Ind AS 109 requires expected credit losses to be measured through a loss allowance. Company performs credit assessment for customers on an annual basis. Company recognizes credit risk, on the basis of lifetime expected losses and where receivables are due for more than six months. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument.

For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

(ii) Non-Financial Assets

Tangible and intangible assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.11 Earnings per share

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic earnings per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

2.12 Cash flow statement

The Cash Flow Statement is prepared by the indirect method set out in Ind AS 7 on Cash Flow Statements and presents cash flows by operating, investing and financing activities of the Company.

2.13 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of presentation in the statement of cash flows, cash and cash equivalents consist of cash and cash equivalent, as defined above, net of outstanding bank overdrafts if they are considered an integral part of the Company's cash management.

2.14 Fair value measurement

Fair value is the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell an asset or transfer the liability takes place either:

- In the principal market for the asset or liability.
- In the absence of principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (Unadjusted) Market prices in active markets for incidental assets or liabilities
- Level 2 –Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation Techniques for which the lowest level input that is significant to the fair value measurement is unobservable. For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers that have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Determination of Fair Value

1) Financial Assets

The fair value of financial assets is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. This fair value is determined for disclosure purpose.

2) Non-Derivative financial liabilities

Fair Value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED MARCH 31, 2022

15 Impact of COVID 19

The Novel Coronavirus (COVID-19), a Global Pandemic, is rapidly spreading throughout the world. Outbreak of COVID - 19 has significantly affected the social and economic activities worldwide and, as a result, could affect the operations and results of the Company. In line with the advisories, orders and directions issued by the local and state government authorities to prevent and contain the spread of Coronavirus, the Management has taken necessary measures. The Management has taken into consideration the impact of the known internal and external events arising from COVID-19 pandemic in the assessment of recoverability of trade receivables & contract assets upto the date of approval of these financial results. In this assessment, the company has performed sensitivity analysis on the key assumptions used. However the impact assessment of COVID-19 is an ongoing process, given the uncertainties associated with its nature and duration. The impact of global health pandemic might be different from that estimated as at the date of approval of these financial statement and the Company will continue to closely monitor any significant impact on the company's financial position.

EPS Basic (Rs.)	26.17	78.72
EPS Diluted (Rs.)	26.17	78.72

BRIEF DESCRIPTION OF THE COMPANY'S WORKING DURING THE YEAR/STATE OF COMPANY'S AFFAIRS

Total Income for the year 2021-22 is Rs. 7032 Mn as against Rs. 6,815 Mn in previous year.

In the concluded Financial Year, although there was some reduction in pandemic impact companies faced new challenges in the form of extremely high attrition and inflated salaries. Despite the two front impact the Company was able to achieve growth in revenue performance with growth in Digital Business Support Solution, Consumer Value Management and Converged Mobile Solutions business. Although there are some region-specific challenges faced in the order book compared to previous year especially in MENA region and key accounts like Airtel and Orange group. We expect the order book to bounce back next year with increased traction and orders from the customers in the Company's products and solutions businesses in the Consumer Value Management, Digital Financial Services and Digital Business Support Solution space and the Company expects that these will continue to exhibit high growth in the coming years.

Order book of our traditional products like MobiLytix Marketing Studio, Mobiquity Pay® and Digital BSS continues to be strong. We have seen significant traction in the market for our MobiLytix Marketing Studio portfolio with several new customers. The Company's strategy of focusing on key accounts for cross-sell / up-sell of new products continues to produce good results. The Company continues to invest in new products such as FactoReal, YABX and MCIP, which are expected to contribute to revenue growth in coming years.

For the next Financial Year, the Company is expected to grow significantly from current levels on account of higher demand for products, continued focus on the developing markets and in leveraging its existing customer relationships and continued innovation and diversification into non-telco markets such as BFSI & retail industry through extension of its existing product portfolio as well as new products and services which are yielding good results.

Along with the continued investment in its existing product portfolio, the Company is also looking to grow inorganically in the coming years through some strategic acquisitions. In FY 2022, Company has acquired IP of VSPP product from Media Kind which will lead to significant growth in FY 2023.

The Company has been regularly participating in international events to take its visibility outside India to greater heights and has been able to achieve significant recognition internationally and nationally.

The Company won 19 prestigious awards and recognitions over the last year. Won Emerging Payments Awards 2021 in three categories - “Leading Financial Services or Payments Start-Up” and “Best Direct Account to Account Solution” categories for MOVii digital wallet services in Colombia. The Company also won the “Best B2B/B2C Banking Initiative” award for Bankily services by Banque Populaire de Mauritanie (BPM); AITE Group Digital Wallet Innovation awards in the "Market Adoption" category for Movii digital wallet service in Colombia; BankingTech Awards in the "Best Contribution to Economic Mobility in Banking" category for MOVii digital wallet services in Colombia; GLOTEL Awards in the "Mobile Money Mastery" category for MOVii digital wallet services in Colombia; EastAfrica Com Awards in the "Fintech Innovation" category for Airtel Money; PayTech Awards in the "Best Mobile Payments Initiative" category for Airtel Money Uganda and "Best Prepaid Initiative" category for Airtel Money Uganda; Payments Awards in the "Best Alternative Payments Project" category for the Bankilyservices by Banque Populaire de Mauritanie (BPM). Other noteworthy awards include the 2021 World Communication Awards; Finovate Awards; CX Asia Awards; Inntech Awards and Unlocked Awards.

CHANGE IN THE NATURE OF BUSINESS, IF ANY:

There is no change in the nature of the business of the Company during the Financial Year 2021-22.

DIVIDEND

The Board of Directors on October 21, 2021 declared an interim dividend of Rs. 20/- (Rupees Twenty) per share on each equity share of Rs. 10/- (Ten) fully paid up and the same was paid by the Company to the shareholders whose names were appearing in the Register of Members as on September 30, 2021 being record date for the payment of dividend.

Your Directors do not recommend Final Dividend on Equity Shares for the year ended March 31, 2022 and the Interim Dividend declared and paid to the shareholders as mentioned above would be treated as Final Dividend of the financial year 2021-22.

TRANSFER TO RESERVE

The entire amount of profits has been transferred to reserves.

MATERIAL CHANGES AND COMMITMENTS, IF ANY, AFFECTING THE FINANCIAL POSITION OF THE COMPANY WHICH HAS OCCURRED BETWEEN THE END OF THE FINANCIAL YEAR OF THE COMPANY TO WHICH THE FINANCIAL STATEMENT RELATES AND THE DATE OF THE REPORT:

There are no material changes and commitments affecting the financial position of the Company which have occurred between the end of the Financial Year of the Company to which the financial statement relate and the date of the report.

DEPOSITS

Company has not accepted any deposits from the public and is therefore not required to furnish information in respect of outstanding deposits under Chapter V of the Companies Act, 2013.

STATUTORY AUDITORS

The members, in the 18th Annual General Meeting (AGM) held on June 29, 2017, appointed B S R & Co. LLP, Chartered Accountants with Registration no. 101248W/W- 100022 as the Statutory Auditors of the Company, to hold office for a term of five years from the conclusion of the 18th AGM of the Company held in the financial year 2017- 18 until the conclusion of the 23rd AGM of the Company for the financial year 2021-22, on such remuneration as may be determined by the Board of Directors.

Pursuant to Section 139 of the Companies Act, 2013 the statutory auditors B S R & Co. LLP, Chartered Accountants have confirmed eligibility and offered themselves to be re-appointed as Auditors of the Company for the period of next five years.

The Board of Directors recommend re-appointment of BSR & Co. LLP, Chartered Accountants as Statutory Auditors of the Company for a period of five years from the conclusion of the 23rd AGM of the Company until the conclusion of the 28th AGM of the Company.

AUDITOR'S REPORT

There are no qualifications, reservation or adverse remark or disclaimer made in the audit report for the Financial Year 2021-22 by M/s. BSR & Co, LLP.

There are no frauds reported by the auditors under sub-section (12) of section 143 of the Companies Act, 2013.

SECRETARIAL AUDITOR'S REPORT

Pursuant to the provisions of Section 204 of the Companies Act, 2013 and the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the Board of Directors had appointed M/s RMG & Associates, Company Secretaries, New Delhi to undertake the Secretarial Audit of the Company. The Secretarial Audit Report is available at "Annexure I" to this report.

The Secretarial Audit Report contains one qualification and clarification thereon by your Directors is as follows:

Observation by Secretarial Auditors: The CSR amount remaining unspent as on March 31, 2021 for the financial year 2020-21 was not transferred to the fund specified in Schedule VII of the Companies Act, 2013 ('Act') within prescribed period of 6 (six) months from the end of the financial year under Section 135(5) of the Act.

Clarification: Your Directors would like to inform that the Company could not spend 100% of its CSR obligation of FY 2020-21 and in accordance with Section 135(5) of the Act read with Rule 10 of the Companies (Corporate Social Responsibility Policy) Rules, 2014, the Company had deposited unspent amount of Rs. 5,50,122/- (Rupees Five Lakh Fifty Thousand One Hundred and Twenty-Two) to Prime Minister National Relief Fund on April 22, 2021 i.e. well within the stipulated period. However, it has now come to the knowledge of the Company that due to some technical error, the said amount bounced back into Company's bank account on the same day but remained unnoticed. This has resulted in an inadvertent non-compliance to Section 135(5) of the Act.

In order to make good the default good, the Company again deposited the aforesaid unspent CSR amount of Rs. 5,50,122/- (Rupees Five Lakh Fifty Thousand One Hundred and Twenty-Two) to Prime Minister National Relief Fund on March 30, 2022. The offence being compoundable u/s 441 of the Companies Act, 2013, the Company already initiated the process of approaching Hon'ble National Company Law Tribunal, Chandigarh, or the Hon'ble Regional Director, Northern Region, as may be required, for compounding of the abovementioned offence u/s 135(5) read with 135(7) of the Act.

SHARE CAPITAL

The Authorized share capital of the Company is Rs. 33,50,00,000/- (Rupees Thirty Three Crores and Fifty Lakhs) divided into 2,55,00,000 (Two Crore Fifty Five Lacs) Equity Shares of Rs.10/- (Rupees Ten) each and 80,00,000 (Eighty Lacs) Series A - 0.001% Fully Convertible and Non-Cumulative Preference Shares of Rs. 10/- each.

The issued and paid-up share capital is of the Company is Rs. 21,86,90,000/- (Rupees Twenty One Crores Eighty Six Lakhs and Ninety Thousand) divided into 2,18,69,000 Equity Shares of Rs. 10/- each.

During the financial year, there was no change in the authorized and paid-up share capital of the Company. While the Board approved buyback of its equity shares on October 21, 2021, later the same was rescind on January 27, 2022.

Further, the Board had approved the issuance of equity shares on rights basis on January 27, 2022.

EMPLOYEES STOCK OPTION PLANS

Company has no ESOP Schemes implemented for the employees as on the date of this Report.

ANNUAL RETURN

Pursuant to the provisions of Section 92(3) read with Section 134(3) (a) of the Companies Act, 2013, the Annual Return in Form MGT-7 is available at the weblink : www.comviva.com.

NUMBER OF MEETINGS OF THE BOARD OF DIRECTORS

The Board of Directors met four (4) times on April 22, 2021, July 23, 2021, October 21, 2021 and January 27, 2022 during the Financial Year and the notices convening meeting of the Board were duly sent to all the Directors.

Further, four meetings each of Audit Committee and Nomination and Remuneration Committee were held and three meetings of Corporate Social Responsibility (CSR) Committee held on the following dates:

Meeting	**Date(s) of Meeting**
Audit Committee Meeting	April 22, 2021, July 23, 2021, October 21, 2021 and January 27, 2022
Nomination and Remuneration Committee	April 22, 2021, July 23, 2021, October 21, 2021 and January 27, 2022
CSR Committee	April 22, 2021, July 23, 2021 and October 21, 2021

Further, one (1) meeting of the Independent Directors was held on March 14, 2022 for the Financial Year 2021-22.

PARTICULARS OF CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS & OUTGO UNDER SECTION 134(3)(m)

(A) CONSERVATION OF ENERGY

a) The Steps Taken or Impact on Conservation of Energy:

Conservation of energy is of utmost significance to the Company. Operations of the Company are not energy intensive. However, every effort is made to ensure optimum use of energy by using energy-efficient computers, processes and other office equipment. Constant efforts are made through regular / preventive maintenance and upkeep of existing electrical equipment to minimize breakdowns and loss of energy.

b) The Steps Taken by the Company to Utilize Alternate Sources of Energy:

As Company has taken all their premises on lease, alternate source of energy could not be installed.

c) The Capital Investment on Energy Conservation Equipment:

There is no capital investment on energy conservation equipment.

(B) TECHNOLOGY ABSORPTION

(i) The Efforts Made Towards Technology Absorption

The Company is continuously making efforts for induction of innovative technologies and techniques required for the business activities.

Details of Technology Absorption are given as follows:

- **Research and Development (R&D)**

(a) Specific Area in which R&D carried out by the Company

Company continues to do R&D in the areas of mobile commerce, content and data. As such Company continues to enrich its strong product portfolio in these domains through mobile banking, analytics, and rich engagement, communication, content and delivery platforms.

Company, after having surpassed its vision of touching billion lives through its offerings, has embarked on a vision of building 'Mobility solutions that transforms lives'. The three main pillars of its R&D efforts are around 'Commerce, Content, and Data' and adjunct focus areas are Customer Value Solutions and Managed Services.

R&D primarily consists of below activities in all the products and new innovative MVP's:

(1) New product development

(2) Creating new features and upgrades / version of existing product as per either internal product roadmap, or customer requirement and

(3) Development work by the Core Engineering Team called as SET on the re-usable common components, engineering practices and innovative prototypes that are utilized as part / addition to products developed by the various domain specific product units.

R&D involves rapid prototyping of new products and features in existing products that address the needs of our customers in the market. Focus is around new features, designs, frameworks and methodologies that continue to be of importance to the Company. It not only allows enhancing quality of products and customer satisfaction but also enhances the revenues of customer satisfaction through robust and innovative products.

(b) The benefits derived like Product Improvement, Cost Reduction, Product Development or Import Substitution;

Continuous R&D is instrumental in building expertise and increasing revenues through enhancement in functionalities and introduction of new products. The organization is receiving significant client traction for new market capabilities including Factoreal, Yabx, MobiLytix, Mobiquity, CMS (Content) and Data Platforms.

Continuous R&D is helping us and our customers in following ways:

- New features to attract additional customers.
- Introduction of new products.
- Better system / product stability
- System / resource optimization-more transaction using same hardware infrastructure
- Reduction in cost of ownership
- Simplicity and user convenience for managing his mobile related services

(C) In Case of Imported Technology (Imported during last three years reckoned from the beginning of the Financial Year)

(i) Company has not imported technology during the last three years

(ii) Expenditure incurred on R&D.

Figures in Rs. Mn

SECRETARIAL AUDIT REPORT

FOR THE PERIOD ENDED ON MARCH 31, 2022

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members
Comviva Technologies Limited
(CIN: U72200HR1999PLC041214)
5th, 7th & 8th Floor, Capital Cyberscape,
Sector-59, Golf Course Extension Road,
Gurugram, Haryana-122102

We have conducted the Secretarial Audit of the compliance of the applicable statutory provisions and the adherence to good corporate practices by **Comviva Technologies Limited** (hereinafter referred to as **"The Company"**), having its Registered Office situated at **5th, 7th & 8th Floor, Capital Cyberscape, Sector-59, Golf Course Extension Road, Gurugram, Haryana-122102.** Secretarial Audit was conducted in a manner that provided us a reasonable foundation for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification, of the Company's books, papers, minutes books, forms and returns filed and other records maintained by the Company and also the information/explanation provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, we hereby report that in our opinion, the Company has, during the audit period covering the Financial Year ended on **March 31, 2022,** complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on **March 31, 2022** according to the provisions of:

I. The Companies Act, 2013 ('the Act') and the rules made thereunder;

II. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder **[Not Applicable as the Company has not listed any of its securities on any Stock Exchange];**

III. The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;

IV. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Overseas Direct Investment;

V. The Company being an unlisted Company was not required to comply with any of the regulations and/or guidelines as prescribed by the Securities and Exchange Board of India in this regard under the Securities and Exchange Board of India Act, 1992, except the Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993, regarding the Companies Act and dealing with client to the extent of Dematerialisation of Securities by the Company;

For the compliances of Labour Laws & other General Laws, our examination and reporting is based on the documents, records and files as produced and shown to us and the information and explanations as provided to us, by the officers and management of the Company and to the best of our judgment and understanding of the applicability of the different enactments upon the Company, in our opinion there are adequate systems and processes exist in the Company to monitor and ensure compliance with applicable Labour Laws & other General Laws.

The compliances by the Company of applicable Financial Laws, like Direct and Indirect Tax Laws, has not been reviewed in this audit since the same have been subject to review by the statutory financial auditor and other designated professionals.

We have also examined compliance with the applicable clauses of the following:

1. Secretarial Standards with respect to Meetings of Board of Directors (SS-1) and General Meetings (SS-2) issued by the Institute of Company Secretaries of India.

2. General Circular Nos. 14/2020, 17/2020, 20/2020 and 02/2021 dated April 08, 2020, April 13, 2020, May 05, 2020 and January 13, 2021 respectively, issued by the Ministry of Corporate Affairs ("MCA") for conduct of Extra-Ordinary General Meetings/ Annual General Meetings through Video Conferencing ("VC") or other Audio-Visual Means ("OAVM").

   The Company convened its Annual General Meeting on July 20, 2021 through webex audio visual conference facility pursuant to MCA circulars and for passing the resolutions, stated in the notice for convening aforesaid meeting, with requisite majority voting was done through the registered e-mail ids of the shareholders of the Company.

3. Notification No. G.S.R 186 (E) dated March 19, 2020, G.S.R 395 (E) dated June 23, 2020, G.S.R 590 (E) dated September 28, 2020 and G.S.R 806 (E) dated December 30, 2020, issued by the Ministry of Corporate Affairs to conduct the Meetings of the Board or its Committees through Video Conferencing (VC) or Other Audio-Visual Means (OAVM).

During the period under review, the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, circulars, notifications etc. mentioned above.

We further report that

- The Board of Directors of the Company is constituted with proper balance of Non-Executive Directors, Independent Directors and Women Director during the period under review. The changes (Regularization) in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.
- Adequate notice(s) were given to all the directors to schedule the Board/Committee Meetings, agenda and detailed notes on agenda and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.
- Majority decision is carried through, while the dissenting members' views, if any, are captured and recorded as part of the minutes.
- As per the records, the Company generally filed all the forms, returns, documents and resolutions as were required to be filed with the Registrar of Companies and other authorities.
- **For the FY 2020-21, the Company had deposited unspent CSR obligation as on March 31, 2021 amounting to Rs. 5,50,122/- (Rupees Five Lakh Fifty Thousand One Hundred and Twenty-Two Only), in the Prime Minister National Relief Fund on April, 22, 2021, prior to the last date of September 30, 2021 as prescribed under section 135(5) read with applicable Rules. However, the said amount bounced back into the Company's bank account on the same day to which CSR compliance team does not have access. To make the default good, the Company has now deposited the said unspent amount in the Prime Minister National Relief Fund on March 30, 2022. The Company has initiated the application process for compounding of such offence/non-compliance before the appropriate authority.**

We further report that there are systems and processes in the Company to commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines which are generally being followed by the Company.

We further report that during the audit period, the Company has following specific events/actions having a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards etc. referred to above: -

1) The Board of Directors in their meeting held on July 23, 2021 approved to invest funds of the Company in its wholly owned subsidiary Comviva Technologies Cote D'Ivore.
2) The Company has acquired through its wholly owned subsidiary Comviva Technologies USA Inc, an asset known as VSPP (Video Storage Processing Platform) from MK Systems USA Inc amounting to Rs. USD 20 Million.
3) The Board of Directors in their meeting held on October 21, 2021 approved to invest in its wholly owned subsidiaries, YABX Technologies (Netherland) B.V. and Comviva Technologies USA Inc.
4) The company has sold its 100% equity stakes in Comviva Technologies Singapore Pte. Ltd to its group company.
5) The Board of Directors in their meeting held on October 21, 2021 approved the buyback of its equity shares. However, in the Board meeting held on January 27, 2022 rescind the same.
6) Mr. Manishkumar Murlimanohar Vyas (DIN: 09042978) has been appointed as Additional Director in the Board Meeting held on January 25, 2021 and the same has been regularized in the Annual General Meeting held on July 20, 2021.
7) The Board of Directors in their meeting held on January 27, 2022 approved to raise of equity funds through right issue.
8) The Board of Directors in their meeting held on January 27, 2022 approved for providing Performance Guarantee on obligations of Comviva Technologies Americas Inc ("Subsidiary").

POLICY ON NOMINATION AND REMUNERATION COMMITTEE

1. Objective

As a measure of good Corporate Governance and in compliance with the provisions of Section 178 of Companies Act 2013, following policies are formulated:

1.1. Policy on appointment and removal of Key Managerial Personnel and Senior Management;

1.2. Policy on Remuneration to the Key Managerial Personnel, Senior Management and other Employees

1.3. Policy on Directors Training

1.4. Policy on Evaluation of performance of the Board of Directors, Committees and individual Directors,

1.5. Policy on Board Diversity;

2. Definitions

The definitions of some of the key terms used in this Policy are given below.

“Board” means Board of Directors of the Company.

“Company” means the Comviva Technologies Limited.

“Committee(s)” means Committees of the Board for the time being in force as per the provisions of the Companies Act 2013.

“Employee” means employee of the Company whether employed in India or outside India including any whole time directors, KMPs & Senior Management who serve the company on a full-time basis and are not employed in any other entity except those which are the subsidiaries of the company or subsidiaries of its majority shareholder.

“HR’ means the Human Resource department of the Company.

“Key Managerial Personnel” and Senior Management (KMP) refers to:

(i) Chairman (CM);

(ii) Managing Director (MD), or Chief Executive Officer (CEO);

(iii) Chief Financial Officer (CFO); and

(iv) Company Secretary (CS)

“Nomination and Remuneration Committee” or “NRC” means Nomination and Remuneration Committee of Board of Directors of the Company for the time being in force.

“Senior Management” means an employee of the Company who is a member of its Core Management team, which includes CEO, CFO, Company Secretary, Product Unit Heads (for Business units higher than USD 20 million), Global Head of Sales, EVP- New Product Initiatives, Global Head of HR.

3. Constitution of the Nomination and Remuneration Committee

The board has constituted the Nomination and Remuneration Committee on <DDMMYYYY>, in accordance with Companies Act 2013.

The board will have rights to reconstitute this committee from time to time.

4. Policy for appointment of the Board, KMPs & Senior Management

The committee shall look into the following matters:

- Make recommendations to the board on its composition and size to help ensure its effective working. It will do the following under each category of personnel:

4.1. Board Members

a) Identify and recommend to appointment or removal of such candidates who can be considered for the position of a director.

b) The NRC would decide this based on its discussions around qualifications, positive attributes and independence of the candidate being considered for directorship. The decision may also be based on conditions as best suitable for the business in accordance with statutory conditions as may be applicable from time to time.

4.2. KMPs

a) The authority to identify right candidates for the appointment of CFO and CS is vested with the CEO along with HR, who will facilitate in identifying the candidates internally or externally. NRC will consider the candidates proposed by the CEO and recommend to the Board for its consideration and appointment in accordance with the applicable provisions of the Act and Rules.

b) In case of CM / MD / CEO's appointment, NRC will initiate the process of identifying the new candidate, which can be an internal or external candidate, for the respective position. After identification and screening of the candidate, NRC will propose the candidature to the Board for its consideration and for appointment subject to the approval of the Shareholders and Regulatory Authority, if any.

c) The selection and removal would be based on the evaluations done during the selection /search process and would cover such parameters like: qualifications, positive attributes, experiences, etc. The decision may also be based on conditions as best suitable for the business in accordance with statutory conditions as may be applicable from time to time.

d) If a KMP is attracted with any disqualification as mentioned in any of the applicable Act, rules and regulations there-under or due to non-adherence to the applicable policies of the Company, the NRC may recommend to the Board with reasons recorded in writing, removal of a KMP subject to the compliance of the applicable statutory provisions.

4.3. Senior Management personnel

a) The Senior Management personnel are appointed and removed/relieved with the authority of CEO and HR. The selection and removal would be based on the evaluations done during the selection /search process and would cover such parameters like: qualifications, positive attributes, experiences, etc as per the recruitment policy prevailing at the time of selection. The decision may also be based on conditions as best suitable for the business in accordance with statutory conditions as may be applicable from time to time.

b) The details of the appointment made and the personnel removed/relieved during a quarter shall be presented to the Board as part of update on Corporate Governance.

To maintain effective performance and continuity, all attempts will be made to retain and maintain the right balance of expertise and experience at the senior management level through various measures of identification, hiring, training, grooming, performance feedback, compensation & benefits, promotions, etc and . The NRC may seek and review such efforts for any specific position/s as they may deem fit.

Subject to that there is no conflict of interest, Comviva CEO and HR Head will be authorized to approve employee requests for accepting –

1. any honorary positions in the Board of a Company (for no remuneration or a nominal remuneration); and/or
2. any non-significant minority stake capped up to 30%

In case the request is from the Comviva CEO, Comviva CFO or the Company Secretary, the same will be cleared by the NRC

5. Remuneration to KMPs, Senior Management personnel and Other Employees

The Company follows an extensive performance management system to review the performance of the employees /Senior Management and provide rewards on the basis of meritocracy.

The overall remuneration (Total compensation) to the employees (including Whole Time Director (CEO) CFO, CS and senior management) includes a fixed component (Guaranteed Pay) and a variable component (Performance Linked pay). The percentage of the variable component increases at hierarchy levels, as the Company believes employees at higher positions have a far greater impact and influence on the overall business result. Variable Pay program is covered by respective variable pay programs (like performance linked incentive programs as applicable for respective roles). Compensation offered is decided based on what is competitive and suitable to attract top talent peer group for such a role, while looking at company's ability to pay vis-à-vis its budget.

The initial remuneration for CEO or any whole time director will be proposed by the CM/MD to the NRC consistent with the strategy of the Company and their Qualifications, Experience, Roles and Responsibilities. Pursuant to the provisions of section 203 of the Companies Act 2013 the Board shall approve the remuneration at the time of their appointment.

The initial remuneration for KMPs – CFO and CS will be proposed by the CEO & HR to the NRC consistent with the strategy of the Company and their Qualifications, Experience, Roles and Responsibilities. Pursuant to the provisions of section 203 of the Companies Act 2013 the Board shall approve the remuneration at the time of their appointment.

The initial remuneration for the Senior Management personnel shall be proposed by HR and approved by CEO. Remuneration for the new employees other than KMPs and Senior Management Personnel will be decided by the HR and business /line managers at the time of hiring, depending upon the relevant job experience, last compensation, position details and role maturity fitment; philosophy of which has been captured in the compensation handbook of the company.

The Total compensation is reviewed at least once every year based on company's performance and compensation philosophy and program. Compensation Revision is based on the performance, potential and market positioning of the role as determined through hiring& /attrition related data, surveys and benchmarks.

The annual review of remuneration for CEO or any whole time director will be proposed by the CM/MD to the NRC. Pursuant to the provisions of section 203 of the Companies Act 2013 the Board shall approve the remuneration at the time of their appointment.

The annual remuneration for KMPs – CFO and CS will be proposed by the CEO & HR Head to the NRC consistent with the strategy of the Company and their Qualifications, Experience, Roles and Responsibilities. Pursuant to the provisions of section 203 of the Companies Act 2013 the Board shall approve the remuneration at the time of their appointment.

Annual Review of Remuneration (TCTC) for all employees (others than KMPs, but including senior management) will be decided by the HR, in consultation with CEO for all senior management position and along with concerned business unit head/managers as per performance management process & compensation philosophy and approved personnel cost budget. Performance Management Handbook applies to all employees including senior management, CFO and CS. CEO performance is evaluated by the CM/MD based on business goals as determined annually.

CEO and the HR Head may approve incentive programs as may be required for managing routine business requirements like joining or retention. Any plan covering shares or Stock Option grants to the employees shall be approved by the NRC based on the recommendation of CEO and Head of HR.

All remunerations to directors or CEO will be in accordance to Companies Act 2013 or changes to the same as applicable from time to time, including restatement of accounts due to fraud or non-compliance.

Sitting fee for Independent directors: Sitting fees will be paid to the independent directors for the committee and board meetings, as approved by the board from time to time. This will be subject to the maximum limits, if any, prescribed by the Companies Act 2013.

Refundability of excess remuneration: Any excess remuneration paid will have to be refunded back by the director in case of restatements and no such waivers will be permitted.

Commission or remuneration from holding or subsidiary company: The total commission paid for the services to this Company will include any remuneration paid from either the holding company or the subsidiary company.

6. Policy on Awareness Training to the Independent Directors

The Independent directors at the time of their co-option shall be provided with an orientation by at least one of the senior leaders. They will also be provided with the material/literature regarding the Company's business and its operations, governing documents, information on key personnel and financial information to familiarize them with the Company. The Board will brief them on their roles and responsibilities in the various Committees. The Quarterly Board Meetings will contain an agenda item on 'Business Updates' which provides development in the business strategy of the Company among others. The CM depending on the business need may also nominate Independent Directors for relevant external training programs. Independent Directors may request for any additional information as deemed fit for the successful discharge of their role.

7. Process for Performance Evaluation of the Board as a whole

The process will be initiated each year by the Chairman of the NRC or any other person as authorized by the NRC.

- The Board will carry out annual evaluation of its own performance through its adopted self-evaluation criteria. Board evaluation process will be initiated each year by the chairman of NRC and will be coordinated by the Chairman of NRC or any other person authorized by the NRC. Each Board member will get an evaluation form as given in Annexure – I in the first week of April of each year.
- Board members have the option to disclose his/her name on the evaluation form.
- Board members shall complete the form and return it to the authorized person within two weeks of receipt of the form.
- Only Chairman of the board and the authorized person appointed by the NRC to coordinate this activity will have access to individual evaluation form.
- Chairman of the Board, will arrange to tabulate the results and present summary report to the Board during the first Board Meeting of the financial year. The summary report will include score against each of the evaluation criteria & verbatim comments without any names. Sample template has been included in Annexure II. Report for each individual member will also be shared without names of those who gave the feedback.
- The Board will initiate discussion based on individual feedback, broad & common areas that are working well and those that need attention. The Board will then decide if changes in its governance practices and policies need to be made going forward.

7.1. Process for Performance Evaluation of the Committees:

The Board has adopted the evaluation criteria for Committees as mentioned in Annexure -III. Each Committee member will get an evaluation form as given in Annexure – III for the Committee(s) he/she is part of in the first week of April of each year.

- Committee Members have the option to disclose his/her name on the evaluation form.
- Committee Members shall complete the forms and return them to the authorized person within two weeks of receipt of the forms.
- Only Chairman of the board and the authorized person appointed by the NRC to coordinate this activity will have access to individual evaluation form

- The Chairman NRC, with the assistance of any person, will tabulate the results and share the summary report with the respective Committee in their first meeting of the financial year. The summary report will include score against each of the evaluation criteria & verbatim comments without any names. Sample summary report template has been included in Annexure – IV.
- Each Committee will initiate discussion basis individual feedback, broad & common areas that are working well and those that need attention.
- The Chairman of the respective Committee will also present the summary report to the Board during its first Board Meeting of each financial year.

7.2. Process for Performance Evaluation of individual directors including Independent Directors

- The NRC will carry out performance evaluation of individual directors through peer evaluation of each Board member.
- The Key areas of evaluation are Knowledge of business, Diligence and preparedness, Effective interaction with others, Constructive contribution to discussion and strategy, Concern for stakeholders, attentive to the internal controls mechanism, and ethical conduct issues as the evaluation criteria.
- In the first week of April of each year, each Board member will get evaluation form as given in Annexure – V for each of their colleagues on the Board. Each Board member will complete evaluation of each of their colleagues. Board member does not have to disclose his/her name on the evaluation form.
- During the first Board meeting of the financial year, separate envelopes indicating name of each Board Member will be circulated in which each Board member will place the completed evaluation sheet of the assessed member in their respective envelope. For example, there will be separate envelopes for Director A, Director B & so on and these envelopes will be circulated to all the Directors to place the evaluation form of the specific Director in the envelope indicating his/her name.
- Once all the evaluation forms are placed in designated envelopes, each Board member will be handed over their respective envelope and will have the opportunity to go through their own peer evaluation scores during the meeting itself.
- After going through their respective evaluation scores by their peers, the Board members will hand over their envelope to the Board chairperson during that meeting.
- Subsequently, the Board chairperson, will go through the contents of the envelope, and if necessary, will meet with each Director individually as part of the evaluation process to identify and discuss the outcome. The separate envelopes containing peer evaluation forms for each individual Director will remain with the Board chairperson and will be kept confidential.
- The NRC on the basis of evaluation scores of the concerned member shall recommend to the Board to extend or continue the term of appointment of the Board member. In case of the upcoming reappointment of any of the NRC member, the concerned member will not participate and others on the committee will be given access to all the available forms of the concerned member as detailed above to continue with the recommendation process.

8. Board's Diversity

A truly diverse Board will make good use of differences in the skills, regional and industry experience, background, race, gender and other distinctions. These differences will be considered in determining the optimum composition of the Board and when possible should be balanced appropriately. The Board appointments should be based on merit that complements and expands the skills, experience, expertise of the Board as a whole, taking into account knowledge, professional experience, qualifications, gender, age, cultural, educational background, statutory / regulatory requirement and any other factors that might be relevant and applicable from time to time for it to function effectively.

NRC considers the functional diversities in determining the optimum composition of the Board.

9. Amendment

The Policies may be changed at any time by the Board on the recommendation of NRC. However, the NRC shall have the authority to change the Evaluation Form at any time during the year with the objective of seeking more inputs from the Individual Directors

In the event of any statement in the policy contradicting with law, the law will supersede as applicable from time to time.

ANNUAL REPORT ON CSR ACTIVITIES FOR FINANCIAL YEAR 2021-22

1. Brief outline on CSR Policy of the Company:

Our CSR vision is to make concerted efforts towards promotion of education amongst the underprivileged while also promoting initiatives for employability and entrepreneurship. Employability & Entrepreneurship readiness covers all or relevant aspects of education, skills and capabilities development which is to be imparted to children, youth and adults of any age groups to attain these objectives.

The policy aims to:

a. Demonstrate commitment towards the common good

b. Engender a sense of empathy & responsibility amongst employees to motivate them to give back to the society

c. Partner with group companies to promote quality education for the under privileged sections of the society

The Company may also support causes related to sustainable development of green environment or topical events adversely impacting a large section of the society; provided they are covered as per the statutory requirements.

The Corporate Social Responsibility (CSR) policy can be viewed at: https://www.comviva.com/wp-content/uploads/2021/09/CSR-Policy_22nd-April-2021.pdf

CONTENTS OF CORPORATE SOCIAL RESPONSIBILITY POLICY

Our CSR vision is to make concerted efforts towards promotion of education amongst the underprivileged while also promotinginitiatives for employability and entrepreneurship.

Employability & Entrepreneurship readiness covers all or relevant aspetcs of education, skills and capabilties development which is to be imparted to children, youth and adults of any age groups to attain these objectives.

The policy aims to:

1. Demonstrate commitment towards the common good
2. Engender a sense of empathy & responsibility amongst employees to motivate them to give back to the society
3. Partner with group companies to promote quality education for the under privileged sections of the society

The Company may also support causes related to sustainable development of green environment or topical events adversely impacting a large section of the society; provided they are covered as per the statutory requirements.

Topical CSR support may be one time or time bound investment made under other possible areas. These spends would be pre-approaved by the CSR Committee; if the expected outlay is more than 20% of the approved annual CSR budget. If the fund is spent from the approved annual CSR budget and within 20% limit, the same may be shared in the quarterly CSR review meetings as a pre or post information report.

Scope and Applicability

This Policy is applicable to Comviva Technologies Limited India (hereby referred to as Company) and will apply to all the CSR projects/programmes undertaken by the Company.

Guidelines

1. The CSR program will be overseen under the aegis of the CSR Committee
2. The CSR Committee is formulated with reference to the Section 135 of the Companies Act 2013 (referred to as Act) on CSR and in accordance with the CSR rules (hereby referred to as Rules)
3. CSR Committee
    a. It will formulate & recommend to Board a CSR Policy which shall provide an indicative list of broad activities aligned to the CSR Policy which shall be undertaken. The CSR Policy will also include the recommendation for the budget/expenditure as may be needed for the full fiscal
    b. The CSR Committee will monitor the CSR policy of the Company from time to time and recommend modifications to the CSR Policy, as and when required
4. Board of Directors
    a. They will review recommendations made by the CSR Committee, approve the CSR Policy of the Company and ensure that every financial year, the funds committed by the Company for CSR activities are utilized effectively by regularly monitoring the implementation.
    b. They would disclose the content of the policy in Company's report & website as per the prescribed format. Should that be the case, they would disclose the reasons for underspending of the allocated CSR budget in the Board's report.
5. They would ensure annual reporting of CSR policy to the Ministry of Corporate Affairs, Government of India as per the prescribed format

Identification of CSR Actitives and Projects

1. CSR SPOCs (as appointed by the Head of HR) will work closely with internal management members or employees to implement specific CSR programs and activities
2. Management would evaluate various NGO's and projects from time to time which can be taken up as part of the CSR activity by the larger organization, looking at the following broad parameters:
    a. The project should be in line with the CSR Vision of the Company
    b. The NGO (if involved) should have established processes on governance like Audits, Annual Reports etc
    c. The NGO should have been a registered NGO and should have been undertaking similar programs or projects for at least 3 years
    d. Support or donations aligned with Company's CSR vision or as covered by the CSR guidelines under the statute would be also be considered as an exception, though they may not be covered under the sections a to b above
3. The program will ensure that there is involvement and contribution in the CSR initiatives driven by Group Companies

Reporting

To ensure funds spent on CSR programmes are creating the desired impact on the ground, a monitoring and reporting framework will be used. Status of the programs and their perceived impact would be shared on a periodic basis as per the roles defined.

Deviations

Any deviation to this Policy requires an approval from the Head of Human Resources. Management reserves the right to modify this policy without prior notice.

INDEPENDENT AUDITOR'S REPORT

To the Members of Comviva Technologies Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Comviva Technologies Limited (the " Company"), which comprise the standalone balance sheet as at 31 March 2022, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, and its profit and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Director's report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Director are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
    b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
    c) The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account.
    d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
    e) On the basis of the written representations received from the directors as on 31 March 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”.

(B) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditor’s) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

a) The Company has disclosed the impact of pending litigations as at 31 March 2022 on its financial position in its standalone financial statements - Refer Note 28 to the standalone financial statements.

b) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

c) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

d) (i) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:

- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Company or
- provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

(ii) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall:

- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Funding Party or
- provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries.

(iii) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (d) (i) and (d) (ii) contain any material mis-statement.

e) The dividend declared or paid during the year by the Company is in compliance with Section 123 of the Act.

(C) With respect to the matter to be included in the Auditor’s Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON STANDALONE FINANCIAL STATEMENTS

(Referred to in our report of even date)

(i) (a) (A) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(i) (a) (B) According to the information and explanations given to us, the Company has maintained proper records showing full particulars of intangible assets.

(i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified once in a period of two years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.

(i) (c) The Company does not have any immovable property (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee). Accordingly, clause 3(i)(c) of the Order is not applicable.

(i) (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

(i) (e) According to information and explanations given to us and on the basis of our examination of the records of the Company, the Company does not hold any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

(ii) (a) The inventory, except stocks lying with third parties, has been physically verified by the management during the year. For stocks lying with third parties at the year-end, written confirmations have been obtained. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the books of account of the Company.

(iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has made investments and granted unsecured loans to companies, in respect of which the requisite information is as below. The Company has not provided any unsecured loans guarantee or security to companies, firms, limited liability partnerships or any other parties during the year.

(a) Based on the audit procedures carried on by us and as per the information and explanations given to us, the Company has provided unsecured loans to any other entity as below:

Particulars	**Loans (₹ Million)**
Aggregate amount during the year - Subsidiaries (As per the Companies Act, 2013)	37.50
Balance outstanding as at balance sheet date - Subsidiaries (As per the Companies Act, 2013)	15.00

(b) According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion the investments made, guarantees provided, security given during the year and the terms and conditions of the grant of loans and advances in the nature of loans and guarantees provided during the year are, prima facie, not prejudicial to the interest of the Company.

(c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in the case of loans given, in our opinion the repayment of principal and payment of interest has been stipulated and the repayments or receipts have been regular. Further, the Company has not given any advance in the nature of loan to any party during the year.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the

Company, there is no overdue amount for more than ninety days in respect of loans given. Further, the Company has not given any advances in the nature of loans to any party during the year.

(e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no loan or advance in the nature of loan granted falling due during the year, which has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to same parties.

(f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment.

(iv) According to the information and explanations given to us and on the basis of our examination of records of the Company, in respect of investments made and loans, guarantees and security given by the Company, in our opinion the provisions of Section 185 and 186 of the Companies Act, 2013 ("the Act") have been complied with.

(v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.

(vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act for the products manufactured by it (and/or services provided by it). Accordingly, clause 3(vi) of the Order is not applicable.

(vii) (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective 1 July 2017, these statutory dues has been subsumed into GST.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax ('GST'), Provident fund, Income-Tax, Duty of Customs, Cess and other statutory dues have been regularly deposited by the Company with the appropriate authorities.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of Goods and Services Tax ('GST'), Provident fund, Income-Tax, Duty of Customs, Cess and other statutory dues were in arrears as at 31 March 2022 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, statutory dues relating to Goods and Service Tax, Provident Fund, Income-Tax, Duty of Customs or Cess or other statutory dues which have not been deposited on account of any dispute are as follows:

Name of the statute	Nature of the dues	Amount (₹ million)	Period to which the amount relates	Forum where dispute is pending	Amount paid under protest (₹ Million)
Income Tax Act, 1961	Income Tax	148	FY 2012-13 & FY 2013-14	Commissioner of Income Tax (Appeals)	-

(viii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.

(ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any loans or borrowings from any lender during the year. Accordingly, clause 3(ix)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any loans or borrowings during the year and accordingly, the Company has not been declared a wilful defaulter by any bank or financial institution or government or government authority.

(c) According to the information and explanations given to us by the management, the Company has not obtained any term loans during the year. Accordingly, clause 3(ix)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we report that no funds raised on short-term basis have been used for long- term purposes by the Company.

(e) According to the information and explanations given to us and on an overall examination of the standalone financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries as defined under the Act.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, as defined under the Act.

(x) (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) Accordingly, clause 3(x)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable.

(xi) (a) Based on examination of the books and records of the Company and according to the information and explanations given to us, no fraud by the Company or on the Company has been noticed or reported during the course of the audit.

(b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.

(xii) (a) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.

(b) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.

(c) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us, the transactions with related parties are in compliance with Section 177 and 188 of the Act, where applicable, and the details of the related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.

(xiv) (a) Based on information and explanations provided to us and our audit procedures, in our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the internal audit reports of the Company issued till date for the period under audit.

(xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.

(xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.

(b) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable.

(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.

(d) According to the information and explanations provided to us, the Group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016) has more than one CIC as part of the Group. The Group has six CICs as part of the Group.

(xvii) The Company has not incurred cash losses in the current and in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) In our opinion and according to the information and explanations given to us, there is no unspent amount under sub-section (5) of Section 135 of the Act pursuant to any project. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT ON THE STANDALONE FINANCIAL STATEMENTS OF COMVIVA TECHNOLOGIES LIMITED FOR THE YEAR ENDED 31 MARCH 2022

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2 (A) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to standalone financial statements of Comviva Technologies Limited ("the Company") as of 31 March 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial controls with Reference to Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial controls with Reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Securities Premium

Securities premium reserve is used to record the premium on issue of shares

Capital Reserve

The Company recognises profit and loss on purchase, sale, issue or cancellation of the Company's own equity instruments to capital reserve.

Retained Earnings:

Retained earnings represents the undistributed profits of the Company accumulated as on Balance Sheet date.

Cash Flow Hedging Reserve :

The cash flow hedging reservere presents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cashflow hedges. Such gains or losses will be reclassified to statement of profit and loss in the period in which the hedged transaction occurs.

1. Company Overview

Comviva Technologies Limited ("the Company") is provider of mobility solutions and a part of Mahindra Group. The company's offerings are broadly divided into three categories: Financial Solutions, Digital Systems and Growth Marketing. Its extensive portfolio of solutions spans digital financial services, customer value management, messaging and broadband solution and digital lifestyle services. The company strives to enable service providers to enhance customer experience, resolve real, on-ground challenges and leverage technology to transform the lives of customers. Comviva's solutions are deployed at various service providers and financial institutions and enrich the lives of people to deliver a better future.

The Company is a subsidiary of Tech Mahindra Limited.

The standalone financial statements ('financial statement') for the year ended March 31, 2022 were approved by the Board of Directors and authorised for issue on May 03, 2022.

2. Significant Accounting Policies

2.1 Statement of Compliance

The standalone financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015.

2.2 Basis for preparation of financial statements

These standalone financial statements are presented in Indian rupees ("INR") which is also the Company's functional currency. All amounts have been reported in Indian Rupees Million, except for share and earnings per share data, unless otherwise stated. These standalone financial statements have been prepared on the historical cost basis and on accrual basis, except for certain financial instruments which are measured at fair values at the end of each reporting period as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purpose in these standalone financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 Inventories or value in use in Ind AS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability. Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The financials statements of Comviva ESOP trust has also been consolidated with Comviva Technologies Ltd. (India) financials.

2.3 Use of Estimates:

The preparation of financial statements requires the management of the company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

Critical accounting estimates

i) Revenue Recognition

The Company applies the proportionate method for measurement of performance obligation in accounting for its fixed price development contracts. Use of the proportionate method requires the Company to estimate the efforts to date as a proportion of the total budgeted efforts. Efforts have been used to measure progress towards completion as there is a direct relationship between input and productivity.

ii) Income taxes

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. The policy for the same has been explained under Note 2.12.

iii) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the time the asset is acquired and reviewed at the end of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. The policy for the same has been explained under Note 2.4.

iv) Impairment of Investments

The Company reviews its carrying value of investments in subsidiaries and other entities at cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

v) Provisions

Provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. The policy for the same has been explained under Note 2.14.

2.4 Property, Plant & Equipment and Other Intangible assets

Property, Plant & Equipment and Other Intangible assets are stated at actual cost less accumulated depreciation and net of impairment. The actual cost capitalized includes material cost, freight, installation cost, duties and taxes, eligible borrowing costs and other incidental expenses incurred during the construction / installation stage.

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on Property, Plant & Equipment including assets taken on lease, other than freehold land is charged based on straight line method on an estimated useful life as prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, where the life of the assets has been assessed based on technical advice, considering the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Type of Asset	Estimated useful life
Plant and Equipment (including Computers)	3 year
Plant and Equipment (Electrical Equipment)	5 year
Office Equipment	5 year
Furniture and Fixtures	5 year

The estimated useful lives and residual values of the Property, Plant & Equipment and Other Intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of Property, Plant & Equipment and intangible assets is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant & Equipment and intangible assets is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the profit or loss.

Improvements to leased premises are amortized over their estimated useful life or period of the lease, whichever is shorter.

Assets costing up to ₹ 5,000 are fully depreciated in the year of purchase except when they are part of a larger capital investment programme.

Computer Software and hardware acquired for specific projects are amortized over the initial contract life of the project.

The cost of Software purchased for internal use is capitalized and depreciated in full in the month in which it is put to use.

Intellectual Property Right (IPR) is amortized over a period of 4 years.

2.5 Leases

At inception of the contract, the Company determines whether the contract is a lease or contains a lease arrangement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the standalone statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in standalone statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 Revenue from Customer Contracts to allocate the consideration in the contract.

2.6 Impairment of Assets

i) Financial assets

Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Impairment loss on financial assets carried at amortized cost is measured at the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. In a subsequent period, if the amount of impairment loss decreases and the decrease can be related objectively to an event, the previously recognized impairment is reversed through Statement of profit and loss.

ii) Non-financial assets

Property, Plant & Equipment and Other Intangible assets

Property, Plant and Equipment and Other intangible assets with finite life are evaluated for recoverability when there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognized in the Statement of profit and loss.

2.7 Inventories

Inventories are stated at lower of cost or net realizable value. In determining the cost of materials, the weighted average cost method is used.

2.8 Revenue recognition

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.

Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.

Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered, revenue against these services recognised over the period of time using proportionate method for measuring performance obligation.

Revenue on fixed price development contracts is recognised using the 'percentage of completion' method of accounting, unless work completed cannot be reasonably estimated. Percentage of completion is determined based on actual hours incurred to date as a percentage of total budgeted hours required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. If the Company does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognised only to the extent of contract cost incurred for which recoverability is probable.

Revenue from the sale of distinct third party hardware is recognised at the point in time when risk and rewards is transferred to the customer.

The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue (“contract liability”) is recognised when there is billings in excess of revenues.

Use of significant judgments in revenue recognition.

The Company’s contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company uses judgement to determine an appropriate standalone selling price for a performance obligation. The Company allocates the transaction price to each performance obligation on the basis of the relative stand-alone selling price of each distinct product or service promised in the contract. Where standalone selling price is not observable, the Company uses the expected cost plus margin approach to allocate the transaction price to each distinct performance obligation.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered

Dividend income is recognized when the Group’s right to receive dividend is established.

2.9 Foreign currency transactions

The functional currency of the company is Indian Rupees (INR).

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the dates of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are included in the Statement of profit and loss.

2.10 Financial Instruments:

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognized in Statement of profit and loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortized cost is carried at fair value through profit and loss (FVTPL) on initial recognition, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investment in equity instruments which are not held for trading.

The Company, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in other comprehensive income subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses arising on re-measurement recognized in Statement of profit and loss.

Investment in subsidiaries

Investment in subsidiaries is carried at cost less impairment as per Ind AS 27 Consolidated and Separate Financial Statements.

Financial liabilities

Financial liabilities maturing after one year are subsequently carried at amortized cost using the effective interest method.

For trade payables and other financial liabilities maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derivative financial instruments and hedge accounting

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. The Company designates some of these as cash flow hedges applying the recognition and measurement principles set out in the Ind AS 109.

The use of foreign currency forward contracts is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Company's risk management strategy. The counter party to the Company's foreign currency forward contracts is generally a bank. The Company does not use derivative financial instruments for speculative purposes.

Foreign currency forward contract derivative instruments are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognized in other comprehensive income and accumulated under hedging reserve and the ineffective portion is recognized immediately in the Statement of Profit and Loss.

Amounts previously recognized in other comprehensive income and accumulated in hedging reserve are reclassified to profit or loss in the same period in which gains/losses on the item hedged are recognized in the Statement of Profit or Loss. However when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognized in other comprehensive income and accumulated in hedging reserve are transferred from hedging reserve and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Any Profit or Loss arising on cancellation or renewal of such a forward exchange contract is recognized as income or as expense in the period in which such cancellation or renewal occurs. Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognized in the Statement of Profit and Loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on the hedging instrument classified in hedging reserve is retained there and is classified to Statement of Profit and Loss when the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognized in hedging reserve is transferred to the Statement of Profit and Loss for the period.

iii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

2.11 Employee benefits

i) Gratuity:

The Company accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method for India location. Certain overseas branches of the company also provide for retirement benefit plans in accordance with local laws.

Actuarial gains and losses are recognized in full in other comprehensive income and accumulated in equity in the period in which they occur. Past service cost is recognized in profit or loss in the period of a plan amendment.

ii) Provident fund:

The eligible employees of the Company are entitled to receive the benefits of Provident fund in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary (currently at 12% of the basic salary) which are charged to the Statement of Profit and Loss on accrual basis. Contribution is made to recognised provident fund with effect from September 1, 2020. Till August 31, 2020 a portion of the contribution was made to the approved provident fund trust managed by the Company while the remainder of the contribution is made to the government administered pension fund. The contributions to the trust managed by the Company is accounted for as a defined benefit plan as the Company is liable for any shortfall in the fund assets based on the government specified minimum rates of return.

iii) Compensated absences:

The Company provides for the compensated absences subject to Company's certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is provided based on the number of days of unavailed leave at each Balance Sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method for India location and some branches of Company, whereas provision for encashment of unavailed leave on retirement is made on actual basis for other branches of Company.

Actuarial gains and losses are recognized in full in the Statement of Profit and Loss in the period in which they occur. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date.

iv) Other short term employee benefits:

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for the services rendered by employees, are recognized during the period when the employee renders the service.

2.12 Taxation:

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the respective countries.

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the income taxes or deferred taxes are recognized in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying units intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is probable evidence that the Company will pay normal income tax in future.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

2.13 Earnings per share

Basic earnings/(loss) per share are calculated by dividing the net profit/(loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the year and also after the Balance Sheet date but before the date the financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings/(loss) per share, the net profit/(loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

2.14 Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities and Contingent assets are not recognized in the financial statements.

2.15 Provision for Warranty

The Company has an obligation by way of warranty to maintain the software during the period of warranty, which may vary from contract to contract. Costs associated with such sale are accrued at the time when related revenues are recorded and included in cost of service delivery. The Company estimates such cost based on historical experience and the estimates are reviewed periodically for material changes in the assumptions.

2.17 Research and Development

Research costs are recognized in the statement of profit and loss in the period it is incurred. Development costs are recognized in the statement of profit and loss in the period it is incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use the asset and the costs can be measured reliably.

2.18 Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of cost of that asset. All other borrowing costs are charged to the statement of profit and loss.

2.19 Recent accounting pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

Ind AS 16 – Property Plant and equipment - The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its standalone financial statements.

Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets – The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.

V] Actuarial (Gain)/Loss recognized in Other Comprehensive Income

₹ in million

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
Actuarial (gain)/loss due to defined benefit obligation experience	**(35)**	0
Actuarial (gain)/loss - demographic assumptions	**-**	-
Actuarial (gain)/loss due to defined benefit obligation assumption changes	**(5)**	12
Remeasurement- Return on plan assets excluding amount included in interest income	**0**	(2)
Net (gain)/loss recognised in Other Comprehensive Income	**(40)**	10

VI] Assumptions

Particulars	As at March 31, 2022	As at March 31, 2021
Discount Rate	**6.30%**	5.90%
Salary Escalation Rate	**7.00%**	6.00%
Mortality Rate	**Indian Assured Lives Mortality (2006-08) Ult.**	Indian Assured Lives Mortality (2006-08) Ult.
Employee Separation Rate	**17.00%**	17.00%

a) Discount rate : It is based upon the market yields available on Government Bonds at the accounting date with a term that matches that of the liabilities.

b) Salary Escalation Rate: The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

c) Employee separation Rate: The assumption of Employee separation rate represents the Company's expected experience of employee turnover.

VII] Sensitivity analysis

A quantitative sensitivity analysis for significant assumption as at March 31, 2022 and March 31, 2021 is as shown below:

₹ in million

Particulars	As at March 31, 2022	As at March 31, 2021
A: Discount rate		
1. Effect on DBO due to 0.5% increase in discount rate	**(5)**	(4)
2. Effect on DBO due to 0.5% decrease in discount rate	**5**	4
B: Salary Escalation Rate		
1. Effect on DBO due to 0.5% increase in Salary escalation rate	**4**	4
2. Effect on DBO due to 0.5% decrease in Salary escalation rate	**(4)**	(3)
C: Withdrawal Rate		
1. Effect on DBO due to 5% increase in withdrawal rate	**(3)**	(1)
2. Effect on DBO due to 5% decrease in withdrawal rate	**3**	2

The sensitivity analysis above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Method used for sensitivity analysis: The sensitivity results above determine their individual impact on the Plan's end of year Defined Benefit Obligation. In reality, the Plan is subject to multiple external experience items which may move the Defined Benefit Obligation in similar or opposite directions, while the Plan's sensitivity to such changes can vary over time.

VIII] Disclosure related to indication of effect of the defined benefit plan on the entity's future cash flows: (₹ in million)

Trade payables includes creditors for capital goods.

28 Contingent Liabilities and Commitments:

(i) Contingent Liabilities:

₹ in million

Sr. No.	Particulars	As at March 31, 2022	As at March 31, 2021
1	Corporate Guarantee (refer note I)	**-**	2,011
2	Income tax matters (refer note II)	**1,592**	907
3	Indirect tax matters (refer note III)	**408**	427
4	Other claims against the Company not acknowledged as debts (refer note IV)	**48**	48

Note:

I Corporate Guarantee

The Company had given a letter of comfort to bank for credit facilities availed by its subsidiary amounting to Nil and INR 2011 million as at March 31, 2022 and March 31, 2021. The Company had provided guarantees to third parties on behalf of its subsidiaries. The Company does not expect any outflow of resources in respect of the above.

II Income Tax Matter:

The Company has ongoing disputes with income tax authorities relating to tax treatment of certain items. The disputes relate to tax treatment of certain expenses claimed as deductions, computation and eligibility of tax incentives or allowances. The Company has contingent liability in respect of demands from direct tax authorities in India and other jurisdictions, which are being contested by the Company on appeal amounting 1,592 million and 907 million as at March 31, 2022 and March 31, 2021 respectively. The Company periodically receives notices and inquiries from income tax authorities related to the Company's operations in the jurisdictions it operates in. The Company has evaluated these notices and inquiries and has concluded that any consequent income tax claims or demands by the income tax authorities will not succeed on ultimate resolution. The number of years that are subject to tax assessments varies depending on tax jurisdiction. The major tax jurisdictions of Comviva Technologies Limited include India and African countries. In India, tax filings from fiscal 2017 are generally subject to examination by the tax authorities. In African counties, the statute of limitation vary by state.

III Indirect Tax Matter:

The Company has ongoing disputes with tax authorities mainly relating to availment of input tax credit and indirect tax matters. The Company has demands amounting to 408 million and 427 million as at March 31, 2022 and March 31, 2021, respectively from various indirect tax authorities which are being contested by the Company based on the management evaluation and on the advice of tax consultants.

IV Other Claims:

Other claims aggregating INR 48 million and INR 48 million as at March 31, 2022 and March 31, 2021, respectively, against the Company have not been acknowledged as debt. The amounts assessed as contingent liability do not include interest that could be claimed by counter parties.

(ii) Commitments :

₹ in million

Sr. No.	Particulars	**As at March 31, 2022**	As at March 31, 2021
1	Estimated amount of contracts remaining to be executed on capital account and not provided for	**151**	62

29. Financial Instruments

The Company's Board of Directors have an overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions.

I] Financial instruments by category

The carrying value and fair value of financial instruments by categories as at March 31, 2022 were as follows:

₹ in million

Particulars	Amortised cost*	Financial assets/ liabilities at fair value through profit or loss	Derivative instruments in hedging relationship	Total carrying value	Total fair value*
Assets:					
Investment in bonds-quoted (Refer note 4 (i) (b))	-	12	-	12	12
Investment in mutual fund (Refer note 4 (ii))	-	954	-	954	954
Cash and cash equivalents (refer note 10)	674	-	-	674	674
Other balances with banks (refer note 11)	7	-	-	7	7
Trade receivables (refer note 9)	4,398	-	-	4,398	4,398
Loans (refer note 5)	15	-	-	15	15
Other financial assets (refer note 12(i) & 12(ii))	222	1	7	230	230
Total	5,317	967	7	6,290	6,290
Liabilities:					
Trade payables (refer note 18)	1,104	-	-	1,104	1,104
Lease Liability	222	-	-	222	222
Other financial liabilities (refer note 19(i) & 19(ii))	388	-	-	388	388
Total	1,714	-	-	1,714	1,714

*Fair value of amortised assets is same as carrying value

The carrying value and fair value of financial instruments by categories as at March 31, 2021 were as follows:

₹ in million

Particulars	Amortised cost*	Financial assets/ liabilities at fair value through profit or loss	Derivative instruments in hedging relationship	Total carrying value	Total fair value*
Assets:					
Investment in bonds-quoted (Refer note 4 (i) (b))	-	-	-	-	-
Investment in mutual fund (Refer note 4 (ii))	-	1,502	-	1,502	1,502
Cash and cash equivalents (refer note 10)	722	-	-	722	722
Other balances with banks (refer note 11)	39	-	-	39	39
Trade receivables (refer note 9)	3,911	-	-	3,911	3,911
Loans (refer note 5)	17	-	-	17	17
Other financial assets (refer note 12(i) & 12(ii))	1,478	31	9	1,518	1,518
Total	6,167	1,533	9	7,709	7,709
Liabilities:					
Trade payables (refer note 18)	1,091	-	-	1,091	1,091
Lease liability	284	-	-	284	284
Other financial liabilities (refer note 19(i) & 19(ii))	541	-	-	541	541
Total	1,916	-	-	1,916	1,916

*The fair value of cash and cash equivalents, other balances with bank, trade receivables, trade payables and certain other financial assets and liabilities approximate their carrying amount largely due to the short term nature of these instruments.

II] Fair Value Hierarchy

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

₹ in million

Particulars	As at March 31, 2022	Fair value measurement as at end of the reporting period using

III] Financial Risk Management

Financial Risk Factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

(i) Market risk

Market risk is the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company exposure to market risk is primarily on account of foreign currency exchange rate risk.

(a) Foreign currency exchange rate risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar, Euro against the respective functional currency of the Company. The Company, as per its risk management policy, uses derivative instruments primarily to hedge foreign exchange currency risk. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. It hedges a part of these risks by using derivative financial instruments in line with its risk management policies. The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the respective functional currency of the Company. Further the exposure as indicated below is mitigated by some of the derivative contracts entered into by the Company as disclosed in note below.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the year are as follows:

₹ in million

Particulars	Currency	As at March 31, 2022	As at March 31, 2021
Financial assets	EUR	**946**	1,021
	USD	**2,297**	2,293
	Others	**875**	219
Financial liabilities	EUR	**49**	64
	USD	**526**	593
	Others	**221**	53

Forex sensitivity analysis:

A reasonably possible strengthening by 10% of EUR, USD and XAF against the Indian Rupee as at March 31, 2022 and March 31, 2021 will affect the statement of profit and loss by the amounts shown below:

₹ in million

Currency	As at March 31, 2022	As at March 31, 2021
EUR	**90**	96
USD	**177**	170

(b) Foreign Exchange Contracts

The Company is exposed primarily to fluctuations in foreign currency exchange rates, credit risk and liquidity risk which may impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential effects on the financial performance of the Company.

The Company enters into foreign Exchange Forward Contracts to offset the foreign currency risk arising from the amounts denominated in currencies other than the Indian Rupee. The counter party to the Company's foreign currency Forward Contracts is generally a bank. These contracts are entered into to hedge the foreign currency risks of certain forecasted transactions. These contracts are for a period lies between 1 day to 1 year.

The following are the principal amounts of outstanding foreign currency exchange forward entered into by the Company which have been designated as Cash Flow Hedges:

Currency	Amount outstanding as at March 31, 2022 in foreign currency	Fair value Gain/ (loss) in ₹
In USD	20.50 million	6 million
	(March 31, 2021: 17.72 mn)	(March 31, 2021: 36 mn)
In Euro	1.45 million	2 million
	(March 31, 2021: 1.24 mn)	(March 31, 2021: 4 mn)

The movement in hedging reserve for derivatives designated as Cash Flow Hedges is as follows:

Particulars	As at March 31, 2022	As at March 31, 2021
(a) Balance at the beginning of the year	**9**	11
(b) Changes in the fair value of effective portion of derivatives - (loss)/gain	**(32)**	61
(c) Net loss/(gain) reclassified to statement of profit and loss on occurance of hedged forcasted transactions	**30**	(63)
(d) (Loss)/gain on cash flow hedging derivatives, net (b+c)	**(3)**	(2)
(e) Balance at the end of the year	**7**	9
(f) Tax impact on effective portion of outstanding derivatives	**(2)**	(2)
(g) Balance at the end of the year, net of deferred tax (e+f)	**5**	7

(ii) Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, unbilled revenue, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company result in material concentration of credit risk.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units, quoted bonds issued by government and quasi government organizations with high credit ratings.

Credit Risk Exposure

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹ 4,629 million and ₹ 5,428 million as at March 31, 2022 and March 31, 2021 respectively, being the total of the carrying amount of trade receivables, unbilled revenue (excluding contract assets) and other various financial assets.

Trade receivable

Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses financial position at each reporting date whether a financial asset or a group of financial assets is impaired. The Company recognises lifetime expected losses for all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The Company's exposure to customers is diversified and no single customer contributes to more than 10% of outstanding accounts receivable and unbilled revenue as of March 31, 2022 and March 31, 2021. The concentration of credit risk is limited due to the fact that the customer base is large.

The expected credit loss allowance is based on the ageing of receivables and the rates in the provision matrix. Movement in the expected credit loss allowance is as follows:

₹ in million

Particulars	As at March 31, 2022	As at March 31, 2021
Balance at the beginning of the year	**841**	613
Provided during the year	**489**	458
Reversed/utilised during the year	**(432)**	(229)
Reinstatement impact	**5**	(1)
Balance at the end of the year	**903**	841

(iii) Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligation. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2022

₹ in million

Particulars	Less Than 1 Year	More Than 1 Year	Total
Borrowings	-	-	-
Lease Liabilities	79	143	222
Trade Payables	1,104	-	1,104
Other financial liabilities	388	-	388

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2021

₹ in million

Particulars	Less Than 1 Year	More Than 1 Year	Total
Borrowings	-	-	-

Note: Provision for warranty is estimated and made based on technical estimates of the management and is expected to be settled over the period of next year.

34 Segment Information has been presented in the Consolidated Financial Statements in accordance with Indian Accounting Standard Ind AS 108, Operating Segments as notified under the Companies (Indian Accounting Standard) Rules, 2015.

35 The Company has accounted as an expense of ₹ 10 million (year ended March 31, 2021: ₹ 16 million) pertaining to amortised cost of stock options granted to certain employees of the Company granted by Tech Mahindra Limited, its holding Company. This cost is being accounted as an employee benefits expense.

36 Based on the information available with the Company, following creditors have been identified as "Supplier" within the meaning of Micro, Small and Medium Enterprises Development (MSMED) Act, 2006.

Disclosures under Micro, Small and Medium Enterprises Development Act, 2006 (MSMED)

Dues to micro and small suppliers	**As at March 31, 2022**	As at March 31, 2021
The amounts remaining unpaid to micro and small suppliers as at the end of the year:		
Principal	**20**	16
Interest	**-**	-
The amounts of the payments made to micro, small and medium suppliers beyond the appointed day during each accounting year.	**-**	-
The amount of interest paid under the act beyond the appointed day during the year	**-**	-
The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under MSMED	**-**	-
The amount of interest accrued and remaining unpaid at the end of each accounting year.	**-**	2
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under the MSMED	**-**	-

The management has identified enterprises which have provided goods and services to the Company and which qualify under the definition of micro and small enterprises, as defined under Micro, Small and Medium Enterprises Development Act, 2006 (MSMED). Accordingly, the disclosure in respect of the amounts payable to such enterprises as at March 31, 2022 and March 31, 2021 has been made in the financial statements based on information received and available with the Company.

37 Disclosures for revenue from contracts with customers

a) Disaggregation of revenue

Revenue disaggregation by nature of services is as follows:

₹ in million

Nature of Services	**For the year ended March 31, 2022**	For the year ended March 31, 2021
Licence fee with implementation and other services	**4,500**	3,639
Revenue sharing arrangements	**466**	540
Annual maintenance contract services	**1,500**	1,618
Income from sale of equipments and software (third party)	**251**	772
Total	**6,717**	6,570

Revenue disaggregation by geography is as follows:

₹ in million

Geography	**For the year ended March 31, 2022**	For the year ended March 31, 2021
India	**673**	1,042
Rest of world	**6,044**	5,528
Total	**6,717**	6,570

b) Significant changes in the contract assets balances is as follows:

₹ in million

Particulars	**For the year ended March 31, 2022**	For the year ended March 31, 2021
Opening balance	**346**	364
Add: Revenue recognised during the period	**435**	215
Less: Invoiced during the period	**(215)**	(182)
Add/less: Others	**(18)**	(51)
Closing balance	**548**	346

c) Remaining performance obligations

The remaining performance obligations disclosure provides the aggregate amount of the transaction price yet to be recognised as of the end of the reporting period and an explanation as to when the Company expects to recognise these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation for contracts where the performance obligation is a part of a contract that has an original expected duration of one year or less or the entity has a right to consideration from a customer in an amount that corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in scope of contracts, periodic revalidations, adjustments for revenue that has not materialized and adjustments for currency.

d) Significant changes in the contract liabilities balances is as follows:

₹ in million

Unearned Revenue	**For the year ended March 31, 2022**	For the year ended March 31, 2021
Opening balance	**21**	50
Less: Revenue recognised during the period that was included in the unearned revenue at the beginning of the year	**(21)**	(38)
Add: Invoiced during the period (excluding revenue recognized during the year)	**19**	9
Closing balance	**19**	21

e) The following table provides information in respect of amount of revenue recognised in the statement of profit and loss with the contracted price showing separately each of the adjustments made to the contract price:

₹ in million

Particulars	**For the year ended March 31, 2022**	For the year ended March 31, 2021
Contracted transaction for the year	**6,733**	6,570
Less: Adjustment for penalties / liquidated damages	**(16)**	-
Revenue recognized in the statement of profit and loss for the year	**6,717**	6,570

3 customers represents 10% or more of the Company's total revenue during the years ended.

