates to payments due on or before June 30, 2021; and,
- no other substantive changes have been made to the terms of the lease.

Lessees applying the practical expedient are required to disclose that fact, whether they have applied the practical expedient to all eligible rent concessions and, if not, the nature of the contracts to which they have applied the practical expedient; and the amount recognized in profit or loss for the reporting period arising from application of the practical expedient. No practical expedient is provided for lessors.

The amendment is effective for annual reporting periods beginning on or after June 1, 2020. Earlier application is permitted. A lessee applies the amendments retrospectively, recognizing the cumulative effect of the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate.

- COVID-19-Related Rent Concessions beyond 30 June 2021 (Amendment to PFRS 16, Leases). The amendment extends the practical expedient introduced in the 2020 amendment which simplified how a lessee accounts for rent concessions that are a direct consequence of COVID-19, permitting lessees to apply the practical expedient to rent concessions for which any reduction in lease payments affects only payments originally due on or before June 30, 2022.

The amendment is effective for annual reporting periods beginning on or after

April 1, 2021. Earlier application is permitted. A lessee applies the amendments retrospectively, recognizing the cumulative effect of the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate. The adoption is mandatory for lessees that chose to apply the practical expedient introduced by the 2020 amendments and may result in reversal of lease modifications that was ineligible for the practical expedient under the 2020 amendments but becomes eligible as a result of the extension.

Amendments Issued but Not Yet Adopted

A number of amendments to standards effective for annual periods beginning after April 1, 2021. However, the Company has not early adopted the following new or amended standards in preparing these separate financial statements. Unless otherwise stated, none of these are expected to have a significant impact on the Company's separate financial statements.

Effective January 1, 2022

- Property, Plant and Equipment - Proceeds before Intended Use (Amendments to PAS 16, Property, Plant and Equipment). The amendments prohibit an entity from deducting from the cost of an item of property, plant and equipment the proceeds from selling items produced before that asset is available for use. The proceeds before intended use should be recognized in profit or loss, together with the costs of producing those items which are identified and measured in accordance with PAS 2, Inventories.

  The amendments also clarify that testing whether an item of property, plant and equipment is functioning properly means assessing its technical and physical performance rather than assessing its financial performance.

  For the sale of items that are not part of a company's ordinary activities, the amendments require the company to disclose separately the sales proceeds and related production cost recognized in profit or loss and specify the line items in which such proceeds and costs are included in the statement of comprehensive income (loss). This disclosure is not required if such proceeds and cost are presented separately in the statement of comprehensive income (loss).

  The amendments are effective for annual reporting periods beginning on or after January 1, 2022. Earlier application is permitted. The amendments apply retrospectively, but only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the company first applies the amendments.

- Onerous Contracts - Cost of Fulfilling a Contract (Amendment to PAS 37 Provisions, Contingent Liabilities and Contingent Assets). The amendments clarify that the cost of fulfilling a contract when assessing whether a contract is onerous includes all costs that relate directly to a contract - i.e. it comprises both incremental costs and an allocation of other direct costs.

  The amendments are effective for annual reporting periods beginning on or after January 1, 2022 to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognized as an opening balance adjustment to retained earnings or other component of equity, as appropriate. The comparatives are not restated. Earlier application is permitted.

- Annual Improvements to PFRS Standards 2018-2020. This cycle of improvements contains amendments to four standards:
  - Fees in the ’10 per cent’ Test for Derecognition of Financial Liabilities (Amendment to PFRS 9, Financial Instruments). The amendment clarifies that for the purpose of performing the ’10 per cent’ test for derecognition of financial liabilities, the fees paid net of fees received included in the discounted cash flows include only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other’s behalf.
  - Lease Incentives (Amendment to Illustrative Examples accompanying PFRS 16). The amendment deletes from the Illustrative Example 13 the reimbursement relating to leasehold improvements to remove the potential for confusion because the example had not explained clearly enough the conclusion as to whether the reimbursement would meet the definition of a lease incentive in PFRS 16.

Effective January 1, 2023

- Classification of Liabilities as Current or Non-current (Amendments to PAS 1, Presentation of Financial Statements). To promote consistency in application and clarify the requirements on determining whether a liability is current or non-current, the amendments:
  - removed the requirement for a right to defer settlement of a liability for at least twelve months after the reporting period to be unconditional and instead requires that the right must have substance and exist at the end of the reporting period;
  - clarified that a right to defer settlement exists only if the company complies with conditions specified in the loan agreement at the end of the reporting period, even if the lender does not test compliance until a later date; and
  - clarified that settlement of a liability includes transferring a company’s own equity instruments to the counterparty, but conversion options that are classified as equity do not affect classification of the liability as current or non-current.

  The amendments apply retrospectively for annual reporting periods beginning on or after January 1, 2023. Earlier application is permitted.

  In November 2021, the International Accounting Standards Board issued the Exposure Draft, Non-Current Liabilities with Covenants, after considering stakeholder feedback on the December 2020 tentative agenda decision issued by the IFRS Interpretations Committee about the amendments. The exposure draft proposes to again amend IAS 1 as follows:

  - conditions which the entity must comply within twelve months after the reporting period will have no effect on the classification as current or non-current.
  - additional disclosure requirements will apply to non-current liabilities subject to such conditions to enable the assessment of the risk that the liability could become repayable within twelve months.
  - separate presentation in the statement of financial position will be required for non-current liabilities for which the right to defer settlement is subject to conditions within 12 months after the reporting period.

  The effective date of the amendments will be deferred to no earlier than January 1, 2024. Comments on the Exposure Draft is due on March 21, 2022.

- Definition of Accounting Estimates (Amendments to PAS 8, Accounting Policies, Changes in Accounting Estimates and Errors). To clarify the distinction between changes in accounting policies and changes in accounting estimates, the amendments introduce a new definition for accounting estimates, clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty. The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that an accounting estimate is developed to achieve the objective set out by an accounting policy. Developing an accounting estimate includes both selecting a measurement technique and choosing the inputs to be used when applying the chosen measurement technique. The effects of changes in such inputs or measurement techniques are changes in accounting estimates. The definition of accounting policies remain unchanged. The amendments also provide examples on the application of the new definition. The amendments are effective for annual reporting periods beginning on or after January 1, 2023, with earlier application permitted, and will apply prospectively to changes in accounting estimates and changes in accounting policies occurring on or after the beginning of the first annual reporting period in which the amendments are applied.

- Disclosure of Accounting Policies (Amendments to PAS 1, Presentation of Financial Statements and PFRS Practice Statement 2, Making Materiality Judgements). The amendments are intended to help companies provide useful accounting policy disclosures. The key amendments to PAS 1 include:
    - requiring companies to disclose their material accounting policies rather than their significant accounting policies;
    - clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and
    - clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.

  The amendments to PFRS Practice Statement 2 includes guidance and additional examples on the application of materiality to accounting policy disclosures. The amendments are effective from January 1, 2023. Earlier application is permitted.

- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to PAS 12, Income Taxes). The amendments clarify that that the initial recognition exemption does not apply to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning obligations.

  The amendments apply for annual reporting periods beginning on or after January1, 2023. Earlier application is permitted.

  For leases and decommissioning liabilities, the associated deferred tax assets and liabilities will be recognized from the beginning of the earliest comparative period presented, with any cumulative effect recognized as an adjustment to retained earnings or other appropriate component of equity at that date. For all other transactions, the amendments apply to transactions that occur after the beginning of the earliest period presented.

4. Significant Accounting Policies and Disclosures

The significant accounting policies and practices applied in the preparation of these separate financial statements are set forth to facilitate the understanding of data presented in the separate financial statements. These policies have been consistently applied to all years presented, unless otherwise stated.

Current versus Noncurrent Classification

The Company presents assets and liabilities in the statements of financial position based on current or noncurrent classification.

An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve (12) months after the financial reporting period;
- Expected to be settled on demand; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve (12) months after the financial reporting period.

All other assets are classified as noncurrent. Deferred tax assets are classified as noncurrent assets.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve (12) months after the financial reporting period;
- It is expected to be settled in demand; or
- There is no unconditional right to defer the settlement of the liability for at least twelve (12) months after the financial reporting period.

All other liabilities are classified as noncurrent. Deferred tax liabilities are classified as noncurrent liabilities.

Financial Instruments

Financial Assets

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the rights to receive cash flows from the financial assets expire, or if the Company transfers the financial asset to another party and does not retain control or substantially all risks and rewards of the asset. Purchases and sales of financial assets in the normal course of business are accounted for at settlement date (i.e., the date that the asset is delivered to or by the Company). At initial recognition, the Company measures its financial assets at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset.

Financial instruments are recognized initially at fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those designated as fair value through profit or loss, includes transaction costs.

After initial recognition, the Company classifies its financial assets as subsequently measured at either i) amortized cost, ii) fair value through other comprehensive income or iii) fair value through profit or loss on the basis of both:

The Company's business model for managing the financial assets.

The contractual cash flow characteristics of the financial asset.

Subsequent to initial recognition, financial assets are measured as described below.

At each balance sheet date, the Company assesses whether there is objective evidence that a financial asset or a group of financial assets is impaired and recognizes a loss allowance for expected credit losses for financial assets measured at either amortized costs or at fair value through other comprehensive income. If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 months of expected credit losses.

If, at the reporting date, the credit risk on a financial instrument has increased significantly since initial recognition, the Company measures the loss allowance for the financial instrument at an amount equal to the lifetime expected credit losses. The Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Financial Assets at Amortized Cost

Financial assets are measured at amortized cost if both i) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset measured at amortized cost is initially recognized at fair value plus transaction cost directly attributable to the asset. After initial recognition, the carrying amount of the financial asset measured at amortized cost is determined using the effective interest method, less any impairment losses.

Financial assets at amortized cost are classified as current assets when the Company expects to realize the asset within 12 months from reporting date. Otherwise, these are classified as noncurrent assets.

Cash and cash equivalents, trade receivables and refundable deposits are generally included in this category.

Cash includes cash on hand, cash in banks and cash equivalents.

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. The Company classifies an investment as cash equivalent if that investment has a maturity of three months or less from the date of acquisition.

Financial Liabilities

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of a financial instrument. Financial liabilities are derecognized when the Company's obligations specified in the contract expire or are discharged or cancelled.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Company generally classifies all financial liabilities as subsequently measured at amortized cost.

Financial liabilities are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Trade and other payables and lease liabilities are generally included in this category.

Prepayments and Other Current Assets

Prepayments represent expenses not yet incurred but already paid in cash. Prepayments are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to profit or loss as they are consumed in operations or expire with the passage of time.

Other current assets pertain to resources controlled by the Company as a result of past events and from which future economic benefits are expected to flow to the Company.

Prepayments and other current assets are classified in the separate statements of financial position as current asset when the cost of services related to the prepayments and other current assets are expected to be incurred within one year or the Company's normal operating cycle, whichever is longer. Otherwise, prepayments are classified as noncurrent assets.

Investments in Subsidiary

A subsidiary is an entity, including an unincorporated entity such as a partnership that is controlled by the Company.

Investments in subsidiaries are measured initially at cost. Subsequent to initial recognition, investment in subsidiaries are carried in the Company's separate financial statements at cost less any accumulated impairment losses.

The Company's accounting policy for impairment of financial assets are applied to determine whether it is necessary to recognize any impairment loss with respect to its investment in subsidiary When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with the Company's accounting policy on impairment of tangible and intangible assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount, any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

The investments in subsidiaries are derecognized upon disposal or when no future economic benefits are expected to arise from the investment. Gain or loss arising on the disposal is determined as the difference between the sales proceeds and the carrying amount of the investment in subsidiary and is recognized in profit or loss.

Property and Equipment

Property and equipment are initially measured at cost. The cost of an item of property and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and
- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by Management.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

At the end of each reporting period, items of property and equipment are measured at cost less any subsequent accumulated depreciation and impairment losses.

Subsequent expenditures relating to an item of property and equipment that have already been recognized are added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditures are recognized as expenses in the period in which those are incurred.

Depreciation is computed on the straight-line method based on the estimated useful lives of the assets as follows:

	Number of Years
Office equipment	5
Communication equipment	3
Furniture and fixtures	3
Leasehold improvements	3 or lease term, whichever is shorter

Leasehold improvements are amortized over the improvements' useful life of three years or when shorter, the term of the relevant lease.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the profit or loss.

At the end of each reporting period, the Company assesses whether there is any indication that any of its property and equipment is impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. An impairment loss is recognized as an expense.

Impairment losses recognized in prior periods are assessed at the end of each reporting period for any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

Intangible Assets

Intangible Assets Acquired Separately

Intangible assets are initially measured at cost. Subsequent to initial recognition, intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over the estimated useful lives. The estimated useful life and the amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

The Company's intangible assets are amortized over a 5-year useful life.

Share Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of tax.

Retained Earnings

Retained earnings and deficit represent accumulated profits and losses earned and incurred by the Company. Retained earnings and deficit may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Provisions and Contingencies

Provisions are recognized when the Company has a present obligation, either legal or constructive, as a result of a past event, it is probable that the Company will be required to settle the obligation through an outflow of resources embodying economic benefits, and the amount of the obligation can be estimated reliably.

The amount of the provision recognized is the best estimate of the consideration required to settle the present obligation at the end of each reporting period, taking into account the risks and uncertainties surrounding the obligation. A provision is measured using the cash flows estimated to settle the present obligation. Its carrying amount is the present value of those cash flows.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

Employee Benefits

Short-Term Benefits

The Company recognizes a liability, net of amounts already paid, and an expense for services rendered by employees during the accounting period. A liability is also recognized for the amount expected to be paid under short-term cash bonus or profit sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

Post-Employment Benefits

Defined Benefit Plan

The Company classifies its retirement benefit as defined benefit plans. Under the defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), are reflected immediately in the separate statements of financial position with a charge or credit recognized in other comprehensive income (OCI) in the period in which they occur. Remeasurement recognized in OCI is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefits liability or asset. Defined benefits costs are categorized as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- Net interest expense or income; and
- Remeasurements.

The Company presents the first two components of defined benefits costs in profit or loss in the line item retirement benefits costs. Curtailment gains and losses are accounted for as past service costs.

The retirement benefits obligation recognized in the separate statements of financial position represents the actual deficit in the Company's defined benefit plans.

Compensated Leave Credits

The Company's net obligation in respect of accumulated leaves is the amount of future benefit that employees have earned in return for their services in the current and prior periods. This benefit is discounted to determine its present value. Remeasurements are recognized in profit or loss in the period in which they arise.

Revenue Recognition

The Company identifies each distinct performance obligation to transfer services. The Company recognizes revenue when (or as) it satisfies a performance obligation by transferring the control of services to the customer. The transaction price is the amount of consideration the Company expects to receive under the arrangement. The Company concluded that it is acting as principal for its revenue arrangement.

Sale of Services

The Company provides services assistance to its Parent Company in the ordinary course of business. Such services are recognized as a performance obligation satisfied over time.

Expense Recognition

Expenses are decreases in economic benefits during the accounting period in the form of outflows or decrease of assets or increase of liabilities that result in decrease in equity, other than those relating to distributions to equity participants.

Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

As a Lessee

The Company recognizes a right-of-use assets and a lease liabilities at the lease commencement date. The right-of-use assets are initially measured at cost, which comprises the initial amount of the lease liabilities adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of costs to dismantle and remove or restore the underlying asset or the site on which it is located, less any incentives received.

The right-of-use assets are subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use assets or the end of lease term. The estimated useful lives of the right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use assets are periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liabilities.

The lease liabilities are initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rates as the discount rate.

Lease payments included in the measurement of the lease liabilities comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liabilities are measured at amortized cost using the effective interest method. This are remeasured if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment. When the lease liabilities are remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use assets or is recorded in profit or loss if the carrying amount of the right-of-use assets has been reduced to zero.

The ROU assets and lease liabilities are presented in the separate statements of financial position separately from other assets and liabilities, respectively.

Foreign Currency

Transactions in currencies other than Philippine peso are recorded at the rates of exchange prevailing on the dates of the transactions. At the end of each reporting period, monetary assets and liabilities that are denominated In foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Gains and losses arising on retranslation are included in profit or loss for the year.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are not retranslated.

Related Party Transactions

A related party transaction is a transfer of resources, services or obligations between the Company and a related party, regardless of whether a price is charged.

Related party relationship exists when one party has the ability to control, directly or indirectly, through one or more intermediaries, the other party or exercise significant influence over the other party in making the financial and operating decisions. Such relationship also exists between and/or among entities under common control with the reporting enterprises and their key management personnel, directors, or its stockholders. Related parties may be individuals or corporate entities. In considering each possible related party relationships, attention is directed to the substance of the relationship, and not merely the legal form.

Income Taxes

Income tax expense recognized in the separate statement of comprehensive income of the Company represents the current tax expense and deferred tax expense.

Under the Company's registration with the PEZA pursuant to the provisions of R.A. No. 7916, The Special Economic Zone Act of 1995, the Company is subject to 5% final tax on gross income from PEZA-registered activities in lieu of payment of national and local taxes.

Uncertainties related to taxes that are not income taxes are recognized and measured in accordance with PAS 37 unless they are dealt with specifically in another standard.

If there is uncertainty about an income tax treatment, then the Company considers whether it is probable that a tax authority will accept the Company's tax treatment included in its tax filing. The underlying assumption in the assessment is that a tax authority will examine all amounts reported and will have full knowledge of all relevant information.

Current Tax

The current tax expense is based on taxable profit for the year. Taxable profit differs from net profit as reported in the separate statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using 5% of gross income earned from registered activities. For income other than its registered activities, tax rate is based on the applicable regular income tax rate of the Bureau of Internal Revenue. Income is tax exempt when the activities are included under income tax holiday.

Deferred Tax

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences, while deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Events After the Reporting Period

The Company identifies events after the end of each reporting period as those events, both favorable and unfavorable, that occur between the end of the reporting period and the date when the separate financial statements are authorized for issue. The separate financial statements of the Company are adjusted to reflect those events that provide evidence of conditions that existed at the end of the reporting period. Non-adjusting events after the end of the reporting period are disclosed in the notes to the separate financial statements when material.

5. Critical Accounting Judgements and Key Sources of Estimation Uncertainty

In the application of the Company's accounting policies, Management is required to make judgments, estimates and assumptions about the carrying amounts of assets that are not readily apparent from other sources. The estimates and associated assumptions are based on the historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgments in Applying Accounting Policies

The following are the critical judgments, apart from those involving estimations, that Management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the separate financial statements.

Functional Currency

Based on the economic substance of the underlying circumstances relevant to the Company, the functional currency of the Company has determined to be the Philippine Peso.

The Philippine Peso is the currency of the primary economic environment in which the Company operates. It is the currency that mainly influences the Company's cost of operation, and in effect, its revenue.

Determination of the Term and Discount Rate of Lease Arrangements

Where the Company is the lessee, management is required to make judgments about whether an arrangement contains a lease, the lease term and the appropriate discount rate to calculate the present value of the lease payments.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases entered into by the Company as lessee, management uses the incremental borrowing rate, being the rate that the Company would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company uses an approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company and makes adjustments specific to the lease.

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if it is reasonably certain that the lease will be extended (or not terminated) and, as such, included within lease liabilities.

The Company normally considers in the assessment whether there are significant penalties to terminate, significant remaining value of leasehold improvements and historical lease durations, the costs and business disruption for replacing the leased asset, enforceability of the option, and business and other developments.

The lease term is reassessed if an option is actually exercised (or not exercised) or the Company becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and is within the lessee's control.

Key Sources of Estimation Uncertainties

The key estimates concerning the future and other key sources of estimation uncertainty as at end of reporting period that have the most significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

Impairment of Property and Equipment

The Company assesses at the end of each reporting period whether there is any indication that its property and equipment is impaired. The factors that the Company considers important which could trigger an impairment review include the following:

- significant underperformance relative to the expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

Management assessed that there are no indicators of impairment affecting the noncurrent financial assets as at March 31, 2022 and 2021.

As at March 31, 2022 and 2021, the carrying amount of property and equipment amounted to P35,915,641 and P19,103,414, respectively (see Note 9).

Estimating of Retirement Benefits Cost

The present value of the retirement benefits obligation depends on a number of assumptions that are determined on an actuarial basis. The assumptions used in determining the net cost (income) for retirement benefits include the discount rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the retirement benefits liability. Other key assumptions include future salary, mortality and attrition. Additional information is disclosed in Note 19.

Retirement benefits obligation amounted to P24,595,901 and P21,025,701 as at March 31, 2022 and 2021, respectively (see Note 19).

Provisions and Contingencies

The recognition of provisions on claims requires estimates and judgment regarding the timing and the amount of outflow of resources. Management's assessment supported by internal and external legal counsel, where appropriate, determines whether it is probable that an outflow of resources will be required to settle an obligation. If this is the case, the best estimate of the outflow of resources is recognized.

6. Cash and Cash Equivalents

This account consists of:

	Note	2022	2021
Cash on hand		**P50,000**	P50,000
Cash in banks		**12,187,422**	12,887,878
Time deposits		**275,313,085**	286,932,000
	22, 23	**P287,550,507**	P299,869,878

Interest income on cash in banks and time deposits amounted to P181,107 in 2022 and P224,928 in 2021.

7. Trade and Other Receivables

This account consists of:

	Note	2022	2021
Trade receivables	14, 22, 23	**P73,704,673**	P30,921,753
Advances to employees		**746,315**	446,315
Other receivable	14, 18, 22, 23	**-**	5,761,596
		P74,450,988	P37,129,664

Trade receivables have an average credit terms of 60 days.

8. Prepayments and Other Current Assets

This account consists of:

	2022	2021
Prepaid insurance	**P5,350,559**	P3,034,850
Prepaid management services	**601,401**	2,405,605
Others	**204,198**	1,381,941
	P6,156,158	P6,822,396

Prepaid insurance pertains to the unamortized payments for the Health Maintenance Organization (HMO) coverage of the Company's employees.

Prepaid management services pertain to the payments made in advance by the Parent Company to Cloudwave for services such as recording of calls, media storage, multimedia work routing, etc. As at March 31, 2022 and 2021, the noncurrent portion amounting to P128,569 and P400,934 respectively is presented under "Other noncurrent assets" account in the separate statements of financial position.

Others include payment for the Company' s advance payment for job postings, services and support services subscriptions of the Company.

9. Property and Equipment

The movements in this account are as follows:

2022	**Leasehold Improvements**	**Office Equipment**	**Communication Equipment**	**Furniture and Fixtures**	**Total**
Cost					
Balance at the beginning of year	**P25,349,300**	**P43,005,019**	**P63,296,725**	**P6,044,092**	**P137,695,136**
Additions	**-**	**28,646,439**	**2,436,969**	**-**	**31,083,408**
Disposals	**-**	**-**	**-**	**(219,203)**	**(219,203)**
Balance at end of year	**P25,349,300**	**P71,651,458**	**P65,733,694**	**P5,824,889**	**P168,559,341**

Balance at the end of year	25,014,307	40,425,930	47,352,330	5,799,155	118,591,722
Net Carrying Value	P334,993	P2,579,089	P15,944,395	P244,937	P19,103,414

The non-cash investing activity of the Company pertains to the computer equipment purchased by the Company from Techmahindra Limited which is still outstanding as of March 31, 2022 (see Note 14). 2,762,102

Depreciation are allocated as follows:

	Note	**2022**	2021
Cost of services	16	**P6,101,847**	P4,657,095
Operating expenses	17	**8,169,334**	6,368,454
		P14,271,181	P11,025,549

10. Investment in Subsidiary

This account represents investment in vCustomer Philippines (Cebu), Inc. (the Subsidiary), a wholly-owned subsidiary incorporated and domiciled in the Philippines, which is engaged in the same business as the Company. Its principal place of business is located at 90 General Maxilom Avenue, Cebu City, Philippines.

11. Intangible Assets

Intangible assets pertain to capitalized computer software. The movements in this account are as follows:

	Note	**2022**	2021
Cost			
Balance at beginning of year		**P6,965,470**	P1,802,970
Additions during the year		**2,046,365**	5,162,500
Balance at end of year		**9,011,835**	6,965,470
Accumulated amortization			
Balance at beginning of year		**1,802,970**	1,795,192
Amortization during the year	17	**2,175,581**	7,778
Balance at end of year		**3,978,551**	1,802,970
Net carrying value		**P5,033,284**	P5,162,500

12. Refundable Deposits

This account consists of:

	Note	**2022**	2021
Current		**P118,000**	P568,000
Noncurrent	14	**11,847,201**	6,085,605
	18, 22, 23	**P11,965,201**	P6,653,605

These deposits are refundable upon termination of the contracts or cessation of related rental service.

13. Trade and Other Payables

This account consists of:

	Note	**2021**	2020
Trade payables	14, 22, 23	**P1,345,007**	P865,582
Salaries payable	22, 23	**16,318,966**	11,624,011
Accrued expenses	22, 23	**6,172,857**	5,280,704
Payable to government agencies		**3,175,253**	1,743,262
Withholding taxes payable		**1,895,482**	1,158,274
Intercompany payable	14, 22, 23	**2,762,102**	-
		P31,669,667	P20,671,833

Trade payables are normally on a 30-to-90-day credit terms.

The Company derecognized portion of salaries payable relating to long-outstanding unclaimed last pay of separated employees which the legal right to claim prescribed amounting to P994,088 in 2022 and P963,437 in 2021. These are presented as “Others” under “Other income (charges)” in the statements of comprehensive income.

Payable to government agencies pertain to employee payroll premium contributions due to government agencies (i.e. Social Security Services (SSS), Philippine Health Insurance Corporation (Philhealth) and Home Development Mutual Fund (HDMF))

Accrued expenses consist of electricity, legal fees, security services, consultancy, outside services, provision for leave encashment, etc., which are individually insignificant.

14. Related Party Transactions

The summary of the Company’s outstanding balances and transactions with related parties as at and for the years ended March 31, 2022 and 2021 are as follows:

			Outstanding Balance			
Category		**Note**	**Amount**	**Trade and Other Receivables (Payables**	**Terms**	**Conditions/ Commitments**
Ultimate Parent						
Service revenue	**2022**	a, 7	P410,277,483	P73,704,673	60 days; noninterest bearing	Unsecured; to be settled in cash; no impairment
	2021	a, 7	333,410,777	30,921,753		
Purchases	**2022**	b, 13	2,762,102	(2,762,102)	10 days; noninterest bearing	Unsecured; to be settled in cash;
Affiliate	2021	c,12	5,761,596	5,761,596	On demand	Unsecured; no impairment; no commitments
Refundable deposits	**2022**			P70,942,571		
	2021			P36,683,349		

a. The Company entered into a Service Agreement with vCustomer Services LLC (vSLLC), a Company incorporated under the laws of the United States of America (USA), an affiliate, for an indefinite period unless mutually terminated, to provide web-based support (chat, email, fax); telephony support (voice); directory assistance; eCRM database management, eCRM database mining; web-based self-help solutions; remote website administration; remote back office support; remote system administration and technical help desk services in the United States through contact center representatives and such other functions as may be required in relation to the performance of its support function.

In consideration thereof, the Company bills vSLLC ten percent (10%) mark-up rate on all costs (cost and operating expenses) incurred by the Company in providing the services. Contract receivables are billed by the Company in US dollars on a periodical basis and are settled in the same currency. vSLLC was merged with Tech Mahindra (Americas), Inc., a subsidiary of Tech Mahindra Limited (TML), on February 2, 2015. Accordingly, billings were made to TML subsequently as a result of the merger.

b. The Company purchased computer equipment from Techmahindra Limited on September 29, 2021. The full amount is outstanding as of period-end.

c. The Company has a refundable deposit amounting to P5,761,596 related to the additional office space at Ecommerce Building which was cancelled on March 31, 2019. As at March 31, 2020, such refundable deposit is recognized as part of "Refundable deposits - net of current portion" in the separate statements of financial position (see Note 12). As at March 31, 2021, the refundable deposit was transferred to Tech Mahindra Philippines, an affiliate, which subsequently occupied the additional office space (see Note 18).

d. Compensation of key management personnel for the years ended March 31, 2022 and 2021 is as follows:

	2022	2021
Salaries	**P36,406,109**	P32,846,154
Other employee benefits	**11,542,431**	12,070,703
Allowances	**679,000**	630,000
Retirement benefits cost	**3,947,735**	4,836,715
	P52,575,275	P50,383,572

Other employee benefits include 13th month pay, performance bonus, leave encashment and other short-term benefits.

All related party balances are to be settled in cash.

15. Equity

Components of share capital are as follows:

	2022	2021
Authorized 1,000,000, issued, fully paid and outstanding: 950,000 ordinary shares - Php10 par value	**P9,500,000**	P9,500,000

On March 31, 2022, the BOD approved an additional appropriation of P322,000,000 from the current retained earnings as at March 31, 2022 for business expansion projects from 2022 until 2025. Also, on the same date, the BOD approved the reversal of the P296,000,000 appropriation in 2021.

On March 31, 2021, the BOD approved an additional appropriation of P296,000,000 from the current retained earnings as at March 31, 2021 for business expansion projects from 2021 until 2024. Also, on the same date, the BOD approved the reversal of the P285,000,000 appropriation in 2020.

Retained Earnings

In accordance with Section 43 of the Corporation Code of the Philippines (the "Code"), stock corporations are prohibited from retaining surplus profits in excess of one hundred percent (100%) of their paid-in capital, except:

- When justified by definite corporate expansion projects or programs approved by the BOD; or
- When the Corporation is prohibited under any loan agreement with any financial institution or creditor, whether local or foreign, from declaring dividends without its consent, and such consent has not yet been secured; or
- When it can be clearly shown that such retention is necessary under special circumstances, such as when there is a need for reserve for probable contingencies.

16. Cost of Services

This account consists of:

18. Lease Agreements as a Lessee

3rd Floor, Ecommerce Plaza Building

On June 12, 2008, vCustomer Services India Pvt. Ltd. ("vCustomer India") entered into a lease agreement for office space located at 3rd Floor, eCommerce Plaza Building Eastwood City Cyberpark, 188 E. Rodriguez Jr. Avenue, Bagumbayan Quezon City. The lease term is 5 years from September 10, 2008 to September 10, 2013 with a free fitting out period of 3 months and an option to renew for an additional 2 lease terms of 5 years each.

Effective April 1, 2010 the vCustomer India subsequently assigned its rights and interest on the lease to the Company.

In 2013, the Company renewed the lease for 5 years from September 10, 2013 to September 9, 2018 and renewed it further in 2018 for another five years from September 10, 2018 to September 9, 2023.

2nd Floor, Ecommerce Plaza Building

On September 15, 2018, the Company entered into a lease agreement for an additional office space. The lease term is for 5 years from September 16, 2018 to November 15, 2023.

The Company and the lessor mutually agreed to cancel this lease effective March 31, 2019. As a result, the Company derecognized the carrying amount of the leasehold improvements. Also, the Company derecognized the related obligation to the lessor amounting to P5,000,000, which represents the cost of leasehold improvements that the Company would pay the lessor under the lease agreement. As at March 31, 2021, refundable deposits from the lease agreement amounted to P5,761,596 (see Note 12.). As at March 31, 2021, this refundable deposits was transferred to Tech Mahindra Philippines which subsequently occupied the additional office space (see Notes 7 and 14).

On July 1, 2021, Tech Mahindra Philippines re-assigned its rights, interests and obligations on the lease office space to the Company. As at March 31, 2022, refundable deposits amounting to P5,761,596 was reclassified by the Company from "Trade and other receivables" to "Refundable deposits - non of current portion" account in the statements of financial position (see Note 12).

The details of right-of-use of assets and lease liabilities for these leases as shown below:

I. Right-of-Use Assets

The movements as at March 31, 2022 and 2021 are as follows:

	Note	**2022**	2021
Cost at beginning of the year		**47,485,530**	P66,935,249
Additions		**47,513,456**	-
Amortization for the year	16, 17	**(35,222,017)**	(19,449,719)
Net carrying value		**P59,776,969**	P47,485,530

Amortization is allocated as follows:

	Note	**2022**	2021
Cost of services	16	**P15,140,078**	P9,226,057
Operating expenses	17	**20,081,939**	10,223,662
		P35,222,017	P19,449,719

II. Lease Liabilities

The movements in lease liabilities as at March 31, 2022 and 2021 are as follows:

	2022	2021
Balance at the beginning	**P54,822,339**	P73,378,752
Additions	**47,513,456**	-
Accretion of interest expense	**3,613,349**	3,333,225
Repayments	**(38,752,165)**	(21,889,638)
Net carrying value	**67,196,979**	54,822,339
Current portion	**43,864,177**	19,497,979
Noncurrent portion	**P23,332,802**	P35,324,360

III. Amount to be Recognized in Profit or Loss

Amounts recognized in separate statements of comprehensive income are as follows:

	Note	**2022**	2021
Amortization on right-of-use of assets	16, 17	**35,222,017**	P19,449,719
Interest expense on lease liabilities	16, 17	**3,613,349**	3,333,225
Rent expense relating to short-term leases	17	**169,656**	180,000

IV. Future Minimum Lease Payments

	2022	2021
Maturity Analysis - Contractual Undiscounted Cash Flows		
Not more than 1 year	**P46,260,756**	P22,631,482
More than 1 year but less than 5 years	**23,688,554**	35,934,378
Total undiscounted lease liabilities	**P69,949,310**	P58,565,860

The Company also entered into lease agreements for residential condominium units to be used by its visitors. The lease term is 1 year, which is renewable upon mutual agreement and consent of both parties. The recognition exemption for right-of-use asset and lease liability is applied on these short-term leases.

There are no significant restrictions imposed by lease arrangements, such as those concerning dividends, additional debt and further leasing.

19. Retirement Benefits

The Company does not have an established retirement plan as at March 31, 2022 and 2021 but it recognizes retirement benefits costs in accordance with the minimum regulatory benefit under Republic Act No. 7641 which is a defined benefit type. Retirement benefits are based on employees' years of service and compensation levels during employment period. Actuarial valuations are made with sufficient regularity. The most recent actuarial valuation which was made for the year ended March 31, 2022. The principal actuarial assumptions used to determine retirement benefits were as follows:

Regulatory Framework in which the Retirement Plan Operates

In accordance with the provisions of the RA 7641, the Company is required to pay eligible employees at least minimum regulatory benefit upon normal retirement, subject to age and service requirements.

Responsibilities of Trustee

Since the Company does not have a formal, trusteed Retirement Plan, there are no Trustees yet.

Description of Plan Characteristics and Associated Risks

The calculations were based on the provisions of the minimum mandated benefit under RA 7641. However, it should be noted that in the event a benefit claim arises, the benefit shall immediately be due and payable from the Company.

Amounts Recognized in the Separate Financial Statements

The principal assumptions used for the purposes of the actuarial valuations were as follows:

	2022	2021
Discount rate	**5.75%**	4.50%
Salary increase rate	**6.00%**	6.00%

Maturity Profile of Expected Future Benefit Payments

The Company's expected future benefit payments is shown below:

	2022	2021
Beyond one year not later than 5 years	**P7,997,800**	P4,692,800
Beyond 5 years (6 to 10 years)	**11,211,500**	5,488,500

The movement of the present value of defined benefit obligation (DBO) follows:

	2022	2021
Balance at beginning of year	**P21,025,701**	P15,830,149
Current service cost	**6,684,600**	8,612,432
Interest cost	**936,400**	784,234
Benefits paid	**(636,000)**	(1,950,188)
Remeasurement gain	**(3,414,800)**	(2,250,926)
Balance at the end of year	**24,595,901**	P21,025,701

The accrued retirement benefits costs recognized in the statements of financial position as at March 31, 2022 and 2021 were determined as follows:

	2022	2021
Present value of defined benefit obligation (DBO)	**P24,595,901**	P21,025,701

The retirement benefits costs are broken down as follows:

	2022	2021
Current service cost	**P6,684,600**	P8,612,432
Interest cost	**936,400**	784,234
	P7,621,000	P9,396,666

The retirement benefits cost as part of "Cost of services" and "Operating expenses" in the separate statement of comprehensive income for the years ended March 31, 2022 and 2021 were determined follows:

	Note	**2022**	2021
Cost of services	16	**P2,932,305**	P3,485,247
Operating expenses	17	**4,688,695**	5,911,419
		P7,621,000	P9,396,666

The movement of the cumulative remeasurement gain is presented in the separate statements of changes in equity follows:

	2022	2021
Balance at beginning of year	**P23,521,024**	P21,270,098
Actuarial (loss) gain:		
Due to liability assumption changes	**5,316,200**	(1,703,400)
Due to liability experience	**(1,901,400)**	3,954,326
	3,414,800	2,250,926
	26,935,824	P23,521,024

The movement of the retirement benefits obligation recognized in the separate statements of financial position is as follows:

	Note	2022	2021
Balance at beginning of year		**P21,025,701**	P15,830,149
Retirement benefits cost	16, 17	**7,621,000**	9,396,666
Remeasurement gain		**(3,414,800)**	(2,250,926)
Benefits paid		**(636,000)**	(1,950,188)
		24,595,901	P21,025,701

Amount, Timing and Uncertainty of Future Cash Flows

Sensitivity analysis on defined benefits obligation follows:

2022		**Sensitivity Analysis**	**Effect on DBO**
Discount rate	**6.75%**	**1.00% increase**	**(13.90%)**
Discount rate	**4.75%**	**1.00% decrease**	**16.86%**
Salary increase rate	**7.00%**	**1.00% increase**	**18.46%**
Salary increase rater	**5.00%**	**1.00% decrease**	**(15.35%)**

2021		Sensitivity Analysis	Effect on DBO
Discount rate	5.50%	1.00% increase	(15.42%)
Discount rate	3.50%	1.00% decrease	18.94%
Salary increase rate	7.00%	1.00% increase	18.46%
Salary increase rater	5.00%	1.00% decrease	(15.35%)

Methods and Assumptions used in Sensitivity Analysis

All other assumptions were kept constant in determining the sensitivity results above.

Changes Since Previous Period

There were no changes in the methods and assumptions used in preparing the sensitivity analysis.

Description of Asset-Liability Matching Strategies

Since the DBO is still unfunded, there are no plan assets to match against the DBO.

Description of Funding Arrangements and Policies

Since the DBO is still unfunded, benefit claims under the DBO are paid directly by the Company when they become due.

Duration of Retirement Benefits Obligation

The average duration of the retirement benefits obligation is 15.99 years.

20. Income Taxes

Components of provision for income taxes charged to profit or loss are as follows:

	2022	2021
Current tax	**P8,532,450**	P9,236,843
Deferred tax	**(495)**	(23,091)
	P8,531,955	P9,213,752

The reconciliation of the income tax expense computed at the statutory income tax rate to the actual provision for income taxes as shown in the statements of comprehensive income for the years ended March 31 is as follows:

	2022	2021
Income before income tax	**P35,833,994**	P22,061,578
Less other income subject to RCIT	**(994,088)**	(963,437)
Income subject to GIT	**P34,889,906**	P21,098,141
Tax expense at 5%	**P1,744,495**	P1,054,907
Non-deductible expense	**6,547,993**	7,881,060
Income tax expense at RCIT*	**248,522**	289,031
Interest Income	**(9,055)**	(11,246)
	P8,531,955	P9,213,752

The tax rate used for the 2022 and 2021 reconciliation above is the 5% special rate whose tax base is the gross income under the PEZA registered activities. Any income earned outside the PEZA registered activities are subject to Regular Corporate Income Tax (RCIT).

Registration with Philippine Economic Zone Authority (PEZA)

On March 29, 2010, the Company was registered with Philippine Economic Zone Authority (PEZA) as an Ecozone IT enterprise. The Company is entitled to incentives granted to non-pioneer projects under Republic Act (RA) 7916, the Special Economic Zone Act of 1995, as amended, and the PEZA IT Guidelines, which include a 4-year corporate Income Tax Holiday (ITH) for the original project in the eCommerce Plaza Building effective from the date of start of commercial operations. After the lapse of ITH, the Company is subject to a 5% Gross Income Tax (5% GIT) incentive, in lieu of all national and local taxes.

On December 28, 2011, the PEZA approved the Company's application for the ITH extension based on Net Foreign Exchange Earnings (NFEE) criterion in accordance with EPZA (now PEZA) General Circular No. 94-001 and Rule XV, Section 6, Paragraph A (6) of the PEZA Rules. The ITH extension covered the period of November 1, 2012 to October 31, 2013.

Starting November 1, 2013, the Company is subject to the 5% GIT incentive.

Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act.

CREATE is an act reforming the corporate income tax and incentives system, amending for the purpose certain sections of Internal Revenue Code of 1997, as amended, and creating therein new title XIII, and for other purposes.

On March 26, 2021, the President of the Philippines has approved the CREATE Act, with nine (9) provisions vetoed by the President. Below are the salient features of the Act that are relevant to the Company:

a) Corporate income tax rate is reduced from 30% to 20% for domestic corporations with net taxable income not exceeding P5 million and with total assets not exceeding P100 million. All other domestic corporations and resident foreign corporations will be subject to 25% income tax. Said reductions are effective July 1, 2020.

b) Minimum corporate income tax (MCIT) rate is reduced from 2% to 1% effective July 1, 2020 to June 30, 2023.

c) The imposition of improperly accumulated earnings tax has been repealed.

d) Definition of reorganization for purposes of applying the tax-free exchange provision under Section 40(C)(2) is expanded. Prior BIR ruling or confirmation shall not be required for purposes of availing the tax exemption of the exchange.

e) Qualified export enterprises shall be entitled to 4 to 7 years income tax holiday (ITH) to be followed by 10 years 5% SCIT OR Enhanced Deductions (ED).

f) Qualified domestic market enterprises shall be entitled to 4 to 7 years ITH to be followed by 5 years ED.

g) Registered enterprises are exempt from customs duty on importation of capital equipment, raw materials, spare parts, or accessories directly and exclusively used in the registered project or activity.

h) VAT exemption on importation and VAT zero-rating on local purchases shall only apply to goods and services directly and exclusively used in the registered project or activity by a registered business enterprise (RBE).

i) For investments prior to effectivity of CREATE: RBEs granted only an ITH - continue with the availment of the ITH for the remaining period of the ITH. RBEs granted an ITH + 5% GIT or currently enjoying 5% GIT - allowed to avail of the 5% GIT for 10 years.

The measure is set to take effect 15 days after its complete publication in the Official Gazette or in a newspaper of general circulation. After which, the implementing rules and regulation will be issued by the tax authority.

On April 8, 2021, the Bureau of Internal Revenue (BIR) issued the following implementing revenue regulations that are effective immediately upon publication:

- BIR Revenue Regulations (RR) No. 2-2021, Amending Certain Provisions of Revenue Regulations No. 2-98, As Amended, to Implement the Amendments Introduced by Republic Act No. 11534, or the “Corporate Recovery and Tax Incentives for Enterprises Act” (CREATE), to the National Revenue Code of 1997, as Amended, Relative to the Final Tax on Certain Passive Income
- BIR RR No. 3-2021, Rules and Regulations Implementing Section 3 of Republic Act (RA). No. 11534, Otherwise Known as the “Corporate Recovery and Tax Incentives for Enterprises Act” or “CREATE”, Amending Section 20 of the National Internal Revenue Code of 1997, As Amended
- BIR RR No. 4-2021, Implementing the Provisions on Value-Added Tax (VAT) and Percentage Tax Under Republic Act (RA) No. 11534, Otherwise Known as the “Corporate Recovery and Tax Incentives for Enterprises Act” (CREATE) Which Further Amended the National Revenue Code of 1997, as Amended, as Implemented by Revenue Regulations (RR) No. 16-2005 (Consolidated Value-Added Tax Regulations of 2005), As Amended
- BIR RR No. 5-2021, Implementing the New Income Tax Rates on the Regular Income of Corporations, on Certain Passive Incomes, Including Additional Allowable Deductions from Gross Income of Persons Engaged in Business or Practice of Profession Pursuant to Republic Act (RA) No. 11534 or the “Corporate Recovery and Tax Incentives for Enterprises Act” (CREATE), Which Further Amended the National Revenue Code (NIRC) of 1997

The corporate income tax of the Company will be lowered from 30% to 25% for large corporations on which the Company would qualify effective July 1, 2020.

21. Deferred Taxes

The movements in deferred tax liability are as follows:

	Beginning Balance	**Charged to Profit or Loss**	**Ending Balance**
2022			
Unrealized foreign exchange gain	P495	(P495)	P -

	Beginning Balance	Charged to Profit or Loss	Ending Balance
2021			
Unrealized foreign exchange gain	(P23,586)	P23,091	P495

22. Fair Value Information

The fair values of the Company’s financial assets and liabilities are shown below.

		2022		2021	
	Note	**Carrying Amount**	**Fair Value**	Carrying Amount	Fair Value
Financial Assets					
Cash and cash equivalents	6	**P287,550,507**	**P287,550,507**	P299,869,878	P299,869,878
Trade receivables	7	**73,704,673**	**73,704,673**	36,683,349	36,683,349
Refundable deposits	12	**11,965,201**	**11,965,201**	6,653,605	6,653,605
		P373,220,381	**P373,220,381**	P343,206,832	P343,206,832
Financial Liabilities					
Trade and other payables	13	**P26,598,932**	**P26,598,932**	P17,770,297	P17,770,297
Lease liabilities	18	**67,196,979**	**67,196,979**	54,822,339	54,822,339
		P93,795,911	**P93,795,911**	P72,592,336	P72,592,336

The trade and other payables is net of government payables, such as withholding ftaxes, which are not considered as financial liabilities. Government payables as at March 31, 2022 and 2021 amounted to P5,070,735 and P2,901,537, respectively.

The following summarizes the major methods and assumptions used in estimating the fair values of financial instruments:

Cash and Cash Equivalents, Trade Receivables and Trade and Other Payables

The carrying amounts of approximate their fair values due mainly to the relatively short-term maturities of these financial instruments.

Refundable Deposits

The carrying amount approximates it fair value as the effect of discounting is not considered material.

Lease Liabilities

The carrying amount approximates its fair value because the difference between the interest rate of this instrument and the prevailing market rate for a similar instrument is not considered significant.

23. Financial Risk Management

Financial Risk Management Objectives and Policies

The Company is exposed to financial risks such as market risk which includes foreign currency exchange rate risk, interest rate risk, credit risk and liquidity risk. The Company's policies and objective in managing these risks are summarized below:

Credit Risk

Credit risk is the risk that a counterparty will not meet its obligation under a financial instrument or customer contact, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily from cash and cash equivalents and receivables).

With respect to credit risk arising from the Company's financial assets, which comprise of cash and cash equivalents, trade receivables and refundable deposits, the Company's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of these instruments.

The Company controls this risk through monitoring procedure and regular coordination with the debtors. Receivable balances are monitored on an ongoing basis with the result that its exposure to bad debts is not significant

The table below presents the Company's maximum exposure to credit risk without taking account of the value of any collateral obtained:

	Note	**2022**	2021
Cash and cash equivalents*	6	**P287,500,507**	P299,819,878
Trade receivables	7	**73,704,673**	36,683,349
Refundable deposits	12	**11,965,201**	6,653,605
		P373,170,381	P343,156,832

*Excluding Cash on hand amounting P50,000 in 2022 and 2021.

The Company does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

ECLs are a probability-weighted estimate of credit losses (i.e., the present value of all cash shortfalls) over the expected life of the financial instrument.

The Company's current credit risk grading framework comprises the following categories:

Categorv	Description	Basis for recognizing expected credit losses
Performing	The counterparty has a low risk of default and does not have any past-due amounts	12month ECL
Doubtful	Amount is >30 days past due or there has been a significant increase in credit risk since initial recognition	Lifetime ECL- not credit- impaired
In default	Amount is >90 days past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL- credit impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written-off

The following table details the credit quality of the Company's financial assets and other items, as well as the Company's maximum credit exposure to credit risk by credit risk rating grades as at March 31, 2022 and 2021:

2022	Note	Internal Credit Rating	12 Months Lifetime ECL	Gross Carrying Amount	Less Allowance	Net Carrying Amount
Cash and cash equivalents	6	Performing	12m ECL	P287,500,507	P -	P287,500,507
Trade receivables	7	Performing	Lifetime ECL (simplified approach)	73,704,673	-	73,704,673
Refundable deposits	12, 18	Performing	12m ECL	11,965,201	-	11,965,201
				P373,170,381	P -	P373,170,381

2021	Note	Internal Credit Rating	12 Months Lifetime ECL	Gross Carrying Amount	Less Allowance	Net Carrying Amount
Cash and cash equivalents	6	Performing	12m ECL	P299,819,878	P -	P299,819,878
Trade receivables	7	Performing	Lifetime ECL (simplified approach)	36,683,349	-	36,683,349
Refundable deposits	1 2 , 18	Performing	12m ECL	6,653,605	-	6,653,605
				P343,156,832	P -	P343,156,832

*Excluding Cash on hand amounting P50,000 in 2022 and 2021.

For trade and other receivables, the Company has applied the simplified approach in PFRS 9 to measure the loss allowance at lifetime ECL. The Company determines the ECL on these items by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions. Accordingly, the credit risk profile of these assets is presented based on their past due status in terms of the provision matrix.

Liquidity Risk

Liquidity risk arises when the Company encounters difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's objective of managing liquidity risk is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company manages liquidity risk by maintaining a level of liquid assets deemed sufficient to finance the operations and to mitigate the effect of fluctuation in cash flows.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The table includes both interest and principal cash flows.

	Note	Within 12 Months	More than 12 Months
March 31, 2022			
Trade and other payables	13	**P26,598,932**	**P -**
Lease liabilities	18	**46,260,756**	**23,688,554**
		P72,859,688	**P23,688,554**

	Note	Within 12 Months	More than 12 Months
March 31, 2021			
Trade and other payables	13	P17,770,296	P -
Lease liabilities	18	22,631,482	35,934,378
		P40,401,778	P35,934,378

Interest Rate Risk

Interest rate risk is the risk that the value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The primary source of the Company's interest rate risk relates to cash in banks and lease liabilities. The interest rates on these assets is disclosed in Notes 6 and 18.

The Company has a policy in place in managing interest rate risk and is monitored on an ongoing basis.

Foreign Currency Risk

Foreign exchange risk arises when an investment 's value changes due to variations in the currency exchange rate. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities that are denominated in a currency that is not the Company's functional currency. The Company undertakes certain transactions denominated in Philippine Peso. Hence, exposures to exchange rate fluctuations arise with respect to such transactions.

Significant fluctuation in the exchange rates could significantly affect the Company's financial position. The Company has a policy in place in managing foreign currency risk and is monitored on an ongoing basis.

The carrying amounts of the Company's foreign currency denominated monetary assets and liabilities as at March 31, 2022 and 2021 are as follows:

	2022	2021
Cash and cash equivalents	**P157,618,826**	P101,122,796
Trade and other receivables	**73,704,673**	34,453,731
Net exposure	**P231,323,499**	P135,576,527

The following table details the Company's sensitivity to the exchange rate fluctuation of U.S. Dollar against Philippine Peso. The sensitivity rates used in reporting foreign currency risk internally to key management personnel is 5% in 2022 and 2021, respectively, which represent Management's assessment of the reasonably possible change in foreign exchange rates based on historical trends. The sensitivity analysis includes only outstanding foreign currency-denominated monetary items as at the end of the reporting period. A negative number below indicates a decrease in profit when the US Dollar strengthen by 5% in 2022 and 2021 against the relevant currency. For a 5% increase of the US Dollars against Philippine Peso in 2022 and 2021, there would be an equal and opposite impact on profit and the balances below would be negative.

	Effect on Net Income after Tax and Equity for the Year	
	2022	2021
Cash and cash equivalents	**P5,910,706**	P3,792,105
Trade and other receivables	**2,763,925**	1,292,015
	P8,674,631	P5,084,120

The above sensitivity analysis is applicable in determining the effect on equity of the changes in foreign exchange rates.

In Management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

24. Capital Risk Management

The primary objective of the Company's capital management is to ensure that it maintains healthy capital ratios in order to support its business, maximize shareholder value, maintain various stakeholders' confidence and sustain future development of the business. The Company manages its capital structure and makes adjustments to these ratios in light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may issue stock dividend to shareholders, return or issue capital. No significant changes have been made in the capital management approach as they have been applied in previous years. The Company has not been subjected to externally imposed capital requirements. No major changes were made in the objectives, policies and procedures in 2022 and 2021.

The debt to equity ratio at year-end was as follows:

	2022	2021
Debt	**P126,994,164**	P99,411,607
Equity	**363,483,103**	332,716,264
	0.35:1	0.30:1

24. Other Matters

On March 8, 2020, under Proclamation 922, the President of the Philippines (the "President") has declared a state of public health emergency due to the spread of the Corona Virus Disease 2019 (COVID-19) in the country. As of report date, the country is still under various types of community quarantine to prevent the spread of COVID-19

The Company was not significantly affected by these events as the Company is still able to continue its operations. The increase in expenses caused by the COVID 19 pandemic has no impact as the Company is under a cost-plus arrangement. The Management assessed that that business will continue to operate in the succeeding years.

Despite or amidst this event, the financial statements have been prepared on a going concern basis of accounting as of reporting date since the Company implemented all measures to mitigate the risks on their business operations.

VCUSTOMER PHILIPPINES, INC.

REPORT OF INDEPENDENT AUDITORS ON SUPPLEMENTARY INFORMATION

The Board of Directors and Stockholders
vCustomer Philippines, Inc.
3rd Floor, eCommerce Plaza, Eastwood Cyberpark
Quezon City, Philippines

We have audited, in accordance with Philippine Standards on Auditing, the financial statements of Vcustomer Philippines, Inc. (the "Company") as at and for the year ended March 31, 2022, on which we have rendered our report dated June 3, 2022.

Our audit was made for the purpose of forming an opinion on the basic financial statements of the Company taken as a whole. The supplementary information included in the accompanying Schedule of Reconciliation of Retained Earnings Available for Dividend Declaration is the responsibility of the Company's management.

This supplementary information is presented for purposes of complying with the Revised Securities Regulation Code Rule 68 and is not a required part of the basic financial statements. Such supplementary information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

VCUSTOMER PHILIPPINES (CEBU), INC.

DIRECTORS' REPORT

Your Directors present their Report together with the audited accounts of vCustomer Philippines (Cebu), Inc. (vCPCI) for the year ended March 31, 2022.

Financial Results (PHP):

For the years ended	**March 31, 2022**	March 31, 2021
Revenue	**2,142,706,604**	1,483,110,436
Profit	**196,569,702**	118,387,761

Review of Operations:

For the fiscal year ended March 31, 2022, vCPCI reported revenue amounted to PHP **2,142,706,604**, an increase of PHP **659,596,168** over the last reporting year ended March 31, 2021. Profit for the fiscal year ended March 31, 2022 amounted to PHP **196,569,702**, **66%** increase over the last reporting year. Certain project of vCPCI is still entitled to Income Tax Holiday (ITH).

Future Plans and Appropriations:

vCPCI made a reversal of the Appropriated Retained Earnings of PHP **489,000,000** intended for the expansion projects. Additional appropriation of the amount of PHP **686,000,000** from its current retained earnings as at March 31, 2022 to be used by the Company for its expansion projects, office renovation and equipment upgrade in the year 2022 until 2024. vCPCI is expecting engagement of additional account/clients and increase and employee headcount.

COVID-19

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

Acknowledgements:

Your Directors gratefully acknowledge the contributions made by the employees towards the success of the Company. Your Directors also thank the customers, suppliers, bankers, Government Authorities and the shareholder/s for the co-operation and assistance received from them.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of vCustomer Philippines (Cebu), Inc. (the "Company"), a wholly owned subsidiary of vCustomer Philippines, Inc., which comprise the statements of financial position as at March 31, 2022 and 2021, statements of comprehensive income, statements of changes in equity and statements of cash flows for the years then ended, and notes, including significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on the Supplementary Information Required Under Revenue Regulations No. 15-2010 of the Bureau of Internal Revenue

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information in Note 24 to the basic financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

(A Wholly Owned Subsidiary of vCustomer Philippines, Inc.)

NOTES TO THE FINANCIAL STATEMENTS

1. Reporting Entity

vCustomer Philippines (Cebu), Inc. (the "Company") was incorporated on January 20, 2011 primarily to carry on the business of providing services to customers in any part of the world through any and all medium of communication including internet and telephone including management services, solutions to business problems, web designing, customer relations, development/production of software and software systems, data warehousing , data mining, processing and analysis including assimilation, sorting, processing and communication of date ang graphs, development of computer system, software development, data preparation and verification, data analysis, data transmission and computation through the computer or other devices encompassing digital, analogue and graphic processes and any other medium and processes as may evolve and to deal on all areas relating to information technology; to undertake merchandising and logistic activities in the area of electronic commerce as well as other form of commerce and commercial transactions and to undertake the operation and management of e-mail services centers, customer response centers, computer education and centers for the foregoing operations, loyalty incentive and motivation programmes, direct marketing activities, database management, back office support and all internet and web related work; and in addition, to have shared resources and assets with other entities providing similar services.

The Company is a wholly owned subsidiary of vCustomer Philippines, Inc. (the "Parent Company"), a Company incorporated in the Philippines, and located at 3rd Floor eCommerce Plaza, Eastwood Cyberpark, Quezon City. The Parent Company is a wholly owned subsidiary of Tech Mahindra Limited (the "Ultimate Parent"), a corporation organized and existing under the laws of India.

In February 2021, Security and Exchange Commission (SEC) approved the Company's change of principal place of business or registered address from 90 General Maxilom Avenue, Cebu City to at 6th Floor EBLOC 3, Geonzon St. Cebu IT Park, Apas Lahug, Cebu City.

The Parent Company's registered principal office address is at 3rd Floor, eCommerce Plaza, Eastwood Cyberpark, Quezon City, Philippines.

Registration with the Philippine Economic Zone Authority (PEZA)

JESA Building, Cebu City (2nd, 4th, 5th and 6th Floors)

On February 8, 2011, the Company was registered with the Philippine Economic Zone Authority (PEZA) as an Ecozone IT enterprise. The Company is entitled to incentives granted to non-pioneer projects under Republic Act (RA) 7916, the Special Economic Zone Act of 1995, as amended, and the PEZA IT Guidelines, which include a 4-year corporate Income Tax Holiday (ITH) for the original project in the JESA Building effective from the date of start of commercial operations. After the lapse of ITH, the Company is subject to a 5% Gross Income Tax (5% GIT) incentive, in lieu of all national and local taxes. The Company started its commercial operations on July 1, 2011 and enjoyed the ITH up to June 30, 2015.

On February 20, 2015, the PEZA approved the Company's application for the ITH extension based on Net Foreign Exchange Earnings (NFEE) criterion in accordance with EPZA (now PEZA) General Circular No. 94-001 and Rule XV, Section 6, Paragraph A (6) of the PEZA Rules. The ITH extension covered the period of July 1, 2015 to June 30, 2016.

On October 18, 2016, the PEZA approved the Company's application for the additional ITH extension based on Capital Equipment to Labor Ratio (CELR) criterion in accordance with EPZA (now PEZA) General Circular No. 94-001 and Rule XV, Section 6, Paragraph A (6) of the PEZA Rules. The additional ITH extension covered the period of July 1, 2016 to June 30, 2017. Effective July 1, 2017, the Company's ITH lapsed.

Starting July 1, 2017, the JESA Building site is subject to the 5% GIT incentive.

EBLOC Tower 3, Cebu IT Park, Cebu City (7th, 8th and 9th Floors)

Under the Supplemental Agreement (SA) dated February 26, 2015, the PEZA approved a new non-pioneer project located at 7th and 8th Floor, EBLOC Tower 3, Cebu IT Park, Cebu City. The Company amended the SA dated August 17, 2015 to include the Company's application for its additional sales, customer, technical and shared service support activities at the 9th floor EBLOC Tower 3. On March 7, 2016, the entitlement to the 4-year ITH was validated and confirmed/approved. The Company started its commercial operations on April 1, 2015 and enjoyed the ITH up to March 31, 2019.

On September 05, 2019, PEZA approved the Company's application for ITH extension based on Net Foreign Exchange Earnings (NFEE) criterion in accordance with EPZA (now PEZA) General Circular No. 94-001 and Rule XV, Section 6, Paragraph A (6) of the PEZA Rules. The ITH extension covered the period of April 1, 2019 to March 31, 2020. On June 7, 2020, the Company received a cortication from PEZA that it has filed an application for the extension of ITH covering the period from April 1, 2020 to March 31, 2021. The Company received a Certification from PEZA of its entitlement to 5% GIT on December 31, 2021.

EBLOC Tower 3, Cebu IT Park, Cebu City (6th Floor)

Under Supplemental Agreement (SA) dated July 23, 2019, the PEZA approved the Company's expansion project on sales support, customer support, technical support and shared service located at 6th Floor, EBLOC Tower 3, Cebu IT Park, Cebu City. On April 22, 2020, PEZA approved the date of Start of Commercial Operation (SCO) of its expansion project which gave the Company an ITH entitlement from September 1, 2019 to August 31, 2022. The Company received a Certification from PEZA of its entitlement to ITH on December 31, 2021.

Filinvest Cebu, Cyberzone Tower 2, Cebu City (14th, 15th, 16th and 17th Floors)

Under Supplemental Agreement (SA) dated July 23, 2019, the PEZA approved the Company's application for registration of new activity, particularly to engage in sales support, customer support, technical support and shared services at the 14th, 15th, 16th and 17th Floors of Filinvest Cebu Cyberzone Tower 2. The Company received a Certification from PEZA of its entitlement to ITH on December 31, 2021.

Under Supplemental Agreement (SA) dated October 28, 2021, the PEZA approved the Company's expansion project in providing sales support, customer support, technical support, back-end support, shared services at the 10th ,11th & 12th Floors, Filinvest Cebu Cyberzone. The Company received a Certification from PEZA of its entitlement to ITH on December 31, 2021.

2. Basis of Preparation

Statement of Compliance

The financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs). PFRSs are based on International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB). PFRSs which are issued by the Philippine Financial Reporting Standards Council (FRSC), consist of PFRSs, Philippine Accounting Standards (PASs), and Philippine Interpretations.

Basis of Measurement

The financial statements have been prepared on a historical cost basis of accounting except for retirement benefits obligation which is recognized at the present value of the defined benefits obligation.

Functional and Presentational Currency

These financial statements are presented in Philippine Peso, the currency of the primary economic environment in which the Company operates. All amounts are recorded in the nearest peso, except when otherwise indicated.

Authorization for the Issuance of the Financial Statements

The accompanying financial statements of the Company as of and for the year ended March 31, 2022 was authorized for issue by the Board of Directors (BOD) on May 13, 2022.

3. Adoption of New Standards, Amendments to Standards and Interpretations

The Company has adopted the following amendments to standards starting April 1, 2021 and accordingly, changed its accounting policies. Except as otherwise indicated, the adoption of these new and amendments to standards did not have any significant impact on the Company's separate financial statements. These are as follows:

- COVID-19-Related Rent Concessions (Amendment to PFRS 16, Leases). The amendments introduce an optional practical expedient that simplifies how a lessee accounts for rent concessions that are a direct consequence of COVID-19. A lessee that applies the practical expedient is not required to assess whether eligible rent concessions are lease modifications, and accounts for them in accordance with other applicable guidance. The practical expedient applies if:
  - the revised consideration is substantially the same or less than the original consideration;
  - the reduction in lease payments relates to payments due on or before June 30, 2021; and,
  - no other substantive changes have been made to the terms of the lease.

Lessees applying the practical expedient are required to disclose that fact, whether they have applied the practical expedient to all eligible rent concessions and, if not, the nature of the contracts to which they have applied the practical expedient; and the amount recognized in profit or loss for the reporting period arising from application of the practical expedient. No practical expedient is provided for lessors.

The amendment is effective for annual reporting periods beginning on or after June 1, 2020. Earlier application is permitted. A lessee applies the amendments retrospectively, recognizing the cumulative effect of the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate.

- COVID-19-Related Rent Concessions beyond 30 June 2021 (Amendment to PFRS 16, Leases). The amendment extends the practical expedient introduced in the 2020 amendment which simplified how a lessee accounts for rent concessions that are a direct consequence of COVID-19, permitting lessees to apply the practical expedient to rent concessions for which any reduction in lease payments affects only payments originally due on or before June 30, 2022.

  The amendment is effective for annual reporting periods beginning on or after April 1, 2021. Earlier application is permitted. A lessee applies the amendments retrospectively, recognizing the cumulative effect of the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate. The adoption is mandatory for lessees that chose to apply the practical expedient introduced by the 2020 amendments and may result in reversal of lease modifications that was ineligible for the practical expedient under the 2020 amendments but becomes eligible as a result of the extension.

Amendments Issued but Not Yet Adopted

A number of amendments to standards effective for annual periods beginning after April 1, 2021. However, the Company has not early adopted the following new or amended standards in preparing these separate financial statements. Unless otherwise stated, none of these are expected to have a significant impact on the Company's separate financial statements.

Effective January 1, 2022

- Property, Plant and Equipment - Proceeds before Intended Use (Amendments to PAS 16, Property, Plant and Equipment). The amendments prohibit an entity from deducting from the cost of an item of property, plant and equipment the proceeds from selling items produced before that asset is available for use. The proceeds before intended use should be recognized in profit or loss, together with the costs of producing those items which are identified and measured in accordance with PAS 2, Inventories.

  The amendments also clarify that testing whether an item of property, plant and equipment is functioning properly means assessing its technical and physical performance rather than assessing its financial performance.

  For the sale of items that are not part of a company's ordinary activities, the amendments require the company to disclose separately the sales proceeds and related production cost recognized in profit or loss and specify the line items in which such proceeds and costs are included in the statement of comprehensive income (loss). This disclosure is not required if such proceeds and cost are presented separately in the statement of comprehensive income (loss).

  The amendments are effective for annual reporting periods beginning on or after January 1, 2022. Earlier application is permitted. The amendments apply retrospectively, but only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the company first applies the amendments.

- Onerous Contracts - Cost of Fulfilling a Contract (Amendment to PAS 37 Provisions, Contingent Liabilities and Contingent Assets). The amendments clarify that the cost of fulfilling a contract when assessing whether a contract is onerous includes all costs that relate directly to a contract - i.e. it comprises both incremental costs and an allocation of other direct costs.

  The amendments are effective for annual reporting periods beginning on or after January 1, 2022 to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognized as an opening balance adjustment to retained earnings or other component of equity, as appropriate. The comparatives are not restated. Earlier application is permitted.

- Annual Improvements to PFRS Standards 2018-2020. This cycle of improvements contains amendments to four standards:

  - Fees in the '10 per cent' Test for Derecognition of Financial Liabilities (Amendment to PFRS 9, Financial Instruments). The amendment clarifies that for the purpose of performing the '10 per cent' test for derecognition of financial liabilities, the fees paid net of fees received included in the discounted cash flows include only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.

  - Lease Incentives (Amendment to Illustrative Examples accompanying PFRS 16). The amendment deletes from the Illustrative Example 13 the reimbursement relating to leasehold improvements to remove the potential for confusion because the example had not explained clearly enough the conclusion as to whether the reimbursement would meet the definition of a lease incentive in PFRS 16.

Effective January 1, 2023

- Classification of Liabilities as Current or Non-current (Amendments to PAS 1, Presentation of Financial Statements). To promote consistency in application and clarify the requirements on determining whether a liability is current or non-current, the amendments:

  - removed the requirement for a right to defer settlement of a liability for at least twelve months after the reporting period to be unconditional and instead requires that the right must have substance and exist at the end of the reporting period;

  - clarified that a right to defer settlement exists only if the company complies with conditions specified in the loan agreement at the end of the reporting period, even if the lender does not test compliance until a later date; and

  - clarified that settlement of a liability includes transferring a company's own equity instruments to the counterparty, but conversion options that are classified as equity do not affect classification of the liability as current or non-current.

  The amendments apply retrospectively for annual reporting periods beginning on or after January 1, 2023. Earlier application is permitted.

  In November 2021, the International Accounting Standards Board issued the Exposure Draft, Non-Current Liabilities with Covenants, after considering stakeholder feedback on the December 2020 tentative agenda decision issued by the IFRS Interpretations Committee about the amendments. The exposure draft proposes to again amend IAS 1 as follows:

  - conditions which the entity must comply within twelve months after the reporting period will have no effect on the classification as current or non-current.

  - additional disclosure requirements will apply to non-current liabilities subject to such conditions to enable the assessment of the risk that the liability could become repayable within twelve months.

  - separate presentation in the statement of financial position will be required for non-current liabilities for which the right to defer settlement is subject to conditions within 12 months after the reporting period.

  The effective date of the amendments will be deferred to no earlier than January 1, 2024. Comments on the Exposure Draft is due on March 21, 2022.

- Definition of Accounting Estimates (Amendments to PAS 8, Accounting Policies, Changes in Accounting Estimates and Errors). To clarify the distinction between changes in accounting policies and changes in accounting estimates, the amendments introduce a new definition for accounting estimates, clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty. The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that an accounting estimate is developed to achieve the objective set out by an accounting policy. Developing an accounting estimate includes both selecting a measurement technique and choosing the inputs to be used when applying the chosen measurement technique. The effects of changes in such inputs or measurement techniques are changes in accounting estimates. The definition of accounting policies remain unchanged. The amendments also provide examples on the application of the new definition. The amendments are effective for annual reporting periods beginning on or after January 1, 2023, with earlier application permitted, and will apply prospectively to changes in accounting estimates and changes in accounting policies occurring on or after the beginning of the first annual reporting period in which the amendments are applied.

- Disclosure of Accounting Policies (Amendments to PAS 1, Presentation of Financial Statements and PFRS Practice Statement 2, Making Materiality Judgements). The amendments are intended to help companies provide useful accounting policy disclosures. The key amendments to PAS 1 include:

  - requiring companies to disclose their material accounting policies rather than their significant accounting policies;

  - clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and

  - clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.

The amendments to PFRS Practice Statement 2 includes guidance and additional examples on the application of materiality to accounting policy disclosures. The amendments are effective from January 1, 2023. Earlier application is permitted.

- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to PAS 12, Income Taxes). The amendments clarify that that the initial recognition exemption does not apply to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning obligations.

  The amendments apply for annual reporting periods beginning on or after January1, 2023. Earlier application is permitted.

  For leases and decommissioning liabilities, the associated deferred tax assets and liabilities will be recognized from the beginning of the earliest comparative period presented, with any cumulative effect recognized as an adjustment to retained earnings or other appropriate component of equity at that date. For all other transactions, the amendments apply to transactions that occur after the beginning of the earliest period presented.

4. Significant Accounting Policies

The significant accounting policies and practices applied in the preparation of these financial statements are set forth to facilitate the understanding of data presented in the financial statements. These policies have been consistently applied to all years presented unless otherwise stated.

Current versus Noncurrent Classification

The Company presents assets and liabilities in the statements of financial position based on current or noncurrent classification.

An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve (12) months after the financial reporting period;
- Expected to be settled on demand; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve (12) months after the financial reporting period.

All other assets are classified as noncurrent. Deferred tax assets are classified as noncurrent assets.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve (12) months after the financial reporting period;
- It is expected to be settled in demand; or
- There is no unconditional right to defer the settlement of the liability for at least twelve (12) months after the financial reporting period.

All other liabilities are classified as noncurrent. Deferred tax liabilities are classified as noncurrent liabilities.

Financial Instruments

Financial Assets

Financial assets are recognized when the Company becomes a party to the contractual provisions of a financial instrument. Financial assets are derecognized when the rights to receive cash flows from the financial assets expire, or if the Company transfers the financial asset to another party and does not retain control or substantially all risks and rewards of the asset. Purchases and sales of financial assets in the normal course of business are accounted for at settlement date (i.e., the date that the asset is delivered to or by the Company). At initial recognition, the Company measures its financial assets at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset

Financial instruments are recognized initially at fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those designated as fair value through profit or loss, includes transaction costs.

After initial recognition, the Company classifies its financial assets as subsequently measured at either i) amortized cost, ii) fair value through other comprehensive income or iii) fair value through profit or loss on the basis of both:

The Company's business model for managing the financial assets.

The contractual cash flow characteristics of the financial asset.

Subsequent to initial recognition, financial assets are measured as described below.

At each balance sheet date, the Company assesses whether there is objective evidence that a financial asset or a group of financial assets is impaired and recognizes a loss allowance for expected credit losses for financial assets measured at either amortized costs or at fair value through other comprehensive income. If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 months of expected credit losses.

If, at the reporting date, the credit risk on a financial instrument has increased significantly since initial recognition, the Company measures the loss allowance for the financial instrument at an amount equal to the lifetime expected credit losses. The Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Financial Assets at Amortized Cost

Financial assets are measured at amortized cost if both i) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset measured at amortized cost is initially recognized at fair value plus transaction cost directly attributable to the asset. After initial recognition, the carrying amount of the financial asset measured at amortized cost is determined using the effective interest method, less any impairment losses.

Financial assets at amortized cost are classified as current assets when the Company expects to realize the asset within 12 months from reporting date. Otherwise, these are classified as noncurrent assets.

Cash and cash equivalents, trade and other receivables and refundable deposits are generally included in this category.

Cash includes cash on hand, cash in banks and cash equivalents.

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. The Company classifies an investment as cash equivalent if that investment has a maturity of three months or less from the date of acquisition.

Financial Liabilities

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of a financial instrument. Financial liabilities are derecognized when the Company's obligations specified in the contract expire or are discharged or cancelled.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Company generally classifies all financial liabilities as subsequently measured at amortized cost.

Financial liabilities are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Trade and other payables and lease liabilities are generally included in this category.

Prepaid Expenses and Other Current Assets

Prepaid expenses represent expenses not yet incurred but already paid in cash. Prepaid expenses are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to profit or loss as they are consumed in operations or expire with the passage of time.

Other current assets pertain to resources controlled by the Company as a result of past events and from which future economic benefits are expected to flow to the Company.

Prepaid expenses and other current assets are classified in the statements of financial position as current asset when the cost of services related to the prepaid expenses and other current assets are expected to be incurred within one year or the Company's normal operating cycle, whichever is longer. Otherwise, prepaid expenses are classified as non-current assets.

Property and Equipment

Property and equipment are initially measured at cost. The cost of an item of property and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and
- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by Management.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

At the end of each reporting period, items of property and equipment are measured at cost less any subsequent accumulated depreciation and impairment losses.

Subsequent expenditures relating to an item of property and equipment that have already been recognized are added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditures are recognized as expenses in the period in which those are incurred.

Depreciation is computed on the straight-line method based on the estimated useful lives of the assets as follows:

	Number of Years
Office equipment	5
Communication equipment	3
Furniture and fixtures	3
Leasehold improvements	3 or lease term whichever is shorter

Leasehold improvements are amortized over the improvements' useful life of three years or when shorter, the term of the relevant lease.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the profit or loss.

At the end of each reporting period, the Company assesses whether there is any indication that any of its property and equipment is impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. An impairment loss is recognized as an expense.

Impairment losses recognized in prior periods are assessed at the end of each reporting period for any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

Intangible Assets

Intangible Asset Acquired Separately

Intangible assets are initially measured at cost. Subsequent to initial recognition, intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over the estimated useful lives. The estimated useful life and the amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Share Capital

Ordinary shares is classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of tax.

Retained Earnings

Retained earnings and deficit represent accumulated profits and losses earned and incurred by the Company. Retained earnings and deficit may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Revenue Recognition

The Company identifies each distinct performance obligation to transfer services. The Company recognizes revenue when (or as) it satisfies a performance obligation by transferring the control of services to the customer. The transaction price is the amount of consideration the Company expects to receive under the arrangement. The Company concluded that it is acting as principal for its revenue arrangement.

Sale of Services. The Company provides services assistance to its Parent Company in the ordinary course of business. Such services are recognized as a performance obligation satisfied over time.

Interest income. Interest income is recognized as the interest accrues using the effective interest method

Expense Recognition

Expenses are decreases in economic benefits during the accounting period in the form of outflows or decrease of assets or increase of liabilities that result in decrease in equity, other than those relating to distributions to equity participants.

Employee Benefits

Short-Term Benefits

The Company recognizes a liability, net of amounts already paid, and an expense for services rendered by employees during the accounting period. A liability is also recognized for the amount expected to be paid under short-term cash bonus or profit sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

Post-Employment Benefits

Defined Benefit Plan

The Company classifies its retirement benefit as defined benefit plans. Under the defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), are reflected immediately in the statements of financial position with a charge or credit recognized in OCI in the period in which they occur. Remeasurement recognized in OCI is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment.

Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefits liability or asset. Defined benefits costs are categorized as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- Net interest expense or income; and
- Remeasurements.

The Company presents the first two components of defined benefits costs in profit or loss in the line item 'retirement benefits costs. Curtailment gains and losses are accounted for as past service costs.

The retirement benefits obligation recognized in the statements of financial position represents the liability of the Company for its post-employment benefits.

Compensated Leave Credits

The Company's net obligation in respect of accumulated leaves is the amount of future benefit that employees have earned in return for their services in the current and prior periods. This benefit is discounted to determine its present value. Remeasurements are recognized in profit or loss in the period in which they arise.

Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

As a Lessee

The Company recognizes a right-of-use assets and a lease liabilities at the lease commencement date. The right-of-use assets are initially measured at cost, which comprises the initial amount of the lease liabilities adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of costs to dismantle and remove or restore the underlying asset or the site on which it is located, less any incentives received.

The right-of-use assets are subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use assets or the end of lease term. The estimated useful lives of the right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use assets are periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liabilities.

The lease liabilities are initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rates as the discount rate.

Lease payments included in the measurement of the lease liabilities comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liabilities are measured at amortized cost using the effective interest method. This are remeasured if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment. When the lease liabilities are remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use assets or is recorded in profit or loss if the carrying amount of the right-of-use assets has been reduced to zero.

The ROU assets and lease liabilities are presented in the statements of financial position separately from other assets and liabilities, respectively.

Related Party Transactions

A related party transaction is a transfer of resources, services or obligations between the Company and a related party, regardless of whether a price is charged.

Related party relationship exists when one party has the ability to control, directly or indirectly, through one or more intermediaries, the other party or exercise significant influence over the other party in making the financial and operating decisions. Such relationship also exists between and/or among entities under common control with the reporting enterprises and their key management personnel, directors, or its stockholders. Related parties may be individuals or corporate entities. In considering each possible related party relationships, attention is directed to the substance of the relationship, and not merely the legal form.

Income Taxes

Income tax expense recognized in the statements of comprehensive income of the Company represents the current tax expense and deferred tax expense.

Under the Company's registration with the PEZA pursuant to the provisions of Republic Act (R.A.) No. 7916, the Company is subject to 5% final tax on gross income from PEZA-registered activities in lieu of payment of national and local taxes.

Uncertainties related to taxes that are not income taxes are recognized and measured in accordance with PAS 37 unless they are dealt with specifically in another standard.

If there is uncertainty about an income tax treatment, then the Company considers whether it is probable that a tax authority will accept the Company's tax treatment included in its tax filing. The underlying assumption in the assessment is that a tax authority will examine all amounts reported and will have full knowledge of all relevant information.

Current Tax

The current tax expense is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statements of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using 5% of gross income earned from registered activities. For income other than its registered activities, tax rate is 30%. For income other than its registered activities, tax rate is 30% or exempt when the activities are included under income tax holiday.

Deferred Tax

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences, while deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Provisions

Provisions are recognized when the Company has a present obligation, either legal or constructive, as a result of a past event, it is probable that the Company will be required to settle the obligation through an outflow of resources embodying economic benefits, and the amount of the obligation can be estimated reliably.

The amount of the provision recognized is the best estimate of the consideration required to settle the present obligation at the end of each reporting period, taking into account the risks and uncertainties surrounding the obligation. A provision is measured using the cash flows estimated to settle the present obligation. Its carrying amount is the present value of those cash flows.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

Contingencies

Contingent liabilities are not recognized in the financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed when an inflow of economic benefits is probable.

Foreign Currency

Transactions in currencies other than Philippine peso are recorded at the rates of exchange prevailing on the dates of the transactions. At the end of each reporting period, monetary assets and liabilities that are denominated In foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Gains and losses arising on retranslation are included in profit or loss for the year.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are not retranslated.

Events After the Reporting Period

The Company identifies events after the end of each reporting period as those events, both favorable and unfavorable, that occur between the end of the reporting period and the date when the financial statements are authorized for issue. The financial statements of the Company are adjusted to reflect those events that provide evidence of conditions that existed at the end of the reporting period. Non-adjusting events after the end of the reporting period are disclosed in the notes to financial statements when material.

5. Critical Accounting Judgments and Key Sources of Estimation Uncertainty

In the application of the Company's accounting policies, Management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on the historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgments in Applying Accounting Policies

The following are the critical judgments, apart from those involving estimations, that Management have made in the process of applying the entity 's accounting policies and that have the most significant effect on the amounts recognized in the financial statements.

Functional Currency

Based on the economic substance of the underlying circumstances relevant to the Company, the functional currency of the Company has determined to be the Philippine Peso.

The Philippine Peso is the currency of the primary economic environment in which the Company operates. It is the currency that mainly influences the Company's cost of operation, and in effect, its revenue.

Determination of the Term and Discount Rate of Lease Arrangements

Where the Company is the lessee, management is required to make judgments about whether an arrangement contains a lease, the lease term and the appropriate discount rate to calculate the present value of the lease payments.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases entered into by the Company as lessee, management uses the incremental borrowing rate, being the rate that the Company would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company uses an approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company and makes adjustments specific to the lease.

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if it is reasonably certain that the lease will be extended (or not terminated) and, as such, included within lease liabilities.

The Company normally considers in the assessment whether there are significant penalties to terminate, significant remaining value of leasehold improvements and historical lease durations, the costs and business disruption for replacing the leased asset, enforceability of the option, and business and other developments.

The lease term is reassessed if an option is actually exercised (or not exercised) or the Company becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and is within the lessee's control.

Key Sources of Estimation Uncertainties

The following are key estimates concerning the future and other key sources of estimation uncertainty as at end of reporting period that have the most significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

Impairment of Property and Equipment

The Company assesses at the end of each reporting period whether there is any indication that its property and equipment is impaired. The factors that the Company considers important which could trigger an impairment review include the following:

- significant underperformance relative to the expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

Management assessed that there are no indicators of impairment affecting the noncurrent financial assets as at March 31, 2022 and 2021.

As at March 31, 2022 and 2021, the carrying amount of property and equipment amounted to P306,462,940 and P181,050,826, respectively (see Note 9).

Estimating Retirement Benefits Obligation

The present value of the retirement benefits obligation depends on a number of assumptions that are determined on an actuarial basis. The assumptions used in determining the net cost (income) for retirement benefits include the discount rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the retirement benefits liability. Other key assumptions include future salary, mortality and attrition. Additional information is disclosed in Note 18

Retirement benefits obligation amounted to P46,392,900 and P28,827,200 and as at March 31, 2022 and 2021, respectively (see Note 18).

Provisions and Contingencies

The recognition of provisions on claims requires estimates and judgment regarding the timing and the amount of outflow of resources. Assessment by internal and external legal counsel, where appropriate, determines whether it is probable that an outflow of resources will be required to settle an obligation. If this is the case, the best estimate of the outflow of resources is recognized.

The Company has no provision for probable losses as at March 31,2022 and 2021.

6. Cash and Cash Equivalents

This account consists of:

	Note	2022	2021
Cash on hand		**P70,000**	P70,000
Cash in banks	21	**26,505,781**	12,363,523
Time deposits	21	**405,220,000**	310,380,000
	20	**P431,795,781**	P322,813,523

Interest income on cash in banks and time deposits amounted to P186,590 in 2022 and P132,046 in 2021.

7. Trade and Other Receivables

This account consists of:

	Note	2022	2021
Trade receivables	13, 20, 21	**P165,618,969**	P162,126,101
Advances to employees		**7,965,168**	7,831,560
Advances to suppliers		**4,137,221**	4,137,221
		P177,721,358	P174,094,882

Trade receivables have average credit terms of 60 days.

8. Prepaid Expenses and Other Current Assets

This account consists of:

	2022	2021
Prepaid utilities	**P8,910,318**	P -
Prepaid insurance	**324,931**	6,921,458
Others	**2,383,082**	2,309,106
	P11,618,331	P9,230,564

Prepaid insurance pertains to the unamortized payments for the Health Maintenance Organization (HMO) coverage of the Company's employees.

Others consist of unamortized payments for maintenance fees and membership dues and advance payments for advertising.

9. Property and Equipment

The movements in this account are as follows:

2022	**Office Equipment**	**Communication Equipment**	**Leasehold Improvements**	**Furniture and Fixtures**	**Total**
Cost					
Balance at beginning of year	P252,966,190	P93,189,804	P315,082,788	P18,581,010	P679,819,792

Balance at end of year	182,490,648	74,875,751	222,880,496	18,522,071	498,768,966
Net carrying value	P70,475,542	P18,314,053	P92,202,292	P58,939	P181,050,826

The depreciation is presented as part of the following:

	Note	**2022**	2021
Cost of service	15	**P143,564,986**	P95,936,787
Operating expense	16	**29,755,603**	20,009,648
		P173,320,589	P115,946,435

10. Intangible Assets

Intangible assets pertain to capitalized computer software. The movements in this account are as follows:

	Note	**2022**	2021
Cost			
Beginning of year balance		**P1,768,013**	P680,468
Additions		**1,142,545**	1,087,545
Disposals		**(300,064)**	-
		2,610,494	1,768,013
Accumulated Amortization			
Balance at beginning of year		**999,899**	680,468
Amortization	15,16	**524,685**	319,431
Disposals		**(300,064)**	-
Balance at end of year		**1,224,520**	999,899
Net carrying value		**P1,385,974**	P768,114

The amortization is presented as part of the following:

	Note	**2022**	2021
Cost of service	15	**P367,890**	P264,305
Operating expense	16	**156,795**	55,126
		P524,685	P319,431

11. Refundable Deposits

This account consists of:

	Note	2022	2021
Rental deposits		**P29,471,383**	P28,790,668
Utilities deposits		**7,219,492**	480,950
Guaranty deposit		**27,267,629**	27,267,629
		63,958,504	56,539,247
Less allowance for probable losses		**27,267,629**	27,267,629
	20, 21	**P36,690,875**	P29,271,618

Guaranty deposit pertains to the surety bond made to Department of Labor and Employment - National Labor Regulations Commission.

12. Trade and Other Payables

This account consists of:

	Note	2022	2021
Trade payables	20, 21	**P24,299,381**	P19,766,266
Salaries payable	20, 21	**96,511,841**	67,115,710
Payable to government agencies		**16,029,940**	10,498,687
Accrued expenses	20, 21	**8,997,735**	21,900,955
Withholding taxes		**4,054,940**	763,677
Output VAT - net		**841,440**	1,345,152
		P150,735,277	P121,390,447

Trade payables are normally on a 30-to-90-day credit terms.

The Company derecognized portion of salaries payable relating to long-outstanding unclaimed last pay of separated employees, which the legal right to claim has prescribed amounting to P53,197 and P4,117,637 in 2022 and 2021, respectively. These are presented as “Others” under “Other income (charges)” in the statements of comprehensive income.

Accrued expenses consist of electricity, legal fees, security services, consultancy, outside services, provision for leave encashment, etc. which are individually insignificant.

13. Related Party Transactions

The summary of the Company’s transactions and outstanding balances with related parties as at and for the years ended March 31, 2022 and 2021 is as follows:

				Outstanding Balance		
Category/ Transaction	**Year**	**Note**	**Transaction Amount**	**Trade Receivables**	**Terms**	**Conditions**
Ultimate Parent						
Revenue	2022	a, 7	P2,108,145,812	P153,994,192	60 days; non-interest bearing	Unsecured; no impairment
Affiliate						
Revenue	**2022**	**c**	**34,560,792**	**11,624,777**	**60 days; non-interest bearing**	**Unsecured; no impairment**
	2021	b	81,899,187	-		
	2022			**P165,618,969**		
	2021			P162,126,101		

(a) The Company entered into a Service Agreement with vCustomer Services LLC (vSLLC), a Company incorporated under the laws of the United States of America (USA), an affiliate, for an indefinite period unless mutually terminated, to provide web-based support (chat, email, fax); telephony support (voice); directory assistance; eCRM database management, eCRM database mining; web-based self-help solutions; remote website administration; remote back office support; remote system administration and technical help desk services in the United States through contact center representatives and such other functions as may be required in relation to the performance of its support function.

In consideration thereof, the Company bills vSLLC ten percent (10%) mark-up rate on all costs (cost and operating expenses) incurred by the Company in providing the services. Contract receivables are billed by the Company in US dollars on a periodical basis and are settled in the same currency. vSLLC was merged with Tech Mahindra (Americas), Inc., a subsidiary of Tech Mahindra Limited (TML), on February 2, 2015. Accordingly, billings were made to TML subsequently.

(b) The Company entered into an agreement with Tech Mahindra Philippines wherein all cost incurred by the former (cost and operating expenses) in relation to the service it renders to the latter will be billed at ten percent (10%) mark-up rate.

(c) The Company also entered into a Sub-contract Agreement on September 29, 2021 with Tech Mahindra Business Services Limited (TMBSL), a Company incorporated under the laws of India, for a period of two years, to provide call center services.

In consideration thereof, the Company bills TMBSL monthly service fee of ten percent (10%) mark-up rate on direct costs incurred by the Company in providing the services. The Company also bills for facility cost and depreciation at a rate of 10% on the cost as agreed by TMBSL and its customer. Contract receivables are billed by the Company in US dollars on a periodical basis and are settled in the same currency.

(d) Compensation of key management personnel for the years ended March 31, 2022 and 2021 is as follows:

	Note	**2022**	2021
Salaries		**P67,297,743**	P47,468,962
Retirement benefits costs	18	**5,789,821**	5,594,601
Allowance		**1,663,700**	1,226,598
Other employee benefits		**15,056,974**	8,674,454
		P89,808,238	P62,964,615

Other employee benefits include 13th month pay, performance bonus, leave encashment and other short-term benefits.

There are no other related party transactions. All related party balances are to be settled in cash.

14. Equity

Components of share capital are as follows:

	2022	2021
Authorized 1,000,000, issued, fully paid and outstanding: 950,000 ordinary shares - Php10 par value	**P9,500,000**	P9,500,000

On March 31, 2022, the Company's BOD approved the additional appropriation of P686,000,000 from its current retained earnings as at March 31, 2022 to be used by the Company for its business expansion projects for the year 2022 until 2025. Also, on the same date, the Company's BOD approved the reversal of the appropriated retained earnings in 2021 of P489,000,000 intended for the expansion projects.

On March 31, 2021, the Company's BOD approved the additional appropriation of P489,000,000 from its current retained earnings as at March 31, 2021 to be used by the Company for its business expansion projects for the year 2021 until 2024. Also, on the same date, the Company's BOD approved the reversal of the appropriated retained earnings in 2020 of P370,000,000 intended for the expansion projects.

15. Cost of Services

This account consists of:

	Note	2022	2021
Personnel costs		**P1,204,629,384**	P763,718,934
Depreciation	9, 10, 17	**217,371,979**	171,981,553

		P45,305,835	P30,210,933

17. Lease Agreements

All of the Company's leases are long term.

JESA Building, Cebu City

The Company entered into lease agreements for the corporate office unit it occupies in Cebu City. The lease term for the corporate office unit cover ten years with a free fitting out period of three months and an option to extend for another ten years. The lease term is from April 1, 2011 to March 31, 2021. Future payments under these lease agreements are subject to escalation rate of fifteen percent (15%) after the first five years. The Company entered into an extension of the lease contract for additional spaces in the same building starting May 1, 2014 up to March 31, 2021. Escalation of three percent (3%) per year is effective starting May 1, 2015. Rent free construction period is for two months.

During the quarter ended September 30, 2014, the Company entered into a new lease agreement to occupy additional office unit in the same building. The lease term for the unit is from July 1, 2014 to March 31, 2021 with a rent-free construction period from July 1, 2014 to August 31, 2014.

The lease agreements in JESA Building are renewable upon mutual agreement of both the lessor and the lessee. As at March 31, 2021, the lease agreement in JESA Building was not renewed.

The Company derecognized the leased asset on April 1, 2021.

EBLOC Tower 3, Cebu IT Park, Cebu City

In 2015, the Company entered into a lease agreement for the office unit and parking spaces for its expansion project located in EBLOC Tower 3, Cebu IT Park, Cebu City. The lease term for office unit is from January 6, 2015 to January 5, 2023 with free rent for the first three months of the actual handover date. Escalation of five percent (5%) per year is effective starting January 1, 2016.

On the same year, the Company entered into a new lease agreement to occupy additional office unit and parking spaces in the same building. The lease term is from May 14, 2015 to January 5, 2023 with free rent for the first three months of the actual handover date. Escalation of five percent (5%) per year is effective starting May 14, 2016.

Another lease agreement was entered by the Company on the same building for the lease of additional office units and parking spaces. The lease term is from October 15, 2015 to January 5, 2023 with free rent for the first three months of the actual handover date. Escalation of five percent (5%) per year is effective starting October 15, 2016.

In 2019, the Company entered into a new lease agreement to occupy additional office unit and parking spaces located on the same building. The lease term is from June 15, 2019 to June 14, 2024. The lease payment is fixed for the entire duration of the lease.

The lease agreements in EBLOC Tower 3 are renewable upon mutual agreement of both the lessor and the lessee.

Filinvest Cebu, Cyberzone Tower 2, Cebu City

In 2019, the Company entered into a new lease agreement to occupy office units located in Filinvest Cebu, Cyberzone Tower 2, Cebu City. The lease term is from September 1, 2019 to August 31, 2025 with free rent for the first three months of the actual handover date. Escalation of five percent (5%) per year is effective starting September 1, 2020.

The Company also entered into two new lease agreements on the same building for the lease of additional office units. One lease agreement has a lease term from October 1, 2019 to August 31, 2025 while the other lease agreement has a lease term from December 1, 2019 to August 25, 2025. Both the lease agreements have free rent for the first three months of the actual handover date and escalation of five percent (5%) per year effective October 1, 2020 and December 1, 2020, respectively.

The Company will have the right to renew the lease for two (2) further five-year (5) lease terms by sending a written notice to the lessor not less than six (6) months prior to expiry of the initial term of these lease agreements.

The Company also entered into another lease agreement to occupy additional office unit located on the same building. The lease term is from December 16, 2021 to September 15, 2028. Escalation of five percent (5%) per year is effective starting September 16, 2022.

In 2022, the Company entered into a new lease agreement to occupy additional office unit and parking spaces located on the same building. The lease term is from September 16, 2021 to September 15, 2028. Escalation of five percent (5%) per year is effective starting September 16, 2022.

The details of the Company's ROU assets and lease liabilities for these leases as shown below.

I. ROU Assets

The movements as at March 31, 2022 and 2021 are as follows:

	Note	**2022**	2021
Cost			
Balance at beginning of year		**P402,117,877**	P402,117,877
Additions during the year		**185,543,087**	-
Termination		**(13,333,688)**	-
		574,327,276	402,117,877
Accumulated Amortization			
Balance at beginning of year		**149,191,116**	63,264,496
Amortization	15, 16	**88,832,540**	85,926,620
Termination		**(13,333,688)**	-
Balance at end of year		**224,689,968**	149,191,116
Net carrying value		**P349,637,308**	P252,926,761

II. Lease Liabilities

The movements in lease liabilities as at March 31, 2022 and 2021 are as follows:

	Note	**2022**	2021
Balance at the beginning		**P281,591,352**	P363,494,823
Additions		**185,543,087**	-
Accretion of interest expense		**15,700,824**	17,056,630
Repayments		**(107,082,770)**	(98,960,101)
Carrying value		**375,752,493**	281,591,352
Less current portion		**108,383,640**	87,803,978
Noncurrent portion		**P267,368,853**	P193,787,374

III. Amounts in Profit or Loss

Amounts recognized in statements of comprehensive income are as follows:

	Note	**2022**	2021
Depreciation on right-of-use assets	15, 16	**P88,832,540**	P85,926,620
Accretion of interest expense		**15,700,824**	17,056,630
		P104,533,364	P102,983,250

IV. Future Minimum Lease Payments

The maturity analysis on the undiscounted lease liabilities is as follows:

	2022	2021
Maturity Analysis - Contractual Undiscounted Cash Flows		
Not more than 1 year	**P121,589,713**	P96,253,480
More than 1 year but less than 5 years	**260,725,758**	237,745,187
Total undiscounted lease liabilities	**P382,315,471**	P333,998,667

There is no short-term lease for the years ended March 31, 2022 and 2021.

18. Retirement Benefits Costs

The Company does not have an established formal retirement plan as at March 31, 2022 and 2021. It recognizes retirement benefits costs in accordance with the minimum regulatory benefit under Republic Act No. 7641, which is a defined benefit type. In the absence of a formal established retirement plan, the retirement benefit obligation is not yet funded. Retirement benefits are based on employees' years of service and compensation levels during employment period. Actuarial valuations are made with sufficient regularity. The most recent actuarial valuation was made for the year ended March 31, 2022. The principal actuarial assumptions used to determine retirement benefits were as follows:

Regulatory Framework in which the Retirement Plan Operates

In accordance with the provisions of the RA 7641, the Company is required to pay eligible employees at least minimum regulatory benefit upon normal retirement, subject to age and service requirements.

Responsibilities of Trustee

Since the Company does not have a formal, trusteed Retirement Plan, there are no Trustees yet.

Description of Plan Characteristics and Associated Risks

The calculations were based on the provisions of the minimum mandated benefit under RA 7641. However, it should be noted that in the event a benefit claim arises, the benefit shall immediately be due and payable from the Company.

Amounts Recognized in the Financial Statements

The principal actuarial assumptions used to determine retirement benefits were as follows:

	2022	2021
Discount rate	**5.75%**	4.25%
Salary increase rate	**6.00%**	6.00%

Maturity Profile of Expected Future Benefit Payments

The Company's expected future benefit payment is shown below:

	2022	2021
Beyond one year not later than 5 years	**P41,821,400**	P20,854,600
Beyond five years (6 to 10 years)	**44,537,600**	24,446,200

The movements of the present value of defined benefit obligation (DBO) which is also the amount of retirement benefits obligation recognized in the statements of financial position is as follows:

	Note	**2022**	2021
Balance at beginning of year		**P28,827,200**	P12,471,980
Current service cost	15, 16	**24,438,600**	29,336,292
Interest cost	15, 16	**1,187,300**	611,056
Benefits paid		**(906,600)**	(2,290,543)
Remeasurement gain		**(7,153,600)**	(11,301,585)
Balance at end of year		**P46,392,900**	P28,827,200
		P28,827,200	P12,471,980

The retirement benefits cost recognized as part of "Cost of services" and "Operating expenses" accounts in the statements of comprehensive income for the years ended March 31, 2022 and 2021 were determined as follows

	Note	2022	2021
Current service cost		**P24,438,600**	P29,336,292
Interest cost		**1,187,300**	611,056
	15, 16	**P25,625,900**	P29,947,348

The retirement benefits costs are broken down as follows:

	Note	2022	2021
Costs of services	15	**P14,991,856**	P19,213,683
Operating expenses	16	**10,634,044**	10,733,665
		P25,625,900	P29,947,348

The movement of cumulative remeasurement gain presented in the statements of changes in equity follows:

	2022	2021
Balance at beginning of year	**P36,257,329**	P24,955,744
Actuarial gain (loss):		
Due to liability assumption changes	**11,195,100**	(3,372,900)
Due to liability experience	**(4,041,500)**	14,674,485
	7,153,600	11,301,585
Balance at the end of year	**P43,410,929**	P36,257,329

Amount, Timing and Uncertainty of Future Cash Flows

Sensitivity analysis on the defined benefits obligation is as follows:

2022		**Sensitivity Analysis**	**Effect on DBO**
Discount rate	**6.75%**	**1% increase**	**(12.13%)**
Discount rate	**4.75%**	**1% decrease**	**15.15%**
Salary increase rate	**7.00%**	**1% increase**	**14.96%**
Salary increase rate	**5.00%**	**1% increase**	**(12.21%)**

2021		Sensitivity Analysis	Effect on BDO
Discount rate	5.25%	1% increase	(15.16%)
Discount rate	3.25%	1% increase	19.28%
Salary increase rate	7.00%	1% increase	18.73%
Salary increase rate	5.00%	1% increase	(15.07%)

Methods and Assumptions Used in Sensitivity Analysis

All other assumptions were kept constant in determining the sensitivity results above.

Changes since previous period

There were no changes in the methods and assumptions used in preparing the sensitivity analysis.

Description of Assets-liability Matching Strategies

Since the DBO is still unfunded, there are no plan assets to match against the DBO.

Description of Funding Arrangement and Policies

Since the DBO is still unfunded, benefit claims under the DBO are paid directly by the Company when they become due.

19. Income Taxes

The Company's registered activities with PEZA are under the income tax holiday and special rate of 5% on gross income.

	2022	2021
Current income tax expense	**P13,360,310**	P4,478,631
Deferred tax expense (benefit)	**199,982**	(44,793)
	P13,560,292	4,433,839

The reconciliation of the income tax expense computed at the statutory income tax rate to the actual income tax expense as shown in the statements of comprehensive income for the taxable fiscal years ended March 31, 2022 and 2021 is as follows:

	2022	2021
Income before income tax	**P210,129,995**	P122,821,599
Less other income subject to RCIT	**5,310,305**	4,117,637
Income subject to GIT	**P204,819,690**	P118,703,962
Tax expense at 5%	**P10,240,984**	P5,935,198
Non-deductible expense	**24,817,426**	24,545,308
Nontaxable income subject to tax holiday	**(22,756,167)**	(27,181,142)
Tax expense subject to RCIT	**1,327,576**	1,080,880
Movement on unrecognized DTA	**(60,197)**	60,197
Nontaxable income subject to final tax	**(9,330)**	(6,602)
	P13,560,292	P4,433,839

The tax rate used for the 2022 and 2021 reconciliation above is the 5% special rate whose tax base is the gross income under the PEZA registered activities. Any income earned outside the PEZA registered activities are subject to Regular Corporate Income Tax (RCIT).

The deferred tax assets arising from various provisions and unrealized foreign exchange loss amounting to nil in 2022 and P60,197 in 2021 were not recognized as the management does not expect that there will be sufficient taxable profits against which the assets can be utilized before the expiration.

The deferred tax liability arising from the unrealized foreign exchange gains amounting to P199,982 in 2022 and nil in 2021.

Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act.

CREATE is an act reforming the corporate income tax and incentives system, amending for the purpose certain sections of Internal Revenue Code of 1997, as amended, and creating therein new title XIII, and for other purposes.

On March 26, 2021, the President of the Philippines has approved the CREATE Act, with nine (9) provisions vetoed by the President. Below are the salient features of the Act that are relevant to the Company:

a) Corporate income tax rate is reduced from 30% to 20% for domestic corporations with net taxable income not exceeding P5 million and with total assets not exceeding P100 million. All other domestic corporations and resident foreign corporations will be subject to 25% income tax. Said reductions are effective July 1, 2020.

b) Minimum corporate income tax (MCIT) rate is reduced from 2% to 1% effective July 1, 2020 to June 30, 2023.

c) The imposition of improperly accumulated earnings tax has been repealed.

d) Definition of reorganization for purposes of applying the tax-free exchange provision under Section 40(C)(2) is expanded. Prior BIR ruling or confirmation shall not be required for purposes of availing the tax exemption of the exchange.

e) Qualified export enterprises shall be entitled to 4 to 7 years income tax holiday (ITH) to be followed by 10 years 5% SCIT OR Enhanced Deductions (ED).

f) Qualified domestic market enterprises shall be entitled to 4 to 7 years ITH to be followed by 5 years ED.

g) Registered enterprises are exempt from customs duty on importation of capital equipment, raw materials, spare parts, or accessories directly and exclusively used in the registered project or activity.

h) VAT exemption on importation and VAT zero-rating on local purchases shall only apply to goods and services directly and exclusively used in the registered project or activity by a registered business enterprise (RBE).

i) For investments prior to effectivity of CREATE: RBEs granted only an ITH - continue with the availment of the ITH for the remaining period of the ITH. RBEs granted an ITH + 5% GIT or currently enjoying 5% GIT - allowed to avail of the 5% GIT for 10 years.

The measure is set to take effect 15 days after its complete publication in the Official Gazette or in a newspaper of general circulation. After which, the implementing rules and regulation will be issued by the tax authority.

On April 8, 2021, the Bureau of Internal Revenue (BIR) issued the following implementing revenue regulations that are effective immediately upon publication:

- BIR Revenue Regulations (RR) No. 2-2021, Amending Certain Provisions of Revenue Regulations No. 2-98, As Amended, to Implement the Amendments Introduced by Republic Act No. 11534, or the “Corporate Recovery and Tax Incentives for Enterprises Act” (CREATE), to the National Revenue Code of 1997, as Amended, Relative to the Final Tax on Certain Passive Income
- BIR RR No. 3-2021, Rules and Regulations Implementing Section 3 of Republic Act (RA). No. 11534, Otherwise Known as the “Corporate Recovery and Tax Incentives for Enterprises Act” or “CREATE”, Amending Section 20 of the National Internal Revenue Code of 1997, As Amended
- BIR RR No. 4-2021, Implementing the Provisions on Value-Added Tax (VAT) and Percentage Tax Under Republic Act (RA) No. 11534, Otherwise Known as the “Corporate Recovery and Tax Incentives for Enterprises Act” (CREATE) Which Further Amended the National Revenue Code of 1997, as Amended, as Implemented by Revenue Regulations (RR) No. 16-2005 (Consolidated Value-Added Tax Regulations of 2005), As Amended
- BIR RR No. 5-2021, Implementing the New Income Tax Rates on the Regular Income of Corporations, on Certain Passive Incomes, Including Additional Allowable Deductions from Gross Income of Persons Engaged in Business or Practice of Profession Pursuant to Republic Act (RA) No. 11534 or the “Corporate Recovery and Tax Incentives for Enterprises Act” (CREATE), Which Further Amended the National Revenue Code (NIRC) of 1997

Applying the provisions of the CREATE Act, the Company was subjected to a lower regular corporate income tax rate (RCIT) of 25% effective July 1, 2020 in its statutory income tax return.

20. Fair Value Information

The fair value of Company’s financial assets and liabilities:

	Note	**2022**		2021	
		Carrying Amount	**Fair Value**	Carrying Amount	Fair Value
Financial Assets					
Cash and cash equivalents	6	**P431,795,781**	**P431,795,781**	P322,813,523	P322,813,523
Trade receivables	7	**165,618,969**	**165,618,969**	162,126,101	162,126,101
Refundable deposits	11	**36,690,875**	**36,690,875**	29,271,618	29,271,618
		P634,105,625	**P634,105,625**	P514,211,242	P514,211,242
Financial Liabilities					
Trade and other payables*	12	**129,808,957**	**129,808,957**	P108,782,931	P108,782,931
Lease liabilities	17	**375,752,493**	**375,752,493**	281,591,352	281,591,352
		P505,561,450	**P505,561,450**	P390,374,283	P390,374,283

*Excluding non-financial liabilities amounting to P20,926,320 and P12,607,516 as at March 31, 2022 and 2021, respectively.

The difference between the carrying amount of trade and other receivables and trade and other payables disclosed in the statements of financial position and the amount disclosed in this note pertains to advances to officers and employees and government payables since these are not considered as financial assets or liabilities.

The following summarizes the major methods and assumptions used in estimating the fair values of financial instruments:

Cash and Cash Equivalents, Trade and Other Receivables and Trade and Other Payables

The carrying amounts approximate their fair values due mainly to the relatively short-term maturities of these financial instruments.

Refundable Deposits

The carrying amount approximates it fair value as the effect of discounting is not considered material.

Lease Liabilities

The carrying amount approximates its fair value because the difference between the interest rate of this instrument and the prevailing market rate for a similar instrument is not considered significant.

21. Financial Risk Management

Financial Risk Management Objectives and Policies

The main purpose of the Company's financial instruments is to fund the Company's operation and to acquire and improve property and equipment. The main risks arising from the use of financial instruments are credit risk, liquidity risk and market risk which includes interest rate risk and foreign currency risk. These are summarized below:

Credit Risk

Credit risk is the risk that a counterparty will not meet its obligation under a financial instrument or customer contact, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily from cash and cash equivalents and receivables).

With respect to credit risk arising from the Company's financial assets, which comprise of cash and cash equivalents, trade receivables and refundable deposits, the Company's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of these instruments.

The Company controls this risk through monitoring procedure and regular coordination with the debtors. Receivable balances are monitored on an ongoing basis with the result that its exposure to bad debts is not significant.

The table below presents the Company's maximum exposure to credit risk without taking account of the value of any collateral obtained:

	Note	2022	2021
Cash and cash equivalents*	6	**P431,725,781**	P322,743,523
Trade receivables	7	**165,618,969**	162,126,101
Refundable deposits	11	**36,690,875**	29,271,618
		P634,035,625	P514,141,242

*Excluding Cash on hand amounting P70,000 in 2022 and 2021.

The Company does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

ECLs are a probability-weighted estimate of credit losses (i.e. the present value of all cash shortfalls) over the expected life of the financial instrument.

The Company's current credit risk grading framework comprises the following categories:

Category	Description	Basis for Recognizing ECL
Performing	The counterparty has a low risk of default and does not have any past-due amounts	Lifetime ECL
Doubtful	Amount is >30 days past due or there has been a significant increase in credit risk initial recognition	Lifetime ECL - not credit-impaired
In default	Amount is >90 days past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL - credit-impaired
Write-off	There is evidence indication that the debtor is in severe financial difficulty and the Company has no realistic prospect of recovery	Amount is written-off

The following table details the credit quality of the Company's financial assets and other items, as well as the Company's maximum credit exposure to credit risk by credit risk rating grades as at March 31, 2022 and 2021:

2022	**Note**	**Internal Credit-rating**	**12m or Lifetime ECL**	**Gross Carrying Amount**	**Loss Allowance**	**Net Carrying Amount**
Cash and cash equivalents*	6	**Performing**	**12m ECL**	**P431,725,781**	**P -**	**P431,725,781**
Trade receivables	7	**Performing**	**Lifetime ECL**	**165,618,969**	**-**	**165,618,969**
Refundable deposits	11	**Performing**	**Lifetime ECL**	**63,958,504**	**27,267,629**	**36,690,875**
				P661,303,254	**P27,267,629**	**P634,035,625**

*Excluding Cash on hand amounting to P70,000.

2021	Note	Internal Credit-rating	12m or Lifetime ECL	Gross Carrying Amount	Loss Allowance	Net Carrying Amount
Cash and cash equivalents*	6	Performing	12m ECL	P322,743,523	P -	P322,743,523
Trade receivables	7	Performing	Lifetime ECL	162,126,101	-	162,126,101
Refundable deposits	11	Performing	Lifetime ECL	56,539,247	27,267,629	29,271,618
				P541,408,871	P27,267,629	P514,141,242

*Excluding Cash on hand amounting to P70,000.

For trade receivables, the Company has applied the simplified approach in PFRS 9 to measure the loss allowance at lifetime ECL. The Company determines the ECL on these items by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions. Accordingly, the credit risk profile of these assets is presented based on their past due status in terms of the provision matrix.

Liquidity Risk

Liquidity pertains to the risk arising from the shortage of funds due to unexpected events or transactions.

The Company seeks to manage its liquidity profile to be able to finance its capital expenditures and operations. The Company maintains a level of cash deemed sufficient to finance operations. To cover its financing requirements, the Company obtains advances from its Parent Company, when necessary. As part of its liquidity risk management, the Company regularly evaluates its projected and actual cash flows.

The table below summarizes the maturity profile of the Company’s financial assets and liabilities as at March 31, 2022 and 2021 on undiscounted contractual cash flows.

2022	**Note**	**On Demand**	**Due Within 30 Days**	**Due Within 1 Year**	**Due Beyond 1 Year but not More than 5 Years**	**Total**
Cash and cash equivalents*	6	**P26,505 ,781**	**P405,220,000**	**P -**	**P -**	**P431,725,781**

**Excluding non-financial liabilities amounting to P9,481,362.

Interest Rate Risk

Interest rate risk is the risk that the value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The primary source of the Company's interest rate risk relates to cash in banks and lease liabilities. The interest rates on these assets is disclosed in Notes 6 and 17.

The Company has a policy in place in managing interest rate risk and is monitored on an ongoing basis.

Foreign Currency Risk

Foreign exchange risk arises when an investment 's value changes due to variations in the currency exchange rate. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities that are denominated in a currency that is not the Company's functional currency. The Company undertakes certain transactions denominated in Philippine Peso. Hence, exposures to exchange rate fluctuations arise with respect to such transactions.

Significant fluctuation in the exchange rates could significantly affect the Company's financial position. The Company has a policy in place in managing foreign currency risk and is monitored on an ongoing basis.

The carrying amounts of the Company's foreign currency-denominated monetary assets and monetary liabilities at the end of each reporting period are as follows:

	2022	2021
Cash and cash equivalents	**P173,547,418**	P147,463,505
Trade and other receivables	**165,618,969**	162,126,101
Net exposure	**P339,166,387**	P309,589,606

The following table details the Company's sensitivity to the exchange rate fluctuation of U.S. Dollar against Philippine Peso. The sensitivity rates used in reporting foreign currency risk internally to key management personnel is 5% in 2022 and 2021 which represent Management's assessment of the reasonably possible change in foreign exchange rates based on historical trends. The sensitivity analysis includes only outstanding foreign currency-denominated monetary items as at the end of the reporting period. A negative number below indicates a decrease in profit when the US Dollar strengthen by 5% in 2022 and 2021 against the relevant currency. For a 5% in 2022 and 2021 increase of the US Dollars against Philippine Peso, there would be an equal and opposite impact on profit and the balances below would be negative.

	Effect on Profit Before Tax for the Year	
	2022	2021
Cash and cash equivalents	**P8,677,371**	P7,373,175
Trade and other receivables	**8,280,948**	8,106,305
	P16,958,319	P15,479,480

The above sensitivity analysis is applicable in determining the effect on equity of the changes in foreign exchange rates.

In Management 's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

22. Capital Risk Management

The primary objective of the Company's capital management is to ensure that it maintains healthy capital ratios in order to support its business, maximize shareholder value, maintain various stakeholders' confidence and sustain future development of the business. The Company manages its capital structure and makes adjustments to these ratios in light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may issue stock dividend to shareholders, return or issue capital. No significant changes have been made in the capital management approach as they have been applied in previous years. The Company has not been subjected to externally imposed capital requirements. No major changes were made in the objectives, policies and procedures in 2022 and 2021.

The Company considers the following as its capital:

	2022	2021
Share capital	**P9,500,000**	P9,500,000
Retained earnings	**687,340,745**	490,771,043
Cumulative remeasurement gain on retirement benefits	**43,410,929**	36,257,329
	P740,251,674	P536,528,372

The debt to equity ratio at year-end was as follows:

	2022	2021
Debt	**P575,060,893**	P433,627,916
Equity	**740,251,674**	536,528,372
	0.78:1	0.81:1

INDEPENDENT AUDITOR´S REPORT ON FINANCIAL STATEMENTS

To

Shareholders, Board of Directors and Officers
Tech Mahindra Serviços de Informática S.A.
São Paulo - SP

Opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Tech Mahindra Serviços de Informática S.A. ("the Company") as at March 31, 2022, and its financial performance and its cash flows for the year then ended in accordance with accounting practices adopted in Brazil and International Financial Reporting Standards (IFRSs). We have audited the financial statements of the Company, which comprise the statement of financial position as at March 31, 2022, and the statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

Basis for Opinion

We conducted our audit in accordance with Brazilian and International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company within the meaning of ethical requirements, applicable law, regulation and have fulfilled our other responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices adopted in Brazil and IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. Management is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Brazilian and ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Brazilian and ISAs, we exercise professional judgment and maintain professional skepticism throughout the planning and performance of the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

We are required to communicate with Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO FINANCIAL STATEMENTS AS OF MARCH 31, 2022 AND 2021

(In Thousands of Reais)

1. Operations

Tech Mahindra Serviços de Informática S.A. ("Tech Mahindra" or "Company") is a closely held corporation and primarily engaged in rendering consulting services related to information technology, implementation of projects and selling software. The Company is located in São Paulo city.

On January 1st, 2017, Tech Mahindra Serviços de Informática S.A. incorporated Complex IT Solution Consultoria em Informática S.A.

2. Basis for preparation and presentation of financial statements

Authorization to complete these financial statements was given at the General Meeting held on April 18, 2022.

The financial statements were prepared in accordance with several assessment bases used in the accounting estimates. Accounting estimates involved in the preparation of the financial statements were based on both objective and subjective factors, and in line with management's judgment to determine the appropriate amounts to be recorded in the financial statements. Significant items subject to these estimates and assumptions include selection of useful lives of property and equipment and their recoverability on operations in operations, measurement of financial assets at fair value and under the present value method, credit risk analysis to determine the allowance for doubtful accounts, as well as other risk analysis to determine other provisions, including provision for contingencies.

Settlement of transactions involving these estimates may result in amounts significantly different from those recorded in the financial statements due to the probability treatment inherent to the estimation process. The Company reviews its estimates and assumptions at least once a year.

The financial statements were prepared in accordance with accounting practices adopted in Brazil, which comprise the Brazilian Corporation Laws, the standards issued by the Brazilian Securities and Exchange Commission (CVM), and pronouncements, interpretations and guidance issued by the Brazilian FASB (CPC), as well as in compliance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

3. Summary of significant accounting practices

3.1. Translation of foreign currency-denominated balances

3.1.1 Functional and reporting currency

The Company's functional currency is the Brazilian real, same currency for preparation and presentation of the financial statements.

3.1.2 Transactions denominated in foreign currency

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency (Real) using the exchange rate of balance sheet date. Gains and losses resulting from the restatement of these assets and liabilities due to exchange rate variation between transaction date and year end are recognized as financial income or financial expenses in the income statement.

3.2. Revenue recognition

Revenues are stated on the accrual basis of accounting. Revenue is recognized to the extent that it is probable that economic benefits will flow to the Company and when it can be reliably measured.

3.3. Taxation

3.3.1. Sales taxes

Sales and service revenues are subject to the taxes and social contributions below, at the following statutory rates:

- Social Contribution Tax on Gross Revenue for Social Integration Program (PIS) 0,65%;
- Social Contribution Tax on Gross Revenue for Social Security Financing (COFINS) 3,00%;
- Service tax (ISS) – 2% à 5%.

3.3.2. Current income and social contribution taxes

Taxable profit comprises income and social contribution taxes, Income tax is calculated at a rate of 15%, plus a surtax of 10% on taxable profit exceeding R$240 over 12 months, whereas social contribution tax is computed at a rate of 9% on taxable profit, both recognized on an accrual basis; therefore additions to book income of temporarily nondeductible expenses or exclusions of temporarily non-taxable income upon determination of current taxable profit generate deferred tax assets or liabilities.

Prepaid or recoverable taxes are stated in current or non-current assets, according to the forecast of realization thereof.

3.4. Cash and cash equivalents

These include cash, bank account balances and short-term investments redeemable within 90 days from the transaction dates, subject to insignificant risk of change in their market value. Short-term investments included in cash equivalents are mostly classified as “financial assets at fair value through profit or loss”.

3.5. Property & equipment

These are recorded at acquisition cost. Depreciation of assets is calculated on a straight-line basis and takes into consideration the estimated economic useful lives of assets.

A property and equipment item is written off when sold or when no future economic benefit is expected to arise from its use or sale. Gains or losses arising from de-recognition of an asset (measured as the difference between the net disposal proceeds and the carrying amount of the asset) are recognized in the statement of income in the period which the asset is derecognized.

The net book value and useful lives of the assets and the depreciation methods are reviewed at period end, and adjusted prospectively, when applicable.

After calculating net book value of property and equipment for financial statement purposes, the Company determines whether it is necessary to recognize additional loss of property and equipment value aggregated with other assets, such as investments and intangible assets in cash-generating units.

Due to changes in Brazilian accounting practices on the path to full convergence with international standards, first-time adopters of Accounting Pronouncements CPC 27 (IAS 16) and CPC 28 (IAS 40) may elect to make adjustments to their opening balances similarly to those allowed by international financial reporting standards, using the deemed cost concept as provided for in CPC 37 (IFRS 1) and CPC 43.

3.6. Intangible assets

Intangible assets acquired separately are measured at cost upon their initial recognition. After initial recognition, intangible assets are stated at cost, less accumulated amortization and impairment. Intangible assets are represented by goodwill related to acquisition of Complex IT Solution Consultoria em Informática S.A. and software. The useful life of intangible assets is considered finite or indefinite.

Finite intangible assets are amortized over their economic useful lives and are tested for impairment whenever there is any indication of impairment loss. The amortization period and method for an intangible asset with a finite useful life are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates. Amortization of intangible assets with finite lives is recognized in the income statement in the expense category consistent with the use of the intangible asset.

Gains and losses arising from write-off of an intangible asset are measured as the difference between the net sales price and the book value of the asset, recognized in the income statement at the write-off of the asset.

3.7. Impairment of assets

Management annually reviews the net book value of assets in order to evaluate events or changes in economic, operating or technological circumstances that may indicate deterioration or impairment. When such evidence is identified and the net book value exceeds the recoverable value, a provision for impairment is setup, adjusting the net book value to the recoverable value.

The recoverable value of an asset or group of assets is defined as the higher of value in use or the net sales value.

In estimating the asset’s value in use, the estimated future cash flows are discounted to their present value, using a discount rate before taxes that reflects the weighted average cost of capital for the segment where the cash-generating unit operates. Whenever possible, the net sales value is determined based on firm sale agreements in transactions made on an arm’s length basis between knowledgeable and willing parties, adjusted by expenses attributed to asset sales or, when there is no firm sale agreement, based on the market price of an active market, or the most recent transaction price with similar assets.