38 Income Tax Expense

Tax expense in the statement of profit and loss comprises:

₹ in million

Particulars	**For the year ended March 31, 2022**	For the year ended March 31, 2021
Current tax:		
-Tax expense related to current year	**1,098**	614
-Tax expense related to earlier year	**-**	-
Total Current tax	**1,098**	614

The tax expense for the period can be reconciled to the accounting profit as follows:

₹ in million

Particulars	For the year ended March 31, 2022	For the year ended March 31, 2021
Profit before Tax	**1,539**	1,954
Enacted/effective tax rate	**25.17%**	25.17%
Income tax expense calculated at enacted/effective tax rate	**387**	492
Effect of expenses/income that are not admissible in determining taxable profit^	**131**	101
Effect of income taxes related to prior years^	**519**	-
Effect of tax on income at different rates	**33**	12
Others	**28**	9
Income tax expense recognised in profit or loss	**1,098**	614

^ Includes ineligible foreign tax credits

Note:

The tax rate used for the above reconciliations are the rates as applicable for the respective periods payable by corporate entities in India on taxable profits under the India tax laws.

39 Deferred Tax:

The following is the analysis of deferred tax assets presented in the balance sheet:

₹ in million

Particulars	As at March 31, 2022	As at March 31, 2021
Deferred tax assets	**446**	467
Deferred tax liabilities	**(3)**	(33)
Deferred tax assets (net)	**443**	434

The tax effect of significant timing differences that has resulted in deferred tax assets are given below:

₹ in million

Particulars	For the year ended March 31,2022			
	Opening balance	Recognized in Profit and loss	Recognized in OCI	Closing balance
Provision for Employee benefits	**171**	**(22)**	**10**	**159**
Provision for doubtful Trade receivables and Inventory	**212**	**15**	**-**	**227**
Property, Plant & Equipment and Intangibles assets	**(31)**	**30**	**-**	**(1)**
Changes in fair value of derivatives designated as hedges	**(2)**	**(1)**	**1**	**(2)**
Others	**84**	**(24)**	**-**	**60**
Net Deferred Tax Assets	**434**	**(2)**	**11**	**443**

₹ in million

Particulars	For the year ended March 31, 2021			
	Opening balance	Recognized in Profit and loss	Recognized in OCI	Closing balance
Provision for Employee benefits	**137**	**37**	**(3)**	**171**
Provision for doubtful Trade receivables and Inventory	**155**	**57**	**-**	**212**
Property, Plant & Equipment and Intangibles assets	**(67)**	**36**	**-**	**(31)**
Changes in fair value of derivatives designated as hedges	**3**	**-**	**(5)**	**(2)**
Others	**122**	**(38)**	**-**	**84**
Net Deferred Tax Assets	**350**	**92**	**(8)**	**434**

40 Foreign Exchange Management Act, 1999 disclosure :

The Company is required to collect outstanding dues from customers outside India within 9 months of supply of goods or service made. (March 31, 2021: 15 months) . If any Company is unable to collect the due amount within the stipulated timeline, it has to apply to RBI for extension. The Company has trade receivable amounting to ₹ 1,635 mn (March 31, 2021: 1,537 mn) outside India which has not been collected within the stipulated deadline. For these trade receivables, the Company has filed an extension request (ETX filing) with RBI through its authorised dealers.

Further, a Company is also required to pay the outstanding dues to vendors outside India within 9 months of receipt of goods or service. The trade payables outside India outstanding for more than 9 months are ₹ Nil (March 31, 2021: 126 mn).

41 Sale of investment in subsidiary

The Board of Directors of Company in its meeting held on 21 October 2021, concluded and accordingly divested its investment in Comviva Technologies Singapore PTE. Ltd. for a consideration of INR 1.92 million. The Company signed definite SPA with shareholders and subsequently the shareholding was divested on 12 November, 2021. Accordingly, Company has recognised net gain of INR 1.92 million pertaining to sale of such subsidiary.

42 Code of Social Security, 2020

The Code on Social Security, 2020 ('Code') relating to employee benefits received the Presidential assent in September 2020. The Ministry of Labour and Employment had released draft rules for the Code on November 13, 2020 and had invited suggestions from stakeholders which are under active consideration by the Ministry. However, the effective date from which the changes are applicable is yet to be notified. The Company will evaluate and will give appropriate impact in the financial statements in the period in which the Code becomes effective and the related rules are published.

43 Analytical ratios

Sr. No.	Particulars	As at March 31, 2022	As at March 31, 2021	Variance	Variance reasons
1	Current Ratio (in times)	**3.42**	3.70	-7.62%	
2	Debt-Equity Ratio (in times)	**0.03**	0.03	0.00%	
3	Debt Service Coverage Ratio (in times)	**9.89**	14.84	-33.35%	Variance due to decrease in Profit after Tax mainly of account of exceptional income in previous year
4	Return on Equity Ratio (in %)	**0.05**	0.19	-71.94%	Variance due to decrease in Profit after Tax mainly of account of exceptional income in previous year
5	Trade Receivables turnover ratio (in times)	**1.86**	1.61	15.99%	
6	Trade payables turnover ratio (in times)	**1.96**	2.00	-1.92%	
7	Net capital turnover ratio (in times)	**1.33**	1.07	25.01%	Variance due to increase in revenue and decrease in working capital
8	Net profit ratio (in %)	**0.07**	0.22	-70.03%	Variance due to decrease in Profit after Tax mainly of account of exceptional income in previous year
9	Return on Capital employed (in %)	**0.18**	0.23	-20.50%	
10	Return on investment (in %)	**0.03**	0.00	748.70%	Variance due to investments in bonds and mutual funds

The basis of computation of above parameters is provided in the table below:

1	Current Ratio	Current assets / current liabilities
2	Debt-Equity Ratio	(Non-current borrowings (+) current borrowings) / Equity * including lease liabilities
3	Debt Service Coverage Ratio	Profit before depreciation, amortisation, finance costs, exceptional items and tax / (interest expenses (+) principal repayments of long-term debt (+) payment of lease liabilities)
4	Return on Equity Ratio	Net Profits after taxes / Average Shareholder’s Equity
5	Trade Receivables turnover ratio	(Gross credit sales (-) sales return) / (Opening Trade receivables (+) Closing Trade receivables) / 2
6	Trade payables turnover ratio	(Gross credit purchases (-) purchase return) / (Opening Trade payables (+) Closing Trade payables) / 2
7	Net capital turnover ratio	(Total sales (-) sales returns) / (current assets (-) current liabilities.)
8	Net profit ratio	Net Profits after taxes / (Total sales (-) sales returns)
9	Return on Capital employed	Earning before interest and taxes / (Tangible Net Worth (+) Total Debt (+) Deferred Tax Liability)
10	Return on investment	Income generated from invested funds / Average invested funds in treasury investments

44 The Company does not hold any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

45 The Company does not have transactions with companies struck off under section 248 of the Companies Act 2013 or section 560 of Companies Act 1956.

46 Previous year's figures have been re-classified to confirm to this year's classification.

INDEPENDENT AUDITOR'S REPORT

To the Members of Comviva Technologies Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Comviva Technologies Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated balance sheet as at 31 March 2022, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and reports of other auditors on separate financial statements of such subsidiaries as were audited by the other auditors, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2022, of its consolidated profit and other comprehensive loss, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of reports of the other auditors referred to in paragraph (a) of the "Other Matters" section below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Other Information

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's Director's report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial statements / financial information of such entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements / financial information of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in paragraph (a) of the section titled "Other Matters" in this audit report.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

(a) We did not audit the financial statements/financial information of 3 subsidiaries, whose financial statements/financial information reflect total assets (before consolidation adjustments) of ₹ 3,096 million as at 31 March 2022, total revenues (before consolidation adjustments) of ₹ 2,186 million and net cash flows (before consolidation adjustments) amounting to ₹ 68 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements/financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Certain of these subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements/ financial information of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the reports of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

(b) The financial statements/financial information of 10 subsidiaries, whose financial statements/financial information reflect total assets (before consolidation adjustments) of ₹ 852 million as at 31 March 2022, total revenues (before consolidation adjustments) of ₹ 937 million and net cash flows (before consolidation adjustments) amounting to ₹ (29) million for the year ended on that date, as considered in the consolidated financial statements, have not been audited either by us or by other auditors. These unaudited financial statements/financial information have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries, is based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements/financial information are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and other auditors and the financial statements/financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. (A) As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of such subsidiaries as were audited by other auditors, as noted in the "Other Matters" paragraph, we report, to the extent applicable, that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

   b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.

   c) The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

   d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.

   e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2022 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to financial statements of the

Holding Company and its subsidiary company incorporated in India and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries, as noted in the "Other Matters" paragraph:

a) The consolidated financial statements disclose the impact of pending litigations as at 31 March 2022 on the consolidated financial position of the Group. Refer Note 30 to the consolidated financial statements.

b) The Group did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31 March 2022.

c) There are no amounts which are required to be transferred to the Investor Education and Protection Fund by the Holding Company or its subsidiary companies incorporated in India during the year ended 31 March 2022.

d) (i) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or its subsidiary companies, incorporated in India to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:

- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Holding Company or its subsidiary companies incorporated in India or

- provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

(ii) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Holding Company or its subsidiary companies incorporated in India from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or its subsidiary companies incorporated in India shall:

- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Parties or

- provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries.

(iii) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (d) (i) and (d) (ii) contain any material misstatement.

e) The dividend declared or paid during the year by the Holding Company and its subsidiary companies incorporated in India is in compliance with Section 123 of the Act.

C. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid during the current year by the Holding Company and its subsidiary company, to its directors is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director by the Holding Company and its subsidiary company is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS OF COMVIVA TECHNOLOGIES LIMITED FOR THE YEAR ENDED 31 MARCH 2022

Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2 (A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2022, we have audited the internal financial controls with reference to consolidated financial statements of Comviva Technologies Limited (hereinafter referred to as "the Holding Company") and such company incorporated in India under the Companies Act, 2013 which is its subsidiary company, as of that date.

In our opinion, the Holding Company and such company incorporated in India which is its subsidiary company, have, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The respective Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial controls with Reference to Consolidated Financial Statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Securities Premium:

The aggregate difference between the par value of shares and the subscription amount is recognised as share premium.

Capital Reserve

The company recognises profit and loss on purchase, sale, issue or cancellation of the company's own equity instruments to capital reserve.

Retained Earnings:

Retained earnings represents the undistributed profits of the Company accumulated as on Balance Sheet date.

Foreign currency translation reserve :

The exchange differences arising from the translation of financial statements of foreign operations with functional currency other than Indian rupees is recognised in other comprehensive income and is presented within equity in the foreign currency translation reserve.

Cash Flow Hedging Reserve :

The cash flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. Such gains or losses will be reclassified to statement of profit and loss in the period in which the hedged transaction occurs.

Share Option Outstanding Account :

It represents the fair value of services received against employees stock options.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2022

1. Company Overview

Comviva Technologies Limited ("the Company") is provider of mobility solutions and a part of Mahindra Group. The company's offerings are broadly divided into three categories: Financial Solutions, Digital Systems and Growth Marketing. Its extensive portfolio of solutions spans digital financial services, customer value management, messaging and broadband solution and digital lifestyle services. The company strives to enable service providers to enhance customer experience, resolve real, on-ground challenges and leverage technology to transform the lives of customers. Comviva's solutions are deployed at various service providers and financial institutions and enrich the lives of people to deliver a better future.

The Company is a subsidiary of Tech Mahindra Limited.

The consolidated financial statements for the period ended March 31, 2022 were approved by the Board of Directors and authorized for issue on May 03, 2022.

2. Significant Accounting Policies

2.1 Statement of Compliance

The consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015.

2.2 Basis for preparation of consolidated financial statements

The functional currency of the Company and its Indian subsidiaries is the Indian Rupee ("INR"). Further, amounts which are less than half a million are reported as '0'. The functional currency of foreign subsidiaries is the currency of the primary economic environment in which the entity operates. These consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Group's normal operating cycle.

In estimating the fair value of an asset or liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purpose in these consolidated financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 Inventories or value in use in Ind AS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability. Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

2.3 Basis of Consolidation:

The consolidated financial statements comprise the financial statements of Comviva Technologies Limited and its subsidiaries (the Company and its subsidiaries constitute "the Group").

The Company consolidates all entities which are controlled by it.

The Company establishes control when; it has power over the entity, is exposed or has rights to variable returns from its involvement with the entity and has ability to affect the entity's returns by using its power over the entity.

Subsidiaries are consolidated from the date control commences until the date control ceases.

The results of subsidiaries acquired, or sold, during the year are consolidated from the effective date of acquisition and up to the effective date of disposal, as appropriate.

All inter-company transactions, balances and income and expenses and cash flows are eliminated in full on consolidation.

Changes in the Company's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the company's interests and the non-controlling interests are adjusted to reflect changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Company.

Particulars of Consolidation:

The consolidated financial statements present the consolidated accounts of the Group, which consists of accounts of the Company and its subsidiaries:

Investment in Subsidiaries:

Sr. No.	Name of the Subsidiary	Country of Incorporation	As at March 31, 2022	As at March 31, 2021
1	Comviva Technologies Nigeria Limited.	Nigeria	**100%**	100%
2	Comviva Technologies Singapore Pte. Ltd.	Singapore	**-**	100%
3	Comviva Technologies FZ-LLC	UAE, Dubai	**100%**	100%
4	Comviva Technologies B.V. and its subsidiaries:	Netherlands	**100%**	100%
	i. Comviva Technologies (Argentina) S.A. (0.04% held by Comviva Technologies limited)	Argentina	**100%**	100%
	ii. Comviva Technologies Do Brasil Indústria, Comércio, Importação E Exportação LTDA (Formerly known as ATS Advanced Technology Solutions Do Brasil Industria, Comercio, Importacao E Exportacao LTDA) (0.04% held by Comviva Technologies limited)	Brazil	**100%**	100%
	iii. Comviva Technologies Colombia S.A.S.	Colombia	**100%**	100%
	iv. Comviva Technologies Mexico, S. de R.L. de C.V.** (0.04% held by Comviva Technologies FZ LLC)	Mexico	**100%**	100%
	v. Comviva Technologies (Australia) Pty. Ltd. And its subsidiary	Australia	**100%**	100%
	a. Emagine International Pty. Ltd.^	Australia	**100%**	100%
5	Comviva Technologies Madagascar Sarlu	Madagascar	**100%**	100%
6	YABX Technologies (Netherlands) BV***	Netherlands	**100%**	100%
7	Comviva Technologies USA Inc.	USA	**100%**	100%

11	Comviva Technologies Americas Inc*****	USA	**100%**	-

*,Effective November 12, 2021 entire stake in Comviva Technologies Singapore Pte. Ltd. has been divested.

**,In February 2018, Comviva Technologies Mexico, S. de R.L. de C.V. was incorporated through Company's subsidiary Comviva Technologies B.V. whereas 0.04% is held by Comviva Technologies FZ-LLC and has not infused capital till December 31, 2020 and the company has not yet commenced operations. Comviva Technologies Mexico, S de R.L. de C.V. has been dissolved and liquidated with effect from March 3, 2021. However, the process of cancellation of registration before Mexican tax authorities is pending as on date of this Report.

***,In June 2018, YABX Technologies (Netherlands) BV was incorporated as wholly owned subsidiary, however, capital has not been infused till March 31, 2022.

The Company also maintains an ESOP named "Comviva ESOP Trust" which is also consolidated in company financial statements.

****, The Company incorporated another wholly owned subsidiary named Comviva Technologies Cote D'ivorie in February 2020, however capital is not infused till March 31, 2022 and no business in same was started.

*****On November 04 2021, Comviva Technologies Americas Inc was incorporated as wholly owned subsidiary, however, capital has not been infused till March 31, 2022.

^ The Company is in process of deregistration of this entity. The final de-registration application was filed with local authorities on 28th March 2022.

2.4 Use of Estimates:

The preparation of consolidated financial statements requires the management of the Group to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Critical accounting estimates

i) Revenue Recognition

The Group applies the proportionate method for measurement of performance obligation in accounting for its fixed price contracts. Use of the proportionate method requires the Group to estimate the efforts to date as a proportion of the total budgeted efforts. Efforts have been used to measure progress towards completion as there is a direct relationship between input and productivity.

ii) Income taxes

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. The policy for the same has been explained under Note 2.16.

iii) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by management at the time the asset is acquired and reviewed at the end of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. The policy for the same has been explained under Note 2.6.

iv) Provisions

Provision is recognized when the Group has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. The policy for the same has been explained under Note 2.18.

v) Business combinations and intangible assets

Business combinations are accounted for using Ind AS 103. Ind AS 103 requires the identifiable net assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquire. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets and their estimated useful life. These valuations are generally conducted by independent valuation experts.

vi) Impairment of Goodwill

The Group estimates the value in use of the cash generating unit (CGU) based on the future cash flows after considering current economic conditions and trends, estimated future operating results and growth rate and anticipated future economic and regulatory conditions. The estimated cash flows are developed using internal forecasts. The discount rate used for the CGU's represent the weighted- average cost of capital based on the historical market returns of comparable companies.

2.5 Property, Plant & Equipment and Other Intangible assets

Property, Plant & Equipment and Other Intangible assets are stated at actual cost less accumulated depreciation and net of impairment. The actual cost capitalized includes material cost, freight, installation cost, duties and taxes, eligible borrowing costs and other incidental expenses incurred during the construction / installation stage.

Depreciation / amortization of Property, Plant & Equipment and Other Intangible assets:

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation / amortization on Property, Plant & Equipment including assets taken on lease, other than freehold land is charged based on straight line method on an estimated useful life except in respect of the following categories of assets, where the life of the assets has been assessed as under based on technical advice, considering the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Type of Asset	Estimated useful life
Plant and Equipment (including Computers)	3 year
Plant and Equipment (Electrical Equipment)	5 year
Office Equipment	5 year
Furniture and Fixtures	5 year

The estimated useful lives and residual values of the Property, Plant & Equipment and Other Intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of Property, Plant & Equipment and intangible assets is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant & Equipment and intangible assets is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the profit or loss.

Improvements to leased premises are amortized over their estimated useful life or period of the lease, whichever is shorter.

Assets costing upto ₹ 5,000 are fully depreciated in the year of purchase except when they are part of a larger capital investment programme.

Computer Software and Hardware acquired for specific projects are amortized over the initial contract life of the project.

The cost of software purchased for internal use is capitalized and depreciated in full in the month in which it is put to use.

Intellectual Property Right (IPR) is amortized over a period of upto 6 years.

Customer relationships & contracts are amortized over a period of 3 years and commercial contracts are amortised over a period of 7 years.

Licenses are amortized over a period of 2 years.

2.6 Business Combination

Business combinations are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. Transaction costs incurred in connection with a business acquisition are expenses as incurred.

2.7 Goodwill and intangible assets

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer’s interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any. Goodwill is tested for impairment annually or when events or circumstances indicate that the implied fair value of goodwill is less than its carrying amount. Intangible assets acquired separately are measured at cost of acquisition. Intangible assets acquired in a business combination are measured at fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.

2.8 Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any re-measurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Group recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the re-measurement in statement of profit and loss.

The Group has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Group as a lessor

At the inception of the lease the Group classifies each of its leases as either an operating lease or a finance lease. The Group recognises lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Group is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, the Group applies Ind AS 115 Revenue to allocate the consideration in the contract.

2.9 Impairment of Assets

i) Financial assets

Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a Group of financial assets is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Impairment loss on financial assets carried at amortized cost is measured at the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. In a subsequent period, if the amount of impairment loss decreases and the decrease can be related objectively to an event, the previously recognised impairment is reversed through profit or loss.

ii) Non-financial assets

Property, Plant & Equipment and Other Intangible assets

Property, Plant and Equipment and Other intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the profit or loss.

Goodwill

CGUs to which goodwill has been allocated are tested for impairment annually, or more frequently when there is indication for impairment. If the recoverable amount of a CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis of the carrying amount of each asset in the unit.

2.10 Inventories

Inventories are stated at lower of cost or net realizable value. In determining the cost of materials, the weighted average cost method is used.

2.11 Non – current assets (or disposal groups) held for sale

Non-current assets (or disposal groups) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction and a sale is considered highly probable. The sale is considered highly probable only when the asset or disposal group is available for immediate sale in its present condition, it is unlikely that the sale will be withdrawn and sale is expected within one year from the date of the classification. Disposal groups classified as held for sale are stated at the lower of carrying amount and fair value less costs to sell. Property, plant and equipment and intangible assets are not depreciated or amortized once classified as held for sale. Assets and liabilities classified as held for sale are presented separately in the balance sheet. If the criteria stated by IND AS 105 "Non-current Assets Held for Sale and Discontinued Operations" are no longer met, the disposal group ceases to be classified as held for sale. Non-current asset that ceases to be classified as held for sale are measured at the lower of:

i. It's carrying amount before the asset was classified as held for sale, and

ii. It's recoverable amount at the date when the disposal group ceases to be classified as held for sale.

2.12 Revenue recognition

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Group expects to receive in exchange for those products or services.

Revenue from time and material and job contracts is recognized on output basis measured by units delivered, efforts expended, number of transactions processed, etc.

Revenue related to fixed price maintenance and support services contracts where the Group is standing ready to provide services is recognized based on time elapsed mode and revenue is straight lined over the period of performance.

Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognized upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customization services rendered, revenue against these services recognized over the period of time using proportionate method for measuring performance obligation.

Revenue from the sale of distinct third party hardware is recognized at the point in time when risk and rewards is transferred to the customer.

The solutions offered by the Group may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Group is acting as the principal or as an agent of the customer. The Group recognizes revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract assets are recognized when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognized when there are billings in excess of revenues.

Use of significant judgments in revenue recognition.

The Group's contracts with customers could include promises to transfer multiple products and services to a customer. The Group assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur and is reassessed at the end of each reporting period. The Group allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Group uses judgement to determine an appropriate standalone selling price for a performance obligation. The Group allocates the transaction price to each performance obligation on the basis of the relative stand-alone selling price of each distinct product or service promised in the contract. Where standalone selling price is not observable, the Group uses the expected cost plus margin approach to allocate the transaction price to each distinct performance obligation.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalization. The assessment of this criterion requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered

Dividend income is recognized when the Group’s right to receive dividend is established.

2.13 Foreign currency transactions

(a) Presentation and functional currencies

The functional currency of Comviva Technologies Limited is Indian Rupees (INR) whereas the functional currency of foreign subsidiaries is the currency of their countries of domicile.

(b) Translation

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency (INR) using exchange rates prevailing on the dates of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are included in the profit or loss.

(c) Adjustment due to hyperinflation

After July 1, 2018, the Argentine economy was considered, for purposes of IND AS 29 as hyperinflationary. The financial statements of the subsidiaries whose functional currency is the Argentine Peso have been restated.

The non-monetary items of the statement of financial position as well as the income statement, comprehensive incomes and cash flows of the group's entities, whose functional currency corresponds to a hyperinflationary economy, are adjusted for inflation and re-expressed in accordance with the variation of the consumer price index ("CPI"), at each presentation date of its financial statements. The re-expression of non-monetary items is made from the date of initial recognition in the statements of financial position and considering that the financial statements are prepared under the historical cost criterion.

Net losses or gains arising from the re-expression of non-monetary items and income and costs are recognized in the consolidated income statement under "Hyperinflation Adjustment on net monetary position".

Net gains and losses on the re-expression of opening balances due to the initial application of IND AS 29 are recognized in the consolidated retained earnings.

Re-expression due to hyperinflation will be recorded until the period in which the economy of the entity ceases to be considered as a hyperinflationary economy, at that time, the adjustments made by hyperinflation will be part of the cost of non-monetary assets and liabilities.

The comparative amounts in the consolidated financial statements of the Company are presented in a stable currency and are not adjusted for subsequent changes in the price level or exchange rates.

2.14 Foreign Operations:

For the purpose of these financial statements, the assets and liabilities of the Group’s foreign operations are translated using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising on translation are recognized in other comprehensive income and accumulated in equity.

2.15 Financial Instruments:

Financial assets and liabilities are recognized when the Group becomes a party to the contractual provisions of the instruments. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized in profit or loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortized cost is carried at fair value through profit or loss (FVTPL) on initial recognition, unless the Group irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investment in equity instruments which are not held for trading.

The Group, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in other comprehensive income subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses arising on re-measurement recognized in Statement of profit and loss.

Financial liabilities

Financial liabilities maturing after one year are subsequently carried at amortized cost using the effective interest method.

For trade payables and other financial liabilities maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derivative financial instruments and hedge accounting

The Group uses foreign currency forward contracts / options to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. The Group designates some of these as cash flow hedges applying the recognition and measurement principles set out in the Ind AS 109.

The use of foreign currency forward contracts / options is governed by the Group policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Group's risk management strategy. The counter party to the Group's foreign currency forward contracts is generally a bank. The Group does not use derivative financial instruments for speculative purposes.

Foreign currency forward contract/option derivative instruments are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognized in other comprehensive income and accumulated under Hedging Reserve and the ineffective portion is recognized immediately in the Statement of Profit and Loss.

Amounts previously recognized in other comprehensive income and accumulated in Hedging Reserve are reclassified to profit or loss in the same period in which gains/losses on the item hedged are recognized in the Statement of Profit or Loss. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognized in other comprehensive income and accumulated in Hedging Reserve are transferred from Hedging Reserve and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Any Profit or Loss arising on cancellation or renewal of such a forward exchange contract is recognized as income or as expense in the period in which such cancellation or renewal occurs. Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognized in the Statement of Profit and Loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on the hedging instrument classified in Hedging Reserve is retained there and is classified to Statement of Profit and Loss when the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognized in Hedging Reserve is transferred to the Statement of Profit and Loss for the period.

iii) De-recognition of financial instruments

The group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The group derecognizes financial liabilities when, and only when, the group's obligation is discharged, cancelled or have expired.

2.16 Employee benefits

i) Gratuity:

The group accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method for India location. Certain overseas subsidiaries/ branches of the group also provide for retirement benefit plans in accordance with the local laws.

Actuarial gains and losses are recognized in full in other comprehensive income and accumulated in equity in the period in which they occur. Past service cost is recognized in profit or loss in the period of a plan amendment.

ii) Provident fund:

The eligible employees of the Company are entitled to receive the benefits of Provident fund, a defined contribution plan, in which both employees and the Company and its Indian subsidiaries make monthly contributions at a specified percentage of the covered employees' salary (currently at 12% of the basic salary) which are charged to the Statement of Profit and Loss on accrual basis. Full contribution is made to recognised provident fund with effect from September 1, 2020. Till August 31, 2020 a portion of the contribution was made to the approved provident fund trust managed by the Company while the remainder of the contribution is made to the government administered pension fund. The contributions to the trust managed by the Company is accounted for as a defined benefit plan as the Company is liable for any shortfall in the fund assets based on the government specified minimum rates of return.

iii) Compensated absences:

The group provides for the compensated absences subject to group's certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is provided based on the number of days of unavailed leave at each Balance Sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method for India location and some branches of Company, whereas provision for encashment of unavailed leave on retirement is made on actual basis for foreign subsidiaries and other branches of Company.

Actuarial gains and losses are recognized in full in the Statement of Profit and Loss in the period in which they occur.

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date.

iv) Other short term employee benefits:

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for the services rendered by employees, are recognized during the period when the employee renders the service.

2.17 Taxation:

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the respective countries.

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the income taxes or deferred taxes are recognized in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying units intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax asset is recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred income tax liabilities are recognized for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is probable evidence that the Group will pay normal income tax in future.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

2.18 Earnings per share

Basic earnings/(loss) per share are calculated by dividing the net profit/(loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period and also after the Balance Sheet date but before the date the financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings/(loss) per share, the net profit/(loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

2.19 Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the Group has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities and Contingent assets are not recognized in the financial statements.

2.20 Provision for Warranty

The Group has an obligation by way of warranty to maintain the software during the period of warranty, which may vary from contract to contract. Costs associated with such sale are accrued at the time when related revenues are recorded and included in cost-of-service delivery. The Group estimates such cost based on historical experience and the estimates are reviewed periodically for material changes in the assumptions.

2.21 Research and Development

Research costs are recognized in the statement of profit and loss in the period it is incurred. Development costs are recognized in the statement of profit and loss in the period it is incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Group has an intention and ability to complete and use the asset and the costs can be measured reliably.

2.22 Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of cost of that asset. All other borrowing costs are charged to the statement of profit and loss.

2.23 Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1st, 2022, as below:

Ind AS 103 – Reference to Conceptual Framework

The amendments specifiy that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Group does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 – Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Group does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Group does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 – Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Group does not expect the amendment to have any significant impact in its financial statements.

	March 31, 2022	March 31, 2021
Additional consideration on sale of subsidiary*	-	730
Contractual obligation written back**	-	188
Total	-	918

*The Company has accrued additional consideration pertaining to sale of TerraPay group (subsidiary) amounting to Nil (March 31, 2021: 730 million), which has been transferred w. e. f March 02, 2020. The Company has recognised this additional consideration on the completion of requisite milestone as mentioned in the Share purchase agreement entered into with the acquirer. This consideration has been realised on April 15, 2021.

** During the year ended March 31, 2021, the Company has derecognised contingent contractual obligation on acquisition of Emagine Holding Pty. Ltd. This consideration was payable based on achievement of certain milestones/targets which has not been achieved within the earn out period specified in the Share Purchase Agreement. Accordingly, the aforesaid contingent consideration is no more payable.

26. Details of employee benefits as required by the IND AS-19 – Employee Benefits are as under:

a) Defined Contribution Plan

The Company makes contributions to Provident Fund which is defined contribution plan for qualifying employees. Under this Scheme, the Company contributes a specified percentage of the payroll costs to the fund. Amounts recognised as an expense in the Statement of Profit and Loss in respect of defined contribution plan is ₹ 239 million (year ended march 31, 2021: ₹ 256 million).

b) Defined Benefit Plan - Gratuity

In accordance with the Payment of Gratuity Act, 1972, applicable for Indian companies, the Company operates a scheme of gratuity which is a defined benefit plan. The gratuity plan is partially funded.

I] Changes in Defined Benefit Obligation ('DBO') and Trust Fund plan assets recognized in the Balance Sheet are as under:

₹ in million

Particulars	**As at**	
	March 31, 2022	March 31, 2021
Defined Benefit Obligation as at the beginning of the year	**195**	203
Current Service Cost	**37**	27
Interest cost	**9**	10
Benefits Paid	**(42)**	(33)
Acquisition (gain)/loss	**-**	-
Actuarial (gain)/loss - experience	**35**	(0)
Actuarial (gain)/loss - demographic assumptions	**-**	-
Actuarial (gain)/loss - financial assumptions	**5**	(12)
Defined Benefit Obligation as at the end of the year	**239**	195

II] Change in the fair value of plan assets representing reconciliation of opening and closing balances thereof are as follows :

₹ in million

Particulars	**As at**	
	March 31, 2022	March 31, 2021
Fair value of plan assets at the beginning of the year	**1**	2
Interest income on plan assets	**0**	0
Contributions by employer	**-**	1
Benefits Paid	**-**	-
Remeasurement- Return on plan assets excluding amount included in interest income	**0**	(2)
Fair value of plan assets at end of the year	**1**	1

III] Net defined benefit Asset/(Liability)

₹ in million

Particulars	**As at**	
	March 31, 2022	March 31, 2021
Defined benefit obligation	**239**	195
Fair value of plan assets	**(1)**	(1)
Net defined benefit obligation disclosed as:	**238**	194
- Current provisions	**37**	35
- Non current provisions	**201**	159

As at March 31, 2022 and March 31, 2021 plan assets were primarily invested in insurer managed funds

IV] Components of employer expenses recognised in the Statement of Profit and Loss:

₹ in million

Particulars	For the year ended	
	March 31, 2022	March 31, 2021
Current Service Cost	**37**	27
Interest cost on Defined Benefit Obligation	**9**	10
Expected return on plan assets	**(0)**	(0)
Total expense recognised in the Statement of Profit & Loss (Refer note 22)	**46**	37

V] Components of employer expenses recognised in the other comprehensive income:

₹ in million

Particulars	For the year ended	
	March 31, 2022	March 31, 2021
Actuarial (gain)/loss due to defined benefit obligation experience	**(35)**	0
Actuarial (gain)/loss - demographic assumptions	**-**	-
Actuarial (gain)/loss due to defined benefit obligation assumption changes	**(5)**	12
Remeasurement- Return on plan assets excluding amount included in interest income	**0**	(2)
Net (gain)/loss recognised in Other Comprehensive Income	**(40)**	10

VI] Assumptions

Particulars	As at	
	March 31, 2022	March 31, 2021
Discount Rate	**6.30%**	5.90%
Salary Escalation Rate	**7.00%**	6.00%
Mortality Rate	**Indian Assured Lives Mortality (2006-08) Ult.**	Indian Assured Lives Mortality (2006-08) Ult.
Employee separation Rate	**17.00%**	17.00%

a) Discount rate : It is based upon the market yields available on Government Bonds at the accounting date with a term that matches that of the obligation.

b) Salary Escalation Rate: The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.

c) Employee separation Rate: The assumption of Employee separation rate represents the company's expectation of employee turnover.

VII] Sensitivity analysis

₹ in million

Particulars	As at	
	March 31, 2022	March 31, 2021
A: Discount rate		
1. Effect on DBO due to 0.5% increase in discount rate	**(5)**	(4)
2. Effect on DBO due to 0.5% decrease in discount rate	**5**	4
B: Salary Escalation Rate		
1. Effect on DBO due to 0.5% increase in Salary escalation rate	**4**	4
2. Effect on DBO due to 0.5% decrease in Salary escalation rate	**(4)**	(3)
C: Withdrawal Rate		
1. Effect on DBO due to 5% increase in withdrawal rate	**(3)**	(2)
2. Effect on DBO due to 5% decrease in withdrawal rate	**3**	2

The sensitivity analysis above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Method used for sensitivity analysis: The sensitivity results above determine their individual impact on the Plan's end of year Defined Benefit Obligation. In reality, the Plan is subject to multiple external experience items which may move the Defined Benefit Obligation in similar or opposite directions, while the Plan's sensitivity to such changes can vary over time.

VIII] Expected benefit payments for the period ended

₹ in million

Payout in the next	As at	
	March 31, 2022	March 31, 2021
1 year	**41**	38
1-2 years	**32**	27
2-3 years	**35**	28
3-4 years	**33**	30
4-5 years	**36**	29
5 years and beyond	**168**	130

IX] Plan asset information:

Particulars	As at	
	March 31, 2022	March 31, 2021
Schemes of insurance - conventional products	**100%**	100%

X] Description of Plan characteristics and associated risks-

The Gratuity scheme is a final salary Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The Plan design means the risks commonly affecting the liabilities and the financial results are expected to be:

1. Interest rate risk
2. Salary Inflation risk
3. Demographic risk

XI] Description of Funding arrangements and policies-

The Gratuity scheme of the company is partially funded by way of a separate irrevocable Trust and the company is expected to make regular contributions to the Trust. The fund is managed internally by the company and assets are invested in insurance funded arrangements.

27. Disclosure as per IND AS 116-Leases

Amounts recognised in statements of cash flows:

₹ in million

Particulars	For the year ended	
	March 31, 2022	March 31, 2021
Cash outflow for leases	**103**	117
Total	**103**	117

28. Segment Information

a) Business segments:

The company is engaged in the business of mobility solutions and IT services. As defined in Ind AS 108, the 'Chief Operating Decision Maker' (CODM) considers entire business as single operating segment. The company's operating divisions are managed from India. There are three customers who account for more than 10% of the company's revenue individually.

b) Geographical segments:

The geographical information analyses the company's revenue by the company's country of domicile (i.e. India) and outside India (i.e. Rest of world) presenting geographical information. Segment revenue has been presented on the geographic location of customers.

₹ in million

Particulars	For the year ended March 31, 2022		
	India	**Rest of the world**	**Total**
Revenue from operations	**673**	**8,088**	**8,761**

₹ in million

Particulars	For the year ended March 31, 2021		
	India	**Rest of the world**	**Total**
Revenue from operations	1,041	7,410	8,451

Management believes it is currently not practicable to bifurcate the assets based on geographies. Hence, no disclosure is provided for the same.

29. Related Party Disclosure

30. Contingent Liabilities and Commitments:

(i) Contingent Liabilities:

₹ in million

Sr. No.	Particulars	As at March 31, 2022	As at March 31, 2021
1	Bank Guarantees	**61**	-
2	Income tax matters (refer note I)	**1,613**	920
3	Indirect tax matters (refer note II)	**408**	427
4	Other claims against the company not acknowledged as debts (refer note III)	**48**	48

Note:

I Income Tax Matter:

The Group has ongoing disputes with income tax authorities relating to tax treatment of certain items. The disputes relate to tax treatment of certain expenses claimed as deductions, computation and eligibility of tax incentives or allowances. The Group has contingent liability in respect of demands from direct tax authorities in India and other jurisdictions, which are being contested by the Group on appeal amounting INR 1,613 million and INR 920 million as at March 31, 2022 and March 31, 2021 respectively. The Group periodically receives notices and inquiries from income tax authorities related to the Group's operations in the jurisdictions it operates in. The Group has evaluated these notices and inquiries and has concluded that any consequent income tax claims or demands by the income tax authorities will not succeed on ultimate resolution. The number of years that are subject to tax assessments varies depending on tax jurisdiction. The major tax jurisdictions of Comviva Technologies Limited include India and African countries. In India, tax filings from fiscal 2017 are generally subject to examination by the tax authorities. In African counties, the statute of limitation vary by state.

II Indirect Tax Matter:

The Group has ongoing disputes with tax authorities mainly relating to availment of input tax credit and indirect tax matters. The Group has demands amounting to INR 408 million and INR 427 million as at March 31, 2022 and March 31, 2021, respectively from various indirect tax authorities which are being contested by the Group based on the management evaluation and on the advice of tax consultants.

III Other Claims:

Other claims aggregating INR 48 million and INR 48 million as at March 31, 2022 and March 31, 2021, respectively, against the Group have not been acknowledged as debt. The amounts assessed as contingent liability do not include interest that could be claimed by counter parties.

(ii) Commitments :

₹ in million

Sr. No.	Particulars	As at March 31, 2022	As at March 31, 2021
1	Estimated amount of contracts remaining to be executed on capital account and not provided for	**187**	102

31. Financial Instruments

The Group's Board of Directors have an overall responsibility for the establishment and oversight of the group's risk management framework. The group's risk management policies are established to identify and analyze the risks faced by the group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions.

I] Financial instruments by category

The carrying value and fair value of financial instruments by categories as at March 31, 2022 were as follows:

₹ in million

Other financial liabilities (refer note 19(i) and 19(ii))	634	-	-	634	634
Total	4,023	-	-	4,023	4,023

*Fair value of amortised assets is same as carrying value

II] Fair Value Hierarchy

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required): The different levels have been defined as follows:"

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

₹ in million

Particulars	As at March 31, 2022	Fair value measurement As at end of the reporting period using		
		Level 1	Level 2	Level 3

Investments in mutual fund	**1,502**	1,502	-	-
Investment in bonds-quoted	**-**	-	-	-
Derivative financial assets	**40**	-	40	-

III] Financial Risk Management

Financial Risk Factors

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk. The Group uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

(i) Market Risk

Market risk is the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Group's exposure to market risk is primarily on account of foreign currency exchange rate risk.

(a) Foreign currency exchange rate risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Group operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar, Euro against the respective functional currency of the Group. The Group, as per its risk management policy, uses derivative instruments primarily to hedge foreign exchange currency risk.

The Group evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. It hedges a part of these risks by using derivative financial instruments in line with its risk management policies.

The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the respective functional currency of the Group. Further the exposure as indicated below is mitigated by some of the derivative contracts entered into by the Group as disclosed in note below.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the year are as follows:

₹ in million

Particulars	**Currency**	**As at March 31, 2022**	As at March 31, 2021
Financial assets	EUR	**1,024**	1,069
	USD	**2,391**	2,890
	Others	**1,576**	499
Financial liabilities	EUR	**41**	68
	USD	**1,283**	2,741
	Others	**200**	332

Forex sensitivity analysis:

A reasonably possible strengthening by 10% of EUR, USD against the Indian Rupee as at March 31, 2022 and March 31, 2021 will affect the statement of profit and loss by the amounts shown below:

₹ in million

Currency	**As at March 31, 2022**	As at March 31, 2021
EUR	**98**	100
USD	**111**	15

(b) Foreign Exchange Contracts

The Company is exposed primarily to fluctuations in foreign currency exchange rates, credit risk and liquidity risk which may impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential effects on the financial performance of the Company.

The Company enters into foreign Exchange Forward Contracts to offset the foreign currency risk arising from the amounts denominated in currencies other than the Indian Rupee. The counter party to the Company's foreign currency Forward Contracts is generally a bank. These contracts are entered into to hedge the foreign currency risks of certain forecasted transactions. These contracts are for a period lies between 1 day to 1 year.

The following are the principal amounts of outstanding foreign currency exchange forward entered into by the Company which have been designated as Cash Flow Hedges:

Currency	**Amount outstanding as at March 31, 2022 in foreign currency**	**Fair value Gain/ (loss) in ₹**
In USD	20.50 million	6 million
	(March 31, 2021: 17.72 mn)	(March 31, 2021: 36 mn)
In Euro	1.45 million	2 million
	(March 31, 2021: 1.24 mn)	(March 31, 2021: 4 mn)

The movement in hedging reserve for derivatives designated as Cash Flow Hedges is as follows:

Particulars		As at	
		March 31, 2022	March 31, 2021
(a)	Balance at the beginning of the year	**9**	11
(b)	Changes in the fair value of effective portion of derivatives - (loss)/gain	**(32)**	61
(c)	Net loss/(gain) reclassified to statement of profit and loss on occurance of hedged forcasted transactions	**30**	(63)
(d)	(Loss)/gain on cash flow hedging derivatives, net (b+c)	**(3)**	(2)
(e)	Balance at the end of the year	**7**	9
(f)	Tax impact on effective portion of outstanding derivatives	**(2)**	(2)
(g)	Balance at the end of the period, net of deferred tax (e+f)	**5**	7

(ii) Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, unbilled revenue, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Group result in material concentration of credit risk.

Credit risk on cash and cash equivalents is limited as the Group generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units, quoted bonds issued by government and quasi government organizations with high credit ratings.

Credit Risk Exposure

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹ 5,262 million, ₹ 5,744 million as at March 31, 2022, March 31, 2021 respectively, being the total of the carrying amount of trade receivables, unbilled revenue and other financial assets. In addition, the Group is exposed to credit risk in relation to financial guarantees given to banks provided by the Group. The Group's maximum exposure in this respect is the maximum amount the Group would have to pay if the guarantee is called on. Refer Note 30(i).

Trade receivable

Ind AS requires expected credit losses to be measured through a loss allowance. The Group assesses at each date of statements of financial position whether a financial asset or a group of financial assets is impaired. The Group recognises lifetime expected losses for all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. Group's exposure to customers is diversified. The Group's exposure to customers is diversified and no single customer contributes to more than 10% of outstanding accounts receivable and unbilled revenue as of March 31, 2022 and March 31, 2021. The concentration of credit risk is limited due to the fact that the customer base is large.

The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. Movement in the Expected credit loss allowance:

₹ in Million

Particulars	As at	
	March 31, 2022	March 31, 2021
Balance at the beginning of the year	**875**	638
Provided during the year	**490**	470
Reversed/utilised during the year	**(449)**	(231)
Reinstatement impact	**5**	(2)
Balance at the end of the year	**921**	875

(iii) Liquidity Risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligation. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2022:

₹ in million

Particulars	Less Than 1 Year	More than 1 year	Total
Borrowings	1,528	-	1,528
Lease Liabilities	94	171	265
Trade Payables	1,782	-	1,782
Other financial liabilities	500	-	500

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2021:

₹ in million

Particulars	Less Than 1 Year	More than 1 year	Total
Borrowings	1,425	-	1,425
Lease Liabilities	82	245	327
Trade Payables	1,637	-	1,637
Other financial liabilities	624	10	634

Capital management

The Company's objective while managing capital is to safeguard its ability to continue as a going concern (so that it is enabled to provide returns and create value for its shareholders, and benefits for other stakeholders), support business stability and growth, ensure adherence to the restrictions imposed by lenders and / or relevant laws and regulations, and maintain an optimal and efficient capital structure so as to reduce the cost of capital. However, the key objective of the Company's capital management is to, ensure that it maintains a stable capital structure with the focus on total equity, creditor and customer confidence, and ensure future development of its business activities and appropriate return to shareholders in terms of dividend payout. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements.

32 Basic and Diluted Earning per share

₹ in million except earning per share

Particulars	For the year ended	
	March 31, 2022	March 31, 2021
Nominal value per equity share	**10**	10
Profit for the year	**572**	1,722
Profit attributable to equity shareholders	**572**	1,722
	No. of Shares	No. of Shares
Weighted average number of equity shares	**21,869,000**	21,869,000
Weighted average number of diluted equity shares	**21,869,000**	21,869,000
Earning Per Share- Basic	**26.17**	78.72
Earning Per Share- Diluted	**26.17**	78.72

33 Provision for warranty:

The movement in the said provision is summarized below:

₹ in million

Particulars	As at	
	March 31, 2022	March 31, 2021
Opening Balance	**9**	10
Add: Additional provision made during the year	**-**	-
Add: Addition on Acquisition	**-**	-
Less: Provision reversed during the year	**(1)**	(1)
Closing balance	**8**	9

Note: Provision for warranty is estimated and made based on technical estimates of the management and is expected to be settled over the period of next year.

34 The Group has accounted as an expense of ₹ 10 million for the year ended March 31, 2022 (year ended March 31, 2021: ₹ 16 million) pertaining to amortised cost of stock options granted to certain employees of the group granted by Tech Mahindra Limited, its holding company. This cost is being accounted as an employee benefits expense.

35 There are no non-wholly owned subsidiaries that have material non-controlling interests.

36 Allocation of goodwill by segments as at March 31, 2022 and March 31, 2021 is as follows:

Following is the summary of changes in carrying amount of goodwill:

₹ in million

Particulars	As at	
	March 31, 2022	March 31, 2021
Balance at the beginning of year	**224**	210
Addition on acquisition (refer note 42)	**492**	-
Effect of foreign currency exchange differences*	**32**	14
Balance at the end of the year	**748**	224

* Includes impact of hyperinflation

Allocation of goodwill by segments as at March 31, 2022 and March 31, 2021 is as follows:

₹ in million

Particulars	As at	
	March 31, 2022	March 31, 2021
India	**-**	-
Rest of World	**748**	224
Total	**748**	224

Allocation of goodwill to cash-generating units:

In accordance with IND AS 36 "Impairment of Assets" the Group performed impairment testing of Goodwill assigned to each Cash Generating Unit (CGU) as at 31st March, 2022. The recoverable amount of CGU is determined based on a value in use calculation which uses cash flow projections based on financial budgets approved by the management covering a year and over and an applicable discount rate. Goodwill has been allocated for impairment testing purposes to their underlying geographical / segmental classification.

Based on the results of the Goodwill impairment test, the estimated value in use in all CGUs were higher than their respective carrying amount, hence impairment provision recorded during the current year is Nil (31st March, 2021 - Nil). Management believes that any reasonably possible change in the key assumptions on which recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount.

Key assumptions used are as follows:

Budgeted Projections: The values assigned to the assumption reflect past experience and are consistent with the management's plans for focusing operations in these markets. The management believes that the planned market share growth is reasonably achievable.

Price inflation: The values assigned to the key assumption are consistent with external sources of information.

37 Disclosures for Revenue from Contracts with Customers

a) Disaggregation of revenue

Revenue disaggregation by nature of services is as follows:

₹ in million

Nature of Services	For the year ended	
	March 31, 2022	March 31, 2021
Licence Fee with Implementation and other services	**4,997**	4,129
Revenue sharing arrangements	**1,587**	1,562
Annual maintenance contract services	**1,781**	1,896
Income from sale of equipments and software (third party)	**396**	864
Total	**8,761**	8,451

Revenue disaggregation by geography is as follows:

₹ in million

Geography	For the year ended	
	March 31, 2022	March 31, 2021
India	**673**	1,041
Rest of world	**8,088**	7,410
Total	**8,761**	8,451

b) The remaining performance obligations disclosure provides the aggregate amount of the transaction price yet to be recognised as of the end of the reporting period and an explanation as to when the Company expects to recognise these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation for contracts where the performance obligation is a part of a contract that has an original expected duration of one year or less or the entity has a right to consideration from a customer in an amount that corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material basis.

Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in scope of contracts, periodic revalidations, adjustments for revenue that has not materialized and adjustments for currency.

c) Significant changes in the contract assets balances is as follows:

₹ in million

Particulars	**For the year ended**	
	March 31, 2022	March 31, 2021
Opening balance	**357**	371
Add: Revenue recognised during year	**519**	237
Less: Invoiced during year	**(248)**	(198)
Add/Less: Translation loss/(gain)	**(0)**	(0)
Add/Less: Others	**(17)**	(53)
Closing balance	**611**	357

d) Significant changes in the contract liabilities balances is as follows:

₹ in million

Unearned Revenue	**For the year ended**	
	March 31, 2022	March 31, 2021
Opening balance	**45**	109
Less: Revenue recognised during the period that was included in the unearned revenue at the beginning of the year	**(45)**	(84)
Add: Invoiced during the period (excluding revenue recognized during the year)	**36**	16
Add/Less: Translation loss/(gain)	**-**	4
Closing balance	**36**	45

e) The following table provides information in respect of amount of revenue recognised in the statement of profit and loss with the contracted price showing separately each of the adjustments made to the contract price:

₹ in million

Particulars	**For the year ended**	
	March 31, 2022	March 31, 2021
Contracted transaction	**8,777**	8,451
Less: Adjustment for penalties / liquidated damages	**(16)**	-
Revenue recognized in the statement of profit and loss	**8,761**	8,451

38 Income Tax Expense

Income tax expense in the statement of profit and loss comprises:

₹ in million

Particulars	For the year ended	
	March 31, 2022	March 31, 2021
Current tax:		
-Tax expense related to current year	**1,128**	658
Total Current tax	**1,128**	658

The tax expense for the year can be reconciled to the accounting profit as follows:

₹ in million

Particulars	For the year ended	
	March 31, 2022	March 31, 2021
Profit before tax	**1,707**	2,269
Enacted tax rate	**25.17%**	25.17%
Income tax expense calculated at enacted tax rate	**430**	571
Effect of expenses/income that are not admissible in determining taxable profit^	**131**	-
Effect of differential overseas tax rates	**33**	87
Effect of income taxes related to prior years^	**519**	-
Others	**15**	-
Income tax expense recognised in profit or loss	**1,128**	658

^ - Includes ineligible foreign tax credits

39 Deferred Tax:

The following is the analysis of Deferred tax assets presented in the Balance Sheet:

₹ in million

Particulars	As at	
	March 31, 2022	March 31, 2021
Deferred tax assets	**541**	560
Deferred tax liabilities	**(3)**	(21)
Deferred tax assets	**538**	539

The tax effect of significant timing differences that has resulted in deferred tax assets are given below:

₹ in million

Particulars	For the year ended March 31, 2022				
	Opening balance	Recognised in Profit and loss	Recognised in OCI	Exchange rate difference	Closing balance
Provision for Employee benefits	191	(42)	10	-	159

41 Employee Stock Option Scheme

I. ESOP 2021 scheme

The company has a two different share based employee benefit program i.e. 2020 Employee stock options plan – ESOP scheme 1 and ESOP scheme 2 in its subsidiary 'YABX India Private Limited' that allows employees to acquire shares of the Company subject to vesting and performance conditions. A share option scheme for employees was approved on 15th September 2020 by the shareholders of the Company under which the employees of the Company were granted stock options that vest in a granted manner over a period of 3 years. An exercise price of INR 10 was fixed for this purpose.

These schemes have been awarded during the period ended 31 March 2022, whose details are given as under:-

Particulars	ESOP scheme 1	ESOP scheme 2
Maximum number of options granted under the plan	4,279,765	1,775,000
Method of settlement	Equity settled plans	Equity settled plans
Vesting period	3 years	1 years
Vesting conditions	Service period and performance based conditions	Service period

The vesting percentage basis period, of above schemes are as follows:-

Particulars	ESOP scheme 1	ESOP scheme 2
With in 1 year	20%	100%
1 to 2 years	40%	-
2 to 3 years	40%	-

Movement in respect of stock options granted to employees of the Company during the year and outstanding as at the year end is set out below:

ESOP scheme 1:-

Particulars	**As at March 31, 2022**		As at March 31, 2021	
	No. of options	**Weighted average exercise price**	No. of options	Weighted average exercise price
Outstanding at beginning of the year	**3,301,925**	**-**	-	-
Options granted during the year	**977,840**	**10**	3,301,925	10
Exercised during the year	**13,831**	**-**	-	-
Forfeited/lapsed during the year	**534,397**	**-**	-	-
Outstanding at the end of the year	**3,731,537**	**10**	3,301,925	10
Vested options at the end of the year	**246,773**		-	10
Unvested options at the end of the year	**3,484,764**		3,301,925	10

ESOP scheme 2:-

Particulars	**As at March 31, 2022**		As at March 31, 2021	
	No. of options	**Weighted average exercise price**	No. of options	Weighted average exercise price
Outstanding at beginning of the year	**1,775,000**	**-**	-	-
Options granted during the year	**-**	**10**	1,775,000	10
Exercised during the year	**-**	**-**	-	-
Surrendered during the year	**-**	**-**	-	-
Forfeited during the year	**-**	**-**	-	-
Outstanding at the end of the year	**1,775,000**	**10**	1,775,000	10
Vested options at the end of the year	**1,775,000**	**10**	-	10
Unvested options at the end of the year	**-**	**10**	1,775,000	10

The employee stock compensation cost for the Employee stock options plan – ESOP scheme 1 and ESOP scheme 2 has been computed by reference to the fair value of share options granted and amortized over each vesting period. For the period ended March 31, 2021, the Company has accounted for employee stock compensation cost (equity settled) amounting to ₹ 3,923,707.

Particulars	**For the year ended March 31, 2022**		For the year ended March 31, 2021	
	ESOP scheme 1	**ESOP scheme 2**	ESOP scheme 1	ESOP scheme 2

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDER OF COMVIVA TECHNOLOGIES FZ-LLC

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Comviva Technologies FZ-LLC, Dubai Internet City, Dubai – U.A.E. ('the Company'), which comprise the statement of financial position as at 31 March 2022, and the statement of profit or loss and other comprehensive income, statement of changes in equity (deficit) and statement of cash flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the United Arab Emirates, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 22 to the financial statements, which indicates that the Company incurred a loss of AED 5,671,275 for the year ended 31 March 2022 and as of that date, the Company has reported accumulated loss of AED 3,472,169 and its current liabilities exceeds its current assets by AED 8,180,874. As stated in Note 22, these events or conditions, along with other matters as set forth in Note 22, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

We further report that the financial statements comply with the provisions of the Dubai Creative Clusters Private Companies Regulations 2016.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

1. GENERAL INFORMATION

Comviva Technologies FZ-LLC ('the Company'), Dubai Internet City, Dubai, United Arab Emirates is a 100% subsidiary of Comviva Technologies Limited, India registered on 19 February 2012 with the Dubai Technology and Media Free Zone Authority, United Arab Emirates as a Free Zone Limited Liability Company. The registered address of the Company is premises - 1401 & 1408-1409, Floor No. 14, Al Shatha Tower, P.O. Box : 500583, Dubai, United Arab Emirates.

Management considers the parent and ultimate controlling party to be Comviva Technologies Limited, India.

The principal activity of the Company is to provide solutions for telecommunication and network.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND DISCLOSURES

2.1 Basis of preparation

The financial statements have been prepared on the historical cost basis. The financial statements are presented in Arab Emirates Dirhams (AED) and all values are rounded to the nearest Arab Emirates Dirham. The principal accounting policies adopted are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.2 Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards.

2.3 Adoption of new and revised International Financial Reporting Standards

The following new and revised Standards including amendments thereto and Interpretations which became effective for the current reporting period have been adopted, wherever applicable. Their adoption has not had any significant impact on the amounts reported in these financial statements but may affect the financial reporting for future transactions or arrangements.

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 - Interest Rate Benchmark Reform — Phase 2

Amendment to IFRS 16 - COVID-19-Related Rent Concessions – 1 April 2021

The following Standards, amendments thereto and interpretations have been issued prior to 31 March 2022 but have not been applied in these financial statements as their effective dates of adoption are for future periods. It is anticipated that their adoption in the relevant accounting periods will have impact only on disclosures within the financial statements.

IFRS 17: Insurance Contracts - 1 January 2023

Amendments to IFRS 3 - Reference to the Conceptual Framework - 1 January 2022

Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Date to be determined

Amendments to IAS 1- Classification of Liabilities as Current or Non-current - 1 January 2023

Amendments to IAS 16 - Proceeds before Intended Use - 1 January 2022

Amendments to IAS 37- Onerous Contracts - Cost of Fulfilling a Contract - 1 January 2022

Annual Improvements to IFRS Standards 2018–2020 - Amendments to IFRS 1, IFRS 9 and IAS 41 - 1 January 2022

Amendments to IAS 1 and IFRS Practice Statement 2 - Disclosure of Accounting Policies - 1 January 2023

Amendments to IAS 8 - Definition of Accounting Estimates - 1 January 2023

Amendments to IAS 12 - Deferred Tax related to Assets and Liabilities arising from a single Transaction - 1 January 2023.

2.4 Foreign currencies

(a) Functional and presentation currency

The financial statements are prepared and the items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in U.A.E. Dirhams, which is the Company's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of outstanding amounts of such transactions and from the re-translation of monetary assets and liabilities denominated in foreign currencies at each reporting date are recognised in the profit or loss. At the end of each reporting period, monetary items denominated in foreign currencies are re-translated at the rates prevailing at that date.

Non-monetary items carried at fair value that are denominated in foreign currencies are re-translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

2.5 Property and equipment

Property and equipment is stated at cost less accumulated depreciation and identified impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the items including installation costs.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the profit or loss during the reporting period in which they are incurred.

The depreciation is calculated on a straight-line basis over the estimated useful lives of the assets, as follows:

	Years
Computers	3
Furniture & fixtures	5
Network system	3
Office equipment	5

The assets' residual values and useful lives are reviewed at each reporting date, with the effect of any changes in estimates adjusted on a prospective basis. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The gains or losses arising on the disposal or retirement of an item of property and equipment is determined by comparing the disposal proceeds with the carrying amount of the asset and is recognised in profit or loss.

2.6 Leases

The Company as lessee

The Company assesses whether a contract is or contains a lease, at inception of the contract. The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Lease liability

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Company uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amounts expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- the payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The lease liability is presented as a separate line in the statement of financial position. The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability and by reducing the carrying amount to reflect the lease payments made.

Right-of-use asset

The right-of-use asset comprises the initial measurement of the corresponding lease liability, any lease payments made at or before the commencement day and any initial direct costs.

It is subsequently measured at cost less accumulated depreciation, impairment losses and adjusted for any remeasurement of lease liability.

Right-of-use asset is depreciated over the shorter period of lease term and useful life of the underlying asset. The useful life of the assets are 3 years.

The right-of-use asset is presented as a separate line in the statement of financial position. As a practical expedient, IFRS 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement.

2.7 Impairment of tangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease. Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

2.8 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) are initially measured at fair value plus or minus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

Financial assets

A financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (“FVTOCI”) – debt investment; fair value through other comprehensive income (“FVTOCI”) – equity investment; or fair value through profit or loss (“FVTPL”). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are; solely; payments of principal and interest on the outstanding principal amount.

The following accounting policies apply to the subsequent measurement of financial assets.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method and is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment losses are recognised in profit or loss.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the sum of consideration paid and payable is recognised in profit or loss.

2.9 Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model which requires considerable judgement in selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. IFRS 9 requires the Company to record an allowance for ECLs for all financial assets at amortised cost, debt investments at FVTOCI, but not to investments in equity instruments. Under IFRS 9, credit losses are recognized earlier than under IAS 39.

The Company has four types of financial assets that are subject to IFRS 9's expected credit loss model:

- Trade and other receivables (excluding contract assets, prepayments and advance to suppliers)
- Loan to related parties
- Due from related parties
- Other current financial assets, and
- Cash and cash equivalents

While the above financial assets are subject to the impairment requirements of IFRS 9, the identified impairment loss is immaterial, except for trade receivables.

Under IFRS 9, loss allowances are measured on either of the following bases:

12 month ECLs: these are ECLs that result from possible default within 12 months after the reporting date; and

Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instruments.

The Company has applied the standard's simplified approach for trade receivables and has calculated ECLs based on lifetime expected credit losses. The Company has established a provision matrix that is based on the Company's historical credit loss experience, adjusted for forward-looking factors specific to the financial assets and the economic environment.

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

The Company considers a financial asset in default when contractual payments are past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company.

2.10 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and bank deposits free of encumbrance with a maturity date of three months or less from the date of deposit and other short-term highly liquid investments with a maturity date of three months or less from the date of investment, net of temporary bank overdrafts.

2.11 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is recognised in the profit or loss, net of any reimbursement.

2.12 Provision for employees' end of service benefits

Provision for employees' end of service benefits is made in accordance with the U.A.E. Labour Law, and is based on current remuneration and periods of service at the end of the reporting period.

2.13 Value Added Tax (VAT) payable/receivable

Value added tax (VAT) payable/receivable represents net VAT amount payable to or receivable from the U.A.E. Federal Tax Authority against the value added tax charged to the customers by the Company on its sales and services and the value added tax charged by the suppliers to the Company on its purchases and expenses as per the regulations of Federal Decree Law No. 8 and Cabinet Decision No. 52 of 2017 of United Arab Emirates.

2.14 Revenue recognition

The details of accounting policy in relation to the Company's recognition of revenue from sale of goods and rendering of services are set out below:

Revenue is recognised when a customer obtains control of the goods or services. Determining the timing of the transfer of control, at a point in time or over time, requires judgement. The Company recognises revenue from sale of goods and rendering of services based on a five-step model as set out in IFRS 15:

Step 1. Identify the contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2. Identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer goods or services to the customer.

Step 3. Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4. Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5. Recognise revenue when (or as) the Company satisfies a performance obligation.

The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

1. The customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs; or

2. The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or

3. The Company's performance does not create an asset with an alternative use to the Company and the Company has an enforceable right to payment for performance completed to date.

For performance obligations where one of the above conditions are not met, revenue is recognised at the point in time at which performance obligation is satisfied.

When the Company satisfies a performance obligation by delivering the promised goods or services, it creates a contract asset based on the amount of consideration earned by the performance. Where the amount of consideration received from a customer exceeds the amount of revenue recognised, this gives rise to a contract liability.

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes and duty.

Revenue is recognised based on the following specific recognition criteria:

Sale of goods

Revenue (Net of discounts) from sale of goods (comprising of hardware and software) is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer, usually on delivery of the goods or on final acceptance. Payment of the transaction price is due immediately when the customer purchases the goods and takes delivery.

Income from services

Revenue from fixed-price contracts are recognized as per the proportionate-completion method or completed contract method, as applicable provided that no further vendor obligations remain and collection is probable.

Revenue in respect of time-and-material contracts is recognized as and when the related services are rendered. Annual technical services revenue and revenue from fixed-price maintenance contracts are recognized proportionately over the period in which the services are rendered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as contract receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms. Unearned revenue and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Contracts with multiple performance obligations

Some contracts include multiple deliverables, such as the sale of equipment and related services. However, the installation is simple, could be performed by another party. It is therefore accounted for as a separate performance obligation. Where the contracts include multiple performance obligations, the transaction price will be allocated to each performance obligation based on the stand-alone selling prices. Company uses input method for recognizing revenue for service revenue.

Significant judgements about:

Timing of satisfaction of performance obligation

In making their judgement, the management considered the detailed criteria for the recognition of revenue set out in IFRS 15. The revenue is recognized when the Company has transferred control of the goods or completed provision of service to the customer.

Transaction price and the amounts allocated to performance obligations

Management estimates the stand-alone selling price at contract inception based on observable prices of the type of equipment likely to be provided and the services rendered in similar circumstances to similar customers. If a discount is granted, it is allocated to both performance obligations based on their relative stand-alone selling prices.

3. CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

a) Depreciation of property and equipment

Management assigns useful lives and residual values to property and equipment based on the intended use and the economic lives of those assets. Subsequent changes in circumstances could result in the actual useful lives or residual values differing from initial estimates. Where management determines that the useful life or residual value of an asset requires amendment, the net book amount in excess of the residual value is depreciated over the revised remaining useful life.

b) Impairment of non-financial assets

Assessments of net recoverable amounts of property and equipment and other non- financial assets are based on assumptions regarding future cash flows expected to be received from the related assets.

c) Business model assessment

Classification and measurement of financial assets depends on the results of the Solely Payments of Principal and Interest (SPPI) and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

d) Significant increase in credit risk

ECL are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL assets for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. IFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Company takes into account qualitative and quantitative reasonable and supportable forward-looking information.

e) Calculation of loss allowance

When measuring ECL the Company uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

f) Lease term and useful lives of right-of-use asset

The Company's management determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

4. PROPERTY AND EQUIPMENT

	Computers AED	Furniture & fixtures AED	Network system AED	Office equipment AED	Total AED

6. RELATED PARTY TRANSACTIONS AND BALANCES

Related parties include the shareholder, key management personnel/directors, fellow subsidiaries, associates, joint ventures and entities which are controlled directly or indirectly by the shareholder or directors or over which they exercise significant management influence. Balances and transactions between the Company and its related parties are described below. Transactions with related parties were entered into on terms as agreed by the management.

Management considers the parent and ultimate controlling party to be Comviva Technologies Limited, India.

During the year, the Company entered into the following transactions with related parties:

	31.03.2022 AED	31.03.2021 AED
Comviva Technologies Limited (Parent company)		
Purchases and direct expenses (Note 16)	**1,086,425**	9,855,170
Dividend paid (Note 21)	**2,460,000**	-
Fund transfer	**161,803**	-
Entities under common ownership and control		
Interest on loan to related parties (Note 17)	**163,369**	242,909
Loan given to a related party	**2,942,975**	-
Loan repaid by a related party	**2,752,937**	2,586,429
Lease payment to related party (Note 13)	**240,000**	340,001
Fund transferred (net)	**106,655**	-

Compensation of key managerial personnel

The key managerial remuneration represents the compensation paid or payable to key management for employee services. The key management includes directors and other members of senior management. The compensation of key management for the year is shown below:

	31.03.2022 AED	31.03.2021 AED
Salaries and allowances	**1,596,371**	1,944,213
End of service benefits	**101,716**	73,679
	1,698,087	2,017,892

The compensation to key managerial personnel is included in employee costs (Note 20).

The following balances were outstanding at the end of the reporting period :

Loan to related parties Entities under common ownership and control	**31.03.2022 AED**	31.03.2021 AED
Comviva Technologies USA INC.	**2,580,770**	-
Comviva Technologies Nigeria Limited	**1,548,462**	1,539,620

Comviva Technologies B.V	**-**	920,056
Emagine International Pty Ltd	**-**	1,832,881
	5,631,335	5,441,297

The Company has given a loan of US$ 1,000,000 to Comviva Technologies USA INC. on 10 August 2021 which carries an interest rate of 3 months LIBOR + 200bps. .

The Company has given a loan of US$ 420,000 to Comviva Technologies Nigeria Limited on 12 April 2013 which carries an interest rate of LIBOR + 5.5%.

The Company has given a loan of US$ 400,000 to Comviva Technologies B.V on 30 September 2017 which carries an interest rate of LIBOR + 2%. A loan of US$ 2,000,000 was given on 5 February 2020.

The Company has given a loan of US$ 500,000 to Emagine International Pty Ltd on 27 August 2019 which carries an interest rate of LIBOR + 2%.

The Company has given a loan of EUR 266,000 to YABX Technologies (Netherlands) B.V. on 15 July 2019 which carries an interest rate of LIBOR + 2%.

Comviva Technologies (Australia) Pty. Ltd	**32,834**	-

Following are the balances due from/to related parties		
Included in trade and other receivables (Note 7)	**1,703,083**	3,419,300
Included in trade and other payables (Note 14)	**8,692,108**	11,866,677
Lease liability (Note 13)	**358,224**	178,564

7. TRADE AND OTHER RECEIVABLES

	31.03.2022 AED	31.03.2021 AED
Trade receivables	**16,746,032**	23,650,712
Less : Allowance for impairment of trade receivables	**(1,106,240)**	(1,147,643)
	15,639,792	22,503,069
Contract assets	**4,674,186**	9,941,712
Prepayments	**2,339,369**	989,193
Advance to employees	**72,246**	29,334
Advance to suppliers	**33,962**	70,644
Refundable deposits	**33,797**	33,604
VAT receivable	**-**	104,305
Other receivables	**6,664**	-
	22,800,016	33,671,861

As at 31 March 2022, trade receivables with a nominal value of AED 1,106,240 (2021 : AED 1,147,643) were provided for as per the requirement under IFRS 9 expected credit loss model.

Movements in the allowance for impairment of trade receivables are as follows:

	31.03.2022 AED	31.03.2021 AED
Balance at the beginning of the year	**1,147,643**	828,277
Provision made during the year (Note 18)	**1,164,912**	319,366
Written off during the year	**(1,206,315)**	-
Balance at the end of the year	**1,106,240**	1,147,643

Trade receivables are non-interest bearing and generally on 30 days credit terms

The following table details the risk profile of trade receivables based on the Company's provision matrix. As the Company's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished between the Company's different customer base.

As at 31 March, the ageing analysis of trade receivables is as follows :

	Current AED	31 to 90 days AED	91 to 180 days AED	181 to 365 days AED	Above 365 days AED	Total AED
2022						
Gross receivables	8,211,678	1,090,898	3,435,001	2,640,719	1,367,736	16,746,032
Provision %	0.13%	0.20%	0.27%	1.31%	76.76%	6.61%
Provision	(10,328)	(2,152)	(9,302)	(34,617)	(1,049,841)	(1,106,240)

The above employee costs include AED 1,698,087 (2021 : AED 2,017,892) compensation paid to key managerial personnel (Note 6).

The entire employee costs have been allocated to administrative and selling expenses (Note 18).

21. DIVIDEND

During the year, a dividend of AED 2,460,000 (2021 : AED Nil) was paid to the shareholder (Note 6).