3.8. Provisions

3.8.1 General

Provisions are recognized when the Company has a legal or constructive obligation due to a past event, it is probable that economic resources will be required to settle it and a reliable estimate of the obligation amount may be made. When the Company expects that the amount of a provision will be refunded, in full or in part, the refund is recognized as a separate asset, but only when the refund is virtually certain. The expense related to any provision is stated in the income statement, net of any refund.

3.8.2 Provision for litigation

The Company is a party in judicial and administrative proceedings. Provisions are set up for all judicial proceedings involving probable cash outlays to settle them and that may be reliably estimated, if applicable.

The assessment of the likelihood of loss includes analysis of available evidence, hierarchy of laws, available case law, recent court decisions and their relevance for the legislation in force, as well as the opinion of the Company's outside legal counsel.

These provisions are reviewed and adjusted to consider changes in circumstances, such as applicable statute-barring period, conclusions of tax audits or additional exposures found based on new issues or court decisions, if applicable.

The provision for contingencies is determined by management based on expected amount of loss involved by each contingency based on the opinion of the Company's legal advisors, for amounts considered sufficient to cover losses and risks, if applicable.

3.9. Financial instruments

The Company's financial instruments comprise trade accounts receivable, other receivables, trade accounts payable, other liabilities, financial instruments derivatives and related parties.

The instruments are only recognized as from the date the Company becomes a party to the contractual provisions of financial instruments.

They are initially recognized at fair value plus transaction costs that are directly attributable to their acquisition or issue, excepting financial assets and liabilities classified as at fair value through profit or loss, when such costs are directly posted to income statement for the year. They are subsequently measured at each balance sheet date in accordance with the rules established for each type of classification of financial assets and liabilities.

3.9.1 Financial assets: These are classified in the following categories based on the purpose for which they were acquired or issued:

a) Financial assets at fair value through profit or loss: Include financial assets held for trading and financial assets initially recognized at fair value through profit or loss. Financial assets are classified as held for trading if acquired to be sold within short term.

The Company evaluated its financial assets at fair value through profit or loss since it intends to trade them within short term.

When the Company is unable to trade these financial assets as a consequence of market inactivity, and management intention of selling them in the near future changes significantly, the Company may opt to reclassify these financial assets in certain circumstances. The reclassification to loans and accounts receivable, available for sale or held to maturity depends on asset nature. This evaluation does not affect any financial assets classified as at fair value through profit or loss using the option of fair value upon presentation.

b) Loans and receivables: Loans and receivables are non-derivative financial assets, with fixed or determinable payments, not quoted in an active market. After initial measurement, these financial assets are stated at amortized cost, using effective interest rate method, less impairment loss. Trade accounts receivable and other receivables were classified in this category.

3.9.2 Financial liabilities: These are classified in the following categories based on the nature of financial instruments taken out or issued:

a) Financial liabilities at fair value through profit or loss: These include financial liabilities held for trading and liabilities designated upon initial recognition at fair value through profit or loss.

They are classified as held for trading when acquired with the objective of sale or repurchase in the short term. Derivative financial instruments are classified as held for trading. They are measured at fair value at every balance sheet date.

Interest, monetary restatement, exchange variation and variations resulting from fair value valuation are recognized in P&L when incurred in financial income or expenses.

b) Loans and financing: Non-derivative financial liabilities that are not usually traded before maturity.

After initial recognition, they are subsequently measured at amortized cost using the effective interest rate method. Interest, monetary and exchange variation, as applicable, are recognized in P&L when incurred, Trade accounts payable, other liabilities and related parties were classified in this category.

3.9.3 Market value: The market value of financial instruments actively traded in organized markets is determined based on quoted values in the market at balance sheet date, In case there is no active market, market value is determined through valuation techniques. These techniques include the use of recent market transactions between unrelated parties, reference to market value of similar financial instruments, analysis of discounted cash flows or other valuation models.

3.10. Present value adjustment of assets and liabilities

Non-current monetary assets and liabilities are adjusted at present value, and also current ones but only when the effect is considered significant in relation to the overall financial statements. Present value adjustment is calculated taking into consideration contractual cash flows and the express interest rate and, in certain cases, the implicit interest rate of the related assets and liabilities. As such, embedded interest in revenues, expenses and costs related to these assets and liabilities is discounted in order to be recognized on the accrual basis of accounting.

Subsequently, such interest is relocated in the lines of financial expenses and financial income in the income statement using the effective interest rate method in relation to the contractual cash flows. Applied implicit interest rates were determined based on assumptions and are considered accounting estimates.

3.11. Significant accounting judgments, estimates and assumptions

The Company's financial statements were prepared considering different valuation bases used in accounting estimates. The accounting estimates involved in the preparation of the individual and consolidated financial statements were based on objective and subjective factors, considering management's judgment to determine the appropriate amounts to be recorded in the financial statements.

Significant items subject to these estimates and assumptions include the selection of the useful life of property and equipment items and their recoverability in operations; the evaluation of financial assets at fair value; assessment of the credit risk for the determination of the allowance for doubtful accounts, as well as the analysis of other risks to determine other provisions, including the provisions for guarantees, realization of tax credits and contingencies. Settlement of transactions involving these estimates may result in amounts significantly different from those recorded in the financial statements due to the probabilistic treatment inherent to the estimate process. The Company periodically reviews its estimates and assumptions at least once a year.

3.11.1 Impairment of non-financial assets

Impairment loss exists when the carrying value of an asset or cash-generating unit exceeds its recoverable amount, which is the higher of fair value less cost to sell and value in use. The calculation of fair value less cost to sell is based on information available on sale transactions of similar assets or market price less additional costs to dispose of the asset.

3.11.2 Taxes

There are uncertainties regarding the interpretation of complex tax regulations and the amount and term of future taxable income. The long-term nature and the complexity of existing contractual instruments, differences between actual results and assumptions adopted, or future changes in these assumptions could require future adjustments in the already recorded revenue and tax expenses.

The Company sets up provisions, based on reasonable estimates of the possible consequences of audits by tax authorities in respective jurisdictions in which it operates.

The value of these provisions is based on various factors such as previous experience of tax audits and differing interpretations of tax regulations by the taxed entity and the respective tax authority. These differences of interpretation may arise on a wide variety of subjects depending on conditions prevailing in the Company's domicile.

Significant judgment from management is required to determine the value of deferred tax assets that can be recognized based on the probable term and level of future taxable income together with future tax planning strategies.

3.11.3 Provision for litigation

The Company recognizes provision for civil, tax and labor proceedings, as applicable. The assessment of the chances of loss includes analysis of available evidence, hierarchy of laws, available case law, recent court decisions and their relevance in the legal system, as well as the opinion of the Company's outside legal counsel. These provisions are reviewed and adjusted to consider changes in circumstances, such as applicable statute-barring period, conclusions of tax audits or additional exposures found based on new issues or court decisions.

3.12. Cash flow statements

Cash flow statements were prepared by the indirect method and are presented in accordance with CPC 03 (R2) – Cash Flow Statements, issued by Brazilian FASB (CPC).

3.13. Business combination and goodwill

When acquiring a business, the Company assesses the financial assets and financial liabilities assumed in order to classify and allocate them according to the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

Initially, goodwill is measured as the excess of the consideration transferred over the net assets acquired (net identifiable assets acquired and liabilities assumed). If the consideration is less than the fair value of net assets acquired, the difference is recognized as a gain in the income statement.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For purposes of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of Company´s cash generating units that are expected to benefit from the synergies of the combination.

Remuneration of key management

Expenses related to remuneration of key management personnel of the Company, recognized in P&L an amount of R$5,047 at March 31, 2022 (R$4,241 at March 31, 2021).

11. Provision for contingencies

The Company, in the normal course of its operations, is a party to judicial proceedings. Management, based on information from its legal advisors and the analysis of judicial proceedings pending judgment, concluded and set up a provision amounting to R$40,733 (R$63,933 as of March 31, 2021) related to labour and tax causes classified as probable loss risk assessment.

12. Equity

As of March 31, 2022, the capital is represented by 194,189,059 (One hundred ninety four millions, one hundred eighty nine thousand, fifty nine) shares totalizing an amount of R$253,324,118.00 (Two hundred and fifty three millions, three hundred, twenty four thousands, one hundred and eighteen Reais) recorded as follows:

Shareholders	**Nº Quotas**	**%**
Tech Mahindra Limited	194,189,059	100,00
	194,189,059	**100,00**

13. Financial instrument and risk management

13.1 Risk management

As mentioned in Note 1, the Company primarily engaged in rendering consulting services related to information technology, implementation of projects and selling software.

The key market risks faced by the Company in the normal course of its businesses are as follows:

- Credit risk: arises from possible difficulty in settling accounts receivable from customers. This risk is managed by means of a credit analysis policy
- Market risk: the Company is exposed to market risk that can impact your cash flow.
- Liquidity risk: consists of the possibility of the Company not having sufficient funds to honor its commitments due to the different terms for settlement of its rights and obligations. The Company's liquidity and cash flow control is monitored by the Company's financial management department, to ensure that cash flow from operations and the previous funding, when necessary, are sufficient to meet its commitment schedule, not generating liquidity risks for the Company.

13.2 Financial instruments

(a) Financial instruments

We set out below a comparison between book value and fair value of the Company's financial instruments presented in the financial statements:

Financial assets	**31.03.2022**	31.03.2021	**31.03.2022**	31.03.2021

(b) Derivatives

There is no financial instruments derivatives as of Mach 31, 2022 and 2021

14. Insurance coverage (unaudited)

At March 31, 2022 and 2021, insurance coverage taken out is considered sufficient by management to cover losses, if any. As these refer to immaterial amounts, they were not audited.

15. Capital management

Management's objective is to ensure reduced exposure to market risk in order to attain the growth and return objective.

Following the global management policy, in order to reduce any risks, the Company maintains relationships only with first tier financial institutions.

16. Earnings (losses) per unit of interest

Calculation of basic earnings (losses) per unit of interest is made by dividing net income (loss) for the year attributed to holders of the Company's units of interest by the weighted average number of units of interest available in the year ended.

The chart below sets out net income and units of interest used in the calculation of basic and diluted earnings per unit of interest:

	31.03.2022	31.03.2021
Basic and diluted earnings per unit of interest		
Numerator		
Income / (Loss) for the year attributed to Company unit of interest holders (in thousands of reais)	**34,121**	(130,124)
Denominator (in units of interest)		
Weighted average number of units of interest	194,189,059	59,135,059
Basic and diluted earnings (losses) per units of interest (in R$)	**0.176**	(2.200)

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Partners of
Tech Mahindra de México, S. de R. L. de C. V.:

Opinion

We have audited the financial statements of Tech Mahindra de México, S. de R. L. de C. V. (the Company), which comprise the statements of financial position as at December 31, 2021 and 2020, the statements of income, changes in partners s' equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Tech Mahindra de México, S. de R. L. de C. V. as at December 31, 2021 and 2020, and its results and its cash flows for the years then ended, in accordance with Mexican Financial Reporting Standards (FRS).

Basis of Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Mexico, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

As described in note 1, the main activity of Tech Mahindra de México, S. de R. L. de C. V. is to provide computing consulting services. At December 31, 2021 and 2020 services rendered to Tech Mahindra Limited represents the 100% of the revenues. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with FRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Increase (decrease) in:		
Accounts payable (including due to related party)	(23,056,860)	67,153,101
Short term employee benefits (current and non-current)	5,431,158	1,539,237
Post-employment employee benefits	(208,398)	4,547,557
Accrued expenses and taxes	(66,460,254)	91,535,526
Cash flows from operating activities before tax:		
Tax paid	(19,735,349)	(38,397,477)
Net cash flows from operating activities	**(114,094,679)**	**166,428,587**
Investing activities:		
Acquisitions of equipment (net of sale proceeds)	(17,826,662)	(44,817,600)
Rent income - Inter company	2,049,405	2,057,056
Net cash flows used in investing activities	**(15,777,257)**	**(42,760,544)**
Financing activities:		
Repayment of lease liabilities- Net cash flows used in financing activities	**(27,411,761)**	**(5,905,924)**
Net (decrease) increase in cash and cash equivalents	**(157,283,697)**	**117,762,119**
Cash at beginning of the year	**173,721,614**	**55,959,495**
Cash at end of the year	**$ 16,437,917**	**173,721,614**

See accompanying notes to financial statements.

NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2021 and 2020

(In Mexican pesos)

1. Activities

a. Activities-

Tech Mahindra de México, S. de R.L. de C.V. (the “Entity or Company”) was incorporated on June 30, 2008 under the laws of Mexico. Its address is Av. Eje 5 Norte # 990, Edificio F - Planta Baja, Colonia Santa Bárbara, C.P. 02230, Delegación Azcapotzalco, Distrito Federal México.

The Company is principally involved in computing consulting services and operates primarily in Mexico. Its holding company is Tech Mahindra Limited, an Indian public listed company. The Company carries out certain transactions with its Holding company as described in note 10.

Outstanding event

The infectious disease caused by the SARS-COV2 virus (hereinafter “COVID-19”) was declared a pandemic on March 11, 2020 by the World Health Organization; Consequently, sanitary measures have been taken to limit the spread of this virus, including, but not limited to, social distancing and the closure of educational centers (schools and universities), commercial establishments and non-essential businesses in the public, private and social, as a strategy to combat this pandemic.

A part of the operations of the Company was considered an essential activity and it did not totally stop operation. On the other hand, it required the implementation of some security measures to safeguard the health of the employees according to the Government’s indications, therefore which, the Company had to incur an expense of approximately $106,802 and $271,493 in 2021 and 2020 respectively.

Relevant event

As a result of the labor subcontracting reform, as of July 16, 2021, the Company has hired personnel under its charge to carry out the activities that are part of its corporate purpose in place of sub-contractors.

b. Financial statement authorization and presentation-

On June 22, 2022, the issuance of the financial statements was authorized by Mr. Archit Ashok (Board Manager and Secretary) and Roberto Carlos Esquivel (Finance Controller). These financial statements are subject to the approval of the Board of Partners and the general ordinary partners’ meetings, where they may be modified, based on provisions set forth by the General Corporate Law.

2. Basis of presentation

a. Statement of compliance – The accompanying financial statements have been prepared in accordance with Mexican Financial Reporting Standards (MFRS).

b. Use of estimates – The preparation of financial statements requires Management to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amount of revenues and expenses during the reporting. Actual results could differ from those estimates and assumptions.

c. Judgments – Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following notes:

Note 3 m - Leases: whether an arrangement contains a lease.

d. Assumptions and estimation uncertainties – Information about assumptions and estimation uncertainties at December 31, 2021 that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next financial year is included in the following notes:

Note 3 m - Leases: determination of lease period in case of an option of renew.

e. Explanation for preparation in English - The accompanying financial statements have been prepared in English for use outside of Mexico. These financial statements are presented on the basis of Mexican Financial Reporting Standards (“Mexican FRS” or “Mex FRS”), which are comprised of accounting standards that are individually referred to as Normas de Información Financiera, or “NIFs”). Certain accounting practices applied by the Entity that conform with Mex FRS may not conform with accounting principles generally accepted in the country of use.

f. Monetary unit of the financial statements –The financial statements and notes as of December 31, 2021 and 2020 and for the years then ended are presented in Mexican pesos (reporting currency), which is the same as the local currency and the functional currency.

g. Statement of comprehensive income presentation - The Company presents comprehensive income in a single statement of net income entitled “Statement of Operations” given that the Company did not generate Other Comprehensive Income (OCI) during the current year or the preceding year, which is presented for comparative purposes.

Ordinary costs and expenses are presented based on their function because it is the practice of the industry to which the Entity belongs. Additionally, the “Income from Operation” line item is included, which results from subtracting the cost of sales and expenses from net sales, as this line item is considered to provide a better understanding of the Company’s economic and financial performance.

3. Summary of the significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, and have been applied consistently by the Company:

a. Recognition of the effects of inflation

The Mexican FRS B-10 “Effects of inflation” requires the recognition of inflation until December 31, 2017. Since January 1, 2008, the Mexican FRS B-10 requires the recognition of the effects of inflation when the Company operates in an inflationary economic environment (cumulated inflation equal or more than 26% during last three years).

Annual and cumulative inflation percentage of the last three years and the indices used to determine inflation, are as follows:

	Inflation	
December 31,	**Yearly**	**Cumulative**
2021	7.36%	13.87%
2020	3.33%	11.42%
2019	2.83%	15.10%

b. Cash and cash equivalents– Cash and cash equivalents consist of checking accounts, bank deposits, foreign currency and other highly liquid instruments.

c. Property and equipment (net) – Property, plant and equipment, including those under leases, are recorded at acquisition cost and the present value of total payments, respectively. Balances from acquisitions made through December 31, 2007 were restated for the effects of inflation by applying factors derived from the NCPI through that date. .

Depreciation on property, plant and equipment is calculated using the straight-line method based on the estimated useful lives of the related assets, as follows:

Category	**Useful life**
Computers	3 years
Furniture and fixtures	5 years
Plant & Machinery	5 years
Office equipment	5 years
Software acquired for consideration	1 year

Leasehold improvements are amortized over the useful life of the improvement or the related contract term, whichever is shorter.

Minor repairs and maintenance costs are expensed as incurred.

d. Prepayments- Mainly include prepayments for employee health and life insurance services that are received after the date of the statement of financial position and in the ordinary course of operations

e. Other assets- Other assets include mainly deposits in guarantee, advances to employees and suppliers and are stated at cost.

f. **Impairment of property, plant and equipment and other non-current assets, leases assets and intangible assets-** The Company evaluates the net carrying amount of property, plant and equipment and other non-current assets, leases assets and intangible assets, to determine whether there is an indication that the carrying amount exceeds the recoverable amount. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the asset to future net revenues reasonably expected to be generated by the asset. If the net carrying amount of the asset exceeds the recoverable amount, the Company records the necessary provisions

g. **Provisions -** Provisions are recognized for current obligations that arise from a past event, that are probable to result in the use of economic resources, and that can be reasonably estimated.

h. **Employee benefits -** Employee benefits are those granted to personnel and/or their beneficiaries in exchange for the services rendered by the employee, which include all kinds of remuneration earned, as follows:

   i. **Short-term direct benefits -** Short-term direct employee benefits are recognized in income of the period in which the services rendered are accrued. A liability is recognized for the amount expected to be paid if the Company has a legal or assumed obligation to pay this amount as a result of past services provided and the obligation can be reasonably estimated.

   ii. **Long-term direct benefits -** The Company's net obligation in relation to direct long-term benefits (except for deferred ESPS), and which the Company is expected to pay at least twelve months after the date of the most recent balance sheet presented, is the amount of future benefits that employees have obtained in exchange for their service in the current and previous periods. This benefit is discounted to its present value. Remeasurements are recognized in income in the period in which they are accrued.

   iii. **Employee benefits from termination -** A liability is recognized for termination benefits along with a cost or expense when the Company has no realistic alternative other than to make the corresponding payments or when the offer of these benefits cannot be withdrawn or when the conditions that require the recognition of restructuring costs are met, whichever occurs first. If benefits are not expected to be settled wholly within twelve months after the date of the most recent balance sheet presented, then they are discounted. The Company has only defined contribution plans and no defined benefit obligations.

   Defined contribution plans

   Obligations for contributions to defined contribution plans are recognized in income as the related services are provided by employees. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

   iv. **Employee statutory profit sharing (ESPS) -** ESPS is recorded in the results of the year in which it is incurred. Deferred ESPS is derived from temporary differences that result from comparing the accounting and tax bases of assets and liabilities and is recognized only when it can be reasonably assumed that a liability may be settled or a benefit is generated, and there is no indication that circumstances will change in such a way that the liabilities will not be paid or benefits will not be realized.

   As result of the 2014 Tax Reform, as of December 31, 2021 and 2020, ESPS is determined based on taxable income, according to Section I of Article 10 of the Income Tax Law. Deferred ESPS derived from temporary differences between the accounting and tax bases of assets and liabilities is recognized only when it can be reasonably assumed that a liability may be settled or a benefit is generated, and there is no indication that circumstances will change in such a way that the liabilities will not be paid or benefits will not be realized.

   i. **Income taxes -** Income tax ("ISR") is recorded in results of the year in which they are incurred. Deferred taxes are calculated by applying the corresponding tax rate to temporary differences resulting from comparing the accounting and tax bases of assets and liabilities and including, if any, future benefits from tax loss carryforwards and certain tax credit.

   j. **Foreign currency transactions -** Foreign currency transactions are recorded at the applicable exchange rate in effect at the transaction date. Monetary assets and liabilities denominated in foreign currency are translated into Mexican pesos at the applicable exchange rate in effect at the balance sheet date. Exchange fluctuations are recorded as a component of net financing cost (income) in the statements of income.

   k. **Revenue recognition –** Revenues include the fair value of the consideration received or receivable for the services in the regular course of operations, which is when control has been transferred to the customers in exchange for the consideration to which the Entity believes it is entitled in exchange for such goods or services. Revenues are presented net of discounts.

   Revenue from service contracts priced on a time and material basis is recognized when services are rendered. Revenue from fixed price service contracts is recognized as performance obligation satisfied over a period of time based on the stage of completion of the contract the stage of completion determined as the proportion of the total time expected to install that has elapsed at the end of the reporting period is an appropriate measure of progress towards complete satisfaction of these performance obligations.

Invoices for services are issued on a monthly basis and are usually payable within 45-60 days.

Revenues are recognized when the following steps are completed:

- The contract or contracts are identified with the customer.
- The obligations to be performed in the contract are identified.
- The transaction price is determined.
- The transaction price is allocated among the different obligations to be performed in the contract.
- The revenues are recognized when the Entity fulfills each of the obligations involved.

The Company acts as a sub-contractor to its Holding Company Tech Mahindra Limited for which it is remunerated on cost plus markup basis. Its revenue from cost plus markup contracts are recognized based on the terms of the contract over the service period.

Invoices for services to the Holding Company are issued on a monthly basis and are usually payable within 30 days.

l. **Business and credit concentration-** Services rendered to Tech Mahindra Limited represented 100% in 2021 and 2020 of the Company's net revenue.

The principal supplier for sub-contracting services rendered is LCC Central America de Mexico SA de CV (fellow subsidiary company), from which the Company made approximately 16% in 2021 and 42% in 2020 of the Company's total cost of sub-contracting services.

m. **Leases-** At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company uses the definition of a lease in FRS D-5.

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. [However, for the leases of property the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Company has elected not to recognize right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

n. Financial instruments-

Financial assets and liabilities - including accounts receivable and payable - are initially recognized when these assets are originated or acquired, or when these liabilities are issued or assumed, both contractually.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVI, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Financial assets and financial liabilities (unless it is an account receivable or payable without a significant financing component) are measured and initially recognized at fair value, in the case of financial assets or liabilities not measured at fair value with changes through OCI, plus the transaction costs directly attributable to acquisition or issuance, when subsequently measured at amortized cost. An account receivable without a significant financing component is initially measured at the transaction price.

Loss allowance for expected credit losses (ECL)-

The Company recognizes loss allowances for ECLs on financial assets measured at amortized cost.

Loss allowances for trade receivable and contract assets are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument, about past events, current conditions and forecasts of future economic conditions.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit -impaired includes the following observable data:

— significant financial difficulty of the borrower or issuer;

— a breach of contract such as a default or being more than 90 days past due;

— the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;

— it is probable that the borrower will enter bankruptcy or other financial reorganization; or

— the disappearance of an active market for a security because of financial difficulties

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For external customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery, on a case to case basis. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

o. Contingencies- Liabilities for loss contingencies are recorded when it is probable that a liability has been incurred and the amount thereof can be reasonably estimated. When a reasonable estimation cannot be made, disclosure is provided in the notes to the financial statements. Contingent revenues, earnings or assets are not recognized until realization is assured.

p. Comprehensive financial results (CFR)- The CFR includes finance income and expense, reduced by the amounts capitalized.

Finance income and expense include:

- interest expense;
- interest income;
- the foreign currency gain or loss on financial assets and financial liabilities;

Interest income or expense is recognized using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortized cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortized cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of execution or settlement. Monetary assets and liabilities denominated in foreign currency are translated at the exchange rate in force at the statement of financial position date. Exchange differences arising from assets and liabilities denominated in foreign currencies are reported on the statement of comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS

4. Cash and cash equivalents comprise the following:

Particulars	2021	2020
Cash and checking accounts		
Current accounts	$ 16,437,917	28,721,614
Fixed deposits	-	145,000,000
Cash and cash equivalents	**$ 16,437,917**	**173,721,614**

The Company had no restricted cash and cash equivalents.

5. Accounts receivable-

Particulars	2021	2020
Receivable from external customer:		
Customer	$ 179,884,935	173,203,328
Allowance for doubtful accounts	(1,750,155)	(7,030,487)
Debtors (net of allowance for doubtful debts)	178,134,780	166,172,841
Unbilled Revenue	11,630,247	22,057,094
Total Receivable from external customers	**$ 189,765,027**	**188,229,935**

Expected credit losses:

For the commercial accounts receivable portfolio, the Entity estimates the expected credit loss (ECL) based on its experience of previous credit losses, current changes in the behavior of its customers and future economic forecasts, for which purpose it classifies its portfolio by degree of payment arrears and allocates different amounts of ECL to each of the segments of its portfolio.

The Company acts as a sub-contractor to its holding company Tech Mahindra Limited for which it is remunerated on cost plus markup basis. The expected credit loss provision is created for the external customers of the Company for which the Company is acting as an agent or sub-contractor.

Based on the average that its ECL represent of total revenues and the payment arrears of customer receivables, as well as adjustments to the amounts of ECL considering the current economic situation, the respective calculation is as follows:

Amount of accounts receivable	Days in arrears	Probability of default	Portfolio amount in default	Loss Severity (SP)	Estimated ECL
1,750,155	More than 365 days	100%	1,750,155	100%	1,750,155

In this case, given the impossibility of estimating the collection date, it is not practical to discount the amounts of cash flows receivable. Also, the Company does not charge interest to its customers for arrears, and so it has not identified the effective interest rate.

6. Other receivables-

Particulars	2021	2020
Other receivables	$ 2,139,339	765,117
Advances to employees	99,048	178,615
Total Other receivables	**$ 2,238,387**	**943,732**

7. Property and equipment, and intangible assets-

a) Investment	2021	2020
Plant & machinery	$ 26,122,199	26,126,896
Furniture and fixtures	25,512,128	25,512,128
Equipment and computers	57,223,250	39,391,891
Leasehold improvements	5,103,655	5,103,655
Total	113,961,232	**96,134,570**

b) Accumulated depreciation	2020	2019
Plant & machinery	17,411,182	12,259,452
Furniture and fixtures	16,402,826	11,807,613
Equipment and computers	34,652,749	26,650,167
Leasehold improvements	2,461,031	1,683,338
Total	**70,927,788**	**52,400,570**
Net property and equipment	**$ 43,033,444**	**43,734,000**

a) Intangible assets	2021	2020
Software acquired for consideration	$ 921,700	921,700
b) Accumulated depreciation		
Software acquired for consideration	921,700	864,930
Net Intangible assets	**$ -**	**56,770**

Depreciation recognized in the statements of operations was $18,583,988 and $18,845,580; in 2021 and 2020, respectively.

8. Right of use assets and liabilities-

The Company leases office premises, typically for a period of 3 years.

Right of use asset

Right-of-use assets related to lease properties that do not meet the definition of investment property comprise the following:

Particulars	Buildings	
	2021	2020
Balance at January 1, 2021	$ 50,309,205	55,600,997
Depreciation charge for the year	(27,103,390)	(26,373,777)
Additions to right-of-use assets	-	21,081,985
Balance at December 31, 2021	**$ 23,205,815**	**50,309,205**

Amounts recognized in profit or loss

	2021	2020
Leases under FRS D-5		
Interest on lease liabilities	$ 4,850,563	6,060,697

Total cash outflows for leases during 2021 were $ 35,216,333 and $31,782,173 in 2020 respectively.

Lease Liabilities	2021	2020
Liability	$ 31,470,724	58,882,485

The terms and conditions of leases are as follows:

	2021	2020
Nominal Interest rate	10.80%	10.80%
Year of maturity	2021-2023	2021-2023
Nominal value	$ 29,934,840	65,151,174
Present value	31,470,724	58,882,485

Maturities of lease liabilities:

	2021		2020	
	Nominal value	Present value	Nominal value	Present value
Less than one year	$ 21,321,808	13,178,330	35,216,333	24,924,410
Between one and five years	8,613,032	18,292,394	29,934,841	33,958,075
Total	**$ 29,934,840**	**31,470,724**	65,151,174	58,882,485

9. Accrued expenses and taxes-

Accruals include the following:

	Accrued expenses	VAT Payable	Provision for Discount	Unearned Revenue	Total
Balances as at December 31, 2020	$ 1,976,702	30,842,551	3,722,847	97,909,663	134,451,763
Increase in earnings	18,735,824	36,276,811	(49,176)	50,968	55,014,427
Write-offs credited to earnings	-	-	-	(73,400,603)	(73,400,603)
Payments	(11,107,752)	(36,145,802)	(820,524)	-	(48,074,078)
Balances as at December 31, 2021	**$ 9,604,774**	**30,973,560**	**2,853,147**	**24,560,028**	**67,991,509**

10. Related party-

a. List of related parties:

Tech Mahindra Limited (Parent company)

LCC Central America de Mexico S.A. de C.V. (Fellow subsidiary)

Born Group Inc. (Fellow subsidiary)

b. Transactions with related parties, carried out in the ordinary course of business, whose consideration is equivalent to that in similar transactions carried out with independent parties, were as follows:

	2021	2020
Revenues from services rendered to:		
Tech Mahindra Limited	$ 697,509,728	693,180,282
LCC Central America de Mexico S.A. de C.V.	2,281,500	-
Born Group Inc.	5,873,687	-
Expenses for services received from:		
Tech Mahindra Limited	(443,534,272)	(427,254,111)
LCC Central America de Mexico S.A. de C.V.	(4,359,366)	(34,551,397)
Reimbursement of expenses:		
Tech Mahindra Limited	(5,537,285)	(188,656)
Other Income (rental income):		
LCC Central America de Mexico S.A. de C.V.	2,049,405	2,057,056

c. Balances due from and to related parties are as follows:

	2021	2020
Receivable:		
Tech Mahindra Limited	$ 165,160,209	82,514,653
LCC Central America de Mexico S.A. de C.V.	7,634,756	2,860,081
Born Group Inc.	5,873,687	-
	$ 178,668,652	**85,374,734**
Payable:		
Tech Mahindra Limited	$ 204,647,875	222,251,193
LCC Central America de Mexico S.A. de C.V.	746,831	14,917,196
	$ 205,394,706	**237,168,389**

11. Employee benefits-

a) Short term direct benefits

The short-term direct benefits are as follows:

		2021	2020
Employee benefits			
Compensated absences*	$	2,114,119	1,853,746
Short term employee benefits		5,207,204	7,162,341
Other statutory payments		26,666,223	20,008,447
Other employee payables		389,589	-
Total	**$**	**34,377,135**	**29,024,534**

* Note: Non -current portion of compensated absences $816,487 has been disclosed under Other employee benefits under non-current liabilities.

b) Post-employment benefits

The Company has a defined benefit plan for seniority premium and legal compensation, covering substantially all of its employees its unionized and trustworthy staff. Benefits are based on the years of service and the employee's compensation.

The components of defined benefit cost for the years ended December 31, 2021 and 2020 are shown below:

		Seniority Premium		Legal Compensation	
		2021	2020	2021	2020
Current service cost (CLSA)	$	520,321	437,807	3,105,474	2,745,160
Net interest		67,400	42,273	1,234,046	1,164,133
Settlement cost		-	-	10,026,130	7,569,518
Remeasurements of net assets for defined benefits (DBNA) or net liabilities for defined benefits (DBNL) recognized in income of the period		(186,978)	255,282	(2,294,363)	3,348,553
Net cost for the period	**$**	**400,743**	**735,362**	**12,071,287**	**14,827,364**

		Seniority Premium		Legal Compensation	
		2021	2020	2021	2020
Beginning balance of DBNL	$	1,203,213	656,814	21,898,558	17,897,400
Defined Benefit Cost		400,743	735,362	12,071,287	14,827,364
Payments charged to DBNL		(350,307)	(188,963)	(12,330,121)	(10,826,206)
Ending balance of DBNL	**$**	**1,253,649**	**1,203,213**	**21,639,724**	**21,898,558**

Assumptions:	2021	2020
Disount rate	8%	6%
Rate of compensation increase	3%	3%
Average remaining employee labor life	16.61%	17.36%

12. Income tax (IT) and employee statutory profit sharing (ESPS)-

The Company is subject to IT. According with the IT law, the rate is 30% in 2021 and 2020 and it will continue at 30% thereafter.

a. IT consists of the following:

IT:	2021	2020
Current	$ 1,956,500	36,970,420
Deferred	28,050,456	(35,610,582)
	$ **30,006,956**	**1,359,838**

Income tax expense attributable to income from continuing operations before income taxes, differed from the amounts computed by applying the Mexican statutory rates of 30% IT to income before income taxes, as a result of the items shown below:

	2021	2020
Computed “expected” tax expense	$ 13,923,781	13,206,623
Increase (reduction) resulting from:		
Effects of inflation, net	518,440	1,211,456
Non-deductible expenses	2,070,316	2,419,589
Exempt Salaries	3,041,186	2,485,949
Provisions	3,630,327	(2,213,322)
Towards Liability	4,850,563	6,060,697
Towards Social Security	1,426,668	-
Insurances	3,425,955	1,091,512
Reversal of agent ECL*	(5,280,332)	(20,191,939)
Others **	2,400,052	(2,710,726)
IT expense	$ 30,006,956	1,359,839

* Reversal of agent ECL pertains to the effect of balance sheet movement between provision for doubtful debts for December 31, 2021 versus December 31, 2020. Since the Company acts as an agent to its Parent company, the risk of provision is borne by Parent company and the impact of the provision is disclosed on a net basis in the Income Statement.

**Others includes effect of Right of use opening liability amounting to MXN 833,544 for the period ended December 31,2019.

The tax effects of temporary differences that give rise to significant portions of the deferred income tax assets and liabilities, at December 31, 2021 and 2020, are presented below:

	2021	2020
Deferred tax assets:		
Property and equipment	$ 5,328,849	4,879,759
Right of use of lease properties	1,527,138	2,571,984
Accrued bonuses and other accruals	12,108,904	14,111,979
Unearned revenue	-	24,551,212
Total gross deferred tax assets	**18,964,891**	**46,114,934**
Deferred tax liabilities:		
Prepaid Expenses	(2,051,560)	(1,151,147)
Net deferred ISR asset	**$ 16,913,331**	**44,963,787**

ESPS

The ESPS expense is as follows:

	2021	2020
Total ESPS expense recognized in Income statement	**$ 4,528,823**	**5,186,164**

13. Partners equity-

a. As of December 31, 2021 and 2020 partner units at par value (historical pesos), is as follows:

		Number of social parts	**Amount in historical pesos**	**Number of social parts**	**Amount in historical pesos**
		2021		**2020**	
Fixed capital:					
Series "A" partner units*	$	2	1	2	1
Variable capital		-	-	-	-
Series "B" partner units**		1	12,934,770	1	12,934,770
Total	**$**	**3**	**12,934,771**	**3**	**12,934,771**

* Series "A" represents the fixed portion of capital stock with no retirement rights.

** Series "B" represents the variable portion of capital stock with retirement rights.

b. Pursuant to a resolution of the general ordinary partners meeting on January 4, 2016, variable social parts was increased by $5,015,522, through cash contributions.

c. Retained earnings include the statutory legal reserve. The General Corporate Law requires that at least 5% of net income of the year be transferred to the legal reserve until the reserve equals 20% of partner units at par value (historical pesos). The legal reserve may be capitalized but may not be distributed unless the Company is dissolved. The legal reserve must be replenished if it is reduced for any reason. As of December 31, 2016, the legal reserve, in historical pesos, was $164,203. The legal reserve for the year ended 31st December 2021 is $2,137,461.

d. Partners' equity, except restated paid-in capital and tax retained earnings, will be subject to income taxes in the event of distribution, at the rate of 30%, payable by the Company; consequently, the stockholders may only receive 70% of such amounts. Any tax paid on such distributions may be credited against annual and estimated income taxes of the year in which the tax on dividends is paid and the following two fiscal years.

e. The balances of the partners' equity tax accounts as of December 31 are:

	2021	**2020**
Contributed capital account	$ 17,304,149	16,797,974
Net tax income account	199,795,816	115,145,039
Total	**$ 217,099,965**	**131,943,013**

14. Revenue cost and expenses-

Revenue	**2021**	**2020**
Revenue from contracts with customers:		
From services rendered to Tech Mahindra Limited	$ 697,509,728	693,180,282
From services rendered to fellow subsidiaries	8,155,187	
Other income		-
Rental income	2,049,405	2,057,056
Others	34,351	189,766
Total revenue	$ **707,748,671**	**695,427,104**

Costs	2021		2020	
	Cost of sales	Selling expenses and Administrative expenses	Cost of sales	Selling expenses and Administrative expenses
Salaries and related cost [1]	$ 528,223,562	-	466,109,075	-
Depreciation and amortization				
- On property and equipment	-	18,583,988	-	18,845,580
- On right of use assets	-	27,103,390	-	26,373,777
Subcontracting expenses	27,914,854	-	88,151,104	-
Communication expense	10,226,842	-	12,398,113	-
General Office expenses	-	11,668,225	-	13,010,768
Other	3,912,396	20,470,698	9,469,153	20,423,005
Total	**$ 570,277,654**	**77,826,301**	**576,127,445**	**78,653,130**

[1] Salaries and related cost includes expense for ESPS $ for 2021 was $4,528,823 and $5,184,164 for 2020.

15. Financial instruments and risk review-

a. Accounting classifications and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value as the carrying amount is a reasonable approximation of fair value.

Financial Asset and Liabilities (not measured at fair value)	**2021**	**2020**
Carrying amount of financial assets:		
Cash and cash equivalents	$ 16,437,917	173,721,614
Accounts receivable - Net	189,765,027	188,229,935
Due from Related Party	178,668,652	85,374,734
Payables to officers and employees	99,048	178,615
Deposits in guarantee	6,391,705	6,391,705
Other receivables	2,139,339	765,117
	$ 393,501,688	**454,661,720**
Carrying amount of financial liabilities:		
Accounts payable	$ 11,241,081	2,524,258
Due to related party	205,394,706	237,168,389
Accrued expenses and taxes*	67,991,509	134,451,763
Lease liabilities	31,470,724	58,882,485
	$ 316,098,020	**433,026,895**

*It includes provision for expenses, provision for salary and provisions against employee advances.

b Financial risk management

The Company's activities expose it to a variety of financial risks i.e. market risk, credit risk and liquidity risk. The Company operates a risk management policy and program that performs close monitoring of and responding to each risk factors. Following are the financial risk factors.

(a) Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables.

Trade Receivable

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate.

Details of concentration of revenue are included in Note 3.l under the Significant accounting policies.

Average credit period for trade receivables ranges from 45-60 days and no interest is charged on overdue receivables. The Company uses a practical expedient by computing the expected credit loss (ECL) allowance for trade receivable based on a provision matrix which takes into account historical credit loss experience and adjusted for forward looking experience. The impact of the ECL model is disclosed in Note 5 Trade receivables.

The Company has a revenue arrangement with its parent company, wherein it acts as a sub-contractor to its Parent for all external contracts with customers and all the risk of these contracts are transferred to the parent company.

Cash and cash equivalents

The Company maintains its cash and cash equivalents with bank having good reputation and high-quality credit rating.

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The table below provides details regarding the contractual maturities of significant financial liabilities as on December 31, 2021. The amounts are gross and undiscounted.

Particulars	**Carrying value**	**Less than 1 year**	**1-3 years**
Accounts payable	$ 11,241,081	11,241,081	-
Due to Related Party	205,394,706	205,394,706	-
Accrued expenses and taxes	67,991,509	67,991,509	-
Lease liabilities	31,470,724	13,178,330	18,292,394
	$ **316,098,020**	**297,805,626**	**18,292,394**

The table below provides details regarding the contractual maturities of significant financial liabilities as on December 31, 2020:

Particulars	**Carrying value**	**Less than 1 year**	**1-3 years**
Accounts payable	$ 2,524,258	2,524,258	-
Due to Related Party	237,268,139	237,268,139	-
Accrued expenses and taxes	134,451,763	118,533,731	-
Lease liabilities	58,882,485	24,924,410	33,958,075
	$ **433,126,645**	**383,250,538**	**33,958,075**

(c) Market risk

Market risk is the risk that changes in market prices - e.g. foreign exchange rates, interest rates and equity prices -will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

Exposure to currency risk

The summary quantitative data about the Company's exposure to currency risk as reported to the management of the Company is as follows:

	2021			2020		
	USD	**CAD**	**EUR**	**USD**	**CAD**	**EUR**
Cash and cash equivalents	$ 18,547	-		261,238	-	
Accounts receivable - Net	1,122,964	45,989	-	1,487,584	584,130	-
Due from Related Party	527,090	-	-	39,440	-	-
Accounts payable	(58,244)	-	-	(125,141)	-	-
Due to Related Party	(9,798,821)	-	(221,575)	(11,418,082)	-	-
Net statement of financial position exposure	**$ (8,188,464)**	**45,989**	**(221,575)**	**(9,754,961)**	**584,130**	**-**

The following significant exchange rates have been applied:

	Average rate		Year end spot rate	
	2021	**2020**	**2021**	**2020**
USD 1	20.9	19.1	20.5	19.9
CAD 1	16.4	16.0	16.2	15.6
EUR 1	23.7	22.7	23.2	24.2

Sensitivity analysis

A reasonably possible strengthening (weakening) of the US dollar, EUR and CAD by 1% against the functional currency at December 31, would have affected the measurement of financial instruments denominated in foreign currencies and affected equity and income by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

	Income		Equity, net of tax	
	Strengthening	**Weakening**	**Strengthening**	**Weakening**
USD (1% movement)	$ (81,885)	81,885	81,885	(81,885)
CAD (1% movement)	460	(460)	(460)	460
EUR (1% movement)	(2,216)	2,216	(2,216)	2,216

16. Recently issued financial reporting standards-

The Consejo Mexicano de Normas de Información Financiera, A. C. (CINIF) has issued the FRS and Improvements listed below

FRS C-15 "Impairment of long-lived assets"-. This FRS becomes effective for periods beginning January 1, 2022, and early application is allowed. It supersedes Bulletin C-15 "Impairment or disposal of long-lived assets". The initial-adoption accounting changes must be recognized based on the prospective method. The main changes presented are:

— adds new examples of evidence to assess whether there is impairment and classifies it into internal or external sources of information and those applicable to investments in subsidiaries, associates or joint ventures.

— changes the requirement to use a net sales price for the fair value, less costs of disposal to carry out impairment tests;

— establishes the option of using estimates of future cash flows and a discount rate, in actual terms;

— incorporates standards for the treatment of future cash flows in foreign currency in determining the recoverable amount;

— modifies FRS C-8, Intangible Assets, to indicate that goodwill must be allocated at a level of a cash-generating unit (CGU) that is expected to benefit from the synergy of the business acquisition;

— incorporates the recognition of goodwill impairment in two steps: i. first, by comparing the carrying amount of the CGU including goodwill with the recoverable amount, and if the latter is less, an impairment loss is generated; and ii. second, by having this loss affect goodwill first and foremost, even leaving it at zero, and later, if there is an excess loss to be allocated, distribute it pro rata among the other long-lived assets that are part of the CGU;

— eliminates the calculation of impairment through the perpetual value of intangible assets with indefinite useful lives, by modifying the impairment test.

— establishes the determination of impairment of corporate assets as follows: i. first, they are allocated to the CGU to which they belong fairly and consistently, ii. second, the carrying amount of the CGU, including corporate assets, is compared to the recoverable amount and if the latter is less, an impairment loss is generated, which is distributed pro rata among all long-lived assets that are part of the CGU, including corporate assets.

— modifies the disclosures in accordance with the changes described above.

FRS C-17 “Investment property”- This FRS becomes effective for periods starting as of January 1, 2021 with early application allowed. FRS C-17 eliminates the suppletory application of International Accounting Standard 40 (IAS 40) “Investment property”. Likewise, FRS C-17 repeals Circular 55, “Suppletory application of IAS 40”. The effects of adoption should be recognized retrospectively. The primary changes are: 1) the definition of investment properties is adjusted to establish that these assets are held by an investor under a business model whose main intent is to gain through the value appreciation (capital appreciation) in the medium term for the sale thereof; 2) allows the valuation of investment properties at acquisition cost or fair value.

2022 FRS Revisions

In September 2021, CINIF issued a document called “2022 FRS Revisions” containing precise modifications to some of the existing FRS. The improvements made to the FRS result in accounting changes in the annual financial statements, which are shown below:

FRS B-15 “Foreign currency translation”- This improvement consists of incorporating the practical solution for the preparation of complete financial statements for legal and tax purposes within the body of the FRS, when the recording and reporting currency is the same even when both are different from the functional currency, without translating to the functional currency, indicating the entities that may opt for this solution. This improvement supersedes the Interpretation to FRS 15 “Financial statements whose reporting currency is the same as the recording currency, but different from the functional currency” and is effective for periods starting on or after January 1, 2022, allowing for early application for 2021. The accounting changes that arise must be recognized prospectively in accordance with the provision of FRS B-1 Accounting changes and correction of errors.

FRS D-3 “Employee benefits”-. The effects on the determination of deferred Employee Statutory Profit Sharing (ESPS) are considered, from the changes in the determination of the accrued ESPS originated by the decree published on April 23, 2021 by the Federal Government. This improvement is effective for periods starting as of January 1, 2022, and early application for 2021 is allowed. The accounting changes that arise must be recognized prospectively in accordance with the provisions of FRS B-1 Accounting changes and error corrections.

FRS B-1 “Accounting changes and correction of errors”-. This FRS eliminates the requirement to disclose pro forma information when a change occurs in the structure of the economic entity. This improvement is effective for periods starting as of January 1, 2022, and early application for 2021 is allowed. The accounting changes that arise must be recognized prospectively in accordance with the provisions of FRS B-1 Accounting changes and error corrections.

FRS B-10 “Effects of inflation”-. This FRS modifies the disclosure requirement when the entity operates in a non-inflationary economy to limit them to being made when the entity considers it relevant. This improvement is effective for periods starting as of January 1, 2022, and early application for 2021 is allowed. The accounting changes that arise must be recognized prospectively in accordance with the provisions of FRS B-1 Accounting changes and error corrections.

FRS C-6 “Property, plant and equipment”-. This FRS eliminates the need to disclose the timeframe in which constructions in process will take place, when these have approved plans. This improvement is effective for periods starting as of January 1, 2022, and early application for 2021 is allowed. The accounting changes that arise must be recognized prospectively in accordance with the provisions of FRS B-1 Accounting changes and error corrections.

Management estimates that the adoption of this new FRS shall have no significant effects.

17. Contingencies

(a) In accordance with Mexican tax law, the tax authorities are empowered to examine transactions carried out during the five years prior to the most recent income tax return filed.

(b) The Company is involved in a number of claims arising in the normal course of business from labor obligations. It is expected that the final outcome of these matters will not have significant adverse effects on the Company’s financial position and income.

18. Subsequent events

The Company does not foresee any material impact on its revenue and customer's ability to pay due to the prolonged lock down and other impacts of the COVID-19 pandemic. However, the impact assessment of COVID-19 is a continuous process given the uncertainties associated with its nature and duration.

On February 21, 2022, the Russian Federation officially recognized two breakaway regions in eastern Ukraine and authorized the use of military force in those territories. On February 24, 2022, Russian troops invaded Ukraine and began military operations in different places. These ongoing operations have caused damage to infrastructure and disruption of economic activity in Ukraine, among other things.

In response, multiple jurisdictions including the European Union, the United Kingdom, Switzerland, the United States, Canada, Japan, Australia, and others have announced initial tranches of economic sanctions on Russia (and in certain cases Belarus.

In addition to the imposition of sanctions, a growing number of large public and private companies have announced voluntary actions to restrict business activities with Russia. These actions include plans to divest assets or discontinue operations in Russia, reduce exports or imports from the country, and suspend the provision of services to the Russian state and companies.

The economic impacts of the conflict could include significant increases in the prices of raw materials, including crude oil and natural gas, metals including nickel, iron ore, aluminum and palladium; mineral products such as potash and agricultural crops, in particular, wheat (with Russia and Ukraine together producing about 30% of the world's wheat supply).

The conflict in Ukraine and related events take place at a time of significant global economic uncertainty and volatility, and the effects are likely to interact with and exacerbate the effects of current market conditions. Many sectors/ jurisdictions are already facing the impacts of rising commodity prices and rising raw material costs, as a result of increased consumer demand as the COVID-19 pandemic subsides. These conditions may be significantly exacerbated by the broader effects of the conflict in Ukraine, increasing inflationary pressures and undermining the post-pandemic global recovery.

The Company does not foresee any impact from the conflict in the Ukraine on the Company's business, as the Company has no business activities in the Ukraine, Belarus or Russia.

INDEPENDENT AUDITOR'S REPORT

To the Members of Tech Mahindra Cerium Private Limited (Formerly known as Cerium Systems Private Limited)

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Tech Mahindra Cerium Private Limited (the " Company") (Formerly known as Cerium Systems Private Limited), which comprise the standalone balance sheet as at 31 March 2022, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, and its profit and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Director's report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are
- based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
    b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
    c) The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account.
    d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
    e) On the basis of the written representations received from the directors as on 31 March 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(B) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

a) The Company does not have any pending litigations which would impact its financial position.

b) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

c) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company..

d) (i) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:

- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or
- provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

(ii) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall:

- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or
- provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries.

(iii) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (d) (i) and (d) (ii) contain any material mis-statement.

e) The Company has neither declared nor paid any dividend during the year.

(C) With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON STANDALONE FINANCIAL STATEMENTS

(Referred to in our report of even date)

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(i) (a) (B) The Company has maintained proper records showing full particulars of intangible assets.

(i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified in a phased manner over a period of 3 years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No discrepancies were noticed on such verification.

(i) (c) The Company does not have any immovable property (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee). Accordingly, clause 3(i)(c) of the Order is not applicable.

(i) (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

(i) (e) According to information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

(ii) (a) The Company is a service company, primarily rendering information technology and related services. Accordingly, it does not hold any physical inventories. Accordingly, clause 3(ii)(a) of the Order is not applicable.

(ii) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the books of account of the Company.

(iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year. Accordingly, provisions of clauses 3(iii)(a) to 3(iii)(f) of the Order are not applicable to the Company.

(iv) According to the information and explanations given to us and on the basis of our examination of records of the Company, the Company has neither made any investments nor has it given loans or provided guarantee or security and therefore the relevant provisions of Sections 185 and 186 of the Companies Act, 2013 ("the Act") are not applicable to the Company. Accordingly, clause 3(iv) of the Order is not applicable.

(v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.

(vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act for the services provided by the Company. Accordingly, clause 3(vi) of the Order is not applicable.

(vii) (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective 1 July 2017, these statutory dues has been subsumed into GST.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax ('GST'), Provident fund, Employees' State Insurance, Income-Tax, Duty of Customs, Cess and other statutory dues have generally been regularly deposited with the appropriate authorities, though there have been slight delays in a few cases of Provident fund and Employees' State Insurance.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of Goods and Services Tax ('GST'), Provident fund, Employees' State Insurance, Income-Tax, Duty of Customs, Cess and other statutory dues were in arrears as at 31 March 2022 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no statutory dues relating to Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues, which have not been deposited with the appropriate authorities on account of any dispute.

(viii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.

(ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any loans or borrowings from any lender during the year. Accordingly, clause 3(ix)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been declared a wilful defaulter by any bank or financial institution or government or government authority.

(c) In our opinion and according to the information and explanations given to us by the management, the Company has not obtained any term loans during the year. Accordingly, clause 3(ix)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we report that no funds raised on short-term basis have been used for long- term purposes by the Company.

(e) According to the information and explanations given to us and on an overall examination of the standalone financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries as defined under the Act.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries as defined under the Act.

(x) (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) Accordingly, clause 3(x)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable.

(xi) (a) Based on examination of the books and records of the Company and according to the information and explanations given to us, no fraud by the Company or on the Company has been noticed or reported during the course of the audit.

(b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.

(xii) (a) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii)(a) of the Order is not applicable.

(b) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii)(b) of the Order is not applicable.

(c) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii)(c) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us, the transactions with related parties are in compliance with Section 177 and 188 of the Act, where applicable, and the details of the related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.

(xiv) (a) In our opinion and based on the information and explanations provided to us, the Company has an Internal Audit system, however, the Company is not required to have an internal audit system as per Section 138 of the Act.

(b) We have considered the internal audit reports of the Company issued till date for the period under audit.

(xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.

(xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.

(b) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable.

(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.

(d) According to the information and explanations provided to us, the Group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016) has more than one CIC as part of the Group. The Group has six CICs as part of the Group.

(xvii) The Company has not incurred cash losses in the current and in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) The requirements as stipulated by the provisions of Section 135 are not applicable to the Company. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT ON THE STANDALONE FINANCIAL STATEMENTS OF TECH MAHINDRA CERIUM PRIVATE LIMITED (FORMERLY KNOWN AS CERIUM SYSTEMS PRIVATE LIMITED) FOR THE YEAR ENDED 31 MARCH 2022.

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to standalone financial statements of Tech Mahindra Cerium Private Limited ("the Company") (Formerly known as Cerium Systems Private Limited) as of 31 March 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an

understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial controls with Reference to Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial controls with Reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Nature & purpose of reserves -

Securities premium :

Securities premium is used to record the premium received on issue of shares. It is utilized in accordance with the provisions of the Companies Act, 2013.

Capital Reserve:

Capital Reserve has been created on account of employment linked contingent consideration payable by parent entity to employees of the company pursuant to share purchase agreement entered between Tech Mahindra Limited, the Company and its shareholders dated 09 April, 2020.

Retained Earnings:

Retained earnings are the profit/(loss) that a company has earned/incurred to date, less any dividends or other distributions paid to shareholders.

Share option outstanding Account

The company has established equity settled share based payment plans for ceratin categories of employees of the Company. Refer Note 30 for further details.

Capital Redemption Reserve

As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve is utilised in accordance with the provisions of section 69 of the Companies Act, 2013.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

(All amounts are Indian Rupees in million except per share and number of shares data, and '0' represents amount less than million)

1 Corporate Information:

Tech Mahindra Cerium Private Limited (Formerly known as Cerium Systems Private Limited) was incorporated on 5th day of September 2013 as a Company with the limited liability under the Companies Act, 1956. The Company is engaged into providing design services in semi-conductor industry and embedded software services. The address of the registered office is No.527, 22nd Main, Sector-1, Agara, HSR Layout, Karnataka, Bangalore-560102. During the financial year 2020-21, the Company was acquired by Tech Mahindra Limited pursuant to a share purchase agreement dated 09 April 2020. Accordingly, as per the proviso to section 2(71) of the Companies Act, 2013, the Company is deemed to a public company.

The Board of Directors approved the standalone financial statements for the year ended 31 March 2022 and authorized for issue on 10 May 2022.

2 Significant accounting policies:

2.1 Basis for preparation of standalone financial statements

These standalone financial statements are presented in Indian rupees ("INR") which is also the Company's functional currency. All amounts have been reported in Indian Rupees except for share and earnings per share data, unless otherwise stated. These standalone financial statements have been prepared on the historical cost basis and on an accrual basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

All assets and liabilities have been classified as current and non-current as per the Group's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Group has considered an operating cycle of 12 months.

In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purpose in these standalone financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102 Share-based Payments, leasing transactions that are within the scope of Ind AS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as 'value in use', in Ind AS 36 Impairment of assets.

2.2 Use of Estimates:

The preparation of standalone financial statements requires the management of the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities on the date of standalone financial statements, disclosure of contingent liabilities as at the date of the standalone financial statements and the reported amounts of income and expenses during the reported period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Critical accounting estimates

i) Revenue Recognition

The Company applies the percentage of completion method in accounting for its fixed price development contracts. Use of the percentage of completion method requires the Company to estimate the efforts or costs expended to date (input method) as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations. The Company exercises judgments while determining the transaction price allocated to performance obligations using the expected cost plus margin approach.

ii) Defined benefit plans and compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The policy for the same has been explained under Note 2.10.

iii) Other estimates

The share based compensation expense is determined based on the Company's estimate of equity instruments that will eventually vest.

2.3 Property, Plant & Equipment and Intangible assets:

Property, Plant & Equipment and intangible assets are stated at cost less accumulated depreciation/amortisation and net of impairment. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable costs of bringing the item to its working condition for its intended use and estimated cost of dismantling and removing the item and restoring the site on which it is located. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably.

The cost of property, plant and equipment not available for use as at each reporting date is disclosed under capital work in progress.

Depreciation on Property, Plant & Equipment (including assets taken on lease), other than freehold land, is charged based on the straight line method on the estimated useful life as prescribed in Schedule II to the Companies Act, 2013 except in respect of the certain categories of assets, where the life of the assets has been assessed based on internal technical estimate, considering the nature of the asset and estimated usage of the asset, the operating conditions of asset, past history of replacement, anticipated technological changes.

The estimated useful lives of assets are as follows:

Particulars	Life
Furniture and Fixtures	5 years
Vehicles	5 years
Computers	3 years
Office Equipments	5 years

The estimated useful life of intangible assets (software) is 1 to 4 years and these are amortized on a straight line basis. Project specific intangible assets are amortized over their estimated useful life on a straight line basis or over the period of the license/project period, whichever is lower.

The estimated useful life and residual values of Property, Plant & Equipment and Intangible assets are reviewed at the end of each reporting period.

Assets acquired under leasehold improvements are amortized over the shorter of estimated useful life of the asset or the related lease term.

An item of Property, Plant & Equipment and intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant & Equipment and intangible assets is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.4 Leases:

At inception of the contract, the Company determines whether the contract is a lease or contains a lease arrangement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of- use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of- use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the standalone statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re- measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in standalone statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor’s net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 Revenue to allocate the consideration in the contract.

2.5 Impairment of Assets:

i) Financial assets

The Company applies the expected credit loss model for recognizing impairment loss on financial assets.

Expected credit loss is the difference between the contractual cash flows and the cash flows that the entity expects to receive discounted using effective interest rate.

Loss allowances for trade receivables are measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. Lifetime expected credit loss is assessed at customer level separately. For other financial assets, expected credit loss is measured at the amount equal to twelve months expected credit loss unless there has been a significant increase in credit risk from initial recognition, in which case, those are measured at lifetime expected credit loss.

ii) Non Financial assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the standalone statement of profit and loss.

2.6 Revenue recognition:

Revenue from business include revenue earned from services rendered on ‘time and material’ basis and fixed price development contracts.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services, net of indirect taxes, discounts, rebates, credits, price concessions, incentives, performance bonuses, penalties, or other similar items.

Revenue from time and material contracts is recognised as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognised as unbilled revenue.

Revenue on fixed price development contracts is recognised using the ‘percentage of completion’ method of accounting, unless work completed cannot be reasonably estimated. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. If the Company does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognised only to the extent of contract cost incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognised in the standalone statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability (“Unearned revenue”) arises when there are billing in excess of revenue.

Fixed price development contracts and related services, the performance obligation is satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

The Company accounts for volume discount and pricing incentives to customers as a reduction based on ratable allocation of the discounts/ incentives amount to each of the underlying performance obligation that corresponds to the progress made by the customer towards earning the discount/incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the Company recognises the liability based on its estimate of the customer’s future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognised until the payment is probable and the amount can be estimated reliably. The Company recognises changes in the estimated amount of obligations for discounts in the period in which the change occurs.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

The Company disaggregates revenue from contracts with customers by nature of services and geography verticals.

2.7 Foreign currency transactions:

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the date of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognised in the profit or loss.

2.8 Financial Instruments:

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost using the effective interest method less impairment losses, if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial assets not measured at amortised cost are carried at fair value through profit or loss (FVTPL) on initial recognition, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in 'other comprehensive income', for investment in equity instruments which are not held for trading.

The Company, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in 'other comprehensive income', subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL, are measured at fair values at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss.

Investment in subsidiaries

Investment in subsidiaries is carried at cost less impairment as per Ind AS 27 Consolidated and Separate Financial Statements.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest rate method or at FVTPL. For financial liabilities carried at amortised cost, the carrying amounts approximate fair values due to the short term maturities of these instruments. Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised in a business combination, or is held for trading or it is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

ii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company retains substantially all the risk and rewards of transferred financial assets, the Company continues to recognise the financial asset and also recognises the borrowing for the proceeds received.

The Company derecognises financial liabilities when, and only when, the Company's obligation are discharged, cancelled or have expired.

2.9 Employee Benefits

a. Defined benefit plans:

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling and the return on plan assets (excluding interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's last drawn salary and the tenure of the employment.

b. Defined contribution plans:

i) Provident fund: The eligible employees of the Company are entitled to receive the benefits of Provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary (currently at 12% of the basic salary) which are charged to the standalone statement of profit and loss on accrual basis. The provident fund contributions are paid to the Regional Provident Fund Commissioner by the Company. The Company has no further obligations for future provident fund.

ii) Superannuation and ESIC: Contributions to Superannuation fund and employees' state insurance scheme (ESI), which are defined contribution schemes, are charged to the standalone statement of profit and loss on an accrual basis. The Company has no further obligations for future superannuation fund benefits other than its annual contributions.

c. Compensated absences:

The Company provides for compensated absences and long term service awards subject to Company's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is accrued based on the number of days of unavailed leave at each Balance Sheet date and the awards are accrued based on number of years of service of an employee. It is measured at the balance sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method.

Actuarial gains and losses are recognised in full in the standalone statement of profit and loss in the period in which they occur. The Company also off a short term benefi in the form of encashment of unavailed accumulated compensated absences above certain limits for all of its employees and same is recognised as undiscounted liability at the balance sheet date.

d. Other short term employee benefits:

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for services rendered by employees, are recognised in the standalone statement of profit and loss during the period when the employee renders the service.

2.10 Taxation:

Tax expense comprises of current tax and deferred tax. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted as at the reporting date and applicable for the period.

Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemptions in accordance with the local tax laws existing in the respective countries.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are recognised in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit has a legally enforceable right and intends to settle the asset and liability on a net basis.

Deferred income taxes: Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax assets are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be recovered or settled.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India. MAT credit is recognised for future economic benefits in the form of adjustment of future income tax liability and is considered as an asset if there is probable evidence that the Company will pay normal income tax.

Deferred tax assets and liabilities are offset when it relates to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

The Company recognises interest levied and penalties related to income tax assessments in interest expenses.

2.11 Employee Stock Option Plans:

Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization). The share based compensation expense is determined based on the Company's estimate of equity instruments that will eventually vest. The expense is recognised in the statement of profit and loss with a corresponding increase to the 'share option outstanding account', which is a component of equity.

2.12 Research and development:

Research costs are recognised as an expense in the standalone statement of profit and loss in the period they are incurred. Development costs are recognised in the standalone statement of profit and loss unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete the development project and use the asset and the costs can be measured reliably.

2.13 Earnings per Share:

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period. For calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

2.14 Provisions and Contingent Liabilities:

A provision is recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance costs.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

2.15 Recent pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23 March 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable as below:

Ind AS 16 – Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.”

Ind AS 106 – Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.”

Ind AS 109 – Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the ‘10 percent’ test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

b) Rights, preferences and restrictions attached to equity shares

The Company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting rights of an equity shareholder are in proportion to its share of the paid-up equity capital of the Company. On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

d) The Indian Parliament has approved the Code on Social Security, 2020 which would impact the contributions by the company towards Provident Fund and Gratuity. The Ministry of Labour and Employment had released draft rules for the Code on Social Security, 2020 on November 13, 2020, and invited suggestions from stakeholders which are under consideration by the Ministry. The Company will assess the impact and its evaluation once the subject rules are notified. The Company will give appropriate impact in its financial statements in the period in which, the Code becomes effective and the related rules to determine the financial impact are published.

27 Diminution in value of Investments in Subsidiaries

The Company has investments in subsidiaries. These investments are accounted for at cost less any provision for impairment. Management assesses the operations of the subsidiaries/entities, Inc.luding the future projections, to identify indications of diminution, other than temporary, in the value of the investments recorded in the books of account and, accordingly no additional provision is required to be made, other than the amounts already provided for in the books of account.

In case where impairment triggers are identified, the recoverable amount of the investment is estimated in order to determine the extent of the impairment loss. An impairment loss is recognized if the investment's carrying amount exceeds the greater of its fair value less costs to sell and value in use.

Lapsed during the year	3,351	14,646
Options outstanding at the end of year	84,530	175,760
Options exercisable at the end of the year	84,530	175,760

The weighted average remaining contractual life are as follows:

Range of Exercise Price	31-Mar-22		31-Mar-21	
	Weighted average contractual life (years)	No. of Options Outstanding	Weighted average contractual life (years)	No. of Options Outstanding
₹ 10	-	84,530	0.77	175,760

During the year ended 31 March 2022, there were no options granted.

The Company recorded an employee compensation cost NIL for the year ended 31 March 2022 (31 March 2021 : INR 8 million) in the Statement of Profit and Loss.

31 Financial instruments - Fair values and risk management

Accounting classifications and fair values

The following tables shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

The carrying value and fair value of financial instruments by categories as of 31 March 2022 is as follows:

	Fair value through P&L	Amortized cost	Total carrying value	Total Fair Value*
Assets:				
Cash and cash equivalents	-	695	695	695
Investments	-	43	43	43
Trade receivables	-	303	303	303
Other financial assets	-	43	43	43
Total	**-**	**1,083**	**1,083**	**1,083**
Liabilities:				
Trade and other payables	-	180	180	180
Lease liabilities	-	405	405	405
Other financial liabilities	-	80	80	80
Total	**-**	**665**	**665**	**665**

The carrying value and fair value of financial instruments by categories as of 31 March 2021 is as follows:

	Fair value through P&L	Amortized cost	Total carrying value	Total Fair Value*
Assets:				
Cash and cash equivalents	-	237	237	237
Investments	-	43	43	43
Trade receivables	-	156	156	156
Other financial assets	-	17	17	17
Total	**-**	**453**	**453**	**453**
Liabilities:				
Trade and other payables	-	84	84	84
Lease liabilities	-	51	51	51
Other financial liabilities	-	27	27	27
Total	**-**	**162**	**162**	**162**

*The fair value of cash and cash equivalents, other balances with bank, trade receivables, loans, trade payables, borrowings and certain other financial assets and liabilities approximate their carrying amount largely due to the short term nature of these instruments.

Fair value Hierarchy:

The following table summarizes financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

The different levels have been defined as follows:

Level-1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities at net market value.

Level-2 – Inputs other than quoted prices included within level-1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level- 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

A. Credit Risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risk. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Financial instruments that are subject to concentration of credit risk principally consist of trade receivables, investments, cash and cash equivalents, other balances with banks and other financial assets. None of the financial instruments of the Company result in significant credit risk concentrations. Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. The derivatives are entered into with banks and financial institutions with are high credit ratings.”

a) Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was INR 1083 million, INR 453 million as of 31 March 2022 and 31 March 2021 respectively being the total of the carrying amount of trade receivables, investments, cash and cash equivalents, loans and other financial assets.

b) Trade receivable

The Company’s exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate. Details of concentration of revenue are included in Note 38. The management has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company’s standard payment and delivery terms and conditions are offered. The Company’s review includes external ratings, if they are available, financial statements, credit agency information, industry information and in some cases bank references.

The Company limits its exposure to credit risk from trade receivables by establishing a maximum payment period. More than 95% of the Company's customers have been transacting with the Company for over three years, and none of these customers' balances are credit-impaired at the reporting date. In monitoring customer credit risk, customers are grouped according to their credit characteristics such as geographic location, industry, history with the Company and existence of previous financial difficulties.

At 31 March 2022, the carrying amount of the Company's most significant customer is 95 million (31 March 2021: 70 million).

vi. Disputed Unbilled revenue considered doubtful	-	-	-	-	-	-
Total	**156**	**-**	**-**	**-**	**0**	**156**

B. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange currency risk.

a) Foreign Currency exchange rate risk

The fluctuation in foreign currency exchange rates may have impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar and Malaysian Ringgit against the respective functional currency of the Company.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the year are as follows:

	Currency	31-Mar-22	31-Mar-21
Trade Receivables	USD	164	118
	MYR	61	-
Unbilled Revenue	USD	46	10
	MYR	-	-
Contract asset	USD	408	111
	MYR	32	34
Cash and cash equivalents	USD	0	0
	MYR	0	0

	Currency	31-Mar-22	31-Mar-21
Payables (Trade and others)	MYR	64	-

A reasonably possible strengthening by 1% of USD and MYR against the Indian Rupee as at 31 March 2022, 31 March 2021 will affect the statement of profit and loss by the amounts shown below:

Currency	31-Mar-22	31-Mar-21
USD	2	1
MYR	(0)	0

C. Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following are remaining contractual maturities of financial liabilities at the reporting date. The amount are gross and undiscounted and include contractual interest payments.

As at 31 March 2022

	Less than 1 year	1-5 years	More than 5 years	Total
Non Derivative Financial Liabilities				
Lease liabilities	115	400	5	520
Trade Payables	180	-	-	180
Other financial liabilities	30	50	-	80
Total	**325**	**450**	**5**	**780**

33 Disclosures required under the Micro, Small and Medium Enterprises Development Act, 2006 (MSMED Act) are given as follows

Based on the information available with the Company, there are below outstanding amounts payable to creditors who have been identified as "suppliers" within the meaning of "Micro, Small and Medium Enterprises Development (MSMED) Act, 2006".

Sr. No.	Particulars	31-Mar-22		31-Mar-21	
		Principal	Interest	Principal	Interest
I	The principal amount and the interest due thereon remaining unpaid to any supplier at the end of each accounting year	46	-	15	-
	- Principal amount due to micro and small enterprises				
	a) Trade Payables				
	- Interest on the principal amount due	-	-	-	-
II	The amount of interest paid by the buyer in terms of section 16 of the Micro, Small and Medium Enterprises Development Act, 2006 (27 of 2006), along with the amount of the payment made to the supplier beyond the appointed day during each accounting year				
	- Payments made to suppliers beyond the appointed date	-	-	-	-
	-Interest on the principal amount	-	-	-	-
III	The amount of interest due and payable for the period of delay in making payment (which has been paid but beyond the appointed day during the year) but without adding the interest specified under the Micro, Small and Medium Enterprises Development Act, 2006		0		0
IV	The amount of interest accrued and remaining unpaid at the end of each accounting year		0		0
V	The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006.	-	-	-	-

34 Post employment benefit plans

i) Defined Contribution Plans

The Company makes contributions to Provident Fund, Superannuation Fund and National Pension sheme Fund which are defined contribution plans for qualifying employees. Under these Schemes, the Company contributes a specified percentage of the payroll costs to the respective funds

The Company has recognized the following expense in the Statement of Profit and Loss :

INR 38 million (31 March 2021: INR 23 million) for Provident Fund contributions.

ii) Defined Benefit Plan

In accordance with the Payment of Gratuity Act, 1972, applicable for Indian companies, the company operates a scheme of gratuity which is a defined benefit plan. The following table sets out the Changes in Defined Benefit Obligation ('DBO') in the Balance Sheet are as under:

	31-Mar-22	31-Mar-21
Present Value of Obligation	48	35
Fair Value of Plan Assets	-	-
Surplus / (Deficit)	**(48)**	**(35)**
Net Asset / (Liability)	**(48)**	**(35)**

Expenses Recognized during the period

Particulars	**For the year ending**	
	31-Mar-22	**31-Mar-21**
In Income Statement	19	13
In Other Comprehensive Income	4	(4)
Total Expenses Recognized during the period	**23**	**9**

Changes in the Present Value of Obligation

Particulars	**For the year ending**	
	31-Mar-22	**31-Mar-21**
Present Value of Obligation as at the beginning	**36**	**26**
Current Service Cost	17	12
Interest Expense or Cost	2	2
Re-measurement (or Actuarial) (gain) / loss arising from:	3	(4)
Past Service Cost	-	-
Effect of change in foreign exchange rates	-	-
Benefits Paid	(10)	(0)
Present Value of Obligation as at the end	**48**	**36**

Bifurcation of Present Value of Obligation at the year as per Companies Act, 2013

Particulars	**For the year ending**	
	31-Mar-22	**31-Mar-21**
Current	4	3
Non-Current	44	32
Present Value of Obligation	**48**	**35**

Expenses Recognised in the Income Statement

Particulars	For the year ending 31-Mar-22	31-Mar-21
Current Service Cost	17	12
Past Service Cost	-	-
Loss / (Gain) on settlement	-	-
Net Interest Cost / (Income) on the Net Defined Benefit Liability / (Asset)	2	1
Expenses Recognised in the Income Statement	**19**	**13**

Other Comprehensive Income

Particulars	For the year ending 31-Mar-22	31-Mar-21
Actuarial (gains) / losses		
- change in demographic assumptions	-	-
- change in financial assumptions	-1	0
- experience variance (i.e. Actual experience vs assumptions)	5	(4)
- Components of defined benefit costs recognised in other comprehensive income	**4**	**(4)**

Financial Assumptions

	31-Mar-22	31-Mar-21
Discount rate (per annum)	6.45%	6.15%
Salary growth rate (per annum)	4.00%	4.00%

The discount rate indicated above reflects the estimated timing and currency of benefit payments.It is based on the yields / rates available on applicable bonds as on the current valuation date.

The salary growth rate indicated above is the Company's best estimate of an increase in salary of the employees in future years, determined considering the general trend in inflation, senority, promotions, past experience and other relevant factors such as demand and supply in employment market, etc.

Demographic Assumptions

	31-Mar-22	31-Mar-21
Mortality rate	100% of IALM 2012-14	100% of IALM 2012-14
Normal retirement age	60 Years	60 Years
Attrition / Withdrawal rate (per annum)	15.60%	15.60%

Attrition rate indicated above represents the Company's best estimate of employee turnover in future(other than on account of retirement,death or disablement) determined considering various factors such as nature of business, retention policy, industry factors, past experience, etc.

Sensitivity Analysis

Significant actuarial assumptions for the detemination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The results of sensitivity analysis is given below:

	31-Mar-22		31-Mar-21	
Defined Benefit Obligation (Base)	48		35	
	31-Mar-22		31-Mar-21	
	Decrease	Increase	Decrease	Increase
Discount Rate (- / + 1%)	51	45	37	33
(% change compared to base due to sensitivity)	6.60%	-5.90%	6.7%	-6.0%
Salary Growth Rate (- / + 1%)	45	51	33	37
(% change compared to base due to sensitivity)	-6.10%	6.70%	-6.1%	6.7%
Attrition Rate (- / + 50% of attrition rates)	49	45	36	33
(% change compared to base due to sensitivity)	1.10%	-5.80%	1.8%	-6.0%
Mortality Rate (- / + 10% of mortality rates)	48	48	35	35
(% change compared to base due to sensitivity)	0.0%	0.0%	0.0%	0.0%

Please note that the sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. There is no change in the method of valuation for the prior period.

Effect of Plan on Entity's Future Cash Flows

a) Funding arrangements and Funding Policy

The scheme is managed on unfunded basis.

b) Maturity Profile of Defined Benefit Obligation

	31-Mar-22	31-Mar-21
Weighted average duration (based on discounted cashflows)	6 years	6 years
Expected cash flows over the next (valued on undiscounted basis):		
1 year	4	3
2 to 5 years	26	19
6 to 10 years	24	17
More than 10 years	23	16

35 Leases

For transition, the Company has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis. The Company has used a single discount rate to a portfolio of leases with similar characteristics. The Company has used incremental borrowing rate of 12.30% p.a. as a discount rate to a portfolio of leases with similar characteristics.

Lease agreements pertain to office premises taken on lease and license. The Company has applied Ind AS 116 using the modified retrospective approach. The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. On application of Ind AS 116, the nature of expenses have changed from lease rent in previous periods to depreciation cost for the right-to-use asset and finance cost for interest accrued on lease liability.

A. Right-of-use liabilities

	31-Mar-22	31-Mar-21
Non Current	333	28
Current	73	23

B. Cash Flows

	31-Mar-22	31-Mar-21
Payment for Principal portion	48	25
Payment for Interest Portion	24	6
Total cash outflow for leases	72	31

C. Maturity analysis – contractual undiscounted cash flows of leases under the purview of Ind AS 116

	31-Mar-22	31-Mar-21
Less than one year	115	27
One to five years	400	30
More than five years	5	-
Total undiscounted cash flows	**520**	**57**

Disclosure on cash and non-cash changes for liabilities arising from financing activities:

Mentioned below are the components of liabilities related to financing activities in cash flow for the year ended 31 March, 2022

Particulars	Opening balance	Cash flow	Net Additions to lease liability	Closing Balance
Lease liability	51	(72)	426	405

Mentioned below are the components of liabilities related to financing activities in cash flow for the year ended 31 March, 2021

Particulars	Opening balance	Cash flow	Net Additions to lease liability	Closing Balance
Lease liability	20	(31)	62	51

36 Current Tax and Deferred Tax

The income tax expense for the year ended can be reconciled to the accounting profit as follows:

Particulars	31-Mar-22	31-Mar-21
Profit/(Loss) before tax	306	(127)
Enacted tax rate	25.17%	25.17%
Income tax expense calculated at enacted tax rate	77	(32)
Effect of expenses disallowed for tax purpose	141	79
Others	(30)	(6)
Income tax expense recognised in statement of profit and loss	**188**	**41**

The tax rate used for the above reconciliation is the rate as applicable for the respective period payable by corporate entities in India on taxable profits under the Indian income tax laws.

Deferred Tax:

The following is the analysis of Deferred Tax Assets presented in the Balance Sheet:

	31-Mar-22	31-Mar-21
Deferred Tax Assets	137	45
Deferred Tax Liabilities	-99	(12)
Deferred Tax Assets (Net)	**38**	**33**

The tax effect of significant temporary differences that has resulted in deferred tax assets are given below:

	As at 31 March 2021	Recognised in Profit and loss	Recognised in OCI	As at 31 March 2022
Employee Benefits	10	2	1	13
Property, Plant and Equipment	4	1	-	5
Provisions	18	-2	-	16
Other Items	1	3	-	4
Net Deferred Tax Assets	**33**	**4**	**1**	**38**

	As at 31 March 2021	Recognised in Profit and loss	Recognised in OCI	As at 31 March 2022
Employee Benefits	7	2	1	10
Property, Plant and Equipment	3	1	-	4
Provisions	11	7	-	18
Other Items	1	0	-	1
Net Deferred Tax Assets	**22**	**10**	**1**	**33**

37 Earnings Per Share

Basic Earning per share

The calculation of basic earnings per share for the year ended 31 March 2022 was based on profit attributable to equity shareholders of 118 million (31 March 2021 : 169 million - Loss), and the weighted average number of equity shares outstanding of 3.07 million (31 March 2021 : 2.93 million).

Diluted Earning per share

The calculation of basic earnings per share for the year ended 31 March 2022 was based on profit attributable to equity shareholders of 118 million (31 March 2021 : 169 million - Loss), and the weighted average number of equity shares after adjustment for the effects of all dilutive potential equity 3.15 million (31 March, 2021 : 3.10 million).

Particulars	31-Mar-22	31-Mar-21
Profit after taxation	118	(169)
No of Equity Shares outstanding as at year end	3,080,862	3,002,033
Weighted average Equity Shares outstanding as at year end	3,070,739	2,929,191
Add: Dilutive impact of employee stock options	83,233	173,064
No of Equity Shares for calculating Diluted Earnings Per Share	3,153,972	3,102,255
Nominal Value per Equity Share (in INR.)	10	10
Earnings Per Share (Basic) (in INR.)	38.46	(57.53)
Earnings Per Share (Diluted) (in INR.) *	37.44	(57.53)

*Since diluted loss per share is decreased when taking the impact of employee stock options into account (from Rs. 57.53 to Rs 54.32), the employee stock options are anti-dilutive and are ignored in the calculation of diluted loss per share. Therefore, during the previous year diluted loss per share is Rs. 57.53.

38 Disclosures as per Ind AS 115 - Revenue from Contract with Customers

a. Disaggregation of revenue from contracts with customers

Set out below is the disaggregation of the Company's revenue from contracts with customers

Revenue for year ended 31 March 2022

Particulars	Services	Revenue from Subsidiary	Total
Revenue from Time and Material contracts	529	-	529
Revenue from Fixed Price contracts	2,526	141	2,667
Total revenue from contracts with customers	**3,055**	**141**	**3,196**
Geographical Markets			
a. United States of America	44	12	56
b. India	3,009	-	3,009
b. Rest of World	2	129	131
Total revenue from contracts with customers	**3,055**	**141**	**3,196**

Revenue for year ended 31 March 2021

Particulars	Services	Revenue from Subsidiary	Total
Revenue from Time and Material contracts	574	-	574
Revenue from Fixed Price contracts	1,016	61	1,077
Total revenue from contracts with customers	**1,590**	**61**	**1,651**
Geographical Markets			
a. United States of America	227	31	258
b. India	1,344	-	1,344
b. Rest of World	19	30	49
Total revenue from contracts with customers	**1,590**	**61**	**1,651**

b. Trade receivables and Contract balances:

Particulars	31-Mar-22	31-Mar-21
Trade Receivables	247	139
Contract assets	442	144
Unbilled revenue	56	17
Unearned Revenue	-	4

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognized as related services are performed. Revenue for fixed price services contracts is recognized on percentage of completion basis over the period of the contract. Revenues in excess of billings is recorded as unbilled revenue and is classified as a trade receivable now for these cases as right to consideration is unconditional upon passage of time.

Revenue recognition for fixed price contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price contracts is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivables are non-interest bearing and generally have a credit period of 60 days.

Changes in contract assets	**31-Mar-22**	**31-Mar-21**
Balance at the beginning of the year	145	56
Revenue recognized during the year	2,620	1,154
Invoices raised during the year	2,323	1,065
Balance at the end of the year	442	145

The unearned revenue primarily relate to the advance consideration received on contracts entered with customers for which no work is performed at the reporting date, and therefore revenue will be recognized when rights become unconditional.

Changes in unearned revenue	**31/Mar/22**	**31/Mar/21**
Balance at the beginning of the year	4	-
Revenue recognized net of unearned revenue for the year	(4)	4
Balance at the end of the year	-	4

Revenue recognized during the current year from:	**31/Mar/22**	**31-Mar-21**
Amounts included in contract liability at the beginning of the period	-	-
Performance obligations satisfied in previous periods	-	-

c. **Performance Obligation**

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied (or partially) satisfied performance obligations, along with the broad time band for the expected time to recognise those revenues, the company has applied the practical expedient in Ind AS 115. Accordingly, the company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognised corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts, or the performance obligation is part of a contract that has an original expected duration of one year or less. Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc).

39 Additional regulatory information

(i) Financial ratios

	A	B	C = (A/B)	D = (A/B)	
Particulars	**Numerator**	**Denominator**	**31-Mar-22**	**31-Mar-21**	**Variance**
Current Ratio (in times)	Total Current Assets	Total Current liabilities	3.00	2.65	13.15%
Debt equity ratio (in times) *	Total Debt (1)	Total Equity	0.37	0.12	218.17%
Debt service coverage ratio (in times) **	Earnings available for debt service (2)	Debt Service (3)	8.24	5.28	55.96%
Return on Equity Ratio (in %) **	Proft after tax	Total Equity	11%	-39%	127.92%
Net capital turnover ratio (in times) ***	Total Turnover	Net Working Capital (4)	3.32	4.84	-31.39%
Trade receivable turnover ratio (in times) ****	Total Turnover	Average Trade Receivable	14.18	9.52	48.89%
Trade payables turnover ratio (in times)	Total Turnover	Average Trade Payables	19.38	19.22	0.82%
Net profit ratio (in times) **	Net Profit	Total Turnover	0.04	-0.10	135.83%
Return on capital employed (in %) **	Earning before interest and tax	Average Capital employed(5)	22%	-14%	252.05%

(1) Debt represents lease liabilities

(2) Net Profit after tax +/(-) Non-Cash operating expenses / (income) + Interest

(3) Interest and Lease payments for the year

(4) Current Assets – Current Liabilities

(5) Net worth + lease liabilities

* Increase in Debt quity ratio is on account of increase in lease liability due to new premises taken.

** Increase in ratio is on account of increase in profits for the year.

*** Variance is on account of increase in net working capital from previous year as compared to sales.

**** Variance is on account of increase in turnover from previous year as compared to trade receivable and unbilled revenue.

(ii) The Company has not availed borrowings from banks or financial institutions on the basis of security of current assets and has not been declared a wilful defaulter by any bank or financial institutions or government or government authority.

40 The Company does not have transactions with companies struck off under section 248 of the Companies Act 2013 or section 560 of Companies Act 1956.

41 The Company does not hold any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

42 Previous years figures have been regrouped / reclassified in line with the current year figures, wherever necessary.

INDEPENDENT AUDITORS' REPORT

To the Members of Tech Mahindra Cerium Private Limited (Formerly known as Cerium Systems Private Limited)

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Tech Mahindra Cerium Private Limited (hereinafter referred to as the "Holding Company") (Formerly known as Cerium Systems Private Limited) and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated balance sheet as at 31 March 2022, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2022, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's director's report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2 (A) As required by Section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

   b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.

   c) The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.

e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2022 taken on record by the Board of Directors of the Holding Company, none of the directors of the Group companies, incorporated in India is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”.

B. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditor’s) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

a) There were no pending litigations as at 31 March 2022 which would impact the consolidated financial position of the Group.

b) The Group did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31 March 2022.

c) There are no amounts which are required to be transferred to the Investor Education and Protection Fund by the Holding Company or its subsidiary companies during the year ended 31 March 2022.

d) (i) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or its subsidiary companies, incorporated in India to or in any other persons or entities, including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:

- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Holding Company or its subsidiary companies, incorporated in India or
- provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

(ii) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Holding Company or its subsidiary companies, incorporated in India from any persons or entities, including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Holding Company or its subsidiary companies, incorporated in India shall:

- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Funding Parties or
- provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries.

(iii) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (d) (i) and (d) (ii) contain any material mis-statement.

e) The Holding Company and its subsidiary companies have neither declared nor paid any dividend during the year.

C. With respect to the matter to be included in the Auditor’s Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid during the current year by the Holding Company to its directors is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director by the Holding Company, is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

Annexure B to the Independent Auditor's report on the consolidated financial statements of Tech Mahindra Cerium Private Limited (Formerly known as Cerium Systems Private Limited) for the year ended 31 March 2022

Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2022, we have audited the internal financial controls with reference to consolidated financial statements of Tech Mahindra Cerium Private Limited (hereinafter referred to as "the Holding Company") (Formerly known as Cerium Systems Private Limited), as of that date.

In our opinion, the Holding Company, has, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The respective Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial controls with Reference to Consolidated Financial Statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Nature and Purpose of reserves :-

Securities premium :

Securities premium is used to record the premium received on issue of shares. It is utilized in accordance with the provisions of the Companies Act, 2013.

Capital Reserve:

Capital Reserve has been created on account of employment linked contingent consideration payable by Tech Mahindra Limited to employees of the company pursuant to share purchase agreement entered between Tech Mahindra Limited, the Company and its shareholders dated 09 April, 2020.

Retained Earnings:

Retained earnings are the profits that a company has earned to date, less any dividends or other distributions paid to shareholders.

Share option outstanding Account

The company has established equity settled share based payment plans for ceratin categories of employees of the Company. Refer Note 30 for further details.

Capital Redemption Reserve

As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve is utilised in accordance with the provisions of section 69 of the Companies Act, 2013.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

(All amounts are Indian Rupees in million except per share and number of shares data, and '0' represents amount less than million)

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

1 Corporate Information:

Tech Mahindra Cerium Private Limited (Formerly known as Cerium Systems Private Limited), herein referred to as "Company" was incorporated on 5th day of September 2013 as a Company with the limited liability under the Companies Act, 1956. The Company is engaged into providing design services in semi-conductor industry and embedded software services. The address of the registered office is No.527, 22nd Main, Sector-1, Agara, HSR Layout, Karnataka, Bangalore-560102. During the current financial year, the Company was acquired by Tech Mahindra Limited pursuant to a share purchase agreement dated 09 April 2020. Accordingly, as per the proviso to section 2(71) of the Companies Act, 2013, the Company is deemed to a public company.

The Board of Directors approved the consolidated financial statements for the year ended 31 March 2022 and authorized for issue on 10 May 2022.

2 Significant accounting policies:

2.1 Statement of Compliance:

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as"Ind AS") prescribed under section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules as amended from time to time.

2.2 Basis for preparation of Consolidated financial statements

These consolidated financial statements are presented in Indian rupees ("INR") which is also the Group's functional currency. All amounts have been reported in Indian Rupees except for share and earnings per share data, unless otherwise stated. These consolidated financial statements have been prepared on the historical cost basis and on an accrual basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. All assets and liabilities have been classified as current and non-current as per the Group's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Group has considered an operating cycle of 12 months. In estimating the fair value of an asset or liability, the Group takes into account the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purpose in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102 Share-based Payments, leasing transactions that are within the scope of Ind AS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as 'value in use', in Ind AS 36 Impairment of assets.

The consolidated financial statements comprise the financial statements of Tech Mahindra Cerium Private Limited and its subsidiaries Tech Mahindra Cerium Systems SDN BHD (incorporated in Malaysia) and Tech Mahindra Cerium Inc. (incorporated in USA) (the Group and its subsidiaries constitute "the Group"). The Group consolidates all entities which are controlled by it. The Group establishes control when; it has power over the entity, is exposed or has rights to variable returns from its involvement with the entity and has ability to affect the entity's returns by using its power over the entity. The consolidated financial statements of the Group companies are consolidated on a line-byline basis and intra-group balances, transactions including unrealized gain / loss from such transactions and cash flows are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group.

2.3 Use of Estimates:

The preparation of consolidated financial statements requires the management of the Group to make estimates and assumptions that affect the reported amounts of assets and liabilities on the date of consolidated financial statements, disclosure of contingent liabilities as at the date of the consolidated financial statements and the reported amounts of income and expenses during the reported period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Critical accounting estimates

i) Revenue Recognition

The Group applies the percentage of completion method in accounting for its fixed price development contracts. Use of the percentage of completion method requires the Group to estimate the efforts or costs expended to date (input method) as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Group allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations. The Group exercises judgments while determining the transaction price allocated to performance obligations using the expected cost plus margin approach.

ii) Defined benefit plans and compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The policy for the same has been explained under Note 2.11.

iii) Other estimates

The share based compensation expense is determined based on the Group's estimate of equity instruments that will eventually vest.

2.4 Property, Plant & Equipment and Intangible assets:

Property, Plant & Equipment and intangible assets are stated at cost less accumulated depreciation/amortisation and net of impairment. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable costs of bringing the item to its working condition for its intended use and estimated cost of dismantling and removing the item and restoring the site on which it is located. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. The cost of property, plant and equipment not available for use as at each reporting date is disclosed under capital work in progress. Depreciation on Property, Plant & Equipment (including assets taken on lease), other than freehold land, is charged based on the straight line method on the estimated useful life as prescribed in Schedule II to the Companies Act, 2013 except in respect of the certain categories of assets, where the life of the assets has been assessed based on internal technical estimate, considering the nature of the asset and estimated usage of the asset, the operating conditions of asset, past history of replacement, anticipated technological changes.

The estimated useful lives of assets are as follows:

Particulars	Life
Furniture and Fixtures	5 years
Vehicles	5 years
Computers	3 years
Office Equipments	5 years

The estimated useful life of intangible assets (software) is 1 to 4 years and these are amortized on a straight line basis. Project specific intangible assets are amortized over their estimated useful life on a straight line basis or over the period of the license/project period, whichever is lower.

The estimated useful life and residual values of Property, Plant & Equipment and Intangible assets are reviewed at the end of each reporting period.

Assets acquired under leasehold improvements are amortized over the shorter of estimated useful life of the asset or the related lease term.

An item of Property, Plant & Equipment and intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant & Equipment and intangible assets is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.5 Foreign Operations:

For the purpose of these consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising on translation are recognised in other comprehensive income and accumulated in equity.

2.6 Leases:

At inception of the contract, the Group determines whether the contract is a lease or contains a lease arrangement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of- use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of- use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the consolidated statement of profit and loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate. For leases with reasonably similar characteristics, the Group, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Group recognises the amount of the re- measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the re-measurement in consolidated statement of profit and loss.

The Group has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Group as a lessor

At the inception of the lease the Group classifies each of its leases as either an operating lease or a finance lease. The Group recognises lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor’s net investment in the lease. When the Group is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, the Group applies Ind AS 115 Revenue to allocate the consideration in the contract.

2.7 Impairment of Assets:

i) Financial assets

The Group applies the expected credit loss model for recognizing impairment loss on financial assets.

Expected credit loss is the difference between the contractual cash flows and the cash flows that the entity expects to receive discounted using effective interest rate.

Loss allowances for trade receivables are measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. Lifetime expected credit loss is assessed at customer level separately. For other financial assets, expected credit loss is measured at the amount equal to twelve months expected credit loss unless there has been a significant increase in credit risk from initial recognition, in which case, those are measured at lifetime expected credit loss.

ii) Non Financial assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the consolidated statement of profit and loss.

2.8 Revenue recognition:

Revenue from business include revenue earned from services rendered on ‘time and material’ basis and fixed price development contracts.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Group expects to receive in exchange for those products or services, net of indirect taxes, discounts, rebates, credits, price concessions, incentives, performance bonuses, penalties, or other similar items.

Revenue from time and material contracts is recognised as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognised as unbilled revenue.

Revenue on fixed price development contracts is recognised using the ‘percentage of completion’ method of accounting, unless work completed cannot be reasonably estimated. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. If the Group does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognised only to the extent of contract cost incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognised in the consolidated statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability (“Unearned revenue”) arises when there are billing in excess of revenue.

Fixed price development contracts and related services, the performance obligation is satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

The Group accounts for volume discount and pricing incentives to customers as a reduction based on ratable allocation of the discounts/ incentives amount to each of the underlying performance obligation that corresponds to the progress made by the customer towards earning the discount/incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the Group recognises the liability based on its estimate of the customer’s future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognised until the payment is probable and the amount can be estimated reliably. The Group recognises changes in the estimated amount of obligations for discounts in the period in which the change occurs.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the consolidated selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the consolidated selling price, or as a termination of the existing contract and creation of a new contract if not priced at the consolidated selling price.

The Group disaggregates revenue from contracts with customers by nature of services and geography verticals.

2.9 Foreign currency transactions:

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the date of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognised in the profit or loss.

2.10 Financial Instruments:

Financial assets and liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost using the effective interest method less impairment losses, if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial assets not measured at amortised cost are carried at fair value through profit or loss (FVTPL) on initial recognition, unless the Group irrevocably elects on initial recognition to present subsequent changes in fair value in ‘other comprehensive income’, for investment in equity instruments which are not held for trading.

The Group, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in ‘other comprehensive income’, subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL, are measured at fair values at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss.

Investment in subsidiaries

Investment in subsidiaries is carried at cost less impairment as per Ind AS 27 Consolidated and Separate Financial Statements.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest rate method or at FVTPL. For financial liabilities carried at amortised cost, the carrying amounts approximate fair values due to the short term maturities of these instruments. Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised in a business combination, or is held for trading or it is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

ii) Derecognition of financial instruments

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group retains substantially all the risk and rewards of transferred financial assets, the Group continues to recognise the financial asset and also recognises the borrowing for the proceeds received.

The Group derecognises financial liabilities when, and only when, the Group’s obligation are discharged, cancelled or have expired.

2.11 Employee Benefits

a. Defined benefit plans:

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling and the return on plan assets (excluding interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee’s last drawn salary and the tenure of the employment.

b. Defined contribution plans:

i) Provident fund: The eligible employees of the Group are entitled to receive the benefits of Provident fund, a defined contribution plan, in which both employees and the Group make monthly contributions at a specified percentage of the covered employees' salary (currently at 12% of the basic salary) which are charged to the consolidated statement of profit and loss on accrual basis. The provident fund contributions are paid to the Regional Provident Fund Commissioner by the Group. The Group has no further obligations for future provident fund.

ii) Superannuation and ESIC: Contributions to Superannuation fund and employees' state insurance scheme (ESI), which are defined contribution schemes, are charged to the consolidated statement of profit and loss on an accrual basis. The Group has no further obligations for future superannuation fund benefits other than its annual contributions.

c. Compensated absences:

The Group provides for compensated absences and long term service awards subject to Group's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is accrued based on the number of days of unavailed leave at each Balance Sheet date and the awards are accrued based on number of years of service of an employee. It is measured at the balance sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method.

Actuarial gains and losses are recognised in full in the Consolidated statement of profit and loss in the period in which they occur. The Group also off a short term benefi in the form of encashment of unavailed accumulated compensated absences above certain limits for all of its employees and same is recognised as undiscounted liability at the balance sheet date.

d. Other short term employee benefits:

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for services rendered by employees, are recognised in the consolidated statement of profit and loss during the period when the employee renders the service.

2.12 Taxation:

Tax expense comprises of current tax and deferred tax. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted as at the reporting date and applicable for the period.

Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemptions in accordance with the local tax laws existing in the respective countries.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are recognised in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit has a legally enforceable right and intends to settle the asset and liability on a net basis.

Deferred income taxes: Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax assets are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be recovered or settled.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India. MAT credit is recognised for future economic benefits in the form of adjustment of future income tax liability and is considered as an asset if there is probable evidence that the Group will pay normal income tax.

Deferred tax assets and liabilities are offset when it relates to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

The Group recognises interest levied and penalties related to income tax assessments in interest expenses.

2.13 Employee Stock Option Plans:

Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization). The share based compensation expense is determined based on the Group's estimate of equity instruments that will eventually vest. The expense is recognised in the statement of profit and loss with a corresponding increase to the 'share option outstanding account', which is a component of equity.

2.14 Research and development:

Research costs are recognised as an expense in the consolidated statement of profit and loss in the period they are incurred. Development costs are recognised in the consolidated statement of profit and loss unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Group has an intention and ability to complete the development project and use the asset and the costs can be measured reliably.

2.15 Earnings per Share:

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period. For calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

2.16 Provisions and Contingent Liabilities:

A provision is recognised when the Group has a present obligation as a result of past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance costs.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

2.17 Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23 March 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable as below:

Ind AS 16 – Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

Ind AS 106 – Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 – Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

b) Rights, preferences and restrictions attached to equity shares

The Company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting rights of an equity shareholder are in proportion to its share of the paid-up equity capital of the Company. On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

Amended Employee Stock Option Plan 2020

The Group had instituted 'Employee Stock Option Plan 2019' (ESOP 2019) for eligible employees of the Group. ESOP 2019 was subsequently amended in its entirety through Amended Employee Stock Option Plan 2020 ("Amended ESOP Plan 2020") dated 11 March, 2020.The vesting period for all the options issued shall be one year from the date of grant of options. Each option carries with it the right to purchase one equity share of the Group at the exercise price determined by the Group at the time of grant.

Details of activity of the ESOP scheme

	31-Mar-22	31-Mar-21
Options outstanding at the beginning of the year	**175,760**	376,332
Granted during the year	**-**	-
Forfeited / surrendered during the year	**-**	-
Exercised during the year	**87,879**	185,926
Lapsed during the year	**3,351**	14,646
Options outstanding at the end of year	**84,530**	175,760
Options exercisable at the end of the year	**84,530**	175,760

The weighted average remaining contractual life are as follows:

	31-Mar-22		31-Mar-21	
Range of Exercise Price	Weighted average contractual life (years)	No. of Options Outstanding	Weighted average contractual life (years)	No. of Options Outstanding
₹ 10	-	84,530	0.77	175,760

During the year ended 31 March 2022, there were no options granted.

The Company recorded an employee compensation cost NIL for the year ended 31 March 2022 (31 March 2021 : INR 8 million) in the Statement of Profit and Loss.

31 Financial instruments - Fair values and risk management

Accounting classifications and fair values

The following tables shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

The carrying value and fair value of financial instruments by categories as of 31 March 2022 is as follows:

	Fair value through P&L	Amortized cost	Total carrying value	Total Fair Value*
Assets:				
Cash and cash equivalents	-	942	942	942
Trade receivables	-	267	267	267
Other financial assets	-	43	43	43
	-	**1,252**	**1,252**	**1,252**
Liabilities:				
Trade and other payables	-	124	124	124
Lease liabilities	-	410	410	410
Other financial liabilities	-	90	90	90
	-	**624**	**624**	**624**

The carrying value and fair value of financial instruments by categories as of 31 March 2021 is as follows:

	Fair value through P&L	Amortized cost	Total carrying value	Total Fair Value*
Assets:				
Cash and cash equivalents	-	394	394	394
Trade receivables	-	200	200	200
Other financial assets	-	14	14	14
Total	**-**	**608**	**608**	**608**
Liabilities:				
Trade and other payables	-	49	49	49
Lease liabilities	-	51	51	51
Other financial liabilities	-	34	34	34
Total	**-**	**134**	**134**	**134**

*The fair value of cash and cash equivalents, other balances with bank, trade receivables, trade payables, and certain other financial assets and liabilities approximate their carrying amount largely due to the short term nature of these instruments.

Fair value Hierarchy:

The following table summarizes financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

The different levels have been defined as follows:

Level-1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities at net market value.

Level-2 – Inputs other than quoted prices included within level-1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level- 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

A. Credit Risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risk. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Financial instruments that are subject to concentration of credit risk principally consist of trade receivables, investments, loans, cash and cash equivalents, other balances with banks and other financial assets. None of the financial instruments of the Group result in significant credit risk concentrations. Credit risk on cash and cash equivalents is limited as the Group generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. The derivatives are entered into with banks and financial institutions with are high credit ratings.

a) Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was INR 1252 million and INR 609 million as of 31 March 2022 and 31 March 2021 respectively, being the total of the carrying amount of trade receivables, investments, cash and cash equivalents, loans and other financial assets.

b) Trade receivable

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate. Details of concentration of revenue are included in Note 38. The management has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, if they are available, financial statements, credit agency information, industry information and in some cases bank references. The Group limits its exposure to credit risk from trade receivables by establishing a maximum payment period. More than 95% of the Group's customers have been transacting with the Group for over three years, and none of these customers' balances are credit-impaired at the reporting date. In monitoring customer credit risk, customers are grouped according to their credit characteristics such as geographic location, industry, history with the Group and existence of previous financial difficulties.

At 31 March 2022, the carrying amount of the Company's most significant customer is 95 million (31 March 2021: 70 million).

	As at	
	31-Mar-22	**31-Mar-21**
Balance at the beginning of the year	**0**	0
Movement in the expected credit loss allowance on trade receivables and other financial assets:	**-**	-

v. Disputed Trade Receivables considered doubtful	-	-	-	-	-	-
vi. Disputed Unbilled revenue considered doubtful	-	-	-	-	-	-
Total	**200**	**-**	**-**	**-**	**0**	**200**

B. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Group's exposure to market risk is primarily on account of foreign currency exchange currency risk.

a) Foreign Currency exchange rate risk

The fluctuation in foreign currency exchange rates may have impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Group operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar and Malaysian Ringgit against the respective functional currency of the Group.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the year are as follows:

	Currency	31-Mar-22	31-Mar-21
Trade Receivables	USD	**164**	118
Unbilled Revenue	USD	**50**	19
	MYR	**4**	-
Contract Assets	USD	**427**	97
	MYR	**19**	8
Cash and cash equivalents	USD	**0**	0
	MYR	**0**	0

	Currency	31-Mar-22	31-Mar-21
Payables (Trade and others)	USD	**-**	-

A reasonably possible strengthening by 1% of USD and MYR against the Indian Rupee as at 31 March 2022 and 31 March 2021 will affect the statement of profit and loss by the amounts shown below:

Currency	31-Mar-22	31-Mar-21
USD	**2**	1
MYR	**0**	0

C. Liquidity Risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following are remaining contractual maturities of financial liabilities at the reporting date. The amount are gross and undiscounted and include contractual interest payments.

As at 31 March 2022

	Less than 1 year	1-5 years	More than 5 years	Total
Non Derivative Financial Liabilities				
Lease liabilities	117	403	5	525
Trade Payables	124	-	-	124
Other financial liabilities	40	50	-	90
Total	**281**	**453**	**5**	**739**

- experience variance (i.e. Actual experience vs assumptions)	**5**	(4)
-Components of defined benefit costs recognised in other comprehensive income	**4**	**(4)**

Financial Assumptions

	31-Mar-22	**31-Mar-21**
Discount rate (per annum)	**6.45%**	6.15%
Salary growth rate (per annum)	**4.00%**	4.00%

The discount rate indicated above reflects the estimated timing and currency of benefit payments.It is based on the yields / rates available on applicable bonds as on the current valuation date.

The salary growth rate indicated above is the Company's best estimate of an increase in salary of the employees in future years, determined considering the general trend in inflation, senority, promotions, past experience and other relevant factors such as demand and supply in employment market, etc.

Demographic Assumptions

	31-Mar-22	31-Mar-21
Mortality rate	**100% of IALM 2012-14**	100% of IALM 2012-14
Normal retirement age	**60 Years**	60 Years
Attrition / Withdrawal rate (per annum)	**15.60%**	15.60%

Attrition rate indicated above represents the Company's best estimate of employee turnover in future(other than on account of retirement,death or disablement) determined considering various factors such as nature of business, retention policy, industry factors, past experience, etc.

Sensitivity Analysis

Significant actuarial assumptions for the detemination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The results of sensitivity analysis is given below:

	31-Mar-22	31-Mar-21
Defined Benefit Obligation (Base)	**48**	35

	31-Mar-22		31-Mar-21	
	Decrease	Increase	Decrease	Increase
Discount Rate (- / + 1%)	**51**	**45**	37	33
(% change compared to base due to sensitivity)	**6.60%**	**-5.90%**	6.7%	-6.0%
Salary Growth Rate (- / + 1%)	**45**	**51**	33	37
(% change compared to base due to sensitivity)	**-6.10%**	**6.70%**	-6.1%	6.7%
Attrition Rate (- / + 50% of attrition rates)	**49**	**45**	36	33
(% change compared to base due to sensitivity)	**1.10%**	**-5.80%**	1.8%	-6.0%
Mortality Rate (- / + 10% of mortality rates)	**48**	**48**	35	35
(% change compared to base due to sensitivity)	**0.0%**	**0.0%**	0.0%	0.0%

Please note that the sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. There is no change in the method of valuation for the prior period.

Effect of Plan on Entity's Future Cash Flows

a) Funding arrangements and Funding Policy

The scheme is managed on unfunded basis.

b) Maturity Profile of Defined Benefit Obligation

	31-Mar-22	31-Mar-21
Weighted average duration (based on discounted cashflows)	**6 years**	6 years
Expected cash flows over the next (valued on undiscounted basis):		
1 year	4	3
2 to 5 years	26	19
6 to 10 years	24	17
More than 10 years	23	16

35 Leases

For transition, the Group has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis. The Group has used a single discount rate to a portfolio of leases with similar characteristics. The Group has used incremental borrowing rate of 12.30% p.a. as a discount rate to a portfolio of leases with similar characteristics.

Lease agreements pertain to office premises taken on lease and license. The Group has applied Ind AS 116 using the modified retrospective approach. The Group has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. On application of Ind AS 116, the nature of expenses have changed from lease rent in previous periods to depreciation cost for the right-to-use asset and finance cost for interest accrued on lease liability.

A. Right-of-use liabilities

	31-Mar-22	31-Mar-21
Non Current	**336**	28
Current	**75**	23

B. Cash Flows

	31-Mar-22	31-Mar-21
Payment for Principal portion	**50**	27
Payment for Interest Portion	**24**	6
Total cash outflow for leases	**74**	33

C. Maturity analysis – contractual undiscounted cash flows of leases under the purview of Ind AS 116

	31-Mar-22	31-Mar-21
Less than one year	**117**	28
One to five years	**403**	30
More than five years	**5**	-
Total undiscounted cash flows	**525**	58

Disclosure on cash and non-cash changes for liabilities arising from financing activities:

Mentioned below are the components of liabilities related to financing activities in cash flow for the year ended 31 March, 2022

Particulars	Opening balance	Cash flow	Net Additions to lease liability	Closing Balance
Lease liability	51	(74)	433	410

Mentioned below are the components of liabilities related to financing activities in cash flow for the year ended 31 March, 2021

Particulars	Opening balance	Cash flow	Net Additions to lease liability	Closing Balance
Lease liability	23	(33)	62	51

36 Current Tax and Deferred Tax

The income tax expense for the year ended can be reconciled to the accounting profit as follows:

Particulars	31-Mar-22	31-Mar-21
Profit/(Loss) before tax	**403**	11
Enacted tax rate	**25.17%**	25.17%
Income tax expense calculated at enacted tax rate	**101**	3
Effect of expenses disallowed for tax purpose	**141**	79
Effect of income taxes related to prior years	**19**	0
Effect of tax on income at different rates	**3**	(6)
Effect of utilization of brought forward losses/unabsorbed depreciation	**(25)**	-
Others	**(11)**	(6)
Income tax expense recognised in statement of profit and loss	**228**	70

The tax rate used for the above reconciliation is the rate as applicable for the respective period payable by corporate entities in India on taxable profits under the Indian income tax laws.

Deferred Tax:

The following is the analysis of Deferred Tax Assets presented in the Balance Sheet:

	31-Mar-22	31-Mar-21
Deferred Tax Assets	**136**	44
Deferred Tax Liabilities	**(98)**	(12)
Deferred Tax Assets (Net)	**38**	32

The tax effect of significant temporary differences that has resulted in deferred tax assets are given below:

	As at 31st March, 2021	Recognised in Profit and loss	Recognised in OCI	As at 31st March, 2022
Employee Benefits	10	3	1	**14**
Property, Plant and Equipment	4	1	-	**5**
Provisions	18	(2)	-	**16**
Other Items	1	3	-	**3**
Net Deferred Tax Assets	**32**	**5**	**1**	**38**

	As at 1st April, 2020	Recognised in Profit and loss	Recognised in OCI	As at 31st March, 2021
Employee Benefits	7	2	1	10
Property, Plant and Equipment	3	1	-	4
Provisions	11	7	-	18
Other Items	0	1	-	1
Net Deferred Tax Assets	**21**	**10**	**1**	**32**

37 Earnings Per Share

Basic Earning per share

The calculation of basic earnings per share for the year ended 31 March 2022 was based on profit/(loss) attributable to equity shareholders of INR 175 Million (31st March, 2021 : INR (59) million), and the weighted average number of equity shares outstanding of 3 million (31st March, 2021 : 3 million).

Diluted Earning per share

The calculation of basic earnings per share for the year ended 31 March 2022 was based on profit/(loss) attributable to equity shareholders of INR 175 Million (31st March, 2021 : INR (59) million), and the weighted average number of equity shares after adjustment for the effects of all dilutive potential equity 3 million (31st March, 2021 : 3 million).

Particulars	31-Mar-22	31-Mar-21
Profit after taxation	**175**	(59)
No of Equity Shares outstanding as at year end	**3,080,862**	3,002,033
Weighted average Equity Shares outstanding as at year end	**3,070,739**	2,929,191
Add: Dilutive impact of employee stock options	**83,233**	173,064
No of Equity Shares for calculating Diluted Earnings Per Share	**3,153,972**	3,102,255
Nominal Value per Equity Share (in Rs.)	**10**	10
Earnings Per Share (Basic) (in Rs.)	**56.83**	(20.10)
Earnings Per Share (Diluted) (in Rs.) *	**55.33**	(20.10)

*Since diluted loss per share is decreased when taking the impact of employee stock options into account (from Rs. 20.10 to Rs 18.98), the employee stock options are anti-dilutive and are ignored in the calculation of diluted loss per share. Therefore, during the previous year diluted loss per share is Rs. 20.10.

38 Disclosures as per Ind AS 115 - Revenue from Contract with Customers

a. Disaggregation of revenue from contracts with customers

Set out below is the disaggregation of the Group's revenue from contracts with customers

Revenue for year ended 31 March 2022

Particulars	Services	Total
Revenue from Time and Material contracts	**694**	694
Revenue from Fixed Price contracts	**2,836**	2,836
Total revenue from contracts with customers	**3,530**	3,530
Geographical Markets		
a. Americas	**239**	239
b. India	**3,289**	3,289
c. Rest of World	**2**	2
Total revenue from contracts with customers	**3,530**	3,530

Revenue for year ended 31 March 2021

Particulars	Services	Total
Revenue from Time and Material contracts	**988**	988
Revenue from Fixed Price contracts	**1,111**	1,111
Total revenue from contracts with customers	**2,098**	2,098
Geographical Markets		
a. Americas	**634**	634
b. India	**1,445**	1,445
c. Rest of World	**19**	19
Total revenue from contracts with customers	**2,098**	2,098

b. Trade receivables and Contract balances:

Particulars	31/Mar/22	31/Mar/21
Trade Receivables	**204**	178
Contract assets	**447**	116
Unbilled revenue	**63**	22
Unearned Revenue	**-**	4

The Group classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognized as related services are performed. Revenue for fixed price services contracts is recognized on percentage of completion basis over the period of the contract. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time.

Revenue recognition for fixed price contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price contracts is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivables are non-interest bearing and generally have a credit period of 60 days.

Changes in contract assets	**31/Mar/22**	**31/Mar/21**
Balance at the beginning of the year	**116**	48
Revenue recognized during the year	**2,511**	1,099
Invoices raised during the year	**2,180**	1,031
Balance at the end of the year	**447**	**116**

The unearned revenue primarily relate to the advance consideration received on contracts entered with customers for which no work is performed at the reporting date, and therefore revenue will be recognized when rights become unconditional.

Changes in unearned revenue	**31/Mar/22**	**31/Mar/21**
Balance at the beginning of the year	**4**	-
Revenue recognized net of unearned revenue for the year	**(4)**	4
Balance at the end of the year	**-**	**4**

c. Performance Obligation

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied (or partially) satisfied performance obligations, along with the broad time band for the expected time to recognise those revenues, the Group has applied the practical expedient in Ind AS 115. Accordingly, the Group has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognised corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts, or the performance obligation is part of a contract that has an original expected duration of one year or less. Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc).

39 Segment Reporting

a) Business Segments:

The Company is engaged mainly in the business of very large scale integration (VLSI) & Embedded software services. As defined in Ind AS 108, the ‘Chief Operating Decision Maker (CODM) considers entire business as single operating segment. The Company’s operating divisions are managed from India. There is only one customer who accounts for more than 10% of the Company’s revenue.

b) Geographical segments:

The geographical information analyses the Company’s revenues by the Company’s country of domicile (i.e. India) and outside India presenting geographical information, segment revenue has been on the geographic location of customers.

Particulars	**31 March 2022**			
		Outside India		
	India	**USA**	**Others**	**Total**
Revenue from customers	3,289	239	2	3,530

Particulars	**31 March 2021**			
		Outside India		
	India	**USA**	**Others**	**Total**
Revenue from customers	1,445	634	19	2,098

Management believes that it is currently not practical to bifurcate assets based on geographies. Hence, no disclosure is provided for the same.

MEETINGS OF THE BOARD OF DIRECTORS

The Company had 4 (Four) Board Meetings during the financial year under review. The details are given below:

Sl. No.	Date of meeting	Total No. of Directors on the Date of Meeting	No. of Directors attended	% of Attendance
1.	11/05/2021	3	3	100
2.	28/06/2021	3	2	100
3.	22/10/2021	3	2	100
4.	14/02/2022	2	2	100

General Meetings:

Type	Date of Meeting	Total members	No. of Members Present	% of Members Share Holding
AGM	23.07.2021	2	2	100

AUDITORS

The members at the 4th Annual General Meeting of the Company held on 30.09.2019, appointed M/s K.Vijayaraghavan & Associates LLP, Hyderabad, (Firm's Regn.No: 004718S), as Statutory Auditors of the Company to hold office for five consecutive years till the conclusion of the 9th Annual General Meeting of the Company in the calendar year 2024.

Further they confirmed that they are not disqualified to continue as Statutory Auditors.

AUDITORS' REPORT

There are no qualifications or reservations or adverse remarks in the Auditor's Report which require any clarification/ explanation. The Notes on financial statements are self-explanatory and needs no further explanation.

COMPLIANCE WITH INDIAN ACCOUNTING STANDARDS (Ind AS)

The company being the wholly owned subsidiary of a Listed Company has adopted the Indian Accounting Standards (In AS) notified under Section 133 of the Companies Act,2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act, as such the financial statements are prepared accordingly

These financial statements are the third financial statements of the Company under Ind AS.

LOANS, GUARANTEES AND INVESTMENTS

Your Directors confirm that there were no loans, guarantees or investments made by the Company under section 186 of the Companies Act, 2013 during the year under review and hence the said provision is not applicable.

RELATED PARTY TRANSACTIONS

Your Directors confirm that all contracts or arrangements entered by the company during the financial year with related parties were in the ordinary course of business and on an arm's length basis as disclosed in Form No. AOC- 2 as per Annexure-1 and is attached to this Report.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE OUTGO

A. Conservation of Energy, Technology Absorption

The particulars as required under the provisions of Section 134(3) (m) of the Companies Act, 2013 in respect of conservation of energy have not been furnished considering the nature of activities undertaken by the company are service in nature during the year under review. Your company, however, has taken significant measures to reduce energy consumption by using energy efficient computers and by using energy efficient equipment. Energy conservation is a consistent focus area for your company both from a cost control and a social responsibility perspective and further the company has not imported any technology during the period under review 2021-2022.

The details of Foreign Exchange Earnings and Outgo during 2021-22 are given below:

B. Foreign Exchange earnings		Rs.75,86,68,947/-
C. Foreign Exchange outgo- Travelling Expenses	NIL	NIL

DEPOSITS

Your Directors, report that the company has neither accepted nor renewed any deposits covered under Chapter V of the Companies Act 2013 during the year under review.

RISK MANAGEMENT

The Company does not have any Risk Management Policy.

CORPORATE SOCIAL RESPONSIBILITY

The Company has complied with the provisions of section 135 of the Companies Act, 2013 and the Companies (Corporate Social Responsibility Policy) Rules, 2014 as amended for the Financial year 2021-22.

The Annual Report on Corporate Social Responsibility Activities of the Company for the Financial Year 2021-22 has been provided in the prescribed format as Annexure II to this report.

DIRECTORS

During the year Mr. Ravichandran Lakshminarayanan (DIN: 05205421), resigned from the office of directorship with effect from 30th November,2021.

DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to Section 134(5) of the Companies Act, 2013 the Board of Directors of the Company confirms that-

(a) In the preparation of the annual accounts, the applicable accounting standards had been followed along with proper explanation relating to material departures;

(b) The directors had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the company at the end of the financial year and of the profit of the company for that period;

(c) The directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the company and for preventing and detecting fraud and other irregularities;

(d) The directors had prepared the annual accounts on a going concern basis; and Company being unlisted sub clause of Sec – 134(3) is not applicable.

(e) The directors had devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

DETAILS IN RESPECT OF ADEQUACY OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE FINANCIAL STATEMENTS

There is an adequate internal control system commensurate with the size of the Company and the nature of business.

DISCLOSURE UNDER THE SEXUAL HARASSMENT OF WOMEN AT WORK PLACE (PREVENTION, PROHIBITION AND REDRESSAL) ACT, 2013:

No cases were filed pursuant to the Sexual Harassment of Women at Work Place (Prevention, Prohibition and Redressal) Act, 2013 during the year under review.

ORDER OF COURT

There were no significant and material orders passed by the regulators or courts or Tribunals impacting the going concern status and company's operations in future.

OTHER DISCLOSURES

Directors of your company hereby state and confirm that the Company has complied with all the applicable Secretarial Standards.

ACKNOWLEDGEMENT

Your Directors take this opportunity to express their deep and sincere gratitude and appreciation for cooperation extended by the Governmental Agencies, Shareholders.

Your Directors also place on record their appreciation for the contributions made by the employees through their dedication, hard work and commitment. Your Directors also convey thanks and appreciation to the valued customers and dealers for their continued patronage.

Introduction

Zen3 Infosolutions Private Limited, (hereinafter referred to as Company), is in the business of computer and related activities. The Company strives for holistic business growth. The company belives that alongwith economic performance, environmental and social stewardship is also required. The Company's focus has always been to contribute towards the sustainable development of society and environment.

The Corporate Social Responsibility (CSR) Contribution amount being less than Rupees Fifty Lacs for the Financial year 2021-2022, functions of the CSR Committee provided under section 135 of the Companies Act, 2013 are being discharged by the Board of Directors.

1. **Brief outline on CSR Policy of the Company.**

   Zen3 Infosloutions Private Limited implements its CSR Programs primarily through Tech Mahindra Foundation (TMF) (Section 25 Company set up under the Companies Act 1956). The CSR activities of the company are in accordance with Section 135 of the Companies Act 2013 and the Rules notified thereunder. CSR focus area for the company is primarily promotion of Education. Within this broad theme specific areas such as school education, education for employment and technical education are included. Persons with disability and Women's Empowerment are cross-cutting themes in these focused areas. The interventions in these thematic areas will be prioritized to reach the underserved segments of the population like women, economically and geographically disadvantaged and vulnerable and marginalized population.

2. **Composition of CSR Committee.**

   The functions of the CSR Committee provided under section 135 of the Companies Act, 2013 are being discharged by the Board of Directors.