22. GOING CONCERN

The financial statements have been prepared on a going concern basis, which contemplates the realisation of assets and the satisfaction of all liabilities in the normal course of business. The Company has incurred a loss of AED 5,671,275 for the year ended 31 March 2022 and as of that date, the Company has reported accumulated loss of AED 3,472,169 and its current liabilities exceeds its current assets by AED 8,180,874. The shareholder has committed to provide such financial support as may be required to enable the Company to meet its debts and obligations as they fall due. The financial statements have been prepared on a going concern basis, which contemplates the realisation of assets and the satisfaction of all liabilities in the normal course of business.

23. FINANCIAL INSTRUMENTS

The net carrying amounts of the financial assets and financial liabilities at the end of the reporting period are classified below:

	At amortised cost	
	31.03.2022 AED	31.03.2021 AED
Financial assets		
Trade and other payables (excluding advance from customers and contract liability) (Note 14)	**15,752,499**	22,670,312
Loan to related parties (Note 6)	**5,631,335**	5,441,297
Due from related parties (Note 6)	**1,676,709**	1,750,530
Other current financial assets (Note 8)	**3,136,738**	3,047,119
Cash and cash equivalents (Note 9)	**2,772,802**	1,655,402
	28,970,083	34,564,660

	At amortised cost	
	31.03.2022 AED	31.03.2021 AED
Financial liabilities		
Trade and other payables (excluding advance from customers and contract liability) (Note 14)	**38,013,288**	39,643,722
Lease liability (Note 13)	**358,224**	178,564
Due to a related party (Note 6)	**32,834**	-
	38,404,346	39,822,286

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 2.9 to the financial statements.

24. CAPITAL RISK MANAGEMENT

The Company manages its capital to ensure that the Company will be able to continue as a going concern while providing maximum return to stakeholders through the optimisation of the debt and equity balance and to maintain an optimal capital structure to reduce the cost of capital. The Company's overall strategy on capital risk management remains unchanged from the previous year.

The capital structure of the Company consists of equity funds as presented in the statement of financial position. Debt comprises total amounts owing to third parties and due to a related party, net of cash and cash equivalents.

25. FINANCIAL RISK MANAGEMENT

Financial risk factors

The Company's activities expose to a variety of financial risks: market risk (including currency risk and interest rate risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

Risk management is carried out by the Company's management. The management identifies and evaluates financial risks on regular basis to minimise the adverse impact over the Company's operation.

(a) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risk : interest rate risk, currency risk and other price risk, such as equity risk and commodity price risk. The Company's activities are exposed primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

(i) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities, when revenue or expense are denominated in a different currency from the Company's functional currency which is United Arab Emirates Dirham (AED). The Company manages the risks through regular monitoring of the currency markets to determine appropriate action to minimise the exposure to the foreign currency risk..

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the loan to related parties.

(b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily for trade receivables and committed transactions) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

The Company deals only with highly reputed local and international banks. In respect of major customers, credit risk is managed by assessing the credit quality of these major customers, taking into account their financial position, past experience and other factors including regular follow up.

(c) Liquidity risks

Liquidity risk refers to the risk that an entity will encounter difficulty in meeting obligations associated with its financial liabilities at maturity date.

The Company manages the liquidity risk through risk management framework for the Company's short, medium and long-term funding and liquidity management requirements by maintaining adequate reserves, sufficient cash and cash equivalent to ensure funds are available to meet its commitments for liabilities as they fall due.

The table below analyses the Company's remaining contractual maturity for its financial liabilities based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

Balances due within 12 months equal their carrying balances as the impact of discounting is not significant. The contractual maturity is based on the earliest date on which the Company may be required to pay.

As at 31 March 2022	**Less than 1 year AED**	**Between 1 to 5 years AED**	**Total AED**
Trade and other payables (excluding advance from customers and contract liability) (Note 14)	38,013,288	-	38,013,288
Lease liability (Note 13)	146,894	211,330	358,224
Due to a related party (Note 6)	32,834	-	32,834
	38,193,016	211,330	38,404,346

As at 31 March 2021	**Less than 1 year AED**	**Between 1 to 5 years AED**	**Total AED**
Trade and other payables (excluding advance from customers and contract liability) (Note 14)	39,643,722	-	39,643,722
Lease liability (Note 13)	178,564	-	178,564
	39,822,286	-	39,822,286

26. IMPACT OF COVID-19

The outbreak of COVID-19 continues to evolve and therefore, it is challenging to predict the extent and duration of its business and economic impact at this stage. These conditions are continuing as at the reporting date. Considering the unprecedented nature of the crisis, a reliable estimate of its impact on economy in general and business in particular, cannot be made at the date of the authorization of these financial statements. The management is closely monitoring the situation and has prepared action plans to ensure continuity of its business operations. Following the analysis of different possible scenarios, the management has concluded that sufficient reserves are available in respect of the liquidity and also the equity base of the Company to guarantee continuity of its operations at the date of the authorization of these financial statements.

27. FAIR VALUE

The fair value of a particular asset or liability is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair values of the financial assets and liabilities approximate their carrying amounts as reflected in these financial statements.

28. CONTINGENT LIABILITIES

As at the end of the reporting period the following contingent liabilities were outstanding :

	31.03.2022 AED	31.03.2021 AED
Letters of guarantee	**2,963,296**	2,876,603

29. COMPARATIVE FIGURES

The previous year figures have been reclassified and regrouped, wherever necessary, to conform with the current year presentation.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of Comviva Technologies B.V.

Report on the Audit of the Special Purpose Financial Statements

Opinion

We have audited the special purpose financial statements of Comviva Technologies B.V. (the Company), which comprise the balance sheet as at March 31, 2022, and the income statement, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying special purpose financial statements of the Company for the year ended March 31, 2022, are prepared in all material respects, in accordance with the International Financial Reporting Standard (IFRS) as adopted by European Union (EU) and relevant articles of Part 9 of Book 2 of the Dutch Civil Code.

Basis for Opinion

We conducted our audit in accordance with the International Standards on Auditing (ISAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the special purpose financial statements as prescribed by International Federation of Accountants, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Basis of Accounting and Restriction on Distribution and Use

We draw attention to Note 2 to the special purpose financial statements, which describes the basis of accounting. The financial statements are prepared to assist the Company in complying with the financial reporting provisions of Part 9 of Book 2 of the Dutch Civil Code. As a result, the financial statements may not be suitable for another purpose.

Our report is intended solely for the use of Board of Directors and the current investors of the company and should not be distributed to or used by any other parties. BDO India LLP shall not be liable to the Company or to any other concerned for any claims, liabilities or expenses relating to this assignment. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

Our opinion is not modified in respect of this matter.

Other Matter

We have relied on the scanned copies of the supporting documents for the purpose of issuing our opinion.

Our opinion is not modified in respect of above matter.

Responsibilities of Management and Those charged with Governance for the Special Purpose Financial Statements

Management is responsible for the preparation and fair presentation of these special purpose financial statements that give a true and fair view in accordance with the International Financial Reporting Standard (IFRS) as adopted by European Union (EU) and relevant articles of Part 9 of Book 2 of the Dutch Civil Code and for such internal control as management determines is necessary to enable the preparation of the special purpose financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Special purpose financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations or has no realistic alternative but to do so.

Those Charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing (ISAs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

We give in "Annexure A" a detailed description of Auditor's responsibilities for Audit of the Special purpose financial statements.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE SPECIAL PURPOSE FINANCIAL STATEMENTS OF COMVIVA TECHNOLOGIES B.V.

Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Note 17 - Other Notes :

Employees

The average number of employees during the year, converted to full-time equivalents, was as follows:

Average number of employees during the period	**2021/22**	2020/21
Active within the Netherlands	**0**	1

Note 18

During the year, the company has made revision in its expected credit loss model for recognising the provision for loss allowance on trade receivables from 100% charge on 365 days outstanding debtor to provisional matrix based on more reliable historical performance which is also in line with group policy. As a result of the above change provision for loss allowance has been reduced by Euro 5,08,443 as at 31st March 2022. It is impracticable to disclose impact of the same on the future periods in accordance with IAS 8 “Accounting Policies, Changes in Accounting Estimates and Errors”.

Note 19

Previous year figures have beeen regrouped / reclassified wherever considered necessary to confirm to the presentation of current year financial statements.

Note 20

The World Health Organization announced a global health emergency because of a new strain of coronavirus (“COVID-19”) and classified its outbreak as a pandemic on March 11, 2020. This pandemic is creating disruption in global supply chain and adversely impacting most of the industries which has resulted in global slowdown. The management has made an assessment of the impact of COVID-19 on the Company’s operations, financial performance and position as at and for the year ended March 31, 2022 and has concluded that no there is no impact which is required to be recognised in the financial statements. Accordingly, no adjustments have been made to the financial statements.

PROFIT APPROPRIATION

Proposed appropriation of the results

The board of directors proposes, with the approval of the supervisory board, that the result for the financial year 2021/2022 amounting to € 46,32,874 should be transferred to reserves without payment of dividend.

1. GENERAL NOTES

Most important activities

The activities of Comviva Technologies B.V., having its legal seat at Amsterdam mainly consist of writing, producing, publishing of software and providing business support services.

Location actual activities

Comviva Technologies B.V. is located in Amsterdam and is registered at the chamber of commerce under number 63223767. The actual address is Maanplein 7 at ‘s Gravenhage.

Group structure

The Company forms part of the Comviva Group of companies. The immediate parent company is Comviva Technologies Limited (CTL), India. The Company is ultimately owned by Tech Mahindra Ltd, India.

Exemption from consolidation

As Comviva Technologies B.V. is classified as “Small” after consolidation, consolidation has been dispensed pursuant to art. 407, sub 2, under a of book 2 of the Dutch Civil Code (‘Burgerlijk Wetboek’). The Company avails the facility of article 408, Book 2 of the Dutch Civil Code. The annual accounts of the company and its subsidiaries are consolidated into the annual accounts of Tech Mahindra Limited, India. Copies of the consolidated accounts are available at the Trade Register of the Chamber of commerce in Amsterdam. The consolidated accounts will be filed together with the final statements of the Company.

Estimates

In applying the principles and policies for drawing up the financial statements, the directors of Comviva Technologies B.V. make different estimates and judgments that may be essential to the amounts disclosed in the financial statements. If it is necessary in order to provide the transparency required under Book 2, article 362, paragraph 1, the Dutch Civil Code the nature of these estimates and judgments, including related assumptions, is disclosed in the notes to the relevant financial statement item.

2. ACCOUNTING POLICIES

GENERAL

General policies

The financial statements are drawn up in accordance with the provisions of Title 9, Book 2, of the Dutch Civil Code and the Dutch Accounting Standards applicable to small legal entities, as published by the Dutch Accounting Standards Board (‘Raad voor de Jaarverslaggeving’).

Accounting policies for the valuation of assets and equity and liabilities

Assets and liabilities are generally valued at historical cost, production cost or at fair value at the time of acquisition. If no specific valuation principle has been stated, valuation is at historical cost. In the balance sheet, income statement and the cash flow statement, references are made to the notes.

Accounting policies for the income statement

The result is the difference between the realisable value of the goods/services provided and the costs and other charges during the year. The results on transactions are recognised in the year in which they are realised.

Foreign currency translation

Items included in the financial statements of Comviva Technologies B.V. are valued with due regard for the currency in the economic environment in which the company carries out most of its activities (the functional currency). The financial statements are denominated in Euros; this is both the functional currency and presentation currency of Comviva Technologies B.V.

Financial instruments

Securities included in financial and current assets are stated at fair value, if these are related to securities held for trading or if they relate to equity instruments not held for trading, as well as derivatives of which the underlying object is listed on a stock exchange. All other on-balance financial instruments are carried at (amortised) cost. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm’s length transaction. If no fair value can be readily and reliably established, fair value is approximated by deriving it from the fair value of components or of a comparable financial instrument, or by approximating fair value using valuation models and valuation techniques. Valuation techniques include using recent arm’s length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis and/or option pricing models, making allowance for entity-specific inputs.

ACCOUNTING POLICIES FOR ASSETS

Intangible assets

Intangible fixed assets are stated at historical cost less amortisation. Impairments are taken into consideration; this is relevant in the event that the carrying amount of the asset (or of the cash generating unit to which the asset belongs) is higher than its realisable value.

Tangible assets

Land and buildings are valued at historical cost plus additional costs or production cost less straight line depreciation based on the expected useful life. Land is not depreciated. Impairments expected on the balance sheet date are taken into account. With regard to the determination as to whether a tangible fixed asset is subject to an impairment, please refer to the relevant section. Other tangible fixed assets are valued at historical cost or production cost including directly attributable costs, less straight-line depreciation based on the expected future life and impairments.

Financial assets

Due to the international structure of the group and the use of the consolidation exemption of Article 408, Book 2 of the Dutch Civil Code, participations are recognised at costs. If an asset qualifies as impaired, it is measured at its impaired value; any write offs are disclosed in the income statement. Receivables are valued at fair value and then valued at amortised cost, which equals the face value. The receivables of group companies are included in financial fixed assets, except for maturities less than 12 months after balance sheet date. They are then included in the current assets.

Receivables

Receivables are initially valued at the fair value of the consideration to be received, including transaction costs if material. Receivables are subsequently valued at the amortised cost price. Provisions for bad debts are deducted from the carrying amount of the receivable.

Cash and cash equivalents

Cash at banks and in hand represent cash in hand, bank balances and deposits with terms of less than twelve months. Overdrafts at banks are recognised as part of debts to lending institutions under current liabilities. Cash at banks and in hand is carried at nominal value.

ACCOUNTING POLICIES FOR EQUITY AND LIABILITIES

Current liabilities

On initial recognition current liabilities are recognised at fair value. After initial recognition current liabilities are recognised at the amortised cost price, being the amount received, taking into account premiums or discounts, less transaction costs. This usually is the nominal value.

ACCOUNTING POLICIES FOR THE INCOME STATEMENT

Net revenue

Revenue is recognised upon transfer of control of promised products or services (performance obligations) to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services (transaction price). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

Revenue from time and material and job contracts is recognised as the related services are performed.

Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.

Revenue from the sale of distinct internally developed software and manufactured systems and third-party software is recognised upfront at the point in time when the system / software is delivered to the customer (performance obligation is fulfilled). In cases where implementation and / or customisation services rendered, revenue against these services recognised over the period of time using proportionate method for measuring performance obligation.

The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue (“contract liability”) is recognised when there is billings in excess of revenues.

Amortisation, depreciation and impairment

Intangible assets, including goodwill, are amortised and tangible fixed assets are depreciated over their estimated useful lives as from the moment that they are ready for use. Land and investment property are not depreciated.

Other operating expenses

Costs are determined on a historical basis and are attributed to the reporting year to which they relate.

Income tax expense

Tax on the result is calculated based on the result before tax in the income statement, taking account of the losses available for set-off from previous financial years (to the extent that they have not already been included in the deferred tax assets) and exempt profit components and after the addition of non-deductible costs. Due account is also taken of changes which occur in the deferred tax assets and deferred tax liabilities in respect of changes in the applicable tax rate.

Deferred tax

Deferred income tax is provided in full, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the year and are expected to apply when the related deferred income tax asset is realised, or the deferred income tax liability is settled.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

The company has recognised the deferred tax asset on unused tax losses based on the reasonable certainty of the generation of future taxable income.

To:

Management and Shareholders of

Comviva Technologido Brasil Indústria, Comércio, Importação e Exportação Ltda.

São Paulo - SP

Opinion

We have audited the financial statements of **Comviva Technologies do Brasil Indústria, Comércio, Importação e Exportação Ltda** ("Company"), which comprise the balance sheet as of December 31, 2021 and the related income statements, comprehensive income, changes in net equity and cash flows for the year then ended, as well as the related explanatory notes, including summary of major accounting policies.

In our opinion, the aforementioned financial statements fairly present, in all material respects, the financial position as of December 31, 2021, the performance of its operations and its cash flows for the year then ended, in accordance with accounting practices adopted in Brazil, applicable to Small and Medium Enterprises (CPC PME).

Our audit was conducted in accordance with Brazilian and international auditing standards. Our responsibilities, in accordance with such standards, are described in the following section entitled "Responsibilities of the Auditor for the Audit of Financial Statements." We are independent in relation to the Company, in accordance with the relevant ethical principles set forth in the Code of Ethics for Professional Accountants and in the professional norms issued by the Federal Accounting Council, and we comply with the other ethical responsibilities according to these norms. We believe that the audit evidence we have obtained is sufficient and appropriate to substantiate our opinion.

Relevant uncertainty related to the Company's ongoing.

We call attention to Note 1 to the financial statements, which indicates that the Company incurred a current loss of R$ 2,048 thousands (R$ 3.289 thousands in 2020) and on that date, which also motivated the accumulated loss of R$ 11,306 thousands (R$ 9.258 thousands in 2020). The settlement of company short-term liabilities as well as the reversal of the negative equity scenario depends on the result of the actions adopted by the company to improve the performance of your production process. The financial statements were prepared on the assumption of ongoing of operations, which presuppose the realization and recovery of assets, as well as the settlement of obligations in the normal course of the Company's business, and do not include any adjustments that would be required in the presentation of its assets and liabilities, in the event of failure of the measures adopted to restore their financial balance. Our opinion is not qualified due to this matter.

Management and governance responsibilities of the financial statements

Management is responsible for the preparation of the financial statements in accordance with the accounting practices adopted in Brazil applicable to Small and Medium Enterprises – SMEs – and for the internal controls that it has determined to be necessary to enable the preparation of financial statements free from material misstatement, whether caused by fraud or error.

In the preparation of financial statements, management is responsible for evaluating the Company's ability to continue operating, disclosing, when applicable, matters related to its operational continuity and the use of this accounting basis in the preparation of the financial statements, unless Management intends to liquidate the Company or cease its operations, or has no realistic alternative to avoid closing the operations.

Those responsible for the governance of the Company are those responsible for supervising the process of preparing the financial statements.

Responsibilities of the Auditor for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance that the financial statements, taken as a whole, are free from material misstatement, whether caused by fraud or error, and issue an audit report containing our opinion. Reasonable safety is a high level of safety, but not a guarantee that the audit conducted in accordance with Brazilian and international auditing standards always detect any relevant distortions. Distortions may be caused due to fraud or error and are considered relevant when, individually or together, they can influence, from a reasonable perspective, the economic decisions of users taken on the basis of said financial statements.

As part of the audit performed, in accordance with Brazilian and international auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. Besides that:

- We identify and evaluate the risks of material misstatement in the financial statements, whether caused by fraud or error; we plan and perform audit procedures in response to such risks, and we obtain audit evidence appropriate and sufficient to substantiate our opinion. The risk of not detecting material misstatement resulting from fraud is greater than that of error, since fraud may involve the act of circumventing internal controls, collusion, forgery, omission, or false intentional representations.
- We obtain an understanding of the internal controls relevant to the audit to plan appropriate audit procedures in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls.
- We evaluate the adequacy of the accounting policies used and the reasonableness of the accounting estimates and respective disclosures made by management.
- We conclude on the adequacy of management's use of the accounting basis for operational continuity and, based on the audit evidence obtained, whether there is a material uncertainty regarding events or conditions that may raise significant doubt regarding the capacity for operational continuity from the company. If we conclude that there is material uncertainty, we should draw attention in our audit report to the respective disclosures in the financial statements or include any change in our opinion if the disclosures are inadequate. Our findings are based on audit evidence obtained up to the date of our report. However, future events or conditions may cause the Company to no longer remain in operational continuity.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those responsible for governance regarding, inter alia, the planned scope, timing of the audit and significant audit findings, including any significant weaknesses in internal controls that we have identified during our work.

São Paulo, March 25, 2022.

The accompanying notes are an integral part of these financial statements.

1. Company information

The Company located at Alameda Santos nº 2441, 2º andar – Cerqueira Cesar is engaged in assembly of equipment for radiotelephony, telephony, IT communications and in general; sales, import and export of machinery, tools, implements and accessories for radiotelephony, telephony, IT communication and in general; development, programming, implementation and maintenance of software; IT consulting service; equipment rent; and representation of domestic and foreign companies by its own or third-party behalf.

1.1 Operational ongoing of the Company

The financial statements were prepared on the assumption of ongoing of operations, which presuppose the realization and recovery of assets, as well as the settlement of obligations in the normal course of the Company's business, and do not include any adjustments that would be required in the presentation of its assets and liabilities, in the event of failure of the measures adopted to restore their financial balance. Management has a reasonable expectation that the Company will have sufficient resources to continue operating for the foreseeable future and, therefore, based on its judgment, concluded that the remaining uncertainty is not material.

2. Accounting policies

These financial statements were approved by the Company's executive board on March 25, 2022, considering subsequent events to date.

2.1. Conformity declaration

The financial statements were prepared in accordance with accounting practices adopted in Brazil, which cover corporate law, Pronouncements, Guidelines and Interpretations issued by the Accounting Pronouncements Committee (CPCs) and the standards issued by the Federal Accounting Council, applicable to Small and Medium Enterprises (CPC PME).

2.2. Measurement basis

The financial statements have been prepared on a historical cost basis, unless otherwise stated.

2.3. Functional currency and presentation currency

The financial statements are presented in Brazilian reais, which is the Company's functional currency.

2.4. Use of estimates and judgments

The preparation of the financial statements in accordance with the accounting practices adopted in Brazil requires the use of certain accounting estimates and the exercise of judgment by the Company's Management, in the process of applying the accounting policies. Therefore, actual results may differ from these estimates.

Estimates and assumptions are reviewed on an ongoing basis and such reviews are recognized in the period in which they are reviewed and in any affected future years.

Information on uncertainties, assumptions and estimates that have a significant risk of resulting in a material adjustment within the next financial year is mainly included in the explanatory notes:

Explanatory note no. 04 – Provision for losses in the recoverable value of accounts receivable

Explanatory note no. 05 – Provision for losses due to obsolescence or low inventory turnover

Explanatory note no. 08 - Useful life of assets and depreciation

Explanatory note no. 11 – Provision for contingencies

Explanatory note no. 13 – Revenue recognition

2.5. Main accounting practices

The accounting policies described below have been applied consistently to all the years presented in these financial statements.

Financial assets and liabilities

Financial assets

Financial assets are classified in the following categories: (i) at fair value through other comprehensive income (VJORA); (ii) amortized cost; and (iii) at fair value through profit or loss (VJR). The classification is based both on the entity's business model for managing the financial asset and on the contractual cash flow characteristics of the financial asset.

Financial assets at fair value through comprehensive income

A financial asset is measured at fair value through comprehensive income if it satisfies the "P&J only" criterion, i.e. cash flows that consist exclusively of outstanding principal and interest payments, and that is maintained in a business model. whose objective is achieved both by obtaining contractual cash flows and by selling the financial asset.

Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net income is recognized in "Other comprehensive income".

Amortized cost

These are assets held within the business model, the objective of which is to hold financial assets in order to receive contractual cash flows and, under contractual terms, give rise to cash flows that constitute, exclusively, payment of principal and interest on the amount of the outstanding principal. (Criteria of "P&J only). Amortized cost is reduced by impairment losses. Interest and foreign exchange income and impairment are recognized in income.

Financial assets at fair value through profit or loss

A financial asset is measured at fair value through profit or loss when it does not meet the classification criteria of the other previous categories or when, on initial recognition, it is designated to eliminate or reduce accounting mismatch. Derivative financial assets are included in this category. The result, including interest or dividend income, is recognized in profit or loss.

Financial liabilities

Financial liabilities are measured at amortized cost.

Amortized cost

They are initially measured at fair value, net of transaction costs, and subsequently measured at amortized cost using the effective interest rate method, with interest expenses recognized based on income.

Financial liabilities at fair value through profit or loss

Financial liabilities are, by default, measured at amortized cost, except: (i) financial guarantee contracts, (ii) commitments to provide loans with below-market interest rates, (iii) financial liabilities that arise when the asset is transferred financial institution does not qualify for derecognition or where the continuing involvement approach is applicable. A financial liability will be measured at fair value through profit or loss, when it eliminates and/or significantly reduces the accounting mismatch or if the liability group is managed at fair value. basically, represented by the individualized analysis of overdue accounts receivable. The outstanding customer receivables are frequently monitored by the executive board. For situations in which realization risks are identified, the full amounts of overdue debts are provisioned.

Trade accounts receivables

Accounts receivable from customers are recorded and maintained in the balance sheet at the nominal value of the securities representing these credits and segregated between current and non-current according to maturity. Estimated losses on credits are constituted based on the analysis of trade notes and amounts receivable from customers, in an amount deemed sufficient to cover probable losses upon realization, according to criteria defined by Management (expected loss).

Inventories - Inputs and Finished Goods

These are represented by hardware, software, spare parts, accessories and components valued at the lower value between average acquisition cost or net realizable value. The net realizable value is the estimated sales price over the normal course of operations, less cost of sales.

Property, plant and equipment

Recognition and measurement

Property, plant and equipment items are measured at historical acquisition or construction cost, less accumulated depreciation.

Cost includes expenses that are directly attributable to the acquisition of an asset. The cost of assets built by the Company itself includes: (i) the cost of materials and direct labor; (ii) any other costs to bring the asset to the location and condition necessary for it to be able to operate in the manner intended by management; (iii) the costs of dismantling and restoring the site where these assets are located.

Purchased software that is an integral part of the functionality of a piece of equipment is capitalized as part of that piece of equipment.

Gains and losses on the disposal of an item of property, plant and equipment are determined by comparing the proceeds from the disposal with the book value of the property, plant and equipment, and are recognized net within other income in the income statement.

Subsequent costs

The replacement cost of a component of property, plant and equipment is recognized in the carrying amount of the item, if it is probable that the economic benefits embodied within the component will flow to the Company and its cost can be measured reliably. The carrying amount of the component that has been replaced by another is written off. The day-to-day maintenance costs of property, plant and equipment are recognized in income as incurred.

Depreciation

Depreciation is recognized in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment, as this method most closely reflects the pattern of consumption of future economic benefits embodied in the asset. Land is not depreciated.

Property, plant and equipment items are depreciated from the month following the date they are installed and available for use, or, in the case of internally constructed assets, from the day the construction is completed and the asset is available for use.

Depreciation methods, useful lives and residual values are reviewed at each end of the financial year as long as there are significant changes in relation to variables that may alter the useful lives of the assets and the subsequent measurement of the assets, and any adjustments will be recognized as change in accounting estimates.

Evaluation of the recoverable value of non-financial assets (impairment test)

Management annually reviews the net book value of its main assets in order to assess events or changes in economic, operating or technological circumstances that may indicate deterioration or loss of their recoverable value. When this evidence is identified and the net book value exceeds the recoverable amount, a provision for impairment is set up, adjusting the net book value to the recoverable amount.

Other assets

Other current and non-current assets are stated at net realizable value.

Trade accounts payable

They are initially recognized at fair value and subsequently added, when applicable, by the corresponding charges and monetary and exchange variations incurred up to the closing dates of the financial statements. Accounts payable to suppliers are obligations for goods or services acquired in the normal course of operations, being classified as current liabilities if payment is made within a period of less than one year (or in the normal business cycle, albeit longer). Otherwise, these balances are presented as non-current liabilities.

Provisions (including provision for lawsuits)

Provisions are recognized for present liabilities or risks resulting from past events, in which it is possible to estimate the amounts reliably and whose disbursement is probable. The amount recognized as a provision is the best estimate of the considerations required to settle the obligation at the end of each year or period, considering the risks and uncertainties related to the obligation.

Provisions are made for all claims relating to legal proceedings for which, as a result of past events, it is probable that an outflow of resources will be made to settle the claim and a reasonable estimate can be made. The assessment of the probability of loss includes the assessment of available deficiencies, the hierarchy of laws, available jurisprudence, the most recent decisions in the courts and their relevance in the legal system, as well as the assessment of external lawyers.

Provisions are reviewed and adjusted to take account of changes in circumstances, such as applicable statute of limitations, conclusions of tax inspections or additional exposures identified based on new matters or court decisions. Actual results may differ from Management's estimates.

Contingent liabilities assessed as possible losses are only disclosed in an explanatory note and contingent liabilities assessed as remote losses are neither provisioned nor disclosed. Contingent assets are only recognized when there are real guarantees or favorable court decisions, which have become final and unappealable. Contingent assets with probable successes are only disclosed in an explanatory note.

Employee benefits

Salaries and benefits granted to the Company's employees and managers include fixed remuneration (salaries, INSS, FGTS, vacations, 13th salary, among others). These benefits are recorded in income for the year as they are incurred.

Current and deferred income and social contribution taxes for the period

The current and deferred income and social contribution taxes are recognized as expense or revenue in income (loss) for the year, except when it refers to items recorded under other comprehensive income (loss), or directly in shareholders' equity; hypothesis in which current and deferred taxes are also recognized under other comprehensive income (loss) or directly in shareholders' equity, respectively.

Revenue recognition

Revenue from product sales and services rendered is recognized in accordance with NBCTG 47 – Revenue from customer contracts, establishing a five-step model to determine the measurement of revenue and when and how it will be recognized. Accordingly, the Company recognizes revenue when: (1) there is a contract with the customer; (2) performance obligations to be met in connection with the contract (products to be delivered to customers) are identified; (3) measurement of contract value; (4) allocation of contract value to related performance obligations; (5) Determining the timing of revenue recognition (generally by transferring the risks and benefits of ownership of the products, upon shipment and issuance of sales invoices, taking into account incoterms). These criteria are considered met when the goods are transferred to the buyer, respecting the main freight modalities practiced by the Company.

Revenue is shown net of applicable taxes, returns, rebates and discounts.

Financial income

Financial income basically comprises interest from financial investments, interest and discounts received, which are recorded through profit or loss for the year.

Financial expenses

Financial expenses basically comprise interest on financial liabilities. Borrowing costs that are not directly attributable to the acquisition, construction or production of qualifying assets are recognized in income for the year based on the effective interest rate method.

Statements of cash flows

The statements of cash flows were prepared using the indirect method and are being presented in accordance with pronouncement CPC 03 (R2) – Statement of cash flows.

3. Cash and cash equivalents

Description	2021	2020
Cash	10	9
Bank accounts	1,145	360
	1,155	369

Financial investments are short term, highly liquid, readily convertible into a known cash amount and subject to an immaterial risk of changes in value. They mainly bear interest at rates intended to reach the variation of CDI (Interbank Deposit Rate), made with top tier banks, at usual rates and under normal market conditions.

4. Trade accounts receivable

Total financial expenses	**(1,144)**	(2,864)
Total financial income (loss)	**(717)**	(2,230)

18. Insurance coverage (unaudited)

The Company follows the policy of taking out insurance for civil liability, certain vehicles and other needs in amounts considered sufficient to cover possible losses, considering the nature of its activities and the risk level involved, Given the nature of the risk assumptions adopted, they are not part of the scope of an audit of financial statements and therefore were not reviewed by our independent auditors,

19. Financial Instruments

The financial instruments currently used by the Company are restricted to cash and cash equivalents, national accounts receivable and payable, bank loans under normal market conditions and are recognized in the financial statements by the criteria described in Note 2. These instruments are managed through operational strategies aimed at liquidity, profitability and risk minimization. The Company did not make speculative investments, derivatives or any other risky assets. Considering the term and the characteristics of these instruments, the book values approach the fair values.

The Company adopts risk control policies and procedures, as described below:

(i) Financial risk management policy

The Company follows the risk management policy, which guides in relation to transactions and requires the diversification of transactions and counterparts. Under this policy, the nature and general position of financial risks are regularly monitored and managed in order to assess the results and the financial impact on cash flow. Credit limits are also periodically reviewed.

The Company's risk management policy has been established by Management and under its terms, market risks are protected when it is considered necessary to support the corporate strategy or when it is necessary to maintain the level of financial flexibility.

(ii) Capital structure risk (or financial risk)

It results from the choice between capital (capital contributions and retention of profits) and third party capital that the Company makes to finance its operations. To mitigate liquidity risks and optimize the weighted average cost of capital, the Company continuously monitors and manages indebtedness levels in accordance with its internal policy in order to assess the results and the financial impact on cash flow. Credit limits are also periodically reviewed. The Company's risk management policy has been established by Management and under its terms, market risks are protected when it is considered necessary to support the corporate strategy or when it is necessary to maintain the level of financial flexibility.

(iii) Credit risk

The Company's sales policy considers the level of credit risk it is willing to incur in the course of its business. The diversification of its receivables portfolio, the selectivity of its clients, as well as the monitoring of the sales financing deadlines by business segment and individual position limits are procedures adopted to minimize any problems of default in its accounts receivable.

With regard to financial negotiations and other investments, the Company's policy is to work with leading institutions.

(iv) Liquidity risk

It is the risk that the Company does not have enough liquid resources to honor its financial commitments due to the mismatch of term or volume between the expected receipts and payments.

To manage the liquidity of the cash assumptions of future disbursements and receipts are established. They are monitored daily by the Management.

(v) Exchange rate risk

The Company is exposed to fluctuations in exchange rates, which may increase the balances of liabilities in foreign currency. Therefore, the Company maintains internal controls aimed at capturing these exchange rate variations in its liabilities, so that possible losses can be mitigated.

(vi) Valuation of financial instruments

The main active financial instruments and liabilities are described below, as well as the criteria for their valuation:

Cash and cash equivalents

The market value of these assets does not differ from the amounts presented in the financial statements. The agreed rates reflect the usual market conditions.

Accounts receivable and payable

Recorded based on the nominal value of the securities and evaluated by the concept of amortized cost.

Loans from financial institutions e related parties

Recorded based on the nominal value of the securities and evaluated by the concept of amortized cost.

20. Explanation added to the translation for the English version

The accompanying financial statements were translated into English from the original Portuguese version prepared for local purposes, Certain accounting practices applied by the Company that conform to those accounting practices adopted in Brazil may not conform to the generally accepted accounting principles in the countries where these financial statements may be used.

INDEPENDENT AUDITORS' REPORT

Financial Statements Report Opinion

I have audited the accompanying financial statements of **COMVIVA TECHNOLOGIES COLOMBIA SAS.**, which include the comparative statements of financial position as of December 31st 2021 and December 31st 2020, the income statement, the statement of changes in Owner equity, the statement of cash flows and the explanatory notes for the period ending on the above date, as well as a summary of relevant accounting policies and other explanatory information.

In my opinion, the financial statements faithfully present, in all material aspects, the financial situation of **Comviva Technologies Colombia S.A.S**., as of December 31st, 2021 and 2020, as well as its results and cash flows for the year ended on the above date, in accordance with addendum 2 for group 2 entiites in alignment with Single Regulatory Decree 2420 of 2015 and its modifications.

FOUDATION FOR MY OPINION

I have carried out our audit in line with the International Accounting Procedures – IAP - which are displayed in the technical addendum and updated 4-2019, regarding the Procedures for Information Assurance in the Single Regulatory Decree 2420 of 2015 (modified by Decree 2270 of 2019). Our responsibilities, according to the forementioned rules, are described later in the Responsibilities of the Fiscal reviewer in relation to the financial statements audit section of our report. We act as independent parties, in line with the ethical requirements applicable to our audit. We believe that the audit evidence we have collected provides a sufficient and adequate basis to generate our favorable opinon (clean and with no caveats).

Management's responsibility regarding the financial statements

Management is responsible for the preparation and proper presentation of the financial statements in accordance with Decree 3022 of 2013, compiled in Single Regulatory Decree 2420 of 2015 and its modifications; and the internal control that Management deems necessary to enable the preparation of the financial statements free of material incorrection, fraud or error.

In the process of preparing the financial statements, management is responsible of evaluating the preparedness of the business to continue in operation, revealing, if need be, the business related issues and using the accounting assumption of an ongoing operation, except if management has the intention to liquidate its assets or cease operations, or point out if no other alternative is feasible.

The responsible business governance management employees are responsible of supervising the trustworthiness of the entities financial information.

External Auditor´s responsibility regarding financial statements

My goal is to ensure reasonable assurance that the financial statements as a whole are free of material errors and issue an audit report, that contains our opinion. Regarding reasonable assurance, this conveys a high level of certainty, but doesn't guarantee that an audit process done following the International Standards on Auditing – ISA will always detect a material error if it exists.

On the other hand, these errors could be originated by fraud or plain error, and are considered significant if they can reasonably (either in individual or aggregate form) influence the economic decisions that the users of this information will take, based on the financial statements.

Report on other legal and regulatory requirements

In my opinion, the financial statements faithfully present, in all material aspects, the financial situation of **COMVIVA TECHNOLOGIES COLOMBIA S.A.S**., as of December 31st, 2020 and 2019, as well as its results and cash flows for the year ended on the above date, in accordance with Decree 3022 of 2013, compiled in Single Regulatory Decree 2420 of 2015, modified by Decree 2270 de 2019, which incorporates International Financial Reporting Standards for SMEs.

I can manifest that during the year 2021, the entity **COMVIVA TECHNOLOGIES COLOMBIA S.A.S**., took upon its accounting books, in accordance with the legal rules, technical accounting and the operations registered in its general ledger are in line with the statutes and decisions coming from the shareholders assembly and board of directors.

It is worth mentioning that law 1314 of 2009 introduced the accounting rules and principles that are to be applied in Colombia. This law was later developed by the Single Regulatory Decree 2420 of 2015 and its relevant legislation. To this end, as of 2015, as it was mandated by law, all **COMVIVA TECHNOLOGIES COLOMBIA S.A.S.** have been expressed under this rules.

I would also like to inform, that during the year 2021, the actions of the entity management were in line with the statutes and decisions from the shareholders assembly, that correspondence, the accounting receipts, the minutes book and log of actions are documented and duly kept and preserved; and that it fully complied with the contributions to social security and workers compensation payments which were calculated from the monthly payroll in a timely manner.

Lastly, we declare that the management report of its role is in line with the entities financial statements and that we can include a reference stating that the entity management did not impede the free flow of invoices sent out by the suppliers and creditors.

Opinion on the Internal Controls and the compliance with the rules and regulation

Additionally, article 209 of the code of Commerce sets forth the obligation to express as part of my role the compliance to legal, internal rules and adequate internal control.

We can declare that we carried out tests to evaluate the degree of compliance with the legal and regulatory provisions by the entity's administration, as well as the effectiveness of such operation of the internal control process.

For the evaluation of internal control, I used the COSO model as a criterion. The internal control is the set of policies and procedures adopted by the entities management to 1) provide reasonable assurance on the entiites financial information, 2) compliance to the entities internal rules and procedures, 3) allow for an effective and efficient operation.

In my opinion, the entitiy **COMVIVA TECHNOLOGIES COLOMBIA S.A.S**., as of December 31st, 2021 has complied with all important applicable laws and regulation, the statutory and shareholder assembly rulings. Also the internal control system is effective, in all relevant elements, according to the COSO model.

Regards,

JOSE ANTONIO GONZALEZ CASTAÑEDA

The corporate purpose of COMVIVA TECHNOLOGIES COLOMBIA will be: (a) Carry out trade and business activities for the development, implementation, support, sale and purchase of hardware and software products; (b) Additionally, it may carry out any other lawful economic, commercial or civil activity both in Colombia and abroad, including the power to give or receive loans.

Nature of its operation

For the fulfillment of its objectives, COMVIVA TECHNOLOGIES COLOMBIA., Carries out service activities in Bogota, D.C., and throughout the territory of the Republic of Colombia. Its corporate purpose includes the following activities: 1.- The commercialization of computer and communication equipment, its parts or components, its peripherals and accessories, programs and supplies, consulting 2.- The development and control of software in computer systems, feasibility studies, analysis, design and programming of commercial, scientific and engineering applications, also allowing training in related activities. Based on its corporate purpose, the company may carry out the following activities: A) Administration of its own or third-party computer centers, B) Buying, selling, exchanging, exporting, importing and distributing all kinds of goods, raw materials and products related to the computing area, C) Enter into leasing contracts, 4.- Buy, dispose of or organize computer centers.

On going business hypothesis

When preparing the complete set of financial statements, COMVIVA TECHNOLOGIES COLOMBIA management evaluated its ability to continue as an going business. The financial statements presented are prepared on the assumption that it is fully active and will continue to function for the foreseeable future. For the time being there is no intention to liquidate it or to cease its operations, nor are there any uncertainties related to the operation of the business.

Note 2. BASIS FOR THE PRESENTATION OF THE FINANCIAL STATEMENTS

COMVIVA TECHNOLOGIES COLOMBIA presents its individual financial statements in accordance with the Financial Information Standards accepted in Colombia (NIF), established by Law 1314 of 2009 and regulated by Sole Regulatory Decree 2420 of 2015, which establishes the Regulatory Regime for the Financial Reporting preparations that make up group 2 comprising the International Financial Reporting Standard for Small and Medium Entities (IFRS for SMEs) issued by the International Accounting Standards Board (IASB) in its 2009 version and later updated to version 2015.

International financial reporting standards have two applicable reference frameworks: one for publicly traded companies, known as full IFRS, and another applicable to companies considered small and medium or private interest companies, known as IFRS for SMEs

These financial statements correspond to the sixth annual financial statements presented in accordance with the IFRS SMEs; In preparing these financial statements, COMVIVA TECHNOLOGIES COLOMBIA has applied the accounting policies approved by the General Shareholders Meeting, and the significant accounting judgments, estimates and assumptions described in NOTE 3.

COMVIVA TECHNOLOGIES COLOMBIA is classified in Group 2 and therefore must apply the IFRS for SMEs regulatory framework.

Based on the current characteristics of COMVIVA TECHNOLOGIES COLOMBIA and taking into account that:

a) **COMVIVA TECHNOLOGIES COLOMBIA** is not an issuer of liability or equity instruments in a public market, and therefore is not registered in the National Registry of Securities and Issuers -RNVE-

b) **COMVIVA TECHNOLOGIES COLOMBIA** is not a public interest entity according to Law 819 of 2003 article 17, and according to the definition these are entities that receive, manage or administer resources from the general public.

c) **COMVIVA TECHNOLOGIES COLOMBIA** is not the parent or subordinate of a national or foreign company, and does not carry out imports that represent more than 50% of the purchase operations.

d) **COMVIVA TECHNOLOGIES COLOMBIA**, has 21 direct employees

e) **COMVIVA TECHNOLOGIES COLOMBIA** has assets below the 30,000 SMLV threshold

For the recognition of economic facts, the causation basis is applied. The economic facts are documented by means of internal and I or external sources, which comply with the requirements applicable to each case and adhere to the respective accounting vouchers, making their verification possible.

These financial statements have been prepared based on the historical cost model, with the exception of some financial assets that must be measured at fair value.

These financial statements are presented in Colombian pesos.

Note 3. SUMMARY OF THE MORE REPRESENTATIVE ACCOUNTING POLICIES

The quality policy for accounting and financial information is to issue “Individual General Purpose Financial Statements for external users that faithfully represent the economic reality in all its relevant aspects, also complying with the special standards issued by the authorities that exercise inspection, surveillance or control “

1.- Financial Assets

Financial assets within the scope of section 11 of the IFRS SMEs are classified as financial assets measured at fair value with a charge to results, financial assets measured at cost less impairment and financial assets measured at amortized cost.

All financial assets are initially recognized at fair value, and financial assets measured at cost and amortized cost are increased by transaction costs.

Financial assets classified as current assets are measured by the undiscounted amount of cash or other consideration expected to be received (net of impairment) unless the arrangement is, in effect, a financing transaction. If the arrangement constitutes a financing transaction, the entity will measure the financial asset at the present value of future payments discounted at a market interest rate for a similar debt instrument.

2.- Financial liabilities

Financial liabilities, in accordance with section 11, are classified as loans and accounts payable, or as derivatives designated as hedging instruments in an effective hedging relationship, as applicable. The Company determines the classification of financial liabilities at the time of its initial recognition.

All financial liabilities are initially recognized at their fair value, except in the case of loans and accounts payable accounted for at the transaction price where the directly attributable transaction costs are recognized. Likewise if the arrangement constitutes a financing transaction, the entity will measure the financial asset or financial liability at the present value of future payments discounted at a market interest rate for a similar debt instrument determined at initial recognition.

The Company’s financial liabilities include accounts payable, financial derivatives and debts for loans received and other items that accrue interest.

Debt instruments such as financial obligations will be subsequently measured at amortized cost using the effective interest rate method.

3.- Revenue recognition from core/operational activities

Revenue from core activities originated from recoveries is recognized at the fair value of the received serviceIproduct, provided that the amount of the revenue can be measured reliably, it is probable that the benefits will be received, the degree of completion of the transaction and the costs incurred.

Income from interest on core business activities is recognized using the effective interest rate method in the item called financial income.

4.- Financial expenses for loans and debt operations

All borrowing costs are recognized in profit or loss in the period in which they are incurred using the effective interest rate method in an item called financial expenses.

5.- Income tax

The amounts originated from income tax represents the sum of the result from current tax and deferred taxes.

Current income tax assets and liabilities for the current period are measured as the amount that is expected to be recovered from the tax authorities or that would have to be paid. The tax rate and tax laws used to account for the amount are those in force, or nominally in force, as of the date of the report.

Current income tax related to items that are recognized directly in Owner Equity or in other comprehensive Results is recognized in the Statement of Changes in Owner Equity or in the Results Statement, respectively. The administration periodically evaluates the position adopted in the tax returns with respect to situations in which the applicable tax regulations are subject to interpretation and creates the required provisions in each case.

The estimate of the liability for income tax is calculated at the official rate of 31% for the year 2021, by the accounting causation method. The asset or liability for income tax is presented net, after deducting the advances paid and the tax withholdings in favor.

Deferred income tax is recognized for temporary differences between the carrying amount of assets and liabilities and their corresponding tax bases. Deferred tax liabilities are recognized for all temporary differences that are expected to increase future taxable income. Deferred tax assets are recognized for all temporary differences that are expected to reduce future taxable profit, and any unused tax loss or unused excess presumptive income.

Deferred taxes are measured at the tax rate expected to be applied to temporary differences when they are reversed, based on the laws that have been approved or are about to be approved as of the date of the report. The book value of deferred tax assets is reviewed at each reporting date and is reduced to the extent that it is no longer probable that there will be sufficient taxable earnings to use all or part of the deferred tax asset. Unrecognized deferred tax assets are reviewed at each closing date and are recognized to the extent that it is probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax related to items recognized out of profit or loss is recognized in correlation with the underlying transaction, either in ORI or directly in Owner Equity. Deferred tax assets and liabilities are offset if there is an enforceable right to offset current tax assets and liabilities, and when deferred tax assets and liabilities are derived from income taxes corresponding to the same tax authority and fall on the same tax entity or taxpayer, or in different tax entities or taxpayers, but the Company intends to liquidate current tax assets and liabilities for their net amount, or simultaneously materialize its tax assets and liabilities.

7.- Property, plant and equipment

Property and equipment are recognized as assets when future economic benefits are derived from them and the cost can be reliably measured and presented at their acquisition costs, which do not exceed their recoverable amounts through future operations, less accumulated depreciation

Additions, renewals and improvements are recorded in the cost of the asset only if it is probable that the expected future economic benefits will be obtained and that these benefits can be reliably measured.

1.) Initial valuation and recognition.

The following goods recognized as Property, Plant and Equipment are subject to: Se reconoce como Propiedad, Planta y Equipo los bienes sujetos a:

- If their initial cost is less than % a Monthly Minimum Wage (SMLV) they are immediately recognized as an expense.
- If their initial cost is between % and 2 Monthly Minimum Wages (SMLV), it will be completely depreciated between the purchase date and December 31st of the same calendar year.
- If their initial cost is upwards of 2 Monthly Minimum Wages (SMLV) it is recognized as an asset and depreciation will take place based on the accounting policy and general accounting principles.
- Construction, remodeling, habilitation and similar investments on third party property are recognized as Property, Plant and Equipment or intangibles and are subject to depreciation during the term of the rentIlease contract, unless the cost of the later is less than the equivalent of five (5) Monthly Minimum Wages in which case this will be recognized as an expense. If the contract term on third party property is less than the lifespan of the asset, then reconciliatory entries will be reflected in the general ledger.

2.) Subsequent measurement.

The entity will not appraise for Property, Plant and Equipment (NIC 16,29 y NIIF PYMES 17,15). However, in case an appraisal is needed for a specific need like a loan or collateral, this will be revealed in the notes to the financial statements.

The entity will only appraise Property, when Management deems necessary or at least every five (5) years.

8.- Depreciation Expenses

8.1. Depreciation is charged to distribute the cost of the assets minus their residual values throughout their estimated useful life, if this estimation is not available then the general market practice analyzed by the DIAN (tax authority) and the straight-line method is applied.

The following useful lives are used in the depreciation of property, plant and equipment:

Description	Useful Life	Method
Construction and buildings	30 to 60 years	linear
Machines and Equipment	10 years	linear
Office Equipment	10 years	linear
Computing and Communication Eq	5 years	linear
Transportation Equipment	5 years	linear
Medical Equipment	3 years	linear

Land has an indefinite useful life and therefore does not depreciate.

If there is any indication that there has been a significant change in the depreciation rate, useful life or residual value of an asset, the depreciation of that asset is revised prospectively to reflect the new expectations.

Repairs and preventive maintenance are recorded in the results for the year in an item called “maintenance expenses”.

8.2. In the case of completely depreciated assets that continue in use (NIC 16, 79b, NIIF 17.31); Totally depreciated assets, although in use, are written off. They can continue to be administered in some other information system off the books.

9. - Impairment of the value of non-financial assets

At each reporting date, property, plant and equipment, intangibles and investments measured at cost are reviewed to determine if there are indications that these assets have suffered an impairment loss. If there are indications of a possible impairment, the recoverable amount of any affected asset (or group of related assets) is estimated and compared with its carrying amount. If the estimated recoverable amount is less, the carrying amount is reduced to the estimated recoverable amount and an impairment loss is recognized in profit or loss.

10.- Value Impairment on financial assets

The Company will assess each year-end whether the financial assets or groups of financial assets are impaired. If there is objective evidence that an impairment loss has been incurred for the value of loans and receivables recorded at amortized cost, the amount of the loss is valued as the difference between the carrying amount of the asset and the present value of the assets. estimated future cash flows, discounted at the original effective interest rate of the financial asset (that is, the effective interest rate computed at the time of initial recognition). The book value of the asset is reduced through a provision account and the amount of the loss is recognized in the income statement for the year.

11.- Accounts receivable derived from operating activities

Sales are made under normal credit terms and the amounts of the accounts receivable do not accrue interest. When credit is extended beyond normal credit terms, accounts receivable are measured at amortized cost using the effective interest method. At the end of each reporting period, the carrying amounts of trade debtors and other accounts receivable are reviewed to determine if there is any objective evidence that they will not be recoverable. If so, an impairment loss is immediately recognized in profit or loss.

12.- Accounts payable derived from the normal operation activities

Accounts payable correspond to obligations based on normal credit conditions and do not accrue interest. The amounts of trade accounts payable denominated in foreign currency are converted into the functional currency using the exchange rate in effect on the date reported. Gains or losses from foreign currency exchange are included in other gains or losses.

13.- Employee benefits

The liability for obligations for employee benefits is related to what is established by the government for payments related to the entity’s workers, which are considered as short-term benefits.

The cost of all employee benefits to which they are entitled as a result of services rendered to the entity during the reporting period are recognized as a liability, after deducting the amounts that have been paid directly to the employees. or as a contribution to a pension fund; If the amount paid exceeds the contributions to be made according to the services provided up to the date reported, that excess will be recognized as an asset to the extent that the advance payment will lead to a reduction in payments. to be made in the future or to a cash reimbursement and are recognized as an expense, unless they are recognized as part of the cost of an asset.

The Company records short-term benefits, such as salary, vacations, bonuses and others, on an accrual basis.

14.- Provisions

A provision liability is recognized only when there is a present obligation as a result of a past event and it is probable that you will have to dispose of economic resources to cancel the obligation, and the amount of the obligation can be reliably estimated. The liability is measured as the best estimate of the amount required to cancel the obligation on the date reported. Any adjustment to the amounts previously recognized will be recognized in results. When a provision is measured by the present value of the amount expected to be required to pay the obligation, a financial expense will be recognized in the results of the period in which it arises.

If the effect of the value of money over time is significant, provisions are discounted using a pre-tax interest rate that reflects, where appropriate, the specific risks of the liability. When discounted, the increase in the provision due to the passage of time is recorded as a financial expense.

Provisions for labor, legal and tax contingencies, contracts with third parties or others, depending on the circumstances, are estimated and recorded based on the opinion of the legal advisors, which are considered probable and reasonably quantifiable.

15.- Contingent Liabilities

A contingent liability is: (i) a possible obligation, arising as a result of past events and whose existence must be confirmed only by the occurrence, or in its case the non-occurrence, of one or more uncertain future events that are not entirely under control of the Company; or (ii) a present obligation, arising from past events, that has not been recognized in accounting because: (a) it is unlikely that an outflow of resources that incorporate economic benefits will be required to satisfy it; or (2) the amount of the obligation cannot be measured with sufficient reliability.

A contingent liability is not recognized in the financial statements, but is reported in notes, except in the event that the possibility of an eventual outflow of resources to settle it is remote. For each type of contingent liability at the respective closing dates of the periods reported, the Company discloses (i) a brief description of the nature of the same and when possible, (ii) an estimate of its financial effects; (iii) an indication of uncertainties related to the amount or timing of the corresponding outflows of resources; and (iv) the possibility of obtaining eventual refunds.

16.- Contingent Assets

A contingent asset is an asset of a possible nature, arising from past events, the existence of which must be confirmed only by the occurrence, or in its case by the non-occurrence, of one or more uncertain events in the future, which are not entirely under the control of the Company.

A contingent asset is not recognized in the financial statements, but is reported in notes, but only in the event that the entry of economic benefits is probable. For each type of contingent asset at the respective closing dates of the periods reported, the Company discloses (i) a brief description of its nature and, when possible, (ii) an estimate of its financial effects. In accordance with section 21 of IFRS SMEs, the Company's policy is not to disclose in detail the information related to disputes with third parties related to situations involving provisions, contingent liabilities and contingent assets, to the extent that such information seriously damages the position of the company. In these cases, the Company provides information of a generic nature and explains the reasons that have led to such a decision.

17.- Cash and cash equivalents

They are considered cash equivalents, short-term, highly liquid and freely available investments that, without prior notice or relevant cost, can easily be converted into a certain amount of cash, are subject to a negligible risk of changes in value whose maturity maximum is three months from the date of acquisition and whose main destination is not that of investment or similar, but that of cancellation of short-term commitments.

Cash and short-term deposits in the statement of financial position include cash in banks and in cash and short-term deposits with an original maturity of three months or less.

For the purposes of the statement of cash flows, cash and cash equivalents comprise cash and cash equivalents as defined above, net of outstanding bank overdrafts.

18.- Functional currency

The management of COMVIVA TECHNOLOGIES COLOMBIA considers that the Colombian peso is the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions, and for this reason, the financial statements are presented in Colombian pesos as their functional currency.

19.- Classification of current and non-current assets or liabilities

The Company presents its assets and liabilities in the statement of financial position according to its current or non-current classification.

An asset or liability is classified as current when:

- It is expected to be carried out, it is expected to pay it, or it is intended to consume it, in the normal course of business.
- It is expected to realize the asset or pay the liability, within the twelve months following the date of the year in which it is reported, or
- The asset is cash and cash equivalents.

The Company classifies the rest of its assets and liabilities as non-current

20.- Owners Equity

It is measured at the value of the cash or other resources received or to be received, net of the direct costs of issuance of the equity instruments, is made up of subscribed and paid-in capital, earnings for the year and accumulated earnings, and appreciation surplus.

21.- Cash Flow. -

a) The cash flow statement was done using the indirect method.

b) In addition to the Ademas de las fuentes y usos de inversi6n y financiaci6n, relacionadas con los activos y los pasivos, se incluyen en esta categoria los siguientes conceptos (que no se clasifican como flujo de operaci6n);

c) The following items are not classified as operating flows:

   i. Interest expense on loans to acquire eligible assets, whether they have been recognized as expenses or capitalized,

   ii. Dividends payed out,

   iii. Cash used for improvements on third party property, construction and commissioning

   iv. Capital payments on loans,

   v. Those from one time gains on the sale of fixed assets.

22.- Exchange rate differences. –

REGULATION: Art. 269, 285, y 288 ET

Art. 269. Asset value of assets in foreign currency. The value of assets in foreign currency are estimated in local currency at the time of their initial recognition at the representative market exchange rate, less credits or payments valued at the same representative market exchange rate of the initial recognition.

Art. 285. Liabilities in foreign currency. The value of liabilities in foreign currency are estimated in local currency at the time of their initial recognition at the representative market exchange rate, less credits or payments measured at the same representative market exchange rate of the initial recognition.

Art. 288. Adjustments due to exchange rate difference. Income, costs, deductions, assets and liabilities in foreign currency will be measured at the time of their initial recognition at the representative market exchange rate.

In accounting under IFRS, the exchange rate difference has two components:

1. Realized exchange rate difference: Which is the one determined between the date of origin of the asset or liability in foreign currency and the date on which the partial or total payment is received or made.
2. Mark to market or unrealized exchange rate difference: That corresponds to the one calculated with the balances of assets and liabilities in foreign currency that as of December 31 of each year remain with a balance.

COMVIVA TECHNOLOGIES COLOMBIA, By policy, it was defined that the mark to market will be made based on the last Thursday of each month, and the exchange rate difference with the TRM of that day is calculated, except for the annual closing of December 31 of each year, in which case the TRM of December 31st is used. December, and the annual closing of the INDIAN year that culminates on March 31st.

23.- Events that occurred after the accounting closure of the previous period:

23.1. Body that approves the financial statements (NIC 10.17; NIIF PYMES 32.9): The financial statements were authorized for publication by the General Assembly.

23.2. Approval date of the financial statements (NIC 10.17, 10.18; NIIF PYMES 32.9): The financial statements were approved on 01-04-2022 and do not reflect events that occurred after that date, as stated in the Management Letter to the External Auditors (statutory audit).

23.3. Inability of partners, shareholders or similar to change the figures in the financial statements (NIC 10.17, 10.18; NIIF PYMES 32.9): Once the financial statements are approved, the General Assembly does not have the power to make or order changes in the figures or other data that comprise them.

23.4. Post-closing events that do not involve adjustments (NIC 10.21, NIIF PYMES 32.10):

- There are no post-closing events that require significant adjustments or disclosures

Note 4.- COVID19 effects

On the impact of the coronavirus on the entity: “Note 4. Events that occurred after the reporting period On March 11, 2020, after the reporting period, the World Health Organization -WHO- declared the spread of COVID 19 as a pandemic. Subsequently, on March 12, 2020, the national government declared “National Health Emergency and Quarantine” as a consequence of the spread of COVID 19 in Colombia, issuing a series of provisions to contain its spread; such as: exceptional traffic restriction measures, the drastic reduction of activities and the issuance of economic regulations, among others; that are expected to significantly affect the country’s economic activity and markets in general. As of the date of issuance of the financial statements, the duration of the aforementioned exceptional measures and its effects is unknown on the financial situation, the result of operations and cash flows of the entity. As these provisions are events subsequent to the reporting period, they are considered as subsequent events, which do not require adjustment and do not generate an impact on the recognition and measurement of assets and liabilities at the date of preparation of the financial statements. Likewise, the effects that these events could have on the financial situation, the result of the operations and cash flows of the entity in the future cannot be reasonably estimated”.

JOSE ANTONIO GONZALEZ C.

T.P. 12.423-T

1. Cash and CashEquivalents

The current policy is to maintain enough resources to pay liabilities with Banks, Suppliers and other operational expenses like payroll.

As of December 31st 2021 the available amounts are decomposed as follows:

	DEC-31-2021	DEC-31-2020
Cash in hand	**0.00**	5,265.72
Checking account deposits	**393,713,436.88**	500,567,988.16
	0.00	0.00
	393,713,436.88	500,573,253.88

2. Debtors

As of December 31st 2021 the Debtors account is decomposed as follows:

	DEC-31-2021	DEC-31-2020
Domestic	**548,308,049.49**	2,323,914,571.14
Foreign	**4,243,763,601.99**	1,362,991,927.50
Advance payments to suppliers - contractors	**13,410.00**	3,871,458.00
Income tax with holding	**409,831,889.47**	9,119,784.77
Accounts Receivables from Employees	**0.00**	9,844,830.00
Less Client provision	**-110,374.17**	0.00
	5,201,806,576.78	3,709,742,571.41
Amount in US Dollars from Foreign clients	**1,065,961.58**	397,084.32

3. Plant, Property and Equipment

As of December 31st 2021 this account includes inflation adjustments and is decomposed as follows:

Property Plant and Equipment	**DEC-31-2021**	DEC-31-2020
Office Equipment	**33,710,499.00**	33,710,499.00
Cumulative Depreciation	**-13,937,933.00**	-11,249,045.00
Subtotal	**19,772,566.00**	22,461,454.00
Communications and hardware equipment	**93,094,463.04**	66,773,951.52
Cumulative Depreciation	**-49,663,412.00**	-35,195,936.00
Subtotal	**43,431,051.04**	31,578,015.52
Total Plant Property and Equipment	**63,203,617.04**	54,039,469.52

4. Accounts payable and others

As of December 31st 2021 the accounts payable are decomposed as follows:

	DEC-31-2021	DEC-31-2020
Domestic Suppliers	**2,063,915,236.47**	710,970,601.43
Costs and Expenses Payable	**98,217,292.58**	39,031,971.00
Payable taxes	**25,883,205.54**	22,200,745.99
Payable Sales Tax withheld	**14,221.50**	0.00
Industry and Commerce tax withheld	**398,679.67**	117,891.60
Tax withholdings and contributions payable	**41,866,180.00**	38,272,432.00
Other creditors	**84,543,300.00**	28,606,300.00
	2,314,838,115.76	839,199,942.02

5. Liablities form taxes, surtax and contributions

As of December 31st 2021 the income tax, sales tax and deferred taxes are decomposed as follows:

		DEC-31-2021	DEC-31-2020
Income tax		**353,790,341.28**	441,822,266.15
Income tax	353,790,341.28	**0.00**	0.00
Total Income Tax		**353,790,341.28**	441,822,266.15
Plus: Sales tax payable		**-33,852,759.88**	245,989,180.29
Bimester 2021-06	-33,852,759.88		0.00
Plus : Industry and Commerce tax		**0.00**	18,420,504.95
		319,937,581.40	706,231,951.39

6. Employee Benefits

As of December 31st 2021 the balance on this accounts is decomposed as follows:

	DEC-31-2021	DEC-31-2020
Cesantías	**54,481,395.00**	46,242,870.00
Interest on Cesantias	**5,728,134.00**	5,426,310.00
Vacation time accrued	**202,933,241.00**	167,426,823.00
	263,142,770.00	219,096,003.00

7. Estimated liabilities and provisions

As of December 31st 2021 the estimated liabilities and provisions account is decomposed as follows:

	DEC-31-2021	DEC-31-2020
Commisions and bonuses	**527,531,338.00**	236,395,117.40
Liabilities from deferred Taxes	**124,615,300.00**	124,615,300.00
Other Liabilities - Client Advance Payment	**117,196,983.00**	0.00
	769,343,621.00	361,010,417.40

8. Owner Equity

The owners equity as of December 31st 2021 is as follows:

	DEC-31-2021	DEC-31-2020
Entity Capital	**43,906,000.00**	43,906,000.00
Earnings (loses) current period	**-147,355,438.46**	1,226,325,692.29
Earnings (loses) previous periods	**1,740,256,981.00**	513,931,288.71
Share placement premium	**354,654,000.00**	354,654,000.00
	0.00	0.00
	1,991,461,542.54	2,138,816,981.00

9. Revenue from Operational activities

Operational Revenue is decomposed as follows:

	DEC-31-2021	DEC-31-2020
Local Income	**1,755,651,964.00**	2,111,216,259.00
Services	**1,755,651,964.00**	2,111,216,259.00
Foreign Income	**6,004,344,722.74**	5,326,742,959.90
Services	**4,449,696,437.74**	4,990,840,339.00
Provision Comviva Technologies BV	**1,554,648,285.00**	335,902,620.90
Minus: Returns	**-698,209,270.00**	0.00
Net Operational Income	**7,061,787,416.74**	7,437,959,218.90
TRM as of Dec-31- Dolar	**US$ 3.981.16**	3,432.50
Amount in US Dollars from Foreign sources	**1,832,179.30**	1,691,136.88

10. Cost of Sales

Cost of Sales is decomposed as follows:

	DEC-31-2021	DEC-31-2020
Plus: Licensing Costs	**1,503,558,653.37**	706,407,547.57
Provisions	**683,044,392.16**	37,798,690.00
Total Available:	**2,186,603,045.53**	744,206,237.57
Others	**0.00**	0.00
	2,186,603,045.53	744,206,237.57

Los costos fueron afectados principalmente por importaciones (55,41% de los gastos de ventas), gastos de viaje y servicios principalmente

11. Adminstration Expenses

Administration expenses are decomposed in the following accounts:

	DEC-31-2021	DEC-31-2020
Personnel expenses	**2,733,393,666.42**	2,232,516,173.72
Fees	**213,500,169.50**	141,759,039.00
Taxes	**0.00**	124,615,300.00
Rent	**110,363,831.70**	106,617,017.00
Contributions and Memberships	**10,928,843.00**	10,432,267.00
Insurance	**2,807,223.00**	2,648,565.00
Utilities	**118,008,951.23**	120,117,843.03
Legal Expenses	**2,071,716.00**	3,348,988.00
Maintenance and Repair	**10,349,774.00**	1,407,730.00
Adaptation and Installation	**5,971,740.00**	105,440,545.00
Depreciations	**17,156,364.00**	23,440,712.00
Others	**26,656,942.20**	64,589,893.82
Employee benefits	**2,047,500.00**	
Provisions	**0.00**	0.00
	3,253,256,721.05	2,936,934,073.57

12. Sales Expenses

Sales expenses are decomposed as follows:

	DEC-31-2021	DEC-31-2020
Personnel Expenses	**1,457,114,619.41**	1,803,856,909.93
Taxes	**15,752,212.32**	19,488,751.46
Services	**11,000.00**	113,000.00
Maintenance	**5,362,808.16**	0.00
Others	**6,612,659.00**	30,973,433.63
Personnel Expenses provisions	**110,374.17**	0.00
	1,484,963,673.06	1,854,432,095.02

13. Other Income and Expenses

	DEC-31-2021	DEC-31-2020

REPORT

Mr/Mrs Shareholders of COMVIVA TECHNOLOGIES (ARGENTINA) P.L.C

A new fiscal year of our Partnership has passed.

As in previous years the interest of keeping our highly skilled payroll has prevailed as main asset of our Partnership. Likewise, we have favored the long term relationship with our customers, reporting change as a business opportunity for those involved.

On the issuance date of the financial statements, fiscal year results ending on June, 30th 2021 show a profit of $ $1,311,802.

During this fiscal year financial statements have been adjusted for inflation at the closing as Argentine professional accounting standards establish that the financial statements have to be prepared recognizing changes in the currency purchasing power according to the technical regulations (TR) N° 6 and N° 17, with the amendments made by TR N° 39, standards issued by the Argentine Federation of Professional Councils of Economic Sciences (FACPCE) These standards state that the application of the adjustment for inflation must be made facing a high inflation context, characterized, among other considerations, when there is a cumulative inflation rate in three years reaching or surpassing 100%.

For this reason, according to the above mentioned professional accounting standards, Argentine economy was considered of high inflation from July, 1st 2018, being applied in the Partnership during the fiscal year ended on June 30th 2019 and those that follow it.

Adjustment procedures application and preparation basis were detailed in note 1. BASIS FOR PRESENTATION OF THE FINANCIAL STATEMENTS of this financial statements.

In reference to the fiscal year results, decrease in profit regarding the previous fiscal year was affected by the inflation impact and exchange rate control which does not follow inflation, creating a negative financial result.

The changes in the assets and liabilities is mainly due to the fluctuation of the exchange rate during this fiscal year.

The relationships with the affiliated companies and the changes operated in credits and debts with them are detailed in note 5 of this financial statements.

Since March 2020, global economic and financial conditions were severely affected by the outbreak of a new coronavirus (SARS-CoV2) cause of COVID-19 disease, declared pandemic by the World Health Organization on March, 11th 2020. The Argentinian government ordered a preventive and compulsory social isolation through Decree N° 297/2020 of the National Executive Power.

During this fiscal year the health situation in Argentina followed a similar trend to the world one. After the first infection wave, reaching its peak in October 2020 there was a sharp slowdown from November reaching minimum infection levels in February 2021. From that month on, infections increased in what was called the second wave, reaching maximum levels again in May with 822 thousand confirmed positive cases. As regards to the vaccination process, Argentina started vaccinating its population in January 2021 in a very gradual way during the first months of the year, and accelerating its pace between March and June. In that way, by the end of June 2021 37% of the population was vaccinated with the first dose.

Government´s handling of the pandemic started to relax since August 2020, sequentially abandoning the strict lockdown measures implemented in March 2020 (where some essential activities and economic sectors basically related to health, food and safety were authorized) to social distancing measures and specific restrictions to use the public transport, education and services related to the entertainment, tourism, hotels and restaurant sectors.

The Partnership has not suffered significant impacts in their results as a consequence of the pandemic. Although we´ve faced different kind of difficulties that decelerate our activities, operations are kept and we expect them to continue besides difficulties.

The Partnership Board is closely monitoring the situation and is taking the necessary measures within its power to preserve human life and its operation checking the compliance and implementation of the plan for the surveillance, prevention, and control of COVID at work to guarantee health and wellbeing of the employees, customers and community.

We´d like to thank the personnel of the Partnership, our customers, suppliers and everybody who has collaborated somehow in this new fiscal year.

BOARD OF DIRECTORS

INDEPENDENT AUDITORS REPORT

To the Board of Directors of

COMVIVA TECHNOLOGIES (ARGENTINA) P.L.C.