   Board of Directors:

   Mr Vivek Satish Agarwal

   Mr Narasimham Venkata Rachakonda

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF ZEN3 INFOSOLUTIONS PRIVATE LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of ZEN3 INFOSOLUTIONS PRIVATE LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March, 2022, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and Statement of Cash Flows for the year ended on that date, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report and Shareholder's information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

(a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(b) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls

(c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

(d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

(e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, based on our audit we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

(c) The Balance Sheet, the Statement of Profit and Loss including other comprehensive income, Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.

(e) On the basis of the written representations received from the directors as on 31st March, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.

(f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

(g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company does not have any pending litigations which would impact its financial position in its standalone financial statements.

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries

(c) The company has not declared or paid any dividend during the year in accordance with Section 123 of the Companies Act,2013.

ANNEXURE A TO THE AUDITORS' REPORT

(Referred to in Paragraph 1 under "Report on Other Legal and Regulatory Requirements' section of our report to the members of Zen3 Infosolutions Private Limited of even date)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

i. In respect of the Company's Property, Plant and Equipment and Intangible Assets:

(a) A. The company has maintained proper records showing full particulars including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.

B. The company has maintained proper records showing full particulars of Intangible assets.

(b) The Company has a programme of physical verification of property, plant and equipment and right-of-use assets by which property, plant and equipment and right of use assets are verified in a phased manner over a period of three years. In accordance with this programme, certain property, plant and equipment were verified by the Management during the year and no material discrepancies were noticed on such verification. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets.

(c) The Company does not have any immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favor of the lessee). Accordingly, clause 3(i)(c) of the Order is not applicable.

(d) The Company has not revalued its property, plant and equipment (including right of use assets) or intangible assets or both during the year. Accordingly, clause 3(i)(d) of the Order is not applicable.

(e) There are no proceedings which have been initiated during the year or are pending against the company as at 31st March, 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

ii. (a) The company does not have any inventory and hence reporting under clause 3(ii)(a) of the Order is not applicable.

(b) The Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate at any points of time during the year, from banks or financial institutions on the basis of the security of current assets. Accordingly, clause 3(ii)(b) of the Order is not applicable.

iii. The Company has neither made any investments, nor has it given loans or provided guarantee or security nor has it granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties. Accordingly,

(a) The Company has not provided any loans or advances in the nature of loans or stood guarantee, or provided security to any other entity during the year, and hence reporting under clause 3(iii)(a)(A) and 3(iii)(a)(B) of the Order is not applicable.

(b) The Company has neither made any investments nor has given or provided any securities or guarantees. Hence, reporting under clause(iii)(b) of the Order is not applicable. –

(c) The Company has not granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties. Hence, reporting under clause(iii)(c) of the Order is not applicable.

(d) The Company has not granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties. Hence, reporting under clause(iii)(d) of the Order is not applicable.

(e) The Company has not granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties. Hence, reporting under clause(iii)(e) of the Order is not applicable.

(f) The Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause 3(iii)(f) is not applicable. The Company has not provided any guarantee or security or granted any advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties.

iv. The Company has not given any loans or guarantees/ made any investments within the meaning of section 185 and 186 of the Companies Act, 2013. Accordingly, Clause 3(iv) of the Order is not applicable.

v. The Company has not accepted any deposits or amounts which are deemed to be deposits. Accordingly, clause 3(v) of the Order and compliance with the directives issued by the reserve bank of India and sections 73 to 76 of the Companies Act,2013 is not applicable.

vi. The Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Companies Act, 2013 for the business activities carried about the Company. Accordingly, clause 3(vi) of the Order is not applicable.

vii. In respect of statutory dues:

(a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues including Goods and Service tax, Provident fund, Employees' State Insurance, Income-Tax, Sales Tax, Service Tax, Duty of Custom, Duty of Excise, Value Added Tax, Cess and any other statutory dues applicable to it with the appropriate authorities;

There were no undisputed amounts payable in respect Goods and Service tax, Provident fund, Employees' State Insurance, Income-Tax, Sales Tax, Service Tax, Duty of Custom, Duty of Excise, Value Added Tax, Cess and any other statutory dues in arrears as at 31st March 2022 for a period of more than six months from the date they became payable.

(b) There are no statutory dues relating to Goods and Service tax, Provident fund, Employees' State Insurance, Income-Tax, Sales Tax, Service Tax, Duty of Custom, Duty of Excise, Value Added Tax, Cess and any other statutory dues which have not been deposited on account of any dispute.

viii. The Company does not have any transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961.

ix. (a) The Company has not taken any loans or other borrowings from any lender. Accordingly, clause 3(ix)(a) of the Order is not applicable.

(b) The Company has not been declared a wilful defaulter by any bank or financial institution or government or government authority. Accordingly, clause 3(ix)(d) of the Order is not applicable.

(c) The Company has not taken any term loans during the year and there are no outstanding term loans at the beginning of the year. Accordingly, clause 3(ix)(c) of the Order is not applicable.

(d) On an overall examination of the financial statements of the Company, the Company has no funds raised on short-term basis. Accordingly, clause 3(ix)(d) of the Order is not applicable.

(e) On an overall examination of the standalone financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates and joint venture as defined in the Act. Accordingly, clause 3(ix)(e) of the Order is not applicable.

(f) The Company has not raised any loans during the year on the pledge of securities held in its subsidiaries, associates and joint ventures. Accordingly, clause 3(ix)(f) of the Order is not applicable

x. (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, clause 3(x)(a) of the Order is not applicable.

(b) The Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) during the year. Accordingly, clause 3(x)(b) of the Order is not applicable.

xi. (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

(b) No report under sub-section (12) of Section 143 of the Companies Act, 2013 has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government during the year and up to the date of this report.

(c) The Company has not received any whistle blower complaints. Accordingly, clause 3(xi)(c) of the order is not applicable.

xii. The Company is not a Nidhi company. Accordingly, clause 3(xii) of the Order is not applicable to the Company.

xiii. The company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with related parties, and the details of the related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.

xiv. Based on the size and business activity, the Company does not have any requirement for an internal audit system. Accordingly, clause 3(xiv)(a) and clause 3(xiv)(b) of the Order is not applicable to the Company.

xv. In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.

xvi. (a) In our opinion, The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clauses 3(xvi)(a), 3(xvi)(b) and 3(xvi)(c) of the Order are not applicable.

(b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.

xvii. The Company has not incurred cash losses in the current and in the immediately preceding financial year covered by our audit and the immediately preceding financial year.

xviii. There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

xx. (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of Section 135 of the said Act. Accordingly, reporting under clause 3(xx)(a) and 3(xx)(b) of the Order is not applicable for the year.

ANNEXURE B TO THE AUDITORS' REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Zen3 Infosolutions Private Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **ZEN3 INFOSOLUTIONS PRIVATE LIMITED** ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

(a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

(c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ACCOUNTING POLICIES

(Amount expressed in ₹ unless otherwise stated)

Company Overview and Significant Accounting Policies

1 Company Overview

Zen3 Infosolution Private Limited is a private limited company domiciled in India and incorporated under the provisions of the Companies Act, 2013 on 28th December, 2015. The Company is a leading software solutions group developing innovative solutions for media, travel and technology industries. It has a domain expertise in big data, machine learning and content solutions. The Company services customers in UK, US and India. It has technology professionals working in various worldwide locations delivering innovative digital media and technology solutions.

2 Significant Accounting Policies

2.1 Compliance Statement

The Company has adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101-First time adoption of Indian Accounting Standards. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

2.2 Basis for preparation of Financial Statements

The financial statements have been prepared in Indian Rupees(INR) which is also the company's functional currency. These statements are prepared in accordance with Indian Accounting Standards (referred to as Ind AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 (`Act') (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or are vision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.3 Previous Year Comparative Figures

The company has voluntarily adopted Ind ASs, in accordance with Ind ASs notified under the Companies Act, 2013 from the FY 2019-20 onward. However, the company has chosen to present the comparative information in accordance with previous GAAP and confirms that there is no prominent impact as a result of which, except for those labelled specifically.

2.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed below. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Critical accounting estimates

a. Revenue Recognition

Revenue is recognized upon completion of Milestones described in customer agreements.

When the outcome of a transaction involving the rendering of service can be estimated reliably, the revenue associated with the transaction shall be recognised by reference to the stage of completion of the transaction at the end of the reporting period.

b. Income taxes

Significant judgements are involved in determining the tax provisions. Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets - unrecognized or recognised are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

c. Property, Plant and Equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. Depreciation is charged on written down value basis and as per useful lives prescribed. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

d. Impairment

The company assesses at each balance sheet date whether there is any indication that an asset including intangible may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

e. Provisions

A provision is recognized if, as a result of a past event, the company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are reviewed regularly and are adjusted where necessary to reflect the current best estimate of the obligation.

f. Defined Benefit Plans and Compensated Absences

Provision for Gratuity and Leave Encashment are made on the basis of actuarial valuation carried out on the Balance Sheet date by an Independent Actuary. An actuarial valuation involves making various assumptions like discount rate, mortality rates and these may differ from actual developments in future. A defined benefit obligation is highly sensitive to changes in such assumptions. These assumptions are reviewed at each reporting date.

2.5 Property, Plant & Equipment and Intangibles

a. Property, Plant & Equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

Depreciation on assets is provided using the written down value method based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Depreciation on fixed assets added / disposed off during the year is provided on pro-rata basis with reference to the date of addition / disposal.

The Company has estimated the residual value to be 5% of the value of the asset.

The useful lives and residual values of company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end

b. Intangibles:

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is as under:

- Goodwill is amortised over a period of 10 years.
- SAP Upgrade License/ Implementation fees is amortised over a period of 24 months.
- Intangible assets on account of R&D Projects amortised over a period of 36 months.

The company uses a presumption that the useful life of an intangible asset will not exceed three years from the date when the asset is acquired.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the company has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labour, overhead costs that are directly attributable to preparing the asset for its intended use. Research and development costs and software development costs incurred under contractual arrangements with customers are accounted as expenses in the Statement of Profit and Loss.

Amortization methods and useful lives are reviewed periodically including at each financial year end.

2.6 Impairment of Assets:

a. Financial Assets:

Expected Credit Losses:

The Management is of the view that all the monies receivable against sales will be received in full. The revenue policy has been revised from the current year whereby all the invoices are booked only after receipt of the customers' confirmation. Accordingly, no expected credit loss has been recognized.

b. Non Financial Assets

The company estimates the recoverable amount of the asset in case any indications exists that Plant, Property & Equipment and Intangibles may be impaired . Such assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

2.7 Revenue Recognition:

a. Revenue from Operations

The company has adopted IND AS 115 using the modified retrospective method. The adoption of this standard did not have a significant impact on the financial statements of the company.

Revenue includes the gross inflows of economic benefits received and receivable by the company on its own account. Amounts collected on behalf of third parties such as sales taxes, goods and services taxes and value added taxes are excluded from revenue. Excise duty is included in "Gross Revenue" and is shown separately in profit and loss statement.

I. Measurement:

Revenue is measured at the fair value of consideration received or receivable.

II. Recognition

Revenue is disclosed inclusive of excise duty and net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties.

"Revenue from operations comprises of Income earned from DTA Services and Software Development Services. Revenue from software services primarily consists of services performed on a contract basis. The related revenue is recognized upon completion of Milestones described in customer agreements."

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

When the outcome of a transaction involving the rendering of service can be estimated reliably, the revenue associated with the transaction shall be recognised by reference to the stage of completion of the transaction at the end of the reporting period. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

(i) The amount of revenue can be measured reliably;

(ii) It is probable that economic benefits will flow to the company;

(iii) The stage of completion of the transaction at the end of the reporting period can be measured reliably; and

(iv) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

When the outcome of a transaction involving the rendering of service cannot be estimated reliably, revenue shall be recognised only to the extent of the expenses recognised that are recoverable.

b. Other income

Other income is comprised primarily of interest income, dividend income and rental income. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

2.8 Foreign Currency Transactions:

The functional currency of the company is the Indian rupee. These financial statements are presented in Indian Rupees.

Foreign currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the balance sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss.

Liabilities and Assets in foreign currency are recognized in accounts as per the following governing principles:

(I) Non monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined.

(II) Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled.

(III) Revenue, expense and cash flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

2.9 Financial Instruments

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held with in a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

Financial assets at fair value through profit and loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturity of three months or less when purchased, to be cash and cash equivalents.

Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing with in one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

2.10. Employee Benefits:

The company has adopted IND AS 19-Employee Benefits, and has disclosed employee benefits accordingly through profit and loss statement and other comprehensive income.

Short-term employee benefits including salaries, social security contributions, short term compensated absences (such as paid annual leave) where the absences are expected to occur within twelve months after the end of the period in which the employees render the related employee service, profit sharing and bonuses payable within twelve months after the end of the period in which the employees render the related services and non monetary benefits (such as medical care) for current employees are estimated and measured on an undiscounted basis.

a. Defined Benefit Plans:

The company provides for gratuity in accordance with the Payment of Gratuity Act, 1972, a defined benefit retirement plan (the Plan) covering all employees. The plan, subject to the provisions of the above Act, provides a lump sum payment to eligible employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. Gratuity liability is accrued and provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year. Actuarial gains/losses are immediately taken to profit and loss account and are not deferred. Remeasurement, comprising actuarial gains and losses, the effect of changes to the asset ceiling and the return on plan assets (excluding interest), is reflected immediately in balance sheet with a charge or credit recognized in the other comprehensive income in the period in which they occur."

b. Defined Contribution Plans:

Company's contributions paid/payable during the year are recognized in the Profit and Loss Account.

(i) Provident Fund: The eligible employees of the company are entitled to receive the benefits of Provident Fund, a defined contribution plan, in which both the employees and the Company make monthly contributions at a specified percentage of the covered employees' salary. Provident fund is administered through Regional Provident Fund Commissioner. The Company has no further obligations for future provident fund.

(ii) Employee State Insurance: The eligible employees of the Company are entitled to receive the benefits of Employee State Insurance, a defined contribution plan, in which both the employees and Company make monthly contributions at a specified percentage of the covered employees' salary.

c. Compensated Absences:

Hitherto compensated absences were considered to be long term in nature and was valued by an independent actuary and consequent to permanent change in leave policy of the company, compensated absences became short term in nature, liability against which is arrived at by estimating the liability to be discharged based on actual unused leave balances at Balance sheet date. Quantification of the change in the policy cannot be precisely estimated and hence not disclosed.

2.11 Taxation:

Income tax comprises current and deferred tax. It is recognised in profit and loss account except to the extent it is related to business combinations or to an item recognised directly in equity or other comprehensive income.

a. Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustments to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates and tax laws enacted or substantially enacted by the reporting date.

Tax on income for the year is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, 1961, and based on expected outcome of assessments/appeals. As a prudence practice, MAT credit is not recognized as assets in the books in the year of occurrence and in the year of set off of MAT credit, net current tax expenses is only disclosed.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

a. Deferred Tax

Deferred tax is recognised for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax liability is not recognised for:

- Temporary differences arising on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- Temporary differences related to investment in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of temporary differences and it is probable that they will not reverse in the foreseeable future; and
- Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets - unrecognized or recognised are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized. Deferred tax assets and deferred tax liabilities are offset only if there is a legally enforceable right to set off the current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different taxable entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

2.12 Research and Development

Revenue expenditure on research and development is charged under respective heads of account in the year in which it is incurred. Capital expenditure on research and development is included as a part of Property, Plant and Equipment.

2.13Earnings per share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

2.14Provisions and Contingencies

A provision is recognized if, as a result of a past event, the company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions are reviewed regularly and are adjusted where necessary to reflect the current best estimate of the obligation. When the company expects a provision to be reimbursed, the reimbursement is recognized as a separate asset only when reimbursement is virtually certain.

A disclosure for contingent liability is made in the notes to accounts when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Contingent assets are neither recognised nor disclosed in the financial statements.

2.15Leases

The Company has adopted Ind AS 116 “”Leases”” with the date of initial application being April 1, 2019. Ind AS 116 replaces Ind AS 17 “”Leases”” and related interpretation and guidance. On transition to Ind AS 116, Right-of—use assets as at April 1, 2019 for leases previously classified as operating leases were recognised and measured with cumulative effect of initially applying this standard as an adjustment to the opening balance of retained earnings as at April 1, 2019. As a result, the comparative information has not been restated. The Company has discounted lease payments using the incremental borrowing rate as at April 1, 2019 for measuring the lease liability.

At the date of commencement of the lease, the Company recognizes a right-of-use asset (“ROU”) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

The Company's lease asset classes primarily consist of leases for building premises. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

On transition, the adoption of the new standard resulted in recognition of 'Right of Use' asset of ₹6.14 crore and a lease liability of ₹6.27 crore. The cumulative effect of applying the standard, amounting to ₹0.13 crore was debited to retained earnings. The effect of this adoption is insignificant on the profit before tax, profit for the period and earnings per share. Ind AS 116 will result in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

The following is the summary of practical expedients elected on initial application:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
2. Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application
3. Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
4. Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

The weighted average incremental borrowing rate applied to lease liabilities as at April 1, 2019 is 11.2%

SBI's current interest rate for term loans has been taken for computation purposes as the Company does not have an implicit interest rate

2.16 Government Grant

Capital investment subsidy not specifically related to any fixed asset is credited to a specific reserve upon receipt and retained till the requisite conditions are fulfilled. On fulfilment of such conditions, the subsidy is transferred to Capital Reserve.

2.17 Borrowing Costs

Borrowing costs are interest and other costs that an entity incurs in connection with the borrowing of funds. The Company capitalises borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. The Company recognises other borrowing costs as an expense in the period in which it incurs them.

2.18 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

2.19 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

NOTES TO ACCOUNTS FOR THE YEAR ENDED

(Amount expressed in ₹ unless otherwise stated)

3 Property, Plant and Equipment

Following are the changes in the carrying value of property, plant and equipment for the year ended March 31, 2022:

STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2022

The Directors present their strategic report for the year ended 31 March 2022.

Principal activities

The principal activity of the company is to hold an investment in the holding companies which control the Target Group of companies.

Business performance

The company was formed to acquire the share capital of Target Topco Limited. In August 2016 the Company purchased 100% of the share capital of Target Topco Limited, the ultimate UK parent of Target Group Limited. Between FY20 and FY22 restructuring of group entities was undertaken with Target Topco Limited dissolved in January 2020 and Target TG Investments Limited dissolved in July 2021. With these changes, the Company now holds 100 % of the share capital of Target Group Limited. The company does not carry on any activities other than holding an investment in Target Group Limited. During the year under review there are no major changes in the business. The Net loss for the year amounted to £136,475 (2021: £ 64,737).

Risks & uncertainties

As a holding company the directors have not identified any specific risks or uncertainties, other than the ability to meet liabilities as they fall due which is covered by the financial support offered by the parent company.

Position of the company at the year end

At the end of the year the company has a cash balance of which is deemed to be sufficient to meet current liabilities as they fall due. Any shortfall would be covered by the financial support offered by the parent company as mentioned in the risks above.

Statement of directors in performance of their statutory duties in accordance with s172(1) Companies Act 2006

The Board of Directors determines the purpose and values of the Company. The primary role of the Board is that of trusteeship, to protect and enhance stakeholders' value through the strategic supervision of the Company and its subsidiaries.

The Directors of the Company have acted in accordance with their duties codified in law, which include their duty to act in the way in which they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole and its significant subsidiaries, having regard to the stakeholders and matters set out in section 172(1) of the Companies Act 2006. Section 172 considerations are embedded in decision making at Board level and throughout the Group the Company heads.

DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2022

The directors have pleasure in presenting their Directors 'report and the financial statements for the year ended 31 March 2022

Principal activities

The principal activity of the company is to hold an investment in the holding companies which control the Target Group of companies.

Results and Dividend

The results of the operations for the year under review are set out in the Profit and Loss Account in the ensuing pages.

The directors do not recommend the payment of any dividend (2021: £Nil).

Directors

The directors who held office during the year were as follows:

Mr. Vivek Satish Agarwal

Mr. Patrick Michael Byrne (Resigned on 26th October 2021)

Mr. Vikram Narayanan Nair

Political contributions

There were no political contributions made during the current or prior year.

Going concern

The company does not carry on any activities other than holding an investment in Target Group Limited

As at 31 March 2022, the company had net current assets of £541,187 (2021: £674,809), including cash of £408,939 (2021: £458,419), net assets of £83,741,187 (2021: £83,874,809) and reported a loss for the year then ended of £136,475 (2021:£64,737). The directors have prepared the financial statements on a going concern basis which they consider to be appropriate for the following reasons.

Tech Mahindra Limited, as the parent company has indicated that they will provide necessary funding to support the company to meet its obligations as they fall due for at least twelve months from the approval of these financial statements.

The directors are confident that the company will have sufficient funds to meet its liabilities as they fall due for at least twelve months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern

Energy and Carbon Reporting

The company has not disclosed detailed energy and carbon information, as it is a low energy user with <40,000 kwh energy use. The company holds a large group and the energy and carbon information for its immediate subsidiary, Target Group Limited, and its subsidiaries under this company are reported in Target Group Limited's Directors Report. These consolidated financial statements are available for public viewing on Companies House.

Disclosure of information to auditor

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the company's auditor is unaware; and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information.

Auditor

The auditors, KNAV are deemed to be reappointed under section 487(2) of the Companies Act 2006.

By order of the board

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ANNUAL REPORT AND THE FINANCIAL STATEMENTS

The directors are responsible for preparing the Annual Report, Directors' Report and the financial statements in accordance with applicable law and regulations.

Company Law requires the directors to prepare financial statements for each financial period. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 the Financial Reporting Standard applicable in the UK and Republic of Ireland.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF TECH MAHINDRA FINTECH HOLDINGS LIMITED

Opinion

We have audited the financial statements of Tech Mahindra Fintech Holdings Ltd (the 'company') for the year ended 31 March 2022 which comprise the Profit and Loss Account and Other Comprehensive Income, the Balance Sheet and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2022 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of twelve months from when the financial statements were authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Directors' Report and the Strategic Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Directors' Report and the Strategic Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report or the strategic report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities as set out above, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Extent to which the audit is capable of detecting irregularities, including fraud

We design our procedures so as to obtain sufficient appropriate audit evidence that the financial statements are not materially misstated due to non-compliance with laws and regulations or due to fraud or error.

We are not responsible for preventing non-compliance and cannot be expected to detect noncompliance with all laws and regulations – this responsibility lies with management with the oversight of the Directors.

Based on our understanding of the Company and industry, discussions with management, we identified Companies Act 2006, Financial Reporting Standard 102 and UK taxation legislation as having a direct effect on the amounts and disclosures in the financial statements.

As part of the engagement team discussion about how and where the Company's financial statements may be materially misstated due to fraud, we did not identify any areas with an increased risk of fraud.

Our audit procedures included:

- enquiry of management about the Company's policies, procedures and related controls regarding compliance with laws and regulations and if there are any known instances of non-compliance;
- examining supporting documents for all material balances, transactions and disclosures;
- review of the Board of directors minutes;
- evaluation of the selection and application of accounting policies related to subjective measurements and complex transactions;
- analytical procedures to identify any unusual or unexpected relationships.

Owing to the inherent limitations of an audit, there is an unavoidable risk that some material misstatements of the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the ISAs (UK).

The potential effects of inherent limitations are particularly significant in the case of misstatement resulting from fraud because fraud may involve sophisticated and carefully organized schemes designed to conceal it, including deliberate failure to record transactions, collusion or intentional misrepresentations being made to us.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Notes

(forming part of the financial statements)

1 Accounting policies

Tech Mahindra Fintech Holdings Limited ('the Company') is a private company limited by shares, incorporated, registered and domiciled in England and Wales, in the United Kingdom.

The financial statements have been prepared in accordance with FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and Companies Act 2006.

The presentation currency of these financial statements is sterling. All amounts in the financial statements have been rounded to the nearest £1,000.

The company is itself a subsidiary company and is exempt from the requirement to prepare group accounts by virtue of section 401 of the Companies Act 2006. The Company's ultimate parent undertaking, Tech Mahindra Limited includes the Company in its consolidated financial statements. The consolidated financial statements of Tech Mahindra Limited are prepared in accordance with Indian Accounting Standards and are available to the public and may be obtained from the National Stock Exchange of India Ltd (NSE), The BSE Limited (BSE) and the company's website (www. techmahindra.com). In these financial statements, the company is considered to be a qualifying entity (for the purposes of this FRS) and has applied the exemptions available under FRS 102 in respect of the following disclosures:

- the requirements of Section 7 Statement of Cash Flows;
- the requirements of Section 3 Financial Statement Presentation paragraph 3.17(d);
- the requirements of Section 33 Related Party Disclosures paragraph 33.7;
- the requirements of Section 11 Basic Financial Instrument.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

1.1 Measurement Convention

The financial statements are prepared on the historical cost basis.

1.2 Going concern

The company does not carry on any activities other than holding an investment in Target Group Limited

As at 31 March 2022, the company had net current assets of £541,187 (2021: £674,809), including cash of £408,939 (2021: £458,419), net assets of £83,741,187 (2021: £83,874,809) and reported a loss for the year then ended of £136,475 (2021:£ 64,737). The directors have prepared the financial statements on a going concern basis which they consider to be appropriate for the following reasons.

Tech Mahindra Limited, as the parent company has indicated that they will provide necessary funding to support the company to meet its obligations as they fall due for at least twelve months from the approval of these financial statements.

The directors are confident that the company will have sufficient funds to meet its liabilities as they fall due for at least twelve months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern

1.3 Foreign Currency

Transactions in foreign currencies are translated to the companies' functional currency at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non- monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are retranslated to the functional currency at foreign exchange rates ruling at the dates the fair value was determined. Foreign exchange differences arising on translation are recognized in the profit and loss account.

1.4 Classification of financial instruments issued by the Company

In accordance with FRS 102.22, financial instruments issued by the Company are treated as equity only to the extent that they meet the following two conditions:

- they include no contractual obligations upon the company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavorable to the company; and
- where the instrument will or may be settled in the company's own equity instruments, it is either a non- derivative that includes no obligation to deliver a variable number of the company's own equity instruments or is a derivative that will be settled by the company's exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares.

1.5 Basic financial instruments

Trade and other debtors and creditors

Trade and other debtors are recognised initially at transaction price less attributable transaction costs. Trade and other creditors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses in the case of trade debtors.

If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate of interest for a similar debt instrument.

Interest-bearing borrowings classified as basic financial instruments

Interest-bearing borrowings are recognised initially at the present value of future payments discounted at a market rate of interest. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses. In the Company balance sheet, investments in subsidiaries acquired for consideration are measured by reference to purchase price less any impairment.

Investments in subsidiaries

These are separate financial statements of the company. Investments in subsidiaries are carried at cost less impairment.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts that are repayable on demand are included within liabilities.

1.6 Impairment

Financial assets

For financial assets carried at amortised cost, the amount of an impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. For financial assets carried at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

Where indicators exist for a decrease in impairment loss, and the decrease can be related objectively to an event occurring after the impairment was recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired financial asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised.

Non-financial assets

The carrying amounts of the entity's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its Cash Generating Unit (CGU) exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss.

1.7 Provisions

A provision is recognised in the balance sheet when the Company has a present legal or constructive obligation as a result of a past event, that can be reliably measured and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the amount required to settle the obligation at the reporting date.

1.8 Interest receivable and Interest payable

Interest payable and similar expenses include interest payable, finance charges on shares classified as liabilities and finance leases recognised in profit or loss using the effective interest method, unwinding of the discount on provisions, and net foreign exchange losses that are recognised in the profit and loss account (see foreign currency accounting policy).

Other interest receivable and similar income include interest receivable on funds invested and net foreign exchange gains.

Interest income and interest payable are recognised in profit or loss as they accrue, using the effective interest method. Dividend income is recognised in the profit and loss account on the date the entity's right to receive payments is established. Foreign currency gains and losses are reported on a net basis.

1.9 Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of the timing difference. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

2 Judgments in applying accounting policies and key sources of estimation uncertainty

The preparation of financial statements in conformity with FRS102 requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, turnover, costs, expenses and other comprehensive income that are reported and disclosed in the financial statements and accompanying notes. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Significant estimates and assumptions are used as follows:

Provisions against impairment of investments –This is explained under note 1.6

3 Auditor's remuneration

Auditor's remuneration:

	Year ended 31 March 2022 £000	Year ended 31 March 2021 £000
Audit of these financial statements	**5**	
Amounts receivable by the company's auditor and its associates in respect of:		
Audit -related services	**-**	-
	5	5

4 Staff numbers and costs

During the reporting period, the company had no employees (2021: Nil)

5 Directors' remuneration

No remuneration or benefits were paid to any of the directors during the period. The directors are remunerated by other group companies, however none of their remuneration was in respect of this company, due to its nature as a non-trading holding company.

6 Interest payable and similar expenses

	Year ended 31 March 2022 £000	Year ended 31 March 201 £000

Group tax relief claimed	**-**	-
Total tax credit included in profit or loss	**-**	-

The main rate of corporation tax is 19% (2021:19%)

No deferred tax has been recognised on the carried forward losses, as due to the nature of the company it cannot be estimated when these will be utilised.

8 Fixed asset investments

	Year ended 31 March 202 £000	Year ended 31 March 2021 £000
Cost		
At 1 April	83,200	203,210
Adjustment acquisition cost against dividend – Target TG Investment Ltd	-	(120,010)
At 31 March	83,200	83,200
At 1 April	83,200	203,210
At 31 March	**83,200**	**83,200**

Investment in Target Group Limited

After dissolution of Target Topco Limited, the Company bought all the shares of Target Group Limited from its holding company, Target TG Investments Limited, for a value of £120,010,000 in March 2020.

Investments in Subsidiaries are accounted at cost less any provision for impairment. The directors have assessed the operations of the subsidiary entities, including the future projections, to identify indications of diminution in the value of the investments recorded in the books of accounts. Based on the performance of subsidiaries and relevant economic and market indicators which are adversely impacted as a result of Covid-19, the Company has reassessed the recoverable amount in its subsidiaries as on March 31, 2022. Estimates of future cash flows used in the value in use calculations are specific to the entity and based on its business plans. The future cash flows consider potential risks given the current economic environment and key assumptions, such as volume forecasts and margins. The discount rate used in the calculation reflects market's assessment of the risks specific to the investee company as well as time value of money. The discount rate (pre-tax rate) used to determine the value of the investment is 13%. The financial projections and future cash flows, based on which the investments have been tested for impairment, consider the increase in economic uncertainties due to the COVID-19 pandemic, reassessment of the discount rates, growth rates in arriving at the terminal value and subjecting these variables to sensitivity analysis. In FY20, the recoverable amount was lower than the carrying value of investments and the Company had recognised an impairment loss of £36,810,000 on its investment in Target Group Limited. The value of the investment currently remains at £83,200,000 (2021 - £83,200,000) at the end of the year.

The company's wholly owned subsidiaries as at 31 March 2022 were as below

Subsidiary underdaking	Registered Office	Class of Shared held	% Held
Target Group Limited	Target House, Cowbridge Road East, Cardiff, S Glamorgan, CF11 9AU	Ordinary	100%

9 Debtors

	Year ended 31 March 2022 £000	Year ended 31 March 2021 £000
Amounts owed by group undertakings	52	52
Prepayments	91	177
	143	**229**

Debtors are all due within one year. Amounts due to group undertakings are interest free, unsecured and repayable on demand

10 Creditors: amounts falling due within one year

	Year ended 31 March 2022 £000	Year ended 31 March 2021 £000
Other creditors	11	12
	11	**12**

11 Share capital

	Number of shares	
Allotted, called up and fully paid	**31-Mar-22**	**31-Mar-21**
Balance at 1 April	6,000,001	1,000,001
Issued during the year	-	5,000,000
Balance as at 31 March	6,000,001	6,000,001

Types of Shares	**No of shares**	**Face Value**
		£
Ordinary shares of £0.010 each	58,75,001	58,75,001
A1 shares of £0.0001 each	62,500	62,500
A2 voting shares of £0.0200 each	62,500	62,500
	6,000,001	**6,000,001**

A1 Shares have no voting rights attached, are non-redeemable and are not entitled to dividends.

A2 Shares are entitled to the greater of: two votes per share held, and such number of votes that would give the holder 5% of voting rights in the company (reducing other classes accordingly). The shares are non-redeemable and are not entitled to dividends.

Ordinary shares are entitled to one vote, and are entitled to dividends.

In May 2017, the company issued 17,816 A1 ordinary shares of £ 0.0001 each to the employees of Target Group at a premium of £ 0.1599. These shares were financed by a loan from the company to the employees at zero interest rate. The company had established Tech Mahindra Fintech Holding Limited Employee Benefit Trust ("Trust") and allotted 19,059 A1 ordinary shares of £0.0001 each. In the current financial year the Trust has been dissolved and the entire shareholding has been transferred to Tech Mahindra Limited.

Reserves

The share premium reserve contains the premium arising on issue of equity shares.

The profit and loss reserve represents cumulative profits or losses, net of dividends paid and other adjustments.

12 Ultimate controlling party

The Company is a subsidiary undertaking of Tech Mahindra Limited. The ultimate controlling party is Tech Mahindra Limited and its registered office is Gateway Building, Apollo Bunder, Mumbai – 400001, India.

The largest group in which the results of the company are consolidated is that headed by Tech Mahindra Limited, Gateway Building, Apollo Bunder, Mumbai – 400001, India. The consolidated financial statements of Tech Mahindra Limited are available to the public on the National Stock Exchange of India Ltd (NSE), The BSE Limited (BSE) and the company's website (www.techmahindra.com).

13 Related party transactions

At 31 March 2022, £ Nil (2021: £ Nil) is due in relation to intercompany loans and £52,079 (2021: £52,079) is receivable in relation to group tax relief from the immediate parent company. Amounts owed by group undertakings are interest free, unsecured and repayable on demand. There were no transactions with related parties during the year.

STRATEGIC REPORT

This strategic report has been prepared for the Group as a whole ("Target"), so includes matters which are significant to Target Group Limited and its subsidiary undertakings.

Review of the business

Principal activities

The principal activities of Target are the provision of transformational outsourcing, business process management and managed services to the financial services sector. We enable clients to transform performance by delivering a world class combination of customer experience, regulatory compliance and productivity through our digital technology and process improvement capabilities. Our services are delivered in highly regulated mission critical environments, and our platform supports over £29bn of business. We have over 40 years' experience and are trusted by over 50 financial institutions, including some of the top 20 global banks.

Through Elderbridge Limited we act as Lender of Record on a number of lending portfolios, providing management services for portfolio owners in the FCA regulated environment.

Covid-19 Pandemic

During the COVID-19 pandemic we recognised we had a crucial role to play in helping administer financial accounts for millions of customers, many of whom were concerned about their finances during a difficult time. Our customer service, and the safety and well-being of our staff continue to be our priorities as impact of the COVID-19 diminish

Financial review

The year ended 31 March 2022 has been challenging, we have continued to deliver critical projects for our clients whilst managing our response to COVID-19 and keeping our employees safe.

Turnover for the year ended 31 March 2022 of £76,689k (31 March 2021 of £70,960k) represents an increase of 8% (2021: increase of 2%). The gross margin for the year was 23% (2021: 27%). We continued to invest in developing our sales pipeline and securing new business opportunities. As a result, we have an extremely healthy pipeline and have secured significant new contract revenue supporting the year on year increase in revenue.

Operating loss decreased from £8,351k for the year ended 31 March 2021 to an operating loss of £4,860k for the year ended 31 March 2022. We have continued to invest in our platforms and operating model during the year which will deliver future cost savings, but not all of our investment meets the capitalisation thresholds available. This has resulted in additional costs in the year, but it is important investment to ensure we continuously improve our services to clients and customers, whilst driving efficiencies into our operations.

The impact of macroeconomic challenges on our customers will be an area we closely monitor. Our proven track record in successfully supporting our customers through challenging times provides confidence that we will continue to meet the changing needs of our customers and colleagues as we move forward

The following data illustrate the annualised comparison:

	2022 £000	**2021 £000**
Revenue	76,689	70,960
EBITDA	(2,797)	(3,589)

Our markets

Our clients are predominantly providers of lending, payment, investment and insurance products, across both the public and private sectors. We service these markets through four key offerings; transformational outsourcing, business process outsourcing, managed services and software, all of which are supported by our professional services and consultancy teams.

Business performance

We have continued to work with Tech Mahindra, of which Target is a 100%-owned subsidiary, in bringing new technology to bear in helping our clients succeed.. We have been delighted that in our core markets existing and new clients have chosen to put more business with Target, enabling us to continue to grow our franchise and create additional, sustainable annuity revenue streams. This combined Target/Tech Mahindra approach allowed us to secure the largest deal in Targets history.

In our existing client portfolio, we saw several clients chose to renew their contracts with Target, and a number also placed new business with us during the year. These are relationships that we value deeply. We expect that our continued focus on operational excellence will see us secure additional contract extensions as we move forward.

People

In July 2021 Patrick Byrne stepped down from his board position as a non-executive director, having worked for Target in various role for 10 years. The directors of the company would like to thank Patrick for his dedication during his time at Target Group

In August 2021, Andrew McIntyre joined the board as non-executive director. Andrew was a partner at EY for 28 years before retiring in 2016. Andrew currently holds a number of non-executive director roles across financial servicing organisations, and brings a wealth of expertise to the organisation.

The average number of colleagues has reduced in the year from 1,237 to 1,129.

Our culture programme continues to thrive. Built around a clear set of values and behaviours, our employee recognition scheme 'Target Wins' ensures we recognise individuals and teams that make an outstanding contribution across the business. We also have a localised reward scheme, "MyRecognition" which provides small rewards to swiftly recognise great examples of our Target values and behaviours.

Engagements levels as measured by the Best Companies survey increased. We have placed a greater focus on colleague well-being through a range of initiatives and events, which has resulted in us being well placed to support colleagues through COVID-19.

Our Diversity & Inclusion working group continues to drive initiatives at the heart of our values. At Target we are delighted to have a diverse workforce and we have continued to support and encourage engagement through a number of activities involving our employees. It has been a difficult year to deliver some of the activities that were planned but we have been able to provide these virtually and online where possible.

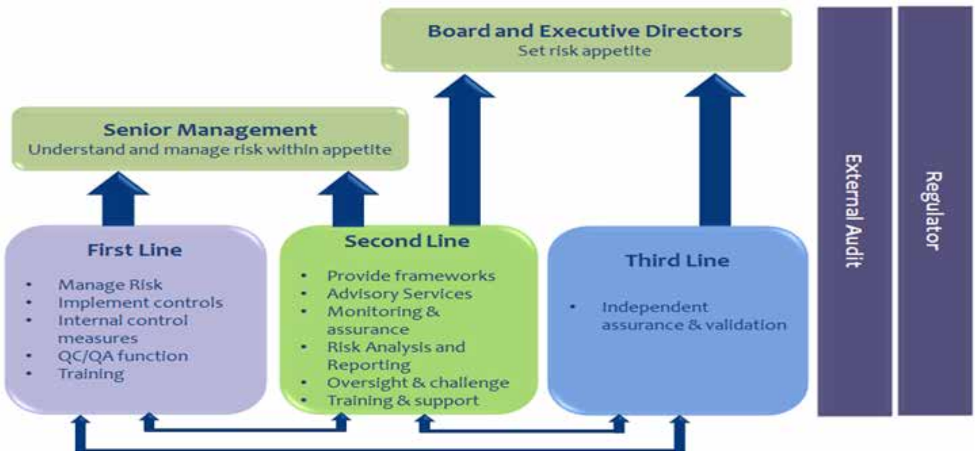
Corporate social responsibility

As a Group, we are passionate about engaging with our local community and taking responsibility for the environment around us, we have been able to do this virtually, and in person as the COVID-19 restrictions have eased.

Principal risks and uncertainties

Risk management in Target Group

Target seeks to embed effective risk management through the application of a 'Three Lines of Defence' model to manage and mitigate risks and provide assurance over preventative controls. The Framework is maintained by the Group Risk & Compliance function. Operation are the first line of defence and are responsible for day to day operational risk management. This is overseen by the Risk and Compliance Functions operating as the second line of defence. The third line is Internal Audit which operates as a co-sourced arrangement with external providers.



Outputs from risk management activities are reviewed through the Risk Governance Framework, culminating in escalation to the Board's Group Risk Committee or Group Audit Committee which are sub committees of the Target Group Board. We continue to review and evolve our Risk Management Framework, and as a result our Risk Governance Framework was updated during the year. The Framework is set out in the diagram below.

Principal risk outlook

Target is not risk averse but aims to offer innovative technology-based servicing, software and product propositions, within the constraints of its financial resources and without compromising customer outcomes, its reputation or its brand. It only pursues opportunities that are well understood, that support the vision and strategy of the group and where risks can be effectively managed.

The principal risks faced by the Group are summarised below:

Risk	Definition	Key mitigating actions
Conduct risk	The risk of a failure in our control and governance frameworks leading to unfair outcomes, detriment to our clients/customers and/or regulatory censure.	Target's governance and control frameworks are designed to minimise the risk of unfair outcomes. These frameworks are subject to regular review by Target, its clients and their auditors.
Information security risk	The risk of failure in our controls for protecting corporate, client and customer data, leading to loss of client and customer trust, material cost and reputational damage.	Target maintains extensive controls to safeguard data, including increasing employee awareness, physical and logical access controls and data encryption. We have also invested in additional controls and technology because of GDPR which will further mitigate this risk.
Operational risk	The risk of failing to effectively deliver the volume of simultaneous, complex change facing the business and thereby impacting on service delivery.	Target has a combined and comprehensive resource management approach that enables effective management of change across all business activities, while maintaining agreed standards of conduct and service level performance.

Section 172 Statement

Target Group is a trusted provider of outsourced services within the financial services sector and as such the group seeks to put the customers of its clients first, invests in its employees, supports the communities in which it operates and strives to generate sustainable profits for shareholders.

The Directors of the group have acted in accordance with their duties codified in law, which include their duty to act in the way in which they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole, having regard to the stakeholders and matters set out in section 172(1) of the Companies Act 2006.

Section 172 considerations are embedded in decision making at Board level and throughout the Group. Where applicable, any issues, factors and stakeholders which the Directors consider when discharging their duty under section 172(1) are detailed within the strategic report and directors' report within these annual statements.

Our business purposes and the risks facing our organisation are set out in the strategic report, including those relating to our people and our social responsibilities practices, including examples of stakeholder engagement with employees and suppliers.

Events after the reporting period

Elderbridge Limited, a wholly owned subsidiary of Target Group Limited, is investigating the potential impact of a complaint received from a customer. At this stage there is no indication of potential timescales for the investigation to conclude, and there is no certainty of liability, or of any resulting outflow of cash or other economic resources.

Future developments

Target Group is in an excellent position to take advantage of opportunities arising in the coming year.

A rapidly changing financial services market will lead to opportunities with both established players and disruptive entrants. The continued strengthening of our senior leadership team and our relationship with Tech Mahindra during the year leaves us well positioned to secure these new client opportunities.

Ultimately the success of Target will be determined by the success of our clients and I would like to take this opportunity to thank our clients for their continued custom.

R Newman
Director

22nd June 2022

DIRECTORS' REPORT

The directors present their annual report together with the financial statements and auditor's report, for the year ended 31 March 2022.

In accordance with Section 414C (11) of the Companies Act 2006, certain information around the trading activities of the Group are contained within the Strategic Report.

Results and dividends

The Group's results are set out in the consolidated profit and loss account and the strategic report. The directors elected not to declare a dividend during the year (2021: £nil).

Directors

The directors who held office during the year were as follows:

P. M. Byrne (resigned 31 July 2021)

V.S. Agarwal

A. Wallace

R. Newman

A.J. McIntyre (appointed 4 August 2021)

Directors' indemnities

The Company has made qualifying third-party indemnity provisions for the benefit of its directors which were made during the prior period and remain in force at the date of this report.

Financial risk management objectives and policies

The Group's activities expose it to a number of financial risks including credit risk, cash flow risk and liquidity risks.

Cash flow risk

All treasury matters are coordinated via the relevant group functions of our parent entity Tech Mahindra Limited.

There is minimal interest rate risk to the Group as we hold no external debt, except our finance leases.

Credit risk

The Group's principal financial assets are bank balances and cash, trade and other receivables and investments.

The Group's credit risk is primarily attributable to its trade receivables. The amounts presented in the balance sheet are net of allowances for doubtful receivables. An allowance for impairment is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of cash flows.

The Group has no significant concentration of credit risk, with exposure spread over a large number of clients. Most of our clients are blue chip investment, retail banking, finance and insurance companies, and government bodies which represent a low credit risk.

Liquidity risk

In order to maintain liquidity to ensure that sufficient funds are available for ongoing operations and future developments, the company uses short-term debt finance, when required. Finance leases are used by the company to facilitate the purchase of long-term assets (note 1).

Regulatory risk

Target Servicing Ltd is classified as an Article 3 MiFID exempt firm and also holds the status as ISA Plan Manager with HMRC in respect of the Hartmoor Financial brand. Our compliance function reviews our regulatory requirements on an ongoing basis to ensure compliance with all relevant permissions held.

Elderbridge Limited was established in 2014 as a loan servicing company authorised and regulated by the Financial Conduct Authority (FCA). The entity holds various lending permissions for consumer credit and mortgages.

The group's compliance function reviews the group's regulatory requirements on an ongoing basis to ensure compliance with all relevant permissions held.

Political contributions

No political donations were made during the year (2021: nil).

Disabled employees

Applications for employment by disabled persons are always fully considered, bearing in mind the aptitude of the applicant concerned. In the event of members of staff becoming disabled, every effort will be made to ensure their employment with the Group continues and that the training, career development and promotion of disabled persons should, as far as possible, be identical to that of other employees.

Employee consultation

The Group places considerable value on the involvement of its employees and has continued to keep them informed on matters affecting them as employees and on the various factors affecting the performance of the Group. This is achieved through formal and informal meetings with the Executive Committee ("ExCo") in the form of Town Halls, Heads of Department Scrums and group e-mail communications. The Town Halls are open forums and are a way of consulting regularly with employees on a wide range of matters affecting their current and future interests.

Energy and Carbon Reporting

For the period from 1 April 2021 to 31 March 2022 the consumption of reportable energy for the Group was 2,461,664 kWh and 19,220 miles of travel mileage reimbursements to employees. This equated to:

- 522 tCO2e from the purchase of electricity
- 41 tCO2e from the purchase of gas
- 5 tCO2e from miles travelled by employees

Energy efficiency:

The Group does not own any of its buildings, nor are they occupied under finance leases. We have no authority to improve the energy efficiency of the buildings without agreement and investment from our landlords.

Whilst we encourage energy efficiency best practice with our employees, the health and welfare of our employees always comes first. The extent of staff travel time and mileage has remained at a significantly reduced level during the year due to the impacts of COVID-19 working restrictions, however, we expect to see an increase in the extent of employee travel during 2022/2023.

Intensity Ratio:

The group used on average 1 kgCO2 for every £134.92 of turnover (2021: 1kg CO2 for every £129.36).

Methodology:

We have calculated our emissions based on the Activity data (kWh or mileage) x Emission Factor.

As our energy usage is invoiced directly from our energy suppliers, and we have taken the usage of electricity and gas directly from the supplier invoices to determine the Activity data. For mileage, we have used employee expense claims to determine the Activity data. We have used data from the Carbon Trust: (https://proddrupal-files.storage.googleapis.com/documents/resource/public/Conversion_factor_introductory_guide.pdf) as the emissions factor source.

Statement of engagement with suppliers, customers and others in a business relationship with the group

We value our customer relationships deeply and all clients have a specific Client Account Manager and Director to ensure regular and relevant engagement. Given that we are a business that provides long-term services to clients, the ability to develop and foster our client relationships is key to our success. We use client satisfaction surveys as a key metric to engage with our clients to monitor and continuously improve our services to them.

We proactively engage with our suppliers as we have a number of suppliers that are fundamental to the quality of our services, and therefore to ensuring that we meet the high standards of conduct that we set ourselves. We perform due diligence on our suppliers before entering a relationship to assess whether they meet the standards of conduct we expect. We conduct frequent supplier meetings, the regularity of which are done on a risk-based approach, with all suppliers tiered in accordance to their size and how business critical their services are to us.

Other information

An indication of any likely future developments in the business and particulars of significant events which have occurred since the end of the financial period are included in the Strategic Report.

Disclosure of information to auditor

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the company's auditor is unaware; and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information.

Auditor

Pursuant to Section 487 of the Companies Act 2006, the directors have appointed KNAV Limited as auditors of these financial statements.

22nd June 2022

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ANNUAL REPORT AND CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the group and parent company financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and parent company and of the groups profit or loss for that period. In preparing each of the group and parent company financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the group and parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the parent company's transactions and disclose with reasonable accuracy at any time the financial position of the parent company and enable them to ensure that its financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the group and to prevent and detect fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF TARGET GROUP LIMITED

Opinion

We have audited the financial statements of Target Group Limited (the 'parent company') and its subsidiaries (the 'group') for the year ended 31 March 2022, which comprise the Consolidated Profit and Loss Account, Consolidated Statement of Comprehensive Income, Consolidated Balance Sheet, Company Balance Sheet, Consolidated Statement of Changes in Equity, Company Statement of Changes in Equity and Notes to the Financial Statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the parent company's affairs as at 31 March 2022 and of the group's loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the group and the parent company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's or company's ability to continue as a going concern for a period of at least twelve months from when the original financial statements were authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Group Strategic Report and Director's Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Group Strategic Report and Director's Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of our knowledge and understanding of the group and the parent company and their environment obtained in the course of the audit, we have not identified material misstatements in the Group Strategic Report and the Director's Report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of the directors

As explained more fully in the Statement of Director's Responsibilities, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Extent to which the audit is capable of detecting irregularities, including fraud

We design our procedures so as to obtain sufficient appropriate audit evidence that the financial statements are not materially misstated due to non-compliance with laws and regulations or due to fraud or error.

We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations – this responsibility lies with management with the oversight of the Directors.

Based on our understanding of the Group, Company and industry, discussions with management, we identified Companies Act 2006, Financial Reporting Standard 102, UK taxation legislation and the Financial Conduct Authority's regulations as having a direct effect on the amounts and disclosures in the financial statements.

As part of the engagement team discussion about how and where the Group's financial statements may be materially misstated due to fraud, we did not identify any areas with an increased risk of fraud.

Our audit procedures included:

- enquiry of management about the Group and Company's policies, procedures and related controls regarding compliance with laws and regulations and if there are any known instances of non-compliance;
- examining supporting documents for all material balances, transactions and disclosures;
- review of the Board of directors minutes;
- enquiry of management of legal matters in the year and use of legal firms thereof.;
- evaluation of the selection and application of accounting policies related to subjective measurements and complex transactions;
- analytical procedures to identify any unusual or unexpected relationships;
- testing the appropriateness of journal entries recorded in the general ledger and other adjustments made in the preparation of the financial statements;
- review of accounting estimates for biases.

Owing to the inherent limitations of an audit, there is an unavoidable risk that some material misstatements of the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the ISAs (UK).

The potential effects of inherent limitations are particularly significant in the case of misstatement resulting from fraud because fraud may involve sophisticated and carefully organized schemes designed to conceal it, including deliberate failure to record transactions, collusion or intentional misrepresentations being made to us.

A further description of our responsibilities is available on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 31 MARCH 2022

1 Significant accounting policies

The principal accounting policies are summarised below. They have all been applied consistently throughout the year and the preceding year.

General information and basis of accounting

Target Group Limited is a company incorporated in the United Kingdom under the Companies Act.

The Company is a private Company limited by shares and is registered in England and Wales. The address of the registered office is given above.

The nature of the group's operations and its principal activities are set out in the Directors' report and Strategic report .

These financial statements were prepared in accordance with Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102") and the Companies Act 2006.

The presentation currency of these financial statements is sterling. All amounts in the financial statements have been rounded to the nearest £1,000.

The functional currency of Target Group Limited is considered to be pounds sterling because that is the currency of the primary economic environment in which the Company operates. The consolidated financial statements are also presented in pounds sterling.

Target Group Limited meets the definition of a qualifying entity under FRS 102 and has therefore taken advantage of the disclosure exemptions available to it in respect of its separate financial statements, which are presented alongside these consolidated financial statements. Exemptions have been taken in relation to financial instruments, presentation of a cash flow statement and remuneration of key management personnel.

The consolidated financial statements of Tech Mahindra Limited, within which this Company is included, can be obtained from the National Stock Exchange of India Ltd (NSE), The BSE Limited (BSE) and the company's website (www.techmahindra.com).

Going concern

The directors have considered the use of the going concern basis in the preparation of the Group and Company financial statements in light of the current financial position of the Group and Company and their related forecast cash flows. They have concluded that it is appropriate at the date of signing the financial statements.

The Directors have considered the impact of the COVID-19 pandemic on the business, with a particular focus on its effect on the Group's and Company's employees, customers and suppliers.

The Group's products and services remained critical to customers during the pandemic and continue to remain critical as we fully move on. The group has remained open and operational throughout the pandemic to date, continuing to provide customers with our services, some of which have been undertaken remotely with minimal disruption. It is expected that the Group will move to a hybrid working model over the next 12 months. We do not expect significant disruption to the services being delivered, or to the Company's anticipated performance and strategic direction.

The directors have prepared cash flow forecasts for a period of at least 12 months from the date of approval of these consolidated financial statements in order to assess the Group's ability to continue as a going concern. This includes modelling of severe downside scenarios such as a drop in new business activity and unmitigated increases in the cost base.

The legacy impact of COVID-19, along with the current geopolitical uncertainty has been reflected in our revenue and cost forecasts. The directors anticipate revenues to continue improving, but the pressure on costs remain, with increasing price rises being suffered globally. To help alleviate some of this pressure, the various cost optimisation / reduction programmes introduced in FY22 will continue to impact both next year as well as bring about the longer-term benefits to the company.

Given this situation and the continued investment in the company's platforms, operations and new business opportunities, the forecasts indicate that, after taking account of reasonably possible downsides, the Group and Company will post an improved performance in the coming year, returning to a profitable position.

The company does not have any external debt or material financing arrangements in place currently and as a result, in this case, the forecasts, which have been prepared for a period of at least 12 months from the balance sheet date, indicate that the company will have sufficient funds through funding from its ultimate parent company, Tech Mahindra Limited, to meet its liabilities as they fall due for that period.

Those forecasts are dependent on Tech Mahindra Limited providing additional financial support during that period. Tech Mahindra Limited has indicated its intention to continue to make available such funds as are needed by the company for the period covered by the forecasts. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe that it will not do so.

Consequently, the directors are confident that the company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern basis.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the company and all its subsidiary undertakings made up to 31 March 2022, and previously to 31 March 2021. The results of subsidiaries acquired or sold are consolidated for the periods from or to the date on which control passed.

Business combinations are accounted for under the purchase method. All intra-group transactions, balances, income and expenses are eliminated on consolidation.

Foreign currency

Transactions in foreign currencies are translated to the Group companies' functional currency at the foreign exchange rate ruling at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at the balance sheet date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Foreign exchange differences arising on translation are recognised in the profit and loss account. The revenues and expenses of foreign operations are translated at an average rate for the year where this rate approximates to the foreign exchange rates ruling at the dates of the transactions. Foreign exchange differences arising on retranslation are recognised in other comprehensive income.

Business combinations

Business combinations are accounted for using the purchase method as at the acquisition date, which is the date on which control is transferred to the company.

Intangible assets - Goodwill

Goodwill arising on the acquisition of subsidiary undertakings and businesses representing the excess of the fair value of the consideration given over the fair value of the identifiable assets and liabilities acquired, is capitalised and written off on a straight-line basis over its useful economic life. Provisions are made for any impairment.

Goodwill is carried at cost less accumulated amortisation and accumulated impairment losses. Estimates of the useful economic life of goodwill are based on a variety of factors such as the expected use of the acquired business, the expected useful life of the cash generating units to which the goodwill is attributed, any legal, regulatory or contractual provisions that can limit useful life and assumptions that market participants would consider in respect of similar businesses. The directors consider each acquisition separately for the purpose of determining the amortisation period, being the period over which the directors estimate that economic benefit will continue to be derived from the purchase as:

Goodwill on consolidation arising on acquisition of subsidiary undertakings	5 – 10 years

Intangible assets – research and development

Research expenditure is written off as incurred. Development expenditure is also written off, except where the directors are satisfied as to the technical, commercial and financial viability of individual projects. In such cases, the identifiable expenditure is deferred and amortised over the period during which the Group is expected to benefit. This period is between 2 and 5 years. Provisions are made for any impairment. See note 2 for further details.

Other intangible assets

Intangible assets acquired as part of a business acquisition are capitalised separately from goodwill if the fair value can be measured reliably on initial recognition.

Subsequent to initial recognition, intangible assets are stated at cost less accumulated amortisation and accumulated impairment. Intangible assets are amortised on a straight line basis over their estimated useful economic lives as follows:

Customer contracts	5 years
Brand	5 years
Capitalised development costs	2 to 5 years

The company reviews the amortisation period and method when events and circumstances indicate that the useful life may have changed since the last reporting date. Goodwill and other intangible assets are tested for impairment in accordance with Section 27 Impairment of assets when there is an indication that goodwill or an intangible asset may be impaired.

Tangible fixed assets

Tangible fixed assets are stated at their historic cost, net of depreciation and any provision for impairment. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Depreciation is provided on all tangible fixed assets, at rates calculated to write off the cost, less the estimated residual value, of each asset on a straight-line basis over their estimated useful economic lives from the point they are brought into use as follows:

Short leasehold property	-	the term of the lease
Computer equipment	-	3-7 years
Fixtures and fittings	-	3-10 years

Where parts of an item of tangible fixed assets have different useful lives, they are accounted for as separate items of tangible fixed assets.

The company assesses at each reporting date whether tangible fixed assets (including those leased under a finance lease) are impaired.

Depreciation methods, useful lives and residual values are reviewed if there is an indication of a significant change since last annual reporting date in the pattern by which the company expects to consume an asset's future economic benefits.

Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

Financial assets and liabilities

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the statement of financial position when, and only when there exists a legally enforceable right to set off the recognised amounts and the Group intends to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

Debt instruments which meet the following conditions, are subsequently measured at amortised cost using the effective interest method:

a. Returns to the holder are (i) a fixed amount; or (ii) a positive fixed rate of return over the life of the instrument; or (iii) a positive variable return that, throughout the life of the instrument, is equal to a single referenced quoted or observable interest rate; or (iv) some combination of such fixed rate and variable rates, providing that both rates are positive.

b. There is no contractual provision that could, by its terms, result in the holder losing the principal amount or any interest attributable to the current period or prior periods.

c. Contractual provisions that permit the issuer to prepay a debt instrument or permit the holder to put it back to the issuer before maturity are not contingent on future events, other than to protect the holder against the credit deterioration of the issuer or a change in control of the issuer, or to protect the holder or issuer against changes in relevant taxation or law.

d. There are no conditional returns or repayment provisions except for the variable rate return described in (a) and prepayment provisions described in (c).

Debt instruments that are classified as payable or receivable within one year and which meet the above conditions are measured at the undiscounted amount of the cash or other consideration expected to be paid or received, net of impairment.

Other debt instruments not meeting these conditions are measured at fair value through profit or loss.

Financial assets are derecognised when and only when a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the Group transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the Group, despite having retained some significant risks and rewards of ownership, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

Trade and other debtors / creditors

Trade and other debtors are recognised initially at transaction price less attributable transaction costs. Trade and other creditors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses in the case of trade debtors. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate of interest for a similar debt instrument.

Interest-bearing borrowings classified as basic financial instruments

Interest-bearing borrowings are recognised initially at the present value of future payments discounted at a market rate of interest. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses.

Investments

In the Company balance sheet, investments in subsidiaries and associates are measured at cost less impairment.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits.

Impairment of assets

Assets, other than those measured at fair value, are assessed for indicators of impairment at each balance sheet date. If there is objective evidence of impairment, an impairment loss is recognised in the profit and loss as described below.

Non-financial assets

The carrying amounts of the entity's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its Cash Generating Unit (CGU) exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss.

Financial assets

For financial assets carried at amortised cost, the amount of an impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets carried at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

Where indicators exist for a decrease in impairment loss, and the decrease can be related objectively to an event occurring after the impairment was recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired financial asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Group's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

The tax expense or income is presented in the same component of comprehensive income or equity as the transaction or other event that resulted in the tax expense or income.

Current tax assets and liabilities are offset only when there is a legally enforceable right to set off the amounts and the Group intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Interest receivable and interest payable

Interest payable and similar charges include interest payable and finance leases recognised in profit or loss using the effective interest method, unwinding of the discount on provisions, and net foreign exchange losses that are recognised in the profit and loss account (see foreign currency accounting policy).

Interest income and interest payable are recognised in profit or loss as they accrue, using the effective interest method.

Turnover

Turnover represents the amounts, excluding value added tax, derived from the provisions of solutions to third party customers. Solutions can be provided in four ways: as software licence and related service sales, under facilities management contracts, under business transformation contracts and under business process outsourcing contracts.

Turnover for the supply of services represents the value of services provided under contracts to the extent that there is a right to consideration and is recorded at the fair value of the consideration received or receivable. Where a contract has only been partially completed at the balance sheet date turnover represents the fair value of the service provided to date based on the stage of completion of the contract activity at the balance sheet date. Where payments are received from customers in advance of services provided, the amounts are recorded as deferred income and included as part of creditors.

Government grants

Government grants are accounted under the accruals model as permitted by FRS 102 and are recognised in the Profit and Loss in the same period as the related expenditure. The group has chosen to show the government grants received as other operating income.

Retirement benefits

For defined contribution schemes the amount charged to the profit and loss account in respect of pension costs and other post-retirement benefits is the contributions payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.

Leases

Assets held under finance leases and other similar arrangements, which confer rights and obligations similar to those attached to owned assets, are capitalised as tangible fixed assets at the fair value of the leased asset (or, if lower, the present value of the minimum lease payments as determined at the inception of the lease) and are depreciated over the shorter of the lease terms and their useful lives. The capital elements of future obligations are recorded as liabilities, while the interest elements of the rental obligations are charged to the profit and loss account over the periods of the leases and to produce a constant periodic rate of interest on the remaining balance of the liability.

Rentals under operating leases are charged in the profit and loss account on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straight-line basis over the lease term.

Provisions

Provisions are recognised when the group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation and the amount of the obligation can be estimated reliably. A provision is not made for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as a finance cost.

2 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, which are described in note 1, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the critical judgements that the directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Revenue recognition

Due to the complexity of some of the Group's contracts, there are judgements to be applied, including the measurement and timing of implementation revenue recognition and the recognition of assets and liabilities that result from the performance of the contract.

Research and development costs

In line with FRS 102, the Group capitalises expenditure on development activities where that expenditure meets the requirements of the standard i.e. a product or process is technically and commercially feasible, the Group intends and has the technical ability and sufficient resources to complete development, future economic benefits are probable and the Group can measure reliably the expenditure attributable to the intangible asset during its development. Projects are assessed on an individual basis to determine which activities meet the eligibility criteria for capitalisation as an intangible asset. The days attributable to eligible activities based on the time recording system, together with management assessment of percentage attributable where required, are multiplied by the relevant day rate for that period and capitalised. Eligible non-staff costs are also capitalised where relevant.

There are also judgements applied to the period over which the costs will be recovered. This determines the amortisation period appropriate for the asset.

3 Turnover

Turnover by destination was UK £60,545k (2021: £70,234k) and rest of the world £16,144k (2021: £726k).

The table below sets out information for each of the group's industry segments:

	Software		**Services**		**Total**	
	2022	2021	**2022**	2021	**2022**	2021
	£000	£000	**£000**	£000	**£000**	£000
Turnover	**28,468**	23,916	**48,221**	47,045	**76,689**	70.960

4 Interest payable and similar expenses

	Year ended 31 March 2022	Year ended 31 March 2021
	£000	£000
Bank interest and charges	**21**	9
Hire purchase and finance interest	**74**	93
Other finance costs	**46**	-
	141	**102**

5 Staff numbers and costs

The average number of persons employed by the Group (including directors) during the year was as follows:

	Number of employees	
	Year ended 31 March 2022	Year ended 31 March 2021
Technical and operational	**990**	1,106
Sales, marketing, management and administration	**138**	131
	1,129	1,237

The aggregate payroll costs of these persons were as follows:

	Year ended 31 March 2022	Year ended 31 March 2021
	£000	£000
Wages and salaries	**36,184**	38,977
Social security costs	**3,325**	3,705
Pension costs	**1,585**	1,601
	41,093	44,283

6 (Loss) / Profit before taxation

	Year ended 31 March 2022	Year ended 31 March 2021
	£000	£000
Profit before taxation is stated after charging/(crediting):		
Amortisation of goodwill (note 11)	**-**	220
Amortisation of other intangible assets (note 11)	**186**	1,970
Impairment of intangible assets	267	-
Depreciation (note 12)		
Owned	**1,311**	1,705
Leased	**600**	760
Rentals under operating leases - property	**868**	1,143
Foreign exchange loss / (gain)	**47**	4
Government grants – furlough	**-**	(21)
Auditor’s remuneration:		
Audit of these financial statements	**50**	36
Audit of financial statements of other group companies pursuant to legislation	**30**	34

Auditor’s remuneration in respect of the company was £50k (2021: £36k). Audit of other group companies relates to the audit fees for the subsidiaries Target Servicing Limited, and Elderbridge Limited.

Amortisation and impairment charge:

The amortisation, impairment charge and impairment reversals are recognised in the following line items in the profit and loss account:

	2022	2021
	£000	£000
Administrative expenses	**453**	2,190

7 Profit and loss account of parent company

As permitted by Section 408 of the Companies Act 2006, no profit and loss account or statement of other comprehensive income is presented in respect of the parent Company. The profit attributable to the Company is disclosed in the footnote to the Company's balance sheet.

8 Directors' remuneration

Emoluments of the directors were as follows:

	Year ended 31 March 2022	Year ended 31 March 2021
	£000	£000
Directors' emoluments	**346**	1,321
Company contributions to money purchase pension scheme	**13**	14
	359	1,335

The number of directors who:

Are members of a money purchase pension scheme	**2**	3
Had awards receivable in the form of shares under a long-term incentive scheme	**0**	2

The aggregate of emoluments of the highest paid director were £201k (2021: £545k) and company pension contributions of £11k (2021: £nil) were made to a money purchase pension plan on their behalf.

9 Taxation

The tax charge for the period comprises:

	Year ended 31 March 2022	Year ended 31 March 2021
	£000	**£000**
Current tax:		
UK Corporation tax on (loss)/profit for the year	**-**	-
Adjustments in respect of prior periods	**470**	(44)
Total current tax (credit)/charge	**470**	**(44)**
Deferred tax:		
Impact of change in tax rate	**(1,522)**	-
Origination and reversal of timing differences	**(939)**	(1,486)
Adjustments in respect of prior periods	**(64)**	11
Total deferred tax (credit)/charge	**(2,055)**	**(1,475)**
Total tax (credit)/charge on (loss)/profit	**(2,055)**	(1,519)

10. The tax (credit)/charge is lower (2021:lower) than the standard rate of corporation tax in the UK of 19% (2021: 19%) as explained below:

	Year ended 31 March 2022	Year ended 31 March 2021
	£000	£000
(Loss)/Profit for the year	**(2,946)**	(6,934)
Total tax (credit)/charge	**(2,055)**	(1,519)
(Loss)/Profit excluding taxation	**(5,001)**	(8,453)
Tax at 19% (2021:19%)	**(950)**	(1,606)
Effects of:		
Expenses not deductible for tax purposes	**10**	49
Group relief claimed	**-**	-
Tax losses utilised in the year	**-**	-
Impact of change in tax rate	**(1,522)**	
Adjustments in respect of prior periods	**407**	38
Total charge for the year as above	**(2,055)**	(1,519)

The Corporation tax is set to remain at 19% until 1 April 2023, when a rate of 25% will be enacted. The deferred tax balance as at 31 March 2022 has been calculated using a combination 19% for deferred tax losses expected to be utilised by 31 March 2023, and 25% on deferred tax losses expected to be utilised thereafter.

11 Intangible Fixed Assets

At 31 March 2021	**-**	**-**
At 31 March 2021	**433**	**433**

Development costs relating to the design and build of core systems have been capitalised in accordance with the requirements of FRS 102 and are therefore not treated, for dividend purposes, as a realised loss. These costs are being amortised over the life of the project to which they relate on a straight-line basis, which is no more than 5 years.

As part of the impairment testing carried out by the Company at 31 March 2022, the intangible asset relating to development cost was considered to have a net book value of £Nil and has been impaired accordingly.

12 Tangible fixed assets

At 31 March 2021	10	3,755	149	3,914

Included in tangible fixed assets of the Company are assets held under hire purchase and finance lease agreements with a cost and net book value at 31 March 2022 of £6,938k and £925k respectively (2021: £6,938k and £1,512k). The associated depreciation for the period on those assets was £587k (2021: £721k).

13 Investment in subsidiary undertakings

Company	**2022**	**2021**
	£000	**£000**
Cost		
At 1 April 2021 and 31 March 2022	**17,888**	17,888
Provisions		
Provision for investment in Harlosh Limited	**(6,852)**	(6,852)
Disposal of Target Financial Systems Limited	**(2,035)**	-
Net book value		
At 31 March 2021 and 31 March 2022	**9,000**	11,036

At 31 March 2021, Harlosh Limited was not considered a going concern and a provision was recognised for the full cost of investment in Harlosh Limited.

During the year, Target Financial Systems Limited was liquidated. The net book value of the investment in Target Financial Systems Limited has been eliminated.

The directors assessed the carrying value of the company's investment in other subsidiaries at year-end and are of the opinion that they are not worth less than the carrying value in the financial statements.

The company's wholly owned subsidiaries at 31 March 2022 were:

	Country of incorporation	Principal activity	Class of shares	Percentage ownership
Subsidiary undertakings				
Target Servicing Limited	UK	Provision of business process outsourced services	Ordinary	100%
Harlosh Limited	UK	Provision of computer applications software and related services	Ordinary	100%
Elderbridge Limited	UK	Lender of record for loan portfolios	Ordinary	100%

The registered office of all subsidiary companies is Target House, Cowbridge Road East, Cardiff, CF11 9AU and the individual results of each entity have been included in these consolidated financial statements.

Accruals and deferred income	**1,795**	2,078	**-**	-
	2,233	3,350	**438**	1,272

17 Deferred taxation

	Group		Company	
	2022	2021	**2022**	2021
	£000	£000	**£000**	£000
At beginning of year - asset	**3,198**	1,723	**1,378**	421
(Charge) / credit for the year in the P&L account	**2,526**	1,475	**1,409**	957
At end of year – asset (note 14)	**5,724**	3,198	**2,787**	1,378
The deferred tax asset comprises				
Tax losses carried forward	**5,054**	3,426	**2,300**	1,123
Other timing differences	**670**	(228)	**487**	255
	5,724	3,198	**2,787**	1,378

A further deferred tax asset of £54k (2021: £41k) for the group and £54k (2021: £41k) for the company has not been recognised due to uncertainty over its future utilisation. It is made up as follows:

	2022	2021	**2022**	2021
	£000	£000	**£000**	£000
The unprovided deferred tax asset comprises				
Tax losses carried forward	**54**	41	**54**	41
	54	41	**54**	41

18 Provision for liabilities

The group had the following provisions during the year:

	Group	
	Onerous contract provision	**Total**
	£000	£000
As at 1 April 2021	**(1,795)**	(1,795)
(Charge) / credit for the year in the P&L account	**1,350**	**1,350**
As at 31 March 2022	**(445)**	**(445)**

Onerous contract provision

The group provides for any contract where the unavoidable cost of delivering our contractual obligations exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net costs of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it.

Company

The Company had no provision for liabilities as at 31 March 2022.

19 Share capital

	Ordinary shares of 5p each	'A' shares of 5p each	'B' shares of 5p each	Total
	Number	Number	Number	Number
Allotted, called up and fully paid				
At 31 March 2021 and 31 March 2022	11,557,417	1,476,287	3,161,200	16,194,904

	Ordinary Shares of 5p each	'A' Shares of 5p each	'B' Shares of 5p each	Total
	£000	£000	£000	£000
Allotted, called up and fully paid				
At 31 March 2021 and 31 March 2022	578	74	158	810

Both the 'A' and 'B' shares carry no right to vote at, attend or receive notice of general meetings of the company. They have rights to income or capital only on a sale of the business for a value above specific defined thresholds.

The Group and Company's other reserves are as follows:

The share premium reserve contains the premium arising on issue of equity shares.

The profit and loss reserve represents cumulative profits or losses, net of dividends paid and other adjustments.

The capital redemption reserve is a statutory, non-distributable reserve into which amounts are transferred following the redemption or purchase of a company's own shares.

20 Financial instruments

The carrying values of the Group and Company's financial assets and liabilities are summarised by category below:

	Group		Company	
Financial assets	**2022 Total**	2021 Total	**2022 Total**	2021 Total
	£000	£000	**£000**	£000
Measured at undiscounted amount receivable				
Amounts due from customers (see note 14)	**18,762**	17,762	**8,232**	5,105
Amounts due from related undertakings (see note 14)	**2,344**	2,639	**2,440**	4,587
Other amounts	**9,764**	7,334	**5,319**	4,374
	30,870	27,735	**15,991**	14,066

	Group		Company	
Financial liabilities	**2022 Total**	2021 Total	**2022 Total**	2021 Total
	£000	£000	**£000**	£000
Measured at amortised cost				
Finance lease liabilities (see notes 15 & 16)	**1,269**	2,068	**1,269**	2,068
Measured at undiscounted amount payable				
Trade and other creditors	**15,783**	14,673	**8.338**	8,025
Amounts owed to related undertakings	**15,656**	9,249	**21,983**	23,876
	32,708	25,990	**31,590**	33,969

The Group's income, expense, gains and losses in respect of financial instruments are summarised below:

	Group	
Financial assets	**2022 Total**	2021 Total
Interest income and expense	**£000**	£000
Total interest income for financial assets at amortised cost	**-**	-
Total interest expense for financial liabilities at amortised cost	**74**	93

The interest expense includes no interest (2021: none) that was recognised within cost of sales in Target Group Limited. The remainder relates to bank and other finance costs (note 4).

21 Dividend

No dividends were declared during the year (2021: £nil).

22 Commitments

Group capital commitments authorised and contracted at 31 March 2022 were £nil (2021: £nil).

Group total future minimum lease payments under non-cancellable operating leases are as follows:

	2022 Total	2021 Total
	£000	£000
Group:		
In the first year	**939**	1,030
Between one and five years	**2,660**	3,761
After five years	**-**	183
	3,599	4,974

Total future minimum lease payments under non-cancellable finance leases are as follows:

	2022 £000	2021 £000
Company only:		
In the first year	**445**	825
Between one and five years	**1,079**	1,239
	1,524	2,064

Annual commitments at 31 March 2022 relate to property and car leases. The majority of leases of land and buildings are subject to rent reviews.

The company had no capital commitments or annual commitments at the year-end (2021: £nil).

23 Pensions

The assets of the pension schemes to which the group contributes on behalf of its employees are held within independently administered funds. The schemes are all defined contribution schemes thus the group's obligation is solely to make contributions based on a percentage of salary. Employer contributions to the schemes for the year amounted to £1,585k (2021: £1,601k). The pension liability at the year end was £266k (2021: £357k).

24 Interest-bearing loans and borrowings

This note provides information about the contractual terms of the Group's and parent Company's interest-bearing loans and borrowings, which are measured at amortised cost.

INDEPENDENT AUDITOR'S REPORT

To: Management HealthNxt Inc.
6440 Southpoint Parkway
Suite 300
Jacksonville, FL 32216

Opinion

We have audited the accompanying financial statements of HealthNxt Inc., a Delaware Incorporated company, which comprise the balance sheet as of March 31, 2022, and the related statement of operations, changes in shareholder's equity and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of HealthNxt Inc. as of March 31, 2022, and the results of its operations and its cash flows for the period then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of HealthNxt Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other matters

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedule of Expenses are presented for purposes of additional analysis and are not a required part of the financial statements. The information has been subjected to the auditing procedures applied in the audit of financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about HealthNxt Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of HealthNxt Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about HealthNxt Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental disclosure of cash flow information:

The parent, Tech Mahindra (Americas) Inc., contributed the investment in VitalTech Holdings Inc. to the value of $3,000,000, in exchange for share capital.

1. GENERAL INFORMATION

HealthNxt Inc. ("the Company") is a virtual healthcare company that provides a fully integrated inpatient experience at home. The Company filed articles of incorporation with the State of Delaware on April 27, 2021. The company is a wholly owned subsidiary of Tech Mahindra (Americas) inc.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF ACCOUNTING

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

B. ACCOUNTING ESTIMATES

Significant estimates and assumptions made by management include the determination of: The useful life and the average period of benefit associated with capitalized software costs.

The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable, the result of which forms the basis for making judgments about the carrying values of assets and liabilities.

C. REVENUE RECOGNITION

Revenue from software services contracts is recognized as the services are performed and amounts are earned. The Company considers amounts to be earned once evidence of an arrangement has been obtained, services are provided, fees are fixed or determinable, and collectability is reasonably assured.

The Company recognizes revenue from product sales generally upon delivery to the customer, or at the shipping point in situations where the customer picks up the product or where delivery terms so stipulate. This represents the point at which title and risks and rewards of ownership of the product are passed, provided that there are no uncertainties regarding customer acceptance, there is persuasive evidence that an arrangement exists, the price to the buyer is fixed or determinable and ability to collect is deemed reasonably assured.

D. COST OF REVENUE

Direct costs for employee or contractor placements consists of salaries and contract payments (mainly from hours), payroll taxes, insurance costs as well as reimbursable costs such as travel, lodging or entertainment.

When inventories are sold, the carrying amount of those inventories is recognized as an expense in the period in which the related revenue is recognized. This includes all direct costs for the purchase of materials, employee cost and contractor expenses.

E. RESEARCH AND DEVELOPMENT AND ADVERTISING

The Company expenses all research and advertising costs as incurred. Advertising costs for period ended March 31, 2022, was zero. Qualifying development cost is capitalized as part of capitalized software costs.

F. INCOME TAXES

HealthNxt accounts for income taxes using Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Income Taxes. Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740 the effect on the deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. HealthNxt records valuation allowances against deferred tax assets as deemed necessary.

Per FASB ASC 740-10-20, the Company follows the recognition requirements for uncertain tax positions as required by generally accepted accounting principles in the United States of America. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Company has analyzed tax positions taken for filing with the Internal Revenue Service (IRS) and all state jurisdictions where it operates.

In accordance with guidance in ASC 740-10-30-27, the Company uses a "separate return" method to allocate current and deferred taxes or benefits to members of the consolidated return group ("TMA and subsidiaries") by applying ASC 740 to each member as if they were separate tax payers. Under the "separate return" method, the subsidiary is assumed to file a separate return with the taxing authority, thereby reporting its taxable income or loss and paying the applicable tax to or receiving the appropriate refund from the Parent.

G. CASH

Cash and cash equivalents represents current accounts and demand deposits held at financial institutions. The Company considers all highly liquid investments with a maturity, when purchased, of three months or less to be cash equivalents. Cash equivalents include short-term highly liquid investments of sufficient credit quality that are readily convertible to known amounts of cash and have original maturities of three months or less. Cash equivalents are carried at cost, plus accrued interest, which approximates fair value. Cash equivalents are held to meet short-term liquidity requirements, rather than for investment purposes. Cash and cash equivalents are held at major financial institutions and are subject to credit risk to the extent those balances exceed applicable Federal Deposit Insurance Corporation (FDIC) limitations.

H. ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

Accounts receivable are the amounts owed on invoiced contractual agreements either in process or completed by the Company. Accounts receivable are considered delinquent when payment is not received under terms described within the individual contract's terms.

An allowance for doubtful accounts is provided for those balances considered to be uncollectible based upon historical experience and the Company's specific review of outstanding account balances. Company policy is that accounts overdue in excess of 365 days and not subject to offsetting is a strong indicator that the receivable has potentially impaired. Bad debts are written off against the allowance when identified.

I. UNBILLED RECEIVABLES

Unbilled receivables represent accrued revenue earned and recognized on projects for which billings have not yet been presented to the customer.

J. CAPITALISED SOFTWARE COST

The Company capitalizes costs related to its major service products and certain projects for internal use incurred during the application development stage. Costs related to preliminary project activities and post implementation activities are expensed as incurred. Internal-use software is amortized on a straight-line basis over its estimated useful life, which is generally five to ten years. Management evaluates the useful lives of these assets on an annual basis and tests for impairment whenever events or changes in circumstances occur that could impact the recoverability of these assets.

K. EQUITY SECURITIES

The Company holds strategic investments in privately held equity securities in which the Company does not have a controlling interest or significant influence. Privately held equity securities without a readily determinable fair value are recorded at cost as described. If, based on the terms of these privately held securities, the Company determines that the Company exercises significant influence on the entity to which these securities relate, the Company will apply the equity method of accounting for such investments.

Privately held equity securities are valued using significant unobservable inputs or data in an inactive market and the valuation requires the Company's judgment due to the absence of market prices and inherent lack of liquidity. The carrying value is not adjusted for the Company's privately held equity securities if there are no observable price changes in a same or similar security from the same issuer or if there are no identified events or changes in circumstances that may indicate impairment, as discussed below. In determining the estimated fair value of its strategic investments in privately held companies, the Company utilizes the most recent data available to the Company. Valuations of privately held companies are inherently complex due to the lack of readily available market data. In addition, the determination of whether an orderly transaction is for a same or similar investment requires significant management judgment including the nature of rights and obligations of the investments, the extent to which differences in those rights and obligations would affect the fair values of those investments, and the impact of any differences based on the stage of operational development of the investee.

The Company regularly assesses its privately held equity securities strategic investment portfolio for impairment. The Company's impairment analysis encompasses an assessment of the severity and duration of the impairment and qualitative and quantitative analysis of other key factors including the investee's financial metrics, the investee's products and technologies meeting or exceeding predefined milestones, market acceptance of the product or technology, other competitive products or technology in the market, general market conditions, management and governance structure of the investee, the investee's liquidity, debt ratios and the rate at which the investee is using its cash.

L. RELATED PARTIES

Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise). The Company did business, including a lease agreement with a provider in which a certain employee of the Company owns an interest. Transactions involving related parties are carried out on an arm's length basis.

3. ACCOUNTS RECEIVABLE, NET

At March 31, 2022, accounts receivable balances were as follows:

	2022
	$
Amounts due for services rendered and billed	**115,914**
Less: allowance for doubtful accounts	**-**
Amounts due for services rendered and billed, net	**115,914**
Amounts due for services rendered, not billed	**--**
Total accounts receivable, net	**115,914**

Amortization expense for the year ending March 31, 2022 was $0. The intangible asset is in the development phase and no amortization recorded during the period.

4. INCOME TAXES

HealthNxt accounts for income taxes under the provisions of the FASB ASC 740, Income Taxes, as described in Note 2F above.

	2022
	$
Current income tax (benefit) expense consists of the following:	
Federal	**-**
State	**-**
	-
Deferred income tax (benefit) expense consists of the following:	
Federal	**(364,245)**
State	**-**
	(364,245)
Total current and deferred income tax (benefit) expense	**(364,245)**

	2022
	$
Deferred tax asset consists of the following:	
Federal	**364,245**
State	**-**
	364,245

In the ordinary course of business there are many transactions with affiliated companies that affect the calculation and estimation of the Company's tax liability. Although management believes that the Company's tax estimates are reasonable, there is no assurance that the final determination of tax liability will not be different from what is reflected in the Company's historical income tax provisions and accruals.

The Company does not anticipate any amount to be recognized related to the Company's uncertain tax position.

5. INTANGIBLE ASSETS, NET

At March 31, 2022, intangible asset balances were as follows:

	2022
	$
Externally developed software (developed by Tech Mahindra Ltd.)	**1,885,885**
Other capitalized development costs	**100,000**
Less: accumulated amortization	**-**
	1,985,885

Amortization expense for the year ending March 31, 2022 was $0. The intangible asset is in the development phase and no amortization recorded during the period.

6. EQUITY SECURITIES

At March 31, 2022 equity securities consisted of the following:

	2022
	$
VitalTech Holdings Inc.	**3,000,000**

The Company holds 2,142,858 shares of Series A-2 Preferred Stock of VitalTech Holdings Inc. (a private company), purchased at $ 1.40 per share. The Company received, at no additional consideration, warrants to purchase 3,571,428 additional shares of Series A-2 Preferred Stock pursuant to a Performance Based Warrant Program Agreement. The warrant was issued on October 21, 2020 and vest over a 3 year period based on revenue or subscriber milestones. See note 13 for additional information.

7. TRANSACTIONS WITH RELATED PARTIES

During the period ended March 31, 2022, the Company had transactions with Tech Mahindra (Americas), Inc.("TMA"). At March 31, 2022 the Company had balances due (to) from TMA as follows:

	2022
	$
Payment to TMA	**6,000**
Expense reimbursement	**(6,000)**
Ending balance, due from (to)	**-**

During the period ending March 31, 2022, the Company had transactions with Tech Mahindra Limited ("TechM"). At March 31, 2022 the Company had balances due (to) from TechM as follows:

	2022
	$
Cost of services	**(1,022,031)**
Ending balance, due (to) from	**(1,022,031)**

During the period ending March 31, 2022, the Company had transactions with Born Group Inc ("Born"). At March 31, 2022 the Company had balances due (to) from Born as follows:

	2022
	$
Expense reimbursement	**(116,812)**
Payments to	**43,900**
Ending balance, due (to) from	**(72,912)**

During the period ending March 31, 2022, the Company had transactions with CJS Solutions Group LLC March 31, 2022 the Company had balances due (to) from CJS as follows: ("CJS"). At

	2022
	$
Expense reimbursement	**(1,021,157)**
Payments to	**900,000**
Ending balance, due (to) from	**(121,157)**
Amounts due to related parties	**(1,216,100)**

8. COMMITMENTS AND CONTINGENCIES

The Company does not currently have any commitments or contingencies arising in the ordinary course of its business.

9. LITIGATION AND CONTINGENCIES

The Company is not currently involved in any legal proceedings which arose in its ordinary course of its business.

10. COMMON STOCK

	2022 Number of shares
Class A Common Stock shares of par value $0.01 issued and paid at $ 0.2867 per share	**18,835,019**

The Company is authorized to issue 30,000,000 shares of Class A Common Stock, par value $0.01 per share, and 26,000,000 shares of Class B Common Stock, par value $0.01 per share, and 19,000,000 shares of Class C Non-Voting Common Stock, par value $0.01 per share.

11. CONCENTRATION OF CREDIT RISK

REVENUE AND ACCOUNTS RECEIVABLE

The majority of the Company's sales are credit sales. The following are customer concentration for sales for the year ended March 31, 2022 and billed accounts receivable as at March 31, 2022.

Revenue concentration for the three months ended March 31, 2022:

	Amount, $	Concentration
Customer A	**115,914**	**100%**

Billed accounts receivable concentrations as at March 31, 2022:

	Amount, $	Concentration
Customer A	**115,914**	**100%**

12. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is defined under Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures" ("ASC 820"), as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a three-level hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

Level 1–inputs to the valuation methodology are quoted prices (unadjusted) for an identical asset or liability in an active market.

Level 2–inputs to the valuation methodology include quoted prices for a similar asset or liability in an active market or

model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability.

Level 3–inputs to the valuation methodology are unobservable and significant to the fair value measurement of the asset or liability.

The carrying amounts of cash, equity securities, accounts receivable and accounts payable approximate fair value due to the short-term maturity of the instruments (these are all level 3).

13. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through May 27, 2022. Other than the below mentioned event, no significant events occurred subsequent to the balance sheet date that would have a material impact on the financial statements.

On April 28, 2022, the Company entered into an exchange agreement whereby the Company exchanged its warrants (see note 6) for new warrants to purchase common stock in VitalTech Holdings Inc. On the same date the Company exchanged its Series A.2 preferred stock for Series 1 preferred stock in Vitaltech Holdings Inc.

Warrants to purchase common stock attach the right to acquire an equivalent number of shares. The holders of common stock are entitled to one vote for each share of common stock held at meetings of shareholders.

Series 1 preferred stock shall accrue dividends at a rate per annum of $1 per share. At of the date of this report the Company held 2,274,418 performance warrants as well as 2,142,857 out of 52,357,838 Series 1 preferred stock shares, representing 4% ownership.

Representations and audit

The Company's activities for the year ended 31 March 2022 have been conducted in accordance with the Commercial Companies Law and other relevant statutes of the Kingdom of Bahrain. There have been no events subsequent to 31 March 2022.

The Company has maintained proper, complete accounting records and these, together with all other information and explanations, have been made freely available to the auditors KPMG Fakhro, who have expressed their willingness to continue in office for the audit of the year ending 31 March 2023.

On behalf of the Board of Directors

Dhanashree Bhat

Director

Place: Pune, India

Date: June 27, 2022

INDEPENDENT AUDITORS' REPORT

To the Shareholders of
Tech Mahindra -Bahrain- LTD WLL
Kingdom of Bahrain

Opinion

We have audited the financial statements of Tech Mahindra -Bahrain- LTD WLL. (the "Company"), which comprise the statement of financial position as at 31 March 2022, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), together with the ethical requirements that are relevant to our audit of the financial statements in the Kingdom of Bahrain, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The board of directors is responsible for the other information. The other information obtained at the date of this auditors' report is the Directors' report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Board of Directors for the Financial Statements

The board of directors is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as the board of directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the board of directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the board of directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

– Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the board of directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Regulatory Requirements

As required by the Commercial Companies Law, we report that:

a) the Company has maintained proper accounting records and the financial statements are in agreement therewith;

b) the financial information contained in the directors' report is consistent with the financial statements;

c) we are not aware of any violations during the year of the Commercial Companies Law or the terms of the Company's memorandum of association that would have had a material adverse effect on the business of the Company or on its financial position; and

d) satisfactory explanations and information have been provided to us by management in response to all our requests.

Cash and cash equivalents at the end of the year	**520,801**	396,985

The accompanying notes 1 to 15 are an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2022

1 REPORTING ENTITY

Tech Mahindra -Bahrain- LTD WLL (the "Company") was incorporated on November 3, 2009 as a Single Person Company in the Kingdom of Bahrain and registered with the Ministry of Industry, Commerce and Tourism under Commercial Registration number 73221-1. During the year 2021, the legal status of the Company changed from a single person company (SPC) to a with limited liability (WLL) entity subsequent to the issuance of Degree Law 20 of 2020 which acted to cover all SPC entities to WLL status automatically.

The Company is engaged in providing information technology services and telecommunication solutions.

The Company's registered office is in Manama, Kingdom of Bahrain. The Company is owned by Tech Mahindra Limited – India (the "Parent Company").

The Company's issued share capital consists of 500 ordinary shares at BD 100 each, issued and fully paid.

2 BASIS OF PREPARATION

a) Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and in conformity with the requirements of the Commercial Companies Law.

b) Basis of measurement

The financial statements have been prepared on the historical cost convention.

c) Functional and presentation currency

The financial statements are presented in Bahraini Dinars ("BD") being the functional currency of the Company.

d) New standards, amendments and interpretations effective from 1 January 2021

The standards, amendments and interpretations, which became effective as of 1 January 2021, are as follows:

- COVID-19 Related Rent Concessions (Amendments to IFRS 16); and
- Interest Rate Benchmark Reform - Phase 2

The adoption of these amendments had no significant impact on the financial statements.

e) New standards, amendments and interpretations issued but not yet effective

A number of new standards and amendments to standards are effective for annual periods beginning on or after 1 January 2022 and earlier application is permitted; however, the Group has not early applied the following new or amended standards in preparing these financial statements:

- Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS 37), effective from on or after 1 January 2022;
- Property, Plant and Equipment (PPE): Proceeds before Intended Use (Amendments to IAS 16), effective on or after 1 January 2022;
- Classification of liabilities as current or non-current (Amendments to IAS 1), effective on or after 1 January 2023;
- COVID-19 Related Rent Concessions beyond 30 June 2021 (Amendments to IFRS 16), effective on or after 30 June 2021;
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practise Statement 2), effective on or after 1 January 2023; and
- Definition of Accounting Estimates (Amendments to IAS 8), effective on or after 1 January 2023.

The Company does not expect to have a significant impact on its financial statements from above new standards and amendments to standards.

f) Use of estimates and management judgement

The preparation of these financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Impairment of trade and other receivables

The Company measures expected credit loss for receivables that result from all possible default events over the expected life of the receivable. A financial asset is considered 'credit-impaired' when one or more events, that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

3 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting polices applied in the preparation of these financial statements are set out below. These accounting policies have been consistently applied by the Company and are consistent with those used in the previous period.

a) Revenue recognition

The Company recognises revenue when it transfers control of a product or service to a customer.

Revenue from contracts priced on a time and material basis is recognised when services are rendered. Revenue from fixed price contracts is recognised as performance obligation satisfied over a period of time based on the stage of completion of the contract. The stage of completion determined as the proportion of the total time expected to install that has elapsed at the end of the reporting period is an appropriate measure of progress towards complete satisfaction of these performance obligations.

The Company has entered into a service agreement with the Parent Company for reimbursement of costs incurred plus a mark-up ("cost plus method") which forms part of the revenue.

The Company has pass through billing agreement with Parent Company where the Company bills the third-party customers on behalf of Parent company and revenue is recognised on net basis.

Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability ("Unearned revenue") arises when there are billing in excess of revenue.

b) Cash and cash equivalents

Cash and cash equivalents comprise bank balances and short-term deposits with original contractual maturity period of three months or less. These are carried at amortised cost.

c) Financial instruments

(i) Recognition and initial measurement

The financial instruments of the Company consist primarily of trade and other receivables, balance with a bank, trade and other payables, due from and to parent company. The Company recognises financial instruments initially on the trade date, which is the date when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(ii) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (FVOCI) – debt security; FVOCI – equity security; or FVTPL Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model. A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. Financial liabilities are subsequently measured at amortised cost using the effective interest method. Any gain or loss on de-recognition is also recognised in profit or loss.

(iii) De-recognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On de-recognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

(iv) Offsetting

Financial assets and liabilities are set off and the net amount presented in the statement of financial position, when and only when, the Company currently has a legally enforceable right to set off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

(v) Impairment

The Company recognises loss allowances for expected credit losses (ECLs) on financial assets measured at amortised cost. The Company measures loss allowances at an amount equal to lifetime ECLs, except for bank balances for which credit risk has not increased significantly since initial recognition.

Measurement of ECLs- Trade receivables

The Company measures expected credit loss for receivables that result from all possible default events over the expected life of the asset. This includes receivables that have objective evidence of impairment at the reporting date. Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs.

Measurement of ECLs- Cash and bank balances (General approach)

Impairment on cash and cash equivalents has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

d) Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment.

e) Trade and other payables

Trade and other payables expenses are recognised initially at fair value and subsequently stated at amortised cost.

f) Foreign Currencies

Transactions in foreign currencies are recognised in the functional currency at the rates ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rates of exchange ruling at the reporting dates. All differences are taken to profit or loss.

g) Employee benefits

Provisions are made for end-of-service benefits to all expatriate employees. The entitlement to these benefits is based upon the employee's final salary and length of service. The expected costs of these benefits are accrued over the period of the employment.

For Bahraini employees, contributions are made to the Social Insurance Organisation based on a percentage of the employees' salaries. The Company's obligations are limited to these contributions, which are expensed when due.

h) Provision

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle such obligation.

i) Statutory reserve

In accordance with Commercial Companies Law, a minimum of 10% of the net profit is appropriated to a statutory reserve, until it reaches 50% of the paid-up share capital (excluding share premium). This reserve is not normally distributable except in certain circumstances.

j) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity.

k) Leases

At inception of a contract, the Company assesses whether a contract is, or contains a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company uses the definition of a lease in IFRS 16.

As a Lessee

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.

4 TRADE AND OTHER RECEIVABLES

	31 March 2022	31 March 2021
Gross trade receivables	**12,211**	66,810
Less: Provision for impairment (i)	**(12,211)**	(15,289)
	-	51,521
Advance to supplier	**8,124**	2,068
Unbilled revenue	**39,418**	137,087
VAT receivable	**1,832**	1,642
Advance to employees and prepayments	**3,713**	844
	53,087	193,162

(i) The movements of the provision for impairment of trade receivables were as follows:

	31 March 2022	31 March 2021
At 1 April	**15,289**	3,078
Charge for the year	**-**	12,211
Bad debts written off	**(3,078)**	-
At 31 March	**12,211**	15,289

5 RELATED PARTY TRANSACTIONS

A significant portion of the Company's transactions in the normal course of business are with the Parent Company. All transactions are subject to controls embedded in respective processes in line with the Parent Company policies and procedures. These financial statements may not necessarily be indicative of the financial position that would have existed or of the Company's results of operations, if the Company had been operated as an unaffiliated Company.

	31 March 2022	31 March 2021
Due to Parent Company		
Tech Mahindra Limited – India	**129,105**	172,925
	129,105	172,925

The transactions with Parent Company are as follow:

	2022	2021
Revenue from services (note 11) (i)	**203,179**	136,108
Payable for pass through billings (ii)	**(88,463)**	(40,898)
Payable for pass through accruals (ii)	**(39,418)**	(137,087)
Payment made for pass through billings	**-**	177,985
Receivable/ liability recognised during the year	**135,359**	(180,564)
Payments received – net	**(166,837)**	(121,692)

(i) The Company earns no interest on cash at bank balance in current account.

(ii) Short term deposits with bank outstanding at year end, earns interest at a rate of 0.05% to 0.3% (2021: 0.01% to 0.3%) per annum with original maturity of less than 3 months.

6 BANK BALANCES

	31 March 2022	31 March 2021
Cash at bank (i)	**216,639**	73,092
Short term deposits with bank (ii)	**304,162**	323,893
	520,801	396,985

(i) The Company earns no interest on cash at bank balance in current account.

(ii) Short term deposits with bank outstanding at year end, earns interest at a rate of 0.05% to 0.3% (2021: 0.01% to 0.3%) per annum with original maturity of less than 3 months.

7 SHARE CAPITAL

The Company's issued share capital consists of 500 ordinary shares at BD 100 each, issued and fully paid.

8 STATUTORY RESERVE

In accordance with the Commercial Companies Law and the Company's Articles of Association 10% of the profit has been transferred to a statutory reserve. The Company resolved to discontinue such annual transfer when the reserve reached 50% of the issued share capital. The reserve is not available for distribution, except in the circumstances stipulated in the Commercial Companies Law.

9 PROVISION FOR EMPLOYEES' BENEFITS

	31 March 2022	31 March 2021
At 1 April	**12,072**	10,733
Charge for the year	**4,412**	1,339
At 31 March	**16,484**	12,072

10 TRADE PAYABLES AND OTHER LIABILITIES

	31 March 2022	31 March 2021
Trade payables	**377**	373

Project specific expenses	**8,151**	-
	164,598	90,705

13 GENERAL AND ADMINISTRATIVE EXPENSES

	2022	2021
Professional fees	**12,840**	15,006
Insurance expenses	**5,785**	-
Rent expenses relating to short-term leases	**4,413**	4,180
Telephone and mobile charges	**2,843**	3,042
Foreign exchange loss (net)	**-**	794
Miscellaneous expenses	**1,199**	3,122
	27,080	26,144

14 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments include financial assets and financial liabilities. Financial assets of the Company include trade and other receivables (excluding salary advances and prepaid expenses) and bank balances.

The Company has exposure to the following risks from its use of financial instruments:

- credit risk

- liquidity risk
- market risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. The note also presents certain quantitative disclosures in addition to the disclosures throughout the financial statements.

The Board of Directors of the Parent have overall responsibility for the establishment and oversight of the Company's risk management framework.

The Parent's risk management framework ensures the Company's risk management. The Board of the Parent, which includes the Parent and its subsidiaries, oversees how the management monitors compliance with the Company's risk management framework and reviews its adequacy in relation to the risks faced by the Company.

a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The Company is principally exposed to credit risk on trade and other receivables and bank balances. The maximum credit risk is the carrying value of the assets.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	31 March 2022	31 March 2021
Trade and other receivables (i)	**41,250**	190,250
Bank balances (ii)	**520,801**	396,985
	562,051	587,235

(i) The Company gives a credit period of 30 days to its customers after which the receivables are classified as past due. Credit risk for trade receivables outstanding pertaining passthrough billing and credit risk rests with the Parent Company. The Company does not hold any collateral against the above receivables.

(ii) The Company limits its exposure to credit risk on bank balances by maintaining balances with banks having high credit ratings. Given these high credit ratings, the company does not expect any bank to fail to meet its obligations. Accordingly, there is no significant expected credit loss on bank and deposit balances as on 31 March 2022 (31 March 2021: Nil).

The ageing of the trade receivables at the reporting date was:

	31 March 2022			31 March 2021		
	Gross receivables	**Loss rate**	**Impairment**	Gross receivables	Loss rate	Impairment
Past due:						
91-180 days	**-**	**-**	**-**	51,521	-	-
More than 1 year	**12,211**	**100%**	**12,211**	15,289	100%	15,289
	12,211	**100%**	**12,211**	66,810	22.88%	15,289

The Company has specifically assessed the exposure of unbilled revenue and other receivables and does not expect the customer to fail to meet its obligations. Accordingly, there is no expected credit loss on trade receivables as on 31 March 2022 (31 March 2021: Nil) on past due less than 1 year.

The Company has policy to make full provision on past due more than 1 year and accordingly all past due more than one has been fully provided as on 31 March 2022.

b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far possible, that it will always have sufficient liquidity to meet its /liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. All financial liabilities are payable within 6 months.

c) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk. The Company is not exposed to any significant market risk on its financial instruments. Company's transactions primary denominated in Bahrain Dinar and the Company does not hold significant interest-bearing financial assets or liabilities.

d) Capital Management

The Board's policy is to maintain a strong capital base to sustain the future development of the business. The Company is not exposed to externally imposed capital requirements. There were no significant changes in the Company's approach to capital management during the year.

e) Fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

Underlying the definition of fair value is a presumption that an enterprise is a going concern without any intention or need to liquidate, curtail materially the scale of its operations or undertake a transaction on adverse terms.

As on the reporting date, the fair value of the Company's financial assets and liabilities approximate their carrying values.

f) Categorisation of financial instruments

All financial assets and liabilities are classified "at amortised cost" as on 31 March 2022 and 31 March 2021.

15 COMPARATIVES

The corresponding figures have been regrouped where necessary to conform to the current year's presentation. The regrouping has not affected previously reported profit for the year or equity.

TECH MAHINDRA ARABIA LIMITED
(A Limited Liability Company)

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Tech Mahindra Arabia Limited

Opinion

We have audited the financial statements of **Tech Mahindra Arabia Limited** ("the Company"), which comprise the statement of financial position as at 31 March 2022, the statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2022, and its financial performance and its cash flows for the year then ended in accordance with the International Financial Reporting Standards for Small and Medium Sized-Entities (IFRS for SMEs) that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants (SOCPA).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the professional code of conduct and ethics that are endorsed in the Kingdom of Saudi Arabia that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the IFRS for SMEs that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by SOCPA, the applicable requirements of the Regulations for Companies, Company's Articles of Association and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, the Board of Directors, are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. 'Reasonable assurance' is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, then we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit of **Tech Mahindra Arabia Limited**.

STATEMENT OF COMPREHENSIVE INCOME FOR THE YEAR ENDED 31 MARCH 2022

(Expressed in Saudi Arabian Riyals)

	Note	2022	2021
Revenue		88,813,962	52,462,914
Cost of revenue		(68,070,020)	(41,160,141)
Gross profit		**20,743,942**	**11,302,773**
General and administrative expenses	13	(4,585,048)	(4,513,780)
Selling expenses	14	(4,931,641)	(3,237,125)
Other expense		(28,854)	(37,421)
Profit from operations		**11,198,399**	**3,514,447**
Finance cost		(130,569)	-
Profit before Zakat and income tax		**11,067,830**	**3,514,447**
Zakat and income tax expense	9	(763,007)	(456,341)
Profit after Zakat and income tax		**10,304,823**	**3,058,106**
Other comprehensive income / (loss)			
Re-measurement loss on defined benefit plan	11	(45,947)	(140,461)
Other comprehensive loss for the year		**(45,947)**	**(140,461)**
Total comprehensive income for the year		**10,258,876**	**2,917,645**

The accompanying notes (1) through (18) form an integral part of these financial statements.

TECH MAHINDRA ARABIA LIMITED
(A Limited Liability Company)

STATEMENT OF CHANGES IN EQUITY FOR THE YEAR ENDED 31 MARCH 2022

(Expressed in Saudi Arabian Riyals)

	Share capital	Statutory Reserves	Retained earnings / (accumulated losses)	Total
As of 31 March 2020	1,000,000	185,365	(4,322,311)	(3,136,946)
Profit before tax for the year 2021	-	-	3,058,106	3,058,106
Other comprehensive loss	-	-	(140,461)	(140,461)
Total comprehensive income for the year	-	-	2,917,645	2,917,645
Transfer to statutory reserve	-	291,764	(291,764)	-
Balance as of 31 March 2021	**1,000,000**	**477,129**	**(1,696,430)**	**(219,301)**
Profit before tax for the year 2022	-	-	10,304,823	10,304,823
Other comprehensive loss	-	-	(45,947)	(45,947)
Total Comprehensive income for the year	-	-	10,258,876	10,258,876
Transfer to statutory reserve	-	1,025,888	(1,025,888)	-
Balance as of 31 March 2022	**1,000,00**	**1,503,017**	**7,536,558**	**10,039,575**

The accompanying notes (1) through (18) form an integral part of these financial statements.

STATEMENTS OF CASH FLOWS FOR THE YEAR ENDED 31 MARCH 2022

(Expressed in Saudi Arabian Riyals)

	Note	2022	2021
Cash flows from operating activities:			
Profit before Zakat and income tax		11,067,830	3,514,447
Adjustments for:			
Provision for doubtful debts	5	1,921,182	1,688,016
Depreciation	8	152,370	235,205
End of service benefits	11	221,779	150,073
Finance cost		130,569	-
		13,493,730	**5,587,741**
Changes in operating assets and liabilities:			
Trade receivables and unbilled revenue		(25,352,339)	(1,156,396)
Prepayments and other current assets		(1,757,561)	(411,991)
Trade payables		(384,873)	866,005
Accrued expenses and other current liabilities		10,754,064	(3,022,623)
Due to related parties		(2,582,373)	(3,309,959)
Cash used in operations		**(5,829,352)**	**(1,447,223)**
End of service payments	11	(317,878)	-
Finance cost paid		(130,569)	-
Tax payments		(628,258)	(409,308)
Net cash used in operating activities		**(6,906,057)**	**(1,856,531)**
Cash flows from investing activities:			
Additions to property and equipment	8	(111,600)	(16,920)
Cash used in investing activities		**(111,600)**	**(16,920)**
Net movement in cash and cash equivalents		**(7,017,657)**	**(1,873,451)**
Cash and cash equivalents at beginning of the year		7,187,497	9,060,948
Cash and cash equivalents at end of the year	4	**169,840**	**7,187,497**

The accompanying notes (1) through (18) form an integral part of these financial statements.

NOTES TO THE FIANANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

(Expressed in Saudi Arabian Riyals)

1 CORPORATE INFORMATION

Tech Mahindra Arabia Limited (the "Company") is a limited liability Company registered in the Kingdom of Saudi Arabia under Commercial Registration number 2051061101 dated 16 Dhul-al-Qa'dah 1436H (corresponding to 31 August 2015G). The Company's principal activity is to provide services of application development and management, network services, business process outsourcing, information technology-enabled services, system integration, IT networking, IT security and supply of products (hardware, software and structured cabling).

The Company's registered office is in Al Khobar, Kingdom of Saudi Arabia.

2 BASIS OF PREPARATION

a) Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards for Small and Medium Sized Entities ("IFRS for SMEs") as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by Saudi Organization for Chartered and Professional Accountants ("SOCPA").

b) Basis of measurement

The accompanying financial statements have been prepared under the historical cost convention on the accrual basis of accounting except otherwise stated in notes to the financial statements.

c) Going concern

The Company's management has made an assessment of its ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

d) Functional and presentation currency

These financial statements are presented in Saudi Arabian Riyals (SAR), which is the functional and reporting currency of the Company.

e) Significant accounting estimates and assumptions

The preparation of financial statements in conformity with IFRS for SMEs as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by SOCPA requires the use of certain critical estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the reporting date and the reported amounts of revenues and expenses during the reporting period. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

i. Impairment of non-financial assets

Impairment exists when the carrying value of an asset or Cash Generating Unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arms' length for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flows are derived from the budget and marketing terms forecast for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is most sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

ii. Useful lives and residual values of property and equipment

The management determines the estimated useful lives and residual values of property and equipment for calculating depreciation. These estimates are determined after considering expected usage of the assets and physical wear and tear. Management reviews the residual values and useful lives annually and change in depreciation charges, if any, are adjusted in current and future periods.

iii. Provision for impairment of trade receivables

A provision for impairment of trade receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the agreement. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default or delinquency in payments are considered indicators of objective evidence that the trade receivable is impaired. For significant individual amounts, assessment is made on an individual basis. Amounts which are not individually significant, but are overdue, are assessed collectively and a provision is recognized considering the length of time and past recovery rates.

iv. Zakat and income tax

The Company is subject to income tax to the extent of foreign shareholding and Zakat to the extent of the GCC shareholders in accordance with the Zakat, Tax and Customs Authority (“ZATCA”) (formerly General Authority of Zakat and Tax (GAZT)) regulations. Income taxes and Zakat are provided on an accrual basis. Income tax and Zakat computation involves relevant knowledge and judgment of the Zakat and income tax rules and regulations to assess the impact of income tax and Zakat liability at a particular period end. This liability is considered an estimate until the final assessment by ZATCA is carried out until which the Company retains exposure to additional Zakat and income tax liability.

v. Provision and contingencies

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. The assessment of the contingencies inherently involves the exercise of significant judgment as the outcome of the future events cannot be predicted with certainty. The Company, based on the availability of the latest information, estimates the value of contingent assets and liabilities which may differ on the occurrence / non-occurrence of the uncertain future events.

vi. Employees’ benefits

The cost of defined benefit and the present value of the related obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, withdrawal before normal retirement age, mortality rates etc. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate, yield and duration of Saudi government bonds obligation with at least an ‘A’ rating or above, as set by an internationally acknowledged rating agency, and extrapolated as needed along the yield curve to correspond with the expected term of the defined benefit obligation, is considered. The underlying bonds are further reviewed for quality. Those having excessive credit spreads are removed from the analysis of bonds on which the discount rate is based, on the basis that they do not represent high quality bonds.

Age-wise “moderate” withdrawal rates are used in carrying out the valuation. These age-wise withdrawal rates are generally used in the MENA region to carry out the actuarial valuation of end of service benefit (EOSB) schemes.

The rates assumed are based on the WHO SA16 – 75% ultimate mortality tables, rated down one year. In the absence of any standard mortality tables in the region, these rates are generally used in Kingdom of Saudi Arabia in carrying out the actuarial valuation of EOSB schemes. If any other mortality table is used it will not make any significant difference in the results.

vii. Revenue

As part of application of percentage of completion method on long term contracts, the cost to complete the project is estimated. The stage of completion is measured by calculating the proportion that costs incurred to date bear to the estimated total costs of contracts. Such estimates are reviewed at regular intervals. Any subsequent changes in the estimated cost to complete may affect the results of the subsequent periods.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in the financial statements except otherwise stated:

a) Cash and cash equivalents

Cash and cash equivalents comprise of cash with banks and other short-term highly liquid investments, if any, with original maturities of three months or less, which are available to the Company without any restrictions.

b) Trade receivables

Trade receivables are carried at original invoice amount less provision for doubtful debts. A provision against doubtful debts is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. Such provisions are charged to the statement of comprehensive income and reported under “General and administrative expenses”. When a trade receivable is uncollectible, it is written-off against the provision for doubtful debts. Any subsequent recoveries of amounts previously written-off are credited to the statement of comprehensive income.

c) Property and equipment

Property and equipment are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the asset. Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the asset. All other expenditure is recognized as an expense in the statement of comprehensive income when incurred.

Depreciation is provided over the estimated useful lives of the assets using the straight-line method. The estimated useful lives of assets are as follows:

Asset category	Number of years
Furniture & fixtures	5
Office equipment	5
Machinery and equipment	5
Computer equipment	3

Gain and losses on disposal of an item of property and equipment are determined by comparing the proceeds from disposal with the carrying amount of property and equipment at the time of disposal and is recognized in the statement of comprehensive income.

d) Provisions and contingent liabilities

Provisions are recognized for liabilities of uncertain timing or amount, when the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

All possible obligations arising from past events whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or all present obligations arising from past events but not recognized because: (i) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or (ii) the amount of the obligation cannot be measured with sufficient reliability; assessed at each financial position date and disclosed in the financial statements under contingent liabilities.

e) Trade payable and accruals

Liabilities are recognized for amounts to be paid for goods and services received, whether or not billed to the Company.

f) Employees' benefits

Employees' benefits required by Saudi Labor and Workman Law are accrued by the Company and charged to the statement of comprehensive income. The liability is calculated as a defined benefit obligation at the current value of the vested benefits to which the employee is entitled, should the employee leave at the reporting date. Benefit payments are based on employees' final salaries and allowances and their cumulative years of service, as stated in the laws of Saudi Arabia.

(i) The liability or asset recognised in the statement of financial position in respect of defined benefit plan is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by independent actuaries using the projected unit cost method.

The present value of the defined benefit obligation is determined by discounting the estimated future outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefit will be paid and that have terms approximating the terms of the related obligation. In countries where there is no deep market in such bonds, the market rates on government bonds are used.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation. This cost is included in employees' benefit expense in the statement of comprehensive income.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in statement of comprehensive income. They are included in retained earnings / accumulated losses in the statement of comprehensive income and in the statement of financial position.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the statement of comprehensive income as past service costs.

g) Zakat and income taxes

In accordance with the regulations of the Zakat, Tax and Customs Authority ("ZATCA") (formerly General Authority of Zakat and Tax (GAZT), the Company is subject to income tax and Zakat. Provision for income tax and Zakat is charged to the statement of comprehensive income. Additional amounts payable, if any, at the finalization of final assessments are accounted for when such amounts are determined.

Deferred income tax is recognized on all major temporary differences between accounting income and taxable income during the year in which such differences arise, and are adjusted when related temporary differences are reversed. Deferred income tax assets on carry-forward losses are recognized to the extent that it is probable that future taxable income will be available against which such carry-forward tax losses can be adjusted. Deferred income tax is determined using tax rate which has been enacted by the statement of financial position date and is expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

The Company withholds taxes on certain transactions with non-resident parties, including dividend payments to the shareholders, in the Kingdom of Saudi Arabia as required under the Saudi Arabian Income Tax Law.

h) Revenue recognition

Revenue is recognized to the extent of the following recognition requirements:

- it is probable that the economic benefits will flow to the Company,
- it can be reliably measured, regardless of when the payment is being made; and
- the cost incurred to date and expected future costs are identifiable and can be measured reliably.

Revenue is measured at the fair value of the consideration received or the contractually defined terms of payment. The specific recognition criteria described below must also be met before the revenue is recognized.

Revenue on long term contracts, where the outcome can be estimated reliably, is recognized under the percentage of completion method by reference to the stage of completion of the contract activity. The stage of completion is measured by calculating the proportion that costs incurred to date bear to the estimated total costs of a contract. When the current estimate of total contract costs and revenues indicate a loss, provision is made for the entire loss on the contract irrespective of the amount of work done. Progress payments and advances received from customers in respect of contracts are deducted from the amount of contract work in progress and excess payments on contracts are shown as a liability.

Revenue recognized in excess of billings represents the value of work performed but not yet billed as at year-end. Billings in excess of revenue earned included in current liabilities represent the excess of amounts billed over the value of work performed at the year-end.

i) Foreign currency translation

Transactions denominated in foreign currencies are translated to Saudi Arabian Riyals at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the statement of financial position date are translated to Saudi Arabian Riyals at the exchange rate ruling at that date. Exchange differences arising on translation are recognized in the statement of comprehensive income.

j) Expenses

Selling, general and administrative expenses include direct and indirect costs not specifically part of costs of revenue. Allocations between selling, general and administrative expenses and costs of revenue, when required, are made on a consistent basis.

k) Leases

Leases are classified as finance lease whenever the terms of the lease transfer substantially all of the risks and rewards of ownership to the Company as lessee. Other leases are classified as operating leases. Payments made under operating leases are recognized in the statement of comprehensive income over the terms of the lease.

l) Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets

Measurement

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial investments, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. Management determines the classification of the financial asset at the time of initial recognition.

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. For purposes of subsequent measurement financial assets are classified in four categories, financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments and available-for-sale financial investments.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the statement of financial position date which are classified as non-current assets. Loans and receivables comprise of loans, advances, deposits, prepayments, other receivables and cash and cash equivalents. After initial recognition, loans and receivables are measured at amortized cost using the effective interest rate method, less any impairment. Restructured/ rescheduled receivables are recorded at revised terms and conditions as approved by the management. Restructuring policies and practices are based on indicators or criteria which, indicate that payment will most likely continue.

Financial liabilities

Measurement

Financial liabilities are classified as financial liabilities at fair value through profit or loss or other financial liabilities, as appropriate. The Company determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs. The measurement of financial liabilities depends on their classification as financial liabilities at fair value through profit or loss or “other financial liabilities”. The Company has not designated any financial liability as fair value through profit or loss.

The Company’s financial liabilities include trade payable and other liabilities.

Derecognition

Financial assets are derecognised when the Company loses control of the contractual rights that comprise the financial assets. Financial liabilities are derecognised when they are extinguished, that is, when the obligation specified in the contract is discharged, cancelled, or expires. On derecognition of a financial asset or financial liability, the difference between the carrying amount and the consideration received (and receivable) or paid (and payable) is recognised in the statement of comprehensive income.

4. CASH AND CASH EQUIVALENTS

	2022	2021
Bank balances	169,840	2,187,497
Short term deposit	-	5,000,000
	169,840	**7,187,497**

5. TRADE RECEIVABLES AND UNBILLED REVENUE

	2022	2021
Trade receivables	26,304,057	15,565,041
Unbilled revenue	21,003,152	6,389,829
Less: provision for doubtful debts	(5,571,995)	(3,650,813)
	41,735,214	**18,304,057**

Movement in provision for doubtful debts is as follows:

	2022	2021
Opening balance	3,650,813	1,962,797
Add: provision made during the year	1,921,182	2,098,471
Less : written off	-	(410,455)
Closing balance	**5,571,995**	**3,650,813**

Unbilled revenue includes revenue recognized in relation to work performed on contracts not billed as of the end of the reporting period and where services have been performed in accordance with the terms of respective contracts with customers.

6. RELATED PARTY TRANSACTIONS AND BALANCES

The related parties of Company comprise the shareholders, their affiliated companies, Board of Directors and key management personnel. The Company enters into transactions with the related parties in the normal course of its business. These transactions normally include providing and receipt of services, expenses incurred by / on behalf of related parties and are entered into mutually agreed terms as approved by the Company's management, with the following entities.

Related party	Relationship
Midad Holding Company, Kingdom of Saudi Arabia	Shareholder
Tech Mahindra Limited, India	Shareholder
Tech Mahindra GMBH, Germany	Other related party
Healthcare Clinical Informatics Limited	Other related party

The following are details of significant related party transactions during the year:

Related party	Nature	2022	2021
Tech Mahindra Limited	Subcontract cost	18,790,363	12,432,151
	Expenses reimbursed by shareholder	1,961,809	8,215,738
Tech Mahindra Limited	VAT/Service taxes	92,845	-
Healthcare Clinical Infomatics Limited	Payments made	-	233,237
Tech Mahindra Limited	Payments made	23,427,390	23,862,108
Midad Holding Company	Payments made	-	818,957

The following is a summary of balances due from / due to related parties:

Due from a shareholder	2022	2021
Tech Mahindra Limited	20,604,450	23,186,823
	20,604,450	**23,186,823**

Key management personnel compensation:

There is a compensation at group level to directors and other members of key management (including salaries and benefits) in the year 2022 and 2021.

Transfer pricing

On 31 January 2019, the Zakat, Tax and Customs Authority ("ZATCA") (formerly General Authority of Zakat and Tax (GAZT) issued Transfer Pricing Bylaws (By-laws). These By-laws were enacted on 15 February 2019 as part of the tax law and became binding on tax payers for periods ending on or after 31 December 2018. This requires additional disclosure forms along with annual tax returns to be submitted to ZATCA, summarizing the related party transactions, counter parties including country, amount and Transfer Pricing method. Management has submitted disclosure form to ZATCA for the year ended 31 March 2021 in compliance with By-Laws. During the year, Management does not expect any adjustment on account of Transfer Pricing.