CUIT (Individual Taxpayer Identification) N°: 30-64627917-4

Report on financial statements

Identification of the financial statements object of the audit

We have audited the attached financial statements of COMVIVA TECHNOLOGIES (ARGENTINA) P.L.C (from now on, indistinctly mentioned “COMVIVA TECHNOLOGIES (ARGENTINA) P.L.C.” or the “Partnership”), which consists of the statement of financial condition as of June 30th 2021, income statement, net worth development and cash flow of the ended fiscal year, as well as a summary of the significant accounting policies and other explanatory information included in notes 1 to 10 and annexes I to IV.

Figures and other information of the fiscal year ended on June, 30th 2020, restated in June of 2021 currency according to what was pointed out in note 1.2 to the attached financial statements, are part of the financial statements above mentioned and it´s presented to be exclusively interpreted related to the figures and the information of the current fiscal year.

Responsibilities of the Board of Directors in relation to financial statements

The Board of Directors of the Partnership is responsible for the preparation and fair presentation of the attached financial statements according to Argentine professional accounting standards and of the internal control needed to allow the preparation of financial statements free from significant misstatements.

Responsibility of auditors

Our responsibility entails expressing an opinion about the attached financial statements based on our audit. We have carried out our assessment in accordance with the audit standards of the Technical Resolution N° 37 of the Argentine Federation of Professional Councils of Economic Sciences. Such standards require that we comply with the ethical requirements, as well as plan and execute the audit to determine with reasonable certainty that the financial statements are free from significant misstatements.

An audit entails the application of procedures to obtain evidence about the figures and information submitted in the financial statements. The selected procedures depend on the professional judgement of the auditors, including risk assessment of significant misstatements in the financial statements. When risk assessing, the auditors take into account the corresponding internal control for the preparation and fair presentation by the Partnership of the financial statements, so as to design the proper audit procedures for the circumstances and not to express an opinion about the efficiency of the internal control of the Partnership. An audit also includes the assessment of the adequacy of the accounting policies applied and the reasonability of the accounting estimates made by the Board of Directors of the Partnership, as well as the assessment of the overall presentation of the financial statements.

We believe that the evidence that we have obtained is appropriate and sufficient to provide a basis for our audit opinion.

Opinion

In our opinion, the attached financial statements reasonably present, in all its significant aspects, the financial condition of COMVIVA TECHNOLOGIES (ARGENTINA) P.L.C as of June 30th 2021, as well as its results, the evolution of its net worth and cash flow corresponding to the ended fiscal year on that date, according to the Argentine professional accounting standards

Report on other legal and regulatory requirements

a) As set forth in the financial statements of the Partnership, the receipt accrual liability as of June 30th 2021 in favor of the Argentine Integrated Social Security System under retirement payments and contributions amounted to 5,523,019.52, not claimable at that date.

b) We have applied the procedures on prevention of criminal assets laundering and financing of terrorism set forth in the Resolution N°420/11 of the Argentine Federation of Professional Councils of Economic Sciences.

NOTES TO FINANCIAL STATEMENTS FOR FISCAL YEAR ENDED JUNE, 30TH 2021

(presented comparatively for the fiscal year ended on June, 30th 2020)

(in pesos)

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

1.1 Accounting standards applied

These financial statements have been prepared and exposed according to the Technical Regulations and Interpretations of the Argentine Federation of Professional Councils of Economic Sciences (FACPCE), taken by the Argentine Federation of Professional Councils of Economic Sciences (C.P.C.E.C.A.B.A.), in force and applicable to entities not included in the public tender offer regime and which has not opted for the application of International Financial Reporting Standards (Argentine professional accounting standards).

1.2 Unit of measure

Financial statements have been prepared in constant currency recognizing the effects of inflation according to the corresponding generally accepted professional accounting standards.

In the restatement to reflect the variations in the currency purchasing power the adjustment method established by the Technical Resolution Nº 6 (TR N°6) , its amending and supplementing provisions were followed in the way it was approved and regulated by the Argentine Federation of Professional Councils of Economic Sciences

The index used for the restatement is the Consumer Price Index (CPI) published by the National Institute of Statistics and Censuses of Argentina (INDEC), from January 1st 2017 and, backwards, Internal Index Wholesale Prices (IPIM) made by this Institute or, in its absence, consumer price index published by the General Directorate of Statistics and Census of the City of Buenos Aires. Index variations used to restate this financial statements have been of 50.20% in the fiscal year ended on June, 30th 2021 and of 42.76% in the previous fiscal year.

By Resolution C.D. N° 107/2018 of the CPCECABA, amended on April 3rd 2019 by Resolution C.D. N° 18/2019 of the CPCECABA, the second part of the resolution JG FACPCE N° 539/18 was approved, as indicated in the Annex of the mentioned Resolution of the CPCECABA, mandatorily applicable for the financial statements of fiscal years or intermediate periods closed as of December 31st 2018, inclusive, considering the possibilities of using certain simplifications as regards to the methodology established in the TR N° 6. In the CPCECABA standards different relevant aspects are also defined to apply the procedures of restatement of the financial statement figures.

The Partnership applied the inflation adjustment of the TR 6, with the following option granted by the JG Resolution 539/18:

Option of determining and presenting financial performance and holding (including RECPAM) in one line

The Partnership exercised the option of the TR 6 and the JG Resolution 539/18 of presenting the R.E.C.P.A.M. included in the financial performance and holding in only one line.

Non-opening of Financial performance and holding (RECPAM included) generates the impossibility of determining the real magnitude of the different components of the financial performance and holding, neither their nominal magnitude adjusted by inflation and the RECPAM effect on those results. This limitation also prevents the determination of certain financial ratios, as financial assets performance, the cost of debt, leverage, etc.

Option of not identifying the variation of financial performance and holding (including RECPAM) in cash flow statement

Cash flow statement has been prepared by the indirect method and the variation of the financial performance and holding (including RECPAM) generated by cash and its equivalents is kept within the results of the period. Such amount has not been identified, which prevents us from knowing the net cash flow determination used in the operating activities.

1.3 Comparative information

According to what was asked by the Argentine professional accounting standards, financial statements as of June 30th 2021, with its notes and annexes, are presented comparatively with the figures of the fiscal year ended on June 30th 2020.

1.4 Main assessment criteria applied in the preparation of the accounting standards.

a) Monetary items:

Cash and banks, credits and debts are expressed at their nominal value at the end of each fiscal year

b) Assets and liabilities in foreign currency:

They have been assessed according to the suitable exchange rate or rate applied at the end of each fiscal year.

c) Other assets:

Supplies: Current replacement cost has been assessed at the end of each fiscal year, it does not exceed its recoverable value.

d) Fixed assets:

Acquisition cost: they have been valued at the acquisition cost restated according to what is mentioned in note 1.2.

Depreciations: fixed assets are depreciated following the straight-line method since the acquisition year, applying the aliquots estimated for each fixed asset, determined according to the estimated lives. The cumulative depreciations have been restated according to what is mentioned in note 1.2.

Fixed asset value does not exceed the estimated use value.

e) Capital stock, earnings allocated to reserves and unallocated earnings:

Net worth balances adjusted at the beginning of the fiscal year were updated at the end of the fiscal year according to what was mentioned in note 1.2.

Capital stock was restated in currency as at closing date, according to what was established in note 1.2. The difference with the nominal value is shown as “capital adjustment” in the net worth.

Unallocated earnings are restated in currency as at closing date, according to what was established in note 1.2.

The result of the fiscal year was obtained by the difference of the net worth at the beginning, the movements of their accounts, and the net worth at the end, measured in constant currency as of June 30th 2021.

f) Income tax:

The Partnership determines the accounting charge for income tax according to the method of the deferred tax which considers the effect of the temporary differences originated in the different measuring base of assets and liabilities according to the accounting and tax criteria, and of the existing tax loss carryforward and tax credits not used tax deductible of future taxable incomes, calculated considering the prevailing tax rate, and the governing one at the moment of the reversion.

On December, 29th 2017, Act N° 27,430 of the Tax Reform was published, which came into force the day after its publication. The tax reform introduces amendments in the Income Tax Act, including the reduction of the aliquot which levies retained company earnings of 35% to 25% as of January 1st 2020, with a transitional model for the two fiscal years starting on January, 1st 2018, where the aliquot will be 30%. The main accounting impact of the new standard is the measuring of assets and liabilities by deferred tax, as they have to be recognized applying the tax rate applied on the dates when the differences between book and tax values are reversed or used.

Likewise, by virtue of the amendments introduced by Acts N° 27.430 and N° 27.468 of Income Tax Act (“ITA”), the adjustment procedure for tax inflation considered in article 95 of the ITA (static and dynamic adjustments), in the fiscal year when variation percentage in the general level CPI accumulated in the thirty six (36) months before the end of the fiscal year liquidated, above one hundred percent (100%) shall be applicable for the fiscal years starting on January 1st 2018, Without limiting the foregoing, as regards to the first, second and third fiscal years since its entry into force, that procedure shall be applicable if the variation of this index, estimated from the beginning till the end of each of these fiscal years, is above fifty five percent (55%), a thirty percent (30%) and a fifteen percent (15%) for the first, second and third year of application, respectively. Nevertheless, the adjustment for tax inflation (positive or negative) that shall be applied regarding the first, second and third fiscal years starting on January 1st 2018 shall only be computable on a third part of the period of origin while the other two remaining thirds, in equal parts, shall be computable on the two immediately following tax periods.

The “Social Solidarity and Productive Reactivation Act N° 27.541” by means of which public emergency is declared in economic, financial, tax, administrative, social security, tariff, energy, health and social issues was published in the Official Gazette on December 23rd 2019. Within the amendments introduced, as regards to income tax, it suspended until the fiscal year starting on January 1st 2021 the reduction of 25% of the income tax aliquot, keeping the rate of 30%; and stablished that the adjustment for tax inflation, corresponding to the first and second fiscal years starting on January 2019, if applicable, shall be attributed 1/6 in this tax period and the remaining 5/6, in equal parts, in the immediately following 5 tax periods. The provisions do not preclude the calculation of the remaining thirds corresponding to the previous periods.

During the fiscal years finished on June 30th 2021 and 2020, CPI variation was of 50.20% and 42.76%, respectively. As a consequence, as the established variations were reached for both fiscal years (30% for the second and 15% for the thrid) the Partnership determined the income tax applying the provisions mentioned in the previous paragraphs.

By issuing the decree N° 387/2021 (O.G. 16/06/2021), Act 27,630 – Income Tax – was passed making amendments to the aliquot of this tax for legal persons incorporating progressive scales applied to fiscal years starting on January, 1st 2021.

This new regulation has an impact on the measurement of assets and liabilities by deferred tax as from the entry into force of the new act, as they have to be recognized applying tax rates promulgated on the closing date when temporary differences shall be reverted or used. Considering the aforesaid and since the new amendments are applicable for the next fiscal year, the Board of Directors decided to value its assets and liabilities by deferred tax at the close of this fiscal year applying an estimated rate for the reversion or use of the provisions. The effect for the aforementioned rate change is exposed in note 3 of this financial statement.

Benefits Act N° 25,922 “Regime Of Promotion Of The Knowledge Economy”

The Partnership is entitled to the benefits of Act N° 25,922 “Software Industry Promotion Act”, published in the Official Gazette on September 9th 2004. Subjects adhering to this regime shall enjoy tax stability for ten years reaching all national taxes, meaning direct taxes, tax rates and contributions having those registered beneficiaries as taxable people. Tax stability means that subjects developing software production activities shall not see their national total tax burden increased when incorporating the Partnership to this general legal framework.

The beneficiaries of the regime of this act developing software development and investigation activities and/or processes of quality certification of software developed in the national territory and/or software export, shall be able to turn into a non-transferable tax credit certificate up to 70% of the employer contributions effectively paid on the total payroll of the company for social security systems and subsystems considered in Acts N° 19,032 (National Social Security Administration), 24,013 (National Employment Fund) and 24.241 (Retirement and Pension System). The beneficiaries could use those certificates to pay national taxes originated in the software industry, specially value added tax or other national taxes and their advanced payments, if applicable, excluding income tax.

Subjects adhering to the promotion regime established by this act will have a relief of 60% in the total amount of the income tax determined in each fiscal year, while investigation and development and/or quality certification processes and/or software exports expenditures are charged in the extent determined by the implementing authorities. The benefit only applies to the activities corresponding to the promotion regime.

Act N° 26.692, published in the Official Gazette on August 18 2011, made amendments to the software industry promotion act, and among others it extended its validity up to December 31st 2019.

Act N° 27,506 “Regime Of Promotion Of The Knowledge Economy”, which should replace software industry promotion Act with effect from January 1st 2020 was published in the Official Gazette on June 10th 2019. Nevertheless, afterwords the act was null and legally invalidated, and then amended for its approval with certain modifications on October 8th 2020, implementing its regulation on February 18th 2021.

At the closing of this financial statements, the Partnership has not applied the fiscal benefits included in this regime due to what is mentioned in note 10.

g) Cash flow statement:

Such statement is presented according to the indirect method, going from the net result of each fiscal year, adding or deducting, as appropriate, those entries involved in its determination, but that neither affected funds nor changes in assets and liabilities. Cash and banks and sales credits are considered concepts of “Cash and its equivalents” according to the following detail:

	...2021...	...2020...
Cash and banks	**11,757,635**	47,208,696
Sales credits (*)	**16,043,262**	20,243,310
Total cash and its equivalents	**27,800,897**	**67,452,006**

(*) Corresponds to “Cash to be deposited” due in less than 90 days.

h) Estimates:

The preparation of the financial statements, according to accounting standards in force, requires the Board of Directors of the Partnership to make estimates affecting the determination of the amounts of assets and liabilities and the disclosure of contingencies at the date of presenting the financial statements. The real amounts and results may defer from the estimates made for the preparation of the financial statements.

For other non-recoverable credits: it was constituted on the basis of an individual analysis of recoverability of receivables.

For deferred tax: it was constituted on the basis of the individual analysis of the probability of reversion of the items of the deferred tax.

For lawsuits and contingencies: it was constituted to cover possible claims and contingency situations that could create liabilities for the Partnership. The opinion of the legal advisers of the Partnership was considered in the estimates of amounts and likelihood of occurrence.

i) Results:

The income statements were restated in the currency as at closing date, according to what was established in note 1.2. The differences with their nominal values were included in the line “Financial performance and holding (includes RECPAM)” of the income statement.

2. COMPOSITION OF THE MAIN CATEGORIES OF THE FINANCIAL STATEMENTS.

The composition of the main categories of the financial statements are the following:

	...2021...	...2020...
2.a) Cash and banks		
Cash in local currency	**76,741**	84,807
Cash in foreign currency (Annex III)	**21,588**	577,722
Banks in local currency	**4,458,026**	5,440,174
Banks in foreign currency (Annex III)	**7,201,280**	41,105,993
Total	**11,757,635**	47,208,696
2.b) Sales credits		
Sales credits in local currency	**10,960**	585,397
Sales credits in foreign currency (Annex III)	**18,887,456**	64,900,919
Related parties (note 5)	**210,416,504**	237,029,342
Cash to be deposited	**16,043,262**	20,243,310
Total	**245,358,182**	322,758,968
2.c) Other credits		
Current

Domestic market	**119,691,377**	189,357,548
Foreign market	**331,419,994**	334,846,519
Total	**451,111,371**	524,204,067
2.j) Other incomes and expenses, net		
Sundry	**(111,451)**	147,144
Other non-recoverable credits	**(10,742,094)**	(12,896,092)
Donations	**(51,728)**	(72,898)
Total	**(10,905,273)**	(12,821,846)

3. INCOME TAX

As of June, 30th 2021 and 2020, the Partnership determined a charge for income tax for the ended fiscal year on those dates as follows:

	...2021...	...2020...
Deferred income tax	**13,273,980**	7,407,805
Current income tax	**(4,159,072)**	(2,740,047)
Income tax	**9,114,908**	4,667,758

The conciliation between the charge to income registered in the income tax and the one resulting from applying the rate established by the standards in force at the accounting result of the fiscal year ended on June 30th 2021 and 2020 are the following:

	...2021...	...2020...
Result of the financial year before income tax	**(10,426,710)**	(893,157)
At tax rate (1)	**3,128,013**	107,179
Permanent differences (2)	**5,986,895**	4,560,578
Income tax	**9,114,908**	4,667,757

(1) The rate applied is of 30%, for the fiscal year finished on June 30th 2021, and of 12% for the fiscal year finished on June 30th 2020, which has the reduction of 60%, resulting from the tax benefit in the Software Act according to what was mentioned in note 1.4.f. Such fiscal benefit was not applied in this fiscal year according to what was mentioned in note 10.

(2) Includes the effect for rate change and the R.E.C.P.A.M.

Likewise, the composition of the net deferred tax as of June 30th 2021 and 2020 and the variations registered in the fiscal year ended on June 30th 2021 are the following:

	...2021...		Variations		...2020...	
Asset / (Liability) for Deferred Tax						
Fixed assets	**(23,666)**		148,638		(172,304)	
Salaries and payroll taxes	**33,251,318**		9,160,229		24,091,089	
Non-deductible provisions	**302,224**		(7,448,100)		7,750,324	
Tax loss carryforward (1)	**7,181,778**		(3,605,258)		10,787,036	
Adjustment for tax inflation	**35,409,419**		(683,733)		36,093,152	
Total	**76,121,073**		(2,428,224)		78,549,297	
To the tax rate	**22,836,318**	(2)	14,134,069	(3)	8,702,249	(2)
Provision for deferred tax (Annex II)	**(2,154,533)**		(860,089)		(1,294,444)	
Total	**20,681,785**		13,273,980		7,407,805	

(1) The balance corresponds to specific tax loss carryforward of foreign source, which prescribe in the fiscal year of June 30th 2022.

(2) Estimated considering the reversion periods (see note 1.4.f)

(3) Includes the result for rate change and the R.E.C.P.A.M.

4. SOCIAL STOCK

As of June, 30th 2021 and 2020, capital stock amounted to 2,255,800, represented by 2,255,800 common, registered, non-transferable, with voting right per share and nominal value of $1 each. It was totally subscribed, integrated and registered before the Superintendence of Corporations.

5. PARTNERSHIPS SECTION 33 ACT N° 19,550 AND OTHER PARTIES RELATED

As of June 30th 2021 and 2020, the shareholding structure of the Partnership was the following:

	Shares (1)		
Shareholders	**Amount**	**Nominal value**	**% Share**
Comviva Technologies BV	2,255,010	2,255,010	99.96%
Comviva Technologies Ltd.	790	790	0.04%
Total	**2,255,800**	**2,255,800**	**100%**

(1) Common, registered, non-transferable shares, with voting right per share and nominal value of $1 each (note 4).

As of June 30th 2021 and 2020, the balance with related parties are the following

Related party	Sales credits	Commercial Debt	Financial debts
Comviva Technologies BV	208,464,999	74,260,916	55,605,856
Comviva Technologies Ltd.	1,951,505	-	-
Totals 2021 (1)	**210,416,504**	**74,260,916**	**55,605,856**
Totals 2020 (1)	**237,029,342**	**85,647,583**	**62,820,886**

(1) Correspond to balances in foreign currency (see Annex III)

As of June 30th 2021 and 2020, the transactions with related parties were the following:

	...2021...	...2020...
Incomes for provision of services:		
- Comviva Technologies BV	**252,702,794**	266,040,699
- Comviva Technologies Ltd.	**47,362,954**	36,881,732

6. GUARANTEES AND SURETIES IN FORCE

As of June 30th 2021 and 2020, the Partnership kept guarantees and liability insurance in favor of their customers and bank sureties, according to the following detail:

Type	Currency of origin	...2021...	...2020...
- Surety insurance	AR$	**13,874,254**	2,469,117
	U$S	**597,442**	24,759
- Liability insurance	U$S	**24,100,000**	56,000,000

7. BREAKDOWN BY FINANCING TERMS AND INTEREST RATES OF CREDITS AND DEBTS AS OF JUNE 30TH 2021

Terms	Credits (1)	Debts (1)
Without specified term	210,416,504	156,242,153
Due	573,121	-
Due up to three months	39,646,824	40,026,578
Due between three and six months	4,184,727	13,540,560
Due between six and nine months	-	-
Due between nine and twelve months	9,067,205	19,711,818
Due above twelve months	1,147,080	-
Total	**265,035,461**	**229,521,109**

(1) Neither do they accrue interests nor have adjustment clause except for financial debts, accruing interests according to the conditions agreed with Comviva Technologies B.V.

8. RESTRICTIONS TO THE DISTRIBUTION OF CUMULATIVE RESULTS

According to the legal dispositions in force, 5% of the net income of the fiscal year should be appropriate to the legal reserve until it reaches 20% of the social stock. As of June 30th 2021, the amount of the legal reserve amounts to 1,066,380.

9. EFFECTS OF COVID-19 PANDEMIC IN THE ACTIVITIES OF THE PARTNERSHIP

On December 2019 the onset in China of a new coronavirus SARS-CoV-2 (known as “COVID-19”) was known, after December 31st 2019 it expanded practically all around the world. On March 11th 2020 the WHO declared the outbreak of COVID-19 as a pandemic. This emergency situation and the measures adopted in the different countries to face it have significantly affected the international economic activity with different impacts in each country affected and business sectors. The Partnership Board estimates that this situation will not have an adverse and significant effect on entity operations, as the activity of the Partnership has continued operating normally besides the different regulations established by the National Executive Power. Nevertheless, the future evolution of COVID-19 is very uncertain and cannot be predicted, as well as the measures needed to contain it and deal with its impact, and, therefore, the results, developments, and real commercial decisions can differ from the ones considered in the prospective declaration of the administrators about the impact of COVID-19 in the operations of the entity.

10. AUDIT ON THE COMPLIANCE OF ACT N° 25,922 “SOFTWARE INDUSTRY PROMOTION ACT” REQUIREMENTS

As part of exercising the rights established in Act N°- 25,922 the Partnership undergoes annual audits related to the compliance of the requirements established by such act so as to keep receiving those benefits, for the periods of August to July each year.

One of the requirements the Partnership has to comply with, is keeping a minimum annual amount of staff determined and estimated in the act, in the reglementary decree and related regulations. If the Partnership fails to comply with some of these obligations it shall be subject to possible sanctions which shall be implemented by the competent authority, where appropriate. Among them, the loss of granted fiscal benefits.

During the month of February 2021, the Partnership was notified about the audit results of the following annual periods: August 2017 to July 2018, August 2018 to July 2019 and August 2019 to July 2020.

As a result of this work, the audit challenged the calculation criteria used by the Partnership to determine minimum staff amount. In reply, the Partnership issued a disclaimer arguing that such determination was performed according to what is established in the applicable regulations. Nevertheless, before issuing the report, the audit answered the disclaimer, ratifying the reasons previously exposed.

During such periods, the Company has registered incomes for benefits associated to this regime for a total amount of $ 22,431,563 (in historic currency) composed of the following: concept and per period:

Concept	August 17-July 18	August 18 - July 19	August 19-December 19	Total
Social Contributions	6,554,163	6,763,281	3,985,984	17,303,428
Income tax	-	2,391,737	2,736,398	5,128,135
Total	**6,554,163**	**9,155,018**	**6,722,382**	**22,431,563**

It´s important to point out that the last period considered includes only five months of perceived benefits as since January 2020 such benefits were suspended at that moment by the new National Administration decision.

At the date of this report the implementing authority hasn´t expressed their opinion on the matter.

As of June 30th 2021, the Partnership considers that the liabilities are contingent and that there are valid arguments to defend its position to exhaust all available administrative remedies. The final result shall depend on the interpretation of the competent authority based on the discharges submitted by the Partnership answering the audit reports.

COMVIVA TECHNOLOGIES MYANMAR LIMITED

(Incorporated in Republic of the Union of Myanmar)

CORPORATE INFORMATION

Directors:
Anil Kumar Singh
Ankit Sharma
Neeraj Jain

Registered Office:
Complex 45, 45th street, Tower B
Room (607), 6th floor Botahtaung Township,
Yangon 11161, Republic of the Union of Myanmar

Principal banker:
State Bank of India

Auditors:
JF Group – Certified Public Accountants & Auditors

DIRECTORS' REPORT

The Directors have pleasure in submitting their report and the audited financial statements of Comviva Technologies Myanmar Limited "(the Company)" for the financial period ended 31 March 2022 (i.e., 01 October 2021 to 31 March 2022) as per Myanmar Companies Law Section - 261.

PRINCIPAL ACTIVITY

The principal activity of the Company is providing Integrated Value Added Services (VAS) to telecom companies in Myanmar.

RESULT FOR THE FINANCIAL PERIOD

	MMK
Profit for the period	146,224,301

DIVIDEND

No dividend was paid during the financial period and the Directors do not recommend the payment of any dividend for the current financial period.

RESERVES AND PROVISIONS

There were no material transfers to or from reserves or provisions during the current financial period.

BAD DEBTS OR DOUBTFUL DEBTS

Before the statement of profit or loss and other comprehensive income and statement of financial position were made out, the Directors took reasonable steps to ascertain that action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts, and satisfied themselves that there were no known bad debts and that allowance need not be made for doubtful debts.

As at the date of this report, the Directors are not aware of any circumstances which would render it necessary to write off bad debts or to make allowances for doubtful debts in the financial statements of the Company.

CURRENT ASSETS

Before the statement of profit or loss and other comprehensive income and statement of financial position were made out, the Directors took reasonable steps to ensure that for any current assets which were unlikely to be realised in the ordinary course of business, their values as shown in the accounting records of the Company have been written down to an amount expected if realised.

At the date of this report, the Directors are not aware of any circumstances which would render the values attributed to the current assets in the financial statements of the Company misleading except as otherwise stated in the financial statements.

VALUATION METHOD

At the date of this report the Directors are not aware of any circumstance, which have arisen and which may render adherence to the existing method of valuation of assets or liabilities of the Company misleading or inappropriate.

CONTINGENT AND OTHER LIABILITIES

At the date of this report, there does not exist:

(i) any charge on the assets of the Company which has arisen since the end of the financial period which secures the liabilities of any other person, or

(ii) any contingent liability of the Company which has arisen since the end of the financial period.

No contingent or other liability has become enforceable, or is like to become enforceable, within the year of 12 months after the end of the financial period which, in the opinion of the Directors, will or may substantially affect the ability of the Company to meet its obligations when they fall due.

CHANGE OF CIRCUMSTANCES

At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or in the financial statements of the Company, which would render any amount stated in the financial statements as misleading.

ITEMS OF AN UNUSUAL NATURE

The results of the operations of the Company during the financial period were not, in the opinion of the Directors, substantially affected by any item, transaction or event of a material and unusual nature.

There has not arisen in the interval between the end of the financial period and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors, to affect the substantially the results of the operations of the Company for the financial period for which this report is made.

SHARE CAPITAL

The Company issued initial shares during the previous financial period which is disclosed in Note 8 of the financial statements.

No option to take up unissued shares in the Company was granted during the financial year and there were no shares under options at the end of the financial year in respect of shares in the Company.

DIRECTORS OF THE COMPANY

The Directors who have held for office as at the date of this report are:

Anil Kumar Singh

Ankit Sharma

Neeraj Jain

DIRECTORS' BENEFITS

During and at the end of the financial period, no arrangement subsisted to which the Company is a party, with the object or objects of enabling the Directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other corporate body.

The Directors have not received or become entitled to receive any benefit (other than a benefit stated in the financial statements) by reason of a contract made by the Company or a related corporation with the Director or with a firm of which the Director is a member, or with a member in which the Director has a substantial financial interest.

SIGNIFICANT EVENT DURING THE FINANCIAL PERIOD

Significant events during the financial period are disclosed in Note 17 to the financial statements.

DIRECTORS' RESPONSIBILITY IN RESPECT OF THE FINANCIAL STATEMETNS

The Directors are responsible to ascertain that the financial statements give a true and fair view of the financial position of the Company as at 31 March 2022, and of its financial performance and cash flows for the financial period as at 31 March 2022. In preparing these financial statements, the Directors are required to:

(a) adopt appropriate accounting policies which are supported by reasonable judgements and estimates and then apply them consistently;

(b) comply with the disclosure requirements of the Myanmar Companies Law Section - 262 and Myanmar Financial Reporting Standards ("MFRSs") or, if there have been any departures in the interest of true and fair presentation, ensure that these have been appropriately disclosed, explained and quantified in the financial statements;

(c) maintain adequate accounting records and an effective system of internal controls;

(d) prepare the financial statements on a going concern basis unless it is in appropriate to assume that the Company will continue its operations in the foreseeable future; and

(e) control and direct effectively the Company in all material decisions affecting its operations and performance and ascertain that such decisions and/or instructions have been properly reflected in the financial statements.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

Signed on behalf of the Board,

Neeraj Jain	**Ankit Sharma**
Non-Executive Director	**Non-Executive Director**

Yangon, Republic of the Union of Myanmar

Date: June 21,2022

STATEMENTS BY THE DIRECTORS

In the opinion of the Directors,

(a) the financial statements set out on pages 10 to 34 have been drawn up so as to give a true and fair view of the state of affairs of the Company as at 31 March 2022 and of the results of the business, changes in equity, cash flows of the Company and notes to the financial statements for the financial period then ended; and

(b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

In accordance with “Myanmar Companies Law” Section - 264, the financial statements have been authenticated by the following directors, on behalf of the Board of Directors.

Signed on behalf of the Board,

Neeraj Jain	**Ankit Sharma**
Non-Executive Director	**Non-Executive Director**

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF COMVIVA TECHNOLOGIES MYANMAR LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **COMVIVA TECHNOLOGIES MYANMAR LIMITED** "(the Company)", which comprise the statement of financial position of the Company as at 31 March 2022, and the statement of profit and loss and other comprehensive income, statement of changes in equity and statement of cash flows for the financial period then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 10 to 34.

In our opinion, the accompanying financial statements of the Company are properly drawn up in accordance with the provisions of the Myanmar Companies Law (the "Law") and Myanmar Financial Reporting Standards ("MFRS"), so as to give a true and fair view of the financial position of the Company as at 31 March 2022 and of the financial performance, changes in equity and cash flows of the Company for the financial period ended at 31 March 2022.

Basis for Opinion

We conducted our audit in accordance with Myanmar Standards on Auditing ("MSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company together with the ethical requirements that are relevant to our audit of the financial statements in Myanmar, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

The Directors of the company are responsible for the other information. The other information comprises the Directors' Report set out on pages 1 to 4.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Myanmar Companies Law Section 261 and 262 and MFRS, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Director's responsibilities include overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with MSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with MSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

(a) Identify and assess the risks of material misstatement of the financial statements, of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

(c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

(d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

(e) Evaluate the overall presentation, structure and content of the financial statements of the Company, including the disclosures, and whether the financial statements of the Company represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

In accordance with Myanmar Companies Law (2017) Section - 280, we also report that:

(i) we have obtained all information and explanations, we have required to perform the routine, procedures, analytical and verification audit for our forming of audit opinion.

(ii) the books of account have been maintained by the Company as required by Myanmar Companies Law Section 257 and 258.

In our opinion, the accounting and other records required by the Law to be kept by the Company have been properly kept in accordance with the provisions of the Law.

NOTES TO THE FINANCIAL STATEMENTS

1. CORPORATE INFORMATION

Comviva Technologies Myanmar Limited was registered on 6 December 2019 as a limited liability company in the Republic of the Union of Myanmar.

The registered office and principal place of business of the Company is located at Complex 45, 45th Street, Tower B, Room 607, 6th Floor Botahtaung Township, Yangon Region, 11161 Myanmar.

The Company's holding company is Comviva Technologies Limited, which is incorporated in Republic of India.

The financial statements are presented in Myanmar Kyat ("MMK"), which is also the Company's functional currency.

The financial statements were authorised for issue in accordance with a resolution by the Board of Directors on (Signing date).

2. PRINCIPAL ACTIVITY

The principal activity of the Company is providing Integrated Value Added Services (VAS) to telecom companies in Myanmar.

3. BASIS OF PREPARATION

The financial statements of the Company have been prepared in accordance with Myanmar Financial Reporting Standards ("MFRS") and the provisions of the Myanmar Companies Law (the "Law") in Republic of the Union of Myanmar.

The financial statements of the Company have been prepared under the historical cost convention except as otherwise stated in the financial statements.

As at 31 March 2022, the Company has a deficit in equity and net current liabilities of MMK 195,603,948 and MMK 258,848,924 respectively. These conditions indicate the existence of a material uncertainty, which may cast significant doubt about the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern in the foreseeable future is therefore dependent on its ability to receive continuous financial supports from its holding company to sustain its operations and meet its obligations as and when they fall due.

The holding company has agreed to continue to support the Company by providing adequate financial assistance to enable the Company to continue as a going concern for the foreseeable future. As such, the Directors consider that it is appropriate to prepare the financial statements of the Company on a going concern basis, and accordingly, the financial statements do not include any adjustments related to the recoverability and classification of recorded assets amount, or to amounts or classification of liabilities that may be necessary, if the going concern basis of preparing the financial statements of the Company is inappropriate.

The preparation of financial statements in conformity with MFRS requires the Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and disclosure of contingent assets and contingent liabilities. In addition, the Directors are also required to exercise their judgement in the process of applying the accounting policies. The areas involving such judgements, estimates and assumptions are disclosed in Note 5 to the financial statements. Although these estimates and assumptions are based on the Directors' best knowledge of events and actions, actual results could differ from those estimates.

4. SIGNIFICANT ACCOUNTING POLICIES

4.1 Employee benefits

(a) Short term employee benefits

Wages, salaries, social security contributions, paid annual leave, paid sick leave, bonuses and non-monetary benefits are measured on an undiscounted basis and are expensed when employees rendered their services to the Company.

Short-term accumulating compensated absences such as paid annual leave are recognised as an expense when employees render services that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur and they lapse if the current period's entitlement is not used in full and do not entitle employees to a cash payment for unused entitlement on leaving the Company.

Bonuses are recognised as an expense when there is present, legal or constructive obligation to make such payments, as a result of past events and when a reliable estimate can be made of the amount of the obligation.

(b) Termination benefits

Termination benefits are payments due to employees as a result of the termination of employment before the normal retirement date or an employee's decision to accept voluntary redundancy in exchange for those benefits. They are recognised as a liability and an expense when the Company has a detailed formal plan for termination with no realistic possibility of withdrawal. In the case of voluntary redundancy, the benefits are accounted for based on the number of employees expected to accept the offer.

Where termination benefits fall due more than 12 months after the end of reporting period, they are discounted to present value based on market yields at the end of reporting period.

4.2 Impairment of non-financial assets

The carrying amounts of assets, except for financial assets and inventories are reviewed at the end of each reporting year to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

The recoverable amount of an asset is estimated for an individual asset. Where it is not possible to estimate the recoverable amount of the individual asset, the impairment test is carried out on the cash generating unit ('CGU') to which the asset belongs.

The recoverable amount of an asset or CGU is the higher of its fair value less cost to sell and its value in use.

In estimating value in use, the estimated future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted. An impairment loss is recognised in profit or loss when the carrying amount of the asset or the CGU, including intangible assets, exceeds the recoverable amount of the asset or the CGU. The total impairment losses are first allocated to goodwill if any, then on pro-rata basis to reduce the carrying amount of the assets of the CGU of the carrying amount of each asset in the CGU.

The impairment loss is recognised in profit or loss immediately.

An impairment loss for assets is reversed if, and only if, there has been a change in the estimates used to determine the assets' recoverable amount since the last impairment loss was recognised.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Such reversals are recognised as income immediately in profit or loss.

4.3 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

A financial asset is any asset that is cash, an equity instrument of another enterprise, a contractual right to receive cash or another financial asset from another enterprise, or a contractual right to exchange financial assets or financial liabilities with another enterprise under conditions that are potentially favorable to the Company.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or a contractual obligation to exchange financial assets or financial liabilities with another enterprise under conditions that are potentially unfavorable to the Company.

Financial instruments are recognised on the statement of financial position when the Company has become a party to the contractual provisions of the instrument. At initial recognition, a financial instrument is recognised at fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issuance of the financial instrument.

An embedded derivative is separated from the host contract and accounted for as a derivative if, and only if the economic characteristics and risks of the embedded derivative is not closely related to the economic characteristics and risks of the host contract, a separate instrument with the same terms as the embedded derivative meets the definition of a derivative, and the hybrid instrument is not measured at fair value through profit or loss.

(a) Financial assets

A financial asset is classified into the following four (4) categories after initial recognition for the purpose of subsequent measurement:

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss comprise financial assets that are held for trading (i.e. financial assets acquired principally for the purpose of resale in the near term), derivatives (both, freestanding and embedded) and financial assets that were specifically designated into this classification upon initial recognition.

Subsequent to initial recognition, financial assets classified as at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in the fair value of financial assets classified as at fair value through profit or loss are recognised in profit or loss. Net gains or losses on financial assets classified as at fair value through profit or loss exclude foreign exchange gains and losses, interest and dividend income. Such income is recognised separately in profit or loss as components of other income or other operating losses.

However, derivatives that is linked to and must be settled by delivery of unquoted equity instruments that do not have a quoted market price in an active market are recognised at cost.

(ii) Held-to-maturity investments

Financial assets classified as held-to-maturity comprise non-derivative financial assets with fixed or determinable payments and fixed maturity that the Company has the positive intention and ability to hold to maturity.

Subsequent to initial recognition, financial assets classified as held-to-maturity are measured at amortised cost using the effective interest method. Gains or losses on financial assets classified as held-to-maturity are recognised in profit or loss when the financial assets are derecognised or impaired, and through the amortisation process.

(iii) Loans and receivables

Financial assets classified as loans and receivables comprise non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Subsequent to initial recognition, financial assets classified as loans and receivables are measured at amortised cost using the effective interest method. Gains or losses on financial assets classified as loans and receivables are recognised in profit or loss when the financial assets are derecognised or impaired, and through the amortisation process.

(iv) Available-for-sale financial assets

Financial assets classified as available-for-sale comprise non-derivative financial assets that are designated as available for sale or are not classified as loans and receivables, held-to-maturity investments or financial assets at fair value through profit or loss.

Subsequent to initial recognition, financial assets classified as available-for-sale are measured at fair value. Any gains or losses arising from changes in the fair value of financial assets classified as available-for-sale are recognised directly in other comprehensive income, except for impairment losses and foreign exchange gains and losses, until the financial asset is derecognised, at which time the cumulative gains or losses previously recognised in other comprehensive income are recognised in profit or loss. However, interest calculated using the effective interest method is recognised in profit or loss whilst dividends on available-for-sale equity instruments are recognised in profit or loss when the right of the Company to receive payment is established.

Cash and cash equivalents consist of cash on hand, balances and deposits with banks and highly liquid investments which have an insignificant risk of changes in fair value with original maturities of three (3) months or less, and are used by the Company in the management of their short term commitments.

A financial asset is derecognised when the contractual right to receive cash flows from the financial asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised directly in other comprehensive income shall be recognised in profit or loss.

(b) Financial liabilities

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. A financial liability is classified into the following two (2) categories after initial recognition for the purpose of subsequent measurement:

(i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss comprise financial liabilities that are held for trading, derivatives (both, freestanding and embedded) and financial liabilities that were specifically designated into this classification upon initial recognition.

Subsequent to initial recognition, financial liabilities classified as at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in the fair value of financial liabilities classified as at fair value through profit or loss are recognised in profit or loss. Net gains or losses on financial liabilities classified as at fair value through profit or loss exclude foreign exchange gains and losses, interest and dividend income. Such income is recognised separately in profit or loss as components of other income or other operating losses.

(ii) Other financial liabilities

Financial liabilities classified as other financial liabilities comprise non-derivative financial liabilities that are neither held for trading nor initially designated as at fair value through profit or loss.

Subsequent to initial recognition, other financial liabilities are measured at amortised cost using the effective interest method. Gains or losses on other financial liabilities are recognised in profit or loss when the financial liabilities are derecognised and through the amortisation process.

A financial liability is derecognised when, and only when, it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expires. An exchange between an existing borrower and lender of debt instruments with substantially different terms are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

Any difference between the carrying amount of a financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(c) Equity

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Ordinary shares are classified as equity instruments.

Ordinary shares are recorded at the nominal value and proceeds in excess of the nominal value of shares issued, if any, are accounted for as share premium. Both ordinary shares and share premium are classified as equity. Transaction costs of an equity transaction are accounted for as a deduction from equity, net of any related income tax benefit. Otherwise, they are charged to profit or loss.

Interim dividends to shareholder are recognised in equity in the year in which they are declared. Final dividends are recognised upon the approval of shareholder in a general meeting

The Company measures a liability to distribute non-cash assets as a dividend to the owner of the Company at the fair value of the assets to be distributed. The carrying amount of the dividend is remeasured at the end of each reporting year and at the settlement date, with any changes recognised directly in equity as adjustments to the amount of the distribution. On settlement of the transaction, the Company recognises the difference, if any, between the carrying amounts of the assets distributed and the carrying amount of the liability in profit or loss.

(d) Impairment of financial assets

The Company assesses whether there is any objective evidence that a financial asset is impaired at the end of each reporting period.

Loans and receivables

The Company collectively considers factors such as the probability of bankruptcy or significant financial difficulties of the receivable, and default or significant delay in payment by the receivable, to determine whether there is objective evidence that an impairment loss on loans and receivables has occurred. Other objective evidence of impairment include historical collection rates determined on an individual basis and observable changes in national or local economic conditions that are directly correlated with the historical default rates of receivables.

If any such objective evidence exists, the amount of impairment loss is measured as the difference between the financial asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The impairment loss is recognised in profit or loss.

The carrying amount of loans and receivables are reduced through the use of an allowance account.

If in a subsequent period, the amount of the impairment loss decreases and it objectively relates to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of impairment reversed is recognised in profit or loss.

4.4 Income taxes

Income taxes include all domestic and international taxes on taxable profit and real property gains taxes payable on disposal of properties, if any. Taxes in the profit or loss and other comprehensive income comprise current tax and deferred tax.

(a) Current tax

Current tax expenses are determined according to the tax laws of the jurisdiction in which the Company operates and include all taxes based upon the taxable profit and real properties gains taxes payable on disposal of properties, if any.

(a) Deferred tax

Deferred tax is recognised in full using the liability method on temporary differences arising between the carrying amount of an asset or liability in the statement of financial position and its tax base.

Deferred tax is recognised for all temporary differences, unless the deferred tax arises from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of transaction, affects neither accounting profit nor taxable profit.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits would be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. The carrying amount of a deferred tax asset is reviewed at the end of each reporting year. If it is no longer probable that sufficient taxable profits would be available to allow the benefit of part or all of that deferred tax asset to be utilized, the carrying amount of the deferred tax asset would be reduced accordingly. When it becomes probable that sufficient taxable profits would be available, such reductions would be reversed to the extent of the taxable profits.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred income taxes relate to the same taxation authority on either:

(i) the same taxable entity; or

(ii) different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future year in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Deferred tax would be recognised as income or expense and included in profit or loss for the year unless the tax relates to items that are credited or charged, in the same or a different year, directly to equity, in which case the deferred tax would be charged or credited directly to equity.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on the announcement of tax rates and tax laws by the Government in the annual budgets which have the substantive effect of actual enactment by the end of each reporting year.

4.5 Provisions

Provisions are recognised when there is a present obligation, legal or constructive, as a result of a past event, and when it is probable that an outflow of resources embodying economic benefits would be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, the amount of a provision would be discounted to its present value at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions are reviewed at the end of each reporting year and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits would be required to settle the obligation, the provision will be reversed.

Provisions are not recognised for future operating losses. If the Company has a contract that is onerous, the present obligation under the contract shall be recognised and measured as a provision.

4.6 Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from past events whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources would be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company. The Company does not recognise a contingent asset but discloses its existence where the inflows of economic benefits are probable, but not virtually certain.

4.7 Foreign currencies

Foreign currency translations and balances

Transactions in foreign currencies are converted into the functional currency at rates of exchange ruling at the transaction date. Monetary assets and liabilities in foreign currencies at the end of the reporting period are translated into the functional currency at rates of exchange ruling at that date. All exchange difference arising from the settlement of foreign currency transactions and from the translation of foreign currency monetary assets and liabilities are included in profit or loss in the period in which they arise. Non-monetary items initially denominated in foreign currencies, which are carried at historical cost are translated using the historical rate as of the date of acquisition, and non-monetary items which are carried at fair value are translated using the exchange rate that existed when the values were determined for presentation currency purposes.

4.8 Revenue recognition

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

In case of revenue sharing arrangement, revenue is recognized as per agreement subject to satisfaction of performance obligation.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue (“contract liability”) is recognised when there is billings in excess of revenues.

5. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

5.1 Changes in estimates

Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Directors are of the opinion that there are no significant changes in estimates during the reporting period end and as at the end of the reporting period.

5.2 Critical judgements made in applying accounting policies

There are no critical judgements made by the management in the process of applying the Company’s accounting policies that have the most significant effect on the amount recognised in these financial statements apart from those involving estimates, which are dealt with below.

5.3 Key sources of estimation uncertainty

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) Tax expense

Significant judgement is involved in determining the Company’s provision for income taxes. The Company will recognise liabilities for expected tax expenses based on an estimate of whether the taxes are due through management’s interpretation of the various tax legislations. When the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the tax provision in the financial year in which such determination is made.

(b) Fair value measurements

Financial and non-financial assets and liabilities that are measured subsequent to initial recognition at fair value are grouped into Level 1 to Level 3 based on the degree which the fair value inputs are observable.

(i) Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;

(ii) Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

(iii) Level 3 fair value measurements are those derived from inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The classification of an item into the above levels is based on the lowest level of the inputs used in the fair value measurement of the item. Transfers of items between levels are recognised in the year they occur.

The Company measures financial instruments at fair value as disclosed in Note 15 to the financial statements.

6. TRADE AND OTHER RECEIVABLES

	Amount in MMK	
	31.3.2022 MMK	**30.9.2021 MMK**
Trade receivables		
Third parties	134,031,673	162,925,089
Unbilled revenue	59,758,446	147,724,762
	193,790,119	310,649,851
Other receivables	375,674	667,262
	194,165,793	**311,317,113**

(a) Trade receivables are non-interest bearing and the normal trade credit terms granted by the Company is 60 days from the date of invoice. They are recognised at their original invoice amounts, which represent their fair values on initial recognition.

(b) Information on financial risks of trade and other receivables is disclosed in Note 16 to the financial statements.

(c) All the trade and other receivables are denominated in MMK, except for interest receivables is denominated in USD.

(d) No sensitivity analysis for foreign currency risk is prepared on the interest receivables at the end of the reporting period as the Company do not have significant exposure to foreign currency risk from interest receivables.

7. CASH AND BANK BALANCES

	Amount in MMK	
	31.3.2022 MMK	**30.9.2021 MMK**
Cash and bank balances	3,265,777,912	3,003,283,360
Cheque in transit	-	179,429,734
Short-term deposit	804,515,740	498,857,527
	4,070,293,652	**3,681,570,621**

(a) Cash and bank balances are denominated in the following currencies:

	Amount in MMK	
	31.3.2022 MMK	**30.9.2021 MMK**
Myanmar Kyats	3,802,843,531	3,203,430,627
United States dollar	267,450,121	478,139,994
	4,070,293,652	**3,681,570,621**

(b) Deposit with licensed bank of the Company has an average maturity period of 182 days bearing interest at the rate of 0.1% per annum.

(c) Information on financial risks of cash and bank balances is disclosed in Note 16 to the financial statements.

8. SHARE CAPITAL

	31.03.2022		**30.09.2021**	
	Number of shares	**Amount MMK**	**Number of shares**	**Amount MMK**
Issued and fully paid-up ordinary shares:				
At the beginning of the period / year	200,000	272,341,198	200,000	272,341,198
Issued and paid up during the financial period	-	-	-	-
At end of the period / year	**200,000**	**272,341,198**	**200,000**	**272,341,198**

The owners of the Company are entitled to receive dividends as and when declared by the Company and is entitled to one (1) vote per ordinary share at meetings of the Company. All ordinary shares rank pari passu with regard to the residual assets of the Company

9. OTHER PAYABLES

		Amount in MMK
	31.3.2022 MMK	**30.9.2021 MMK**
Other payable		
- accrued expenses	834,286,542	731,979,027
- WHT payables	79,431,441	69,221,309
- other payables	20,722,236	7,690,372
- amount owing to the immediate holding company	3,588,868,150	3,561,404,059
	4,523,308,369	**4,370,294,767**

(a) Amount due to the immediate holding company represents trade transactions which is unsecured, interest-free and payable upon demand in cash and cash equivalents

(b) All the other payables are denominated in MMK except amount owing to the immediate holding company and certain accrued expenses and other payables which are denominated in USD.

(c) No sensitivity analysis for foreign currency risk is prepared for the accrued expenses and other payables at the end of the reporting period as the Company do not have significant exposure to foreign currency risk from them.

(d) Information on financial risks of other payables is disclosed in Note 16 to the financial statements.

10. REVENUE

	1.10.2021 to 31.3.2022 MMK	**1.10.2020 to 30.9.2021 MMK**
Service income	**398,388,697**	**1,043,393,821**

11. COST OF SALES

	1.10.2021 to 31.3.2022 MMK	**1.10.2020 to 30.9.2021 MMK**
Cost of sales	**519,728,573**	**1,159,550,352**

12. PROFIT/ (LOSS) BEFORE TAX

	1.10.2021 to 31.3.2022 MMK	**1.10.2020 to 30.9.2021 MMK**
Other income		
Interest income	(380,468)	(109,215)
Unrealised foreign exchange gain	(268,798,547)	-
Realised foreign exchange gain	-	(599,268)
	(269,179,015)	**(708,483)**
Administrative expenses		
Unrealised foreign exchange loss	-	727,950,650
Realised foreign exchange loss	5	-
Legal and professional charges	11,881,731	20,865,687
Bank charges	57,500	922,993
Rates and taxes	7,350,585	-
Marketing consultancy	9,934,359	-
Others	56,849	-
	29,281,029	**749,739,330**

13. TAXATION

	1.10.2021 to 31.3.2022 MMK	1.10.2020 to 30.9.2021 MMK
Myanmar Income tax expense	-	-
Deferred tax relating to origination of temporary difference	(28,935,794)	(34,309,182)
Under-provision of income tax expenses in prior year	1,269,601	-
Total taxation	**(27,666,191)**	**(34,309,182)**

Under the Republic of the Union of Myanmar Law on Taxation, the Company has an obligation to pay tax on profit at 22% (2021: 25%) of the taxable profit.

(a) The amount of the deferred tax income recognised in the statement of profit or loss during the financial year are mainly unused tax losses.

(b) The numerical reconciliation between the tax expense and the tax based on applicable tax rate is as follows:

	1.10.2021 to 31.3.2022 MMK	1.10.2020 to 30.9.2021 MMK
Profit/ (loss) before tax	118,558,110	(865,187,378)
Tax at Myanmar statutory tax rate of 22% (2021: 25%)	26,082,784	(216,296,844)
Tax effects in respect of:		-
(Non-taxable income)/ Non-deductible expenses	(59,135,680)	181,987,662
Tax effect of reduction in tax rate	4,117,102	-
Under-provision of tax expenses	1,269,603	-
Total taxation	**(27,666,191)**	**(34,309,182)**

14. RELATED PARTY DISCLOSURES

(a) Identities of related parties

Parties are considered related to the Company if the Company has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Company and the party are subject to common control or common significant influence. Related parties can be individuals or other parties.

The Company has controlling related party relationship with its holding company.

Key management personnel comprises persons (including the Directors of the Company) having the authority and responsibility for planning, directing and controlling the activities of the Company directly and indirectly.

(b) The Company had the following transactions with related parties during the financial period:

	1.10.2021 to 31.3.2022 MMK	1.10.2020 to 30.9.2021 MMK
Holding company		
Comviva Technologies Limited		
Cost allocation	**408,383,461**	**990,617,291**

Balances with related parties at the end of the reporting period are disclosed in Note 9 to the financial statements.

The related party transactions described above were carried out on negotiated commercial terms.

(c) Compensation of key management personnel

Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any Directors (whether executive or otherwise) of the Company.

There is no compensation of key management personnel during the financial period except for a provision of marketing consultancy fees of MMK 9,934,359 being made to one of the Directors.

15. FINANCIAL INSTRUMENTS

(a) Capital management

The primary objective of the capital management of the Company is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholder, return capital to shareholder or issue new shares. No changes were made in the objectives, policies or processes during the period ended 31 March 2022.

The Company monitors and maintains a prudent level of total debts and to ensure compliance with any externally imposed capital requirements.

(b) Financial instruments

	31.3.2022 MMK	30.9.2021 MMK
Trade and other receivables		
Trade and other receivables	194,165,793	311,317,113
Cash and bank balances	4,070,293,652	3,681,570,621
	4,264,459,445	**3,992,887,734**

	31.3.2022 MMK	30.9.2021 MMK
Other financial liabilities		
Other payables	**4,523,308,370**	**4,370,294,767**

(c) Methods and assumptions used to estimate fair value

The fair values of financial instruments that are not carried at fair value are determined as follows:

- The carrying amounts of financial assets and financial liabilities, such as trade and other receivables, other payables and borrowings, are reasonable approximation of fair value, either due to their short-term nature or that they are floating instruments that are re-priced to market interest rates on or near the end of the reporting period.

16. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The financial risk management objective of the Company is to optimise value creation for shareholder whilst minimising the potential adverse impact arising from credit risk, liquidity risk and cash flow risk and foreign currency risk.

Financial risk management is carried out through risk review programmes, internal control systems and adherence to the financial risk management policies of the Company. The Board regularly reviews these risks and approves such policies that cover the management of these risks. The audit committee provides independent oversight to the effectiveness of the risk management process. The exposure of the Company to financial risks and the management of its related exposures are as follows:

(a) Credit risk

Cash deposits and trade receivables could give rise to credit risk which requires the loss to be recognised if a counter party fails to perform as contracted. The counter parties are reputable financial institutions and organisations. It is the policy of the Company to monitor the financial standing of these counter parties on an ongoing basis to ensure that the Company is exposed to minimal credit risk.

The primary exposure of the Company to credit risk arises through its trade receivables. The trading terms of the Company with its customers are mainly on credit, except for new customers, where deposits in advance are normally required. The credit period is generally for a period of one month, extending up to two months for major customers. Each customer has a maximum credit limit and the Company seeks to maintain strict control over its outstanding receivables via a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management.

Exposure to credit risk

At the end of each reporting year, the maximum exposure of the Company to credit risk is represented by the carrying amount of each class of financial assets recognised in the statement of financial position.

Information regarding trade and other receivables is disclosed in Note 6 to the financial statements.

Credit risk concentration profile

As at the reporting date, trade receivable of the Company mainly comprises amounts owing from only one counterparties.

The Company determines concentrations of credit risk by monitoring the customers' profile of its trade receivables on an ongoing basis.

Financial assets that are neither past due nor impaired

Information regarding trade and other receivables that are neither past due nor impaired is disclosed in Note 6 to the financial statements.

(b) Liquidity and cash flow risk

The Company actively manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that all operating, investing and financing needs are met. In executing its liquidity risk management strategy, the Company measures and forecasts its cash commitments and maintains a level of cash and cash equivalents deemed adequate to finance the activities of the Company.

In order to mitigate the potential risk exposure due to COVID-19 pandemic and state of emergency declared in Myanmar, the Company has taken and will continue to take necessary steps to safeguard and preserve its financial condition, emphasising on liquidity management to meet its continuing financial commitments and liquidity needs of business operations.

(c) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in foreign exchange rates.

The Company is not significantly exposed to foreign currency risk as majority of the transactions, assets and liabilities of the Company are denominated in Myanmar Kyats. The Company is exposed to transactional currency risk primarily through amount owing to the immediate holding company and cash and bank balances that are denominated in a currency other than the functional currency of the operations to which they relate.

The currency giving rises to this risk is primarily USD. Foreign currency exposures in transactional currencies other than functional currency of the Company are kept to an acceptable level.

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in foreign exchange rates.

The Company is not significantly exposed to foreign currency risk as majority of the transactions, assets and liabilities of the Company are denominated in Myanmar Kyats. The Company is exposed to transactional currency risk primarily through amount owing to the immediate holding company and cash and bank balances that are denominated in a currency other than the functional currency of the operations to which they relate.

The currency giving rises to this risk is primarily USD. Foreign currency exposures in transactional currencies other than functional currency of the Company are kept to an acceptable level.

Financial risk management is carried out through risk review programmes, internal control systems and adherence to the financial risk management policies of the Company. The Board regularly reviews these risks and approves such policies that cover the management of these risks. The audit committee provides independent oversight to the effectiveness of the risk management process. The exposure of the Company to financial risks and the management of its related exposures are as follows:

Sensitivity analysis for foreign currency risk

The following table demonstrates the sensitivity analysis of the profit/ (loss) after tax of the Company to a reasonably possible change in the USD, exchange rates against the functional currency of the Company, with all other variables held constant.

			1.10.2021 to 31.3.2022 MMK	**1.10.2020 to 30.9.2021 MMK**
MMK/USD	-	strengthened 5% (2020:15%)	129,535,303	924,979,220
	-	weakened 5% (2020:15%)	(129,535,303)	(924,979,220)

17. SIGNIFICANT EVENTS DURING THE FINANCIAL PERIOD

Coronavirus (COVID-19) Impact

On 30 January 2020, The World Health Organisation declared the outbreak a Public Health Emergency of International Concern. The outbreak was subsequently characterised as a pandemic on 11 March 2020.

In response to the pandemic, governments from different countries around the world have implemented containment measures to varying degrees in a bid to curb the spread of the virus. As a result, there has been disruption to global trade due to restrictions for cross-border movement and reduced demand in recreational activities.

Given the fluid situation, the Company is unable to reasonably estimate the complete financial impact of Covid-19 pandemic for the financial year ended 31 March 2023 to be disclosed in the financial statements as impact assessment of the Covid-19 pandemic is a continuing process. The Company will continuously monitor any material changes to future economic conditions that will affect the Company.

Myanmar's State of Emergency Impact

The recent political upheaval in Myanmar casts some uncertainties over our operations in Myanmar. On 1 February 2021, Myanmar's military government declared a one (1) year state of emergency in Myanmar.

The Company is closely monitoring the developing situation but is unable to reasonably estimate the financial impact of these events on its financial position, results of operations or cash flows for the financial year ending 31 March 2023 due to the uncertainty of the future outcome of the current events. The Company will continuously monitor any material changes to future economic conditions that will affect the Company.

Change in accounting period

On 30 September 2021, the Internal Revenue Department has announced that current fiscal year of 1 October to 30 September shall be changed to 1 April to 31 March in accordance with State's budget period. The current fiscal year of 1 October to 30 September shall be changed to 1 April to 31 March and hence, the six months period started from October 2021 to March 2022 will be performed as an interim budget.

Accordingly, the financial statements of the company for the financial period ended 31 March 2022 cover a 6-month period as compared to the financial year ended 30 September 2021 which cover a 12-month period.

Income tax reduction

On 30 September 2021, the Internal Revenue Department has announced a reduction of the corporate income tax rate from 25% to 22% of net taxable profit for the accounting period which begins on or after 1 October 2021.

BRIEF DESCRIPTION OF THE COMPANY'S WORKING DURING THE YEAR/STATE OF COMPANY'S AFFAIRS

Total Income for the year 2021-22 is Rs. 97,596,787 as against Rs. 1,55,140 in previous year.

Founded in 2020, Yabx (www.yabx.co) is a FinTech Venture of Comviva Technologies Limited (www.comviva.com), a global leader in Mobility Solutions. Comviva is a subsidiary of Tech Mahindra Limited and a part of the $21 billion Mahindra Group.

Yabx was established with a vision to simplify financial access to the 2 Bn+ unbanked population in the emerging markets of Africa, Asia, and Latin America, using the mobile phone device. The Company has an unparalleled edge to provide solutions that help achieve its core purpose of financial inclusion.

Yabx's mission is to create world-class innovative products that help improve the lives of people who do not have access to regular financial services by leveraging the digital footprints of an individual and providing tailor-made financial services.

The Company uses technology and analytics to reduce the cost of delivering financial services, thereby bringing banking to the unbanked. Yabx enables financial access for all those underserved who have limited credit history or income documents. Yabx does this with the help of their partners who are leading banks, MFIs, credit bureaus, Mobile Financial Providers, MNOs, and handset manufacturers.

Yabx team is led by industry experts and entrepreneurs who have a global experience in managing telecom operators and mobile wallet providers, coupled with strong capabilities in behavioral analytics and risk management.

Currently, Yabx operates in India (New Delhi & Bangalore).

INDEPENDENT AUDITORS' REPORT

To the Members of YABX India Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of YABX India Private Limited (the " Company"), which comprise the balance sheet as at 31 March 2022, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, and its profit and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Director's report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. We have nothing to report in this regard.

Management's and Board of Directors Responsibilities for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
    b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
    c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
    d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
    e) On the basis of the written representations received from the directors as on 31 March 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act.
    f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(B) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

a) The Company does not have any pending litigations which would impact its financial position.

b) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

c) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

d) (i) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:

- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or
- provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

ii) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall:

- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or
- provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries.

(iii) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (d) (i) and (d) (ii) contain any material mis-statement.

e) The Company has neither declared nor paid any dividend during the year.

(C) With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

Annexure A to the Independent Auditor's Report on Financial Statements

(Referred to in our report of even date)

(i) (a) (A) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no Property, Plant and Equipment held by the Company. Accordingly, clause 3(i)(a)(A) of the Order is not applicable.

(a) (B) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has maintained proper records showing full particulars of intangible assets.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no property, plant and equipment held by the Company. Accordingly, clause 3(i)(a)(b) of the Order is not applicable.

(c) The Company does not have any immovable property. Accordingly, clause 3(i)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company does not hold any Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year. Accordingly, clause 3(i)(d) of the Order is not applicable.

(e) According to information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

(ii) (a) The Company is a service company, primarily rendering information technology and related services. Accordingly, it does not hold any physical inventories. Accordingly, clause 3(ii)(a) of the Order is not applicable

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been sanctioned any working capital limits in excess of five crore rupees in aggregate from banks and financial institutions on the basis of security of current assets at any point of time of the year. Accordingly, clause 3(ii)(b) of the Order is not applicable to the Company

(iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year. Accordingly, provisions of clauses 3(iii)(a) to 3(iii)(f) of the Order are not applicable to the Company.

(iv) According to the information and explanations given to us and on the basis of our examination of records of the Company, the Company has neither made any investments nor has it given loans or provided guarantee or security and therefore the relevant provisions of Sections 185 and 186 of the Companies Act, 2013 ("the Act") are not applicable to the Company. Accordingly, clause 3(iv) of the Order is not applicable.

(v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public.

Accordingly, clause 3(v) of the Order is not applicable.

(vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act for the products manufactured by it (and/or services provided by it). Accordingly, clause 3(vi) of the Order is not applicable.

(vii) (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective 1 July 2017, these statutory dues has been subsumed into GST.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax ('GST'), Provident fund, Income-Tax, Duty of Customs, Cess and other statutory dues have been regularly deposited by the Company with the appropriate authorities.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of Goods and Services Tax ('GST'), Provident fund, Income-Tax, Duty of Customs, Cess and other statutory dues were in arrears as at 31 March 2022 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no statutory dues relating to Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues, which have not been deposited with the appropriate authorities on account of any dispute.

(viii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.

(ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any loans or borrowings from any lender during the year. Accordingly, clause 3(ix)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any loans or borrowings during the year and accordingly, the Company has not been declared a wilful defaulter by any bank or financial institution or government or government authority.

(c) According to the information and explanations given to us by the management, the Company has not obtained any term loans during the year. Accordingly, clause 3(ix)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we report that no funds raised on short-term basis have been used for long-term purposes by the Company.

(e) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries as defined under the Act.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, as defined under the Act.

(x) (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) Accordingly, clause 3(x)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable.

(xi) (a) Based on examination of the books and records of the Company and according to the information and explanations given to us, no fraud by the Company or on the Company has been noticed or reported during the course of the audit.

(b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(c) Based on the information and explanations provided to us, the Company does not have a vigil mechanism and is not required to have a vigil mechanism as per the Act or SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

(xii) (a) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.

(b) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.

(c) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us, the transactions with related parties are in compliance with Section 177 and 188 of the Act, where applicable, and the details of the related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) (a) In our opinion and based on the information and explanations provided to us, the Company does not have an Internal Audit system and is not required to have an internal audit system as per Section 138 of the Act.

(b) In our opinion and based on the information and explanations provided to us, the Company does not have an internal audit system and is not required to have an internal audit system as per Section 138 of the Act. Accordingly, clause 3(xiv)(b) of the Order is not applicable.

(xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.

(xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.

(b) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable.

(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.

(d) According to the information and explanations provided to us, the Group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016) has more than one CIC as part of the Group. The Group has six CICs as part of the Group.

(xvii) The Company has not incurred cash losses in the current financial year and had incurred cash losses of ₹ 20,225,782 in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) The requirements as stipulated by the provisions of Section 135 are not applicable to the Company. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

Annexure B to the Independent Auditor's report on the financial statements of YABX India Private Limited for the year ended 31 March 2022

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2 (A) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of YABX India Private Limited ("the Company") as of 31 March 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures

selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate

NOTES TO FINANCIAL STATEMENTS FOR THE PERIOD ENDED MARCH 31, 2022

1. Company Overview

YABX India Private Limited ("the Company" or "YABX") is a FinTech Venture of and subsidiary of Comviva Technologies Limited ("Comviva"), a global leader in Mobility Solutions. Comviva is a subsidiary of Tech Mahindra and a part of the Mahindra Group.

YABX was established with a vision to simplify financial access to more than 2 billion unbanked population in the emerging markets using the mobile phone device. The Company has an unparalleled edge to provide solutions that help achieve its core purpose of financial inclusion.

The financial statements ('financial statement') for the year ended March 31, 2022 were approved by the Board of Directors and authorised for issue on May 02, 2022.

2. Significant Accounting Policies

2.1 Statement of Compliance

The financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015.

2.2 Basis for preparation of financial statements

These financial statements are presented in Indian rupees ("INR") which is also the Company's functional currency. All amounts have been reported in Indian Rupees, unless otherwise stated.

These financial statements have been prepared on the historical cost basis and on accrual basis, except for certain financial instruments which are measured at fair values at the end of each reporting period as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realization in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purpose in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 Inventories or value in use in Ind AS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability. Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

2.3 Use of Estimates:

The preparation of financial statements requires the management of the company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

Critical accounting estimates

i) Provisions

Provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. The policy for the same has been explained under Note 2.9.

ii) Income Taxes

Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions. The policy for the same has been explained under Note 2.11.

iii) Defined benefit plans and compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The policy for the same has been explained under Note 2.10.

2.4 Financial Instruments:

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognized in Statement of profit and loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortized cost is carried at fair value through profit and loss (FVTPL) on initial recognition, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investment in equity instruments which are not held for trading.

The Company, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in other comprehensive income subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses arising on re-measurement recognized in Statement of profit and loss.

Financial liabilities

Financial liabilities maturing after one year are subsequently carried at amortized cost using the effective interest method.

For trade payables and other financial liabilities maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

2.5 Revenue recognition:

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services. Revenue from cost plus contracts are recognized based on the terms of the contract over the service period.

Contracts assets are recognized when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability arises when there is Company's obligation to transfer goods or services to a customer for which the entity has received consideration ("Advances from Customer") or the amount is due from the customer ("Unearned Revenue")

2.6 Short term leases and leases of low value Assets

The Company has elected not to recognize right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease

2.7 Foreign Currency transactions

The functional currency of the Company is Indian Rupees (₹). Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the dates of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are included in the statement of profit or loss.

2.8 Employee benefits

i) Gratuity:

The Company accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method.

Actuarial gains and losses are recognized in full in other comprehensive income and accumulated in equity in the period in which they occur. Past service cost is recognized in profit or loss in the period of a plan amendment.

ii) Provident fund:

The eligible employees of the Company are entitled to receive the benefits of Provident fund in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary (currently at 12% of the basic salary) which are charged to the Statement of Profit and Loss on accrual basis.

iii) Compensated absences:

The Company provides for the compensated absences subject to Company's certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is provided based on the number of days of unavailed leave at each Balance Sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method.

Actuarial gains and losses are recognized in full in the Statement of Profit and Loss in the period in which they occur. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date.

iv) Other short term employee benefits:

Other short-term employee benefits such as performance incentives expected to be paid in exchange for the services rendered by employees, are recognized during the period when the employee renders the service.

2.9 Taxation:

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the income tax laws.

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the income taxes or deferred taxes are recognized in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying units intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

2.10 Employee Stock Option:

Stock-based compensation represents the cost related to stock-based awards granted to employees. The Company measures stock-based compensation cost at grant date, based on the estimated fair value of the award and recognizes the cost (net of estimated forfeitures) on a straight line basis over the requisite service period for each separately vesting portion of the award, as if award was in substance, multiple awards. The Company estimates the fair value of stock options. The cost is recorded under the head employee benefit expense in the statement of profit and loss with corresponding increase in “Share based payment expense”.

2.11 Earnings per share

Basic earnings/(loss) per share are calculated by dividing the net profit/(loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the year and also after the balance Sheet date but before the date the financial statements are approved by the Board of DirectoW

For the purpose of calculating diluted earnings per share, the net profit/(loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

2.12 Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities and Contingent assets are not recognized in the financial statements.

2.13 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

Ind AS 16 – Property Plant and equipment - The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its standalone financial statements.

Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets – The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material

Net (gain)/loss recognised in Other Comprehensive Income	**398,413**	40,065

V] Assumptions

Particulars	As at March 31, 2022	As at March 31, 2021
Discount Rate	**6.30%**	5.90%
Salary Escalation Rate	**7.00%**	0% till 30 June 2021; 6% thereafter
Mortality Rate	**Indian Assured Lives Mortality (2006-08) Ult.**	Indian Assured Lives Mortality (2006-08) Ult.
Employee Separation Rate	**17.00%**	17.00%

a) Discount rate : It is based upon the market yields available on Government Bonds at the accounting date with a term that matches that of the liabilities.

b) Salary Escalation Rate: The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

c) Employee separation Rate: The assumption of Employee separation rate represents the company's expected experience of employee turnover.