7. PREPAYMENTS AND OTHER CURRENT ASSETS

	2022	**2021**
Security deposits	1,965,689	184,480
Prepayments	575,243	450,333
Advances to employees	124,019	53,132
VAT Receivables	-	287,939
Others	78,369	9,875
	2,743,320	**985,759**

8. PROPERTY AND EQUIPMENT

	Furniture & fixtures	**Machinery and equipment**	**Office equipment**	**Computer equipment**	**Total**
Cost					
At 1 April 2021	478,452	252,655	34,020	337,022	1,102,149
Additions	-	-	-	111,600	111,600
At 31 March 2022	**478,452**	**252,655**	**34,020**	**448,622**	**1,213,749**
Accumulated depreciation					
At 1 April 2021	347,661	201,127	16,505	286,151	851,444
Charge for the year	52,566	29,970	6,174	63,660	152,370
At 31 March 2022	**400,227**	**231,097**	**22,679**	**349,811**	**1,003,814**
Carrying amount as at:					
31 March 2022	**78,225**	**21,558**	**11,341**	**98,811**	**209,935**
31 March 2021	130,791	51,528	17,515	50,871	250,705

9. ZAKAT AND INCOME TAX

a) Zakat and income tax expenses for the year

	2022	**2021**
Income tax	1,065,298	393,752
Zakat	375,348	62,589
Deferred tax	(677,639)	-
	763,007	**456,341**

b) The principal elements of the Zakat base of the Company are as follows:

	2022	**2021**
Non-current assets	**887,574**	250,705
Non-current liabilities	**672,637**	722,789
Opening shareholders' equity	**(219,301)**	(3,136,946)
Profit before Zakat	**11,067,830**	3,514,447

Some of these amounts have been adjusted in arriving Zakat charge for the year.

Income tax charge for the year ended 31 March 2022 and 2021 is based on the adjusted taxable income calculated on the portion of equity owned by a foreign shareholder.

c) Provision for Zakat and income tax

	2022			2021
	Zakat	**Income tax**	**Total**	**Total**
Balance at the beginning of the year	48,858	393,807	442,665	395,632
Charge for the year	227,420	1,041,302	1,268,722	456,341
Under provision for previous years	147,928	23,996	171,924	-
Payment made during the year	(196,786)	(431,472)	(628,258)	(409,308)
Balance at the end of the year	**227,420**	**1,027,633**	**1,255,053**	**442,665**

The Company submitted its Zakat and income tax returns up to the year ended 31 March 2020 within the statutory deadlines and received the Zakat and income tax certificates. The Company has not received any assessments from Zakat, Tax and Customs Authority (“ZATCA”) (formerly General Authority of Zakat and Tax (GAZT) since its inception.

d) Deferred tax asset

	2022	**2021**
The balance comprises of temporary differences attributable to;		
Property and equipment	51,799	-
Employees’ benefits and other provisions	625,840	-
	677,639	**-**

e) Movement in deferred tax assets

	2022	**2021**
Balance as at 1 April	-	-
Add: Credit for the year	677,639	-
Balance as at 31 March	**677,639**	**-**

10. ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

	2022	**2021**
Accrued expenses	7,124,019	1,321,221
WHT Payable	3,545,026	35,503
Value added tax payable	1,241,156	-
Staff related accruals	150,900	77,689
Others	192,627	65,251
	12,253,728	**1,499,664**

11. EMPLOYEES’ BENEFITS

The Company operates an approved unfunded employees’ end of service benefits scheme / plan for its permanent employees. The following table shows a reconciliation from the opening balances to the closing balances for the net defined benefit liability and its components.

	2022	**2021**
Opening balance	722,789	432,255
Included in statement of comprehensive income		
Current service cost	214,449	129,757
Interest cost	7,330	20,316
	221,779	**150,073**
Actuarial loss on obligation	45,947	140,461
Benefits paid during the year	(317,878)	-
Closing balance	**672,637**	**722,789**

Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date:

	2022	2021
Discount rate	**2.70%**	1.30%
Salary increase rate	**3.00%**	3.00%

Sensitivity analysis

A sensitivity analysis for the discount rate and future salary change assumption on the EOSB obligation as at 31 March 2022 is shown in the table below:

	Impact on defined benefit obligation – Increase / (decrease)					
	31 March 2022			31 March 2021		
	Change in assumption	**Increase in assumption**	**Decrease in assumption**	Change in assumption	Increase in assumption	Decrease in assumption
Discount rate	0.5%	(13,222)	13,770	0.5%	(10,268)	10,268
Salary growth	0.5%	13,685	(13,266)	0.5%	10,489	(10,489)

Expected maturity analysis of undiscounted defined benefit obligation is as follows:

	Less than a year	Between 1-2 years	Between 2-5 years	Over 5 years
Defined benefit obligation 31 March 2021	323,394	117,663	482,499	637,819
Defined benefit obligation 31 March 2022	**112,889**	**198,348**	**803,789**	**1,046,350**

The weighted average duration of defined benefit obligation as of 31 March 2022 was 3 years (31 March 2021: 3 years).

12. SHARE CAPITAL

As of 31 March 2022 and 2021 , the share capital of the Company is divided into 1,000 shares of SR 1000 each and held as follows:

Name	Country	No. of shares	Value	% of Holdings
Tech Mahindra Limited	India	510	510,000	51%
Midad Holding Company	Kingdom of Saudi Arabia	490	490,000	49%
		1,000	**1,000,000**	**100%**

13. GENERAL AND ADMINISTRATIVE EXPENSES

	2022	2021
Provision for doubtful debts (refer note 5)	1,984,183	1,688,016
Rent Expense	535,900	586,500
Depreciation (refer note 8)	152,370	235,206
Insurance	420,747	340,159
Legal and professional expenses	568,623	272,946
Office expenses	273,828	530,272
Travelling Expense	281,342	115,900
Bad Debts written off	-	410,455
Others	368,055	334,326
	4,585,048	**4,513,780**

14. SELLING EXPENSES

	2022	2021
Employees' related cost	4,482,393	3,232,583
Office expenses	209,799	-
Travelling Expense	213,904	-
Others	25,545	4,542
	4,931,641	**3,237,125**

15. COMMITMENTS AND CONTINGENCIES

Operating lease commitments – Company as lessee

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases are charged to statement of comprehensive income on a straight-line basis over the period of the lease.

The operating lease payments represent rentals for office premises. Lease rentals are fixed and negotiated for an average term of one year.

	2022	2021
Payments under operating leases recognised as expenses during the year	535,900	586,500
	535,900	**586,500**

Contingent liabilities

Contingent Liability for Taxation matters

Company has received Value Added Tax ("VAT") assessments (including penalty amounts) from the Zakat, Tax and Customs Authority ('ZATCA') for the quarters ended 31 March 2018, 30 September 2018, 31 December 2019 and 31 December 2020 which are currently under dispute with the Committee for Tax Violation and Dispute Resolution (CTVDR) after the partial acceptance by ZATCA. The current amounts under dispute are SR 175,671, SR 311,671, SR 413,582 and SR 321,166 respectively. As per the Management, the likelihood of the above demand raised being upheld is low. Accordingly, no provision in respect thereof has been made in the financial statements as at 31 March 2022.

Bank guarantees

Bank Guarantees outstanding as at 31 March 2022: SAR 3,133,337 (2021: SAR Nil).

The Company has no other significant contingent liabilities as at 31 March 2022 (2021: Nil) other than above.

16. FINANCIAL INSTRUMENTS

Financial instruments carried on the statement of financial position include cash and cash equivalents, trade receivable and certain other current assets, trade payables, due to and due from related parties and certain other liabilities.

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable willing parties in an arm's length transaction. As these financial statements are prepared under the historical cost convention, differences may arise between the book values and the fair value estimates. Management believes that the fair values of the Company's financial assets and liabilities are not materially different from their carrying values.

Credit risk is the risk that one party will fail to discharge an obligation and may cause the other party to incur a financial loss. Cash and cash equivalents are placed with national banks with sound reputation. Trade and other receivables are mainly due from local customers and related parties, which were stated at their estimated realizable values. The Company establishes a provision for doubtful receivables that reports its estimate of incurred losses in respect of trade and other receivables.

Currency risk is the risk that the value of a financial instrument may fluctuate due to changes in foreign exchange rates. The Company's transactions are principally in Saudi Riyals and United States Dollars. As US Dollar is pegged to Saudi Riyal, management believes that the impact of currency risk due to United States Dollar on the Company is not significant. The Company monitors the fluctuations in exchange rates and manages its foreign currency risk by monitoring the currency rate fluctuations on regular basis.

Interest rate risk is the exposures to various risks associated with the effect of fluctuations in the prevailing interest rates on the Company's financial position and cash flows. The Company is not exposed to interest rate risk.

Liquidity risk is the risk that an enterprise may encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from the inability to realize the values of financial assets at an amount close to its fair value. Liquidity risk is managed by monitoring on a regular basis that sufficient funds are available to meet the Company's future commitments.

17. SUBSEQUENT EVENTS

No adjusting event occurred after reporting date till the date of authorization of financial statements by Board of Directors which may have impact on the financial statements.

18. APPROVAL OF FINANCIAL STATEMENTS

These financial statements were approved for issue by Board of Directors on 29 Dhual-Qa'dah 1443H corresponding to 28 June 2022.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of Tech Mahindra Limited

Report on the Audit of the Financial Statements of PF Holdings B.V.

Opinion

We have audited the financial statements of PF Holdings B.V. ("the Company"), which comprise the balance sheet as at 31 March 2022, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give a true and fair view in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143 (10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Schedule III (Division II) to the Companies Act, 2013, as applicable, to the financial statements.

This responsibility also includes maintenance of adequate accounting records for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Company's Internal Control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the management and Board of Directors.
- Conclude on the appropriateness of the management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter - Restriction on Use

These financial statements are prepared for the use of the Company and the holding Company, Tech Mahindra Limited, to comply with the requirements of the Act. These financial statements are not the statutory financial statements of the Company. As a result, these financial statements may not be suitable for any other purpose. Our report must not be copied, disclosed, quoted, or referred to, in correspondence or discussion, in whole or in part to anyone other than the purpose for which it has been issued without our prior written consent.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1 Corporate information

The Company was incorporated on April 29, 2016. The principal place of business of the Company is at 2516, CK, The Hague, Maanplein, 20, The Netherlands. The financial statements are expressed in EURO (EUR).

The principal activities of the Company are financing of the acquisition and constitution of the subsidiary company and enabling the shareholders to fulfill the terms of acquisition in documents including the further capitalisation of the subsidiary and the proposed mandatory tender offer in relation to acquisition of public shareholding of the subsidiary.

The Company is a 60% subsidiary of Tech Mahindra Limited (India).

The financial statements of the Company for the year ended March 31, 2022 were authorised for issue by the Board of Directors on June 16, 2022.

2 Significant accounting policies:

2.1 Statement of Compliance:

The financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, as amended from time to time.

2.2 Basis of preparation of financial statements

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Schedule III (Division II) to the Companies Act, 2013, as applicable, to the financial statements

The Company is not domiciled in India and hence was not incorporated under Companies Act, 2013 or under any previous Company law in India. These financial statements do not constitute a set of statutory financial statements in accordance with local laws of the Country in which the Company is incorporated.

These financial statements are prepared for the use of the Company and the holding Company, Tech Mahindra Limited. to comply with the requirements of the Act.

These financial statements have been prepared under the historical cost convention on an accrual and going concern basis except for certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

The accounting policies adopted in the preparation of these financial statements are consistent with those of the previous year except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. "

The accounting policies adopted in the preparation of these financial statements are consistent with those of the previous year except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy.

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle of 12 months. The Statement of cash flows has been prepared under indirect method.

These financial statements are presented in Euro ("EUR") which is also the Company's functional currency. All amounts have been reported in Euros in thousands, except for share and earnings per share data, unless otherwise stated. Further, amounts which are less than half a thousand are reported as '0'.

2.3 Use of estimates

The preparation of financial statements requires the management of the company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

Critical accounting estimates

Impairment testing

Investments in subsidiary is tested for impairment at least annually and when events occur or changes in circumstances indicate that the recoverable amount of the cash generating units to which these pertain is less than its carrying value. The recoverable amount of Cash Generating Units (CGU) is higher of value-in-use and fair value less cost to dispose. The calculation of value in use of a cash generating unit involves use of significant estimates and assumptions which includes turnover and earnings multiples, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions. Investments in subsidiaries are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss. For the period ended March 31, 2022 no impairment has been charged in books.

2.4 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.5 Revenue recognition

Interest income is recognised using the effective interest rate method.

Dividend income is recognised when the Company’s right to receive dividend is established.

2.6 Earnings per share

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period. For calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

2.7 Foreign currency transactions:

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the dates of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognized in the statement of profit and loss.

2.8 Financial Instruments:

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in statement of profit and loss.

i. Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost using the effective interest method less impairment losses, if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Investment in subsidiaries

Investment in subsidiaries is carried at cost less impairment as per Ind AS 27 Consolidated and Separate Financial Statements.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest rate method or at fair value through profit and loss (FVTPL). Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised in a business combination, or is held for trading or it is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii. Derecognition of financial instruments

"The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company retains substantially all the risk and rewards of transferred financial assets, the Company continues to recognise the financial asset and also recognises the borrowing for the proceeds received. The Company derecognises financial liabilities when, and only when, the Company's obligation are discharged, cancelled or have expired."

iii. Financial Guarantee contracts

Financial guarantee contracts issued by the Company are initially measured at fair value and subsequently measured at the higher of the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 115.

2.9 Taxes on income

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the country. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted as at the reporting date and applicable for the period.

Current and deferred tax are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are recognised in other comprehensive income or directly in equity, respectively.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax asset are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled. Deferred tax assets and liabilities are offset when it relates to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

2.10 Provisions and contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

2.11 Leases:

At inception of the contract, the Company determines whether the contract is a lease or contains a lease arrangement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a Lessee

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate specific to the lease being evaluated for a portfolio of leases with similar characteristics. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in standalone statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

2.12 Recent pronouncements

The Ministry of Corporate Affairs (“”MCA””) notifies new standard or amendments to the existing standards. On 23 March, 2022, MCA amended the Companies (Ind AS) Amendment Rules, 2022, which are applicable from April 1, 2022. The Company does not expect the amendments to have any significant impact on the financial statements.

12 Financial Instruments and Risk Review

The Company's activities expose it to a variety of financial risks i.e. market risk, credit risk and liquidity risk. The Company operates a risk management policy and program that performs close monitoring of and responding to each risk factors. Following are the financial risk factors.

(a) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes.

(b) Liquidity Risk:

Liquidity risk refers to the risk that the company cannot meet its financial obligation. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirement.

Financial liabilities	68	68	68
	93	**93**	**93**

13 The Company has an investment in subsidiary ‘Pininfarina S.p.A. This investment is accounted for at cost less impairment. Management assesses the operations of the subsidiary, including the future projections, to identify indications of diminution, other than temporary, in the value of the investment recorded in the books of account.

In case impairment triggers are identified, the recoverable amount of the investment is estimated in order to determine the extent of the impairment loss. With respect to determination of recoverable amount of investment based on fair value less costs of disposal, the fair value measurement of the asset is determined using the market approach and is categorised as Level 1 in the fair value hierarchy. Estimates of future cash flows used in the value in use calculation are specific to the entity based on business plans and need not be the same as those of market participants.

The share price of the subsidiary and the relevant economic and market indicators in its country of operation, did not require to the Company to reassess recoverable amount of investment in the subsidiary, as on 31 March 2022. Consequently, the Company has not recognized any impairment loss for the year ended 31 March 2022 (31 March 2021: Nil).

14 The Company is engaged in the financing of the acquisition and constitution of the subsidiary company. As the Company is engaged in only one business segment, the balance sheet as at 31 March 2022 and statement of profit and loss for the year ended then pertain to only one business segment.

The Company's operations is primarily located in the Netherlands. As the Company has only one geographical segment, the balance sheet as at 31 March 2022 and statement of profit and loss for the year ended then pertain to only one geographical segment.

15 Additional Regulatory Information

Financial Ratios

Particulars	Numerator (1)	Denominator (2)	31 March 2022 (3)=(1/2)	31 March 2021 (3)=(1/2)	Variance %
Current Ratio (in times)	Total Current Assets	Total Current Liabilities	1.35	1.59	-15%
Return on Equity Ratio (in %)	Net Profit After Tax	Average Shareholders' Equity	-0.05%	-0.20%	-77%*
Trade Payable Turnover Ratio (in times)	Other Expenses	Average Trade Payable	1.50	1.20	25%**
Return on Capital Employed (in %)	Earnings Before Interest & Tax	Average Capital Employed i.e. Average Net Worth of the entity	-0.05%	-0.06%	-23%

*Increase in return on equity ratio is on account of increase in average capital employed and decrease in loss as compared to the previous year.

** Trade Payable turnover ratio has increased on account of decrease in average trade payable as compared to previous year.

INDEPENDENT AUDITORS' REPORT

No.:
The Shareholders,
Board of Commissioners and Directors
PT Tech Mahindra Indonesia:

We have audited the accompanying financial statements of PT Tech Mahindra Indonesia, which comprise the statement of financial position as of 31 March 2022, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of PT Tech Mahindra Indonesia as of 31 March 2022, and its financial performance and its cash flows the year then ended, in accordance with Indonesia Financial Accounting Standards.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2022

1. GENERAL INFORMATION

PT Tech Mahindra Indonesia (the "Company") was established in the Republic of Indonesia in 2006. The Company commenced its commercial operations on May 1, 2006. The Company's head office is located in Ariobimo Sentral Building at Jalan H.R. Rasuna Said Setiabudi, Jakarta Selatan.

The Company is currently engaged in providing Billing and Customer Care System Managed Services.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

a. Statement of compliance

The financial statements have been prepared in accordance with Indonesian Financial Accounting Standards.

b. The Company's directors approved the financial statements for issuance on June 24, 2022

c. Basis of preparation

The financial statements have been prepared on the accrual basis using the historical cost concept, except where the accounting standards require fair value measurement.

d. Functional and presentation currency

The Company's functional currency is Indonesian Rupiah. The financial statements are presented in United States Dollar ("US Dollar/USD").

In preparing the financial statements of the Company, transactions in currencies other than its functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. The resulting gains or losses are credited or charged to profit or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognized in profit or loss in the period in which they arise.

e. Cash equivalents

Short-term time deposits with original maturities of three months or less are considered as cash equivalents.

f. Financial instruments

(i) Financial assets

On initial recognition, a financial asset is classified as measured at amortized cost; fair value through other comprehensive income ("FVOCI") – debt investment; FVOCI – equity investment; or, fair value through profit or loss ("FVTPL").

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

The financial assets that are measured at amortized cost consist of cash and account receivables. These financial assets are initially recognized at fair value plus directly attributable transaction costs, and subsequently are measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Gains or losses on derecognition of these financial assets are recognized in profit or loss.

(ii) Financial Liabilities

Financial liabilities are classified as either measured-at-amortized cost, or at FVTPL. FVTPL financial liability is measured as such if it is classified as held-for-trading, if it is a derivative, or if it is designated as measured-at-FVTPL on initial recognition.

Bank overdraft and account payables are initially recognized at fair value plus transaction costs and subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Gains or losses on derecognition are also recognized in profit or loss.

(iii) Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred: i.e. when control over the financial asset is relinquished.

In transactions where a financial assets is transferred but the risks and rewards associated with ownership are somehow retained the transferred asset is not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled, or otherwise extinguished. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability, based on the modified terms, is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(v) Impairment

The Company recognizes loss allowances for expected credit loss (“ECL”) on financial assets measured at amortized cost.

Measurement of ECLs

ECLs are a probability-weighted estimates of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. The Company measures loss allowances at an amount that reflects the lifetime ECL, except for cash in bank for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition, wherein the loss allowances are determined based on the 12-month ECL.

Loss allowances for trade and other receivables, and for contract assets that are measured at amortized cost, are measured at an amount that represents the lifetime ECL.

g. Leases

At inception of a contract, the Company determines if a contract is, or contains, a lease by considering whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

Company as a lessee

A contract conveys the right to control the use of an identified asset if all of the following conditions are meet:

- the contract involves the use of substantially all of the capacity of an identified asset that is physically distinct (as specified explicitly or implicitly in the contract). If the supplier has a substantive substitution right, then the asset cannot be considered as identifiable;
- the Company has the right to obtain substantially all of the economic benefits from the use of the asset throughout the period of use; and
- the Company has the right to direct the use of the asset: i.e. it has decision-making rights that are most relevant to changing how and for what purpose the asset is used.

At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of fixed assets. In addition, the right-of-use asset is periodically reduced by impairment losses if any and adjusted for certain remeasurements (as described below) of the lease liability.

Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognizes lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognized over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor’s net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, the Company applies PSAK 72, Revenue from Customer Contracts, to allocate the consideration in the contract.

h. Revenue recognition

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services, net of indirect taxes, discounts, rebates, credits, price concessions, incentives, performance bonuses, penalties, or other similar items.

Revenue from time and material contracts is recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as contract assets.

Revenue from fixed price maintenance contracts is recognized based on the right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered. If invoicing is not consistent with value delivered, revenue is recognized as the services are performed. When services are performed through an indefinite number of repetitive acts over a specified period, revenue is recognized on a straight-line basis over the specified period unless some other method better represents the manner in which services are performed.

Revenue on fixed price development contracts is recognized using the ‘percentage of completion’ method of accounting, unless work completed cannot be reasonably estimated. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. If the Company does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the standalone statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

The solutions offered by the Company may include supply of third party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognized gross amount of consideration as revenue when it is acting as a principal and net amount of consideration as revenue when it is acting as an agent.

Contracts assets are recognized when there is excess of revenue earned over billings on contracts.

Contract liability (“unearned revenue”) arises when there are billing in excess of revenue.

In arrangements for hardware and software implementation and integration, related services and maintenance services, the Company has applied the guidance in PSAK 72 by applying the revenue recognition criteria for each distinct performance obligation. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the Company is unable to determine the standalone selling price, the Company uses the expected cost-plus margin approach in estimating the standalone selling price. Fixed price development contracts and related services, the performance obligation is satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

Revenue from licenses where the customer obtains a ‘right to use’ the licenses is recognised at the time the license is made available to the customer. Revenue from licenses where the customer obtains a ‘right to access’ is recognized over the access period. The Company has applied the principles of PSAK 72 to account for revenues for these performance obligations.

i. Income tax

Income tax expense comprises current and deferred corporate income tax. Current tax and deferred tax are recognized in profit or loss except to the extent that they relate to items recognized directly in equity or in other comprehensive income.

Current tax expense is the amount of tax paid, or payable on taxable income or loss for the year, using tax rates substantively enacted as of the reporting date. Current tax also includes true-up adjustments made to the previous years’ tax provisions either to reconcile them with the income tax reported in annual tax returns, or to account for differences arising from tax assessments. Current tax expense is measured using the best estimate of the amount expected to be paid or received, taking into consideration the uncertainty associated with the complexity of tax regulations.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted as of the reporting date. This accounting policy also requires the recognition of tax benefits, such as tax loss carry forwards, which are originated in the current period that are expected to be realized in the future periods, to the extent that realization of such benefits is probable.

Deferred tax assets represent the net remaining balance of deferred tax benefits that have been originated and utilized through the reporting date. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of their realization through future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profit will be available against which they can be used.

3. USE OF JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Critical Judgments in Applying Accounting Policies

In the process of applying the accounting policies described in Note 3, management has not made any critical judgment that has significant impact on the amounts recognized in the financial statements, apart from those involving estimates.

4. CASH AND CASH EQUIVALENTS

In US Dollar	31 March 2022	31 March 2021
Cash in bank	847,021	6,144,101
Short-term time deposits	10,520,174	-
	11,367,195	**6,144,101**

5. ACCOUNT RECEIVABLES

In US Dollar	31 March 2022	31 March 2021
Account receivables arising from revenue generating activities are from:		
Non-related parties	9,988,280	14,561,436
Related parties	19,476	5,633
	10,007,756	**14,567,069**
Allowance for impairment losses	(7,573,963)	(7,493,368)
	2,433,793	**7,073,701**

6. CLAIMS FOR TAX REFUND

In US Dollar	31 March 2022	31 March 2021
March 2017 corporate income tax ("CIT")	739,524	739,524
March 2019 CIT	383,361	539,467
Other tax articles	934,852	1,144,024
	2,057,737	**2,423,015**

On March 2017 CIT, in August 2018 the Company was deemed by the tax office an underpayment of IDR 7,707 million (equivalent to USD 389,270) instead of overpayment of USD 350,254. The Company disagreed with the assessment and in February 2020, has filed an appeal letter. The hearing is ongoing.

On March 2019 CIT, in August 2020 the Company was deemed by the tax office an overpayment of USD 179,223 instead of overpayment of USD 718,790. The Company compensated USD 158,812 to tax payable and write off the remaining USD 20,511 as expense. In December 2020, the Company filed an objection for the remaining unclaimed overpayment amounted to USD 539,467. In December 2021, the Company received refund amounted to USD 156,106 and filed an appeal letter for the remaining unclaimed overpayment amounted to USD 383,361. The hearing is ongoing.

Other tax articles represent various additional tax assessments totaling IDR 13,418 million (equivalent to USD 934,852) deemed by the tax office on VAT and income tax article 26. The Company disagreed with the assessment and has filed an appeal letter. The hearing is ongoing.

7. ACCOUNT PAYABLES

In US Dollar	31 March 2022	31 March 2021
Payables arising from purchase of hardware, software and project related services are to:		
Non-related parties	2,986,641	448,518
Related parties	1,492,116	9,497,582
Sub-contracting and other expenses	3,860,458	4,126,512
	8,339,215	**14,072,612**

8. SHARE CAPITAL

The Company's authorized, issued and paid-up share capital amounted to USD 500,000 (500,000 shares at nominal value of USD 1 per share). Based on Notarial Deed of Jessy Darmawan, S.H., M.Kn., No. 02 dated 7 September 2021, the Company's shareholding as of 31 March 2022 was as follows:

Shareholders	Number of shares	%	Nominal value
Tech Mahindra Limited, India	499,000	99.80	499,000
Mr. Raji Reddy Suluguri	1,000	0.20	1,000
	500,000	**100.00**	**500,000**

The Company's shareholding as of 31 March 2021 was as follows:

Shareholders	Number of shares	%	Nominal value
Tech Mahindra Limited, India	499,000	99.80	499,000
Mr. Manoj Bhat	1,000	0.20	1,000
	500,000	**100.00**	**500,000**

9. REVENUE

The Company generates revenue from sales of hardware and software and provision of maintenance and other services.

In US Dollar	**Year ended 31 March**	
	2022	**2021**
Fixed-price development	174,169	3,419,711
Time and material	10,513,680	3,196,391
Fixed-price maintenance	24,475,409	34,734,297
	35,163,258	**41,350,399**

In US Dollar	**Year ended 31 March**	
	2022	**2021**
Major products/service	27,571,594	26,137,856
Rendering of services transferred over time	7,591,664	15,212,543
Sale of hardware/software transferred at a point in time	**35,163,258**	**41,350,399**

The contract assets primarily relate to the Company's right for consideration for work completed but not billed at the reporting date for its service. The following table provide information about contract assets from contracts with customers:

In US Dollar	**Year ended 31 March**	
	2022	**2021**
Beginning balance	6,802,758	4,431,754
Recognized as revenue	7,930,303	6,802,758
Transferred to receivables	(6,802,758)	(4,431,754)
Ending balance	**7,930,303**	**6,802,758**

The contract liabilities primarily relate to the advance consideration received from customers for periodic maintenance service package, for which revenue is recognized over time. This will be recognized as revenue upon performance of the services. The movement in contract liabilities are as follows:

In US Dollar	Year ended 31 March	
	2022	2021
Beginning balance	529,863	325,150
Addition during the year	145,466	529,863
Recognized as revenue during the year	(529,863)	(325,150)
Ending balance	**145,466**	**529,863**

10. COST OF REVENUE

This account represents the costs incurred in developing the billing and customer care system, which consist of hardware, software and services.

11. OPERATING EXPENSES

In US Dollar	Year ended 31 March	
	2022	2021
Employees' salaries and compensations	7,285,178	6,590,001
Professional fees	673,688	558,036
Telecommunication	641,657	315,018
Recruitment	172,417	75,411
Travel	116,213	216,310
Depreciation	96,937	53,295
General office expenses	54,748	166,048
Bank charges	37,507	36,872
Entertainment expense	35,542	12,753
Insurance	1,807	112,661
Conveyance	1,460	317
Printing and stationery	(158)	1,458
Tax penalties	(36,648)	982,907
Other	457,533	49,425
	9,537,881	**9,170,512**

12. INCOME TAX

In US Dollar	Year ended 31 March	
	2022	2021
Current tax expense:		
Current year	2,281,225	2,120,598
Adjustments to prior years' tax expense	139,104	(40,594)
Deferred tax benefit	(201,198)	(57,407)
	2,219,131	**2,022,597**

Income tax expense is reconciled with profit before tax as follows:

In US Dollar	Year ended 31 March	
	2022	2021
Profit before tax	9,372,979	8,341,472
Statutory tax rate	22%	22%
	2,062,055	**1,835,124**
Non-deductible expenses	177,325	228,067
Effect changes tax rate	(159,353)	-
Adjustments to prior years' tax expense	139,104	(40,594)
Income tax expense	**2,219,131**	**2,022,597**

Recognized deferred tax balances, and the movement thereof during the year comprised of the following:

In US Dollar	31 March 2020	Recognized in profit or loss	Recognized in other comprehensive income	31 March 2021	Recognized in profit or loss	Recognized in other comprehensive income	31 March 2022

Under the taxation laws of Indonesia, the Company submits tax returns on the basis of self-assessment. The tax authorities may assess or amend taxes within the statute of limitations, under prevailing regulations.

The Company's tax positions may be challenged by the tax authorities. The Company's tax positions are formed on sound technical basis, in compliance with the tax regulations. Accordingly, management has assessed that the outstanding refundable taxes can be recovered, and the accruals for potential income tax liabilities is not necessary. This assessment relies on estimates and assumptions and may involve judgment about future events. New information may become available that causes management to change its judgment. Such changes will impact tax expense in the period in which such determination is made.

Pursuant to Law No. 2/2020 the corporate income tax rate is reduced from the previous statutory rate of 25% to 22% for fiscal year 2020 and 2021, and to 20% for 2022 onwards. In October 2021, Law No. 7/2021 amended the provision of Law No. 2/2020, in that the statutory tax rate of 22% applies for fiscal year 2022 and onwards.

13. LEASE RECEIVABLES

The Company has given hardware and software on finance lease. The transaction pertains to purchase of assets from its customer, Prudential, and lease back with lease amount fair valued at IDR 100,123 million (equivalent to USD 6,895,564). The lease period is 7 years from February 2020 to January 2027 and is discounted using an interest rate of 6%. As per the arrangement, on termination event or on closure of contract, Prudential will buy the acquired assets at the unamortized value at the time of such event. There is no collateral pledged in this transaction. The lease receivables as at reporting dates are as follows:

In US Dollar	31 March	
Minimum lease receivables	**2022**	**2021**
- Less than one year	996,517	1,863,469
- One to five years	3,150,596	4,085,726
	4,147,113	**5,949,195**
Present value of minimum lease receivables		
- Less than one year	845,954	1,996,760
- One to five years	2,811,868	3,622,554
	3,657,822	**5,619,314**

14. RELATED PARTY INFORMATION

Nature of Relationship

a. Tech Mahindra Limited, India, is the majority stockholder and the ultimate controlling party of the Company.

b. Comviva Technologies Limited, India, is an entity under common control of the ultimate controlling party.

c. Tech Mahindra ICT Services (Malaysia) SDN. BHD., is an entity under common control of the ultimate controlling party.

d. Key management personnel

- Mr. Pranab Choudhary, Director
- Mr. Manish Goenka, Director
- Mr. Puneet Kumar Chadha, Director

Transactions with Related Parties

The Company has related party transactions with its controlling entity and other entities which are controlled directly or indirectly by the Tech Mahindra Group or over which they exercise significant influence.

a. Account receivables and advances:

c. Total remuneration incurred by the Company for its key management personnel during the years ended 31 March 2022 and 2021 are USD 356,082 and USD 291,763, respectively.

15. SIGNIFICANT AGREEMENT

In 2014, the Company entered into an agreement with PT Hutchison CP Telecommunication (HCPT). The Company, as the Contractor, agreed to provide Billing and Customer Care System (System) Management Services to HCPT. Under the agreement, the Contractor shall supply a complete turnkey delivery of the System, which includes, but not limited to, HCPT Customer Care, order management, provisioning, mediation, product management/catalogue, resource management, billing and invoicing, payment and collection, interconnect accounting, dealer and partner management, fraud management, reporting, revenue sharing and settlement, rating engine, tariff management, account and balance management and voucher management system. The System shall include hardware, software and services. This agreement shall take effect from the effective date on 1 July 2014 and shall expire on the third (3rd) anniversary of the Effective Date (the Initial Term), if not automatically renewed. HCPT may terminate this agreement (in whole or part) at the end of the Initial Term without any cause by giving the Contractor written notice (the Initial Termination Notice) of at least six (6) months prior to the end of the Initial Term. This agreement has been extended until 30 June 2022.

16. FINANCE INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

Financial instruments

Except for lease receivables, the Company's financial assets and liabilities are expected to be realized or settled in the near term. Therefore, their carrying amounts approximate their fair values. For the fair values of lease receivables, please refer to note 13, present value of minimum receivables.

Financial risk management

The main risk arising from the Company's financial instruments are market risk, credit risk and liquidity risk.

i. Market risk management

The Company's market risk is limited to the financial risk of changes in foreign currency rates. Mainly transaction in foreign currency rate was settled in short-term, except for non-trade transaction with related parties. Based on these, management considers that the Company's exposure to market risk is minimal.

ii. Credit risk

Credit risk is the risk of financial loss in the event that a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk principally arises from trade receivables from customers.

The carrying amounts of financial assets represent the maximum credit exposure.

Trade receivables and contract assets

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate.

The Company minimizes its exposure to credit risk of trade receivables and contract assets by assessing and monitoring the credit worthiness of customers. The exposure is also further limited by mandating payment terms of no longer than 60 days.

The Company's most significant customer an Indonesian telecommunications service provider, accounts for USD 2.5 million of the trade receivables and contract assets carrying amount at 31 March 2022 (31 March 2021: USD 3.55 million).

An analysis of the credit quality of trade receivables and contract assets is summarized below:

In US Dollar	31 March	
	2022	2021
Not past due	9,474,933	9,437,214
Less than 90 days past due	829,990	3,186,165
91 days to 1 year past due	58,798	995,202
1 year and above past due	375	257,878
	10,364,096	**13,876,459**

The following table provides information about the exposure to credit risk and ECLs for trade receivables and contract assets as reporting dates:

In US Dollar	31 March 2022		
	Weighted average loss rate	Gross carrying amount	Loss allowance
Not past due	1%	9,474,933	(94,749)
Less than 90 days past due	4%	829,990	(33,200)
91 days to 1 year past due	39%	58,798	(23,166)
1 year and above past due	98%	7,574,338	(7,422,848)
		17,938,059	**(7,573,963)**

In US Dollar	31 March 2021		
	Weighted average loss rate	Gross carrying amount	Loss allowance
Not past due	1%	9,540,437	(103,222)
Less than 90 days past due	3%	3,284,167	(98,002)
91 days to 1 year past due	16%	1,190,277	(195,074)
1 year and above past due	96%	7,354,946	(7,097,070)
		21,369,827	**(7,493,368)**

The movement in the allowance for impairment in respect of trade receivables and contract assets during the year was as follows:

In US Dollar	31 March	
	2022	2021
Balance at 1 April	7,493,368	7,287,313
Amounts written off	(231,273)	(259,523)
Net remeasurement of loss allowance	311,868	465,578
Balance at 31 March	**7,573,963**	**7,493,368**

Cash in banks

The Company's cash in banks are deposited at reputable banks that are subject to tight regulations, therefore, the exposure to loss is minimized.

iii. Liquidity risk management

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company manages liquidity risk by maintaining adequate reserves, monitoring forecast and actual cash flows, and matching the maturity profiles of financial assets and liabilities.

The following are the contractual maturities of financial liabilities:

In US Dollar	Carrying amount	Contractual cash flours within 1 year
31 March 2022		
Account payables	8,339,215	8,339,215
31 March 2021		
Account payables	**14,072,612**	**14,072,612**

Capital risk management

The Company manages capital risk to ensure that it will be able to continue as going concern, in addition to maximizing the profits of the shareholders through the optimization of the balance of debt and equity.

Management periodically reviews the Company's capital structure. As part of this review, management considers the cost of capital and related risk.

NOTES TO THE FINANCIAL STATEMENTS

AT DECEMBER 31, 2021 and 2020

1. NATURE OF OPERATIONS

Mad*Pow Media Solutions, LLC, "the company" is a consulting business that specializes in providing strategic user-centered design services and digital solutions to a diverse client base across various industries throughout the United States. Digital solutions comprise, but are not limited to, assisting clients with customer research, customer experience strategy and design, behavior change, marketing content strategy, mobile application and website development.

The company was converted from a New Hampshire Limited Liability company to a Delaware Limited liability company on July 29th, 2019. Tech Mahindra (Americas) Inc. acquired 65% of the shares of the company on July 31st, 2019. A further 11.66% of the shares of the company was acquired by Tech Mahindra (Americas) Inc. during 2020 and 2021, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF ACCOUNTING

These financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

B. ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires the Company to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. REVENUE RECOGNITION

Revenue from consulting services contracts are recognized as the services are performed and the amounts are earned. The Company considers amounts to be earned once evidence of an arrangement has been obtained, services have been provided, fees are fixed or determinable, and collectability is reasonably assured.

The company further generates revenue by hosting conferences and only recognizes this revenue once the event is held.

Revenues from consulting services and conferences, together with all reimbursed costs for out of pocket expenses are presented on the statement of operations, net of allowances or adjustments for agreed changes to reimbursed costs.

D. COST OF REVENUE

This includes all direct costs for employee and contractors consisting of salaries and contract payments, payroll taxes, insurance costs as well as reimbursable costs such as travel, lodging or entertainment.

All costs associated with hosting conferences are capitalized to prepaid expenses and only recognized as cost of sales once the event has taken place.

E. ADVERTISING AND PROMOTIONS

The Company expenses all costs for advertising and promotions as and when they are incurred. Sales and marketing costs, including direct advertising costs, for the twelve months ending December 31, 2021 and the twelve months ended December 31, 2020, were $99,128 and $74,381 respectively. The composition of these costs were detailed in the supplemental schedule II to the financial statements.

F. INCOME TAXES

A multi-member limited liability company is treated as a partnership for federal income tax purposes and is not subject to federal income taxes. The taxable income or loss of the company is included in the income tax returns of its members based upon their percentage of ownership. Consequently, no federal tax provision for income taxes is required in the accompanying financial statements.

The company pays state taxes to MA and NH, in addition to the state taxes that it pays on behalf of its members through composite tax returns. Accordingly, there is a state tax provision raised for composite taxes which is included in the financial statements when required.

The company accounts for state income taxes using Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Income Taxes. Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740 the effect on the deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company records valuation allowances against deferred tax assets as deemed necessary.

Per FASB ASC 740-10-20, the Company follows the recognition requirements for uncertain tax positions as required by generally accepted accounting principles in the United States of America. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Company has analyzed tax positions taken for filing with all state jurisdictions where it operates.

G. CASH AND CASH EQUIVALENTS

The Company considers all highly-liquid investments with maturities of three months or less to be cash or cash equivalents.

The Federal Deposit Insurance Corporation covers $250,000 for substantially all depository accounts held by a financial institution in the United States of America. As of December 31, 2021 and 2020, the Company had $2,176,324 and $3,068,076 respectively with financial institutions in excess of the federally insured limit.

H. ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

Accounts receivable are the amounts owed on invoiced contractual agreements either in process or completed by the Company. Accounts receivable are considered delinquent when payment is not received under terms described within the individual contract's terms.

An allowance for doubtful accounts is provided for those balances considered to be uncollectible based upon historical experience and the Company's specific review of outstanding account balances. Company policy is that accounts overdue in excess of 120 days and not subject to offsetting is a strong indicator that the receivable has potentially impaired. Management will critically assess each receivable overdue in excess of 120 days for impairment and then raise an allowance if deemed necessary. Bad debts are written off against the allowance when identified. Bad debts written off, for the twelve months ending December 31, 2021 and the twelve months ended December 31, 2020, were $240,398 and $141,753 respectively.

I. UNBILLED RECEIVABLES

Unbilled receivables represent accrued revenue earned and recognized on projects for which billings have not yet been presented to the customer.

J. PROPERTY AND EQUIPMENT

Computers and equipment are recorded at cost less accumulated depreciation, however the depreciation for this category of assets is provided by applying the double declining balance method for the first three years of use of the asset and the straight-line method of the remaining balance for the following two years.

is generally based on the following useful lives:

- Furniture and fixtures – seven years;
- Software – three years;
- Leasehold improvements – lesser of remaining life of lease (including probable lease extensions) or estimated useful life of equipment.

Expenditures for maintenance and repairs are charged to income as incurred. Additions and betterments are capitalized. When assets are retired or otherwise disposed, the related cost and accumulated depreciation are removed from the appropriate accounts and any resulting gain or loss is reflected in operations.

The Company annually reviews the status of property and equipment held by the Company for any impairment of those assets. Any such impairment would result in a permanent reduction in the recorded value of the asset. No such impairments existed at December 31, 2021 and 2020.

K. RELATED PARTIES

Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise). Transactions involving related parties are carried out on an arm's length basis.

L. LEASES

The company determines if an arrangement is a lease at inception of the arrangement. These leases are classified as either an operating lease or a finance lease. Based on the evaluation of leases for the period ended December 31, 2021, no leases meet the criteria for classification as a finance lease. Operating leases are capitalized on the balance sheet through a right-of-use ("ROU") asset and a corresponding lease liability. ROU assets represent the company's right to use an underlying asset for the lease term, and lease liabilities represent the obligation to make lease payments arising from the lease.

Operating leases are included in operating lease ROU assets, current operating lease liabilities, and long-term operating lease liabilities on the balance sheet. Operating lease ROU assets and liabilities are recognized at the commencement date of an arrangement based on the present value of lease payments over the lease term. The operating lease ROU asset also includes any lease payments made to the lessor prior to lease commencement, less any lease incentives, and initial direct costs incurred. Lease expense for operating lease payments is recognized on a straight-line basis over the lease term.

The company enters into long-term contracts to lease office space in support of company operations and these have all been determined to represent operating leases.

3. ACCOUNTS RECEIVABLE, NET

At December 31, accounts receivable balances were as follows:

	2021	2020
Amounts due for services rendered and billed	**$ 2,490,076**	$ 2,553,989
Less: allowance for doubtful accounts	**(57,624)**	(199,388)
Amounts due for services rendered and billed, net	**2,432,452**	2,354,601
Amounts due for services rendered, not billed	**188,281**	455,367
Total accounts receivable, net	**$ 2,620,733**	$ 2,809,968

4. TRANSACTIONS WITH RELATED PARTIES

During the year, the Company had transactions with Tech Mahindra Limited, India ("TML"). At December 31, the Company had receivables due from TML as follows:

	2021	2020
Beginning balance	**304,052**	105,484
Contract revenue - parent company		
Billed income	**4,137,832**	$ 1,353,824
Unbilled revenue	**64,620**	129,880
Receipts	**(2,951,301)**	(1,285,136)
Ending balance, due from	**$ 1,555,203**	$ 304,052

On December 31, the Company had a mandatory obligation in terms of the operating agreement to distribute to each member an amount equal to the estimated state and federal income taxes on income earned by the Company and allocated to such member for each fiscal quarter. This is calculated using the marginal rate for taxes.

Ending balance, due to	**$ -**	$ 754,066

5. OPERATING LEASES

In February 2016, the FASB issued Accounting Standards Update No. 2016-02 (Topic 842) “Leases.” Topic 842 supersedes the lease requirements in Accounting Standards Codification Topic 840, “Leases.” Under Topic 842, lessees are required to recognize assets and liabilities on the balance sheet for most leases and provide enhanced disclosures. Leases will continue to be classified as either finance or operating.

The company adopted Topic 842 effective August 1, 2019. The most significant effects of Topic 842 were the recognition of right of use assets and of operating lease liabilities. We applied Topic 842 to all leases as of August 1, 2019. In the adoption of Topic 842, we carried forward the assessment from Topic 840 of whether our contracts contain or are leases, the classification of our leases, and remaining lease terms. The standard does not have a significant effect on our consolidated results of operations and cash flows.

On August 31, 2017 the Company entered into a building lease with Invesco IF IV U.S.3,LLC, for business use and occupancy of office space in Boston, Massachusetts. The lease was an extension of an existing lease dated June 8, 2012. The lease was extended beyond December 31, 2019 and is now effective until December 31, 2027. The new lease extension also stipulates the inclusion of additional floor space to that which was stipulated in the original lease. The lease is subject to an annual increase as stipulated in the agreement applied from April 1st, 2020. In addition to the rental payable the company will also be responsible to pay certain recoveries of operational costs and taxes. The company has accounted for this new lease at December 31, 2021 and 2020, in terms of the policies in Note 2L of the accounting policies disclosed above.

On September 5, 2018 the Company entered into a building lease with Wenberry Associates,LLC., for business use and occupancy of office space in Portsmouth, New Hampshire. The lease was an extension of an existing lease dated November 18, 2009. The lease was extended beyond December 31, 2018 and is now effective until December 31, 2023. The lease is subject to an annual increase at a rate equal to the Consumer Price Index for All Urban Consumers, but shall not exceed 3% in any year. In addition to the rental payable the company will also be responsible to pay certain recoveries of operational costs and taxes. The company has accounted for this new lease at December 31, 2021 and 2020, in terms of Note 2L of the accounting policies disclosed above.

Rent expense for all properties rented for the twelve months ended December 31, 2021 was $687,575. The future minimum lease commitments are as follows:

Years ending December 31,	**$**
2022	685,916
2023	700,015
2024	548,600
2025	559,000
2026	569,400
2027	580,667

6. PROPERTY AND EQUIPMENT, NET

At December 31, property and equipment balances were as follows:

	2021	2020
Computers and equipment	**$ 379,586**	$ 967,892
Furniture	**95,500**	291,062
Leasehold improvements	**614,973**	614,973
Software	**52,167**	137,385
Less: accumulated depreciation	**(724,447)**	(1,536,551)
	$ 417,779	$ 474,761

The total depreciation expense recognized for the twelve months ending December 31, 2021 and for the twelve months ending December 31, 2020 was $139,528 and $183,409 respectively. The depreciation policies followed by the Company are disclosed in Note 2J above.

7. SHORT-TERM DEBT AND LINE OF CREDIT FACILITY

On June 2, 2012, the Company entered into a line of credit agreement for $750,000 with People's United Bank (the "Bank"). The line is collateralized by the assets of the Company and the balance outstanding on this line at December 31, 2019 was $550,000 and was fully repaid during the year ended December 31, 2020.

Additionally, on August 20, 2015 the Company entered into an term loan agreement with the Bank for an amount of $250,000. The loan is collateralized by the assets of the Company and the balance outstanding at December 31, 2019 was $36,416 and was fully repaid during the year ended December 31, 2020.

	2021	2020
Opening Balance - Line of credit	**$ -**	$ 550,000
Proceeds	**-**	-
Interest		2,957
Repayments made		(552,957)
Balance at December 31, of outstanding line of credit	**$ -**	$ -
Opening Balance - Term loan	**$ -**	$ 36,416
Interest		468
Repayments made		(36,884)
Balance at December 31, of outstanding term loan	**$ -**	$ -
Total short term debt and line of credit	**$ -**	$ -

8. INCOME TAXES

The company accounts for state income taxes under the provisions of the FASB ASC 740, Income Taxes , as noted in Note 2F the company does not accounts for Federal Income Taxes.

	2021	2020
Current state income tax expense / (benefit) consists of the following:		
Business enterprise tax	**$ 26,715**	$ 32,859
Other State taxes	**(33,582)**	94,092
	$ (6,867)	$ 126,951
Deferred state income tax (benefit) / expense consists of the following:		
Other State taxes	**$ (8,594)**	$ 7,472
	(8,594)	7,472
Total current and deferred state income tax (benefit) / expense	**$ (15,461)**	$ 134,423
Deferred tax liability consists of the following:		
Other State taxes	**$ 72,252**	$ 80,846

In the ordinary course of business there are transactions with affiliated companies that affect the calculation and estimation of the Company's tax liability. Although management believes that the Company's tax estimates are reasonable, there is no assurance that the final determination of tax liability will not be different from what is reflected in the Company's historical income tax provisions and accruals.

The Company does not anticipate any amount to be recognized related to the Company's uncertain tax position.

9. MEMBERS' EQUITY

On July 29, 2019, Tech Mahindra (Americas), Inc. ("TMA") entered into an agreement with the members of the Company whereby it acquired 65% of the shares in the company. Under this agreement TMA will purchase the balance of the shares over the next three years and thus purchased an additional 11.66% during the 2020 and 2021 years. At December 31, 2021 three individuals, resident in the State of New Hampshire ("minority shareholders") continue to hold the remaining minority interest in the Company at 11.66%.

10. COMMITMENTS AND CONTINGENCIES

CONTINGENT LIABILITY

The Company received notice from the State of New Hampshire Department of Revenue and Administration on February 18, 2020 of revised Business Tax Assessments based on the findings of their audit. The Company has subsequently appealed to the notice and are confident that their objection will be successful, however the Company cannot reasonably predict the ultimate outcome. The amount of the additional taxes levied for the fiscal years ending December 31, 2018, 2017 and 2016 were $ 15,017, $ 10,418 and $ 11,175 respectively.

11. CONCENTRATION OF CREDIT RISK

REVENUE AND ACCOUNTS RECEIVABLE

The majority of the Company's sales are credit sales and terms offered to customers vary according to the credit risk profiles of, and the invoicing conventions established in, the entity's markets. The contractual terms on invoices issued to customers vary and are payable upon receipt or immediate to within 120 days.

Aging analysis of gross trade receivables, is as follows:

	2021	2020
Less than 30 days	**$ 1,675,860**	$ 2,113,691
Between 30 and 60 days	**639,990**	160,896
Between 60 and 120 days	**116,602**	80,014
More than 120 days (provided for in full)	**57,624**	199,388
	$ 2,490,076	$ 2,553,989

The following are customer concentration for sales for the year ended December 31, 2021 and billed accounts receivable as at December 31, 2021.

Billed Revenue concentration for the 12 months ended December 31, 2021:

	$	**Concentration**
Abbvie	1,535,516	9%
Humana	1,351,733	8%
Electrolux	1,291,902	8%
Otsuka	801,085	5%

Billed accounts receivable concentrations as at December 31, 2021:

	$	**Concentration**
Abbvie	582,849	23%
Electrolux	271,315	11%
BCBSA	251,000	10%
Teva Pharmaceutical Industries	206,643	8%

The following are customer concentration for sales for the year ended December 31, 2020 and billed accounts receivable as at December 31, 2020.

Billed Revenue concentration for the 12 months ended December 31, 2020:

	$	**Concentration**
Humana	2,462,821	15%
Boston Scientific	1,825,634	11%
Unum	1,380,800	8%
Electrolux	1,353,824	9%
Assurant	1,072,663	7%

Billed accounts receivable concentrations as at December 31, 2020:

	Amount, $	Concentration
Humana	549,306	22%
Boston Scientific	315,974	12%
Unum	288,312	11%
Electrolux	240,919	9%
Assurant	239,885	9%

12. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is defined under Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures" ("ASC 820"), as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a three-level hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

Level 1–inputs to the valuation methodology are quoted prices (unadjusted) for an identical asset or liability in an active market.

Level 2–inputs to the valuation methodology include quoted prices for a similar asset or liability in an active market or model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability.

Level 3–inputs to the valuation methodology are unobservable and significant to the fair value measurement of the asset or liability.

The carrying amounts of cash, accounts receivable and accounts payable approximate fair value due to the short-term maturity of the instruments. The carrying amounts of the Company's floatable interest rate debt are considered reasonable estimates of fair value.

13. EMPLOYEE BENEFITS

DEFINED CONTRIBUTION PLANS

The Company sponsored defined contribution plans in which eligible participants may defer a fixed amount or a percentage of their eligible compensation, subject to limitations, pursuant to Section 401(k) of the Internal Revenue Code. The Company made discretionary matching contributions of eligible compensation. Contributions are discretionary and evaluated annually. Aggregate contributions charged to operations, including discretionary amounts, for the twelve months ending December 31, 2020 was $290,644 and for the twelve months ending December 31, 2021 was $251,837.

14. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through March 14, 2022. No significant events occurred subsequent to the balance sheet date that would have a material impact on the financial statements.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2022

1. NATURE OF OPERATIONS

Tech Mahindra Consulting Group Inc (formerly know as Objectwise ('OW')), based in Toronto, Canada specializes in enterprise project delivery by offering IT Staff Augmentation & Professional services and PEGA development services.

Key service offerings: Primarily staff augmentation and professional services. Resource skills include Cards & Payment SME, Pega Technology, & Blueprism Robotics.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF ACCOUNTING

These financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in Canada (Canadian GAAP). Revenue is recognized based on accrual method of accounting

B. ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with Canadian Accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

C CASH AND CASH EQUIVALENTS

The Company considers all highly-liquid investments with maturities of three months or less to be cash or cash equivalents.

D ACCOUNTS RECEIVABLE AND ALLOWANCE FOR BAD DEBTS

Accounts receivable are the amounts owed on invoiced contractual agreements either in process or completed by the Company. Accounts receivable are considered delinquent when payment is not received under terms described within the individual contract's terms.

An allowance for doubtful accounts is provided for those balances considered to be uncollectible based upon historical experience and the Company's specific review of outstanding account balances. Company policy is that accounts overdue in excess of 365 days is an indicator that the receivable has potentially impaired. Bad debts are written off against the allowance when identified.

E UNBILLED RECEIVABLES

Unbilled receivables represent accrued revenue earned and recognized on projects for which billings have not yet been presented to the customer.

F RELATED PARTIES

All companies within the Group are considered to be related parties. Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise).

3 ACCOUNTS RECEIVABLE, NET

At March 31, 2022 and 2021, accounts receivable balances were as follows:

	March 31, 2022	March 31, 2021
Amounts due for services rendered and billed	682,732	1,061,307
Less: allowance for doubtful accounts	-	-

NOTES TO THE FINANCIAL STATEMENTS AT MARCH 31, 2022 AND MARCH 31, 2021

1. NATURE OF OPERATIONS

Tech Mahindra Credit Solutions Inc (the "Company" or "TMCSI") is a wholly owned subsidiary of Tech Mahindra (Americas) Inc. ("TMA"). The Company was incorporated in the State of Delaware on August 17, 2020. The Company is engaged in the business of providing software development services onsite for clients across the United States of America.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PREPARATION

The Company has adopted the Financial Accounting Standards Board (FASB) Codification (Codification or ASC). The Codification is the single official source of authoritative accounting principles generally accepted in the United States of America (U.S. GAAP) recognized by the FASB to be applied by non-governmental entities. All of the Codification's content carries the same level of authority.

B. BASIS OF ACCOUNTING

These financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

C. ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

D. REVENUE AND EXPENSES

The Corporation determines the amount of revenue to be recognized through application of the following steps:- Identification of the contract, or contracts with a customer;

- Identification of the performance obligations in the contract;

- Determination of the transaction price;

- Allocation of the transaction price to the performance obligations in the contract; and

- Recognition of revenue when or as the Corporation satisfies the performance obligations.

Expenses are recorded when incurred.

E. CASH AND CASH EQUIVALENTS

The Company considers all highly-liquid investments with maturities of three months or less to be cash or cash equivalents.

F. RELATED PARTIES

All companies within the Group are considered to be related parties. Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise).

3. TRANSACTIONS WITH PARENT COMPANY

During the period ended March 31, 2022 and 2021, the Company had transactions with Tech Mahindra (Americas) Inc. (“”TMA””).

At March 31, 2022 and 2021 the Company had payables due to TMA as follows:

	2022	2021
Beginning balance, due to	$-	$-
Cost of services from TML	$-	-
Reimbursements	$20,440	-
Payments to parent company	$-	-

Amounts due to parent company	$(20,440)	$-
Amounts due from TML	-	-
	$(20,440)	$-

Amounts due to and receivable from TMA are interest free and payable on demand.

4. LITIGATION AND CONTINGENCIES

The Company is not involved in any legal proceedings in the ordinary course of its business.

5. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through May 9, 2022. No significant events occurred subsequent to the balance sheet date that would have a material impact on the financial statements.

NOTES TO THE FINANCIAL STATEMENTS AT MARCH 31, 2022

1. NATURE OF OPERATIONS

Eventus Solutions Group, LLC ("the Company") filed articles of organization with the Colorado Secretary of State on April 8, 2009 as a Limited Liability Company. The Company provides implementation, consulting, managed services, business strategies and management practices to large corporate and governmental clients throughout the United States.

The Tech Mahindra (Americas) Inc. ("TMA") acquired 100% of the equity shareholding in Eventus Solutions Group, LLC on June 18, 2021. The total purchase consideration is $44 million, adjusted for net debt and working capital, out of which $32 million was payable upfront. The remaining amount is linked to the retention and performance of key employees, financial performance and downstream revenue targets which will be paid out over the next two years.

On July 9, 2018, Eventus registered a subsidiary in the United Kingdom. The subsidiary was dissolved in September 2021.

The corporate headquarters and facilities are located at 9777 Pyramid Court Suite 160, Englewood, Colorado 80112.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF ACCOUNTING

These financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

The current financial statements are prepared for the 9 months and 12 days from June 19, 2021 to March 31, 2022.

B. USE OF ESTIMATES IN PRESENTATION OF FINANCIAL STATEMENTS

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates and assumptions made by management include the determination of recognition of revenue, valuations of privately held equity securities and depreciation of assets recognized. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable, the result of which forms the basis for making judgments about the carrying values of assets and liabilities. Actual results could differ from those estimates.

C. REVENUE RECOGNITION

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which requires a company to recognize revenue when the company transfers control of promised goods and services to the customer. Revenue is recognized in an amount that reflects the consideration a company expects to receive in exchange for those goods or services. A company also is required to disclose sufficient quantitative and qualitative information to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers.

The Company adopted the provisions described in ASU 2014-09, Revenue from Contracts with Customers, also referred to as Topic 606. The Company adopted the standard using the full retrospective method. The impact of Topic 606 on reported revenue results was not material.

The Company determines the amount of revenue to be recognized through application of the following steps:

- Identification of the contract, or contracts with a customer;

- Identification of the performance obligations in the contract;

- Determination of the transaction price;

- Allocation of the transaction price to the performance obligations in the contract; and

- Recognition of revenue when or as the Company satisfies the performance obligations.

D. COST OF REVENUE

This includes all direct costs for employee and contractors consisting of salaries and contract payments, payroll taxes, insurance costs as well as reimbursable costs such a travel, lodging or entertainment.

E. ADVERTISING

The Company expenses all costs for advertising as and when they are incurred. Advertising costs, for the period ending March 31, 2022 was $190,006.

F. INCOME TAXES

The Company has elected to be taxed as a C Corporation as of January 2014. Income taxes are accounted for using the asset and liability method, whereby, deferred taxes are recognized for the tax consequences or “temporary differences” by applying enacted statutory tax rates applicable to future years to differences between the financial statement carrying amount and the tax bases of existing assets and liabilities. The effect on deferred taxes for a change in tax rates is recognized in income in the period that includes the enactment date. In addition, future tax benefits are recognized when the realization of such benefits is more likely than not.

The company pays state taxes to MA and NH, in addition to the state taxes that it pays on behalf of its members through composite tax returns. Accordingly, there is a state tax provision raised for composite taxes which is included in the financial statements when required.

The company accounts for income taxes using Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Income Taxes. Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740 the effect on the deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company records valuation allowances against deferred tax assets as deemed necessary.

Per FASB ASC 740-10-20, the Company follows the recognition requirements for uncertain tax positions as required by generally accepted accounting principles in the United States of America. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Company has analyzed tax positions taken for filing with all state jurisdictions where it operates.

G. CASH AND CASH EQUIVALENTS

Cash and cash equivalents represents current accounts and demand deposits held at financial institutions. The Company considers all highly liquid investments with a maturity, when purchased, of three months or less to be cash equivalents. Cash equivalents include short-term highly liquid investments of sufficient credit quality that are readily convertible to known amounts of cash and have original maturities of three months or less. Cash equivalents are carried at cost, plus accrued interest, which approximates fair value. Cash equivalents are held to meet short-term liquidity requirements, rather than for investment purposes. Cash and cash equivalents are held at major financial institutions and are subject to credit risk to the extent those balances exceed applicable Federal Deposit Insurance Corporation (FDIC) limitations.

H. ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

Accounts receivable are the amounts owed on invoiced contractual agreements either in process or completed by the Company. Accounts receivable are considered delinquent when payment is not received under terms described within the individual contract’s terms.

An allowance for doubtful accounts is provided for those balances considered to be uncollectible based upon historical experience and the Company’s specific review of outstanding account balances.

I. UNBILLED RECEIVABLES

Unbilled receivables represent accrued revenue earned and recognized on projects for which billings have not yet been presented to the customer.

J. PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost less accumulated depreciation. Depreciation is provided using the straight-line method and is generally based on the following useful lives:

• Computer equipment – five years;

• Security hardware – three to five years

• Leasehold improvements – five to thirty-nine years

• Furniture and fixtures – five to seven years

Expenditures for maintenance and repairs are charged to income as incurred. Additions and betterments are capitalized. When assets are retired or otherwise disposed, the related cost and accumulated depreciation are removed from the appropriate accounts and any resulting gain or loss is reflected in operations.