VI] Sensitivity analysis

A quantitative sensitivity analysis for significant assumption as at March 31, 2022 and March 31, 2021 is as shown below:

Amount in ₹

Particulars	As at March 31, 2022	As at March 31, 2021
A: Discount rate		
1. Effect on DBO due to 0.5% increase in discount rate	**(78,490)**	(63,527)
2. Effect on DBO due to 0.5% decrease in discount rate	**82,414**	66,804
B: Salary Escalation Rate		
1. Effect on DBO due to 0.5% increase in Salary escalation rate	**63,406**	59,497
2. Effect on DBO due to 0.5% decrease in Salary escalation rate	**(61,668)**	(48,146)
C: Withdrawal Rate		
1. Effect on DBO due to 5% increase in withdrawal rate	**(96,414)**	(111,012)
2. Effect on DBO due to 5% decrease in withdrawal rate	**86,861**	110,402

The sensitivity analysis above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Method used for sensitivity analysis: The sensitivity results above determine their individual impact on the Plan's end of year Defined Benefit Obligation. In reality, the Plan is subject to multiple external experience items which may move the Defined Benefit Obligation in similar or opposite directions, while the Plan's sensitivity to such changes can vary over time.

VII] Disclosure related to indication of effect of the defined benefit plan on the entity's future cash flows:

Payout in the next	As at March 31, 2022	As at March 31, 2021
1 year	**323,815**	282,059
1-2 years	**530,537**	284,683
2-3 years	**667,435**	419,675
3-4 years	**659,899**	589,212
4-5 years	**721,023**	663,996
5 years and beyond	**3,534,165**	3,048,187

VIII] Description of Plan characteristics and associated risks:

The Gratuity scheme is a final salary Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The Plan design means the risks commonly affecting the liabilities and the financial results are expected to be:

1. Interest rate risk
2. Salary Inflation risk
3. Demographic risk

*The fair value of cash and cash equivalents, trade receivables, trade payables and certain other financial assets and liabilities approximate their carrying amount largely due to the short term nature of these instruments.

III] Financial Risk Management

Financial Risk Factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

(i) Market risk

Market risk is the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company exposure to market risk is primarily on account of foreign currency exchange rate risk.

(a) Foreign currency exchange rate risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar against the respective functional currency of the Company.

The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks and accordingly deretermines the course of action.

The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the respective functional currency of the Company.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities (unhedged) at the end of the year are as follows:

Particulars	Currency	As at March 31, 2022	As at March 31, 2021
Financial assets	USD	97,290,034	-
Financial liabilities	USD	-	-

Forex sensitivity analysis:

A reasonably possible strengthening (weakening) of the Indian Rupee against below currencies at 31 March 2022 (previous year ending as on 31 March 2021) would have affected the measurement of financial instruments denominated in functional currency and affected the Statement of Profit and Loss by the amounts shown below. This analysis is performed on foreign currency denominated monetary financial assets and financial liabilities outstanding as at the year end. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Currency	As at March 31, 2022		As at March 31, 2021	
	Appreciation	Depreciation	Appreciation	Depreciation
1% depreciation / appreciation in the exchange rate between Indian Rupees and USD	972,900	(972,900)	-	-

(ii) Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, unbilled revenue, cash and cash equivalents and other financial assets. None of the financial instruments of the Company result in material concentration of credit risk.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

Credit Risk Exposure

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹ 102,553,157 and ₹ 11,560,826 as at March 31, 2022 and March 31, 2021 respectively, being the total of the carrying amount of trade receivables, unbilled revenue (excluding contract assets) and other various financial assets.

(iii) Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligation. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2022

Amount in ₹

27 Company operates as single segment in accordance with Indian Accounting Standard Ind AS 108, Operating Segments as notified unde the Companies (Indian Accounting Standard) Rules, 2015.

28 Based on the information available with the company, following creditors have been identified as "Supplier" within the meaning of Micro, Small and Medium Enterprises Development (MSMED) Act, 2006.

Disclosures under Micro, Small and Medium Enterprises Development Act, 2006 (MSMED)

Dues to micro and small suppliers	As at March 31, 2022	As at March 31, 2021
The amounts remaining unpaid to micro and small suppliers as at the end of the year:		
Principal	50,184	-
Interest	-	-
The amounts of the payments made to micro, small and medium suppliers beyond the appointed day during each accounting year.	-	-
The amount of interest paid under the act beyond the appointed day during the year	-	-
The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under MSMED	-	-
The amount of interest accrued and remaining unpaid at the end of each accounting year.	-	-
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under the MSMED	-	-

The management has identified enterprises which have provided goods and services to the Company and which qualify under the definition of micro and small enterprises, as defined under Micro, Small and Medium Enterprises Development Act, 2006 (MSMED). Accordingly, the disclosure in respect of the amounts payable to such enterprises as at March 31, 2022 and March 31, 2021 has been made in the financial statements based on information received and available with the Company.

29 Corporate social responsibility

The Company does not meet the criteria specified in sub section (1) of section 135 of the Companies Act, 2013,read with Companies [Corporate Social Responsibility (CSR)] Rules, 2014. Therefore it is not required to incur any expenditure on account of CSR activities during the year.

30 Disclosures for revenue from contracts with customers

a) Disaggregation of revenue

Revenue disaggregation by nature of services is as follows:

Amount in ₹

Nature of Services	For the year ended March 31, 2022	For the period ended March 31, 2021
Other revenue	97,447,280	-
Total	**97,447,280**	-

Revenue disaggregation by geography is as follows:

Amount in ₹

Geography	For the year ended March 31, 2022	For the period ended March 31, 2021
India	-	-
Rest of world	97,447,280	-
Total	**97,447,280**	-

31 Income Tax Expense

Tax expense in the statement of profit and loss comprises:

Amount in ₹

Particulars	For the year ended March 31, 2022	For the period ended March 31, 2021
Current tax:		
-Tax expense related to current year	-	-
Total Current tax	**-**	-

The tax expense for the year / period can be reconciled to the accounting profit as follows:

Amount in ₹

Particulars	For the year ended March 31, 2022	For the period ended March 31, 2021
Profit before Tax	12,938,968	(20,265,847)
Enacted/effective tax rate	25.17%	33.38%
Income tax expense calculated at enacted/effective tax rate	**3,256,479**	(6,765,550)
Effect of expenses/income that are not admissible in determining taxable profit	-	6,765,550
Effect of utilisation of carried forward losses	3,256,479	-
Income tax expense recognised in profit or loss	**-**	-

32 Deferred Tax:

The following is the analysis of deferred tax assets presented in the balance sheet:

Amount in ₹

Particulars	As at March 31, 2022	As at March 31, 2021
Deferred tax assets	1,250,562	-
Deferred tax liabilities	-	-
Deferred tax assets (net)	**1,250,562**	-

The tax effect of significant timing differences that has resulted in deferred tax assets are given below:

Amount in ₹

Particulars	**For the year ended March 31, 2022**			
	Opening balance	**Recognized in Profit and loss**	**Recognized in OCI**	**Closing balance**
Provision for employee benefits		**392,836**	**100,273**	**493,109**
Brought forward business losses	**-**	**757,453**		**757,453**
Net Deferred Tax Assets	**-**	**1,150,289**	**100,273**	**1,250,562**

33 Code of Social Security, 2020

The Code on Social Security, 2020 ('Code') relating to employee benefits received the Presidential assent in September 2020. The Ministry of Labour and Employment had released draft rules for the Code on November 13, 2020 and had invited suggestions from stakeholders which are under active consideration by the Ministry. However, the effective date from which the changes are applicable is yet to be notified. The Company will evaluate and will give appropriate impact in the financial statements in the period in which the Code becomes effective and the related rules are published.

34 Analytical ratios

Sr. No.	**Particulars**	**As at March 31, 2022**	**As at March 31, 2021**	**Varinace %**
1	Current Ratio (in times)^	**3.01**	2.32	102%
2	Debt-Equity Ratio (in times)^^	**0.21**	-	100%
3	Debt Service Coverage Ratio (in times)^^	**217.25**	-	100%
4	Return on Equity Ratio (in %)^^^	**37%**	-548%	-541%
5	Trade Receivables turnover ratio (in times)^^^^	**2.00**	-	100%
6	Trade payables turnover ratio (in times)^^^^^	**3.42**	2.24	71%
7	Net capital turnover ratio (in times)^^^^^^	**1.40**	-	100%
8	Net profit ratio (in %)^^^^^^	**14%**	0%	100%
9	Return on Capital employed (in %)^^^	**16%**	-548%	-545%

The basis of computation of above parameters is provided in the table below:

1	Current Ratio	Current assets / current liabilities
2	Debt-Equity Ratio	(Non-current borrowings (+) current borrowings) / Equity * including lease liabilities
3	Debt Service Coverage Ratio	Net Profit after taxes + Non-cash operating expenses like depreciation and other amortizations + Interest + other adjustments like loss on sale of Fixed assets etc. / (interest expenses (+) principal repayments of long-term debt (+) payment of lease liabilities)
4	Return on Equity Ratio	Net Profits after taxes / Average Shareholder's Equity
5	Trade Receivables turnover ratio	(Gross credit sales (-) sales return) / (Opening Trade receivables (+) Closing Trade receivables) / 2
6	Trade payables turnover ratio	(Gross credit purchases (-) purchase return) / (Opening Trade payables (+) Closing Trade payables) / 2
7	Net capital turnover ratio	(Total sales (-) sales returns) / (current assets (-) current liabilities.)
8	Net profit ratio	Net Profits after taxes / (Total sales (-) sales returns)
9	Return on Capital employed	Earning before interest and taxes / (Tangible Net Worth (+) Total Debt (+) Deferred Tax Liability)

^Variance is mainly on account of increase in trade receivables outstanding as at the year ended March 31, 2022

^^Variance is on account of borrowings availed during the year

^^^Variance is on account of shares issued during the year and profit for the year

^^^^Variance is mainly on account of increase in trade receivables outstanding as at the year ended March 31, 2022

^^^^^Variance is on account of increase in expenses and turnover during the year

^^^^^^Variance is on account of turnover for the year

35 Employee Stock Option Scheme

ESOP 2021 scheme

The Company has two different share based employee benefit program i.e. 2020 Employee stock options plan – ESOP scheme 1 and ESOP scheme 2 that allows employees to acquire shares of the Company subject to vesting and performance conditions. A share option scheme for employees was approved on 15th September 2020 by the shareholders of the Company under which the employees of the Company were granted stock options that vest in a granted manner over a period of 3 years. An exercise price of INR 10 was fixed for this purpose.

These schemes have been awarded during the period ended 31 March 2022, whose details are given as under:-

Particulars	**ESOP scheme 1**	**ESOP scheme 2**
Maximum number of options granted under the plan	4,279,765	1,775,000
Method of settlement	Equity settled plans	Equity settled plans
Vesting period	3 years	1 years
Vesting conditions	Service period and performance based conditions	Service period

The vesting percentage basis period, of above schemes are as follows:-

Particulars	**ESOP scheme 1**	**ESOP scheme 2**
With in 1 year	20%	100%
1 to 2 years	40%	-
2 to 3 years	40%	-

Movement in respect of stock options granted to employees of the Company during the year and outstanding as at the year end is set out below:

ESOP scheme 1:-

Particulars	As at March 31, 2022		As at March 31, 2021	
	No. of options	Weighted average exercise price	No. of options	Weighted average exercise price
Outstanding at beginning of the year	**3,301,925**	**-**	-	-
Options granted during the year	**977,840**	**10**	3,301,925	10
Exercised during the year	**13,831**	**-**	-	-
Forfeited/lapsed during the year	**534,397**	**-**	-	-
Outstanding at the end of the year	**3,731,537**	**10**	3,301,925	10
Vested options at the end of the year	**246,773**		-	10
Unvested options at the end of the year	**3,484,764**		3,301,925	10

ESOP scheme 2:-

Particulars	As at March 31, 2022		As at March 31, 2021	
	No. of options	Weighted average exercise price	No. of options	Weighted average exercise price
Outstanding at beginning of the year	**1,775,000**	**-**	-	-
Options granted during the year	**-**	**10**	1,775,000	10
Exercised during the year	**-**	**-**	-	-
Surrendered during the year	**-**	**-**	-	-
Forfeited during the year	**-**	**-**	-	-
Outstanding at the end of the year	**1,775,000**	**10**	1,775,000	10
Vested options at the end of the year	**1,775,000**	**10**	-	10
Unvested options at the end of the year	**-**	**10**	1,775,000	10

The employee stock compensation cost for the Employee stock options plan – ESOP scheme 1 and ESOP scheme 2 has been computed by reference to the fair value of share options granted and amortized over each vesting period. For the period ended March 31, 2021, the Company has accounted for employee stock compensation cost (equity settled) amounting to ₹ 3,923,707.

Particulars	**For the year ended March 31, 2022**		**For the period ended March 31, 2021**	
	ESOP scheme 1	**ESOP scheme 2**	**ESOP scheme 1**	**ESOP scheme 2**
Fair value of options	**2.17 to 3.24**	**1.64**	2.17 to 3.24	1.64
Exercised price	**10**	**10**	10	10
Expected Volatility (%)	**32.39%**	**32.39%**	32.39%	32.39%
Expected Life (in years)	**2.00 to 3.71**	**1.04 to 2.04**	2.00 to 3.71	1.04 to 2.04
Expected Dividend (%)	**-**	**-**	-	-
Risk free interest rate (%)	**4.44 to 5.14**	**3.83 to 4.44**	4.44 to 5.14	3.83 to 4.44

36 The Company has been incorporated on July 15, 2020 thereby the previous year represents the period from 15 July, 2020 to March 31, 2021.

37 Previous year’s figures have been re-classified to conflrm to this year’s classification.

DIRECTORS' REPORT

Dear Members,

Your Directors have the pleasure in presenting the Twenty Second Annual Report together with audited Financial Statements of the Company for the year ended March 31, 2022.

The Company's Standalone financial results for the year under review along with previous year's results are presented hereunder:

Financial Highlights

Rs. in Millions

Particulars	**2021-22**	**2020-21**
Income	3,390.33	3,370.74
Other Income	123.38	171.63
Total Income	3,513.71	3,542.36
Operating Profit (EBITDA)	518.38	423.03
Operating Margin *(after considering Forex loss & Provision for doubtful debts)	15.29%	12.55%
Depreciation	81.23	85.69
EBT	560.54	508.09
Net Income (PAT)	405.14	375.84

Tax relating to earlier years	-0.16	2.30
Deferred Tax	-5.05	21.88
Cash & Cash Equivalent	299.14	233.50
Long Term Debt	-	-
Capital Expenditure	52.50	72.75

Business Overview

During the year under review, the Company secured business orders from 11 new Customers. Key additions include:

- One OEM as a customer in Japan
- Started supporting new location with good growth potential for an EV OEM in USA
- Expanded business to Brazil with offshore work for a customer
- Entered a new geography in Europe (Sweden) by tying up with a local partner
- Extended styling services to a luxury sports car OEM in UK

The Company continued to enjoy 98% repeat business based on its quality of services and value addition. The top 15 customers accounted for 87% of the Company's revenues in FY22.

The Company revenue increased by 2% in FY22 (Compared to FY21) in USD terms and 1.6% in Rupee terms despite heavy headwinds experienced by the global automotive industry in FY22 as given below:

- Cancellation of programs and delay in new programs due to continued semiconductor shortages worldwide
- Continued COVID-19 related restrictions in key cities like Shanghai in China
- Continued pressure on rates at offshore and onsite due to budget cuts by customers
- Inability to fulfill onsite requirements in China, Japan, and USA due to travel restrictions and non-availability of resources in local markets due to scarcity and competition
- Loss of billable positions / trained talent due to increased attrition in the Indian IT/ITES industry. Total number of associates resigned during FY22 is 615, which created negative impact on the current business revenues & resulted in non- fulfilment of new requirements of the customers.

- Change of strategy (like in-sourcing the work, moving the work to own LCC locations among others) by some of the key customers accounted for about $ 3.7M reduction in revenue in FY22

The Company had recovered ground with key customers by increasing the revenue in FY22 with a total addition of $ 8.0M. But there was a reduction in revenue of $ 7.2M due to the headwinds mentioned above, thus limiting the overall growth of the company in FY22.

Automotive industry continues to face challenges in the form of semiconductor shortages worldwide, on-going COVID-19 related restrictions in China and Europe, and the war in Ukraine affecting key supply chain.

The Company continued majority of the projects in WFH mode with about 90% of the associates working from home.

The Company continued its focus on various cost optimization measures throughout the year.

The Company's Data Privacy and Info Sec Policy is at a higher level and strong compliance was demonstrated. The Company is working on TISAX certification for its Offsite Centre in Germany.

One Satven associate from Ford team co-authored a patent on 'Rotating lidar gutter system for air leakage and water drainage management' related to autonomous cars. This patent was filed in USA and India.

The Company continues to invest in its associates when it comes to their Training & Development and is also actively supporting EHSMS (Environment, Health & Safety Management Systems) initiatives across various locations.

Several of the Company's engineers received Achievement and Champion awards directly from customer senior leadership teams.

Marketing & Communication

The Company participated in various Industry Events to increase its visibility in the Automotive Market and also understand technology trends.

Academia Connect Initiatives

The Company collaborated with Hiroshima University, Japan to improve the performance of battery pack using Data Driven PID control method continued in FY22 with finalization of the software model development.

Future Prospects

For long term sustenance and growth, the Company plans to develop more Offsite Engineering Centers in developed markets and expand presence in Mexico, China, Vietnam among others.

The Company is working on the new technology initiatives in the following areas to help achieve higher growth targets for FY23 and beyond and also meet the requirements of existing Customers and Business:

- **Mechatronics :**
  - o Software-in-Loop (SIL) testing and automation, Hardware-in-Loop (HIL) testing and automation, Battery Management System (BMS), Functional Safety, Model Based Design (MBD)
- **Electric Vehicles**
  - o Electric Vehicle Teardown & Benchmarking, Design of EV Motor & 2 Speed transmission to improve Range and Top Speed, 1D- Structural & CFD simulations, Transient & flow studies
- **Automation / AI / ML**
  - o AI, ML, and DL for safety applications, ML Application for NVH simulations, Automation & Customization – Design processes, Augmented Reality / Virtual Reality (AR / VR), Manufacturing Process Automation using AR/VR technology
- **Systems Modeling**

  The Company is also planning to invest in the acquisition of a company to complement its technology initiatives and customer reach in the markets such as NA, Europe, and APAC.

Auditors

M/s. M. Bhaskara Rao & Co, Chartered Accountants, Hyderabad were appointed as Statutory Auditors of the Company for a period of five (5) years from the conclusion of 19th AGM held on 23rd July, 2019, on such remuneration as may be determined by the Board of Directors.

The auditors have confirmed their eligibility under Section 139 of the Companies Act, 2013 and the Rules framed thereunder for continuing in the office of Auditors for the Financial Year 2022-23.

Auditors' Report

There are no qualifications, reservations or adverse remarks made by the Auditor's in their Report.

In respect of Emphasis of Matters (EOM) made in the Auditors' Report, the Disclosures made at Note No. 27.2 and 28 in notes to Accounts are self-explanatory.

Internal Financial Controls

During the year under review, the external consultant appointed by the Company conducted periodic review of IFC Framework.

They reported that the controls are adequate for ensuring the orderly and efficient conduct of the business including adherence to the Company's policies, the safe guarding of assets, the prevention and detection of frauds and errors, the accuracy and completeness of accounting records and timely preparation of reliable financial information.

Fixed Deposits

Your Company has not accepted any deposit.

Dividends

No dividend is recommended by the Board of Directors for F.Y. 2021-22. No amount was required to be transferred to reserves.

Meetings of the Board

During the year ended 31st March, 2022, five Board Meetings were held on, 16h April, 2021, 16th July, 2021, 23rd September, 2021, 16th October, 2021 and 17th January, 2022 respectively. The intervening gap between the meetings was within the time allowed under the Companies Act, 2013.

The dates of the Committee Meetings are as follows:

Audit Committee: 16h April, 2021, 16th July, 2021, 10th August, 2021 (adjourned and resumed on 12th August, 2021), 16th October, 2021 and 17th January, 2022

CSR Committee: 16h April, 2021, 16th July, 2021 and 17th January, 2022

NRC Committee: 16h April, 2021, 16th October, 2021 and 17th January, 2022

Directors

The Independent Directors have given declarations that they meet the criteria of independence as laid down under Section 149(6) of the Companies Act, 2013 for F.Y. 2022-23.

Pursuant to the provisions of Section 152(6) (c) of the Companies Act 2013, Mr. Jayaraman Ganapathy (DIN 01461157) & Mr. Venkateswara Rao Gajjala (DIN 08733877), Directors, are liable to retire by rotation and being eligible, offer themselves for reappointment.

Mr. Rakesh Soni resigned on 18th November, 2021. The Board places on record its sincere appreciation for the valuable advice and guidance given by him during his tenure.

Internal Auditor

Pursuant to Sec 138 of the Companies Act, 2013, the Company had appointed Mr. J. S. S. Sivarama Prasad, Chartered Accountants as the Internal Auditors of the Company.

Board Evaluation

Pursuant to the provisions of Sec 178 of the Companies Act, 2013 and The Companies (Accounts) Rules, 2014, the Directors have reviewed the performance of the Board for F.Y. 2021-22.

Remuneration Policy

The Board upon the recommendations of the Nomination & Remuneration Committee framed a policy for selection and appointment of Directors, Senior Management and their remuneration during F.Y. 2014-15. Extract of the Remuneration Policy is annexed as **Annexure 'B'**.

Corporate Social Responsibility (CSR)

The CSR vision of the Company is "Community Development through Education".

Pursuant to the guidelines prescribed under section 135 of the Companies Act, 2013, the Board has formed a Committee viz, Corporate Social Responsibility (CSR) Committee. The Board of Directors of the Company laid down the CSR Policy, covering the Objectives, Focus Areas, Governance Structure and Monitoring & Reporting Framework among others. Subsequently the CSR Policy as recommended by the CSR Committee was approved by the Board.

The Company has spent more than 2% of the average net profits of the Company during the three immediately preceding financial years on CSR.

The policy is available at https://satyamventure.com/csr/

The Company's social initiatives are carried out by Tech Mahindra Foundation, Section 8 (erstwhile Section 25) Companies promoted by Tech Mahindra Limited. The Annual Report on CSR Activities is annexed as an **Annexure C**.

Related Party Transactions

All related party transactions that were entered into during the Financial Year were at arm's length basis and were in the ordinary course of business. No material related party transactions were made by the Company with its Promoters, Directors, Key Managerial Personnel or other designated persons which may have a potential conflict with the interest of the Company at large. All Related Party Transactions for the period under review are placed before the Audit Committee and the Board for its approval. Pursuant to clause (h) of subsection (3) of Sec 134 of the Act and Rule 8(2) of the Companies (Accounts) Rules, 2014, Form **AOC 2 is annexed to this Report as Annexure D.**

Risk Management

The Company has developed its Risk Assessment Framework and is being implemented under the ISO standards and IFC Framework.

The Company's Risk Management is also forming part of the Risk Management Framework adopted by the Holding Company wherein the elements of risks are overviewed for the Organization as a whole including its Subsidiaries.

Risk Management - COVID-19

Risk assessment & mitigation plans in perspective of the following parameters has been done:

- Customers (Revenue, Receivables, Delivery & Communication)
- Profitability Impact
- Cash flows
- Work from Home (productivity & cyber security)
- Associate engagement & wellbeing
- Vendor management
- Statutory Compliances

Whistle Blower Mechanism

Whistle Blower Mechanism is a part of the Company's Code of Ethical Business Conduct Policy which is applicable to all its Subsidiaries & Branches. The Policy sets out ways through which the stakeholders can raise concerns that relate to actual or suspected violations to the Corporate Ombudsman Office. No complaints were received during the period under review.

Fraud Reporting

No frauds were reported during the period under review.

Sustainability

The Company has taken several steps to support the Green Initiatives including "Disposal of E-waste through Government authorized Agency".

Prevention of Sexual Harassment Policy

The Company has Prevention of Sexual Harassment Policy in which it formalized a free and fair enquiry process with clear timeline. Also the Company has formed an Internal Redressal Committee to which employees can write their complaints. During the year under review, the Company has not received any such complaint in this regard and no cases were filed pursuant to The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

Annual Return

The Annual Return in Form MGT 7 will be hosted on website at https://satyamventure.com/investors/ after necessary certification and filing the same with the authority.

"Senior Ma nagement Personnel" means personnel of the company who are members of its core management team comprising of the HODs excluding Board of Directors & KMP. HODs refers to Heads of HR, Sales & Marketing, Commercial, Corporate Services, Legal, Delivery Heads, ERP & Quality.

3. POLICY FOR APPOINTMENT AND REMOVAL OF DIRECTORS, KEY MANAGERIAL PERSONNEL (KMP) AND SENIOR MANAGEMENT PERSONNEL

3.1 Directors

- The NRC determines the criteria for appointment to the Board and is vested with the authority to identify candidates for appointment to the Board of Directors. In evaluating the suitability of individual Board member, the NRC will take into account multiple factors, including general understanding of the business, education, professional background, personal achievements, professional ethics and integrity.
- Based on recommendation of the NRC, the Board will evaluate the candidate(s) and decide on the selection of the appropriate member. Upon receipt of the consent, the new Director will be co-opted by the Board in accordance with the applicable provisions of the Companies Act 2013 and Rules made there under.

3.2 Key Managerial Personnel (KMP)

- The NRC determines the criteria for appointment of KMP and is vested with the authority to identify candidates for appointment of KMP. In evaluating the suitability of individual KMP, the NRC will take into account multiple factors, including general understanding of the business, education, professional background & experience, personal achievements, professional ethics, integrity and applicable statutory / regulatory requirements.
- Based on recommendation of the NRC, the Board will evaluate the candidate(s) and decide on the selection of the appropriate Personnel.

3.3 Senior Management Personnel

- The CEO determines the criteria for appointment of the Senior Management Personnel supported by HR and is also vested with the authority to appoint Senior Management Personnel. In evaluating the suitability of Senior Management Personnel, the CEO will take into account multiple factors, including general understanding of the business, education, professional background & experience, personal achievements, professional ethics and integrity.

  The details of the appointment (s) made and the personnel removed / relieved during a quarter shall be presented to the Board.

3.4 Removal of Board of Directors

If a Director is attracted with any disqualification as mentioned in any of the applicable Act, rules and regulations thereunder or due to non-adherence to the applicable policies of the company, the NRC may recommend to the Board for removal of a Director.

4. REMUNERATION TO DIRECTORS, KEY MANAGERIAL PERSONNEL & SENIOR MANAGEMENT PERSONNEL:

4.1 Directors:

The sitting fee for the Board and Committee meetings will be recommended by NRC to the Board.

The members on the Board, who are employees of the Holding Company, will not be paid any sitting fee for the Board and Committee meetings.

However, if necessary, NRC may recommend to the Board for such payments to any of the Directors.

4.2 Remuneration to Key Managerial Personnel & Senior Management Personnel

4.2 (a) Key Managerial Personnel:

- The initial remuneration of KMP will be approved by the Board of Directors based on the recommendations of NRC. Subsequent revision will be made by NRC.
- Any foreign travels of C.E.O. to be with the consent of Chairman of the Board.

4.2 (b) Senior Management Personnel:

- CEO supported by HR, to review and consider revision of the remuneration of Senior Management Personnel from time to time. The Company follows an extensive Performance Management System to review the performance of the Senior Management Personnel and provide rewards on the basis of meritocracy.
- CEO shall make a presentation to the NRC on the proposed annual increments based on the performance of the company, general trends in the Industry etc. the annual performance appraisal process of the employees conducted by the Human Resources department. Eligible employees will be rewarded with the annual increment. Before taking the proposal to the NRC, the CEO shall obtain the approval of Chairman of NRC.
- However, if any internal candidate is deputed by Holding Company from their rolls for any of these positions, the remuneration for such candidate(s) will be fixed by the holding company.
- The initial remuneration of HOD HR will be approved by the Board of Directors based on the recommendations of NRC. Subsequent revision will be made by NRC.

5. EVALATION FRAMEWORK

5.1 Performance Evaluation Individual Board members including Independent Directors:

- Evaluation for the Individual Directors, including Independent Directors will be carried out in the first month of each financial year i.e. April. The process will be initiated each year by the chairman of NRC assisted by the Company Secretary or any other person authorized by the NRC. Each Board Member will get an evaluation forms as given in Annexure-I & II in the first week of April of each year. The members shall complete the form and return it to the Chairman of NRC.

ANNEXURE 'C'

ANNEXURE 'F'

FORM No. MR-3

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2022

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,

The Members,
SATYAM VENTURE ENGINEERING SERVICES PRIVATE LIMITED

1-8-301-306, 3rd Floor

Ashoka My Home Chambers

Secunderabad, Telangana- 500003

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by SATYAM VENTURE ENGINEERING SERVICES PRIVATE LIMITED (CIN: U72200AP2000PTC033213) (hereinafter called the "Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minutes books, forms and returns filed and other records maintained by the company and also the information provided by the company, its officers, agents and authorised representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the period covering the financial year ended on 31st March, 2022 complied with the Statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2022, according to the provisions of:

1) The Companies Act, 2013 (the Act) and the rules made there under;
2) The Secretarial Standards issued by the Institute of Company Secretaries of India.
3) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investments, Overseas Direct Investments and External commercial Borrowings, as applicable to the Company.
4) The Depositories Act, 1996 and the Regulations and Bye-law framed there under;
5) Regulations and guidelines prescribed under the Securities and Exchange Board of India Act, 1992 are not applicable to the Company as the Company's Equity Shares are not listed in any Stock Exchanges in India

I further report that:

The Company was not required to comply with the following laws/regulations/agreements/ guidelines and consequently not required to maintain any books, papers, minutes books or other records or file any form / returns under:

a) The Securities Contracts (Regulation) Act, 1956(SCRA) and the rules made there under;
b) Listing agreement, since the company is not listed entity

I further report that, management has identified and made internal control mechanism for complying the following laws and other laws as being specifically applicable to the Company:

i. The Employee Provident Fund and Miscellaneous Provisions Act, 1952
ii. The Payment of Bonus Act, 1965
iii. The Payment of Gratuity Act, 1972
iv. The Contract Labour (Regulation and Abolition) Act, 1970
v. The Maternity Benefits Act, 1961
vi. The Income Tax Act, 1961
vii. Shops and Establishments Act, 1948
viii. The Environment (Protection) Act, 1986

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that:

- The Board of Directors of the Company is duly constituted with proper balance of Non-Executive Directors, Independent Directors and woman Director. The changes in the composition of the Board of Directors that took place during the year under review were carried out in the compliance with the provisions of the Act.
- Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarification on the agenda items before the meeting and for meaningful participation at the meeting.
- Shareholders of the company have not adopted financial statements at Annual General Meeting held on 24/07/2021 and the same was recorded as part of the Annual General Meeting minutes. The provisional un-adopted financial statements are filed with Registrar of Companies, Hyderabad.
- There were Related Party transactions which in the opinion of the management, are within the Arm's Length basis and in the normal course business, approved by Audit Committee and Board of Directors of the Company.
- As per the minutes of the Board Meetings and Committee Meetings, all the decision of the Board and Committee thereof were carried out with requisite majority and no dissenting views have been recorded.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

Note: This report is to be read with our letter of even date which is annexed as **"ANNEXURE 1"** and forms an integral part if this report.

“ANNEXURE 1”

To,
The Member,
SATYAM VENTURE ENGINEERING SERVICESPRIVATE LIMITED

1-8-301-306, 3rd Floor

Ashoka My Home Chambers

Secunderabad, Telangana- 500003

My Secretarial Audit Report of even date is to be read along with this letter.

1. Maintenance of Secretarial records is the responsibility of the management of the Company. My responsibility is to express an opinion on these secretarial records produced for audit.
2. I have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the Secretarial records. The verification was done on test basis to ensure that correct facts are reflected in Secretarial records. I believe that the processes and practices, I followed provide a reasonable basis for my opinion.
3. I have not verified the correctness and appropriateness of financial records and books of accounts of the Company.
4. Wherever required, I have obtained the Management representation about compliance of laws, rules and regulations and happenings of events etc.
5. The compliance of provisions of Corporate and other applicable laws, rules, regulations, standards is the responsibility of the management. My examination was limited to the verification of procedures on test basis.
6. I have conducted verification & examination of records, as facilitated by the Company for the purpose of issuing this report.
7. Secretarial Audit Report is neither an assurance as to the future viability of the Company nor of efficacy or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITOR'S REPORT

To the Members of
Satyam Venture Engineering Services Private Limited
Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **Satyam Venture Engineering Services Private Limited** ("the Company"), which comprise the Balance Sheet as at 31 March 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information (here after referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, the profit and total comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Statements" section of our report. We are independent of the Company in accordance with the "Code of Ethics" issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules issued thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to the following notes in the standalone financial statements:

a) Note 27.2 regarding reckoning of Rs.28,253.90 Lakhs as contingent liability, towards any possible charge that may arise in respect of ongoing dispute between the promoters, for the period from 01 April 2012 to 31 March 2022 based on legal advice and for reasons stated in the said note notwithstanding the status of litigation between the promoters on various issues relating to the Shareholders Agreement, the outcome of which is not determinable at this stage.

b) Note 28 regarding drawing up of accounts for the year incorporating opening balances based on the financial statements of earlier years which have not been adopted by the shareholders.

Our opinion is not modified in respect of these matters.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in the Directors Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act read with the Rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained upto the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the 'Annexure A', a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
   a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
   b. in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

c. the Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account;

d. in our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with the rules issued thereunder;

e. the matter relating to contingent liability described in paragraph (a) under the Emphasis of Matters above, in our opinion, may have an adverse effect on the functioning of the Company;

f. on the basis of written representations received from the directors as on 31 March 2022, and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022, from being appointed as a director in terms of Section 164 (2) of the Act;

g. with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in 'Annexure B'; and

h. with respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

   In our opinion and to the best of our information and according to the explanations given to us, the provisions of Section 197 of the Act and the rules thereunder are not applicable to the Company.

i. with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014 as amended, in our opinion and to the best of our information and according to the explanations given to us:

   i. the Company has disclosed the impact of all pending litigations on its financial position in its standalone financial statements - Refer note 27 to the standalone financial statements;

   ii. The Company does not have any material foreseeable losses relating to long term contracts including derivate contracts as on 31 March 2022. No provision is made in respect of the contingent liability described under note 27.2 since the matters involving these litigations are sub-judice at present, the impact of these pending litigations on its financial position could not be stated in the standalone financial statements;

   iii. there are no amounts which were required to be transferred to the Investor Education and Protection Fund during the year ended 31 March 2022.

   iv. (a) the Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

   (b) the Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

   (c) Based on audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material mis-statement.

   v. The Company has not declared or paid any dividend during the year for

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Satyam Venture Engineering Services Private Limited)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) The fixed assets have been physically verified during the year by the Management in accordance with a programme of verification, which, in our opinion, provides for physical verification of all the fixed assets at reasonable intervals having regard to the size of the Company and the nature of their assets, the discrepancies noticed on such verification were not material and have been properly dealt with in the books of account.

(c) The Company does not have any immovable properties and accordingly, paragraph 3(i)(c) of the Order is not applicable.

(d) The Company has not revalued its Property, Plant and Equipment or intangible assets during the year and accordingly, paragraph 3(i)(d) of the Order is not applicable.

(e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.

(ii) (a) The Company does not have any inventory and accordingly, paragraph 3(ii)(a) of the Order is not applicable.

(b) The Company has not been sanctioned working capital limits in excess of Rs.5 crores, in aggregate, at any points of time during the year, from banks or financial institutions on the basis of security of current assts and accordingly, paragraph 3(ii)(b) of the Order is not applicable.

(iii) The Company has not made any investments, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties during the year and accordingly paragraph 3(iii) of the Order is not applicable, at present.

(iv) The Company has complied with the provisions of section 185 and 186 of the Act, in respect of grant of loans, investments made and providing guarantees and securities, as applicable.

(v) The Company has not accepted any deposits or amounts which are deemed to be deposits to which the directions issued by the Reserve Bank of India and provisions of Section 73 to Section 76 or any other relevant provision of the Act and the Rules made there under, where applicable. Further no order has been passed by Company Law Board or National Company Law Tribunal or Reserve Bank of India or any court or any other tribunal and accordingly paragraph 3(v) of the Order is not applicable, at present.

(vi) The maintenance of cost records has not been specified by the Central Government under sub-section(1) of section 148 of the Act, for the business activities carried out by the Company.

(vii) In respect of statutory dues:

(a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income tax, sales tax, service tax, customs duty, excise duty, value added tax, cess and any other material statutory dues applicable to it with the appropriate authorities during the year;

There were no undisputed amounts payable in respect of goods and services tax, provident fund, employees' state insurance, income tax, sales tax, service tax, customs duty, excise duty, value added tax and cess which were in arrears as at 31 March 2022 for a period of more than six months from the date they became payable; and

(b) Details of dues of income tax, provident fund and service tax which have not been deposited as on 31 March 2022 on account of disputes are given below:

Statute	**Nature of dues**	**Forum where dispute is pending**	**Period to which the amount relates**	**Amount involved** (Rupees in Lakhs)
Income Tax Act 1961	Income Tax	CIT (Appeals)	AY 2014-15, 2016-17, 2017-18 and 2018-19	1154.73
Finance Act, 1994	Service tax and penalty	CESTAT	2007-08 to 2016-17	888.95
Employees Provident Fund & Miscellaneous Provisions Act,1952	Provident Fund	Central Government Industrial Tribunal Cum Labour Court	2014-15 and 2015-16	125.96

(viii) There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961.

(ix) The Company did not avail or raise any loans or other borrowings from any lender; accordingly, paragraph 3(ix) of the Order is not applicable.

(x) (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, paragraph 3(x)(a) of the Order is not applicable.

(b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible), and accordingly, paragraph 3(x)(b) of the Order is not applicable.

(xi) (a) During the course of our examination of the books and other records of the Company carried out in accordance with the generally accepted auditing practices in India, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year, nor have we been informed of such case by the management. Accordingly, paragraph 3(xi)(a) of the Order is not applicable.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-14 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.

(c) As represented to us by the management, there are no whistle blower complaints received by the company during the year

(xii) The Company is not a Nidhi Company. Accordingly, paragraph 3(xii) of the Order is not applicable.

(xiii) According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.

(xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and nature of its business.

(b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.

(xv) In our opinion during the year the Company has not entered into non-cash transactions with directors or persons connected with them and hence provisions of Section 192 of the Act, are not applicable.

(xvi) (a) In our opinion, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act 1934. Accordingly, paragraph 3(xvi)(a), (b) and (c) of the Order is not applicable.

(b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directors, 2016) and accordingly, paragraph 3(xvi)(d) of the Order is not applicable.

(xvii) The Company has not incurred any cash losses during the financial year covered by our audit and the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year, accordingly paragraph 3(xviii) of the Order is not applicable.

(xix) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, the our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year form the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section(5) of Section 135 of the said Act.

(b) According to the information and explanations given to us and based on our examination of the records of the Company, there are no unspent amount in respect of ongoing projects, under sub-section(5) of section 135 of the Companies Act. Accordingly, paragraph 3(xx)(b) is not applicable.

(xxi) The Company does not have subsidiaries incorporated in India to which reporting under Companies (Auditor's Report) Order is applicable, accordingly, paragraph 3(xxi) is not applicablefor

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Satyam Venture Engineering Services Private Limited)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Satyam Venture Engineering Services Private Limited** ("the Company") as of 31 March 2022, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and according to the information and explanation given to us, the Company has to strengthen the internal financial controls over financial reporting relating to leave management including recording and timely updation of the employee leave records considering the essential components of internal control stated in the Guidance Note on Audit of

Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. However, considering the size of the Company and nature of its operations during the year, in our opinion, the internal financial controls over financial reporting followed were operating effectively as at 31 March 2022.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

All amounts are Rupees in lakhs unless otherwise stated

1. Corporate Information

Satyam Venture Engineering Services Private Limited ("the Company") was incorporated in March 2000 as a 50:50 joint venture between erstwhile Satyam Computer Services Limited (SCSL) and Venture Global Engineering LLC. SCSL was merged with Tech Mahindra Limited in the year 2013, consequent to a scheme of amalgamation and arrangement as approved by the then Hon’ble High Court of Judicature Andhra Pradesh and Hon’ble High Court of Bombay.

The Company provides engineering services such as product design, tool design and computer aided engineering simulation services to automotive industry across the globe, through its Indian operations and through its foreign branches in USA, Germany, Canada, United Kingdom, Japan and Mexico. The standalone financial statements reflect the results of its operations carried on by Indian operations and overseas branches.

The financial statements for the year ended 31 March 2022 were approved by the Board of Directors and authorised to issue on 19 April, 2022.

2. Significant accounting policies:

2.1 Statement of Compliance:

The standalone financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and amendments issued thereafter.

2.2 Basis for preparation of financial statements:

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India on accrual basis under the historical cost convention, except for certain financial instruments which are measured at fair value. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purpose in these standalone financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Use of Estimates:

The preparation of these standalone financial statements requires the management of the Company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the financial statements.

2.4 Property, Plant & Equipment and Other Intangible assets:

Property, Plant & Equipment and Other intangible assets are stated at actual cost less accumulated depreciation/ amorisation and net of impairment. The actual cost capitalised includes material cost, freight, installation cost, duties and taxes, eligible borrowing costs and other incidental expenses incurred during the construction / installation stage.

Depreciation / amortization of Property, Plant & Equipment and Other Intangible assets:

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation / amortisation on Property, Plant & Equipment including assets taken on lease, other than freehold land is charged based on straight line method on an estimated useful life as assessed based on technical advice, considering the nature of the asset, estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Plant and Machinery (including Computers)	3 years
Office Equipment	3 years
Furniture, Fixtures and Interiors	3 years
Vehicles	3 years
Intangible Assets – Software	License period or 3 years whichever is lower

The estimated useful lives and residual values of the tangible and intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

2.5 Leases:

The Company evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116.

The Company as a lessee :

The Company assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract involves:

(a) the use of an identified asset,

(b) the right to obtain substantially all the economic benefits from use of the identified asset, and

(c) the right to direct the use of the identified asset.

The Company at the inception of the lease contract recognizes a Right-of-Use (RoU) asset at cost and corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets.

The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. Subsequently, the right- of-use assets is measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

The Company applies Ind AS 36 to determine whether a RoU asset is impaired and accounts for any identified impairment loss as described in the impairment of non-financial assets.

For lease liabilities at inception, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate.

The Company recognizes the amount of the re-measurement of lease liability as an adjustment to the right-of-use assets. Where the carrying amount of the right-of-use assets is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in statement of profit and loss.

For short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

2.6 Impairment of Assets:

i) Financial assets

Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Impairment loss on financial assets carried at amortised cost is measured at the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. In a subsequent period, if the amount of impairment loss decreases and the decreases can be related objectively to an event, the previously recognised impairment is reversed through profit or loss.

ii) Non-financial assets

Property, Plant & Equipment and Other Intangible assets

Property, Plant and Equipment and Other intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the profit or loss

2.7 Revenue recognition:

Revenue is recognized upon transfer of control of promised services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services. Arrangements with customers for services are either on a time bound fixed price or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

In arrangements for engineering services with customers, the company has applied the guidance in Ind AS 115, Revenue from contract with customer, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering engineering services and other related services as distinct performance obligations. For allocating the transaction price, the company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the company is unable to determine the standalone selling price, the company uses the expected cost plus margin approach in estimating the standalone selling price. For time and material related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

The company accounts for volume discounts and pricing incentives , if any, to customers as a reduction of revenue based on the rateable allocation of the discounts/ incentives amount to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

Deferred contract costs are incremental costs of obtaining a contract which are recognized as assets and amortized over the term of the contract.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

The Company presents revenues net of indirect taxes in its statement of Profit and loss.

The company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognized as related service are performed. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time .

Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts is classified as non financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet. Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts is classified as non financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

2.8 Foreign currency transactions:

The functional currency of the Company is Indian Rupees (INR).

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities of foreign operations are restated into the functional currency using exchange rates prevailing on the date of the Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are included in the profit or loss.

2.9 Financial Instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

i) Non-derivative financial instruments

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortised cost is carried at fair value through profit or loss (FVTPL) on initial recognition, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income.

The Company, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in other comprehensive income subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss.

Investment in subsidiaries

Investment in subsidiaries is carried at cost as per Ind AS 27 in Separate Financial Statements.

Financial liabilities

Financial liabilities at fair value through profit and loss are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derivative financial instruments and hedge accounting

The Company uses foreign currency forward contracts / options to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. The Company designates some of these forward contracts / options as hedge instruments and account for as cash flow hedges applying the recognition and measurement principles set out in the Ind AS 109.

The use of foreign currency forward contracts / options is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Company's risk management strategy. The counter party to the Company's foreign currency forward contracts is generally a bank. The Company does not use derivative financial instruments for speculative purposes.

Foreign currency forward contract/ option derivative instruments are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised in other comprehensive income and accumulated under effective portion of cash flow hedges and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Amounts previously recognised in other comprehensive income and accumulated in effective portion of cash flow hedges are reclassified to the Statement of Profit or Loss in the same period in which gains/ losses on the item hedged are recognised in the Statement of Profit or Loss. However when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognised in other comprehensive income and accumulated in effective portion of cash flow hedges are transferred from effective portion of cash flow hedges and included in the initial measurement of the cost of the nonfinancial asset or non-financial liability.

Profit or loss arising on cancellation or renewal of a forward exchange contract is recognised as income or as expense in the period in which such cancellation or renewal occurs. Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognized in the Statement of Profit and Loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on the hedging instrument classified in effective portion of cash flow hedges is retained there and is classified to Statement of Profit and Loss when the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in effective portion of cash flow hedges is transferred to the Statement of Profit and Loss for the period.

iii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The Company derecognises financial liabilities when, and only when, the Company's obligation are discharged, cancelled or have expired.

2.11 Employee Benefits:

a) Gratuity:

The Company accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method for the Company. Actuarial gains and losses are recognised in full in other comprehensive income and accumulated in equity in the period in which they occur.

b) Provident fund:

The eligible employees of the Company are entitled to receive the benefits of Provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary which are charged to the Statement of Profit and Loss on accrual basis. The provident fund contributions are paid to the Regional Provident Fund Commissioner by the Company. The Company has no further obligations for future provident fund and superannuation fund benefits other than its annual contributions.

c) Compensated absences:

The Company provides for the encashment of leave subject to Company's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is provided based on the number of days of unavailed leave at each Balance Sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method for the Company, whereas provision for encashment of unavailed leave on retirement is made on actual basis for foreign subsidiaries. The Company does not expect the difference on account of varying methods to be material.

The liability which is not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised based on actuarial valuation as at the Balance Sheet date.

Actuarial gains and losses are recognised in full in the Statement of Profit and Loss in the period in which they occur.

The Company also offers a short term benefit in the form of encashment of unavailed accumulated compensated absence above certain limit for all of its employees and same is being provided for in the books at actual cost.

d) Other short term employee benefits:

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for the services rendered by employees, are recognised during the period when the employee renders the service

2.12 Taxation:

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the respective countries.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

The Company recognises interest levied and penalties related to income tax assessments in income tax expenses.

2.13 Earnings per Share:

Basic earnings/ (loss) per share are calculated by dividing the net profit / (loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued if any, during the year and also after the Balance Sheet date but before the date the financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings / (loss) per share, the net profit / (loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless issued at a later date.

2.14 Provision, Contingent Liabilities and Contingent Assets:

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Contingent Assets are not recognized in the financial statements.

2.15. Critical judgements in applying accounting policies:

The following are the critical judgements, apart from those involving estimations, that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statement

Key sources of estimation uncertainty:

The following are the key assumptions concerning the future , and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year

Useful lives of property, plant and equipment:

The company reviews the estimated useful lives of property plant and equipment at the end of each reporting period. During the current year, there has been no change in life considered for the assets

Fair value measurements and valuation processes:

Some of the Company's assets and liabilities are measured at fair value for the financial reporting purposes.

In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. Where Level 1inputs are not available, the Company engages third party qualified valuers to perform the valuation . Finance team works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model. The Chief Executive Officer reports to the board of fluctuations in the fair value of the assets and liabilities.

Provision for doubtful receivables:

The Company has adopted Expected credit loss model for provisioning of receivables,apart from this the company also monitors long outstanding balances and make additional provision where required.

Provision for employee benefits:

The Company uses actuarial assumptions to determine the obligations for employee benefits at each reporting period. These assumptions include the discount rate, expected long-term rate of return on plan assets, rate of increase in compensation levels and mortality rates.

Provision for taxes:

Significant judgments are required in determining the provision for income taxes, including the amount expected to be paid/ recovered for uncertain tax positions.

3. Recent accounting pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

Ind AS 16 - Property Plant and equipment

The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its financial statements.

Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets

The amendment specifies that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.

	Total	**6,574.56**	6,841.82

10.2 Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. The Company recognises lifetime expected losses for trade receivables (other than receivables from related parties) that do not constitute a financing transaction. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. Before accepting any new customer, the Company assesses the potential customer's credit quality.

The Average credit period on Sale of Services 60 days .

27.1 Disputed income tax matters

Assessment upto AY 2008-09 has been completed and necessary adjustments have been made to reflect reversal of tax provision created for these years and the advance tax in the financial statements.

For AY 2009-10, the TPO/AO passed consequential orders giving the relief per the ITAT order. However, new issue which was not part of original proceedings, relating to addition of Commission as transfer price adjustment, has led to a new demand. The issue relating to TP adjustment of commission had been decided in favour of the Company in earlier years and hence, no provision for tax is made in respect of the demand raised.

For AY 2010-11 and 2011-12 the Hon'ble ITAT remanded case back to the Transfer Pricing Officer for fresh adjudication which resulted in additional demand. For AY 2010-11 the demand related to transfer pricing adjustment relating to revenue from ITES, which was decided in favour of the Company for AY 2009-10, The demand relating to all the AYs from AY 2009-10 to AY 2014-15 is disclosed as part of contingent liability. For the AY 2011-2012 the demand related to TP adjustment on interest on delayed trade receivables. The Company had filed appeal before Hon’ble CIT for all the AYs.

For AY 2015-16 to 2017-18, the matters relate to TP adjustment of ITES and Interest, disallowance of reimbursement of expenses to certain residents and non-residents for non-deduction of TDS. The first issue was decided in favour of the Company and the second issue is remanded back. The consequential orders were passed accordingly. The appeals filed by the Company are pending with CIT(A) for these assessment years.

27.2 Contingent Liability - Others

The Company was promoted as 50:50 Joint Venture by Satyam Computer Services Ltd ("Satyam") and Venture Global Engineering LLC US ("Venture"). The joint venture partners entered into a Shareholders' Agreement (SHA) dated October 20, 1999 that provided for a royalty payment from the Company to both the joint venture partners in terms of a separate Royalty Agreement to be entered into between the Company and the joint venture partners. The Royalty Agreement was not entered into between the Company and the joint venture partners as envisaged in the SHA.

The Company and joint venture partners entered into separate Sales Commission Agreements that provided for payment of sales commission to the joint venture partners as per terms and conditions contained in the said agreements. In line with the provisions contained therein, the Company has been accruing and paying commission to its joint venture partners up to the year 2005-06.

During the year 2005-06, Satyam commenced arbitration proceedings against Venture in the London Court of International Arbitration ("LCIA") by invoking the arbitration clause in the SHA. Satyam's claims were upheld by the LCIA in its award dated April 2006 ("the Award"). Since then both the joint venture partners have raised numerous claims against each other resulting in multiple legal proceedings both in India and the USA that are still ongoing.

On January 7, 2009, the then Chairman of Satyam vide his letter addressed to then existing Board of Directors of Satyam, the stock exchanges and SEBI admitted to several financial irregularities in Satyam. Consequent to a global bidding process to take over the management of Satyam, M/s Venturbay Consultants Private Limited (the successful bidder) took over the management of Satyam.

Notwithstanding the dispute, the Company under its erstwhile management, continued to accrue the sales commission in its books. The newly reconstituted Board approved the accounts of the Company for the years 2008-09, 2009-10 and 2010-11, with continued accrual of sales commission. This was based on a view taken by the newly constituted Board that the matter is sub-judice that was corroborated by legal opinion and continued as prudent measure.

During the meetings held in 2011-12, the Board discussed the need to accrue the sales commission, as Venture did not render any services to the Company either during the year or during the past many years since the dispute. Further, in so far as the Company was concerned, Venture had not, till that point of time, claimed any amounts towards sales commission. The Board also took note of the fact (based on an updated legal opinion) that the issue of sales commission is not a disputed matter before the Courts either in India or in USA and not sub judice, as per original view.

Under the circumstances, the Board took the view on May 14, 2012 when the financial statements for the year ended March 31, 2012 was tabled for approval, that the accrual of sales commission from FY 05-06 to FY 10-11 of Rs.3,594.07 Lakhs be written back as other income in the Statement of Profit and Loss and the sales commission for the period from April 2011- December 2011 be reversed. However, as a prudent measure, the Board directed that the Company provide an amount of Rs.5,291.41 Lakhs as a provision for contingency, covering the period from FY 05-06 to FY 11-12 which in its opinion would be adequate to cover any possible outflow that may arise in respect of the aforesaid matter and adjustments to the financial statements if any, to be made on final disposal of legal proceedings.

Subsequent to the adoption of accounts by the Board, the Company was served a suit filed by Venture before the City Civil Court, Secunderabad inter alia seeking a direction to the Company to pay sales commission that it was entitled to under the Shareholders Agreement. In the said suit, two ex-parte orders were passed by the City Civil Court , directing the Company, Venture and Satyam to maintain status quo with regard to transfer of 50% shares of Venture and with regard to taking major decisions which are prejudicial to interest of Venture . The Company has challenged the ex-parte orders of the City Civil Court Secunderabad, before the Hon'ble High Court of Andhra Pradesh ("the High Court").

In a related development, the City Civil Court, Hyderabad set aside the Award in January 2012, against which Satyam has filed an appeal before the High Court.

The High Court by its Judgement dated August 23, 2013 has allowed the appeals filed by the Company and set aside the ex-parte interim orders against the Company. The High Court has also set aside the Order of the City Civil Court, Hyderabad setting aside the Award and upheld the Award in favour of Satyam. The High Court as an interim measure ordered status quo with regard to transfer of shares, originally given by Supreme Court to be maintained for four (4) weeks which was extended for a further period of 3 weeks by High Court on 19th September, 2013

Venture filed an SLP before the Supreme Court of India which was heard by the Apex Court on 21st October, 2013 and Supreme Court as an interim measure ordered status quo with regard to transfer of shares. TechM has filed a Special leave Petition before the Supreme Court of India challenging the judgement of the High Court only on the limited issue as to whether the Civil Court has jurisdiction to entertain VGE’s challenge to the Award. The Hon’ble Bench of Supreme Court, in view of the difference of opinion by an order dated November 1, 2017 has directed the registry to place the SLP’s before the Chief Justice of India for appropriate further course of action.

The Company has not modified the provision for contingencies amounting to Rs.5,291.41 Lakhs as on 31 March 2012. The Company has also disclosed an amount of Rs.28,253.9 Lakhs [31 March 2021: Rs.24,974.00 Lakhs] as contingent liability, to cover any possible charge that may arise in respect of the above said matter, in the financial statements for the year ended 31 March 2022 by way of abundant caution notwithstanding the Board's view that there is no need to accrue sales commission since Venture did not provide any services to the Company.

28. Preparation of financial statements:

At the Annual General Meetings of the Company, one of the shareholders abstained from voting on the resolution for adoption of audited financial statements as at and for the years ended 31 March 2012 to 2021. In terms of Article 66 of the Articles of Association of the Company, the adoption of audited financial statements requires unanimous consent of both the shareholders of the Company. Therefore, the said financials have not been approved by the shareholders. The financial statements as at and for the year ended 31 March 2022 have been drawn up incorporating the opening balances based on above said financial statements which have not been adopted by the Shareholders. Adjustments required, if any, will be made in accounts as and when determined.

29. Pursuant to the order from Ministry of Corporate Affairs, Serious Fraud Investigation Office (SFIO) vide its letter dated January 9, 2009 carried out inspection of books of accounts and other records of the Company under Section 209A of the Act. Consequent to inspection, SFIO has filed a complaint in Economic Offences Court, Hyderabad (“the trial court”) against the Company and the then directors. The Company has filed a writ petition in the Hon’ble High court of judicature at Hyderabad to quash the complaint of SFIO. The Hon’ble High Court has directed the trial court not to insist the appearance of directors for examination.

The Management at this juncture, does not foresee adjustments, if any, to be made in the financial statements of the Company.

30. Employee benefit plans

30.1 Defined Contribution Plan

The Company makes contributions to Provident and other Fund which is a defined contribution plans for qualifying employees. Under these Scheme, the Company contributes a specified percentage of the payroll costs to the respective funds. The Company has recognized Rs.409.07 Lakhs [31 March 2021 : Rs.486.49 Lakhs] as an expense in the Statement of Profit and Loss.

30.2 Defined Benefit Plan

The gratuity scheme is a final salary Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The plan design means the risks commonly affecting the liabilities and the financial results are expected to:

a) **Interest rate risk :** the defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

b) **Salary inflation risk :** Higher than expected increases in salary will increase the defined benefit obligation

c) **Demographic risk :** For example, as plan is open to new entrants, an increase in membership will increase the defined benefit obligation. Also, the plan only provides benefits upon completion of a vesting criteria. Therefore, if turnover rates increase, then the liability will tend to fall as fewer employees reach vesting period.

I The Principal Assumptions used for the purposes of the actuarial valuation as follows

	Details	**31/Mar/2022**	**31/Mar/2021**
1	Discount Rate(s)	**6.20%**	6.30%
2	Expected Rate(s) of salary increase	**5% for first year, 10% there after**	4% for first year, 9% there after
3	Demographic Assumptions		
	Mortality Rate	**Indian Assured lives Mortality (2006-08) Ult.**	Indian Assured lives Mortality (2006-08) Ult.
	Withdrawal Rate Age: 21-44		
	Withdrawal Rate Age: 45-57		
	For Offshore Employees:		
	Withdrawal Rate Service: 0-10	**15.00%**	10.00%
	Withdrawal Rate Service: >10	**10.00%**	15.00%
	Onsite Employees:	**10.00%**	10.00%

II Disclosure of defined benefit cost :

	Details	**Year ended 31 March 2022**	**Year ended 31 March 2021**
A	**Amounts Recognised in statement of Profit & Loss**		
1	Current Service Cost	**186.31**	253.50
2	Past service cost - plan amendments	**11.55**	-
3	Curtailment cost / (credit)	**-**	-
4	Settlement cost / (credit)	**-**	-
5	Service Cost	**197.86**	253.50
6	Net interest on net defined benefit liability / (asset)	**76.38**	90.69
7	Immediate recognition of (gains)/losses - other long term employee benefit plans	**-**	-
8	Cost of Termination Benefits	**-**	-
9	Cost recognised in P&L	**274.23**	344.19
B	**Amounts Recognised in Other Comprehensive Income (OCI)**		
1	Actuarial (gain)loss due to DBO experience	**(40.73)**	(42.88)
2	Actuarial (gain)loss due to DBO assumption changes	**(101.57)**	(266.47)
3	Actuarial (gain)loss arising during the period	**(142.31)**	(309.35)
4	Return on plan assets (Greater)/Less than discount rate	**-**	-
5	Actuarial (gains)/losses recognised in OCI	**(142.31)**	(309.35)
6	Adjustment for limit on net asset	**-**	-
7	Cumulative Actuarial (Gain)/ Loss Recognised via OCI at Prior Period End	**-**	-
8	Cumulative Actuarial (Gain)/ Loss Recognized via OCI at Current Period End	**(142.31)**	(309.35)
C	**Defined benefit cost**		
1	Service Cost	**197.86**	253.50
2	Net interest on net defined benefit liability / (asset)	**76.38**	90.69
3	Actuarial (gains)/losses recognised in OCI	**(142.31)**	(309.35)
4	Immediate recognition or (gains)/losses - other long term employee benefit plans	**-**	-
5	Defined Benefit Cost	**131.93**	34.84

III Changes in benefit obligation and assets

	Details	Year ended 31 March 2022	Year ended 31 March 2021
A.	**Changes in defined benefit obligation:**		
1	Defined benefit obligation(DBO) at the end of prior period	**1,300.00**	1,325.92
2	Current service cost	**186.31**	253.50
3	Interest cost on the DBO	**76.38**	90.69
4	Curtailment (credit)/ cost	**-**	-
5	Settlement (credit)/ cost	**-**	-
6	Past service cost - plan amendments	**11.55**	-
7	Acquisitions (credit)/ cost	**-**	-
8	Actuarial (gain)/loss - experience	**(40.73)**	(42.88)
9	Actuarial (gain)/loss - demographic assumptions	**-**	(269.19)
10	Actuarial (gain)/loss - financial assumptions	**(101.57)**	2.72
11	Benefits paid directly by the Company	**(175.33)**	(60.76)
12	Benefits paid from plan assets	**-**	-
13	DBO at end of current period	**1,256.60**	1,300.00
B.	**Changes in fair value of assets:**		
1	Fair value of assets at end of prior period	**-**	-
2	Acquisition adjustment	**-**	-
3	Interest income on plan assets	**-**	-
4	Employer contributions	**-**	-
5	Return on plan assets greater/(lesser) than discount rate	**-**	-
6	Benefits paid	**-**	-
7	Fair Value of assets at the end of current period	**-**	-

IV Additional Disclosures

		31 March 2022	31 March 2021
A.	**Expected benefit payments for the period ending**		
	2023 (PY 2022)	220.54	151.14
	2024 (PY 2023)	213.22	142.69
	2025 (PY 2024)	219.48	150.63
	2026 (PY 2025)	219.53	178.97
	2027 (PY 2026)	223.71	206.94
	2028 TO 2032 (PY 2027 to 2031)	991.70	1,056.82
B.	**Current and Non current breakup**		
	Current liability	214.01	146.60
	Non current liability	1,042.59	1,153.41
	Total Liability	**1,256.60**	**1,300.00**

V Sensitivity Analysis

	Details	As at 31 March 2022	As at 31 March 2021
A	**Discount rate**		
	Discount rate as at period end	6.20%	6.30%
	Effect on DBO due to 0.5% increase in discount rate	(29.39)	(47.00)
	Effect on DBO due to 0.5% decrease in discount rate	30.85	50.33

	Details	As at 31 March 2022	As at 31 March 2021
B	**Salary escalation rate**		
	Salary escalation rate as at period end	**5% for first year, 10% Thereafter**	4% for first year, 9% Thereafter
	Effect on DBO due to 0.5% increase in salary escalation rate	**30.61**	50.34
	Effect on DBO due to 0.5% decrease in salary escalation rate	**(29.58)**	(47.60)
C	**Withdrawal Rate**		
	Withdrawal rate as at year end		
	Withdrawal rate as at year end		
	For Offshore Employees:	**20.00%**	
	Withdrawal Rate Service: 0-10		10.00%
	Withdrawal Rate Service: >10		15.00%
	Onsite Employees:	**15.00%**	10.00%
	Effect on DBO due to 5% increase in withdrawal rate	**(50.83)**	(76.81)
	Effect on DBO due to 5% decrease in withdrawal rate	**77.89**	133.11

Method used for sensitivity analysis: The sensitivity results above determine their individual impact on the Plan's end of year Defined Benefit Obligation. In reality, the Plan is subject to multiple external experience items which may move the Defined Benefit Obligation in similar or opposite directions, while the Plan's sensitivity to such changes can vary over time.

33. Segment Information

33.1 Based on the assessment of the chief operating decision maker ('CODM'), for the purpose of resource allocation and assessment of segment performance, the Company has only one business segment viz, engineering services.

33.2 Geographical information

The Company operates in seven principal geographical areas - India (country of domicile), United States of America (USA), Europe, Canada, Australia, South Africa and Asia Pacific comprising of China, Japan, Mexico and Singapore

The Company's revenue and Non-Current Assets from continuing operations from customers by location of operations are detailed below:

	Revenue		Non-Current Assets	
	Year ended 31 March 2022	Year ended 31 March 2021	As at 31 March 2022	As at 31 March 2021
India	**12,338.36**	12,769.02	**12,015.15**	9,004.45
USA	**13,245.35**	12,075.32	**10.17**	293.24
Europe	**3,446.02**	2,657.85	**103.25**	118.94
Asia Pacific	**4,028.06**	5,488.92	**13.06**	966.25
Other	**845.53**	716.26	**1.15**	2.04

33.3 Information about major customers

Revenue arising from sales of Automotive Engineering Services consits of about 60 customers base and out of them 10 customers contribute 80% of revenue.

34 Financial Instruments

Capital Management

Equity share capital and other equity are considered for the purpose of Company’s capital management. The Company manages its capital so as to safeguard its ability to continue as a going concern. The capital structure of the Company is based on management’s judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investor, creditors and market confidence. The Company may take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

Financial Risk Management

The Company’s activities are exposed to liquidity and market risks. The Company’s senior management has the overall responsibility for establishing and governing the company’s risk management frame work. The Company has constituted a Risk Management Committee, which is responsible for developing and monitoring the Company’s risk management policies. The Company’s risk management policies are established to identify and analyse the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the board annually.

Financial Instruments by category

The carrying value and fair value of financial instruments by categories as of 31 March 2022 is as follows:

Other financial liabilities	-	-	0.42	6.58	7.00	7.00
Total	**-**	**-**	**0.42**	**553.12**	**553.54**	**553.54**

The fair value of cash and cash equivalents, other balances with bank, trade receivables, unbilled revenues, trade payables, and certain other financial assets and liabilities approximate their carrying amount largely due to the short term nature of these instruments

Fair value hierarchy

The following table summarises financial asses and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosures are required):

The different levels have been defined as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within level -1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Particulars	As at 31 March 2022			As at 31 March 2021		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial assets						
Mutual fund investments	10,838.06	-	-	9,528.62	-	-
Equity shares	-	-	943.67	-	-	943.67
Derivative financial assets	-	77.60	-	-	10.66	-
Total	**10,838.06**	**77.60**	**943.67**	**9,528.62**	**10.66**	**943.67**
Financial Liabilities						
Derivative financial liabilities	-	0.08	-	-	0.42	-
Total	**-**	**0.08**	**-**	**-**	**0.42**	**-**

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

The Company has several balances in foreign currency and consequently the company is exposed to foreign exchange risk. The exchange rate between the rupee and foreign currencies has changed substantially in recent years, which has affect on the results of the Company, and may fluctuate substantially in the future. The Company evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities based on gross exposure and the unhedged foreign currency exposures outstanding at the end of reporting period is as under:

Currency	Assets		Liabilities	
	As at 31 March 2022	As at 31 March 2021	As at 31 March 2022	As at 31 March 2021
USD	4,402.81	3,725.82	559.02	574.00
JPY	1,044.95	1,130.25	132.88	251.81
Euro	1,149.41	782.44	131.90	45.09
CNY	59.77	99.45	-	-
GBP	235.68	146.64	9.04	12.60
Others	572.06	312.58	156.53	41.59

Forward Exchange Contracts

The Company enters into foreign exchange forward contracts to offset the foreign currency risk arising from the amounts denominated in currencies other than the Indian Rupee. The counter party to the Company's foreign currency Forward Contracts is generally a bank. These contracts are entered into to hedge the foreign currency risks of certain forecasted transactions. Forward exchange contracts in USD exposure are USD to INR and for EUR exposure are EUR to INR. These contracts are for a period of two years

The following are the various outstanding foreign currency to Indian currency forward contracts (Sell) entered into be the company which has been designated as cash flow hedges:

	Currency	Amount outstanding in Foreign currency		Fair Value Gain / (Loss)	
		As at 31 March 2022	As at 31 March 2021	As at 31 March 2022	As at 31 March 2021
Type of cover					
Forward	USD to INR	10.04	1.60	10.20	0.20
	EUR to INR	10.85	3.79	57.09	10.03

The movement in hedging reserve for derivatives designated as Cash Flow Hedges is as follows:

Particulars	As at 31 March 2022	As at 31 March 2021
Credit / (Debit) balance at the beginning of the year	7.66	-
Gain / (loss) net transferred to income statement on occurrence of forecasted hedge transaction	-	-
Changes in fair value of effective portion of cash flow derivative occurred during the year	-	-
Changes in fair value of effective portion of outstanding cash flow derivative	67.29	10.24
Tax impact on effective portion of outstanding cash flow derivative	(16.94)	(2.58)
Credit/(Debit) balance at the end of the year	58.01	7.66

Credit Risk Management

Credit Risk refers to the risk for a counter party default on its contractual obligation resulting a financial loss to the Group. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risk. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. The maximum exposure of the financial assets represents trade receivables

Credit risk on trade receivables is limited as the customers of the Company mainly consists of the entities having a strong credit worthiness. For doubtful receivables the Company uses a provision matrix to compute the expected credit loss allowances for trade receivables. The provision matrix takes into account ageing of accounts receivables and the company's historical experience of the customers and financial conditions of the customers.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily are investment in liquid mutual fund units issued by institutions with high credit ratings.

Liquidity Risk Management

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below provides details regarding the contractual maturities of financial liabilities including estimated interest payments.

	As at 31 March 2022		As at 31 March 2021	
	Accounts payable and acceptances	Other financial liabilities	Accounts payable and acceptances	Other financial liabilities
Carrying amount	608.46	667.26	546.54	410.38
upto 1 year	608.46	667.18	546.38	410.38
More than 1 year	-	0.08	0.16	-
Total contracted cash flows	608.46	667.26	546.54	410.38

The table below provides details of financial assets:

	As at 31 March 2022	As at 31 March 2021
Trade receivables	6,574.56	6,841.82
Other financial assets	7,440.52	5,135.68

35. Leases

The lease arrangements for the Company are in respect of the office premises, the Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases of Rs.426.81 Lakhs [31 March 2021 : Rs.356.9 Lakhs] are recognized as an expense on a straight-line basis over the lease term. .

36. Assessment of impact of Novel Corona Virus Disease (COVID 19)

As at the date of these Financial Statements, COVID 19 had spread across most of the world including India, China, Japan, Germany, UK, Mexico and the United States of America where the company has its operations. In assessing the recoverability of receivables including unbilled receivables, financial assets and contract costs and certain investments, the Company has considered internal and external information up to the date of approval of these financial statements. Considering the nature of these assets, while some delays are expected in the collection, the Company expects to recover the carrying amount of these assets. Debtors realisation is good during the period, Apr-21 to March-22. The impact of COVID 19 may be different from that estimated by the Company and the Company will continue to closely monitor any material changes in future economic conditions. Considering the Company's present liquidity position and its customer / vendor relationships, the management of the Company is of the opinion that it would be able to discharge its obligations. However, the Company expects that revenues for FY23 may be impacted.

37. Earning per share

The earnings and weighted average number of equity shares used in the calculation of basic earnings per share are as follow.

	Year ended 31 March 2022	Year ended 31 March 2021
Profit for the year attributable to owners of the Company	4,048.90	3,758.40
Earnings used in the calculation of basic earnings per share	4,048.90	3,758.40
Weighted average number of equity shares outstanding during the year	7,088,960	7,088,960
Face Value of Equity Shares - Rs.	10	10
Basic and Diluted Earnings per Share *	57.12	53.02

* The Company has no potential dilutive instruments

38. Ratios

S. No.	Ratio	Numerator	Denominator	31 March 2022	31 March 2021	% Variance
a)	Current ratio	Current Assets	Current Liabilities	3.71	3.80	-3%
b)	Debt equity ratio *	-	-	-	-	-
c)	Debt service coverage ratio *	-	-	-	-	-
d)	Return on equity	Net Profits after taxes	Average Shareholder's Equity	5.72	5.30	8%

INDEPENDENT AUDITOR'S REPORT

To the Members of
Satyam Venture Engineering Services Private Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Satyam Venture Engineering Services Private Limited ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31 March 2022, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement, for the year then ended, and notes to the consolidated financial statements, including a summary of the significant accounting policies (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2022, the consolidated profit, the consolidated total comprehensive income, the consolidated changes in equity and its consolidated cash flows and for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the "Code of Ethics" issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with the these requirements and the ICAI's Code of Ethics.. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to the following notes in the consolidated financial statements:

a) Note 27.2 regarding reckoning of Rs.28,253.90 Lakhs as contingent liability, towards any possible charge that may arise in respect of ongoing dispute between the promoters, for the period from 01 April 2012 to 31 March 2022 based on legal advice and for reasons stated in the said note notwithstanding the status of litigation between the promoters on various issues relating to the Shareholders Agreement, the outcome of which is not determinable at this stage; and

b) Note 28 regarding drawing up of accounts for the year incorporating opening balances based on the financial statements of earlier years which have not been adopted by the shareholders.

Our opinion is not modified in respect of these matters.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Directors Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in the terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding the assets of the group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

We did not audit the financial statements of two subsidiaries whose financial statements reflect total assets of Rs.1,562.40 Lakhs and net assets of Rs.1,399.13 Lakhs as at 31 March 2022, total revenues of Rs.1,935.37 Lakhs and net cash inflows amounting to Rs.110.09 Lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, insofar as it relates the aforesaid subsidiaries is based solely on the reports of the other auditors.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by Section143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:

   (a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;

   (b) in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;

   (c) the Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;

   (d) in our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with the rules issued thereunder;

   (e) the matter relating to contingent liability described in paragraph (a) under the Emphasis of Matters above, in our opinion, may have an adverse effect on the functioning of the Group;

   (f) on the basis of written representations received from the directors of the Holding Company as on 31 March 2022, and taken on record by the Board of Directors of the Holding Company, none of the directors of the Group companies incorporated in India is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164 (2) of the Act;

   (g) with respect to the adequacy of the internal financial controls over financial reporting of the Holding Company and the operating effectiveness of such controls, refer to our separate report in 'Annexure A'; and

   (h) with respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

   In our opinion and to the best of our information and according to the explanations given to us, the provisions of Section 197 of the Act and the rules thereunder are not applicable to the Company.

   (i) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements and the other financial information of subsidiaries, as noted in the 'Other matter' paragraph:

i. the consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group - Refer note 29 to the consolidated financial statements;

ii. The Company does not have any material foreseeable losses relating to long term contracts including derivate contracts as on 31 March 2022. No provision is made in respect of the contingent liability described under note 27.2 since the matters involving these litigations are sub-judice at present, the impact of these pending litigations on its financial position could not be stated in the Consolidated Financial Statements.; and

iii. there are no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2022.

iv. (a) the respective managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statemetns have been audited under the Act, have represented that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) the respective management of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on such audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Company and its subsidiairies which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material mis-statement.

v. The Company has not declared or paid any dividend during the year.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Satyam Venture Engineering Services Private Limited)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2022, we have audited the internal financial controls over financial reporting of Satyam Venture Engineering Services Private Limited ("the Holding Company"). The subsidiary companies are companies incorporated outside India.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Holding Company, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and according to the information and explanation given to us, the Holding Company has to strengthen the internal financial controls over financial reporting relating to leave management including recording and timely updation of the employee leave records considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. However, considering the size of the Company and nature of its operations during the year, in our opinion, the internal financial controls over financial reporting followed were operating effectively as at 31 March 2022.for

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

All amounts are Rupees in lakhs unless otherwise stated

1. Corporate Information

Satyam Venture Engineering Services Private Limited ("the Company") was incorporated in March 2000 as a 50:50 joint venture between erstwhile Satyam Computer Services Limited (SCSL) and Venture Global Engineering LLC. SCSL was merged with Tech Mahindra Limited in the year 2013,consequent to a scheme of amalgamation and arrangement as approved by the Hon'ble High Court of Judicature Andhra Pradesh and Hon'ble High Court of Bombay.

The Company provides engineering services such as product design, tool design and computer aided engineering simulation services to automotive industry across the globe, through its Indian operations and through its foreign branches in USA, Germany, Canada, United Kingdom,Japan and Mexico.

The Consolidated financial statements reflect the results of its operations carried on by Indian operations, overseas branches and its subsidiaries incorporated in China and Germany, collectively referred to as the "Group".

The financial statements for the period ended 31 March 2022 were approved by the Board of Directors and authorised to issue on 19 April 2022.

2. Significant accounting policies:

2.1 Statement of Compliance:

The consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and amendments issued thereafter.

2.2 Basis for preparation of financial statements:

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India on accrual basis under the historical cost convention, except for certain financial instruments which are measured at fair value. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purpose in these consolidated financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Basis of Consolidation:

The Company consolidates all entities which are controlled by it.

The Company establishes control when; it has power over the entity, is exposed or has rights to variable returns from its involvement with the entity and has ability to affect the entity's returns by using its power over the entity.

Subsidiaries are consolidated from the date control commences until the date control ceases.

The results of subsidiaries acquired, or sold, during the year are consolidated from the effective date of acquisition and up to the effective date of disposal, as appropriate.

All inter-company transactions, balances and income and expenses are eliminated in full on consolidation.

Changes in the Company's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the Company's interests and the non-controlling interests are adjusted to reflect changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Company.

2.4 Use of Estimates:

The preparation of financial statements requires the management of the Group to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the financial statements

2.5 Property, Plant & Equipment and Other Intangible assets:

Property, Plant & Equipment and Other intangible assets are stated at actual cost less accumulated depreciation/ amorisation and net of impairment. The actual cost capitalised includes material cost, freight, installation cost, duties and taxes, eligible borrowing costs and other incidental expenses incurred during the construction / installation stage.

Depreciation / amortization of Property, Plant & Equipment and Other Intangible assets:

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation / amortisation on Property, Plant & Equipment and other intangible assets including assets taken on lease, other than freehold land is charged based on straight line method on an estimated useful life as assessed based on technical advice, considering the nature of the asset, estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Plant and Machinery (including Computers)	3 years
Office Equipment	3 years
Furniture, Fixtures and Interiors	3 years
Vehicles	3 years
Intangible Assets – Software	License period or 3 years whichever is lower

The estimated useful lives and residual values of the tangible and intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

2.6 Leases:

The Group evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116.

The Group as a lessee :

The Parent and its subsidiaries assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract involves:

(a) the use of an identified asset,

(b) the right to obtain substantially all the economic benefits from use of the identified asset, and

(c) the right to direct the use of the identified asset.

The Group at the inception of the lease contract recognizes a Right-of-Use (RoU) asset at cost and corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets.

The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. Subsequently, the right- of-use assets is measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

The Group applies Ind AS 36 to determine whether a RoU asset is impaired and accounts for any identified impairment loss as described in the impairment of non-financial assets.

For lease liabilities at inception, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate.

The Group recognizes the amount of the re-measurement of lease liability as an adjustment to the right-of-use assets. Where the carrying amount of the right-of-use assets is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognizes any remaining amount of the re-measurement in statement of profit and loss.

For short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

2.7 Impairment of Assets:

i) Financial assets

Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Impairment loss on financial assets carried at amortised cost is measured at the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. In a subsequent period, if the amount of impairment loss decreases and the decreases can be related objectively to an event, the previously recognised impairment is reversed through profit or loss.

ii) Non-financial assets

Property, Plant & Equipment and Other Intangible assets

Property, Plant and Equipment and Other intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the profit or loss

2.8 Revenue recognition:

Revenue is recognized upon transfer of control of promised services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for services are either on a time bound fixed price or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

In arrangements for engineering services with customers, the company has applied the guidance in Ind AS 115, Revenue from contract with customer, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering engineering services and other related services as distinct performance obligations. For allocating the transaction price, the company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the company is unable to determine the standalone selling price, the company uses the expected cost plus margin approach in estimating the standalone selling price.

For time and material related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

The company accounts for volume discounts and pricing incentives, if any, to customers as a reduction of revenue based on the rateable allocation of the discounts/ incentives amount to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

Deferred contract costs are incremental costs of obtaining a contract which are recognized as assets and amortized over the term of the contract.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

The Company presents revenues net of indirect taxes in its statement of Profit and loss.

The company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognized as related service are performed. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time .

Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts is classified as non financial asset as the contractual right to consideration is dependent on completion of contractual milestones

Invoicing in excess of earnings are classified as unearned revenue

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

2.9 Foreign currency transactions:

The functional currency of the Company and its Indian subsidiaries is Indian Rupees (INR) whereas the functional currency of foreign subsidiaries is the currency of their countries of domicile.

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the date of the Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are included in the profit or loss.

2.10 Foreign Operations:

For the purpose of these consolidated financial statements, the assets and liabilities of the Group’s foreign operations are translated using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising on translation are recognised in other comprehensive income and accumulated in equity.

2.11 Financial Instruments

Financial assets and liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

i) Non-derivative financial instruments

Cash and cash equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortised cost is carried at fair value through profit or loss (FVTPL) on initial recognition, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income.

The Group, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in other comprehensive income subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss

Financial liabilities

Financial liabilities at fair value through profit and loss are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derivative financial instruments and hedge accounting

The Company uses foreign currency forward contracts / options to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. The Company designates some of these forward contracts / options as hedge instruments and account for as cash flow hedges applying the recognition and measurement principles set out in the Ind AS 109.

The use of foreign currency forward contracts / options is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Company's risk management strategy. The counter party to the Company's foreign currency forward contracts is generally a bank. The Company does not use derivative financial instruments for speculative purposes.

Foreign currency forward contract/ option derivative instruments are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised in other comprehensive income and accumulated under effective portion of cash flow hedges and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Amounts previously recognised in other comprehensive income and accumulated in effective portion of cash flow hedges are reclassified to the Statement of Profit or Loss in the same period in which gains/ losses on the item hedged are recognised in the Statement of Profit or Loss. However when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognised in other comprehensive income and accumulated in effective portion of cash flow hedges are transferred from effective portion of cash flow hedges and included in the initial measurement of the cost of the nonfinancial asset or non-financial liability.

Profit or loss arising on cancellation or renewal of a forward exchange contract is recognised as income or as expense in the period in which such cancellation or renewal occurs. Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognized in the Statement of Profit and Loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on the hedging instrument classified in effective portion of cash flow hedges is retained there and is classified to Statement of Profit and Loss when the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in effective portion of cash flow hedges is transferred to the Statement of Profit and Loss for the period.

iii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The Company derecognises financial liabilities when, and only when, the Company's obligation are discharged,cancelled or have expired.

2.12 Employee Benefits:

a) Gratuity:

The Group accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method for the Company and its Indian subsidiaries.

Actuarial gains and losses are recognised in full in other comprehensive income and accumulated in equity in the period in which they occur.

b) Provident fund:

The eligible employees of the Company and its Indian subsidiaries are entitled to receive the benefits of Provident fund, a defined contribution plan, in which both employees and the Company and its Indian subsidiaries make monthly contributions at a specified percentage of the covered employees' salary which are charged to the Statement of Profit and Loss on accrual basis. The provident fund contributions are paid to the Regional Provident Fund Commissioner by the Company and its Indian subsidiaries.

The Company and its Indian subsidiaries has no further obligations for future provident fund and superannuation fund benefits other than its annual contributions.

c) Compensated absences:

The Group provides for the encashment of leave subject to Group's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is provided based on the number of days of unavailed leave at each Balance Sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method for the Company and its Indian subsidiaries, whereas provision for encashment of unavailed leave on retirement is made on actual basis for foreign subsidiaries. The Company does not expect the difference on account of varying methods to be material.

The liability which is not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised based on actuarial valuation as at the Balance Sheet date.

Actuarial gains and losses are recognised in full in the Statement of Profit and Loss in the period in which they occur.

The Group also offers a short term benefit in the form of encashment of unavailed accumulated compensated absence above certain limit for all of its employees and same is being provided for in the books at actual cost.

d) Other short term employee benefits:

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for the services rendered by employees, are recognised during the period when the employee renders the service.

2.13 Taxation:

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the respective countries.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

The Group recognises interest levied and penalties related to income tax assessments in income tax expenses.

2.14 Earnings per Share:

Basic earnings/ (loss) per share are calculated by dividing the net profit / (loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued if any, during the year and also after the Balance Sheet date but before the date the financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings / (loss) per share, the net profit / (loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless issued at a later date.

2.15 Provision, Contingent Liabilities and Contingent Assets:

A provision is recognized when the Group has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Contingent Assets are not recognized in the financial statements.

2.16 Critical judgements in applying accounting policies:

The following are the critical judgements, apart from those involving estimations, that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statement.

Key sources of estimation uncertainty:

The following are the key assumptions concerning the future , and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year

Useful lives of property, plant and equipment:

The company reviews the estimated useful lives of property plant and equipment at the end of each reporting period. During the current year, there has been no change in life considered for the assets.

Fair value measurements and valuation processes:

Some of the Company's assets and liabilities are measured at fair value for the financial reporting purposes.

In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. Where Level 1inputs are not available, the Company engages third party qualified valuers to perform the valuation . Finance team works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model. The Chief Executive Officer reports to the board of fluctuations in the fair value of the assets and liabilities.

Provision for doubtful receivables:

The Company has adopted expected credit loss model for provisioning of receivables,apart from this the company also monitors long outstanding balances and make additional provision where required.

Provision for employee benefits:

The Company uses actuarial assumptions to determine the obligations for employee benefits at each reporting period. These assumptions include the discount rate, expected long-term rate of return on plan assets, rate of increase in compensation levels and mortality rates.

Provision for taxes:

Significant judgments are required in determining the provision for income taxes, including the amount expected to be paid/ recovered for uncertain tax positions.

3. Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

Ind AS 16 - Property Plant and equipment

The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its financial statements.

Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets

The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.

Total	**6,673.73**	**7,113.41**

10.2 Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. The Company recognises lifetime expected losses for trade receivables (other than receivables from related parties) that do not constitute a financing transaction. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. Before accepting any new customer, the Company assesses the potential customer's credit quality.

The Average credit period on Sale of Services 60 days .

27.1 Disputed income tax matters

Assessment upto AY 2008-09 has been completed and necessary adjustments have been made to reflect reversal of tax provision created for these years and the advance tax in the financial statements.

For AY 2009-10, the TPO/AO passed consequential orders giving the relief per the ITAT order. However, new issue which was not part of original proceedings, relating to addition of Commission as transfer price adjustment, has led to a new demand. The issue relating to TP adjustment of commission had been decided in favour of the Company in earlier years and hence, no provision for tax is made in respect of the demand raised.

For AY 2010-11 and 2011-12 the Hon'ble ITAT remanded case back to the Transfer Pricing Officer for fresh adjudication which resulted in additional demand. For AY 2010-11 the demand related to transfer pricing adjustment relating to revenue from ITES, which was decided in favour of the Company for AY 2009-10, The demand relating to all the AYs from AY 2009-10 to AY 2014-15 is disclosed as part of contingent liability. For the AY 2011-2012 the demand related to TP adjustment on interest on delayed trade receivables. The Company had filed appeal before Hon’ble CIT for all the AYs.

For AY 2015-16 to 2017-18, the matters relate to TP adjustment of ITES and Interest, disallowance of reimbursement of expenses to certain residents and non-residents for non-deduction of TDS. The first issue was decided in favour of the Company and the second issue is remanded back. The consequential orders were passed accordingly. The appeals filed by the Company are pending with CIT(A) for these assessment years.

27.2 Contingent Liability - Others

The Company was promoted as 50:50 Joint Venture by Satyam Computer Services Ltd ("Satyam") and Venture Global Engineering LLC US ("Venture"). The joint venture partners entered into a Shareholders' Agreement (SHA) dated October 20, 1999 that provided for a royalty payment from the Company to both the joint venture partners in terms of a separate Royalty Agreement to be entered into between the Company and the joint venture partners. The Royalty Agreement was not entered into between the Company and the joint venture partners as envisaged in the SHA.

The Company and joint venture partners entered into separate Sales Commission Agreements that provided for payment of sales commission to the joint venture partners as per terms and conditions contained in the said agreements. In line with the provisions contained therein, the Company has been accruing and paying commission to its joint venture partners up to the year 2005-06.

During the year 2005-06, Satyam commenced arbitration proceedings against Venture in the London Court of International Arbitration ("LCIA") by invoking the arbitration clause in the SHA. Satyam's claims were upheld by the LCIA in its award dated April 2006 ("the Award"). Since then both the joint venture partners have raised numerous claims against each other resulting in multiple legal proceedings both in India and the USA that are still ongoing.

On January 7, 2009, the then Chairman of Satyam vide his letter addressed to then existing Board of Directors of Satyam, the stock exchanges and SEBI admitted to several financial irregularities in Satyam. Consequent to a global bidding process to take over the management of Satyam, M/s Venturbay Consultants Private Limited (the successful bidder) took over the management of Satyam.

Notwithstanding the dispute, the Company under its erstwhile management, continued to accrue the sales commission in its books. The newly reconstituted Board approved the accounts of the Company for the years 2008-09, 2009-10 and 2010-11, with continued accrual of sales commission. This was based on a view taken by the newly constituted Board that the matter is sub-judice that was corroborated by legal opinion and continued as prudent measure.

During the meetings held in 2011-12, the Board discussed the need to accrue the sales commission, as Venture did not render any services to the Company either during the year or during the past many years since the dispute. Further, in so far as the Company was concerned, Venture had not, till that point of time, claimed any amounts towards sales commission. The Board also took note of the fact (based on an updated legal opinion) that the issue of sales commission is not a disputed matter before the Courts either in India or in USA and not sub judice, as per original view.

Under the circumstances, the Board took the view on May 14, 2012 when the financial statements for the year ended March 31, 2012 was tabled for approval, that the accrual of sales commission from FY 05-06 to FY 10-11 of Rs.3,594.07 be written back as other income in the Statement of Profit and Loss and the sales commission for the period from April 2011- December 2011 be reversed. However, as a prudent measure, the Board directed that the Company provide an amount of Rs.5,291.42 Lakhs as a provision for contingency, covering the period from FY 05-06 to FY 11-12 which in its opinion would be adequate to cover any possible outflow that may arise in respect of the aforesaid matter and adjustments to the financial statements if any, to be made on final disposal of legal proceedings.

Subsequent to the adoption of accounts by the Board, the Company was served a suit filed by Venture before the City Civil Court, Secunderabad inter alia seeking a direction to the Company to pay sales commission that it was entitled to under the Shareholders Agreement. In the said suit, two ex-parte orders were passed by the City Civil Court , directing the Company, Venture and Satyam to maintain status quo with regard to transfer of 50% shares of Venture and with regard to taking major decisions which are prejudicial to interest of Venture . The Company has challenged the ex-parte orders of the City Civil Court Secunderabad, before the Hon'ble High Court of Andhra Pradesh ("the High Court").

In a related development, the City Civil Court, Hyderabad set aside the Award in January 2012, against which Satyam has filed an appeal before the High Court.

The High Court by its Judgement dated August 23, 2013 has allowed the appeals filed by the Company and set aside the ex-parte interim orders against the Company. The High Court has also set aside the Order of the City Civil Court, Hyderabad setting aside the Award and upheld the Award in favour of Satyam. The High Court as an interim measure ordered status quo with regard to transfer of shares, originally given by Supreme Court to be maintained for four (4) weeks which was extended for a further period of 3 weeks by High Court on 19th September, 2013

Venture filed an SLP before the Supreme Court of India which was heard by the Apex Court on 21st October, 2013 and Supreme Court as an interim measure ordered status quo with regard to transfer of shares. TechM has filed a Special leave Petition before the Supreme Court of India challenging the judgement of the High Court only on the limited issue as to whether the Civil Court has jurisdiction to entertain VGE’s challenge to the Award. The Hon’ble Bench of Supreme Court, in view of the difference of opinion by an order dated November 1, 2017 has directed the registry to place the SLP’s before the Chief Justice of India for appropriate further course of action.

The Company has not modified the provision for contingencies amounting to Rs.5,291.41 Lakhs as on 31 March 2012. The Company has also disclosed an amount of Rs.28,253.9 Lakhs [31 March 2021: Rs.24,974.00 Lakhs] as contingent liability, to cover any possible charge that may arise in respect of the above said matter, in the financial statements for the year ended 31 March 2022 by way of abundant caution notwithstanding the Board's view that there is no need to accrue sales commission since Venture did not provide any services to the Company.

28. Preparation of financial statements:

At the Annual General Meetings of the Company, one of the shareholders abstained from voting on the resolution for adoption of audited financial statements as at and for the years ended 31 March 2012 to 2021. In terms of Article 66 of the Articles of Association of the Company, the adoption of audited financial statements requires unanimous consent of both the shareholders of the Company. Therefore, the said financials have not been approved by the shareholders. The financial statements as at and for the year ended 31 March 2022 have been drawn up incorporating the opening balances based on above said financial statements which have not been adopted by the Shareholders. Adjustments required, if any, will be made in accounts as and when determined.

29. Pursuant to the order from Ministry of Corporate Affairs, Serious Fraud Investigation Office (SFIO) vide its letter dated January 9, 2009 carried out inspection of books of accounts and other records of the Company under Section 209A of the Act. Consequent to inspection, SFIO has filed a complaint in Economic Offences Court, Hyderabad (“the trial court”) against the Company and the then directors. The Company has filed a writ petition in the Hon’ble High court of judicature at Hyderabad to quash the complaint of SFIO. The Hon’ble High Court has directed the trial court not to insist the appearance of directors for examination.

33.3 Information about major customers

Revenue arising from sales of Automotive Engineering Services and consists of 60 customers base and out of them 10 customers contribute 80% of revenue.

34 Financial Instruments

34.1 Capital Management

Equity share capital and other equity are considered for the purpose of Company's capital management. The Company manages its capital so as to safeguard its ability to continue as a going concern. The capital structure of the Company is based on management's judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investor, creditors and market confidence. The Company may take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

Financial Risk Management

The Company's activities are exposed to liquidity and market risks. The Company's senior management has the overall responsibility for establishing and governing the company's risk management frame work. The Company has constituted a Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the board annually.

Financial Instruments by category

The carrying value and fair value of financial instruments by categories as of 31 March 2022 is as follows:

Particulars	Fair value through P&L	Fair value through OCI	Derivative instruments in hedging relationship	Amortised cost	Total carrying value	Total fair value*
Assets						
Cash and cash equivalents	-	-	-	3,984.32	3,984.32	3,984.32
Other balances with banks	-	-	-	6,119.54	6,119.54	6,119.54
Trade receivables	-	-	-	6,673.73	6,673.73	6,673.73
Investments (Other than in subsidiaries)	10,838.06	-	-	-	10,838.06	10,838.06
Other financial assets	-	-	77.60	7,675.83	7,753.43	7,753.43
Total	**10,838.06**	**-**	**77.60**	**24,453.42**	**35,369.08**	**35,369.08**
Liabilities					-	-
Trade and other payables	-	-	-	665.47	665.47	665.47
Other financial liabilities	-	-	0.08	670.71	670.79	670.79
Total	**-**	**-**	**0.08**	**1,336.19**	**1,336.27**	**1,336.27**

The carrying value and fair value of financial instruments by categories as of 31 March 2021 is as follows:

Particulars	Fair value through P&L	Fair value through OCI	Derivative instruments in hedging relationship	Amortised cost	Total carrying value	Total fair value*
Assets						
Cash and cash equivalents	-	-	-	3,438.02	3,438.02	3,438.02
Other balances with banks	-	-	-	5,982.21	5,982.21	5,982.21
Trade receivables	-	-	-	7,113.41	7,113.41	7,113.41
Investments (Other than in subsidiaries)	9,528.62	-	-	-	9,528.62	9,528.62
Other financial assets	-	-	10.66	5,217.20	5,227.86	5,227.86
Total	**9,528.62**	**-**	**10.66**	**21,750.84**	**31,290.13**	**31,290.13**
Liabilities					-	-
Trade and other payables	-	-	-	605.35	605.35	605.35
Other financial liabilities	-	-	0.42	6.58	7.01	7.01
Total	**-**	**-**	**0.42**	**611.93**	**612.36**	**612.36**

The fair value of cash and cash equivalents, other balances with bank, trade receivables, unbilled revenues, trade payables, and certain other financial assets and liabilities approximate their carrying amount largely due to the short term nature of these instruments.

Fair value hierarchy

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosures are required):

The different levels have been defined as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within level -1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Particulars	As at 31 March 2022			As at 31 March 2021		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial assets						
Mutual fund investments	10,838.06	-	-	9,528.62	-	-

Financial Liabilities						
Derivative financial liabilities	-	0.08	-	-	0.42	-
Total	**-**	**0.08**	**-**	**-**	**0.42**	**-**

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

The Company has several balances in foreign currency and consequently the company is exposed to foreign exchange risk. The exchange rate between the rupee and foreign currencies has changed substantially in recent years, which has affect on the results of the Company, and may fluctuate substantially in the future. The Company evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities based on gross exposure and the unhedged foreign currency exposures outstanding at the end of reporting period is as under:

	Assets		Liabilities	
Currency	**As at 31 March 2022**	**As at 31 March 2021**	**As at 31 March 2022**	**As at 31 March 2021**
USD	**4,402.81**	3,725.82	**559.02**	574.00
JPY	**1,044.95**	1,130.25	**132.88**	251.81
Euro	**1,393.41**	1,045.27	**228.98**	209.39
CNY	**977.14**	1,121.56	**103.88**	115.19
GBP	**235.68**	146.64	**9.04**	12.60
Others	**572.06**	312.58	**156.53**	41.59

Forward Exchange Contracts

The Company enters into foreign exchange forward contracts to offset the foreign currency risk arising from the amounts denominated in currencies other than the Indian Rupee. The counter party to the Company's foreign currency Forward Contracts is generally a bank. These contracts are entered into to hedge the foreign currency risks of certain forecasted transactions. Forward exchange contracts in USD exposure are USD to INR and for EUR exposure are EUR to INR. These contracts are for a period of two years.

The following are the various outstanding foreign currency to Indian currency forward contracts (Sell) entered into be the company which has been designated as cash flow hedges:

	Currency	Amount outstanding in Foreign currency		Fair Value Gain / (Loss)	
		As at 31 March 2022	As at 31 March 2021	As at 31 March 2022	As at 31 March 2021
Type of cover					
Forward	USD to INR	10.04	1.60	10.20	0.20
	EUR to INR	10.85	3.79	57.09	10.03

The movement in hedging reserve for derivatives designated as Cash Flow Hedges is as follows:

Particulars	As at 31 March 2022	As at 31 March 2021
Credit / (Debit) balance at the beginning of the year	**7.66**	-
Gain / (loss) net transferred to income statement on occurrence of forecasted hedge transaction	**-**	-
Changes in fair value of effective portion of cash flow derivative occurred during the year	**-**	-
Changes in fair value of effective portion of outstanding cash flow derivative	**67.29**	10.24
Tax impact on effective portion of outstanding cash flow derivative	**(16.94)**	-2.58
Credit/(Debit) balance at the end of the year	**58.01**	7.66

Credit Risk Management

Credit Risk refers to the risk for a counter party default on its contractual obligation resulting a financial loss to the Group. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risk. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. The maximum exposure of the financial assets represents trade receivables.

Credit risk on trade receivables is limited as the customers of the Company mainly consists of the entities having a strong credit worthiness. For doubtful receivables the Company uses a provision matrix to compute the expected credit loss allowances for trade receivables. The provision matrix takes into account ageing of accounts receivables and the company's historical experience of the customers and financial conditions of the customers.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily are investment in liquid mutual fund units issued by institutions with high credit ratings.

Liquidity Risk Management

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below provides details regarding the contractual maturities of financial liabilities including estimated interest payments.

	As at 31 March 2022		As at 31 March 2021	
	Accounts payable and acceptances	Other financial liabilities	Accounts payable and acceptances	Other financial liabilities
Carrying amount	669.33	670.79	605.35	412.43
upto 1 year	663.78	670.71	605.19	412.43
More than 1 year	5.55	0.08	0.16	-
Total contracted cash flows	669.33	670.79	605.35	412.43

The table below provides details of financial assets:

	As at 31 March 2022	As at 31 March 2021
Trade receivables	6,673.73	7,113.41
Other financial assets	7,753.43	5,217.20

35. Leases

The lease arrangements for the Company are in respect of the office premises, the Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value.The lease payments associated with these leases of Rs.460.55 Lakhs [31 March 2021 : Rs.396.78 Lakhs] are recognized as an expense on a straight-line basis over the lease term.

The Management at this juncture, does not foresee adjustments, if any, to be made in the financial statements of the Company.

36. Assessment of impact of Novel Corona Virus Disease (COVID 19)

As at the date of these Financial Statements, COVID 19 had spread across most of the world including India, China, Japan, Germany, UK, Mexico and the United States of America where the company has its operations. In assessing the recoverability of receivables including unbilled receivables, financial assets and contract costs and certain investments, the Company has considered internal and external information up to the date of approval of these financial statements. Considering the nature of these assets, while some delays are expected in the collection, the Company expects to recover the carrying amount of these assets. Debtors realisation is good during the period, Apr-20 to Mar-22. The impact of COVID 19 may be different from that estimated by the Company and the Company will continue to closely monitor any material changes in future economic conditions. Considering the Company's present liquidity position and its customer / vendor relationships, the management of the Company is of the opinion that it would be able to discharge its obligations. However, the Company expects that revenues for FY23 may be impacted.

37. Earning per share

The earnings and weighted average number of equity shares used in the calculation of basic earnings per share are as follow.

	Year ended 31 March 2022	Year ended 31 March 2021
Profit for the year attributable to owners of the Company	**3,896.65**	3,778.79
Earnings used in the calculation of basic earnings per share	**3,896.65**	3,778.79
Weighted average number of equity shares outstanding during the period	**7,088,960**	7,088,960
Face Value of Equity Shares - Rs.	**10**	10
Basic and Diluted Earnings per Share *	**54.97**	53.31

* The Company has no potential dilutive instruments

38. Corporate social responsibility

	Year ended 31 March 2022	Year ended 31 March 2021
i) Amount required to be spent by the Company during the year	65.26	67.24
ii) Amount of expenditure incurred	66.00	67.30
iii) Shorfall at the end of the year	-	-
iv) Total of previous years shortfall	-	-
v) Reasons for shortfall	-	-
vi) Details of related party transactions (Refer Note below)	66.00	67.30
vii) Where a provision is made with respect to a liability incurred by entering into a contractual obligation, the movements in the provision during the year.	-	-
viii) Nature of CSR activities	Contribution is made to Tech Mahindra Foundation (TMF). The TMF has been focusing on implementation projects related to of education and employability.	

38.1 Represents contribution to Tech Mahindra Foundation

39. Additional Regulatory and Other Information which are required to be disclosed under Division - II of Schedule III to the Companies Act, 2013.

a) The Company does not own any immovable property, investment property and intangible assets under development

b) The Company does not have any borrowings from banks or financial institutions

Director

Shanghai, June 15, 2022.

AUDIT REPORT

HRTKSZ(2021) No. ******

I. Audit Opinion

We have audited the attached financial statements of Satyam-Venture Engineering Services (Shanghai) Co., Ltd. (hereinafter referred to as "Your Company"), including balance sheet as of December 31, 2021, annual income statement, cash flow statement and notes to financial statements for the year from January 2021 to the end of December 2021.

In our opinion, attached financial statements are prepared in accordance with the Accounting Standard for Business Enterprises in all material respects. They fairly and honestly represent Your Company's financial position as of December 31, 2021 and the operation results and the cash flow for the year from January 2021 to the end of December 2021.

II. Basis for Audit Opinion

We have concluded the auditing work in accordance with the Independent Auditing Standards for the Certified Public Accountant. Our responsibilities under these standards are further elaborated in the section of the auditor's report, entitled "CPA's Responsibility to Audit Financial Statements". In accordance with the China Code of Ethics for Certified Public Accountants, we are independent of your company and have performed other duties in respect of professional ethics. We are confident that the obtained audit evidence is sufficient and appropriate, which forms a firm basis for giving our audit opinion.

III. Responsibilities of the Management for the Financial Statements

The Management are obliged to prepare the financial statements in accordance with the Accounting Standard for Business Enterprises and achieve fair presentation of the financial statements and to design, implement and maintain necessary internal control in order to ensure that there is no material misstatement due to fraud or errors.

In preparing the financial statements, management is responsible for assessing your ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless your company either intends to liquidate or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing your financial reporting process.

IV. Certified Public Accountants' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the audit standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. In addition, we also:

(1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

(3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

(4) Conclude on the appropriateness of management's use of the going concern basis of accounting. And based on the audit evidence obtained, conclude whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that there is a significant uncertainty, the auditing standards require us to draw the attention of the users of the statements to the relevant disclosures in the financial statements in the audit report. If the disclosures are not sufficient, we should issue a modified opinion. Our conclusion is based on the information available up to the date of the auditor's report. However, future events or circumstances may cause you to cease to continue as a going concern.

(5) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Notes to the Financial Statements of

Satyam-Venture Engineering Services (Shanghai) Co., Ltd.

For the January 2021 - the end of December 2021

I. Company Profile

Satyam-Venture Engineering Services (Shanghai) Co., Ltd. (the Company) was invested and incorporated by SATYAM VENTURE ENGINEERING SERVICES PRIVATE LIMITED, and obtained the “Business License for Enterprises as Legal Persons” (Registration No.: 91310000593145765W) on May 15, 2012. The registered capital of the Company is USD860,000.00; the registered address of the Company is Building 4, No.1521 A Section, Jia Tang Road, Jiading District; and PULAVARTHI VENKATA KRISHNAKUMAR is the legal representative of the Company.

Subject to the approval of the administration of industry and commerce, the Company is principally engaged in technical consultation, technological development, technical transformation, automotive software development and technical services in the field of Automotive Engineering, And, develop and sale motorsoftware products. (operate with license as required).

II. Principal Accounting Policies

Accounting System

These financial statements have been prepared by the Company in accordance with the “Enterprise Accounting Standards”.

Accounting Year

Calendar period from January 2021 to the end of December 2021.

Valuation Basis

The Company makes accounting recognition, measurement and report on the accrual basis.

Basis of Measurement

The elements of financial statements are measured by the Company on the basis of historical cost generally; and special notes will be given by the Company in the case of measurement on the basis of replacement cost, net realizable value, present value or fair value.

Recording Currency and Foreign Currency Translation

CNY is used by the Company as the recording currency. Transactions denominated in foreign currencies are stated after being translated into CNY at the market reference exchange rates promulgated by the People’s Bank of China prevailing on the date on which the transactions took place, the balance in all foreign currency accounts and settlement accounts will be translated into CNY at the market reference exchange rates prevailing at the end of period, and the exchange gain or loss thus occurred will be taken to “Financial Expenses – Exchange Gain or Loss” other than those occurred during the establishment period which shall be taken to “Long-term Prepaid Expenses – Establishment Charge”.

Recognition of Cash Equivalents

Investments held by the Company with short term, strong liquidity and less risk of value change which are easily converted into cash with known amount are recognized as cash equivalents.

Accounting Method for Bad Debts

The Company accounts bad debt loss by using allowance method, and makes provision for bad debts by using specific identification method.

The accounts receivable (1) that cannot be recovered due to the bankruptcy or death of the debtor after the liquidation of such debtor’s property or legacy, or (2) that cannot be recovered as a result of the debtor’s delay in performing its obligation of debt redemption over three years are recognized as bad debts.

Inventories

Inventories refer to the materials or goods held by the Company in the process of production and operation for sale or to be consumed in the process of production or rendering of service, including products in process and commodity stocks.

Accounting method for inventories: The inventories are measured at their actual costs at acquisition, including procurement costs, processing costs and other costs. The actual costs of delivered inventories are determined using first-in first-out method at delivery of inventories.

The perpetual inventory method is used by the Company as its inventory system. The Company checks inventories regularly, the gain from inventory profit and loss from inventory shortage are taken to the Profit and Loss of the current period.

Provision for Impairment of Inventories

At the end of the year, the provision for impairment of inventories is made or adjusted at the costs or net realizable value of inventories whichever is lower. The provision for impairment of inventories is made upon the single item of inventories.

Provision for Impairment of Fixed Assets

At the balance sheet date, the fixed assets are valuated at the lower of their book value or recoverable amount. In case the recoverable amount is lower than the book value, the book value of fixed assets is written down to the recoverable amount, and the write-down amount is recognized as the loss of impairment of assets and taken to the Profit and Loss of the current period while the provision for impairment of fixed assets is made accordingly. The loss of impairment of fixed assets will not be carried back in subsequent accounting periods once it has been recognized.

Long-term Prepaid Expenses

The long-term prepaid expenses of the Company refer to expenses that have been disbursed and will be amortized after normal production and operation over one year, mainly including establishment charge and costs of tools and appliances with useful life over one year. Other than establishment charge which is taken to Profit and Loss in a lump in the starting month of production and operation, all long-term prepaid expenses are amortized evenly within the estimated beneficial period, and taken to the Profit and Loss of each amortization period.

Revenues

1. Sale of Goods

The revenues from sale of goods are recognized at the received or receivable contractual prices from the buyer when (1) the Company has transferred the significant risks and rewards of ownership of the goods to the buyer; (2) retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold; (3) the amount of revenues can be measured reliably; (4) it is probable that the economic benefits associated with the transaction can flow to the Company; and (5) the relevant costs incurred or to be incurred can be measured reliably.

2. Rendering of Service

The revenues from rendering of service is recognized using percentage of completion method when the results of rendering of service can be estimated reliably at the balance sheet date.

3. Transfer of the Right to the Use of Assets

The revenues from transfer of the right to the use of assets are recognized by the Company when the economic benefits associated with such transfer can flow to the Company and the amount of revenue can be measured reliably.

Interest income is computed and determined according to the time of using cash & cash equivalents and the applicable interest rate. The amount of income from charge for use is computed and determined according to the time and method agreed in the relevant contract or agreement.

Income Tax

The income tax of the Company is accounted using tax payable method.

III. Taxes

Value added tax: The value added tax rate applicable to the Company in this year is 6%.

Income tax: The income tax rate applicable to the Company in this year is 25%.

Urban construction tax: The Urban construction tax rate applicable to the Company in this year is 5%.

Education surcharge: The Education surcharge rate applicable to the Company in this year is 5%.

AUDITOR´S CERTIFICATE FOR SATVEN GMBH, STUTTGART

We have audited the annual financial statements - Tested to March 31, 2022, including the accounting of Satven GmbH, Stuttgart, for the financial year April 1, 2021 to March 31, 2022, comprising the balance sheet, profit and loss statement and notes. The accounting and the preparation of the annual financial statements in accordance with German commercial law are the responsibility of the Company's management. Our responsibility is to express an opinion on the basis of our audit, on the annual financial statements, including the accounting.

We conducted our audit in accordance with § 317 HGB promulgated by the Institute of Chartered Accountants (IDW) and German generally accepted auditing standards. Those standards require that we plan and perform that misstatements materially affecting the presentation of operations in the annual financial statements in accordance with generally accepted accounting of the assets, financial position and results, with reasonable assurance be detected. In the determination of audit procedures knowledge of the business activities and the economic and legal environment of the company and expectations as to possible misstatements are taken into account. During the audit, the effectiveness of the accounting-related internal control system and the evidence supporting the disclosures in the annual financial statements are examined primarily on a test basis. An audit also includes assessing the accounting principles used and significant estimates made by management. We believe that our audit provides a reasonable basis for our opinion.

Our audit has not led to any reservations.

In our opinion, based on the findings of our audit, the annual financial statements comply with the legal requirements, give attention to the proper accounting and give a true and fair view of the net assets, financial position and results of operations.

NOTES TO THE FINANCIAL STATEMENTS APRIL 01, 2021 TO MARCH 31, 2022

A. General Information

Satven GmbH, Legal seat Stuttgart, Local court Stuttgart HRB 749841

The financial statements as of March 31, 2022 were prepared according to the accounting regulations of the Commercial Code and the Limited Liability Company Act. For the profit and loss statement the cost categories oriented format has been chosen. Satven GmbH is a very small corporation according to Sect. 267a para. 1 Commercial Code. The relieves for small corporations according to Sect. 288 Commercial Code have partially been used.

B. Accounting and Valuation Principles

The intangibles assets and tangible assets have been accounted for at acquisition cost less linear depreciation. The development of the assets shown in the balance sheet has been shown in Attachment 3/Page 2.

The trade receivables and other assets have been accounted at face value.

The cash has been accounted at face value.

As prepaid expenses are shown payments before the reporting date that represent expenses for a certain period after this date.

The accruals are shown with redemption amount and recognize all risks and contingent liabilities at the balance sheet date with the settlement amount, which is needed under reasonable business judgment.

The liabilities have been accounted with their redemption and all have a maturity of up to one year.

C. Information

The company has engaged in the average 16 employees during the interim period.

The acting director in the financial year 2021/2022 was

Mr Rao S. Vadlamudi

……………………,the…………………..

Rao S. Vadlamudi

1. **Brief outline on CSR Policy of the Company.**

   Born Commerce Private Limited implements its CSR Programs primarily through Mahindra Educational Institutions (MEI) (Section 8 Company set up under the Companies Act 2013). The CSR activities of the company are in accordance with Section 135 of the Companies Act 2013 and the Rules notified thereunder. CSR focus area for the company is primarily promotion of Education. Within this broad theme specific areas such as school education, education for employment and technical education are included. Persons with disability and Women's Empowerment are cross-cutting themes in these focused areas. The interventions in these thematic areas will be prioritized to reach the underserved segments of the population like women, economically and geographically disadvantaged and vulnerable and marginalized population.

2. **Composition of CSR Committee.**

   CSR Committee has been dissolved with effect from 27th October, 2020. The functions of the CSR Committee provided under section 135 of the Comanies Act, 2013 are now being discharged by the Board of Directors.

   Board of Directors:

   Mr. Vivek Satish Agarwal

   Mr. Gautam Shirali

INDEPENDENT AUDITORS' REPORT

To the Members of Born Commerce Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Born Commerce Private Limited (the "Company") which comprise the balance sheet as at 31 March 2022, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, and its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's directors' report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2 A. As required by Section 143(3) of the Act, we report that:

   a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c. The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

   d. In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

   e. On the basis of the written representations received from the directors as on 31 March 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act.

f. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”.

B. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

a. The Company has disclosed the impact of pending litigations as at 31 March 2022 on its financial position in its financial statements - Refer Note 34 (b) to the financial statements.

b. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

c. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

d (i) The management has represented that, to the best of it’s knowledge and belief, as disclosed in the Note 29 to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:

- directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or
- provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(ii) The management has represented that, to the best of it’s knowledge and belief, as disclosed in the Note 29 to the financial statements, no funds have been received by the Company from any persons or entities, including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall:

- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties (“Ultimate Beneficiaries”) or
- provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(iii) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) above contain any material misstatement.

e. The Company has neither declared nor paid any dividend during the year.

C. With respect to the matter to be included in the Auditor’s Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, no remuneration has been paid by the Company to its directors during the current year. Accordingly, the reporting under the provisions of Section 197 of the Act is not applicable. The Ministry of Corporate Affairs has not prescribed other details under Section 197 (16) which are required to be commented upon by us.

Annexure A to the Independent Auditor's Report on the Financial Statements of Born Commerce Private Limited for the year ended 31 March 2022

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified once in 3 years. In accordance with this programme, the property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.

(c) The Company does not have any immovable property (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee). Accordingly, clause 3(i)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

(e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

(ii) (a) The Company is a service company, primarily rendering information technology enabled services. Accordingly, it does not hold any physical inventories. Accordingly, clause 3(ii)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been sanctioned any working capital limits in excess of five crore rupees in aggregate from banks and financial institutions on the basis of security of current assets at any point of time of the year. Accordingly, clause 3(ii)(b) of the Order is not applicable to the Company.

(iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year. Accordingly, provisions of clauses 3(iii)(a) to 3(iii)(f) of the Order are not applicable to the Company.

(iv) According to the information and explanations given to us and on the basis of our examination of records of the Company, the Company has neither made any investments nor has it given loans or provided guarantee or security and therefore the relevant provisions of Sections 185 and 186 of the Companies Act, 2013 ("the Act") are not applicable to the Company. Accordingly, clause 3(iv) of the Order is not applicable.

(v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.

(vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act for the services rendered by the Company. Accordingly, clause 3(vi) of the Order is not applicable.

(vii) (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective 1 July 2017, these statutory dues has been subsumed into GST.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or other statutory dues have generally been regularly deposited by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of cess.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or other statutory dues were in arrears as at 31 March 2022 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, statutory dues relating to Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues which have not been deposited on account of any dispute are as follows:

Name of the statute	Nature of the dues	Amount (Rs. in lacs)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax	39.65	FY 2017-18	Commissioner of Income Tax (Appeals)

(viii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.

(ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any loans or borrowings from any lender during the year. Accordingly, clause 3(ix)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any loans or borrowings during the year and accordingly, has not been declared a wilful defaulter by any bank or financial institution or government or government authority

(c) According to the information and explanations given to us by the management, the Company has not obtained any term loans during the year. Accordingly, clause 3(ix)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we report that no funds have been raised on short-term basis by the Company. Accordingly, clause 3(ix)(d) of the Order is not applicable.

(e) The Company does not hold any investment in any subsidiaries, associates or joint ventures (as defined under the Act) during the year ended 31 March 2022. Accordingly, clause 3(ix)(e) is not applicable.

(f) The Company does not hold any investment in subsidiary, associate or joint venture (as defined under the Companies Act, 2013) during the year ended 31 March 2022. Accordingly, clause 3(ix)(f) is not applicable.

(x) (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments). Accordingly, clause 3(x)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable.

(xi) (a) Based on examination of the books and records of the Company and according to the information and explanations given to us, considering the principles of materiality outlined in Standards on Auditing, no fraud by the Company or on the Company has been noticed or reported during the course of the audit.

(b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(c) Based on the information and explanations provided to us, the Company is not required to have a vigil mechanism as per Companies Act, 2013 or SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

(xii) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.

(xiii) According to the information and explanations given to us, the provisions of Section 177 of the Act are not applicable to the Company and accordingly, the requirements as stipulated by the provisions of Section 177 of the Act are not applicable to the Company. In our opinion and according to the information and explanation given to us and based on our examination of the records of the Company, all transactions with related parties are in compliance with Section 188 of the Act, where applicable, and the details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) (a) In our opinion and based on the information and explanations provided to us, the Company does not have an Internal Audit system and is not required to have an internal audit system as per Section 138 of the Act.

(b) In our opinion and based on the information and explanations provided to us, the Company does not have an internal audit system and is not required to have an internal audit system as per Section 138 of the Act. Accordingly, clause 3(xiv)(b) of the Order is not applicable.

(xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.

(xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.

(b) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable.

(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.

(d) According to the information and explanations provided to us, the Group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016) has more than one CIC as part of the Group. The Group has six CICs as part of the Group.

(xvii) The Company has not incurred cash losses in the current and in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) In our opinion and according to the information and explanations given to us, there is no unspent amount under sub-section (5) of Section 135 of the Act pursuant to any project. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

Annexure B to the Independent Auditor's Report on the financial statements of Born Commerce Private Limited for the year ended 31 March 2022

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Born Commerce Private Limited ("the Company") as of 31 March 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

NOTES TO THE FINANCIAL STATEMENTS

(All amounts are in INR Lacs, unless otherwise stated)

1 Company overview

Born Commerce Private Limited ('the Company') was incorporated on Jan 21, 2011, having its registered office at 2nd Floor, Hardy Tower, Ramanujan IT SEZ TRIL Infopark Ltd, Chennai. During the previous financial year, the Company was acquired by Tech Mahindra Limited. The Company is engaged in providing offshore production services (i.e.) pre-media, digital media and e-commerce services to its group companies located outside India and sale to other external customers.

The Company would meet the definition of a Public Limited Company with effect from November 25, 2019 consequent to the acquisition by Tech Mahindra Limited. The Company is now a 100% subsidiary of Tech Mahindra Limited. Also refer note 38 on scheme of merger.

2 Significant accounting policies

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) Amendment Rules, 2016, and other relevant provisions of the Companies Act, 2013.

2.2 Basis for preparation of financial statements

The financial statements are prepared under the historical cost convention, on the accrual basis of accounting, except for certain financial instruments which are measured at fair values. The financial statements are presented in Indian rupees (Rs.) which is also the functional currency of the Company. The financial statements are presented in Indian rupees rounded off to the nearest lacs. Further, amounts which are less than half a lacs are reported as '0'.

All assets and liabilities have been classified as current and non-current as per the criteria set out in Schedule III to the Act.

Details of the Company's accounting policies are included in paragraphs 2.4 to 2.14.

These financial statements were authorised and issued on 4 July 2022.

2.3 Use of estimates and judgements

The preparation of financial statements in conformity with Ind AS in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amount of income and expenses during the period reported. Although these estimates are based upon management's best knowledge of current events and actions; actual results could differ from these estimates. Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to the accounting estimates are recognised prospectively in current and future periods.

Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of income taxes, provisions, defined benefit plan and compensated absences, leases, revenue recognition, estimation uncertainties relating to the COVID-19 pandemic, these are discussed below.

i) Income Taxes

Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions. The policy for the same has been explained under Note 2.10.

ii) Provisions

Provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. The policy for the same has been explained under Note 2.9

iii) Defined benefit plan and compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The policy for the same has been explained under Note 2.8

iv) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment, including assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics. Refer note 2.11 for detailed accounting policies on leases"

v) Revenue recognition

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or existence of enforceable right to payment for performance to date. The policy has been explained under Note 2.6.

vi) Estimation uncertainties relating to the COVID-19 pandemic

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and investments. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used an internal and external source of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

2.4 Property, plant and equipment and Intangible assets

Property, plant and equipment and Intangible assets are stated at cost, less accumulated depreciation/amortisation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Intangible assets comprise of Computer software. Costs relating to Computer software, which are acquired, are capitalised and amortised on a straight-line basis over their useful lives.

Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

Depreciation and amortisation is provided using the straight-line method using the rates arrived at, based on the useful lives estimated by the management, based on a technical assessment. The company has continued to retain the existing useful life, which are, in all cases either lower or equal to the useful lives as prescribed under part C of Schedule II of the Companies Act, 2013 and the company has maintained adequate technical assessment to justify the same.

Assets costing less than Rs. 5,000 each are depreciated fully in the year of acquisition.

The estimated useful lives of the assets are as under:

Asset	Life
Leasehold improvements	Estimated useful life (5 years) or lease term, whichever is lower
Computer & Accessories	
(i) Servers and networks	6 years
(ii) End user devices, such as, desktops, laptops, etc	3 years
Furniture and fixtures*	5 years
Office Equipment	5 years

*For the class of assets mentioned above, based on internal technical assessment the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

An item of property, plant & equipment and intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant & equipment and intangible asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of profit and loss.

2.5 Impairment

Financial assets:

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the Company operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk. “

Non financial assets:

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

2.6 Revenue recognition

Revenue is recognised or performance obligation is satisfied upon transfer of control of promised services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those services. Revenue from operations includes revenue earned from services rendered on cost plus basis, time and material basis, fixed price maintenance costs and fixed price development contracts.

Revenue from services rendered under the time & material contracts are recognised on output basis measured by efforts expended.

Revenue from fixed price maintenance contracts is recognised based on the right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered.

Revenue on fixed price development contracts is recognised using the ‘percentage of completion’ method of accounting, unless work completed cannot be reasonably estimated. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognised in the statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability (“Unearned revenue”) arises when there are billing in excess of revenue.

Dividend income is recorded when the right to receive payment is established.

Interest income is recognised using the effective interest method.

2.7 Foreign currency transactions

i. Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

ii. Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

iii. Exchange differences

Exchange differences arising on the settlement of monetary items or on reporting the Company’s monetary items at rates different from those at which they were initially recorded during the year are recognised as income or as expense in the year in which they arise.

2.8 Retirement and other employee benefits

i. Defined contribution plans

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

ii. Defined benefit plans

For defined benefit plans in the form of gratuity, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to the statement of profit and loss. Past service cost is recognised in the statement of profit and loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

iii. Compensated absences

Compensated absences other than short term in nature are provided for on the basis of an actuarial valuation made at the end of the financial year. The actuarial method used by the independent actuary for measuring the liability is the Projected Unit Credit Method.

Short term compensated absences are recognised at the undiscounted amount expected to be paid in exchange for the service rendered.

iv. Short term employee benefits

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

2.9 Provisions and contingencies

A provision is recognised when the Company has a present obligation resulting from past events and it is probable that an outflow of resources will be required to settle the obligation for which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate of the expenditure required to settle the obligation at the balance sheet date. Provisions are reviewed at each balance sheet date and adjusted to reflect current best estimates.

A disclosure for a contingent liability is made when there is a possible or a present obligation, resulting from past events and it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate cannot be made. Contingent assets are not recognised in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an economic benefit will arise, the asset and the related income are recognised in the period in which the change occurs.

2.10 Income taxes

Income tax comprises of current and deferred tax. Income tax expense is recognised in the statement of profit and loss except for the items directly recognised in equity or in other comprehensive income.

Current tax

The current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the provisions of Income-tax Act, 1961 (‘Income-tax act’) and any adjustment to taxes in respect of previous years.

Deferred tax

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax assets are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be recovered or settled.

Deferred tax assets and liabilities are offset when it relates to income taxes levied by the same taxation authority and the relevant Company intends to settle its current tax assets and liabilities on a net basis.

2.11 Leases

At inception of the contract, the Company determines whether the contract is a lease or contains a lease arrangement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.”

2.12 Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Non derivative financial instruments

Cash and Cash Equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income ('FVOCI')

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit and loss ('FVTPL')

Financial assets are measured at fair value through profit and loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit and loss are immediately recognised in statement of profit and loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amount approximate fair value to short-term maturity of these instruments.

De-recognition of financial instruments

The Company de-recognises a financial asset when the contractual rights to the cash flows from the financial assets expire or it transfers the financial assets and such transfer qualifies for de-recognition under Ind AS 109. A financial liability (or a part of financial liability) is de-recognised from the Company's balance sheet when obligation specified in the contract is discharged or cancelled or expired.

Fair value of financial instruments

In determining the fair value of its financial instrument, the Company uses the methods and assumptions based on market conditions and risk existing at each reporting date. Methods of assessing fair value result in general approximation of value, and such value may never actually be realised. For all other financial instruments, the carrying amounts approximate the fair value due to short maturity of those instruments.

Basic earnings per share (EPS) is calculated by dividing the net profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is calculated by dividing the net profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares considered for computing Basic earnings per share and the weighted average number of equity shares which may be issued on conversion of dilutive potential equity shares into equity shares.

2.13 Recent pronouncements

The Ministry of Corporate Affairs (“”MCA””) notifies new standard or amendments to the existing standards. On March 23, 2022, MCA amended the Companies (Ind AS) Amendment Rules, 2022, which are applicable from April 1, 2022. The Company does not expect the amendments to have any significant impact on the financial statements.

	643	**643**

b. Reconciliation for number of shares outstanding at the beginning and at the end of the reporting year is as given below:

	As at March 31, 2022	As at March 31, 2021
Number of shares outstanding at the beginning and at the end of the year	6,425,285	6,425,285

c. Rights, preferences and restrictions attached to shares

The Company has only one class of equity shares having par value of Rs. 10 each. Each holder of equity shares is entitled to one vote per share.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

d. Shares held by holding company and subsidiaries of holding company or ultimate holding company and its associates along with percentage of shareholding is as given below:

	As at March 31, 2022		As at March 31, 2021	
	No. of shares	% held	No. of shares	% held
Tech Mahindra Limited, the holding company	6,425,284	99.99%	6,425,284	99.99%
6,425,284 equity shares of Rs.10/- each				
Tech Mahindra Limited jointly with Anil Khatri	1	0.00%	1	0.00%

e. During the period of five years immediately preceding the balance sheet date, no equity shares were allotted as fully paid-up pursuant to contract without payment being received in cash.

f. During the financial year ended 2019-20, the Company was acquired by Tech Mahindra Limited through a Share Purchase Agreement (the "SPA") dated November 25, 2019. In accordance with this SPA, 100% of equity share capital was acquired by Tech Mahindra Limited.

12 Other Equity

Particulars	As at March 31, 2022	As at March 31, 2021

Deferred revenue	174	69
Statutory dues payable	430	314
	604	**383**

18 Revenue from operations

Particulars	Year ended March 31, 2022	Year ended March 31, 2021
Revenue from digital media and ecommerce services	24,736	19,759
	24,736	**19,759**

a. Disaggregation of revenue

Revenue disaggregation by geography is as follows:

Geography	Year ended March 31, 2022	Year ended March 31, 2021
India	4,576	978
Rest of the World	20,160	18,781
Total	**24,736**	**19,759**

Geographical revenue is allocated based on the location of the customer

Nature of relationship	Year ended March 31, 2022	Year ended March 31, 2021
Revenue from related parties	18,037	14,505
Revenue from third parties	6,699	5,254
Total	**24,736**	**19,759**

During the year ended Match 31, 2022, the following customers individually accounted for more than 10% of the revenue.

Born Group Inc

Born London Limited

Born Group Pte Limited

b. Remaining performance obligations

The remaining performance obligations disclosure provides the aggregate amount of the transaction price yet to be recognised as of the end of the reporting period and an explanation as to when the Company expects to recognise these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation for contracts where the performance obligation is a part of a contract that has an original expected duration of one year or less or the entity has a right to consideration from a customer in an amount that corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in scope of contracts, periodic revalidations, adjustments for revenue that has not materialized and adjustments for currency.

c. Contract assets and Liabilities

Changes in the contract assets balances during the year ended March 31, 2022 are as follows:

Particulars	As at March 31, 2022	As at March 31, 2021
Contract Assets:		
Opening balance	516	37
Add: Revenue recognised during the year	2,253	1,651
Less : Invoiced during the year	(2,098)	(1,172)
Closing balance	**671**	**516**

Changes in the unearned revenue balances during the year ended March 31,2022 are as follows:

Particulars	As at March 31, 2022	As at March 31, 2021
Unearned Revenue		
Opening balance	70	272
Less: Revenue recognised that was included in the unearned revenue at the beginning of the year	(70)	-
Add: Invoiced during the year (excluding revenue recognized during the year)	174	(202)
Closing balance	**174**	**70**

d. Contract Price

Reconciliation of revenue recognised in the statement of profit and loss with the contracted price:

The Company has recognized revenue of Rs. 24,736 which is not adjusted for any discounts for the year ended March 31, 2022 (March 31, 2021 is Rs. 19,759).

19 Other income

Total	**4,087**	**-**	**-**	**4,087**	**4,087**

Valuation technique:

Carrying amounts of trade receivables, cash and cash equivalents, loans, other financial assets, short-term bank borrowings, trade payables and other financial liabilities as at March 31, 2022 & March 31, 2021 approximates the fair value because of their short term nature.

II Financial instrument by hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

There are no financial instruments measured at FVTPL or FVOCI as on March 31, 2022 & March 31, 2021

III Financial Risk Management

The Company's activities expose it to the following risks arising from financial instruments:

a) Market risk

b) Credit risk

c) Liquidity risk

a) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the fair value of financial instrument may result from changes in the foreign currency rate, interest rate and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

Foreign currency exchange rate risk

Foreign currency exchange rate risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company primarily is an export oriented unit and earns its revenue in foreign currency. Consequently, the Company is exposed to foreign exchange risk on its trade receivables and purchases from overseas suppliers in foreign currencies.

The following analysis has been worked out based on the net exposures of the Company as of the date of the balance sheet which could affect the statement of profit and loss.

The following table sets forth information relating to foreign currency exposure as at March 31, 2022

	Foreign Currency		**Indian Rupees**	
Particulars	**As at March 31,2022**	**As at March 31, 2021**	**As at March 31,2022**	**As at March 31, 2021**
Trade Payables	USD 8.85	-	671	-
Trade Receivables	USD135	USD 81.55	10,241	693
Trade Receivables	EUR 4	EUR 8.07	317	5,962

1% appreciation/depreciation of respective foreign currency with respect to functional currency of the Company would result in increase/decrease in Company's profit by Rs 99 & Rs 67 for year ended March 31, 2022 and Mar 31, 2021 respectively

b) Credit risk

Credit risk is the risk that counter party will not meet its obligations under a financial instruments or customer contract leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and unbilled revenue) and from its financing activities including cash and cash equivalents.

Trade receivables and unbilled revenue:

The credit risk is limited since primarily trade receivables and unbilled revenue pertain to revenue generated through related party transactions. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. . The maximum exposure to credit risk was Rs.13,732 & Rs. 8,604 as at March 31, 2022 & March 31, 2021 respectively, being the total of the carrying amount of trade receivables, cash and cash equivalents and other financial assets.

Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each balance sheet date whether a financial asset is impaired. The Company recognises lifetime expected losses for trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. As on March 31, 2022, expected credit loss allowance is Rs. Nil. (March 31, 2021 : Rs. Nil)

Cash and cash equivalents:

Credit risk on cash and cash equivalents is limited as it is generally invested in deposits with banks in India with high credit ratings assigned by international and domestic credit rating agencies.

c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated through operations. The Company believes that its working capital is sufficient to meet its contractual outflows.

The following are the remaining contractual maturities of financial liabilities as at March 31, 2022

Particulars	Contractual cash flows			
	< 1 year	1-5 Years	>5 Years	Total
Trade payables	1,554	-	-	1,554
Lease Liabilities	667	1,265	-	1,932
Other financial liabilities	1,505	-	-	1,505

The following are the remaining contractual maturities of financial liabilities as at March 31, 2021

Particulars	Contractual cash flows			
	< 1 year	1-5 Years	>5 Years	Total
Trade payables	548	-	-	548
Lease Liabilities	637	1,875	-	2,512
Other financial liabilities	1,027	-	-	1,027

Capital management

The Company's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders and maintain an optimal capital structure to reduce the cost of capital.

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholders value.

25 Leases

As a Lessee:

The total cash outflow for leases is Rs. 704 for the year ended March 31, 2022 and Rs. 792 for the year ended March 31,2021, including cash outflow for short term and low value leases.

The table below provides details regarding the contractual maturities of lease liabilities as of March 31, 2022 on an undiscounted basis:

Particulars	Not later than 1 year	Later than 1 year not later than 5 years	Later than 5 years
Minimum Lease rentals payables	791	1,316	-

The table below provides details regarding the contractual maturities of lease liabilities as of March 31, 2021 on an undiscounted basis:

Particulars	Not later than 1 year	Later than 1 year not later than 5 years	Later than 5 years
Minimum Lease rentals payables	873	2,287	-

26 Disclosure on cash and non-cash changes for liabilities arising from financing activities:

Mentioned below are the components of liabilities related to financing activities in cash flow for the year ended March 31, 2022:

Particulars	Opening balance	Cash flow	Non cash charges (Finance charges)	Closing balance
Lease Liability	2,512	(583)	4	1,932

Mentioned below are the components of liabilities related to financing activities in cash flow for the year ended March 31, 2021:

Particulars	Opening balance	Cash flow	Non cash charges (Finance charges)	Closing balance
Lease Liability	3,195	(792)	109	2,512
Borrowings	338	(344)	6	-

27 Due of micro enterprise and small enterprises

Based on the information available with the company, there are below outstanding amounts payable to creditors who have been identified as

"suppliers" within the meaning of "Micro, Small and Medium Enterprises Development (MSMED) Act, 2006".

Particulars	As at March 31, 2022	As at March 31, 2021
The amounts remaining unpaid to micro and small suppliers as at the end of the year:		
Principal	79	101
Interest	0	5
The amounts of the payments made to micro, small and medium suppliers beyond the appointed day during each accounting year.	951	1,041
The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under MSMED	-	-
The amount of interest accrued and remaining unpaid at the end of each accounting year.	16	16

The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under the MSMED

The management has identified enterprises which have provided goods and services to the Company and which qualify under the definition of micro and small enterprises, as defined under Micro, Small and Medium Enterprises Development Act, 2006 (MSMED). Accordingly, the disclosure in respect of the amounts payable to such enterprises as at March 31, 2022 and March 31, 2021 has been made in financial statements based on information received and available with the Company.

28 Segment reporting

Ind AS 108 establishes standards for the way that companies report information about their operating segments and related disclosures, as applicable about products and services, geographic areas and major customers.

Based on the 'management approach' as defined in Ind AS 108, the management evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented on business segments and geographic segments.

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance. The Company's chief operating decision maker monitors the operating results of the Company's business as single segment.

Business segment:

The Company is engaged in the business of providing services connected to digital media and e-commerce. As the Company is engaged in only one business segment, the balance sheet as at March 31, 2022 and statement of profit and loss for the year ended then pertain to only one business segment.

Geographical segment:

Refer Note 18 for disaggregation of revenue based on geographies.

29 Related party disclosures

As required by Ind AS 24 - Related Party Disclosures, following are details of transactions during the year ended March 31, 2022 and outstanding balances as of that date with the related parties of the Company as defined in Ind AS 24.

a. Names of related parties and related party relationship

Related parties where control exists

Ultimate Holding Company	Tech Mahindra Limited

Related parties with whom transactions have taken place

Fellow subsidiaries	Born London Limited
	Born Group Inc., USA
	Born Japan Kabhushiki kaisha, Japan
	Born Group Pte limited, Singapore
	Born Digital SDN BHD, Malaysia
	Tech Mahindra Limited
	Tech Mahindra ICT (Malaysia) Sdn Bhd
	Tech Mahindra Thailand Limited

b. Related party transactions

Name of entity	Country of incorporation	Year	Sale / (Purchase) of services	Trade receivables / (payables)
Born Group Inc.	United States of America	March 31, 2022	4,762	3,414
		March 31, 2021	4,717	1,691
Born London Limited	United Kingdom	March 31, 2022	5,541	3,745

		March 31, 2021	829	65
Tech Mahindra ICT Services (Malaysia) SDN BHD	Malaysia	March 31, 2022	98	99
		March 31, 2021	-	-
Tech Mahindra Thailand Limited	Thailand	March 31, 2022	153	155
		March 31, 2021	-	-
Tech Mahindra Limited	India	March 31, 2022	3,042	519
		March 31, 2021	255	48

Note:

No funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities (“Intermediaries”) with the understanding, whether recorded in writing or otherwise, that the Intermediary shall lend or invest in party identified by or on behalf of the Company (Ultimate Beneficiaries). The Company has not received any fund from any party(s) (Funding Party) with the understanding that the Company shall whether, directly or indirectly lend or invest in other persons or entities identified by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

30 Employee benefit plans

a. Defined contribution plans:

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident Fund, which is a defined contribution plan. The company has no obligations other than to make specified contributions. These contributions are charged to the statement of profit and loss as they accrue. The amount recognised as an expense towards contribution to Provident Fund for the year aggregated to Rs. 826 (March 31, 2021: Rs. 583).

b. Defined benefit plans:

The following table provides the disclosures in accordance with Ind AS 19 - Employee Benefits:

Particulars	**As at March 31, 2022**	**As at March 31, 2021**
Present value of defined benefit obligation	687	595
Fair value of plan assets	-	-
Liability recognised in balance sheet	**687**	**595**
Change in defined benefit obligation		
As at beginning of the year	595	371
Current service cost	186	123
Interest cost	31	19
Past service cost	-	-
Actuarial gains	(53)	98
Benefit payments	(72)	(16)
Balance as at end of the year	**687**	**595**
Expense recognised in the statement of profit and loss		
Current service cost	186	123
Interest cost	31	19
Past service cost	-	-
Net gratuity cost included in employee benefit expense	**217**	**142**

Particulars	**As at March 31, 2022**	**As at March 31, 2021**
Other comprehensive income		
Opening amount recognised in OCI outside Profit & Loss Account		
Actuarial gains	111	13
- change in demographic assumptions	-	2
- change in financial assumptions	(18)	20
- experience variance (i.e. Actual experience vs assumptions)	(35)	76
Return on plan assets, excluding amount recognised in net interest expense	-	-
Components of defined benefit costs recognised in other comprehensive income	**58**	**111**

Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The results of sensitivity analysis is given below:

Particulars	**As at March 31, 2022**	**As at March 31, 2021**
Defined benefit obligation (Base)	687	595

Particulars	**As at March 31, 2022**		**As at March 31, 2021**	
	Increase	**Decrease**	**Increase**	**Decrease**
Discount rate (- / + 1%)	(2.49)	2.60	2.72	2.59
(% change compared to base due to sensitivity)				
Salary growth rate (- / + 1%)	2.53	(2.45)	2.61	2.53
(% change compared to base due to sensitivity)				
Projected benefits payable in future years from the date of reporting (valued on undiscounted basis):				
1 year			103	81
2 to 5 years			403	341
6 to 10 years			242	209
More than 10 years			230	202

Principal assumptions	**As at March 31, 2022**	**As at March 31, 2021**
Discount rate	6.10%	5.60%
Salary escalation rate	7.25%	7.25%
Employee turnover	21.00%	21.00%
Mortality table	Indian Assured Lives Mortality (2012-14) Ult table

33 Analysis of Ratios

No.	Particulars	As at 31 March 22	As at 31 March 21	Variance %	Remarks
1	Current Ratio (no. of times)	3.24	4.41	-26%	Refer note 1
2	Debt-Equity Ratio	0.17	0.25	-30%	Refer note 2
3	Debt Service Coverage Ratio (no. of times)	1.79	2.42	-26%	Refer note 3
4	Return on Equity Ratio	0.09	0.26	-65%	Refer note 3
5	Trade Receivables turnover ratio	2.17	2.21	-2%	
6	Trade payables turnover ratio	4.34	4.42	-2%	
7	Net capital turnover ratio	2.42	2.08	16%	
8	Net profit ratio	0.04	0.12	-67%	Refer note 3
9	Return on Capital employed	0.11	0.25	-58%	Refer note 3

The basis of computation of above parameters is provided in the table below:

1	Current Ratio	Current assets / current liabilities
2	Debt-Equity Ratio	(Non-current borrowings (+) current borrowings (-) cash and cash equivalents) / Equity *Borrowings including lease liabilities only
3	Debt Service Coverage Ratio	Net Profit after taxes + Non-cash operating expenses like depreciation and other amortizations + Interest + other adjustments like loss on sale of Fixed assets etc. / (interest expenses (+) principal repayments of long-term debt (+) payment of lease liabilities)
4	Return on Equity Ratio	Net Profits after taxes / Average Shareholder's Equity
5	Inventory turnover ratio	Cost of goods sold or sales / (Opening Inventoy (+) Closing Inventory) / 2
5	Trade Receivables turnover ratio	(Gross credit sales (-) sales return) / (Opening Trade receivables (+) Closing Trade receivables) / 2
6	Trade payables turnover ratio	(Gross credit purchases (-) purchase return) / (Opening Trade payables (+) Closing Trade payables) / 2 Gross credit purchases (-) purchase return= Subcon expenses + Other expenses related to purchase cost
7	Net capital turnover ratio	(Total sales (-) sales returns) / (current assets (-) current liabilities.)
8	Net profit ratio	Net Profits after taxes / (Total sales (-) sales returns)
9	Return on Capital employed	Earning before interest and taxes / (Tangible Net Worth (+) Total Debt (+) Deferred Tax Liability)
10	Return on investment	Income generated from invested funds / Average invested funds in treasury investments

Note 1 Decrease is on account of increase in Trade payables majorly to third party vendors.