The Company annually reviews the status of property and equipment held by the Company for any impairment of those assets. Any such impairment would result in a permanent reduction in the recorded value of the asset. No such impairments existed at March 31, 2022.

K. RELATED PARTIES

Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise). Transactions involving related parties are carried out on an arm's length basis.

L. NEW STANDARD AND INTERPRETATION: LEASES

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, "Leases (Topic 842)" ("ASU 2016-02"), which requires lessees to record most leases on their balance sheets but recognize the expenses on their statements of operations in a manner similar to current accounting rules. ASU 2016-02 states that a lessee would recognize a lease liability for the obligation to make lease payments and a right-to-use asset for the right to use the underlying asset for the lease term. The new standard is effective, per accounting standard update 2020-05, for interim and annual periods beginning after December 15, 2021 (i.e. calendar periods beginning on January 1, 2022) on a modified retrospective basis. The Company elected not to early adopt this new standard and expect the standard to have a material impact on its financial statements. The most significant effects relate to the recognition of the new Right of use (""ROU"") asset and lease liability on the balance sheet for operating leases attached to real estate. For operating leases, the lease liability is initially and subsequently measured at the present value of the unpaid lease payments at the lease commencement date. For finance leases, the lease liability is initially measured in the same manner and date as for operating leases and is subsequently measured at amortized cost using the effective-interest method. Key estimates and judgments include how the Company determines the discount rate it uses to discount the unpaid lease payments to present value, lease term and lease payments.

M. PREPAID EXPENSES AND OTHER CURRENT ASSETS

Prepaid expenses and other current assets consist of prepaid rent, insurance and prepaid subcontractor expenses.

N. FAIR VALUE - DEFINITION AND HIERARCHY

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The valuation techniques used by the Company to determine fair value are consistent with the income approaches. The Company determines fair value based on assumptions that market participants would use in pricing an asset or liability in the principal or most advantageous market.

When considering market participant assumptions in fair value measurements, the following fair value hierarchy distinguishes between observable and unobservable inputs, which are categorized in one of the following levels:

- Level 1 – Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access

- Level 2 – Valuations based on inputs, other than quoted prices included in Level 1, that are observable either directly or indirectly
- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement."

Fair value is a market-based measure, based on assumptions of prices and inputs considered from the perspective of a market participant that are current as of the measurement date, rather than an entity-specific measure. Therefore, even when observable inputs are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date.

The availability of valuation techniques and observable inputs can vary from investment to investment and are affected by a wide variety of factors, including the type of investment, whether the investment is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the investments existed. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for investments categorized in Level 3. In some cases, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In such cases, the fair value measurement is generally categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

O. COMMITMENTS AND CONTINGENCIES

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

3. CASH AND CASH EQUIVALENTS

As of March 31, 2022, cash and cash equivalents consisted of the following:

	March 31, 2022
Cash with banks	$5,314,014
	5,314,014

The Company places its cash on deposit with financial institution in the United States of America. Cash and cash equivalents are subject to credit risk to the extent those balances exceed applicable Federal Deposit Insurance Corporation limitations. The Federal Deposit Insurance Corporation covers $250,000 for substantially all depository accounts held by a financial institution in the United States of America. As of March 31, 2022, the Company had $5,064,014 with financial institutions in excess of the federally insured limit.

4. ACCOUNTS RECEIVABLE, NET

At March 31, 2022, accounts receivable balances were as follows:

	March 31, 2022
Amounts due for services rendered and billed	$10,030,870
Allowance for credit notes	-
Amounts due for services rendered and billed, net	10,030,870
Amounts due for services rendered, not billed	$1,306,726
	11,337,596

Bad debt write-off was zero for the period ended March 31, 2022.

5. TRANSACTIONS WITH RELATED PARTIES

During the year, the Company had transactions with its members and affiliated companies. At March 31, 2022, the Company had payables due (to) from related parites as follows:

Tech Mahindra (Americas) Inc.	**March 31, 2022**
Phantom shareholder payout at acquistion of the Company	3,615,605.00
Phantom shareholder payout in February 2022	605,717
Closing balance	**4,221,322**

Tech Mahindra Limited	**March 31, 2022**
Revenue from services	678,386
Expenses Payable	(593,140)
Closing balance,net	**85,246**

Activus Connect, LLC	**March 31, 2022**
Revenue from services	18,135
Payments made	899,071
Expense	(2,238,041)
Closing balance	**(1,320,835)**
Total amounts due to related parties	$(1,913,975)
Total amounts due from related parties	$4,899,708
	2,985,733

6. INVESTMENT AVAILABLE FOR SALE SECURITIES

As of March 31, 2022, equity securities consisted of the following:

	March 31, 2022
RBC Wealth Management (*)	$-
	$-

7. INCOME TAXES

The Company accounts for income taxes under the provisions of the FASB ASC 740, Income Taxes, as described in Note 2F above.

	March 31, 2022
Current income tax expense consists of the following:	
Federal	1,168,946
State	256,285
	$1,425,231

	March 31, 2022
Deferred income tax benefit consists of the following:	74,550
Federal through profit and loss	-
Federal through other comprehensive income	16,918
State through profit and loss	-
State through other comprehensive income	$91,468
	$1,516,699
Total current and deferred state income tax expense (benefit)	**$985,540**

	March 31, 2022
Deferred tax asset (liability) consists of the following:	
Federal	(25,633)
State	(5,819)
	$(31,452)

In the ordinary course of business there are transactions that affect the calculation and estimation of the Company's tax liability. Although management believes that the Company's tax estimates are reasonable, there is no assurance that the final determination of tax liability will not be different from what is reflected in the Company's historical income tax provisions and accruals.

The Company does not anticipate any amount to be recognized related to the Company's uncertain tax position.

8. PROPERTY AND EQUIPMENT, NET

At March 31, 2022, property and equipment balances were as follows:

	March 31, 2022
Computer equipment	832,379
Security equipment	249,883
Leasehold improvements	152,650
Furniture and fixtures	11,457
Less: accumulated depreciation	**(948,499)**
	$297,870

The total depreciation expense recognized for the period ending March 31, 2022 was $88,756. The depreciation policies followed by the Company are disclosed in Note 2J above.

9. OTHER ACCRUED EXPENSES

Other accrued expenses consisted of the following at March 31, 2022:

	March 31, 2022
Accrued commissions	971,605
Accrued payable	742,975
Deferred rent	37,511
Accrued insurance	17,074
Total	**$1,769,165**

10. MEMBER'S EQUITY

Class A Units	**March 31, 2022**
Issued number of units	1,251,500

Tech Mahindra (Americas) Inc. ("TMA") acquired 100% of the equity shareholding in Eventus Solutions Group, LLC on April 26, 2021. The total purchase consideration is $44 million, adjusted for net debt and working capital, out of which $32 million was payable upfront. The remaining amount is linked to the retention and performance of key employees, financial performance and downstream revenue targets which will be paid out over the next two years.

11. SHORT-TERM DEBT AND LINE OF CREDIT FACILITY

The Company had a $500,000 commitment for a commercial line-of-credit from JP Morgan Chase Bank, NA with variable interest based on changes in the LIBOR Rate plus 4.68%. The facility was secured by a security interest in all business assets, inventory, equipment, accounts and other general intangibles, whether now owned or hereafter acquired, and the personal guarantees of the members. The facility was closed on May 13, 2021.

12. COMMITMENTS AND CONTINGENCIES

The Company has one non-cancellable operating lease, primarily for office space that expire over the next three years. The Company leases its facility from an unrelated party. The facility is leased and located in a commercial building and was entered into on February 1, 2017. The lease expires on May 31, 2023. The initial lease rate per square foot ranges from $23.00 for a monthly commitment of $25,795 and escalates to $25.50 per square foot or $28,598 per month in the final year.

Total lease cost for the period ended March 31, 2022 amounted to $282,397.

Maturities of operating lease liabilities under non-cancellable leases as of March 31, 2022 are as follows:

	March 31, 2022
In 1 year	342,056
In 2 to 5 years	57,196
Thereafter	-
Total undiscounted lease payments	**399,252**
Less: imputed interest	(6,342)
Net present value of lease commitments	**392,910**

Based on current known facts and circumstances, the Company currently believes that any liabilities ultimately resulting from ordinary course claims and proceedings will not individually or in aggregate, have a material adverse effect on the Company's financial position, results of operations or cash flows.

13. CONCENTRATION OF CREDIT RISK

REVENUE AND ACCOUNTS RECEIVABLE

The majority of the Company's sales are credit sales and terms offered to customers vary according to the credit risk profiles of, and the invoicing conventions established in, the entity's markets. The contractual terms on invoices issued to customers vary and are payable upon receipt or immediate to within 60 days.

Aging analysis of gross trade receivables, is as follows:

	March 31, 2022
Less than 30 days	6,391,032
Between 30 and 60 days	2,617,257
Between 60 and 120 days	221,654
More than 120 days	800,927
	$10,030,870

The following are customer concentration for sales for the period ended March 31, 2022 and accounts receivable as at March 31, 2022.

Revenue concentration for the period ended March 31, 2022:

	Amount, $	Concentration
Customer 1	10,758,123	27%
Customer 2	3,876,199	10%
Customer 3	2,402,991	6%
Customer 4	2,389,340	6%
Customer 5	1,882,958	5%

Accounts receivable concentrations as at March 31, 2022:

	Amount, $	Concentration
Customer 1	2,251,655	20%
Customer 2	1,440,239	13%
Customer 7	999,134	9%
Customer 12	683,054	6%
Customer 4	547,820	5%

14. EMPLOYEE BENEFITS

EMPLOYEE BENEFIT PLAN

The Company adopted a qualified retirement plan designed as the Eventus 401(k) Profit Sharing Plan and Trust, to be effective January 1, 2011. All full and part-time employees over the age of 21 who have completed six months of service are eligible to participate in the plan. Employer contributions are allocated based on qualified wages to those employees who are employed on the last day of the plan year. By resolution of the Board of Directors, effective January 1, 2011, the plan was amended to include a “safe harbor” provision, whereby 3% of qualified wages would be contributed. A further modification, effective January 1, 2020, the plan was amended to modify the “safe harbor” provision to 100% match the first 3% and 50% match for the next 2% with a maximum potential match of 4%. Included in employee benefits for 2022 are Company contributions in the amount of $439,687.

15. FAIR VALUE HIERARCHY

The fair values of the Company’s financial assets and liabilities by category as at March 31, 2022 were as follows:

	Level 1	Level 2	Level 3	Total
Assets				
Accounts with banks	-	5,314,014	-	5,314,014
Equity securities	-	-	-	-
Total	**-**	**5,314,014**	**-**	**5,314,014**

16. SUBSEQUENT EVENTS

Management has evaluated subsequent events through June 13, 2022, the date the financial statements were available to be issued.

No further significant events occurred subsequent to the balance sheet date but prior to June 13, 2022 that would have a material impact on the financial statements.

The above statement has not been audited and should be read in conjunction with the accompanying notes.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

1. Corporate information

The reporting entity is Tenzing Limited (the “Company”). It is profit orientated and is registered under the Companies Act 1993. The Company is a reporting entity for the purposes of the Financial Reporting Act 2013 and its financial statements comply with that Act.

The Company’s primary activity is management and technology consulting services.

2. Summary of significant accounting policies

The financial statements have been prepared using the significant accounting policies and measurement bases summarised below.

a) Basis of preparation

The Company has adopted the New Zealand equivalents to International Financial Reporting Standards - Reduced Disclosure Regime (“NZ IFRS – RDR”) as set out in the External Reporting Board’s “Accounting Standards Framework”.

The financial statements are general purpose financial statements that have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand (“NZ GAAP”). They comply with New Zealand equivalents to International Financial Reporting Standards (“NZ IFRS”) and other applicable financial reporting standards as appropriate for profit-oriented entities. The Company has reported under NZ IFRS – Reduced Disclosure Regime of the External Reporting Board as the Company is a for-profit Tier 2 entity for financial reporting purposes on the basis that it does not have public accountability and is not a large for-profit public sector entity. The financial statements have been prepared in accordance with the requirements of the Companies Act 1993 and the Financial Reporting Act 2013.

The financial statements have been prepared on the basis of historical cost, being based on the fair values of the consideration given in exchange for assets. The financial statements have been prepared under the assumption that the Company operates on a going concern basis.

Certain prior year amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results of operations.

b) Changes in accounting policy

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of the following new accounting standards that came into effect during the current year.

The Company has adopted NZ IFRS 16 from 1 April 2019, recognising a right-of-use asset and related lease liability. The Company has not restated comparatives for the 2019 reporting period, as permitted under the modified retrospective approach. The reclassifications and the adjustments arising from the new standard are therefore recognised in the opening balance sheet on 1 April 2019.

On adoption of NZ IFRS 16, the Company recognised lease liabilities in relation to leases which had previously been classified as ‘operating leases’ under the principles of NZ IAS 17 Leases. On adoption of NZ IFRS 16, these liabilities were measured at the present value of the remaining lease payments, discounted using the interest rate implicit in the lease of 7%.

c) Foreign currency translation

(i) Functional and presentation currency

Both the functional and presentation currency of the Company is New Zealand dollars ($).

(ii) Transactions & balances

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

d) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

e) Financial instruments

Recognition and derecognition

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

Financial assets

Financial assets principally consist of the Company's cash and cash equivalents and trade and other receivables. After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. Trade receivables, which generally have 30-90-day terms, are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less an allowance for any uncollectible amounts. An allowance for credit losses is made when there is objective evidence that the Company will not be able to collect the debt. Credit losses are written off during the period in which they are identified.

Financial liabilities

As the accounting for financial liabilities remains largely the same under NZ IFRS 9 compared to NZ IAS 39, the Company's financial liabilities were not impacted by the adoption of NZ IFRS 9. The Company's financial liabilities include trade and other payables.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Company designated a financial liability at fair value through profit or loss. Subsequently, financial liabilities are measured at amortised cost using the effective interest method.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

f) Property, plant and equipment

All property, plant and equipment are initially recognised at acquisition cost or manufacturing cost, including any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the Company's management. This also includes assets held under a finance lease. Property, plant and equipment are subsequently measured using the cost model, being cost less subsequent depreciation and impairment losses.

Depreciation is recognised on a straight-line basis to write down the cost of building right to use and on a diminishing value basis to write down the cost of furniture and fittings, IT equipment and other equipment. The following useful lives are applied:

- Furniture and fittings - 13% to 25% DV
- IT equipment - 50% DV
- Office equipment - 10% to 50% DV
- Building Right to Use - 16.67% SL

All intangible assets, which comprises software, are accounted for using the cost model whereby capitalised costs are amortised on a diminishing value basis over their estimated useful lives. The following useful lives are applied:

- Software - 50% DV

Amortisation has been included within depreciation.

Estimates of useful life are updated as required, but at least annually.

Gains or losses arising on the disposal of property, plant and equipment are determined as the difference between the disposal proceeds and the carrying amount of the assets and are recognised in profit or loss within other income or other expenses.

Subsequent expenditures on the maintenance of software is expensed as incurred.

	Furniture and fittings	IT equipment	Office equipment	Building Right to Use	Software	Total
	$	$	$	$	$	$
As at 31 March 2021						
Cost	194,803	1,674,573	190,826	2,313,630	543,866	4,917,698

Net book amount	138,921	333,332	16,319	1,202,270	22,183	1,713,025

g) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each balance date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in provision due to the passage of time is recognised in finance costs.

h) Employee benefits

Wages, salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within 12 months of the reporting date are recognised in respect of employees' services up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled. Expenses for non-accumulating sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

i) Operating expenses

Operating expenses are recognised in profit or loss upon utilisation of the service or at the date of their origin.

j) Revenue recognition

Revenue arises from the provision of software services and business process outsourcing services. To determine when to recognise revenue, the Company follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when and as its performance obligations are satisfied.

The Company enters into agreements with customers to provide software and business process outsourcing solutions, which are specific to that customer's requirements. Services are provided in exchange for a consideration which is calculated either on a 'time and material' basis or a fixed price basis and it recognises the revenue over time. Due to the high degree of interdependence between the various elements of these projects, they are accounted for as a single performance obligation.

To depict the progress by which the Company transfers control of the software and services the customer, and to establish when and to what extent revenue can be recognised, the Company measures its progress towards complete satisfaction of the performance obligation by measuring outputs to date. This basis provides the most faithful depiction of the transfer of goods and services to each customer due to the Company's ability to accurately measure the time and materials incurred to date.

If the Company satisfies a performance obligation before it receives the consideration, the Company recognises accrued income within trade and other receivables in its statement of financial position.

All revenue is earned in New Zealand and is recognised in the month that the work is completed.

k) Income tax

Tax expense recognised in profit or loss comprises the sum of deferred tax and current tax not recognised in other comprehensive income or directly in equity.

Current income tax assets and/or liabilities comprise those obligations to, or claims from, Inland Revenue and other taxation authorities relating to the current or prior reporting periods that are unpaid at the reporting date. Current tax is payable on taxable profit, which differs from profit or loss in the financial statements. Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences and tax losses can be utilised. The company has not recognised any deferred tax assets.

l) Other taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

· when the GST incurred on a purchase of goods and services is not recoverable from the Inland

Revenue Department, in which case the GST is recognised as part of the cost of the acquisition of

the asset or as part of the expense item as applicable; and

· receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the Inland Revenue Department is included as part of receivables or payables in the statement of financial position.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the Inland Revenue Department.

m) Significant management judgement in applying accounting policies and estimation uncertainty

When preparing the financial statements, management undertakes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

Contract revenue

Recognised amounts of contract revenues and related receivables reflect management's best estimate of each contract's outcome and stage of completion. This includes the assessment of the profitability of on-going contracts. For more complex contracts in particular, costs to complete and contract profitability are subject to significant estimation uncertainty.

3. Finance (expense)/income

Finance (expense)/income for the reporting periods consists of the following:

	2022	2021
	$	$
Interest income	**254**	4,705
Finance income	**254**	4,705
Interest and bank charges	**(117,213)**	(151,172)
Finance costs	**(117,213)**	(151,172)
Net finance income/(expense)	**(116,959)**	(146,467)

4. Income tax

(a) Income tax expense

	2022	2021
	$	$
The major components of income tax expense are:		
Statement of comprehensive income		
Current tax expense	**677,575**	1,145,703
Adjustments to current tax in prior years	**(1,145,703)**	-
Deferred tax expense relating to the origination and reversal of temporary differences	**-**	-
Adjustments to deferred tax in prior years	**-**	-
Income tax expense reported in profit or loss	**(468,129)**	1,145,703

(b) Numerical reconciliation between aggregate tax expense recognised in profit or loss and tax expense calculated per the statutory income tax rate

A reconciliation between tax expense and the product of accounting profit before income tax multiplied by the Company's applicable income tax rate is as follows:

	2022	2021
	$	$
Total accounting profit before income tax	**2,489,034**	3,197,142
At the Company's statutory income tax rate of 28% (2020: 28%)	**696,930**	895,200
Non-deductible items	**(19,356)**	250,503
Under/(over) provision in prior years	**(1,145,703)**	-
Other	**-**	-
Aggregate income tax expense	**(468,129)**	1,145,703

5. Trade and other receivables

	2022	2021
	$	$
Trade receivables	**5,716,740**	4,746,367
Prepayments	**355,364**	196,023
Work in progress	**201,451**	34,673
Sundry receivables	**33,091**	33,091
Carrying amount of trade and other receivables	**6,306,646**	5,010,154

6. Trade and other payables

	2022	2021
	$	$
(a) Current liabilities		
Trade payables	**267,918**	395,725
Cadence Management Limited	**607**	523,608
Employee benefits	**1,363,388**	1,020,756
GST payable	**394,291**	374,116
Provisions	**1,500,000**	300,000
Lease liability	**386,264**	360,223
Sundry payables	**1,035,599**	707,974
Carrying amount of trade and other payables	**4,948,067**	3,682,402
(a) Non-current liabilities		
Lease liability	**946,652**	1,332,916
Carrying amount of trade and other payables	**946,652**	1,332,916

7. Related parties

The Company's related parties are described below. Unless otherwise stated, none of the transactions incorporate special terms and conditions and no guarantees were given or received. Outstanding balances are usually settled in cash.

			2022	2021
			$	**$**
(a) Related party transactions				
Name	**Relationship**	**Transaction**		
Tenzing Australia Limited	Common ownership	Sales to	**842,106**	2,580,512
Tenzing Australia Limited	Common ownership	Purchases from	**813,714**	61,200
Tenzing Australia Limited	Common ownership	Advances to	**1,966,980**	-
Tenzing Australia Limited	Common ownership	Advances from	**-**	840,100
			3,622,800	3,481,812
(b) Related party balances				
Name	**Relationship**	**Type**		
Tenzing Australia Limited	Common ownership	Receivable	**1,261,044**	-
Tenzing Australia Limited	Common ownership	Payable	**-**	29,232

8. Financial instruments

The Company's principal financial instruments comprise receivables, payables and cash.

	2022	2021
	$	$
Financial assets:		
- Cash and cash equivalents	**4,025,958**	1,587,269
- Trade and other receivables	**6,306,646**	5,010,154
	10,332,604	6,597,423
Financial liabilities at amortised cost:		
- Trade and other payables (current liabilities)	**4,948,067**	3,682,402
- Trade and other payables (non-current liabilities)	**946,652**	1,332,916
	5,894,719	5,015,318

The fair values of these financial instruments approximate to their carrying values.

9. Leases

The Company as a lessee

For any contracts entered into, the Company considers whether a contract is, or contains, a lease.

At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the Statement of Financial Position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

On the statement of financial position, right-to-use assets have been included in property, plant and equipment and lease liabilities have been included in Trade and other payables.

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Where the Company is a lessee, payments on operating lease agreements are recognised as an expense on a straight-line basis over the lease term. Associated costs, such as maintenance and insurance, are expensed as incurred. The Company leases two premises under a non-cancellable operating lease.

Set out below are the carrying amounts of right of use assets recognised and the movements during the period:

	Office Building	**Total**
	$	**$**
As at 1 April 2020	1,940,294	1,940,294
Lease modification	29,113	29,113
Depreciation expense	(383,322)	(383,322)
As at 31 March 2021	1,586,085	1,586,085

Set out below are the carrying amounts of lease liabilities and the movements during the period:

As at 1 April 2020	1,980,774
Lease modification	29,113
Accretion of interest	131,111
Payments	(447,859)
As at 31 March 2021	1,693,139

The following are the amounts recognised in profit and loss:

Depreciation expense of right of use assets	383,322
Interest expense on lease liabilities	131,111
Total amount recognised in profit and loss	**514,433**

	Office Building	Total
	$	$
As at 1 April 2021	1,940,294	1,940,294
Lease modification	-	-
Depreciation expense	(383,815)	(383,815)
As at 31 March 2022	1,556,479	1,556,479

Set out below are the carrying amounts of lease liabilities and the movements during the period:

As at 1 April 2021	1,693,139
Lease modification	-
Accretion of interest	107,108
Payments	(467,332)
As at 31 March 2022	1,332,916

The following are the amounts recognised in profit and loss:

Depreciation expense of right of use assets	383,815
Interest expense on lease liabilities	107,108
Total amount recognised in profit and loss	**490,924**

10. Capital Commitments

The Company has no capital commitments as at 31 March 2022 (2021: nil).

11. Contingencies

The Company has no contingencies at year as at 31 March 2022 (2021: nil).

13. Post-Reporting date events

The Directors are not aware of any other matters or circumstances after year end which would impact the financial statements.

Cash and cash equivalents, end of period		**245,063**	475,507

The above statement has not been audited and should be read in conjunction with the accompanying notes.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

1. Corporate information

The reporting entity is Tenzing Australia Limited (the “Company”). It is profit orientated and is registered under the Companies Act 1993. The Company is a reporting entity for the purposes of the Financial Reporting Act 2013 and its financial statements comply with that Act.

The Company’s primary activity is management and technology consulting services.

2. Summary of significant accounting policies

The financial statements have been prepared using the significant accounting policies and measurement bases summarised below.

a) Basis of preparation

The Company has adopted the New Zealand equivalents to International Financial Reporting Standards - Reduced Disclosure Regime (“NZ IFRS – RDR”) as set out in the External Reporting Board’s “Accounting Standards Framework”.

The financial statements are general purpose financial statements that have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand (“NZ GAAP”). They comply with New Zealand equivalents to International Financial Reporting Standards (“NZ IFRS”) and other applicable financial reporting standards as appropriate for profit-oriented entities. The Company has reported under NZ IFRS – Reduced Disclosure Regime of the External Reporting Board as the Company is a for-profit Tier 2 entity for financial reporting purposes on the basis that it does not have public accountability and is not a large for-profit public sector entity. The financial statements have been prepared in accordance with the requirements of the Companies Act 1993 and the Financial Reporting Act 2013.

The financial statements have been prepared on the basis of historical cost, being based on the fair values of the consideration given in exchange for assets. The financial statements have been prepared under the assumption that the Company operates on a going concern basis.

b) Changes in accounting policy

The Company has not adopted any new or revised accounting standards during the current year due to them not having had any impact on the disclosure or on the amounts reported in these financial statements.

c) Foreign currency translation

(i) Functional and presentation currency

The functional currency of the Company is Australian dollars. The presentation currency of the Company is New Zealand dollars (NZ$).

c) Foreign currency translation (continued)

(ii) Transactions & balances

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

d) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

e) Financial instruments

Recognition and derecognition

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

Financial assets

Financial assets principally consist of the Company's cash and cash equivalents and trade and other receivables. After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. Trade receivables, which generally have 30-90-day terms, are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less an allowance for any uncollectible amounts. An allowance for credit losses is made when there is objective evidence that the Company will not be able to collect the debt. Credit losses are written off during the period in which they are identified.

Financial liabilities

As the accounting for financial liabilities remains largely the same under NZ IFRS 9 compared to NZ IAS 39, the Company's financial liabilities were not impacted by the adoption of NZ IFRS 9. The Company's financial liabilities include trade and other payables.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Company designated a financial liability at fair value through profit or loss. Subsequently, financial liabilities are measured at amortised cost using the effective interest method.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

f) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each balance date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in provision due to the passage of time is recognised in finance costs.

g) Employee benefits

Wages, salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within 12 months of the reporting date are recognised in respect of employees' services up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled. Expenses for non-accumulating sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

h) Operating expenses

Operating expenses are recognised in profit or loss upon utilisation of the service or at the date of their origin.

i) Revenue recognition

Revenue arises from the provision of software services and business process outsourcing services. To determine when to recognise revenue, the Company follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when and as its performance obligations are satisfied.

The Company enters into agreements with customers to provide software and business process outsourcing solutions, which are specific to that customer's requirements. Services are provided in exchange for a consideration which is calculated either on a 'time and material' basis or a fixed price basis and it recognises the revenue over time. Due to the high degree of interdependence between the various elements of these projects, they are accounted for as a single performance obligation.

To depict the progress by which the Company transfers control of the software and services the customer, and to establish when and to what extent revenue can be recognised, the Company measures its progress towards complete satisfaction of the performance obligation by measuring outputs to date. This basis provides the most faithful depiction of the transfer of goods and services to each customer due to the Company's ability to accurately measure the time and materials incurred to date.

If the Company satisfies a performance obligation before it receives the consideration, the Company recognises accrued income within trade and other receivables in its statement of financial position.

All revenue is earned in Australia and is recognised in the month that the work is completed.

j) Income tax

Tax expense recognised in profit or loss comprises the sum of deferred tax and current tax not recognised in other comprehensive income or directly in equity.

Current income tax assets and/or liabilities comprise those obligations to, or claims from, the Australian Tax Office and other taxation authorities relating to the current or prior reporting periods that are unpaid at the reporting date. Current tax is payable on taxable profit, which differs from profit or loss in the financial statements. Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences and tax losses can be utilised. The company has not recognised any deferred tax assets.

k) Other taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods and services is not recoverable from the Inland Revenue Department, in which case the GST is recognised as part of the cost of the acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the Australian Tax Office is included as part of receivables or payables in the statement of financial position.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the Australian Tax Office.

l) Significant management judgement in applying accounting policies and estimation uncertainty

When preparing the financial statements, management undertakes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

Contract revenue

Recognised amounts of contract revenues and related receivables reflect management's best estimate of each contract's outcome and stage of completion. This includes the assessment of the profitability of on-going contracts. For more complex contracts in particular, costs to complete and contract profitability are subject to significant estimation uncertainty.

3. Finance (expense)/income

Finance (expense)/income for the reporting periods consists of the following:

	2022	2021
	$	$
Interest income	**-**	-
Finance income	**-**	-
Interest and bank charges	**(45,262)**	(130)
Finance costs	**(45,262)**	(130)
Net finance income/(expense)	**(45,262)**	(130)

4. Income tax

(a) The major components of income tax expense are:

	2022	2021
	$	$
Statement of comprehensive income		
Current tax expense	**225,099**	336,543
Adjustments to current tax in prior years	**-**	-
Deferred tax expense relating to the origination and reversal of temporary differences	**-**	-
Adjustments to deferred tax in prior years	**-**	-
Income tax expense reported in profit or loss	**225,099**	336,543

(b) Numerical reconciliation between aggregate tax expense recognised in profit or loss and tax expense calculated per the statutory income tax rate

A reconciliation between tax expense and the product of accounting profit before income tax multiplied by the Company's applicable income tax rate is as follows:

	2022	2021
	$	$
Total accounting profit before income tax	**1,275,924**	1,391,896
At the Company's statutory income tax rate of 28% (2021: 28%)	**357,259**	389,731
Non-deductible/(non-assessable) items	**(132,160)**	(53,188)
Under/(over) provision in prior years	**-**	-
Other	**-**	-
Aggregate income tax expense	**225,099**	336,543

5. Trade and other receivables

	2022	2021
	$	$
Trade receivables	**4,078,669**	1,096,444
Work in progress	**455,484**	-
Carrying amount of trade and other receivables	**4,534,153**	1,096,444

6. Trade and other payables

	2022	2021
	$	$
Trade payables	**296,127**	220,490
Employee benefits	**64,770**	61,857
GST payable	**289,033**	152,059
Provisions	**696,801**	-
Sundry payables	**131,152**	8,400
Carrying amount of trade and other payables	**1,477,883**	442,806

7. Related parties

The Company's related parties are described below. Unless otherwise stated, none of the transactions incorporate special terms and conditions and no guarantees were given or received. Outstanding balances are usually settled in cash.

(a) Related party transactions			**2022**	**2021**
Name	**Relationship**	**Transaction**	**$**	**$**
Tenzing Limited	Common ownership	Sales to	**813,714**	61,200
Tenzing Limited	Common ownership	Purchases from	**842,106**	2,580,512
Tenzing Limited	Common ownership	Advances to	**-**	840,100
Tenzing Limited	Common ownership	Advances from	**1,966,980**	-
			3,622,800	3,481,812

(b) Related party balances				
Name	**Relationship**	**Type**		
Tenzing Limited	Common ownership	Receivable		
Tenzing Limited	Common ownership	Payable	**-**	29,232
			1,261,044	-

8. Financial instruments

The Company's principal financial instruments comprise receivables, payables and cash.

	2022	2021
	$	$
Financial assets:		
- Cash and cash equivalents	**245,063**	475,507
- Trade and other receivables	**4,534,153**	1,096,444
	4,779,216	1,571,951
Financial liabilities at amortised cost:		
- Trade and other payables	**1,477,883**	442,806
	1,477,883	442,806

The fair values of these financial instruments approximate to their carrying values.

9. Capital Commitments

The Company has no capital commitments as at 31 March 2022 (2021: nil).

10. Contingencies

The Company has no contingencies at year as at 31 March 2022 (2021: nil).

11. Post-Reporting date events

The Directors are not aware of any other matters or circumstances after year end which would impact the financial statements.

NOTES TO THE FINANCIAL REPORT FOR THE YEAR ENDED 31 MARCH 2022

Note 1: Summary of Significant Accounting Policies

The directors have prepared the financial report on the basis that the company is a non-reporting entity because there are no users dependent on general purpose financial statements. The financial report are therefore special purpose financial statements that have been prepared in order to meet the needs of members.

The financial report have been prepared in accordance with the significant accounting policies disclosed below, which the directors have determined are appropriate to meet the needs of members. Such accounting policies are consistent with the previous period unless stated otherwise.

The financial report have been prepared on an accrual basis and are based on historical costs unless otherwise stated in the notes. The amounts presented in the financial statements have been rounded to the nearest dollar. The accounting policies that have been adopted in the preparation of the statements are as follows:

(a) Income Tax

The income tax expense (income) for the year comprises current income tax expense (income). The company does not apply deferred tax.

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at the reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

(b) Loans and Receivables

Trade receivables are recognised initially at cost and are subsequently measured at cost less any provision for impairment. Most sales are made on the basis of normal credit terms and are not subject to interest. Where credit is extended beyond normal credit terms and is more than 12 months, receivables are discounted to their present value. At the end of each reporting period, the carrying amounts of trade and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. A provision for impairment is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables.

Other receivables include loans granted by the Company and are discounted to present values using the interest rate inherent in the loan.

(c) Property, Plant and Equipment (PPE)

Property, plant and equipment are carried at cost, independent of directors' valuation. All assets, excluding freehold land and buildings, are depreciated over their useful lives to the company.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation reserve in shareholders' equity. Decreases that offset previous increases of the same asset are charged against fair value reserves directly in equity; all other decreases are charged to the income statement. Each year the difference between depreciation based on the revalued carrying amount of the assets charged to the income statement and depreciation based on the asset's original cost is transferred from the revaluation reserve to retained earnings.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have not been discounted in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are recognised as expenses in profit or loss during the financial period in which they are incurred.

(d) Provisions

Provisions are recognised when the company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reasonably measured.

Provisions recognised represent the best estimate of the amounts required to settle the obligation at reporting date.

(e) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

(f) Revenue and Other Income

Revenue is measured at the value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed. For this purpose, deferred consideration is not discounted to present values when recognising revenue.

Interest revenue is recognised using the effective interest rate method, which, for floating rate financial assets, is the rate inherent in the instrument. Dividend revenue is recognised when the right to receive a dividend has been established.

Revenue recognised related to the provision of services is determined with reference to the stage of completion of the transaction at the reporting date and where outcome of the contract can be estimated reliably. Stage of completion is determined with reference to the services performed to date as a percentage of total anticipated services to be performed. Where the outcome cannot be estimated reliably, revenue is recognised only to the extent that related expenditure is recoverable.

All revenue is stated net of the amount of goods and services tax (GST).

(g) Leases

Leases of fixed assets, where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership, are transferred to the company, are classified as finance leases.

Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses on a straight-line basis over the lease term.

(h) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Tax Office. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST components of investing and financing activities, which are disclosed as operating cash flows.

(i) Trade and Other Payables

Trade and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the company during the reporting period, which remain unpaid. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

NOTES TO THE FINANCIAL STATEMENTS

For the period from 07 February 2022 to 31 March 2022

1. Corporate information

The reporting entity is Geomatic.ai Pty Limited (the "Company"). It is profit orientated and is registered under The Corporations Act 2001. The Company is a reporting entity for the purposes of the Financial Reporting Act 2013 and its financial statements comply with that Act.

The Company's primary activity is geospatial technologies and consulting services.

2. Summary of significant accounting policies

The financial statements have been prepared using the significant accounting policies and measurement bases summarised below.

a) Basis of preparation

The Company's financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards adopted by the Australian Accounting Standards Board and the Corporations Act 2001.

The financial statements comply with International Financial Reporting Standards adopted by the International Accounting Standards Board.

The financial statements have been prepared on the basis of historical cost, being based on the fair values of the consideration given in exchange for assets. The financial statements have been prepared under the assumption that the Company operates on a going concern basis.

b) Foreign currency translation

(i) Functional and presentation currency

Both the functional and presentation currency of the Company is Australian dollars ($).

(ii) Transactions & balances

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

c) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

d) Financial instruments

Recognition and derecognition

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

Financial assets

Financial assets principally consist of the Company's cash and cash equivalents and trade and other receivables. After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. Trade receivables, which generally have 30-90-day terms, are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less an allowance for any uncollectible amounts. An allowance for credit losses is made when there is objective evidence that the Company will not be able to collect the debt. Credit losses are written off during the period in which they are identified.

Financial liabilities

As the accounting for financial liabilities remains largely the same under Australia IFRS 9 compared to Australia IAS 39, the Company's financial liabilities were not impacted by the adoption of Australia IFRS 9. The Company's financial liabilities include trade and other payables.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Company designated a financial liability at fair value through profit or loss. Subsequently, financial liabilities are measured at amortised cost using the effective interest method.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

e) Property, plant and equipment

All property, plant and equipment are initially recognised at acquisition cost or manufacturing cost, including any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the Company's management. This also includes assets held under a finance lease. Property, plant and equipment are subsequently measured using the cost model, being cost less subsequent depreciation and impairment losses.

Depreciation is recognised on a straight-line basis to write down the cost of property, plant and equipment at the rate of 10%.

Gains or losses arising on the disposal of property, plant and equipment are determined as the difference between the disposal proceeds and the carrying amount of the assets and are recognised in profit or loss within other income or other expenses.

	Total

As at 31 March 2022	
Cost	405,827
Accumulated depreciation / amortisation	(58,663)
Net book amount	**347,164**

f) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each balance date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in provision due to the passage of time is recognised in finance costs.

g) Employee benefits

Wages, salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within 12 months of the reporting date are recognised in respect of employees' services up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled. Expenses for non-accumulating sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

h) Operating expenses.

Operating expenses are recognised in profit or loss upon utilisation of the service or at the date of their origin.

i) Revenue recognition

Revenue arises from the provision of software services and business process outsourcing services. To determine when to recognise revenue, the Company follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when and as its performance obligations are satisfied.

The Company enters into agreements with customers to provide software and business process outsourcing solutions, which are specific to that customer's requirements. Services are provided in exchange for a consideration which is calculated either on a 'time and material' basis or a fixed price basis and it recognises the revenue over time. Due to the high degree of interdependence between the various elements of these projects, they are accounted for as a single performance obligation.

To depict the progress by which the Company transfers control of the software and services the customer, and to establish when and to what extent revenue can be recognised, the Company measures its progress towards complete satisfaction of the performance obligation by measuring outputs to date. This basis provides the most faithful depiction of the transfer of goods and services to each customer due to the Company's ability to accurately measure the time and materials incurred to date.

If the Company satisfies a performance obligation before it receives the consideration, the Company recognises accrued income within trade and other receivables in its statement of financial position.

All revenue is earned in New Zealand and is recognised in the month that the work is completed.

j) Income tax

Tax expense recognised in profit or loss comprises the sum of deferred tax and current tax not recognised in other comprehensive income or directly in equity.

Current income tax assets and/or liabilities comprise those obligations to, or claims from, Inland Revenue and other taxation authorities relating to the current or prior reporting periods that are unpaid at the reporting date. Current tax is payable on taxable profit, which differs from profit or loss in the financial statements. Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences and tax losses can be utilised. The company has not recognised any deferred tax assets.

k) Other taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods and services is not recoverable from the Inland

  Revenue Department, in which case the GST is recognised as part of the cost of the acquisition of the asset or as part of the expense item as applicable; and

- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the Australian Taxation Office is included as part of receivables or payables in the statement of financial position.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the Australian Taxation Office.

l) Significant management judgement in applying accounting policies and estimation uncertainty

When preparing the financial statements, management undertakes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

Contract revenue

Recognised amounts of contract revenues and related receivables reflect management's best estimate of each contract's outcome and stage of completion. This includes the assessment of the profitability of on-going contracts. For more complex contracts in particular, costs to complete and contract profitability are subject to significant estimation uncertainty.

3. Finance (expense)/income

Finance (expense)/income for the reporting periods consists of the following:

	2022 2 Months $
Foreign exchange gains	2,341
Finance income	**2,341**
Interest and bank charges	0
Finance costs	**0**
Net finance income/(expense)	**2,341**

4. Income tax

	2022 2 Months $
(a) Income tax expense	
The major components of income tax expense are:	
Statement of comprehensive income	
Current tax expense	65,089
Adjustments to current tax in prior years	-
Deferred tax expense relating to the origination and reversal of temporary differences	-
Adjustments to deferred tax in prior years	-
Income tax expense reported in profit or loss	**65,089**

(b) Numerical reconciliation between aggregate tax expense recognised in profit or loss and tax expense calculated per the statutory income tax rate

A reconciliation between tax expense and the product of accounting profit before income tax multiplied by the Company's applicable income tax rate is as follows:

	2022 2 Months $
Total accounting profit before income tax	232,462
At the Company's statutory income tax rate of 28%	65,089
Non-deductible items	-
Under/(over) provision in prior years	-
Other	-
Aggregate income tax expense	**65,089**

5. Trade and other receivables

	2022 $
Trade receivables	1,176,692
Work in progress	1,935,675
Sundry receivables	140,700
Carrying amount of trade and other receivables	**3,253,067**

6. Trade and other payables

	2022
	$
Trade payables	**300,167**
Employee benefits	**1,763,440**
GST payable	**30,414**
Provisions	**1,535,593**
Lease liability	**62,421**
Carrying amount of trade and other payables	**3,692,035**

7. Financial instruments

The Company's principal financial instruments comprise receivables, payables and cash.

	2022
	$
Financial assets:	
- Cash and cash equivalents	**-**
- Trade and other receivables	**3,253,067**
	3,253,067
Financial liabilities at amortised cost:	
- Trade and other payables	**3,692,035**
	3,692,035

The fair values of these financial instruments approximate to their carrying values.

8. Leases

The Company as a lessee

For lease contracts the Company considers whether a contract is, or contains, a lease.

At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the Statement of Financial Position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

On the statement of financial position, right-to-use assets have been included in property, plant and equipment and lease liabilities have been included in Trade and other payables.

9. Capital Commitments

The Company has no capital commitments as at 31 March 2022.

10. Contingencies

The Company has no contingencies at year as at 31 March 2022.

11. Post-Reporting date events

The Directors are not aware of any other matters or circumstances after year end which would impact the financial statements.

DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2022

The directors present their report and the financial statements for the year ended 31 March 2022.

On 8 November 2021, the company re-registered as a limited company and is now incorporated under the name of Citisoft Limited.

Principal activity

The company's principal activity during the year continued to be that of providing advisory and delivery services to the asset management industry. The company is a UK based business consulting company with a wholly owned subsidiary, Citisoft Inc, operating in the United States of America and Canada.

On 28 February 2022, the company's shareholding in Citisoft Inc. was sold to Tech Mahindra (Americas) Inc. From 1 March 2022, the company ceased to trade and certain assets were sold to Citisoft, Inc. UK, a UK branch of Citisoft Inc.

Directors

The directors who served during the year were:

V N Nair

L Chidambaram

B B Pal

P V Migliore

T J Secaur

This report was approved by the Board on 21st June 2022 and signed on its behalf.

London
EC4N 4UA

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006, so far as relevant to the Company's Management Certified financial statements for the year.

The functional currency of the company is considered to be pounds sterling because that is the currency of the primary economic environment in which the company operates. The financial statements have been rounded to the nearest £.

The following principal accounting policies have been applied:

2.2 Exemption from preparing consolidated financial statements

The directors have satisfied themselves that the parent company, Tech Mahindra Limited, prepares group accounts. The company has, therefore, not prepared consolidated financial statements.

2.3 Going concern

In assessing the going concern basis of preparation for these financial statements, the directors have considered the transfer of the trade and assets to Citisoft Inc that took place on 1 March 2022. Following this transfer, the company has no investments and no other trading activity. It is likely that the company will be wound up at some future time.

Therefore, the directors have concluded that it is appropriate to prepare the financial statements on a basis other than that of a going concern.

2.4 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency, using the spot exchange rates at the dates of the transactions.

At each period end foreign currency, monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items, measured at fair value, are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges.

2.5 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before revenue is recognised:

Unbilled revenue comprises of revenue recognised in relation to efforts incurred on time contracts not billed as of the period end where services are performed in accordance with agreed terms.

2.6 Pensions

Defined contribution pension plan

The Company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. Once the contributions have been paid, the Company has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals, as a liability in the Balance Sheet. The assets of the plan are held separately from the Company in independently administered funds.

2.7 Taxation

Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2.8 Employee benefits

When employees have rendered service to the company, short term employee benefits to which the employees are entitled are recognised at the undiscounted amount expected to be paid in exchange for that service.

2.9 Exceptional items

Exceptional items are transactions that fall within the ordinary activities of the Company but are presented separately due to their size or incidence.

2.10 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight line method.

Depreciation is provided on the following basis:

Office equipment	5 years straight line
Furniture & Fixtures	4 Years straight line

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

2.11 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

2.12 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.13 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.14 Financial instruments

Financial assets, liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the instrument.

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets and liabilities classified at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs). If an arrangement constitutes a financing transaction, the financial asset or liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the balance sheet when, and only when, there exists a legally enforceable right to set off the recognised amounts and the company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Debt instruments which meet the conditions set out by FRS 102 to be classified as basic financial instruments are subsequently measured at amortised cost using the effective interest method.

Debt instruments that have no stated interest rate (and do not constitute a financing transaction) and are classified as payable or receivable within one year are initially measured at the undiscounted amount of the cash or other consideration expected to be paid or received, net of impairment.

3. Employees

The Company has not issued any equity shares carrying differential rights, sweat equity shares, employee stock options nor provided money for purchase of its own shares by employees or by trustees for the benefit of employees during the financial year. The Company's paid up equity capital is Rs. 10,000,000/- comprising of 1,000,000 equity shares of Face Value Rs. 10/- each.

ANNUAL RETURN

The Company does not have website and hence the web-link of Annual Return required to be disclosed in this Report in pursuance of the provisions of Section 92(3) of the Companies Act, 2013 is not mentioned.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Provisions related to Corporate Social Responsibility are not applicable to your Company.

DIRECTORS

The first Director's of the Company were as under:

- Mr. Anirudha Gadre
- Mr. Gautam Shirali
- Mr. Apurva Chamaria

Mr. Apurva Chamaria resigned as Director of the Company with effect from October 31, 2021. The Board places on records its appreciation for the guidance received from Mr. Chamaria during his tenure as Director of the Company. Mr. Jagdish Mitra was appointed as Additional Director on the Board of the Company with effect from October 26, 2021.

Mr. Jagdish Mitra holds office till the ensuing Annual General Meeting and being eligible offers himself for re-appointment. The Board recommends the appointment of Mr. Jagdish Mitra as Director of the Company.

Pursuant to the provisions of Section 152(6)(c) of the Companies Act 2013, Mr. Gautam Shirali, Director is liable to retire by rotation and being eligible offers himself for reappointment.

The Director's recommend appointment of Mr. Gautam Shirali as Director of the Company.

BOARD AND COMMITTEES OF BOARD

The Ministry of Corporate Affairs by its Notification dated 13th July, 2017 amended Rule 6 of the Companies (Meetings of Board and its Powers) Rules, 2014 and Rule 4 of Companies (Appointment and Qualification of Directors) Rules, 2014. In view of this, the provisions in respect of appointment of independent directors on the board of unlisted wholly owned subsidiary Company are not applicable.

Also such unlisted wholly owned subsidiary Company need not constitute Audit Committee and Nomination & Remuneration Committee of the Board.

During the period, 2 (two) Board meetings were held on 26th August 2021 and 22nd December 2021.

STATEMENT OF COMPLIANCE WITH APPLICABLE SECRETARIAL STANDARDS

Your Directors state that the Company has complied with the applicable Secretarial Standards during the year under review.

PARTICULARS OF LOANS, GUARANTEES OR INVESTMENTS UNDER SECTION 186

The Company has not given any loans or guarantees under Section 186 of the Companies Act, 2013. Investments made are within the limits provided under Section 186.

PARTICULARS OF CONTRACTS OR ARRANGEMENTS WITH RELATED PARTIES

The Company has not entered into any transaction with its Related Parties.

PARTICULARS OF EMPLOYEES

There are no employees in the Company whose particulars are required to be disclosed in terms of Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

Your Company has an adequate system of internal controls commensurate with its size and the nature of its business. It ensures that transactions are authorized, recorded, and reported correctly apart from safeguarding its assets against loss from wastage, unauthorized use and disposition.

DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to provisions of Section 134(5) of the Companies Act, 2013, your Directors, based on the representation received from the Operating Management, and after due enquiry, confirm that:

(i) in the preparation of the annual accounts, the applicable accounting standards have been followed along with proper explanation relating to material departures, if any;

(ii) the directors have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the loss of the Company for that period;

(iii) the directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

(iv) the directors have prepared the annual accounts on a going concern basis;

(v) the directors have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION & FOREIGN EXCHANGE EARNINGS AND OUTGO

INDEPENDENT AUDITOR'S REPORT

To the Members of Tech Mahindra Defence Technologies Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying financial statements of Tech Mahindra Defence Technologies Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including the comprehensive income), statement of changes in equity and cash flow statement for the period ended March 31, 2022 and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31st, 2022, and loss, and other comprehensive income, changes in equity and its cash flows for the period ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Matter of Emphasis

Without qualifying our opinion, we draw attention to Note no. 12 of the notes to accounts on the Company's ability to continue as a going concern, which is dependent on establishing profitable operations and obtaining continuing financial support from its shareholders. The mitigating factors have been more fully discussed in note 12 to the accompanying financial statements, in view of which the accompanying financial statements have been prepared under the going concern assumption and consequently, no adjustments have been made to the carrying values or classification of balance sheet accounts.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing an d detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors Report) Order 2020 ("the Order") issued by the Central Government in terms of sub-section 11 of Section 143 of the Act, we give in the 'Annexure A' a statement on the matters specified in paragraph 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:

   We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   a. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   b. The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the statement of changes in equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

   c. In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

   d. On the basis of the written representations received from the directors as on 31st March, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2022 from being appointed as a director in terms of Section 164(2) of the Act.

   e. As per the notification issued by the Ministry of Corporate Affairs dated June 13, 2017 amending the notification number GSR 464 (E), the provisions with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls refer to our separate report in "Annexure B".

f. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial position.

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

   iii. There were no amounts which were required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT ON IND AS FINANCIALSTATEMENTSOFTECHMAHINDRADEFENCETECHNOLOGIES LIMITED – MARCH 31, 2022

[Annexure referred to in paragraph under "Report on other legal and regulatory requirements" of the Independent audit report Re: Tech Mahindra Defence Technologies Limited ('the Company')]

(i) The Company does not own any property, plant and equipment or intangible assets which needs to be capitalized in the books of the Company and accordingly, the requirement to report on clause 3(i) (a), (b), (c), (d) and (e) of the Order is not applicable to the Company.

(ii) (a)The Company's business does not require maintenance of inventories and, accordingly, the requirement to report on clause 3(ii) (a) of the Order is not applicable to the Company.

(ii) (b)The Company has not been sanctioned working capital limits in excess of ₹ five crores in aggregate from banks or financial institutions during any point of time of the year on the basis of security of current assets. Accordingly, the requirement to report on clause 3(ii)(b) of the Order is not applicable to the Company.

(iii) During the year the company has not made any investment nor any guarantee or security or granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, Clause 3 (iii)(a), (b), (c), (d), (e) and (f) of the Order are not applicable to the Company.

(iv) There are no loans, investments, guarantees, and security in respect of which provisions of sections 185 and 186 of the Companies Act, 2013 are applicable and accordingly, the requirement to report on clause 3(iv) of the Order is not applicable to the Company.

(v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.

(vi) The Company is not in the business of sale of any goods or provision of such services as prescribed. Accordingly, the requirement to report on clause 3(vi) of the Companies (Auditor's Report) Order is not applicable to the Company.

(vii) (a)The Company is regular in depositing with appropriate authorities undisputed statutory dues including income-tax and other statutory dues applicable to it. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable. In the current year, there are no dues towards goods and services tax, provident fund, employees' state insurance sales-tax, service tax, duty of customs, duty of excise, value added tax, cess.

(vii) (b)There are no dues of goods and service tax, income tax, goods and service tax, custom duty and other statutory dues which have not been deposited by the Company with appropriate authorities on account of any dispute.

(viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Companies (Auditor's Report) Order is not applicable to the Company and hence not commented upon.

(ix) The Company did not have any outstanding loans or borrowings or interest thereon due to any lender during the year. Accordingly, the requirement to report on clause 3(ix) (a), (b), (c), (d), (e) and (f) of the Order is not applicable to the Company.

(x) The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments) or made any preferential allotment or private placement under section 42 and 62 of the Companies Act, 2013 hence, the requirement to report on clause 3(x)(a), (b) of the Order is not applicable to the Company.

(xi) (a)No fraud/ material fraud by the Company or no fraud / material fraud on the Company has been noticed or reported during the year. Accordingly, the requirement to report on clause 3(xi) (a) of the Order is not applicable to the Company.

(xi) (b)During the year, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by [cost auditor/ secretarial auditor or by us] in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the requirement to report on clause 3(xi) (b) of the Order is not applicable to the Company.

(xi) (c)As represented to us by the management, there are no whistle blower complaints received by the Company during the year. Accordingly, the requirement to report on clause 3(xi) (c) of the Order is not applicable to the Company.

(xii) The Company is not a Nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(a), (b) and (c) of the Order is not applicable to the Company.

(xiii) Transactions with the related parties are in compliance with sections 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards. The provisions of section 177 are not applicable to the Company and accordingly the requirements to report under clause 3(xiii) of the Order insofar as it relates to section 177 of the Act is not applicable to the Company.

(xiv) The Company does not have an internal audit system and is not required to have an internal audit system under the provisions of Section 138 of the Companies Act, 2013. Therefore, the requirement to report under clause 3(xiv)(a) and (b) of the Order is not applicable to the Company.

(xv) The Company has not entered into non- cash transactions with directors or persons connected to its directors hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.

(xvi) (a) The provisions of section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a) of the Order is not applicable to the Company.

(xvi) (b) The Company has not conducted any Non-Banking Financial or Housing Finance activities without obtained a valid Certificate of Registration (CoR) from the Reserve Bank of India as per the Reserve Bank of India Act, 1934.

(xvi) (c) The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi) (c) and (d) of the Order is not applicable to the Company.

(xvii) The Company has not incurred cash losses in the current financial year. The Company has been registered for a period of less than one year.

(xviii) There has been no resignation of the statutory auditors during the year and accordingly requirement to report on Clause 3(xviii) of the Order is not applicable to the Company.

(xix) The Company has been incorporated in the current financial year and the business activities are yet to start. Accordingly, none of the financial ratios are disclosed in the financial statements.

(xx) Since there are no ongoing projects, hence the requirement to report on clause 3(xx) (a) and (b) of the Order is not applicable to the Company.

(xxi) There are no qualifications or adverse remarks by the respective auditors in the Companies (Auditors Report) Order (CARO) reports of the companies included in the consolidated financial statements. Accordingly, the requirement to report on clause 3(xxi) of the Order is not applicable to the Holding Company.

ANNEXURE - B TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Referred to paragraph 2(f) in report on other legal and regulatory requirements of the Independent Auditors report to the members of Tech Mahindra Defence Technologies Limited on the IndAS financial statements for the year ended March 31, 2022.

Opinion

We have audited the internal financial controls with reference to financial statements of Tech Mahindra Defence Technologies Limited ("the Company") as of March 31st, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its asset s, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO FINANCIAL STATEMENTS FOR THE PERIOD ENDED MARCH 31, 2022

(All amount in Rupees ,unless otherwise stated)

1. Corporate Information

Tech Mahindra Defence Technologies Limited (“the Company”) incorporated on July 28, 2021 provides information technology enabled services to defence engineering, aerospace, and aviation sectors in india or elsewhere. The Company caters to both domestic and international markets.

2. Basis of preparation and Significant Accounting Policies

This note provides basis of preparation and significant accounting policies adopted in the preparation of these Financial Information and have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

These financial statements have been prepared on historical cost basis, except for certain financial assets and liabilities that are measured at fair value at the end of each reporting period. Historical cost is generally based on the fair value of the considerations given in exchange for goods and services.

2.2 Significant Accounting Policies

Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as Non-current assets.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities as Non-current liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating cycle of the Company is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. Based on the nature of products and the time between the acquisitions of assets for processing and their realization in cash and cash equivalents, the company has ascertained operating cycle of 12 months for the purpose of current and non-current classification of assets and liabilities.

Use of estimates and judgements

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the period presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of, useful lives of property, plant and equipment, provision for warranty, variable consideration in revenue, and provisions and contingent liabilities. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known / materialize.

2.3 Revenue from contracts with Customers

Ind AS 115 Revenue from contracts with customers has been issued with effect from April 1, 2018. The new standard deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a promised good or service and thus has the ability to direct the use and obtain the benefits from the good or service in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services.

A new five-step process must be applied before revenue can be recognised:

(i) identify contracts with customers

(ii) identify the separate performance obligation

(iii) determine the transaction price of the contract

(iv) allocate the transaction price to each of the separate performance obligations, and

(v) recognise the revenue as each performance obligation is satisfied."

Rendering of services

Revenue from services is recognized as and when the services are rendered and the related costs are incurred.

2.4 Other income

Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest Income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset's net carrying amount on initial recognition.

2.5 Foreign Currency

Functional and presentation currency

Items included in the financial statements of the company are measured using the currency of the primary economic environment in which the company operates ('the functional currency'). The financial statements are presented in Indian rupees (INR), which is functional and presentation currency of the Company

Transactions and balances

Transactions in currencies other than the Company's functional currency are recognized at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the closing exchange rate prevailing as at the reporting date. Non-monetary assets and liabilities denominated in a foreign currency are translated using the exchange rate prevailing at the date of initial recognition (in case measured at historical cost) or at the rate prevailing at the date when the fair value is determined (in case measured at fair value). Foreign exchange differences are recognized in profit or loss in the period in which they arise except for exchange difference on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest cost on those foreign currency borrowings and exchange differences on transactions entered into in order to hedge foreign currency risks.

2.6 Taxation

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively. Income tax expense represents the sum of the tax currently payable and deferred tax.

Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred tax is recognized using the balance sheet approach. Deferred tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax asset is recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized. The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.7 Provisions

General

A provision is recognized when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Onerous Contracts:

Present obligations arising under onerous contracts are recognized and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.8 Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably.

2.9 Financial instruments

Financial assets:

Initial recognition and measurement:

Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets (other than financial assets at fair value through profit or loss) are added to the fair value of the financial assets on initial recognition. Transaction cost directly attributable to the acquisition of financial assets at fair value through profit or loss are recognised immediately in profit or loss.

Subsequent Measurement:

Debt instruments

Subsequent measurement of debt instruments depends on the company’s business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

- **Financial assets at amortized cost**

Financial assets that are held within a business model whose objective is to hold assets for collecting contractual cash flows and whose contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding are subsequently measured at amortized cost using the effective interest rate method. The change in measurements are recognized as finance income in the statement of profit and loss.

- **Financial assets at fair value through other comprehensive income (FVTOCI)**

Financial assets that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets and the assets' contractual cash flows represent solely payments of principal and interest on the principal amount outstanding are subsequently measured at fair value. Fair value movements are recognized in other comprehensive income.

- **Financial assets at fair value through profit or loss (FVTPL)**

Any financial asset which does not meet the criteria for categorization as financial instruments at amortized cost or as FVTOCI, is classified as financial instrument at FVTPL. Financial instruments included within the FVTPL category are subsequently measured at fair value with all changes recognized in the statement of profit and loss.

Equity instruments

The company subsequently measures all equity investments at fair value. Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss.

Dividends from such investments are recognised in profit or loss as other income when the company's right to receive payments is established. Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/ (losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

- **Derecognition**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity, if any, is recognised in profit or loss.

- **Reclassification of financial assets**

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent.

Financial liabilities:

Initial recognition and measurement

Financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

For the purpose of subsequent measurement, financial liabilities are classified as:

- **Financial liabilities at amortized cost**

Financial liabilities such as loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. The change in measurements are recognized as finance costs in the statement of profit and loss.

- **Financial liabilities at fair value through profit or loss (FVTPL)**

Financial liabilities include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss if the recognition criteria as per Ind AS 109 – "Financial Instruments" are satisfied. Gains or losses on liabilities held for trading are recognized in statement of profit and loss. Fair value gains or losses on liabilities designated as FVTPL attributable to changes in own credit risk are recognized in other comprehensive income. All other changes in fair value of liabilities designated as FVTPL are recognized in the statement of profit and loss. The Company has not designated any financial liability as at FVTPL.

- **Derecognition**

The Company derecognizes financial liabilities when the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognised in profit or loss.

Derivative financial instruments:

Forward exchange contracts not intended for trading or speculation purposes, classified as derivative financial instruments. The Company uses derivative financial instruments such as forward exchange contracts to hedge its risks associated with foreign currency fluctuations. Such derivative contracts are not designated as hedges and are accounted for at Fair Value through Profit and Loss. There are no derivative financial instruments outstanding as on year end.

Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

2.10 Impairment

(i) Financial assets (other than at fair value)

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired.