Note 2 Decrease is on account of movement in lease liability

Note 3 Decrease is mainly on account of decrease in profits during the year.

During the year, there has been a decrease in profits mainly on account of increase in employee cost considering & subcontracting cost.

34 Contingent Liabilities

a The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and postemployment benefits received Presidential assent on 28 September 2020 and has been published in the Gazette of India. The effective date from which the changes are applicable is yet to be notified. The Company will assess the impact and complete the evaluation once the rules are notified and will provide a disclosure of the impact in its financial statements in the period in which, the Code becomes effective and the related rules are notified.

b Claims against the company not ackowledged as debts:

Particulars	As at 31 March 2022	As at 31 March 2021
Income Tax Matters - (AY 18-19)	39.65	39.65
Total	**39.65**	**39.65**

As per the Management the likelihood of the above demand raised being upheld is low. Accordingly no provision in respect thereof has been made in the financial statements as at 31 March 2022.

35 The Company does not hold any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

36 The Company does not have transactions with companies struck off under section 248 of the Companies Act 2013 or section 560 of Companies Act 1956.

37 The company is not declared wilful defaulter by any bank or financial Institution or other lender.

38 Proposed Scheme of Merger by Absorption

On January 29, 2021, the Board of Directors of the Company passed a resolution to consider and approve the Scheme of Merger by Absorption of the Company and Tech Mahindra Business Services Limited (Fellow Subsidiary) with its Holding Company i.e. Tech Mahindra Limited and their respective shareholders under the provisions of section 230 to 232 of the Companies Act, 2013. Accordingly, the Company has filed the application before Hon'ble National Company Law Tribunal (""NCLT""), Chennai Bench. The appointed date under the proposed scheme is April 1, 2021. However, as the Hon'ble National Company Law Tribunal, Chennai Bench ('NCLT') is yet to approve the same, the Scheme is not yet effective.

Once this Scheme comes into effect, the Company will stand dissolved without winding-up. The entire business and whole of the Undertaking of the Company shall be and stand vested in or be deemed to have been vested in the Holding Company, as a going concern.

39 Previous year figures have been regrouped wherever necessary, to correspond with the current year's classification / disclosure.

The accompanying accounting policies and explanatory notes form an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

These notes form an integral part of the financial statements.

The financial statements were authorised for issue by the Board of Directors on [date of signing].

1 Domicile and activities

Born Group Pte. Ltd. ("the Company") is a limited liability company incorporated and domiciled in Singapore. The registered office and principal place of business of the Company is located at 77 Robinson Road, #16-00 Robinson 77, Singapore 068896.

The principal activities of the Company are investment holding to conduct business and to provide global marketing solutions in digital and e-commerce segment.

The immediate holding company is Tech Mahindra (Singapore) Pte. Ltd., a company incorporated in Singapore and the ultimate holding company is Tech Mahindra Limited, a company incorporated in India.

2 Basis of preparation

2.1 Going concern

As at 31 March 2022, the Company suffered net losses of US$984,598 (2021: net profit of US$1,576,089) and had net current liabilities of US$41,405,420(2021: US$24,678,357). Notwithstanding these, the financial statements of the Company have been prepared on a going concern basis, as the ultimate holding company, i.e. Tech Mahindra Limited, has undertaken to provide continuing financial support to the Company for at least 12 months from the date of this report, to enable it to continue its operations and meet its liabilities as and when they fall due. Management has assessed that the ultimate holding company has the ability to provide the financial support

2.2 Statement of compliance

The financial statements have been prepared in accordance with Financial Reporting Standards in Singapore ("FRS").

2.3 Basis of measurement

The financial statements have been prepared on the historical cost basis except as otherwise described in the notes below.

2.4 Functional and presentation currency

These financial statements are presented in United States Dollars ("US$") which is the Company's functional and presentation currency.

2.5 Use of estimates and judgments

The preparation of the financial statements in conformity with FRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about critical judgements, assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year are included in the following notes:

- Notes 3.5 and 5 – determination of cash-generating units and measurement of recoverable amounts of investment in subsidiaries
- Notes 3.5, 7 and 17 – measurement of expected credit loss (ECL) allowance for trade receivables and contract assets: key assumptions in determining the weighted-average loss rate.

Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement (with Level 3 being the lowest).

2.6 Changes in accounting policies

New standards and amendments

The Company has applied the following FRSs, amendments to and interpretations of FRS for the first time for the annual period beginning on 1 April 2021:

- COVID-19-Related Rent Concessions (Amendments to FRS 116)
- Interest Rate Benchmark Reform – Phase 2 (Amendments to FRS 109, FRS 39, FRS 107, FRS 104 and FRS 116)

The application of these amendments to standards and interpretations does not have a material effect on the financial statements.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, except as explained in note 2.6, which addresses changes in accounting policies.

3.1 Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate at the reporting date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction.

Foreign currency differences arising on settlement or translation of monetary items at end of reporting period are recognised in profit or loss.

3.2 Subsidiaries

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Investments in subsidiaries are stated in the Company's statement of financial position at cost less accumulated impairment losses. Consolidated financial statements for the Company and its subsidiaries have not been prepared as the Company is itself a wholly owned subsidiary of Tech Mahindra Limited, which publishes consolidated financial statements which are available for public use. The registered address of Tech Mahindra Limited is Gateway Building, Apollo Bunder, Mumbai 400001.

3.3 Financial instruments

(i) Recognition and initial measurement

Non-derivative financial assets and financial liabilities

Trade receivables and debt investments issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(ii) Classification and subsequent measurement

Non-derivative financial assets

On initial recognition, a financial asset is classified as measured at amortised cost.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held-for-trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Non-derivative financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Non-derivative financial assets: Subsequent measurement and gains and losses

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Non-derivative financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is designated as such on initial recognition. Financial liabilities are initially measured at fair value less directly attributable transaction costs. They are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss.

(iii) Derecognition

Financial assets

The Company derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either
  - substantially all of the risks and rewards of ownership of the financial asset are transferred; or
  - the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Transferred assets are not derecognised when the Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(v) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and short-term deposits with maturities of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

(vi) Share capital

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity.

Preference share capital

The Company's redeemable preference shares are classified as financial liabilities, because they bear non-discretionary dividends and are redeemable in cash by the holders. Non-discretionary dividends thereon are recognised as interest expense in profit or loss as accrued.

3.4 Plant and equipment

(i) Recognition and measurement

Items of plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

If significant parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

Any gain or loss on disposal of an item of plant and equipment is recognised in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised. The costs of the day-to-day servicing of plant and equipment are recognised in profit or loss as incurred.

(iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is recognised as an expense in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of plant and equipment, unless it is included in the carrying amount of another asset. Land is not depreciated.

Depreciation is recognised from the date that the plant and equipment are installed and are ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use.

The estimated useful lives for the current and comparative years are as follows:

- Computer and accessories 3 years

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate.

3.5 Impairment

(i) Non-derivative financial assets and contract assets

The Company recognises loss allowances for ECLs on:

- financial assets measured at amortised costs; and
- contract assets.

Loss allowances of the Company are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from default events that are possible within the 12 months after the reporting date (or for a shorter period if the expected life of the instrument is less than 12 months); or
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument or contract asset.

Simplified approach

The Company applies the simplified approach to provide for ECLs for all trade receivables and contract assets. The simplified approach requires the loss allowance to be measured at an amount equal to lifetime ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

General approach

The Company applies the general approach to provide for ECLs on all other financial instruments and FGCs. Under the general approach, the loss allowance is measured at an amount equal to 12-month ECLs at initial recognition.

At each reporting date, the Company assesses whether the credit risk of a financial instrument has increased significantly since initial recognition. When credit risk has increased significantly since initial recognition, loss allowance is measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and includes forward-looking information.

If credit risk has not increased significantly since initial recognition or if the credit quality of the financial instruments improves such that there is no longer a significant increase in credit risk since initial recognition, loss allowance is measured at an amount equal to 12-month ECLs.

The Company considers a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before considering any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of ECLs

ECLs are probability-weighted estimates of credit losses. Credit losses are measured at the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt investments at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than 90 days past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECLs in the statement of financial position

Loss allowances for financial assets measured at amortised cost and contract assets are deducted from the gross carrying amount of these assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

(ii) Non-financial assets

The carrying amounts of the Company's non-financial assets other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The Company's corporate assets do not generate separate cash inflows and are utilised by more than one CGU. Corporate assets are allocated to CGUs on a reasonable and consistent basis and tested for impairment as part of the testing of the CGU to which the corporate asset is allocated.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (group of CGUs) on a pro rata basis.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3.6 Employee benefits

(i) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an employee benefit expense in profit or loss in the periods during which related services are rendered by employees.

(ii) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

3.7 Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

3.8 Revenue

Rendering of services

Revenue from rendering of services in the ordinary course of business is recognised when the Company satisfies a performance obligation (PO) by transferring control of a promised good or service to the customer. The amount of revenue recognised is the amount of the transaction price allocated to the satisfied PO.

The transaction price is allocated to each PO in the contract on the basis of the relative stand-alone selling prices of the promised services. The individual standalone selling price of service that has not previously been sold on a stand-alone basis, or has a highly variable selling price, is determined based on the residual portion of the transaction price after allocating the transaction price to services with observable stand-alone selling prices. A discount or variable consideration is allocated to one or more, but not all, of the POs if it relates specifically to those POs.

The transaction price is the amount of consideration in the contract to which the Company expects to be entitled in exchange for transferring the promised services. The transaction price may be fixed or variable and is adjusted for time value of money if the contract includes a significant financing component. Consideration payable to a customer is deducted from the transaction price if the Company does not receive a separate identifiable benefit from the customer. When consideration is variable, the estimated amount is included in the transaction price to the extent that it is highly probable that a significant reversal of the cumulative revenue will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue may be recognised at a point in time or over time following the timing of satisfaction of the PO. If a PO is satisfied over time, revenue is recognised based on the percentage of completion reflecting the progress towards complete satisfaction of that PO.

3.9 Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company presents right-of-use assets that do not meet the definition of investment property in 'plant and equipment' and lease liabilities in the statement of financial position.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

3.10 Finance income and finance costs

The Company's finance income and finance costs include:

- interest income; and
- interest expense from convertible redeemable preference shares.

Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

3.11 Tax

Tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under FRS 37 Provisions, Contingent Liabilities and Contingent Assets.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if certain criteria are met.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss.

The measurement of deferred taxes reflects the tax consequences that would follow the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on tax rates that are expected to be applied to temporary differences when they reverse, based on tax rates and tax laws that have been enacted or substantively enacted by the reporting date, and reflects uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

3.12 Government grants

A conditional grant related to staff costs is recognised in profit or loss as a deduction of staff costs. Grants for expenses are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received, and the Company will comply with the conditions associated with the grant. Grants that compensate the Company for expenses incurred are recognised in profit or loss as a deduction against expenses on a systematic basis in the same periods in which the expenses are recognised.

3.13 New standards and interpretations not yet adopted

A number of new standards, interpretations and amendments to standards are effective for annual periods beginning after 1 April 2021 and earlier application is permitted; however, the Company has not early adopted the new or amended standards and interpretations in preparing these financial statements.

The following new FRSs, interpretations and amendments to FRSs are not expected to have a significant impact on the Company's financial statements.

- FRS 117 Insurance Contracts and amendments to FRS 117 Insurance Contracts
- Covid-19-Related Rent Concessions beyond 30 June 2021 (Amendment to FRS 116)
- Reference to the Conceptual Framework (Amendments to FRS 103)
- Property, Plant and Equipment – Proceeds before Intended Use (Amendments to FRS 16)
- Onerous Contracts – Costs of Fulfilling a Contract (Amendments to FRS 37)
- Classification of Liabilities as Current or Non-current (Amendments to FRS 1)
- Annual Improvements to FRSs 2018 – 2020
- Disclosure of Accounting Policies (Amendments to FRS 1 and FRS Practice Statement 2)
- Definition of Accounting Estimates (Amendments to FRS 8)
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to FRS 12)

(a) Trade receivables are non-interest bearing and are generally on 30-90 day terms. They are recognised at their original invoice amounts which represent their fair values on initial recognition.

(b) Other receivables represents corporation tax receivables, advances recoverable from employees, client reimbursements and tax deducted at source recoverable.

(ç) Included in other receivables represent amount deposited in escrow account in accordance with the terms of Share Purchase Agreement (the "SPA") dated 25 November 2019 entered between the Company's holding company, i.e. Tech Mahindra (Singapore) Pte Limited ('the Buyers') and erstwhile shareholders ('the Sellers').). As per SPA, the Company, holds an escrow account for (a) the Indemnity Escrow Amount US$ 1,000,000 plus (b) the Seller Representative Expense Escrow Amount US$ 100,000. The escrow account is maintained to indemnify the Buyers for losses arising except on account of fraud or a breach of the fundamental representations up to fifteen months from the date of closing, subject to the limitations set forth in SPA. At the end of the fifteen months, the outstanding balance in escrow account will be released to the Sellers in accordance with the terms of the escrow agreement. Accordingly, a corresponding liability of US$ 1,100,000 has been recognised under 'Trade and other payables' as at 31 March 2022 (note 10).

*Trade receivables denominated in foreign currencies at 31 December are as follows:

	31-Mar-22	31-Mar-21
	US$	US$
Great Britain Pounds	1,852,266	1,144,109
Euro	25,284	474,182
Singapore Dollars	46,479	1,037,136
Australian Dollars	-	35,149
Swiss Franc	84,898	135,215

Canadian Dollars	347,906	42,897
Malaysia Ringgits	1,310,750	646,416
Danish Karone	32,889	
Total amount denominated in foreign currencies	**3,715,859**	**3,533,844**

Trade receivables are non-interest bearing and are generally on 30-90 day terms. They are recognised at their original invoice amounts which represent their fair values on initial recognition.

At the end of the year, the ageing analysis of trade receivables is as follows:

	US$	**US$**
Neither past due nor impaired	11,469,395	8,905,279
Past due but not impaired		
Lesser than 30 days	1,808,930	1,897,904
30 - 60 days	800,250	735,160
61 - 90 days	38,339	40,803
91 - 120 days	13,215	36,216
More than 121 days	963,447	348,128
Total Trade receivables	**15,093,577**	**11,963,490**

Receivables that are impaired

The Group's trade receivables that are impaired at the end of the reporting period and the movement of the allowance accounts used to record the impairment are as follows:

	31-Mar-22	31-Mar-21
	US$	US$
Trade receivables - nominal amounts	15,595,968	12,015,081
Less: Allowance for impairment	(502,391)	(51,591)
	15,093,577	**11,963,490**

7 Prepayments

The prepaid expenses comprise of remaining prepaid balances of insurance premium of employees and annual maintenance contracts whose benefits are consumed beyond this financial year.

8 Cash and bank balances

	31-Mar-22	31-Mar-21
	US$	US$
Cash at bank and on hand*	3,162,573	1,976,224
	3,162,573	**1,976,224**

* The cash at bank and on hand are primarily current account balances and does not earn any interest.

Cash at bank and on hand denominated in foreign currencies at 31 December are as follows:

	31-Mar-22	31-Mar-21
	US$	US$
Great Britain Pounds	595,140	498,408
Singapore Dollars	224,895	116,902
Australian Dollar	-	-
Malaysian Ringgit	270,265	428,286
Japanese yen	139,008	66,820
Canadian Dollars	-	23,680
Total amount denominated in foreign currencies	**1,229,308**	**1,134,096**

For the purpose of the cash flow statement, cash and cash equivalents comprise the following at the end of the reporting year:

	31-Mar-22	31-Mar-21
	US$	US$
Cash at bank and on hand	3,162,573	1,976,224
Working capital loans	(7,197,019)	(4,000,000)
Cash and cash equivalents	**(4,034,446)**	**(2,023,776)**

9(a) Share capital

	Number of shares	US$
Fully paid ordinary shares with no par value		
At 31 December 2019	266,205	47,979,909
At 31 March 2021	266,205	47,979,909
Issuance of ordinary shares	32,882	12,850,000
At 31 March 2022	299,087	60,829,909

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All shares rank equally with regard to the Company's residual assets.

Capital management

Capital includes debt and equity items as disclosed in the table below.

The primary objective of the Company's capital management is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholder and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to monitor and adjust the capital structure, the Company may adjust the amount of dividends paid to shareholder or issue new shares. In the event that the Company requires additional capital, monies would be infused by the shareholders to provide appropriate financial support to the Company.

The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, borrowings, convertible redeemable preference shares, trade and other payables, less cash and short-term deposits. Capital represents equity attributable to the owners of the Company less the fair value adjustment reserve.

	Note	31-Mar-22	31-Mar-21
		US$	US$

Payable to employees		1,767,522	2,162,110
Other payables	(b)	662,791	1,504,532
Due to other related parties	('c) & 18 (b)	13,001,358	9,427,493
Total trade and other payables		**34,184,916**	**20,593,983**
Borrowings	10	7,197,019	4,000,000
Other payable		-	
Total financial liabilities carried at amortised cost		**41,381,935**	**24,593,983**

Terms and conditions of the above financial liabilities:

(a) Trade payables are non-interest bearing and are normally settled on 30-day terms on average.

(b) Other payables are non-interest bearing and have an average term of 45 days. For explanations on the credit risk management processes (Note 23).

(c) Amounts due to related parties are trade related, unsecured, non-interest bearing, repayable on demand and are to be settled in cash.

Trade payables denominated in foreign currencies as at 31 December are as follows:

	31-Mar-22	31-Mar-21
	US$	US$
Great Britain Pounds	10,831,972	1,085,005
Singapore Dollar	-	11,260

Euro	174,066	23,238
Japanese Yen	-	326
Australian Dollar	495,419	-
Hungarian Forint	-	65,857
Canadian Dollars	-	276,577
Malaysian Ringgit	40,096	-
South Korean Won	100,752	-
Total amount denominated in foreign currencies	**11,642,305**	**1,481,706**

12 Revenue

a) Disaggregation of revenue

	1 Apr 2021 to 31 March 2022	1 January 2020 to 31 March 2021
Rendering of services	**US$**	**US$**
Time and material	34,534,581	54,044,068
Fixed price	40,515,124	40,026,714
Cost plus	20,849,502	
	95,899,207	**94,070,782**

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies:

Time and material

Nature of goods or services	Time and material
When revenue is recognised	Revenue is recognised over the implementation services period.
Significant payment terms	Invoices are issued to the customers according to their respective billing plans and are normally payable within 30-60 days.

Fixed price

Nature of goods or services	Fixed price
When revenue is recognised	Revenue from fixed price development contracts is recognised as performance obligations are satisfied. Where performance obligations are satisfied over time as work progresses, revenue is recognised progressively based on the percentage of completion method. The stage of completion is determined as the proportion of the total time cost expected to install the software services that has elapsed at the end of the reporting period (input method). Revenue from fixed price maintenance contracts is recognised based on the right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered.
Significant payment terms	Invoices are issued to the customers after the services are performed and are normally payable within 30-60 days.

Disaggregation of revenue from contracts with customers

In the following table, revenue from contracts with customers is disaggregated by geographical markets and timing of revenue recognition:

Revenue by Geography	**1 Apr 2021 to 31 March 2022**	**1 January 2020 to 31 March 2021**
	US $	**US $**
United States of America	43,098,350	47,251,559
United Kingdom	6,777,367	9,303,968
Indonesia	1,048,545	809,896
Japan	1,730,759	4,003,141
Switzerland	8,873,275	11,256,142
Singapore	2,835,416	6,018,073
Malaysia	2,117,939	3,425,104
India	20,215,909	4,496,952
Canada	1,944,745	2,008,539
Egypt	1,803,607	1,970,725
Thailand	1,663,297	
China	1,111,541	
Other countries	2,678,458	3,526,683
Total	**95,899,207**	**94,070,782**

b) Contract assets and contract liabilities

Information about receivables, contract assets and contract liabilities from contracts with customers is disclosed as follows:

	Note	**1 Apr 2021 to 31 March 2022**	**1 January 2020 to 31 March 2021**
		US $	**US $**
Receivables from contract with customers	6	15,093,577	11,963,490
Contract assets	6	9,693,932	4,804,551
Contract liabilities	11	2,611,905	2,494,964

Contract assets primarily relate to the Group's right to consideration for work completed but not yet billed at reporting date.

Contract liabilities primarily relate to the Group's obligation to transfer goods or services to customers for which the Group has received advances from customers or for which the Group has billed in advance before performance as required under the contract.

Significant changes in the contract assets and the contract liabilities balances during the period are as follows.

	Contract assets		Contract liabilities	
	31-Mar-22	31-Mar-21	31-Mar-22	31-Mar-21
	US$	US$	US$	US$
Revenue recognised from prior year balance	–	–	2,494,964	–
Cash received in advance and not recognised as revenue	–	–	2,611,905	2,494,964
Changes in measurement of progress	9,693,932	4,804,551	–	–
Contract asset reclassified to trade receivables	4804551	9,693,932	–	–

Significant judgements are used to estimate these total contract costs to complete. In making these estimates, management has relied on the expertise of project teams to determine the progress of the fixed price contracts and on past experience of completed projects. The estimated total contract costs are reviewed every reporting period and adjusted where necessary, with the corresponding effect of change being recognised prospectively from the date of change.

Transaction price allocated to the remaining performance obligations

The following table includes revenue expected to be recognised in the future related to performance obligations that are unsatisfied (or partially satisfied) at the reporting date.

31-Mar-22	2022	2023	2024	Total
	US$	US$	US$	US$
Time and material	40,746,099	33,697,275	2,932,359	77,375,733
Fixed price	11,755,387	5,740,357	426,955	17,922,700

31-Mar-21	2022	2023	2024	Total
	US$	US$	US$	US$
Time and material	24,292,000	18,992,300	9,833,000	53,117,300
Fixed price	7,301,000	2,850,000	324,000	10,475,000

Variable consideration that is constrained and therefore not included in the transaction price is excluded in the amount presented above.

Terms and conditions of transactions with related parties

Outstanding balances at the year-end are unsecured, interest free, repayable on demand, and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables. For the period/year ended 31 March 2022 and 31 March 2021, the Company has not recorded any impairment of receivables relating to amounts owed by related parties. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

17 Fair value of assets and liabilities

The carrying amounts of total loans and receivables, and total financial liabilities carried at amortised cost are reasonable approximation of fair values, either due to their short-term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the end of the reporting period.

Fair value hierarchy

The Group categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

Level 1 – Quoted prices (unadjusted) in active market for identical assets or liabilities that the Group can access at the measurement date,

Level 2 – Inputs other that quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and

Level 3 – Unobservable inputs for the asset or liability.

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Particulars		Group

18 Financial risk management objectives and policies

The Company's principal financial liabilities are comprised of convertible redeemable preference shares and trade and other payables. The main purpose of these financial liabilities is to finance and support the Company's operations. The Company has trade receivables, other receivables and cash balances that arise directly from its operations.

Financial risk factors

The Company's activities expose it to a variety of financial risks, market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company currently does not hedge or use derivative financial instruments to mitigate foreign exchange related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. The demographics of the customer including the default risk of the industry and country in which the customer operates also has an influence on credit risk assessment.

Market risk

Market risk is the risk that the fair value of future cash flows if a financial instrument will fluctuate because of changes in market prices. The principal market risk impacting the Company is currency risk. Financial instruments affected by market risk include deposits, accounts receivable, and accounts payable.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily for trade receivables). Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Company has determined the default event on a financial asset to be when the counterparty fails to make contractual payments, within 60 days when they fall due, which are derived based on the Company's historical information.

To assess whether there is a significant increase in credit risk, the company compares the risk of a default occurring on the asset as at reporting date with the risk of default as at the date of initial recognition. The Company considers available reasonable and supportive forwarding-looking information which includes the following indicators:

- Actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the debtors ability to meet its obligations
- Significant changes in the expected performance and behaviour of the debtors, including changes in the payment status of debtors in the group and changes in the operating results of the debtors.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 30 days past due in making contractual payment.

The Group determined that its financial assets are credit-impaired when:

- There is significant difficulty of the issuer or the debtors
- A breach of contract, such as a default or past due event
- It is becoming probable that the debtors will enter bankruptcy or other financial reorganisation”

The Company categorises a loan or receivable for potential write-off when a debtor fails to make contractual payments more than 180 days past due. Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans and receivables have been written off, the company continues to engage enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

The following are credit risk management practices and quantitative and qualitative information about amounts arising from expected credit losses for each class of financial assets:

(i) Non-trade Financial assets at amortised cost

The Company uses three categories of internal credit risk ratings for debt instruments and loans which reflect their credit risk and how the loss provision is determined for each of those categories. These internal credit risk ratings are determined through incorporating both qualitative and quantitative information specific to the counterparty and other external information that could affect the counterparty’s behaviour.

The Company compute expected credit loss for this group of financial assets using the probability of default approach. In calculating the expected credit loss rates, the Company considers implied probability of default from external rating agencies where available and historical loss rates for each category of counterparty, and adjust for forward looking information such as forecast of economic condition, which has a bearing on default rates.

A summary of the Company’s internal grading category in the computation of the Company’s expected credit loss model for the debt instruments and loans is as follows:

Category	**Definition of Category**	**Basis for recognition of expected credit loss provision**
Grade I	Customers have a low risk of default and a strong capacity to meet contractual cash flows.	12 month expected credit losses
Grade II	Financial assets for which there is a significant increase in credit risk; as significant increase in credit risk is presumed if interest and/ or principal repayments are 30 days past due.	Lifetime expected credit losses
Grade III	Interest and/or principal repayments are 60 days past due.	Lifetime expected credit losses

There are no significant changes to estimation techniques or assumptions made during the year. No loss allowance provision for other non-trade financial assets has been provided as management has assessed the impact to be not significant

The gross carrying amount of other non-trade financial asset at amortised cost without taking into account of any collaterals held or other credit enhancements which represents the maximum exposure to loss, is as follows:

	Particulars	**31-Mar-22**	**31-Mar-21**
12 month ECL	Non-trade financial asset at amortised cost	1,587,565	1,519,078

The gross carrying amount of trade receivables and contract assets of the Group are disclosed in Note 6.

(ii) Trade receivables and contract assets:

The Company provides for lifetime expected credit losses for all trade receivables, and contract assets using a provision matrix. The provision rates are determined based on the Company’s historical observed default rates analysed in accordance to days past due. The loss allowance provision as at 31 March 2022 and 31 March 2021 is determined as follows, the expected credit losses below also incorporate forward looking information such as forecast of economic conditions where the gross domestic product will deteriorate over the next year, leading to an increased number of defaults.

Summarised below is the information about the credit risk exposure on the Group's trade receivables and contract assets using provision matrix, grouped by geographical region:

Group	**Contract assets**	**Not due**	**0-90 days past due**	**91-180 days past due**	**Total**
31 March 2022					
Gross carrying amount	9,693,932	11,469,395	2,647,519	1,479,053	25,289,899
Loss allowance provision				(502,391)	(502,391)
31 March 2021					
Gross carrying amount	4,804,551	8,905,279	2,673,867	435,935	16,819,632
Loss allowance provision	-	-	-	(51,591)	(51,591)

Information regarding loss allowance movement of trade receivables and contract assets are disclosed in Note 6.

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

Particulars	**Neither past due nor impaired**	**Past due but not impaired**	**Total**
As at 31-Mar-2022	**US$**	**US$**	**US$**

Liquidity risk

The Group monitors its risk to a shortage of funds using its forecasts. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank finance, finance leases and hire purchase contracts. The table below summarizes the maturity profile of the Group's financial liabilities based on contractual undiscounted payments.

Particulars	**On Demand**	**Less than 3 months**	**3 to 12 months**	**1 to 5 years**	**Total**

DIRECTORS' REPORT

Pininfarina Group, the coronavirus and the reference market

The conditions of the Pininfarina Group's reference market for 2021 were better than those of one year earlier.

The Group did not have to interrupt or restrict any of its activities during the year as a result of the Covid-19 pandemic.

The general pick-up in demand with substantially stable prices was stronger in the design activities, both for the automotive and industrial design and architecture markets.

All the group companies grew their design activities leading to a generalised upturn in profit margins, while the engineering operations' volume is in line with 2020, with a significant reduction in operating losses.

The Group discontinued its engineering business in Italy, which was operated by Pininfarina Engineering S.r.l., as a result of the decision of 26 October 2020 to wind up the subsidiary. The winding up procedure should be completed in 2022.

Turning to the performance of the various group companies, Pininfarina S.p.A.'s revenue rose by roughly 9% over 2020, recording an operating profit and a returning to making a profit for the year. It achieved these results partly thanks to the non-recurring effects of reversing impairment losses previously recognised on certain assets and releasing provisions for risks and charges. The upsurge in demand in all sectors combined with the reduction in operating expenses and overheads drove this turnaround from the losses recorded in the previous two years.

In Germany, Pininfarina Deutschland GmbH's revenue was in line with 2020 and it managed to reduce its losses significantly thanks, in part, to its plan to reduce its workforce and operating expense commenced in the previous year.

The Chinese operations, run by Pininfarina Shanghai, which had been adversely affected by the public health emergency, especially in the first six months of the 2020, picked up by approximately 48% with a consequent improvement in profit margins.

The architecture and industrial design sectors, managed by Pininfarina of America in the US market, continued to expand, with volumes up 48%, confirming the improvement in profitability already seen in 2020.

Covid-19 pandemic management measures

At the onset of the public health emergency, the parent, Pininfarina S.p.A., established a Covid-19 committee responsible for assessing and deciding on all of the measures to be taken by the group companies to address issues related to their workers' health and management of their business. The committee meets when necessary to define all the measures required to comply with the regulations issued from time to time by the government (sanitisation of the work premises, availability of personal protective equipment, organisation of video conferences, specific rules for the use of the canteen, social distancing, management of essential business trips, checking Green Passes, etc.). During the year, remote working continued to be encouraged as much as possible, in line with the individual duties, involving 72% of the parent's employees on a rotation basis.

The costs incurred by the Group to purchase materials and to comply with the public health emergency safety regulations amounted to approximately €50 thousand during the year.

Cash flows

The Group's cash and cash equivalents (€29.4 million) increased by €0.8 million during the year, mostly due to the parent's capital increase completed on 25 June 2021.

The Group paid off all its bank overdrafts. Its non-current bank loans and borrowings decreased by €2.5 million, due to the combined effect of the repayment of an annual instalment of €3.6 million, the forgiveness of Pininfarina of America Corp's loan of €0.2 million and the parent's unrealised interest expense of €1.3 million arising from amortised-cost accounting.

Neither the parent, Pininfarina S.p.A., nor its subsidiary Pininfarina Engineering S.r.l. in liquidation availed themselves of the loans provided for by the measures approved by the Italian government to support companies or granted by banks. The subsidiary Pininfarina of America Corp. received a bank loan of roughly €0.2 million as part of the measures introduced by the Small Business Administration to tackle the effects of the pandemic in the United States. In April 2021, the Small Business Administration waived its right to repayment of the loan.

Pininfarina S.p.A.'s financial debt

The parent has continued to meet its obligations, without undue distress, including those under the debt rescheduling agreement (2016-2025) with certain banks. Such agreement, which came into force on 30 May 2016, provides for just one financial covenant (consolidated equity at a minimum of €30 million), compliance with which is assessed at 31 March each year up until repayment of the loan. At 31 March 2021, the covenant had been complied with and, although irrelevant for contractual purposes, it is still complied with at the reporting date. Should the minimum equity threshold not be complied with, the agreement would not be automatically terminated, as it provides for specific remedies and the lending banks can also waive their right to take action. The Mahindra Group has provided a surety that is enforceable if the parent fails to meet its obligations under the rescheduling agreement. Reference should be made to the financial risk management section of the notes for more information on the parent's financial debt and debt rescheduling agreement.

Pininfarina Group's financial performance and financial position

The Group recognised revenue of €66.8 million for 2021, in line with the previous year (€67 million). The current year figure no longer includes the results of Pininfarina Engineering S.r.l. as it commenced its winding up process in October 2020.

The gross operating loss of €7.1 million for 2020 improved to a gross operating profit of €2.3 million thanks to the growth and consequent operating profitability achieved in the design and architecture segment by all group companies.

The operating profit came to €4.1 million, partly attributable to the reversal of impairment losses previously recognised on certain assets (€2.7 million) and the release of some provisions (€2.8 million), compared to an operating loss of €21.5 million in 2020. In addition to the gross operating loss, the 2020 operating loss was due to the impairment losses of €1.8 million recognised on buildings and other assets, net accruals of €6.5 million to the restructuring provision, as well as other impairment losses of €5.2 million. These accruals and impairment losses were partially offset by the utilisation of the provision for losses to complete contracts (€3.1 million). In 2021, the Group did not recognise any specific impairment losses or accruals; on the contrary, as mentioned above, it reversed impairment losses previously recognised on certain assets by €2.7 million and released €2.8 million from the restructuring provision.

Net financial expense decreased to €1.4 million from €1.9 million for 2020. The improvement is mainly due to a decrease in interest expense incurred by the parent and Pininfarina Deutschland and the financial gain arising from the Small Business Administration's forgiveness of the loan of approximately €0.2 million granted to Pininfarina of America.

The Group recognised a tax expense of €0.2 million compared to €1 million in the previous year, when the deferred tax assets recognised by the Pininfarina Deutschland Group were reversed.

As a result of the above, the Group recorded a profit for the year of €2.4 million compared to a loss of €24.4 million for the previous year.

Equity increased by €6 million to €40.2 million at the reporting date, principally due to the profit for the year and the capital increase carried out during the year.

The Group's net financial position came to €6.9 million, compared to €2.4 million at 31 December 2020. The improvement is mostly due to the same reasons for the increase in equity described above.

The workforce numbered 486 at the reporting date (31 December 2021: 639; -24%). The decrease is mostly due to the winding up of Pininfarina Engineering S.r.l. in Italy and the reduction of the engineering activities' personnel in Germany. A breakdown by business segment and by geographical segment is provided below.

Business segment

	Design	Engineering	General staff	TOTAL
31 December 2021	259	146	81	486
31 December 2020	237	308	94	639

Geographical segment

	Italy	Germany	China	USA	TOTAL
31 December 2021	250	167	49	20	486
31 December 2020	373	215	38	13	639

Support and relief measures

In accordance with ESMA recommendations (Public Statement 32-63-972 of 20 May 2020 and reiterated in Public Statement 32-63-1186 of 29 October 2021), the support and relief measures already enjoyed or that will be enjoyed by the Group are summarised below:

- in Italy, the Covid-19-government-sponsored lay-off scheme for 70 employees for a total of 22,740 hours;
- in Germany, the government-sponsored lay-off scheme (Kurzarbeit) for 68 workers for a total of 26,761 hours;
- in 2020, in the US, the subsidiary Pininfarina of America Corp. received a loan of approximately €0.2 million, bearing interest at 1% p.a. and repayable in 18 monthly instalments starting from January 2021. On 23 April 2021, the subsidiary was notified of the Small Business Administration's acceptance of its application for the non-repayment of the loan as part of the measures for helping businesses to overcome the negative effects of the spread of the coronavirus.

The Group plans to continue to use the social shock absorbers made available by the government in Italy.

Information required by Consob (the Italian Commission for listed companies and the stock exchange) pursuant to article 114.5 of Legislative decree no. 58/98

1) The net financial position of the Pininfarina Group and Pininfarina S.p.A., with separate classification of current and non-current items, is respectively shown on pages 29 and 24 hereof.
2) The Group has no past-due liabilities (of a commercial, financial, tax or social security nature). No actions against the Group have been filed by creditors.
3) The Group's and parent's related party transactions are respectively detailed on pages 160 and 76 hereof. Except for a major trading transaction (supply of design and engineering services) between the parent and its associate Automobili Pininfarina GmbH during the year, the related party transactions are substantially unchanged from those reported in the interim separate and condensed interim consolidated financial statements at 30 June 2021. Revenue from related party transactions accounted for 6% of the Group's total revenue for the year, compared to 7.1% for the first half of 2021 (19% in 2020);
4) Under the existing Rescheduling Agreement between the parent and the banks, there is just one financial covenant, to be checked annually beginning from 31 March 2018: consolidated equity at a minimum level of €30 million. At 31 March 2021, it had been complied with. The Group has no further loans and borrowings carrying clauses that limit its use of financial resources.
5) On 12 May 2021, when the shareholders approved the interim financial report at 31 March 2021, Pininfarina S.p.A. announced that its outlook for 2021 was revenue in line with 2020, along with an operating loss and a loss for the year although they would be smaller than those for the previous year. These expectations were confirmed when both the interim financial reports at 30 June and 30 September 2021 were approved. On the basis of the consolidated figures for the entire year, the expectation about revenue was confirmed, while its forecast smaller operating loss and loss for the year were better than expected as it recognised an operating profit and a profit for the year. Other than the above, the parent has not disclosed any other financial forecasts.

Pininfarina S.p.A.

Significant events of the year

No other significant events took place during the year.

Human resources and the environment

During 2021:

- the Group implemented some procedures of the Covid-19-government-sponsored lay-off scheme;
- with reference to the Cambiano and Bairo facilities, the Group implemented two procedures as per Law decree no. 104 of 14 August 2020 offering termination benefits to a total of five employees;
- with reference to the Bairo facility, the Group signed a trade union agreement before the relevant ministry for an extraordinary government-sponsored lay-off scheme due to business discontinuation for the whole of 2020. In October 2020, it replaced it with a Covid-2021- government-sponsored lay-off scheme up until June 2021. The extraordinary government- sponsored lay-off scheme due to business discontinuation was then applied again from 27 June to 2 September 2021 (the end of the 12-month scheme).

In August 2021, the Group signed a trade union agreement before the relevant ministry for an extension of the extraordinary government-sponsored lay-off scheme due to business discontinuation for another six months, i.e., until March 2022;

- there were no deaths in the workplace and there was just one accident leading to an employee's absence for less than 15 days. The parent was not found liable for occupational diseases contracted by employees or former employees or mobbing;
- the parent reached agreements regarding remuneration issues with former employees and no cases were brought against the parent for financial and/or physiological damage (e.g., personal injuries, moral damage, hedonic damage, etc.).

After the start of its winding-up procedure at the end of October 2020, on 2 November 2020, Pininfarina Engineering S.r.l. in liquidation commenced a collective redundancy procedure for business discontinuation. After negotiations with the trade unions, an agreement was reached for a 12-month extraordinary government-sponsored lay-off scheme due to business discontinuation (until 1 November 2021) and the implementation of an accompanying social plan. At the end of the scheme term, all remaining employment agreements were terminated.

With reference to investments in safety in the workplace and the environment, the parent pays utmost attention to the continuous upgrading and/or improvement of operating layouts and machinery/equipment in line with relevant legislation. Expected investments for 2022 amount to roughly €690,000.

In general, the parent considers protecting the environment and health and safety in the workplace to be essential to achieve its objectives. Pininfarina S.p.A. has a 2015 UNI EN ISO 14001-certified environmental management system. A notified body carried out the check to renew the certification of the system's compliance in all Italian facilities in 2021, finding it compliant. The certification was renewed up to October 2024.

Further to the agreement (31 December 2009) to sell the Grugliasco facility to Sviluppo Investimenti Territorio S.r.l. (SIT), an environmental audit was carried out in 2011 on the site where the facility stands. It found that the hydrocarbons parameter in one small area exceeded the legal limit. The parent immediately commenced the reclamation procedures provided for by the environmental legislation. A dispute commenced with the Grugliasco local authorities during their approval of the risk analysis, as they requested that the analysis be extended to the entire facility, which they erroneously believed to be "abandoned". A hearing had been set for 18 November 2019 for the appeal pending before the Italian council of state. With its ruling no. 8170/2019, the council of state dismissed the appeal due to lack of interest, given Pininfarina S.p.A.'s willingness to become proactive, carrying out the reclamation activities as a non-accountable party (article 245 of Legislative decree no. 152/2006 as subsequently amended). Indeed, in 2018, Pininfarina S.p.A. had presented a site characterisation plan to the Grugliasco local authorities as an "interested" but not accountable party following the change in the facts and judicial grounds of the legal dispute. The local authorities approved the plan and calculated the costs to be borne by SIT for the activities that could have prevented the site's characterisation. The procedure is at an advanced stage. On 11 February 2020, executive order no. 106 was issued approving the site's risk assessment report with certain remedies, including the preparation of the reclamation operational plan to be sent to the local authorities. The remedies were implemented, including the filing of the operational plan on 17 December 2020. Further to additional requirements notified by the bodies, the parent presented an updated operational plan to the Grugliasco local authorities that incorporates and supplements these requirements on 27 July 2021. The Grugliasco local authorities approved the updated operational plan with executive decision no. 993 issued on 17 December 2021 and sent to the parent on 30 December 2021.

In December 2019, SIT sued the parent before the Turin Court for alleged damage caused by the sale of the site in 2009 at an unfair price. The parent appeared in court requesting the dismissal of the claim. The case is currently pending. In December 2021, the judge invited the parties to consider a settlement agreement, which the parties are currently finalising.

The next hearing will be held on 28 March 2022.

Research

The Group did not carry out any research during the year.

Going concern

The estimated effects of Covid-19 for 2021

The Group was not directly negatively affected (e.g., downturns in activities and/or cancellations of orders) by the coronavirus during 2021. The outlook for 2022 does not currently anticipate adverse impacts caused by Covid-19.

Group's performance, outlook and going concern issues

In their comments on the 2020 figures, the directors had explained that the sluggish conditions of the Group's reference markets were due to two factors: the continuation of the negative economic cycle of the global automotive industry and the Covid-19 pandemic, which put additional constraints on commercial projects, slowing down the acquisition of new contracts and/or reducing expected contract profit margins.

In this environment of weak reference markets and given the expectations about their future performance, the parent tackled three closely related issues:

- maintaining an appropriate level of liquidity for the Group’s requirements;
- protecting the capitalisation level required by the law and bank agreements;
- creating the conditions for restoring profitability as soon as possible.

The capital increase resolved by the shareholders on 16 March 2021 to strengthen the parent’s liquidity and capitalisation was successfully concluded on 25 June 2021. The parent collected proceeds totalling €23.6 million, increasing its liquidity accordingly. They partly arose from injections already made by its majority shareholder in the previous year (€20 million) and partly by the non- controlling investors’ subscription of their shares in 2021 (€3.6 million).

As mentioned in the previous year’s financial reports, the subsidiary Pininfarina Deutschland Holding GmbH collected the outstanding consideration for the sale of one of its buildings in the first quarter of 2021. Considering the nature of the Group’s customers, there are no particular collection issues as there are no past due amounts which may affect the Group’s cash flows from operating activities and its working capital performance was satisfactory.

In the foreseeable future, the following should be taken into account: the parent’s net financial position amounts to €6.9 million, comprising cash and cash equivalents and financial assets of €27.3 million and loans and borrowings of €20.4 million, whose current portion amounts to €3.8 million. The Group’s net financial position amounts to €6.9 million at the reporting date. According to the 12-month cash budget prepared by the directors, the parent’s and Group’s financial resources at the reporting date should be adequate to cover the expected operating requirements, as well as the outlays necessary to complete the winding up procedure of Pininfarina Engineering S.r.l. in liquidation and to repay the current portion of loans and borrowings when they become due.

Based on the current situation, the directors believe that the parent’s and Group’s financial resources at the reporting date are adequate to cover cash outflows for the next twelve months.

In order to comply with the requirements of the Italian Civil Code governing share capital protection, the parent must monitor its equity at consolidation level closely. Indeed, the only financial covenant provided for by the existing debt restructuring agreement is a minimum level of €30 million (this is checked on 31 March every year and had been complied with at 31 March 2021). Considering the Group’s performance in the first few months of 2022, there are no reasons to believe that compliance with the financial covenant at the next assessment date of 31 March 2022 is at risk. The Mahindra Group has provided a surety that is enforceable if the parent fails to meet its obligations under the rescheduling agreement.

The recently-completed capital increase to strengthen the parent’s financial position has already been discussed.

In order to tackle their performance issues and return to a profit-making position, considering the market performance of the last two years and currently foreseeable outlook, the parent and the Group adopted various measures in 2020 and 2021, including the winding up of the subsidiary Pininfarina Engineering S.r.l., given the market conditions and its no longer sustainable performance, implementation of a redundancy plan for Pininfarina Deutschland GmbH, involving 46 people (approximately 20% of its workforce), reduction of the number of direct and indirect staff working at Pininfarina S.p.A., in order to bring the professional skills and number of resources into line with the current market requirements and a plan to reduce operating expense and overheads, also by increasing resort to outsourcing in some cases. Moreover, the Group developed new commercial projects to better tailor its services to the continuous changes in market demand.

With respect to the winding up of Pininfarina Engineering S.r.l., in the previous year, the Group recognised a restructuring provision to fully cover the obligations reasonably expected at 31 December 2020 on the basis of the collective trade union agreements, the legal requirements, the individual agreements and, given the usual outcome of these procedures, the possible refusal to participate in the plan envisaged by the collective agreements by employees who oppose the agreement. The winding up procedure continued throughout 2021 and all the subsidiary’s employment agreements were terminated in the first half of November 2021 substantially in line with the established redundancy plan and using less outflows of resources than those reasonably forecast when the provision was accrued. The procedure is currently nearing completion, the residual risks have been identified and, at the reporting date, the Group maintained a restructuring provision of €0.5 million expected to be used while releasing the excess accrual of €2.3 million.

At 30 September 2021, all the individual agreements with the redundant 46 workers at Pininfarina Deutschland GmbH envisaged in its restructuring plan had been signed. They cover the workers’ termination benefits as provided for in the restructuring plan at 31 December 2020.

Operating profit margins improved considerably in 2021 compared to the previous year, confirming the soundness of the actions taken in this respect in the previous year. Business opportunities and prices offered were stable, in line with the trend envisaged by the directors for this year.

As described in the 2020 annual financial report, the market situation of that year, which reflected social difficulties that are well known throughout the world, was one of the most difficult in recent decades, particularly in the market sectors in which the Pininfarina Group operates. The demand for services continues to exist for design-related activities albeit much less so for pure engineering based on technical deliverables and the downwards pressure on prices seen in 2020 has eased.

In order to deal with this situation, the parent and the Group are rapidly redirecting their available resources towards those activities considered most likely to generate profits.

The directors also checked whether the previously-prepared financial projections, which are based on the positive effects of the restructuring and refocusing actions undertaken by the Group starting from 2020 and the use of operating cash flows in 2022, were still valid. The 2021 figures show considerable improvement in the operating performance even though sales volumes are in line with the previous year's lows. The Group recognised an operating profit of €4.1 million. Net of the releases of provisions and reversals of impairment losses recognised during the year, the Group would have recognised an operating loss of €0.4 million (nearly at break-even point), which, despite being still negative, would have been significantly better than the €21.5 million operating loss recognised in the previous year.

Although the Group's financial position, financial performance and cash flows improved considerably in 2021, its ability to continue as a going concern will still require significant efforts in terms of sales volumes, cost containment and costs to win future contracts.

According to the directors, given the issues described above, there continues to be significant uncertainty about the achievement of the production volumes and improved profitability goals, as they depend on a prolonged recovery of the markets in which the Group and the parent operate in the next few years, as well as on changes in the costs to win future contracts and procurement costs to maintain the conditions for them to continue to be profitable. This uncertainty may cast material doubts as to their ability to continue as going concerns.

Notwithstanding the above, the directors deem that all measures to limit operating cash outflows and all possible measures to contain costs and provide the Group with sufficient liquidity to support its operations have been successfully implemented. They have assessed existing and prospective projects based on commercial relationships with customers, as well as the Group's available financial resources. After having carried out all relevant checks and evaluated the above uncertainty, including based on the results for 2021, management reasonably expects that the parent and the Group have sufficient resources available to continue their operations for the foreseeable future, as provided for by the IFRS. Due to the above reasons, the directors deem it correct to prepare this annual financial report at 31 December 2021 on a going concern basis.

2021 performance by business segment

Design segment

In addition to the revenue from the automotive and non-automotive design activities of all kinds, this segment includes revenue from architecture services, royalties for the use of the Pininfarina trademark, revenue from aerodynamic and aeroacoustics services and the costs arising from the parent's property management. It recognised revenue of €50.3 million, up by roughly 13% on the €44.6 million recognised in 2020.

Its operating profit came to €2.6 million compared to an operating loss of €6.2 million for 2020, thanks to an improvement in operations and the reversal of the impairment losses on assets recognised in the previous two years. There was an upturn in volumes and profitability of all the group companies.

Engineering segment

This segment, comprising the German engineering businesses, recognised revenue of €16.5 million (€22.4 million in 2020, down by 26%). The current year figures no longer include the results of Pininfarina Engineering S.r.l. in liquidation as it commenced its winding up process in October 2020.

The segment's operating profit came to €1.5 million compared to an operating loss of €10.2 million for 2020. The 2021 figure solely relates to the German operations and mainly reflects the release of the restructuring provision relating to Pininfarina Engineering S.r.l. in liquidation. On a like-for-like basis, the Pininfarina Deutschland Group recognised revenue substantially in line with the previous year, with a significant reduction in operating losses thanks to measures to contain operating expense commenced in 2020.

Other information

During the period from the reporting date to the date of preparation of this report, none of the group companies has approved the distribution of dividends to Pininfarina S.p.A..

Reference should be made to the “General information” section of the notes for details on branches.

The parent does not hold shares of its ultimate parent; reference should be made to note 13 for details on treasury shares.

Reference should be made to the “Financial risk management” section (pages 49 and 133) for the disclosure required by article 2428.6-bis.a)/b) of the Italian Civil Code.

Related party transactions are detailed in the “Other information” section of the notes to the separate financial statements of Pininfarina S.p.A. and the consolidated financial statements of the Pininfarina Group.

Report on corporate governance and ownership structure

With reference to article 123-bis.3 of the Consolidated Finance Act, the information on the adoption of the codes of conduct (Report on corporate governance and ownership structure) is available in the “Investor Relations” section of the parent’s website (www.pininfarina.it) as well as through the other methods provided for by current legislation.

Remuneration report

With reference to article 84-quater of the Issuers’ Regulation, the remuneration report will be available in the “Investor Relations” section of the parent’s website (www.pininfarina.it) as well as through the other methods and within the timeline provided for by current legislation.

Consolidated non-financial statement

Pursuant to the obligation introduced by Legislative decree no. 254/2016 about the presentation of a consolidated non-financial statement, this statement is available in the “Investor Relations” section of the parent’s website (www.pininfarina.it) as well as through the other methods provided for by current legislation.

FINANCIAL PERFORMANCE AND FINANCIAL POSITION OF THE PININFARINA GROUP

Financial performance

Including the revenue from contracts with customers and royalties, revenue increased by €0.8 million to €66.3 million from €65.5 million in the previous year. The change in finished goods was a negative €26 thousand (positive €11 thousand in 2020). Other revenue and income decreased to €0.6 million from €1.5 million in the previous year.

2021 consolidated revenue amounted to €66.8 million, substantially unchanged from the previous year. A breakdown of revenue by business segment is given later on. Net gains on the sale of non-current assets totalled €0.1 thousand in 2021 (€0.9 million in 2020) and mostly related to the sale of two buildings by Pininfarina Deutschland Holding GmbH.

Operating expense, including changes in inventories, came to €28.1 million (€25.9 million in 2020).

Value added fell by €3.5 million to €38.6 million from €42.1 million in the previous year.

Labour cost amounted to €36.3 million (€49.1 million in the previous year).

The gross operating loss of €7.1 million for 2020 improved to a gross operating profit of €2.3 million thanks to the better performance and operating profitability achieved in the design and architecture segment by all group companies.

Amortisation and depreciation amounted to €3.1 million with a decrease of €1 million (€4.1 million for 2020), mainly related to the impairment losses recognised by Pininfarina Engineering S.r.l. in liquidation in the previous year and the sale of buildings by Pininfarina Deutschland.

Additions to/utilisation of provisions and impairment gains and losses came to a positive €4.9 million (negative €10.4 million for 2020). Releases of restructuring provisions amounted to €2.8 million (additions of €6.5 million in 2020), impairment losses on foreign withholding taxes came to €0.6 million (€5.2 million in the previous year) and reversals of impairment losses amounted to €2.7 million (impairment losses of €1.8 million in 2020). Additions to and utilisations of the provision for losses to complete contracts substantially offset each other in 2021 (reversal of €3.1 million in 2020).

As a result, the Group recognised an operating profit of €4.1 million (operating loss of €21.5 million in 2020).

Net financial expense decreased to €1.4 million from €1.9 million for 2020. The improvement is mainly due to a decrease in interest expense incurred by the parent and Pininfarina Deutschland and the financial gain arising from the Small Business Administration’s forgiveness of the loan granted to Pininfarina of America. The Group recognised an income tax expense of €0.2 million compared to €1 million in the previous year, which included the impairment of deferred tax assets in Germany.

The profit for 2021 came to €2.4 million compared to a loss of €24.4 million for the previous year.

(*) **Materials and services** are net of utilisations of the provisions for product warranties and risks (€60 thousand and €32.9 thousand for 2020 and 2021, respectively) and the restructuring provision (€207 thousand and nil for 2021 and 2020, respectively).

(**) **Labour cost** is net of utilisations of the restructuring provision (€2,653 thousand and nil for 2021 and 2020, respectively).

As required by Consob resolution no. DEM/6064293 of 28 July 2006, a reconciliation of the data in the consolidated financial statements with those in the reclassified schedules is provided below:

- **Materials and services** include raw materials and components, other variable production costs, external variable engineering services, exchange gains and losses and other expenses.
- **Amortisation and depreciation** comprise amortisation of intangible assets and depreciation of property, plant and equipment, investment property and right-of-use assets.
- **(Additions to)/utilisation of provisions and impairment (losses) and gains** include additions to/utilisation of provisions, net impairment losses and inventory write-downs.
- **Net financial expense** comprises net financial income (expense) and dividends.

Financial position

Net capital requirements at 31 December 2021 increased by €1.4 million on the previous year end, mainly due to an increase in net non-current assets and working capital requirements.

Specifically:

net non-current assets totalled €44.1 million, down by €1.1 million on 31 December 2020, comprising an increase of €0.7 million in intangible assets (reversal of impairment losses of €0.3 million, additions of €0.5 million and amortisation of €0.1 million) and of €1 million in property, plant and equipment (reversal of impairment losses of €2.3 million, additions of €0.7 million and depreciation of €2 million) and a decrease of €0.6 million in right-of-use assets;

working capital fell by €0.2 million to a negative €8.1 million from a negative €7.9 million at 31 December 2020;

post-employment benefits amounted to €2.7 million, down €0.5 million on the prior year end (€3.2 million), due to payments made by the parent during the year;

capital requirements were funded by:

- a €6 million increase in equity, which went from €34.2 million at 31 December 2020 to €40.2 million at 31 December 2021. The increase is mainly attributable to the capital increase and comprehensive income;
- net financial position of €6.9 million, up from the €2.4 million recognised at 31 December 2020, mainly due to working capital trends.

K.	Trade payables and other current liabilities	-	-	-
L.	**Net non-current financial debt (I+J+K)**	**18,368**	**21,499**	**(3,131)**
M.	**Net financial position (H+L)**	**(6,380)**	**(1,837)**	**(4,543)**

The "Net financial position" set out above is presented in accordance with the format recommended by ESMA Guidelines 32-82-1138 enacting Regulation (EU) 2017/1129 applicable since 5 May 2021. Because the purpose of this table is to show "Net financial debt", assets are shown with a minus sign and liabilities with a plus sign. On the contrary, in the "Net financial position" table provided on the previous page, assets are shown with a plus sign and liabilities with a minus sign.

The reason for the difference between the amount of the "Net financial position" of the first table and that of the ESMA table is that the latter does not include non-current loan assets. The total amount of these differences at the relevant reporting dates is shown below:

- At 31 December 2020: €550 thousand
- At 31 December 2021: €550 thousand

The net financial position at the reporting date comprises the effect of IFRS 16 (approximately €3.3 million compared to €4.5 million at 31 June 2020).

RECONCILIATION BETWEEN THE PARENT'S PROFIT AND EQUITY AND CONSOLIDATED PROFIT AND EQUITY

The parent's profit and equity as at and for the year ended 31 December 2021 are reconciled with the Group's figures below.

OUTLOOK FOR 2022

Based on the current situation of the business sectors where the Pininfarina Group operates, its outlook for 2022 is an increase in revenue compared to 2021.

With regard to the current geopolitical context characterised by the Russia-Ukraine conflict, the Pininfarina Group sales to countries affected by the current war are immaterial and the effect of their suspension is minimal. The macroeconomic scenario is likely to be adversely impacted by a significant increase in energy and commodity prices. However, since the Group does not make major use of these resources, any negative impact is expected to only be indirect and marginal.

Pursuant to Consob resolution no. 15519 of 27 July 2006, the impact of transactions with related parties, which are those with the ultimate parent, PF Holding B.V., the Mahindra group companies and the associates Goodmind S.r.l. and Signature S.r.l., are disclosed in notes 5, 7, 10 and 16 to the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

GENERAL INFORMATION

Foreword

The core business of the Pininfarina Group (the "Group") is based on the establishment of comprehensive partnerships with carmakers. Operating as a global partner enables it to work with customers through the entire process of developing new products, including design, planning, development, industrialisation and manufacturing, or to provide support separately during any one of these phases with the utmost flexibility.

Pininfarina S.p.A., the Group's parent, is listed on the Italian Stock Exchange. Its registered office is in Via Raimondo Montecuccoli 9, Turin. Market investors own 21.16% of its share capital, with the remaining 78.84% held by the following shareholders:

- PF Holdings B.V. 78.82%,
- treasury shares held by Pininfarina S.p.A. 0.02%.

On 5 July 2021, after filing the capital increase certification with the Turin company registrar, PF Holdings B.V.'s (its majority shareholder) investment in the parent increased from 76.15% to 78.82%.

At the reporting date, PF Holdings BV is controlled by Tech Mahindra Limited, which holds 60% of its share capital. Mahindra & Mahindra Limited holds the other 40%.

Tech Mahindra Limited, an Indian company listed on the National Stock Exchange of Mumbai (India), is a public company, specialised in IT services and solutions. It is not controlled by any major shareholder. Mahindra & Mahindra Limited holds an investment of 26% therein at the reporting date. Mahindra & Mahindra Limited is a company incorporated under Indian law, with registered office in India, whose shares are listed on the Indian National Stock Exchange. It is specialised in the production of cars, commercial vehicles, buses and tractors.

Despite being directly controlled by PF Holdings B.V., which is part of the Mahindra Group, Pininfarina S.p.A. is neither managed nor coordinated by PF Holdings B.V. pursuant to article 2497 and following articles of the Italian Civil Code. PF Holdings B.V. is simply a vehicle incorporated under Dutch law without an operating structure. There is no authorisation or reporting procedure in place that Pininfarina S.p.A. should follow in the relationships with its parent and, therefore, it has full autonomy to define its strategic and operating objectives, since it has (i) a structured organisation able to perform all business and corporate activities, (ii) its own distinct strategic and financial planning process and (iii) the ability to make proposals about how to conduct and develop its business.

A list of the group companies, with their complete name and address, is provided later on.

The consolidated financial statements are presented in Euros, the functional and presentation currency of the parent, where most of the activities and consolidated revenue are concentrated, and its main subsidiaries.

All amounts are presented in Euros, unless stated otherwise.

The Board of Directors approved these consolidated financial statements on 23 March 2022. They were authorised for publication according to the legal terms.

Basis of presentation

In accordance with IAS 1 - Presentation of financial statements, the consolidated financial statements have the same basis of presentation as that of the parent. They include the following:

- statement of financial position, in which current and non-current assets and liabilities are classified separately;
- statement of profit or loss and statement of comprehensive income, shown as two separate schedules in which costs are classified by nature;
- statement of cash flows, presented in accordance with the indirect method, as allowed by IAS 7 - Statement of cash flows;
- statement of changes in equity.
- notes to the consolidated financial statements.

These schedules present the corresponding prior year annual figures for comparative purposes.

Moreover, as required by Consob resolution no. 15519 of 28 July 2006, the Group presents the following information in separate schedules:

- net financial position, with a breakdown of the main components and balances with related parties.
- the effects of non-recurring events or transactions, i.e., those transactions or events that are not repeated frequently in the normal course of business.

Related party transactions are not presented in separate schedules because they are listed as separate items in the statement of financial position.

Basis of preparation

These consolidated financial statements are prepared on a going concern basis, which the directors deemed appropriate.

These consolidated financial statements at 31 December 2021 comply with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and endorsed by the European Union. They are also consistent with the regulations enacted to implement article 9 of Legislative decree no. 38/2005.

The term IFRS includes the International Financial Reporting Standards, the International Accounting Standards ("IAS") and all interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"), previously called the Standing Interpretations Committee ("SIC"), endorsed by the European Commission as of the date of the Board of Directors' meeting convened to approve the consolidated financial statements and listed in the applicable regulations published by the European Union as of the above-mentioned date.

These consolidated financial statements are prepared in accordance with the general principle of historical cost, except for those items that, pursuant to the IFRS, shall be measured at fair value, as explained in the "Accounting policies" section.

The accounting policies adopted to prepare these consolidated financial statements at 31 December 2021 are the same as those used in 2020, except as noted in the following section.

Actuarial valuations of post-employment benefits are performed during the preparation of the condensed interim consolidated financial statements at 30 June and annual consolidated financial statements.

New standards, amendments and interpretations applicable from 1 January 2021

The following standards, interpretations and amendments to existing standards became applicable on 1 January 2021, without having a significant effect on the Group's consolidated financial statements:

Interest rate benchmark reform (amendments to IFRS 9, IAS 39 and IFRS 7)

The IASB published the amendments, necessary after the reform of the IBOR, to reflect the reform's consequences on financial reporting and provide guidance on how entities can continue to comply with the rules assuming that the existing interest rate benchmarks are not modified after the interest rate benchmark reform. The amendments to IFRS 9 and IAS 39 - Financial instruments - recognition and measurement provide practical expedients applicable to all hedging relationships directly affected by the interest rate benchmark reform. A hedging relationship is affected if the reform generates uncertainty about the timing and/or amount of the cash flows based on reference parameters of the hedged item or the hedging instrument. These amendments did not affect these consolidated financial statements as the Group has not agreed interest rate hedges.

New standards, amendments and interpretations published but not yet applied early by the Group

Standards and/or amendments applicable from 1 January 2022:

- Onerous contracts - Cost of fulfilling a contract (amendments to IAS 37)

  The amendments specify which costs an entity includes in determining the cost of fulfilling a contract for the purpose of assessing whether the contract is onerous. These costs are:

- incremental costs (direct labour and materials);
- an allocation of other costs (for example, an allocation of the depreciation charge for an item of property, plant and equipment).

  These amendments are effective for annual reporting periods beginning on or after 1 January 2022 and to contracts not yet fulfilled at the date of their initial application. At such date, the cumulative effect of applying the amendments shall be recognised as an adjustment to the opening balance of retained earnings or other equity items, as the case may be, with no restatement of comparative amounts.

  Under a group policy, the group already applies the requirements of the amendments to IAS 37 and, therefore, it does not expect that their future application will affect its consolidated financial statements.

Other standards/amendments which are not expected to produce significant effects:

- Covid-19-related rent concessions beyond 30 June 2021 (amendment to IFRS 16);
- Annual improvements to IFRS Standards (cycle 2018-2020) - Amendments to IFRS 1, IFRS 9, illustrative example of IFRS 16 and IAS 41;
- Property, plant and equipment - Proceeds before intended use (amendments to IAS 16)
- Reference to the Conceptual Framework (amendments to IFRS 3)

Standards and/or amendments applicable from 1 January 2023:

- Classification of liabilities as current or non-current (amendment to IAS 1)
- IFRS 17 - Insurance contracts
- Definition of accounting estimates (amendments to IAS 8)
- Disclosures of accounting policies (amendments to IAS 1 and IFRS Practice Statement 2)
- Deferred tax related to assets and liabilities arising from a single transaction (amendments to IAS 12).

The above standards/amendments are not expected to significantly affect the Group's consolidated financial statements.

ACCOUNTING POLICIES

Consolidated financial statements

The consolidated financial statements include the financial statements of all subsidiaries from the date the group acquires control until such control ceases to exist. Joint ventures (if any) and associates are measured using the equity method.

Intragroup expenses, revenue, receivables, payables, gains and losses are eliminated in the consolidation process.

When necessary, the accounting policies of subsidiaries, associates and joint ventures are amended to make them consistent with those of the parent.

(a) Subsidiaries and business combinations

A list of the companies consolidated line by line is provided below:

Name	Registered office	Investment %	Held by	Currency	Share/quota capital
Pininfarina of America Corp.	501 Brickell Key Drive, Suite 200, Miami FL 33131 USA	100%	Pininfarina S.p.A.	USD	10,000
Pininfarina Engineering S.r.l. in liquidation	Via Raimondo Montecuccoli 9, Turin, Italy	100%	Pininfarina S.p.A.	€	100,000
Pininfarina Deutschland Holding GmbH	Riedwiesenstr. 1, Leonberg, Germany	100%	Pininfarina Engineering S.r.l. in liquidation	€	3,100,000
Pininfarina Deutschland GmbH	Frankfurter Ring 81, Munich, Germany	100%	Pininfarina Deutschland Holding GmbH	€	25,000
Pininfarina Shanghai Co. Ltd	Unit 1, Building 3, Lane 56, Antuo Road, Anting, 201805, Jiading district, Shanghai, China	100%	Pininfarina S.p.A.	CNY	3,702,824

The reporting date of the subsidiaries is the same as that of the parent, Pininfarina S.p.A..

As discussed earlier, at their meeting of 26 October 2020, Pininfarina Engineering S.r.l.'s quotaholders resolved to wind it up.

(b) Acquisition/sale of equity investments subsequent to the acquisition of control

Acquisitions and sales of equity investments subsequent to the acquisition of control that do not result in a loss of control are accounted for as owner transactions.

In the case of acquisitions, the difference between the consideration paid and the pro rata interest in the carrying amount of the net assets acquired is recognised in equity. In the case of sales, the resulting gain or loss is also recognised directly in equity.

If the Group loses control or significant influence, the remaining non-controlling interest is remeasured at fair value and any positive or negative difference between its carrying amount and fair value is recognised in profit or loss.

(c) Associates

Associates are listed below:

Name	Registered office	Investment %	Held by	Currency	Quota capital
Goodmind S.r.l.	Corso Vittorio Emanuele II 12, Turin, Italy	20%	Pininfarina S.p.A.	€	20,000
Signature S.r.l.	Via Paolo Frisi 6, Ravenna, Italy	24%	Pininfarina S.p.A.	€	10,000

(d) Other companies

Investments in other companies that are available-for-sale financial assets are measured at fair value, if feasible, and any resulting gains or losses are recognised in equity until the investments are sold. At that point, fair value gains or losses accumulated in equity are immediately reclassified to profit or loss.

If the equity investments are not listed on a regulated market and their fair value cannot be reliably determined, they are measured at cost, adjusted for any impairment losses, which cannot be reversed.

Translation of foreign currency captions

(a) Presentation currency and translation of financial statements denominated in currencies other than the Euro

The Group's presentation currency is the Euro.

The table below lists the exchange rates used to translate financial statements denominated in functional currencies different from the presentation currency:

Euro vs currency	31.12.2021	2021	31.12.2020	2020
US dollar - USD	1.13	1.18	1.23	1.14
Chinese renminbi (yuan) - CNY	7.19	7.63	8.02	7.87

(b) Foreign currency assets, liabilities and transactions

Transactions carried out in currencies other than the Euro are initially translated at the exchange rate in force on the date of the transaction.

At the reporting date, monetary assets and liabilities denominated in foreign currencies are retranslated into Euros at the closing rate. All resulting exchange gains and losses are recognised in profit or loss, except for those stemming from foreign currency loans that hedge investments in foreign operations, which are recognised directly in equity, net of the related tax effects. When the equity investment is sold, the accumulated translation differences are reclassified to profit or loss.

Non-monetary items that are carried at historical cost are translated into Euros at the exchange rate in force when the underlying transaction was initially recognised. Non-monetary items that are carried at fair value are translated into Euros at the exchange rate in force on the measurement date.

None of the group companies operate in a hyperinflationary economy.

Property, plant and equipment

Property, plant and equipment comprise items used in production, including those held under finance lease. They are recognised at purchase or production cost, net of accumulated depreciation and impairment losses (if any), except for land, which is not depreciated.

The cost includes all purchase-related outlays, i.e., those incurred to bring the asset to the place and conditions necessary for its operation.

Depreciation of buildings and other generic assets is calculated on a straight-line basis, in order to allocate their residual carrying amount over their estimated useful life.

The depreciation rates applied to each asset category are set out below:

	Useful life (years)	
Category	**Bairo and San Giorgio facilities**	**Other facilities**
Land	Indefinite	Indefinite
Buildings	50	33
Machinery	20	10
Plant	20	10
Machinery	-	5
Furniture and fixtures	10	8
Hardware	-	5
Other, including vehicles	-	5

Land is recognised separately and is not depreciated but tested for impairment whenever the Group identifies indicators that the carrying amount exceeds the recoverable amount. Subsequent costs are capitalised only if it is probable that they will generate future economic benefits and their amount can be determined reliably. Should a portion be replaced, its carrying amount is derecognised. Costs that do not meet these requirements are immediately recognised in profit or loss. The carrying amount and useful life of property, plant and equipment are reviewed at each reporting date and adjusted, if necessary, prospectively pursuant to paragraphs from 32 to 38 of IAS 8 - Accounting policies, changes in accounting estimates and errors. Gains and losses on the sale, calculated as the difference between the asset's carrying amount and sales price, are recognised in profit or loss. In these notes, impairment losses mean the amounts recognised to adjust the assets' carrying amounts to their recoverable amount.

Government grants

Government grants are recognised at fair value only if the Group is reasonably certain that they will be disbursed and has met all conditions for their collection. They are recognised as revenue in proportion to the costs incurred. As required by paragraph 17 of IAS 20 - Accounting for government grants and disclosure of government assistance, grants related to assets are recognised as deferred income and reclassified to profit or loss in line with the depreciation pattern of the related asset.

Intangible assets

Intangible assets are identifiable non-monetary assets without physical substance. They are controlled by the Group and generate measurable future economic benefits. They are recognised at cost, calculated using the same criteria as for property, plant and equipment.

(a) Software and other licences

Software and other similar licences are recognised as assets at cost, including that incurred to use them. They are amortised over their estimated useful life, which ranges between three and five years. Costs incurred to maintain software programs are immediately recognised in profit or loss. Those incurred to develop identifiable software that is controlled by the Group, which are very likely to produce future economic benefits exceeding the costs incurred, if any, are recognised as intangible assets and amortised over their useful life, which does not exceed three years.

(b) Research and development expenditure

Research expenditure, as defined by IAS 38 - Intangible assets, is expensed when incurred in accordance with IAS 38.54. Development expenditure is recognised as an intangible asset only if it can be measured reliably and if it is probable that the related project is likely to be successful, with reference to its technical feasibility, the availability of financial resources to complete it and its commercial penetration. Development expenditure that does not meet these requirements is expensed when incurred. This expense is never reclassified as an asset in subsequent years, if the requirements for its recognition as an asset are met after it is recognised in profit or loss. Development expenditure is amortised from when the related output is marketed over the estimated period during which it will generate economic benefits, which can never exceed five years. It is tested for impairment when the Group identifies indicators that its carrying amount exceeds its recoverable amount. The Group carries out development projects on behalf of third parties as part of both design, engineering and car manufacturing contracts and solely design and engineering contracts. Development expenditure incurred as part of design and engineering contracts sold to third parties is classified as a contractual cost under IFRS 15 and, accordingly, no intangible asset is recognised. Development expenditure related to design, engineering and manufacturing contracts which give the Group a total or partial guarantee that the investment made on behalf of a customer will be recovered is classified as a financial asset under IFRIC 4 - Determining whether an arrangement contains a lease, or, when the conditions for the application of this interpretation are not met, in the carrying amount of the specific equipment under property, plant and equipment.

(c) Other intangible assets

Other intangible assets acquired separately are recognised at cost. Those acquired as a result of a business combination are recognised at their acquisition-date fair value. After initial recognition, those with a finite useful life are subsequently measured at cost, adjusted for accumulated amortisation and impairment losses, whereas those with an indefinite useful life are measured at cost but not amortised. They are tested for impairment at least annually. Their useful life is checked at least annually. Where possible, any changes are made prospectively pursuant to paragraphs from 32 to 38 of IAS 8 - Accounting policies, changes in accounting estimates and errors.

Impairment of non-financial assets

Intangible assets with an indefinite useful life, including goodwill, are tested for impairment at least annually and whenever there are indicators of impairment. Property, plant and equipment, investment property and intangible assets with a finite useful life are tested for impairment only if the Group identifies indicators that their carrying amount may exceed their recoverable amount. The recoverable amount is the higher of an asset's (or cash-generating unit's) fair value less costs to sell and its value in use, which is calculated as the present value of the future cash flows expected to be derived from an asset, to be based on reasonable and supportable assumptions that represent management's best estimate of the future economic conditions. The discount rate used reflects current market assessments of the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted. This rate for the Group is the weighted average cost of capital ("WACC").

When the carrying amount of an asset exceeds its recoverable amount, the Group recognises the difference as an impairment loss in profit or loss. If the reasons for the impairment loss no longer exist in future years, the impairment loss is reversed to the extent of the pre-impairment carrying amount, less amortisation/depreciation. Impairment losses on goodwill can never be reversed. Cash-generating units are identified in line with the Group's organisational structure and business, by grouping those assets that are able to generate cash inflows independently, as required by IAS 36 - Impairment of assets; they are not larger than the two operating segments identified under IFRS 8 - Operating segments: 1) design; 2) engineering. In assessing the recoverable amount for impairment testing purposes, the Group makes reference to the fair value of owned real estate complexes, measured using the market valuations available at the Public Real Estate Registry Office and possibly appraisals prepared by independent experts.

Non-current assets held for sale

Non-current assets, together with current and non-current assets included in disposal groups, whose carrying amount will be recovered through their sale rather than continuing use, are classified as held for sale. Assets held for sale and directly-associable liabilities are classified in the statement of financial position separately from the Group's other assets and liabilities, in accordance with paragraphs from 38 to 40 of IFRS 5 - Non-current assets held for sale and discontinued operations. Assets held for sale are not amortised or depreciated and are measured at the lower of their carrying amount and fair value less costs to sell. Any difference between the carrying amount and fair value less costs to sell is recognised in profit or loss as an impairment loss. Any subsequent improvement in fair value less costs to sell is recognised as a reversal to the extent of the impairment losses previously recognised, including those recognised prior to the classification of the asset as held for sale.

Investments in associates

Investments in associates are recognised in the consolidated financial statements using the equity method, as required by IAS 28 - Investments in associates and joint ventures and IFRS 11 - Joint arrangements. An associate is an entity in which the Group holds at least 20% of its voting rights and over which it exercises a significant influence but not control or joint control.

Under the equity method, the equity investment is recognised in the statement of financial position at cost, increased by subsequent changes in the Group's share of the associate's net assets.

Equity investments in other companies

The other equity investments (other than in subsidiaries and associates) are classified as non-current or current assets, depending on whether the Group intends to maintain the investment in its assets for a period longer or shorter than twelve months, respectively.

Equity investments in other companies are initially recognised at acquisition cost and subsequently measured at FVTPL, as required by IFRS 9.

In the absence of a principal active market, the Group identifies the investment's fair value as its acquisition cost, considering it as the most reliable input in accordance with IFRS 13.

Financial assets and liabilities

The Group initially measures financial assets at fair value plus, except in the case of financial assets at fair value through profit or loss, transaction costs.

IFRS 9 classifies financial assets into three main categories: at amortised cost, at fair value through other comprehensive income (FVOCI) and at fair value through profit or loss (FVTPL).

The classification is based on either the business model adopted by the Group to manage the asset or the SPPI (solely payments of principal and interest) test, if the financial instruments' contractual cash flows solely comprise payments of principal and interest.

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (FVOCI) – debt instrument; FVOCI – equity investment; or fair value through profit or loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, "principal" is defined as the fair value of the financial asset on initial recognition. "Interest" is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g., non-recourse features).

Financial assets: subsequent measurement and gains and losses

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Debt instruments at FVOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

Financial liabilities: classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Financial expense

In accordance with IAS 23 - Borrowing costs, borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Otherwise, they are recognised in profit or loss on an accruals basis.

Inventories

Inventories are recognised at the lower of cost and net realisable value, which is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale. Under IAS 2 - Inventories, the cost is calculated using the FIFO (“first-in first-out”) method. The cost of finished goods and semi-finished products includes design, raw materials and direct labour costs, other direct costs and other indirect costs that can be directly allocated to the production activity based on normal production capacity. This cost does not include borrowing costs. Based on the assets’ expected future use and net realisable value, materials, finished goods, spare parts and other obsolete or slow-moving items are written down through an allowance account. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Cash and cash equivalents

Net cash and cash equivalents include cash-in-hand, on-demand bank deposits, other investments that may be sold within three months and bank overdrafts, which are recognised in the relevant caption under current liabilities. In accordance with paragraph 8 of IAS 7 - Statement of cash flows, the cash flow for the year is equal to the change in net cash and cash equivalents.

Share capital

Ordinary shares are classified in equity. There are no other share categories. Costs directly related to the issue of ordinary shares or options are recognised in equity. If a group company acquires the parent’s shares, or if the parent itself repurchases its own shares within the limits established by article 2357 of the Italian Civil Code, the consideration paid, net of any transaction cost, is deducted from equity attributable to the owners of the parent until the treasury shares are cancelled, possibly assigned to employees or resold. The parent’s share capital comprises 78,673,836 ordinary shares without a nominal amount.

Employee benefits

(a) Pension plans

The Pininfarina Group’s employees participate in defined contribution plans and defined benefit plans. The latter are a portion of the Italian post-employment benefits provided for by article 2120 of the Italian Civil Code and, therefore, do not comprise any plan assets. Defined contribution plans are formalised plans for post-employment benefits that require that the Group pay contributions to an insurance company or a pension fund. By doing this, the Group does not have any other legal or constructive obligation to pay additional contributions should the fund not have sufficient resources to pay all benefits accrued by employees over their current and past service periods when the benefits become due. These contributions paid in exchange for the service rendered by employees are recognised as an expense on an accruals basis. This category includes the payments made to the Cometa and Previp funds. Under defined benefit plans, the Group has a future obligation to pay the pension benefit to the employee upon termination of employment. The amount of the benefit depends on different factors, such as age, seniority and remuneration. The Group, therefore, takes on actuarial and investment risks arising from the plan. It calculates the present value of the plan liability and the service cost using the projected unit credit method, based on the actuarial calculation that uses demographic (mortality rate and turnover) and financial (discount rate and future salary and benefit increases) variables. The post-employment benefits of the Group’s Italian employees are classified as follows pursuant to IAS 19 - Employee benefits:

- defined benefit plan for the portion vested prior to enactment of the Finance Act (Law no. 296 of 27 December 2006) and related implementing decrees;
- defined contribution plan for the portion accrued thereafter.

At the annual and half year reporting dates, the Group calculates the benefits using an actuarial valuation. The accumulated actuarial losses and gains arising from changes in estimates are recognised in a specific caption of comprehensive income. Any curtailment or extinguishment of a plan liability is immediately recognised in profit or loss.

(b) Incentives, bonuses and profit-participation plans

The Group recognises a cost and a liability for its obligations for incentives, bonuses and profit-participation plans. The liability is recognised when the Group has a legal or constructive obligation and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

(c) Termination benefits

The Group recognises a liability and personnel expense when it is demonstrably committed to terminating the employment of an employee or group of employees before the normal retirement date or provide termination benefits as a result of an offer made in order to encourage voluntary redundancy. The Group is demonstrably committed to a termination when, and only when, it has a detailed formal plan for the termination and is without realistic possibility of withdrawal.

(d) Share-based payments

The Group has granted additional benefits to its key management personnel in the form of equity-settled share based plans (e.g., stock options). Under IFRS 2 - Share-based payment, the fair value of the stock options calculated at the grant date using the Black & Scholes method is recognised as personnel expense in profit or loss on a straight-line basis over the vesting period, with a balancing entry recognised in equity.

The effects of the non-market vesting conditions are not considered in the fair value measurement of the options granted, but are taken into account in measuring the number of expected exercisable options.

The Group revises its estimates of expected exercisable options at each reporting date.

The resulting effects are recognised in profit or loss over the vesting period with a balancing entry recognised in equity.

When the options are exercised, the amounts received from employees, net of directly attributable transaction costs, increase the share capital to the extent of the nominal amount of the issued shares. The remainder increases the share premium reserve.

Provisions for risks and charges, contingent liabilities

The provisions for risks and charges include specific costs and losses whose existence is certain or probable but whose amount or due date is unknown at the reporting date. Provisions are recognised when all the following conditions are met: (i) the Group has a present obligation (legal or constructive) as a result of a past event; (ii) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; (iii) a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation or transfer it to third parties at the reporting date. Where the effect of the time value of money is material and the payment dates can be estimated reliably, the provision is discounted to present value. The Group recognises expected restructuring costs when a restructuring plan is formalised only if it has raised a valid expectation in those affected that it will carry out the restructuring. The liability accrued in the provisions for risks and charges is regularly adjusted for changes in estimated costs, expected timing and discount rates. Changes in estimates of provisions are recognised in the same income statement caption as the related addition. Disclosures about contingent liabilities, i.e.: (i) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; (ii) a present obligation that arises from past events, whose amount cannot be measured reliably or whose settlement will probably not require an outflow of resources embodying economic benefits are provided in the notes.

Leases

At inception of a contract, the Group assesses whether a contract is or contains a lease. A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. For the purpose of this assessment, the Group applies IFRS 16.

i. Model for lessees

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for leases of buildings, the Group has elected not to separate non-lease components and instead accounts for the lease and non-lease components as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, including the initial measurement of the lease liability adjusted by lease payments made at or before the commencement date, increased by initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the underlying asset or the site on which it is located, net of any lease incentives received.

The right-of-use assets are subsequently depreciated on a straight-line basis from the commencement date over the lease term, unless their ownership is transferred to the Group at the end of the lease term or, considering the right-of-use assets, it is expected that the Group will exercise a purchase option. In that case, the right-of-use asset is depreciated over its estimated useful life, determined on the same basis as for property and equipment. Furthermore, the right-of-use assets are regularly tested for impairment and adjusted for remeasurement of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group's incremental borrowing rate is calculated based on interest rates obtained from various external financing sources adjusted to reflect the lease terms and the leased asset:

– fixed payments (including in-substance fixed payments);
– variable lease payments for leases depending on an index or a rate, initially measured by reference to an index or rate at the commencement date;
– amounts expected to be payable under residual value guarantees; and
– the price of a purchase option, which the Group is reasonably certain to exercise, lease payments due in the optional renewal period, if the Group is reasonably certain to exercise the option to extend the lease, and termination penalties unless the Group is reasonably certain not to cancel the lease before the end of the lease term.

The lease liability is measured at amortised cost using the effective interest method and is remeasured to reflect a change in an index or a rate used to determine lease payments, a change in the amount expected to be payable under residual value guarantees, a change in the assessment of whether a purchase, extension or termination option is reasonably certain to be exercised, or a revision of in-substance fixed payments.

When a lease liability is remeasured, the lessee adjusts the related right-of-use asset accordingly. If the carrying amount is decreased to zero, the lessee recognises the adjustment in profit or loss.

The Group presents right-of-use assets that do not meet the definition of investment property under "Right-of-use assets" and lease liabilities under "Lease liabilities" in the statement of financial position.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. It recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

ii. Model for lessors

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

At the inception of the lease, the Group determines whether each lease is a finance lease or an operating lease.

To this end, it makes an overall assessment of whether the lease transfers substantially all of the risks and rewards of ownership of the underlying asset. In this case, the lease is a finance lease; if not, it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the useful life of the underlying asset.

With regard to sub-leases, as intermediary lessor, the Group accounts for its interest in the head lease and the sub-lease separately. To this end, the Group classifies the sub-lease with reference to the right-of-use asset arising from the head lease, rather than the underlying asset. If the head lease is a short-term lease to which the Group applies the aforementioned exemption, the sub-lease is classified as an operating lease.

If a contract contains a lease component and one or more non-lease components, the Group applies IFRS 15 to allocate the contract consideration.

The Group applies the derecognition and impairment losses requirements of IFRS 9 to the net investment in a lease (reference should be made to note 45(R)(i)). It periodically revises the estimated unguaranteed residual values used in calculating the gross investment in the lease.

The Group recognises the lease payments associated with operating leases as income on a straight-line basis over the lease term under "Other revenue and income".

In general, the accounting policies applied by the Group as a lessor in the previous year did not differ significantly from the IFRS 16 requirements, except for the sub-lease entered into during the year, which has been classified as a finance lease.

Income taxes

(a) Current taxes

Current taxes are recognised by each group company on the basis of their estimated taxable profit using the tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date, taking into account any domestic tax consolidation arrangements, applicable exemptions and tax assets.

(b) Deferred taxes

Under IAS 12 - Income taxes, deferred taxes are calculated for all temporary differences between the assets' and liabilities' tax bases and carrying amounts, except in two cases: (i) goodwill arising from a business combination, (ii) the initial recognition of an asset or liability in a transaction which is not a business combination and affects neither accounting profit nor taxable profit (tax loss). Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are respectively classified as non-current assets and liabilities. They are offset at individual company level if related to taxes that can be legally offset. The resulting balance, if positive, is recognised as a deferred tax asset and, if negative, as a deferred tax liability. Current and deferred taxes related to transactions directly affecting equity are recognised in equity. The Group recognises deferred tax assets to the extent that it is probable that taxable profit will be available against which the temporary difference can be utilised. The carrying amount of a deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilised. Deferred taxes on undistributed profits of the group companies are recognised only if the company really intends to distribute such profits and, in any case, if there are no tax consolidation arrangements cancelling their taxation.

Revenue recognition

IFRS 15 requires an entity to recognise revenue at the amount of consideration to which it expects to be entitled in exchange for transferring promised goods or services to a customer.

Based on the above, IFRS 15 provides an articulated and detailed series of requirements that, as a whole, make up the new single model for the recognition of revenue from contracts with customers. The model provides for the following five steps:

- step 1 – identification of the contract;
- step 2 – identification of the performance obligations;
- step 3 – determination of the transaction price;
- step 4 – allocation of the transaction price to the performance obligations;
- step 5 – recognition of revenue when (or as) the entity satisfies the performance obligations.

Step 1 – identification of the contract

IFRS 15 defines a "contract" as an agreement between two or more parties that creates enforceable rights and obligations, specifying that enforceability of the rights and obligations in a contract is a matter of law. The contract may be approved in writing, orally or in accordance with other customary business practices.

Step 2 – identification of the performance obligations

At contract inception, an entity shall assess the goods or services promised in a contract with a customer and shall identify as a performance obligation each promise to transfer to the customer either:

a) a good or service (or a bundle of goods or services) that is distinct; or

b) a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

A contract may include promises to transfer more than one good or service to a customer. An entity shall assess the goods or services promised in order to identify which good or service (or bundle of goods or services) that is promised to a customer is distinct and may constitute a separate performance obligation.

A good or service that is promised to a customer is distinct if both of the following criteria are met:

a) the customer can benefit from the good or service either on its own or together with other resources that are readily available to the customer;

b) the entity's promise to transfer the good or service to the customer is separately identifiable from other promises in the contract.

If a promised good or service is not distinct, an entity shall combine that good or service with other promised goods or services until it identifies a bundle of goods or services that is distinct. In some cases, that would result in the entity accounting for all the goods or services promised in a contract as a single performance obligation.

Step 3 – determination of the transaction price

The transaction price is the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties (for example, some sales taxes).

The Group considers the terms of the contract and its customary business practices to determine the transaction price. The consideration may include fixed amounts, variable amounts, or both.

When determining the transaction price, the Group considers the effects of all of the following:

- variable consideration and constraining estimates of variable consideration;
- the existence of a significant financing component in the contract;
- non-cash consideration;
- consideration payable to a customer.

Step 4 – allocation of the transaction price to the performance obligations

The transaction price identified in step 3 is allocated to each performance obligation identified in step 2 on a relative stand-alone selling price basis.

Step 5 – recognition of revenue when (or as) the entity satisfies the performance obligations

An entity transfers control of a good or service over time and, therefore, satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

a) the customer simultaneously receives and consumes the benefits provided by the entity's performance as the entity performs;

b) the entity's performance creates or enhances an asset (for example, work in progress) that the customer controls as the asset is created or enhanced; or

c) the entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

The Group considers the terms of the contract, as well as any laws that apply to the contract, when evaluating whether it has an enforceable right to payment for performance completed to date.

When recognising revenue over time from the provision of design and engineering services, the Group measures the progress towards complete satisfaction of that performance obligation using the percentage of completion method on a cost-to cost-basis.

Incremental costs of obtaining contracts

An entity shall recognise as an asset the incremental costs of obtaining a contract with a customer if it expects to recover those costs.

The incremental costs of obtaining a contract are those costs that an entity incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained (for example, a sales commission).

As a practical expedient, the Group recognises the incremental costs of obtaining a contract as an expense when incurred if the amortisation period of the asset that the entity otherwise would have recognised is one year or less.

An asset recognised for incremental costs of obtaining a contract is amortised on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates.

Contract assets and liabilities

An entity shall present the contract in the statement of financial position as a contract asset or a contract liability, depending on the relationship between the entity's performance and the customer's payment. An entity shall present any unconditional rights to consideration separately as a receivable.

If an entity performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, the entity shall present the contract as a contract asset, excluding any amounts presented as a receivable. A contract asset is an entity's right to consideration in exchange for goods or services that the entity has transferred to a customer. The Group assesses a contract asset for impairment in accordance with IFRS 9.

If a customer pays consideration, or an entity has a right to an amount of consideration that is unconditional (i.e., a receivable), before the entity transfers a good or service to the customer, the entity shall present the contract as a contract liability when the payment is made or the payment is due (whichever is earlier). A contract liability is an entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or an amount of consideration is due) from the customer.

Licensing

A licence establishes a customer's rights to the intellectual property of an entity.

If the promise to grant the licence is a separate performance obligation, an entity shall not apply the general revenue recognition model but the specific guidelines set out in Appendix B to the standard and described below.

- revenue shall be recognised at a point in time if the entity's promise is to provide the customer with a right to use its intellectual property as it exists at the point in time at which the licence is granted;

- revenue shall be recognised over time if the entity's promise is to provide the customer with a right to access its intellectual property as it exists throughout the licence period.

Notwithstanding the nature of the licence ("right to use" or "right to access"), an entity shall recognise revenue for a sales-based or usage-based royalty promised in exchange for a licence of intellectual property only when (or as) the later of the following events occurs:

a) the subsequent sale or usage occurs; and

b) the performance obligation to which some or all of the royalty has been allocated has been satisfied (or partially satisfied).

Dividend distribution

The Group recognises a liability for dividends to be distributed when the distribution has been approved by the shareholders.

Earnings or losses per share

Basic earnings or losses per share are calculated by dividing the profit or loss for the year attributable to the owners of the parent's ordinary shares by the weighted average number of ordinary shares outstanding during the year. Diluted earnings or losses per share are derived by adjusting the weighted average number of outstanding shares for all potential ordinary shares with a dilutive effect.

Events after the reporting date

The events after the reporting date are those events, favourable and unfavourable, that occur between the reporting date (31 December for the Group) and the date when the financial statements are authorised for issue. Two types of events can be identified: (i) those that provide evidence of conditions that existed at the reporting date and (ii) those that are indicative of conditions that arose after the reporting date.

In accordance with IAS 10 - Events after the reporting period, in the first case (i) the Group adjusts the carrying amounts for the events that occurred after the reporting date and in the second case (ii) the Group does not adjust the carrying amounts, but discloses the events held significant in the notes.

Reference should be made to the "Other information" section of the directors' report for further details.

Statement of cash flows

The statement of cash flows is presented in accordance with the indirect method allowed by IAS 7 - Statement of cash flows.

Repayments of loans and receivables, recognised under IFRIC 4 - Determining whether an arrangement contains a lease, are recognised as cash flows from investing activities at the line "Repayment of loans and receivables - third parties", in line with the definition of investing activities set out in IAS 7, with the Group's financial position and net financial debt structures and in accordance with IAS 7.16-f.

ASSESSMENTS THAT AFFECT THE CONSOLIDATED FINANCIAL STATEMENTS

(a) Going concern

Pininfarina Group, the coronavirus and the reference market

The conditions of the Pininfarina Group's reference market for 2021 were better than those of one year earlier.

All the group companies grew their design activities leading to a generalised upturn in profit margins, while the German engineering operations' volume is in line with 2020.

The Group discontinued its engineering business in Italy, which was operated by Pininfarina Engineering S.r.l., as a result of the decision of 26 October 2020 to wind up the subsidiary. The winding up procedure should be completed in 2022.

The estimated effects of Covid-19 for 2021

The Group was not directly negatively affected (e.g., downturns in activities and/or cancellations of orders) by the coronavirus during 2021. The outlook for 2022 does not currently anticipate adverse impacts caused by Covid-19.

Group's performance, outlook and going concern issues

In their comments on the 2020 figures, the directors had explained that the sluggish conditions of the Group's reference markets were due to two factors: the continuation of the negative economic cycle of the global automotive industry and the Covid-19 pandemic, which put additional constraints on commercial projects, slowing down the acquisition of new contracts and/or reducing expected contract profit margins.

In this environment of weak reference markets and given the expectations about their future performance, the parent tackled three closely related issues:

- maintaining an appropriate level of liquidity for the Group's requirements;
- protecting the capitalisation level required by the law and bank agreements;
- creating the conditions for restoring profitability as soon as possible.

The capital increase resolved by the shareholders on 16 March 2021 to strengthen the parent's liquidity and capitalisation was successfully concluded on 25 June 2021. The parent collected proceeds totalling €23.6 million, increasing its liquidity accordingly. They partly arose from injections already made by its majority shareholder in the previous year (€20 million) and partly by the non-controlling investors' subscription of their shares in 2021 (€3.6 million).

As mentioned in the previous year's financial reports, the subsidiary Pininfarina Deutschland Holding GmbH collected the outstanding consideration for the sale of one of its buildings in the first quarter of 2021. Considering the nature of the Group's customers, there are no particular collection issues as there are no past due amounts which may affect the Group's cash flows from operating activities and its working capital performance was satisfactory.

In the foreseeable future, the following should be taken into account: the parent's net financial position amounts to €6.9 million, comprising cash and cash equivalents and financial assets of €27.3 million and loans and borrowings of €20.4 million, whose current portion amounts to €3.8 million. The group's net financial position amounts to €6.9 million at the reporting date. According to the 12-month cash budget prepared by the directors, the parent's and Group's financial resources at the reporting date should be adequate to cover the expected operating requirements, as well as the outlays necessary to complete the winding up procedure of Pininfarina Engineering S.r.l. in liquidation and to repay the current portion of loans and borrowings when they become due.

Based on the current situation, the directors believe that the parent's and Group's financial resources at the reporting date are adequate to cover cash outflows for the next twelve months.

In order to comply with the requirements of the Italian Civil Code governing share capital protection, the parent must monitor its equity at consolidation level closely. Indeed, the only financial covenant provided for by the existing debt restructuring agreement is a minimum level of €30 million (this is checked on 31 March every year and had been complied with at 31 March 2021). Considering the group's performance in the first few months of 2022, there are no reasons to believe that compliance with the financial covenant at the next assessment date of 31 March 2021 is at risk. The Mahindra Group has provided a surety that is enforceable if the parent fails to meet its obligations under the rescheduling agreement.

The recently-completed capital increase to strengthen the parent's financial position has already been discussed.

In order to tackle their performance issues and return to a profit-making position, considering the market performance of the last two years and currently foreseeable outlook, the parent and the Group adopted various measures in 2020 and 2021, including the winding up of the subsidiary Pininfarina Engineering S.r.l., given the market conditions and its no longer sustainable performance, implementation of a redundancy plan for Pininfarina Deutschland GmbH, involving 46 people (approximately 20% of its workforce), reduction of the number of direct and indirect staff working at Pininfarina S.p.A., in order to bring the professional skills and number of resources into line with the current market requirements and a plan to reduce operating expense and overheads, also by increasing resort to outsourcing in some cases. Moreover, the Group developed new commercial projects to better tailor its services to the continuous changes in market demand.

With respect to the winding up of Pininfarina Engineering S.r.l., in the previous year, the Group recognised a restructuring provision to fully cover the obligations reasonably expected at 31 December 2020 on the basis of the collective trade union agreements, the legal requirements, the individual agreements and, given the usual outcome of these procedures, the possible refusal to participate in the plan envisaged by the collective agreements by employees who oppose the agreement. The winding up procedure continued throughout 2021 and all the subsidiary's employment agreements were terminated in the first half of November 2021 substantially in line with the established redundancy plan and using less outflows of resources than those reasonably forecast when the provision was accrued. The procedure is currently nearing completion, the residual risks have been identified and, at the reporting date, the Group maintained a restructuring provision of €0.5 million expected to be used while releasing the excess accrual of €2.3 million.

At 30 September 2021, all the individual agreements with the redundant 46 workers at Pininfarina Deutschland GmbH envisaged in its restructuring plan had been signed. They cover the workers' termination benefits as provided for in the restructuring plan at 31 December 2020.

Operating profit margins improved considerably in 2021 compared to the previous year, confirming the soundness of the actions taken in this respect in the previous year. Business opportunities and prices offered were stable, in line with the trend envisaged by the directors for this year.

As described in the 2020 annual financial report, the market situation of that year, which reflected social difficulties that are well known throughout the world, was one of the most difficult in recent decades, particularly in the market sectors in which the Pininfarina Group operates. The demand for services continues to exist for design-related activities albeit much less so for pure engineering based on technical deliverables and the downwards pressure on prices seen in 2020 has eased.

In order to deal with this situation, the parent and the Group are rapidly redirecting their available resources towards those activities considered most likely to generate profits.

The directors also checked whether the previously-prepared financial projections, which are based on the positive effects of the restructuring and refocusing actions undertaken by the Group starting from 2020 and the use of operating cash flows in 2022, were still valid. The 2021 figures show considerable improvement in the operating performance even though sales volumes are in line with the previous year's lows. The Group recognised an operating profit of €4.1 million. Net of the releases of provisions and reversals of impairment losses recognised during the year, the Group would have recognised an operating loss of €0.4 million (nearly at break-even point), which, despite being still negative, would have been significantly better than the €21.5 million operating loss recognised in the previous year.

Although the Group's financial position, financial performance and cash flows improved considerably in 2021, its ability to continue as a going concern will still require significant efforts in terms of sales volumes, cost containment and costs to win future contracts.

According to the directors, given the issues described above, there continues to be significant uncertainty about the achievement of the production volumes and improved profitability goals, as they depend on a prolonged recovery of the markets in which the Group and the parent operate in the next few years, as well as on changes in the costs to win future contracts and procurement costs to maintain the conditions for them to continue to be profitable. This uncertainty may cast material doubts as to their ability to continue as going concerns.

Notwithstanding the above, the directors deem that all measures to limit operating cash outflows and all possible measures to contain costs and provide the Group with sufficient liquidity to support its operations have been successfully implemented. They have assessed existing and prospective projects based on commercial relationships with customers, as well as the Group's available financial resources. After having carried out all relevant checks and evaluated the above uncertainty, including based on the results for 2021, management reasonably expects that the parent and the Group have sufficient resources available to continue their operations for the foreseeable future, as provided for by the IFRS. Due to the above reasons, the directors deem it correct to prepare this annual financial report at 31 December 2021 on a going concern basis.

(a) Additions to the provisions for risks and charges and contingent liabilities and contingent assets

Provisions for risks and charges are liabilities whose due date and amount are uncertain. The directors measure them based on the estimated costs to be incurred to extinguish the obligation at the reporting date.

Contingent liabilities and assets are not recognised in the consolidated financial statements in accordance with paragraphs 27 and 31, respectively, of IAS 37 - Provisions, contingent liabilities and contingent assets.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group, or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is an unrecognised possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company.

Where necessary, the directors make their estimates with the assistance of their legal advisors and experts.

(c) Impairment testing

The scope of the impairment test is to check whether the group companies' non-current assets are impaired.

In order to perform the impairment tests, cash-generating units/activities are identified, along with estimates of their value in use, any impairment losses and the assets attributable to them.

The Group's reportable segments are:

- the design segment;
- the engineering segment.

The Group has adopted an impairment testing procedure pursuant to IAS 36, approved by the Board of Directors on 17 February 2020.

With regard to the design segment, the following CGUs/activities were identified to be tested for impairment:

  - other design activities: all other activities related to the design segment, currently carried out by Pininfarina S.p.A.;
  - Pininfarina Shanghai Co. Ltd;
  - Pininfarina of America Corp.;
  - the wind tunnel;
  - the building and other assets related to the Bairo Canavese production facility, currently idle;
  - the building and other assets related to the San Giorgio production facility, currently idle;
  - other minor buildings.

With regard to the engineering segment, the following CGUs/activities were identified:

  - engineering Italy, comprising Pininfarina Engineering in liquidation ("PF Eng");
  - engineering Germany, comprising all activities carried out by the German subsidiary Pininfarina Deutschland GmbH

The parent appointed an independent expert, Ms. Donatella Busso, to draw up a report on impairment testing pursuant to IAS 36 for the purposes of the preparation of its separate and consolidated financial statements.

The directors identified the following CGUs and adopted the following approach for consolidated financial statements purposes:

- the other design activities CGU was tested for impairment to assess whether to reverse the impairment losses recognised in previous years considering the profits recorded in 2021 and the projections for 2022 and subsequent years;
- the carrying amounts of the Bairo Canavese and San Giorgio Canavese CGUs (comprised of the related buildings) have been compared to the related fair values, based on updated appraisals;
- the other minor buildings CGU was fully impaired in the previous year and there was no need to test it for impairment to assess whether to reverse the impairment losses;
- no indicators of impairment have been identified for the other CGUs of the design segment.
- the engineering Italy CGU, relating to Pininfarina Engineering S.r.l. in liquidation, is being wound up and, therefore, will no longer generate future cash flows through continuing use. The parent had already adjusted the carrying amount of the related intangible assets and property, plant and equipment to their realisable value in the previous year. Accordingly, at the reporting date, there are no items of property, plant and equipment, intangible assets or right-of-use assets having a carrying amount different to their realisable value confirmed by the liquidator;

- the engineering Germany CGU recorded an operating loss for the year, but also showed important signs of recovery in the second half of the year thanks to the major restructuring process and cost cutting implemented since 2020. Despite its projections for 2022 and subsequent years indicating additional operating improvements, the parent has nonetheless decided to test it for impairment.

Cash flows are forecast by directors based on reasonable and supportable assumptions that represent their best estimate of the future economic conditions.

The discount rate used reflects current market assessments of the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

(d) Fair value measurement and hierarchy for financial instruments

Pursuant to IFRS 7 – Financial instruments: Disclosures, the classification of financial instruments at fair value is based on the quality of the inputs used for measurement purposes. The IFRS 7 classification is based on the following fair value hierarchy:

- Level 1: fair value is determined based on prices quoted on an active market for identical assets or liabilities. This category includes financial assets classified as “held for trading”, which are mainly government bonds and high-rating bonds.
- Level 2: fair value is determined based on inputs that, while different from the quoted prices used in Level 1, can be observed either directly or indirectly. These consolidated financial statements do not present any financial instruments of this type.
- Level 3: fair value is determined based on valuation models, the inputs of which are not based on observable market data. These consolidated financial statements do not present any financial instruments of this type.

(e) Current and deferred taxes

Current taxes are calculated on the basis of a best estimate of the tax expense for the year, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are measured on the basis of the parent’s and Group’s expectations on how the carrying amount of their assets and liabilities will be recovered/extinguished, subject to the probability that they will earn future taxable profit. Deferred tax assets and liabilities are measured on the basis of tax rates that are expected to be applicable when the assets will be realised or the liabilities will be extinguished, therefore based on tax rates or changes to tax laws that have been enacted by the reporting date.

(f) Italian post-employment benefits

Following the supplementary pension reform, the portion of Italian post-employment benefits vested before 1 January 2007 is considered to be a defined benefit under IAS 19 - Employee benefits. Under defined benefit plans, the amount of the benefit due to the employee upon termination of employment depends on different factors, such as age, seniority and remuneration. Despite being prudently estimated and based on internal historical figures, these estimated parameters may be subject to change.

The directors estimated the post-employment benefit obligation assisted by an independent expert included in the Italian Actuary Register.

(g) Stock option plans

The Group’s stock option plan is reserved for the parent’s key management personnel and is aimed at incentivising their achievement of the parent’s objectives and enhancing their loyalty to the parent.

The options are measured using the Black-Scholes valuation approach.

The directors calculated the carrying amounts relating to the stock option plan with the assistance of an independent expert.

TYPES OF FINANCIAL INSTRUMENTS AND FAIR VALUE HIERARCHY

The financial instruments held by the Group include:

- cash and cash equivalents
- non-current loan liabilities;
- lease liabilities;
- trade receivables and payables and loans and receivables - related parties.
- other current financial assets and liabilities.

As required by IFRS 7, the table below lists the types of financial instruments included in the consolidated financial statements and shows the measurement criteria adopted:

	Nota	Financial instruments at fair value through:		Fair value hierarchy	Financial instruments not at fair value	31.12.2021	Fair value at 31.12.2021	31.12.2020	Fair value at 31.12.2020
		profit or loss	equity						
Assets:									
Equity investments in other companies (*)	6	-	-		252,017	**252,017**		252,017	
Loans and other financial assets (*)	7	-	-		550,000	**550,000**		550,000	
Trade receivables (*)	10	-	-		13,317,405	**13,317,405**		15,695,121	
Cash and cash equivalents (*)	12	-	-		29,357,710	**29,357,710**		28,529,171	
Liabilities:									
Lease liabilities (*)	4	-	-		3,340,557	**3,340,557**		6,060,721	
Other loans and borrowings - third parties	14	-	-		19,623,929	**19,623,929**	**21,504,450**	21,851,604	24,617,224
Other bank borrowings (*)	14				13,526	**13,526**		253,059	
Trade payables (*)	16	-	-		16,880,937	**16,880,937**		16,830,599	

(*) Information on the fair value of those financial instruments (i.e., equity investments in other companies, cash and cash equivalents, trade receivables, loans and other financial assets, trade payables, other bank loans and borrowings and lease liabilities) whose carrying amount reasonably approximates their fair value is not presented.

Pursuant to IFRS 7 – Financial instruments: Disclosures, the classification of financial instruments at fair value is based on the quality of the inputs used for measurement purposes. The IFRS 7 classification is based on the following fair value hierarchy:

- Level 1: fair value is determined based on prices quoted on an active market for identical assets or liabilities.
- Level 2: fair value is determined based on inputs that, while different from the quoted prices used in Level 1, can be observed either directly or indirectly. These consolidated financial statements do not present any financial instruments of this type.
- Level 3: fair value is determined based on valuation models, the inputs of which are not based on observable market data. These consolidated financial statements do not present any financial instruments of this type.

An independent valuation expert determined the financial liabilities' fair value as follows:

- they identified the interest and principal cash flows generated by the financial liabilities, based on the effective interest rate and the relevant repayment plan;
- they discounted the cash flows by applying the additional rate applicable to the company at the reporting date. That spread is held to objectively reflect the parent's credit rating and no subsequent significant differences should emerge considering its current financial position.

FINANCIAL RISK MANAGEMENT

Financial risk factors, as identified in IFRS 7 – Financial instruments: Disclosures, are described below:

- Market risk: the risk that the fair value or the future cash flows of a financial instrument could fluctuate as a result of changes in market prices. Market risk includes currency risk, interest rate risk and price risk.
- Currency risk: the risk that the fair value or the future cash flows of a financial instrument could fluctuate as a result of changes in exchange rates.
- Interest rate risk: the risk that the fair value or the future cash flows of a financial instrument could fluctuate as a result of changes in interest rates.
- Price risk: the risk that the fair value or the future cash flows of a financial instrument could fluctuate as a result of changes in market prices (other than changes covered by the interest rate and currency risks), irrespective as to whether such fluctuations are determined by factors specific to the financial instrument or its issuer or by factors that affect all similar market-traded financial instruments.
- Credit risk: the risk that one of the parties causes the other party to incur a financial loss by failing to fulfil an obligation.
- Liquidity risk: the risk that an entity may be unable to fulfil obligations associated with financial liabilities.

(a) Currency risk

The Group entered into most of its financial instruments in Euros, which is its functional and presentation currency. Although it operates in an international environment, its exposure to fluctuations in exchange rates is limited to the following currencies against the Euro: US dollar (USD), and Chinese renminbi (CNY).

(b) Interest rate risk

This risk is due to the Group's exposure to fluctuations in market interest rates, since the interest expense on its debt is indexed thereto.

The Restructuring Agreement signed by Pininfarina S.p.A. with the lending institutions, effective from 30 May 2016 to 31 December 2025, defined a fixed contractual interest rate of 0.25% per annum, based on a year of 360 days.

If the six-month Euribor exceeds 4% during an interest accruing period, the contractual interest rate will be increased by the difference between the actual six-month Euribor and 4%.

The Group does not currently deem it necessary to hedge the portion of its debt subject to interest rate risk given the current Euribor trend.

	31.12.2021	**%**	**31.12.2020**	**%**
- Fixed rate	**19,637,455**	**100.0%**	22,052,198	99.6%
- Variable rate	**-**	**0.0%**	93,597	0.4%
Gross financial debt with third parties	**19,637,455**	**100.0%**	**22,145,795**	**100.0%**

(c) Price risk

The Group mainly carries out design and engineering activities, therefore it is not significantly exposed to price risk on the commodities it purchases.

(d) Credit risk

The Group is exposed to credit risk, defined as the probability of an impairment loss on exposures with a commercial or financial counterparty. With reference to commercial transactions, the Group's most significant projects have a limited number of counterparties, most of which may be qualified as of a primary credit standing. At group level, credit risk is especially concentrated in Asia (Iran, India and China).

Counterparty risk in the case of countries in which the Group does not usually undertake commercial transactions is analysed and assessed at the offering phase in order to identify and mitigate any solvency risks.

Despite the global Covid-19 pandemic, since it mainly operates with counterparties of high credit standing, the Group's credit risk on existing trade receivables has not significantly increased. Only the Chinese subsidiary Pininfarina Shanghai has recognised a specific loss allowance of €193 thousand for one of its exposures.

The Group operates in markets that are or have been recently affected by geopolitical or financial tensions. Specifically, the following exposures are considered to bear geopolitical risk:

	Iran
(€'000)	
Assets	3,040
Contract liabilities	(1,468)
Net exposure	**1,572**

Reference should be made to the relevant note for a breakdown of trade receivables by geographical segment.

(e) Liquidity risk

This is the risk that the Group may be unable to fulfil the obligations associated with its financial liabilities.

The Group's liquidity management approach is to ensure that it always has sufficient funds to fulfil its obligations when they fall due, under both normal conditions and financial stress, without incurring borrowing costs at above-market interest rates. Generally, the Group ensures that there is sufficient cash to cover expected short-term operating expense, including those related to loans and borrowings. Potential effects resulting from unusual circumstances that cannot be reasonably foreseen, such as natural disasters, are excluded.

The objective of the Group's financial strategy is to adequately balance the maturity of its liabilities in order to reduce the risk of having to refinance its debt. The company has historically been able to meet its obligations regularly and was able to refinance its debt before maturity.

In brief, the Rescheduling Agreement signed on 14 December 2015 and effective as of 30 May 2016 entailed:

- settlement and extinguishment of 56.74% of the nominal amount of the parent's debt with the lending institutions that accepted this option, in addition to the interest accrued up to the effective date;
- the rescheduling of the nominal amount of the debt with the lending institutions that accepted this option, totalling €41.5 million, from 2016 to 2025;
- the application of a fixed interest rate of 0.25% per annum, based on a year of 360 days, increased by the difference between this rate and the six-month Euribor, should the latter exceed 4%.

Consequently, over the medium to long term, the liquidity risk is directly correlated to the achievement of the business plan targets.

The financial liabilities' carrying amount and the gross amount without discounting the contractual cash flows at the reporting date are set out in the following table:

	Carrying amount 31.12.2021	Contractual cash flows	Of which: due within one year	Of which: due from one to five years	Of which: due after five years
Term financing	**19,637,455**	23,594,533	3,591,615	20,002,918	-
Other loans and borrowings - third parties	**19,637,455**	23,594,533	3,591,615	20,002,918	-

At the reporting date, the Group's cash and cash equivalents amount to €29.4 million.

(f) Risk of default and debt covenants

This risk relates to the possibility that the new Rescheduling Agreement between Pininfarina S.p.A. and the lending institutions that came into force on 30 May 2016 may include acceleration clauses that would give rise to liquidity risk.

The Rescheduling Agreement requires that, as of the assessment date of 31 March of each year, the financial covenant shall be at least equal to the minimum consolidated equity, i.e., €30 million. The covenant will be checked until the expiry of the loan in 2025.

The Mahindra Group provided a first demand surety to the lending institutions that is enforceable if Pininfarina S.p.A. fails to meet its obligations.

At 31 March 2021, the above-mentioned financial covenant was met and, although irrelevant for contractual purposes, it is still complied with at the reporting date. Should the minimum equity threshold be exceeded at 31 March 2022, the agreement would not automatically be terminated, as it provides for specific remedies and the lending banks can also waive their right to take action.

(g) Business/market risk

The performance of the sectors/markets in which the parent and the Group operate has been recently adversely affected by the simultaneous existence of two overlapping problems:

- the continuation of the negative economic cycle of the global automotive industry;
- the Covid-19 pandemic.

As described in the 2020 annual financial report, the market situation of that year, which reflected social difficulties that are well known throughout the world, was one of the most difficult in recent decades, particularly in the market sectors in which the Pininfarina Group operates. However, business opportunities and prices offered were stable in 2021, in line with the trend envisaged by the directors for this year.

The demand for services continues to exist for design-related activities albeit much less so for pure engineering based on technical deliverables and the downwards pressure on prices seen in 2020 has eased.

In order to deal with this situation, the parent and the group are rapidly redirecting their available resources towards those activities considered most likely to generate profits, with a new strategic profile focused on the service lines which are considered to have greater potential in terms of profitability in the medium term.

SEGMENT REPORTING

Identification of reportable segments

The Group has identified two reportable segments, as described below, which are its core business segments.

Operating segments are identified in accordance with paragraphs 5 to 10 of IFRS 8 – Operating segments.

Design segment

In addition to the revenue from the automotive and non-automotive design activities of all kinds, this segment includes revenue from architecture services, royalties for the use of the Pininfarina trademark, revenue from aerodynamic and aeroacoustics services and the costs arising from the parent's property management.

The CGUs and assets comprised in the design segment are as follows:

- other design activities: all other activities related to the design segment, currently carried out by Pininfarina S.p.A.. Goodwill was allocated to this CGU;
- Pininfarina Shanghai Co. Ltd;
- Pininfarina of America Corp.;
- the wind tunnel;
- the building and other assets related to the Bairo Canavese production facility, which still has to be repurposed for production after the termination of a business lease on 31 December 2019;
- the building and other assets related to the San Giorgio production facility, currently idle;
- other minor buildings.

Engineering segment

This segment groups the automotive engineering services.

The Group has identified the German engineering CGU, comprising all activities carried out by the German subsidiary Pininfarina Deutschland GmbH.

The Group's business segments are not affected by seasonal factors.

In accordance with IFRS 8.4, the Group presents segment reporting in its consolidated financial statements only.

Financial income and expense and income taxes are not allocated to the reporting segments because management makes the relevant decisions on an aggregate segment basis. Intra-segment transactions are carried out at market conditions.

Segment reporting at 31 December 2021 and 2020 is set out below. Amounts are in thousands of Euros.

	2021			2020		
	Design	**Engineering**	**Total**	Design	Engineering	Total
	A	**B**	**A + B**	A	B	A + B
Revenue	**54,461**	**17,005**	**71,466**	47,074	29,705	76,779
(Intra-segment revenue)	**(4,111)**	**(541)**	**(4,652)**	(2,496)	(7,287)	(9,783)
Revenue - third parties	**50,350**	**16,464**	**66,814**	44,578	22,418	66,996
Operating profit (loss)	**2,576**	**1,494**	**4,070**	(10,750)	(10,798)	(21,548)
Net financial expense	**(1,524)**	**(144)**	**(1,667)**	(1,576)	(365)	(1,941)
Dividends			**-**			-
Share of profit of equity-accounted investees	**29**		**29**	13		13
Profit (loss) before taxes	**1,290**	**1,350**	**2,640**	(12,313)	(11,163)	(23,476)
Income taxes	**(193)**		**(193)**	(214)	(748)	(962)
Profit (loss) from continuing operations	**1,097**	**1,350**	**2,447**	(12,527)	(11,911)	(24,438)
Other information required by IFRS 8:						
- Amortisation and depreciation	**(2,243)**	**(857)**	**(3,100)**	(2,248)	(1,858)	(4,106)
- Impairment losses	**(480)**	**(43)**	**(523)**	(5,659)	(1,316)	(6,975)
- Reversals of impairment losses	**2,674**		**2,674**			
- Provisions/change in accounting estimates	**350**	**2,417**	**2,767**	(285)	(3,110)	(3,396)
- Net gains on the sale of non-current assets		**1**	**1**	22	926	948

The design and engineering segments are the operating segments whose operating results are regularly reviewed by the parent's chief operating decision maker to make decisions about resources to be allocated to the segments and assess their performance.

A breakdown of assets and liabilities by business segment is set out below:

	31 December 2021			31 December 2020		
	Design	**Engineering**	**Total**	Design	Engineering	Total
Assets	**108,312**	**27,297**	**135,609**	110,187	32,225	142,412
Elimination of intragroup assets	**(21,877)**	**(17,316)**	**(39,193)**	(21,471)	(17,747)	(39,218)
Liabilities	**53,287**	**6,466**	**59,753**	62,363	18,544	80,907
Elimination of intragroup liabilities	**(666)**	**(2,859)**	**(3,524)**	(9,496)	(2,453)	(11,949)
Of which: other information required by IFRS 8:						
- Equity-accounted investments	**644**	**-**	**644**	615	-	615
- Intangible assets	**6,169**	**117**	**6,287**	5,450	141	5,590
- Property, plant and equipment and investment property	**33,525**	**415**	**33,941**	32,428	523	32,952
- Assets held for sale	**-**	**-**	**-**	-	5,156	5,156
- Employees	**319**	**167**	**486**	297	342	639

Revenue is broken down by geographical segment below:

	2021	2020
Italy	**7,596**	8,811
EU	**23,036**	31,856
Non-EU countries	**34,932**	25,153
Change in contract assets	**696**	(334)
Revenue from sales and services	**66,260**	65,486

NOTES TO THE CAPTIONS

1. Property, plant and equipment

The carrying amount of property, plant and equipment at 31 December 2021 decreased to €33.9 million from €33 million at 31 December 2020.

The other design activities CGU, which comprises the parent's net invested capital excluding the assets relating to Bairo Canavese and San Giorgio Canavese, the wind tunnel, the other minor buildings and equity investments, were tested for impairment and impaired in 2019 and 2020.

At the reporting date, the directors checked whether there were indications that an impairment loss recognised on an asset other than goodwill in previous years might no longer exist or be reduced.

In doing so, the directors considered both internal and external information, as specified later on.

The CGU's 2021 performance was better than expected and the 2022-2024 plan approved by the Board of Directors on 18 January 2022 forecasts another improvement.

The CGU's 2021 actual financial performance was positive and considerably better than budgeted in the 2021-2023 plan prepared for the previous impairment test. The key drivers of this improvement were the new post-restructuring cost positioning, the streamlining of internal resources aimed at eliminating inefficiencies and better than expected market conditions.

The directors' projections for the terminal year underpinning the impairment tests are, as a whole, better than those of previous years. These projections are backed by a larger backlog of signed and potential contracts than that available to management a year ago, when preparing the 2021 budget.

The assumptions underlying the 2022-2024 plan are the following:

- development of new commercial projects to better enhance the potential of the group services to meet the continuous changes in market demand;
- an increase in the sales volumes of the more profitable service lines (different mix);
- leveraging competitively priced outsourcing of part of the engineering activities supporting design, in order to further reduce costs and consequently increase profit margins.

The value in use of the CGU in question was determined using the unlevered discounted cash flow method by determining the post-tax cash flow based on the 2022-2024 projections approved by the Board of Directors on 28 February 2022, discounted using a WACC rate of 6.99%. On a prudent basis, the growth rate used to calculate the terminal value was maintained at zero and the average for the last two years of the plan was used to determine the terminal cash flows.

Cash flows were forecast by directors, based on reasonable and supportable assumptions that represent their best estimate of the future economic conditions. The discount rate used reflects current market assessments, the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

The recoverable amount of the other design activities CGU's net invested assets tested for impairment at 31 December 2021 was considerably higher than their carrying amount.

The CGU's main assets are the Cambiano land and buildings. As a result of the previous impairment tests, which were based on appraisals prepared by an independent expert, those land and buildings, comprising the related plant, had not been impaired. A recent appraisal dated December 2021 confirmed that the total fair value of the Cambiano assets is higher than the related carrying amounts.

In accordance with IAS 36 and in light of the above, the parent reversed the impairment losses recognised on property, plant and equipment and intangible assets in the previous two years and specifically:

- property, plant and equipment other than the Cambiano building (reversal of €2.337 million);
- intangible assets excluding goodwill (reversal of €0.336 million);

The engineering Italy CGU, relating to Pininfarina Engineering S.r.l. in liquidation, is being wound up. Accordingly, the parent had already adjusted its non-current assets to reflect their realisable value in 2020.

The engineering Germany CGU was tested for impairment, without identifying any impairment losses on its consolidated net assets, also considering their modest contribution to the consolidated figures.

Changes in property, plant and equipment and an analysis of the items making up the captions are set out below.

	Land	Buildings	Total
Historical cost	12,001,743	65,002,802	77,004,545
Accumulated depreciation and impairment losses	(6,635,807)	(42,476,372)	(49,112,179)
Carrying amount at 31 December 2020	**5,365,936**	**22,526,430**	**27,892,366**
Additions	-	-	-
Depreciation	-	(1,053,884)	(1,053,884)
Impairment losses	-	-	-
Carrying amount at 31 December 2021	**5,365,936**	**21,472,546**	**26,838,482**
Of which:			
Historical cost	12,001,743	65,003,132	77,004,875
Accumulated depreciation and impairment losses	(6,635,807)	(43,530,586)	(50,166,393)

Land and buildings include the carrying amounts of real estate complexes, comprising the production facilities located in Via Castellamonte 6, Bairo Canavese (TO) and Strada provinciale per Caluso, San Giorgio Canavese (TO), the design and engineering site in Via Nazionale 30, Cambiano (TO) and a property in Beinasco (TO).

The Bairo Canavese production facility has not been used since 31 December 2019, when its lease ended, and has a carrying amount of €11.7 million, including land and building of €10.8 million and plant and other items of €0.9 million. The Group compared its carrying amount to its fair value calculated considering the facility's appraised value. The carrying amount of the facility was found to be in line with the appraisal prepared in December 2021.

The San Giorgio Canavese production facility has not been used since the end of 2015.

The Group compared its carrying amount of €4 million to its fair value calculated considering the facility's appraised value. The carrying amount of the facility was found to be in line with the appraisal prepared in December 2021 and, therefore, the company did not recognise an impairment loss.

All land and buildings located in Italy are owned by Pininfarina S.p.A..

	Machinery	Plant	Total
Historical cost	7,081,027	86,417,512	93,498,539
Accumulated depreciation and impairment losses	(7,004,355)	(82,310,472)	(89,314,827)
Carrying amount at 31 December 2020	**76,672**	**4,107,040**	**4,183,712**
Additions	-	254,162	254,162
Depreciation	(10,108)	(675,187)	(685,295)
Reversals of impairment losses	1,283,604	-	1,283,604
Carrying amount at 31 December 2021	**1,350,169**	**3,684,365**	**5,034,534**
Of which:			
Historical cost	7,081,028	86,669,724	93,750,752
Accumulated depreciation and impairment losses	(5,730,859)	(82,985,359)	(88,716,218)

Plant and machinery at 31 December 2021 include plant and machinery based at the Cambiano facility and plant located at the Bairo Canavese facility, which comprises electricity and heating systems.

The parent reversed impairment losses on machinery following a comparison between the recoverable amount of the "Other design activities" CGU and its carrying amount, as discussed at the beginning of these notes.

	Furniture and fixtures	Hardware and software	Other assets	Total
Historical cost	4,029,436	7,168,360	1,280,152	12,477,948
Accumulated depreciation and impairment losses	(3,479,722)	(7,022,344)	(1,185,290)	(11,687,356)
Carrying amount at 31 December 2020	**549,714**	**146,016**	**94,862**	**790,592**
Additions	46,873	408,806	18,299	473,978
Disposals: Historical cost	(54,596)	(479)	(16,785)	(71,860)
Disposals: Acc. depreciation and imp. losses	14,037	479	16,785	31,301
Depreciation	(106,290)	(92,098)	(63,069)	(261,457)
Reversals of impairment losses	188,429	497,690	367,818	1,053,937
Reclassifications	9,513	54,445	12,704	76,662
Other changes	(7,400)	(44,015)	(6,634)	(58,049)
Carrying amount at 31 December 2021	**640,280**	**970,844**	**423,980**	**2,035,104**
Of which:				
Historical cost	4,031,226	7,631,132	1,294,370	12,956,728
Accumulated depreciation and impairment losses	(3,390,946)	(6,660,288)	(870,390)	(10,921,624)

Additions to hardware and software for the year relate to the purchase of IT equipment for technological upgrading, mainly attributable to the parent.

The parent reversed impairment losses on the three categories following a comparison between the recoverable amount of the "Other design activities" CGU and its carrying amount, as discussed in the "Assessments that affect the consolidated financial statements" section.

2. Non-current assets held for sale

At the previous year end, non-current assets held for sale related to Pininfarina Deutschland Holding GmbH's building in Renningen (Germany), which was sold for a consideration equal to its carrying amount during the first quarter of 2021.

3. Intangible assets

The carrying amount of intangible assets at 31 December 2021 increased slightly to €6.3 million.

	Licences	Other	Total
Historical cost	7,392,521	8,191,269	16,627,285
Accumulated amortisation and impairment losses	(7,392,521)	(2,601,093)	(11,037,109)
Carrying amount at 31 December 2020	**-**	**5,590,176**	**5,590,176**
Additions	440,603	31,435	472,038
Amortisation	(56,872)	(54,649)	(111,521)
Reversals of impairment losses	326,461	9,544	336,005
Reclassifications	-	-	-
Carrying amount at 31 December 2021	**710,192**	**5,576,506**	**6,286,698**
Of which:			
Historical cost	7,833,124	8,222,704	17,099,323
Accumulated amortisation and impairment losses	(7,122,932)	(2,646,198)	(10,812,625)

The parent reversed impairment losses following a comparison between the recoverable amount of the "Other design activities" CGU and its carrying amount, as discussed in note 1.

"Other" includes the capitalisation of an advisory services agreement that the parent signed in connection with a long-term engineering contract.

The asset was recognised in 2018 at an amount equal to the liability with the supplier (see note 16) discounted on the basis of the payment plan agreed with it. Since the engineering contract has been suspended, the related asset's amortisation and contractual payments have also been suspended, pending developments in the end customer's situation.

4. Right-of-use assets and lease liabilities

This caption is required by IFRS 16 and shows the right to use the leased assets as per the leases signed by the group companies, mainly buildings housing their offices.

(a) Right-of-use assets

	2021			2020		
	Cars and other assets	**Land and buildings**	**Total**	**Cars and other assets**	**Land and buildings**	**Total**
Opening balance	**108,937**	**3,448,403**	**3,557,340**	482,522	5,302,493	5,785,015
Increase	**208,806**	**110,127**	**318,933**	328,707	402,549	731,256
Depreciation	**(98,017)**	**(832,601)**	**(930,618)**	(328,699)	(1,093,486)	(1,422,185)
Impairment losses	**-**	**-**	**-**	(206,247)	-	(206,247)
Derecognition of Pininfarina Engineering S.r.l. in liquidation	**-**	**-**	**-**	(136,547)	(1,159,035)	(1,295,582)
Reclassifications	**357**	**26,477**	**26,834**	(30,799)	(4,118)	(34,917)
Closing balance	**220,083**	**2,752,406**	**2,972,489**	108,937	3,448,403	3,557,340

(b) Amounts recognised in profit or loss

	2021	**2020**
Depreciation of right-of-use assets	**(930,618)**	(1,422,185)
Interest expense on lease liabilities	**(173,157)**	(285,271)
Impairment losses	**-**	(1,501,829)
Lease expenses for short-term leases or leases of low-value assets	**(86,916)**	(99,808)
Total	**(1,190,691)**	(3,309,093)

(c) Amounts recognised in the statement of cash flows

	2021	**2020**
Total cash outflows for leases	**1,607,785**	1,472,636

(d) Lease liabilities

Lease liabilities are broken down by due date in the following table:

	Carrying amount 31.12.2021	**Contractual cash flows**	**Of which: due within one year**	**Of which: due from one to five**	**Of which: due after five years**
Lease liabilities	3,340,557	3,686,888	1,387,859	2,299,029	-

5. Investments in associates

Investments in associates are as follows:

	31.12.2021	**31.12.2020**
Goodmind S.r.l.	134,728	126,705
Signature S.r.l.	509,555	488,440
Investments in associates	**644,283**	**615,145**

Goodmind S.r.l. provides communication services to companies and organisations. The parent's share of the associate's profit for the year is €8,023.

Signature S.r.l., incorporated in February 2018, mainly operates in the stationery sector. The parent has a 24% interest therein.

6. Equity investments in other companies

Equity investments in other companies did not change from the previous year end and are as follows:

	31.12.2021
Midi Plc	**251,072**
Idroenergia Soc. Cons. a.r.l.	**516**
Volksbank Region Leonberg	**300**
Unionfidi S.c.r.l.p.A. Turin	**129**
Equity investments in other companies	**252,017**

7. Loans and receivables

This caption relates to the non-interest bearing loan disbursed by the parent to the associate Signature S.r.l. to support its start-up phase.

8. Inventories

Raw materials mainly consist of various materials used for the production of cars and prototypes at the Cambiano facility. Finished goods comprise Pininfarina-branded products and car spare parts manufactured by the Group, which are sold to carmakers.

The tables below show a breakdown of inventories and the allowance for inventory write-down:

	31.12.2021	31.12.2020
Raw materials	**489,623**	590,275
Allowance for inventory write-down	**(294,145)**	(302,040)
Finished goods	**-**	121
Finished goods at stores	**134,122**	159,919
Inventories	**329,600**	448,275

	2021	**2020**
Opening balance	**302,040**	331,075
Additions	**25,004**	-
Utilisations	**(32,899)**	(29,035)
Closing balance	**294,145**	302,040

The allowance for raw material write-down reflects the risk of obsolete and slow-moving items.

9. Contract assets and liabilities

Contract assets show the balance of gross contract work in progress less progress payments and advances.

The change for the year is due to the progress of certain design and engineering contracts from customers inside and outside the European Union.

Contract liabilities represent the Group’s obligation to transfer goods or services to a customer for which it has received consideration (or an amount of consideration is due) from that customer.

Reference should be made to note 19. Revenue for a breakdown of contract assets and liabilities and related changes.

10. Trade receivables - third and related parties

The following table shows trade receivables at 31 December 2021 and 2020:

	31.12.2021	31.12.2020
Italy	**1,733,931**	2,556,317
EU	**2,836,469**	2,469,335
Non-EU countries	**8,870,590**	9,313,475
(Loss allowance)	**(714,385)**	(798,015)
Third parties	**12,726,605**	13,541,112
Signature S.r.l.	**81,923**	100,650
Mahindra&Mahindra Group	**155,436**	809,034
Tech Mahindra Group	**121,109**	117,225
Automobili Pininfarina GmbH	**232,962**	1,127,100
Related parties	**590,800**	2,154,009
Trade receivables	**13,317,405**	15,695,121

The Group's main counterparties are top carmakers with a high credit rating. Since the receivables are not covered by insurance policies, the Group's maximum exposure to credit risk is equal to the carrying amount of the receivables less the loss allowance. The Group did not factor any receivables. Trade receivables are mostly denominated in Euros.

The decrease in trade receivables from third parties is due to a different type of invoicing plan being used compared to the previous year.

The decrease in the loss allowance is due to the reduction in the impairment losses prudently recognised by Pininfarina Shanghai on the receivable due from an Asian customer.

Changes in the loss allowance are set out below:

	2021
Opening balance	**798,015**
Additions	**260,408**
Utilisations	**(397,696)**
Other changes	**53,658**
Closing balance	**714,385**

The following table provides information about the exposure to credit risk and expected credit losses (ECLs) for trade receivables and contract assets from individual customers as at 31 December 2021.

	Net exposure	**Loss allowance**
Contract assets	5,433,708	-
Current (not past due)	5,926,589	1,254
1–30 days past due	1,409,359	504
31–60 days past due	568,332	157
61–90 days past due	766,070	76
91–120 days past due	111,142	79
More than 120 days past due	**1,882,725**	**712,315**

With respect to exposures not individually impaired, the Group defined a provisioning matrix based on its historical credit loss figures, adjusted by the counterparties' different credit ratings and business environments.

The net exposure column shows the trade receivables net of any advances and progress payments.

11. Other assets

The following table shows other assets at 31 December 2021 and 2020:

	31.12.2021	31.12.2020
VAT	**1,919,979**	3,140,621
IRES (corporate income tax) and withholding taxes	**342,622**	349,322
IRAP (regional tax on production activities) paid on account	**25,214**	553,727
Prepayments and accrued income	**465,645**	519,119
Advances to suppliers	**98,776**	84,462
Amounts due from INAIL (the Italian Workers' Compensation Authority) and INPS (the Italian social security institution)	**1,627**	11,839
Amounts due from employees	**90,855**	221,415
Other	**368,355**	375,832
Third parties	**3,313,073**	5,256,337
Related parties	**-**	-
Other assets	**3,313,073**	5,256,337

The decrease in the VAT asset, mainly attributable to the parent, is due to the reimbursement of €2.3 million relating to 2020 received in September 2021 and the offsetting of the residual 2020 asset and the assets arising in the first and third quarters of 2021 against social security contributions of €1.5 million, net of the increase for 2021.

The parent fully impaired (€546 thousand) foreign withholdings, which are recoverable only through future taxable profits from operations carried out in their country of origin, given the uncertain actual possibility of using them before they become time-barred. This does not alter the parent's right to use them should the conditions for their use arise in the future, since their time limit is 2028. The foreign withholding taxes that are unrecognised but which can still be used amount to €4.9 million.

12. Cash and cash equivalents

The table below shows a breakdown of this caption and a comparison with the previous year-end corresponding figures:

	31.12.2021	31.12.2020
Cash in hand and cash equivalents	**7,419**	8,821
Short-term bank deposits	**29,350,293**	28,520,350
Cash and cash equivalents	**29,357,712**	28,529,171
(Bank overdrafts)	**-**	(41,132)
Net cash and cash equivalents	**29,357,712**	28,488,039

Reference should be made to the statement of cash flows for details of the cash flows for the year.

13. Equity

(a) Share capital

	31.12.2021		31.12.2020	
	amount	**No.**	amount	No.
Ordinary shares	**56,481,932**	**78,673,836**	54,287,128	54,287,128
(Treasury shares)	**(15,958)**	**(15,958)**	(15,958)	(15,958)
Share capital	**56,465,974**	**78,567,878**	54,271,170	54,271,170

The parent's share capital is comprised of 78,657,878 ordinary shares, without a nominal amount. There are no other classes of shares.

Treasury shares are held in accordance with the limits imposed by article 2357 of the Italian Civil Code.

Detailed information about the parent's shareholders is provided in the "General information" section of these notes.

On 25 June 2021, the offering in option of 27,135,585 new ordinary shares as part of the capital increase against payment and in instalments ended. The parent's board of directors had approved this capital increase on 24 May 2021 as part of the powers given to it by the shareholders on 16 March 2021 as per article 2443 of the Italian Civil Code.

The main steps of the capital increase are summarised below:

On 24 May 2021, the parent's board of directors resolved as follows:

- the capital increase maximum amount as €26,050,161.60 and the maximum number of shares to be issued as 27,135,585 without a nominal amount at a unit issue price of €0.96, including €0.87 as the premium; it also established the subscription ratio of one new share for each two shares held;
- that the rights were to be exercised during the offering period from 31 May to 21 June 2021 (inclusive) and were to be traded on the stock exchange during the period from 31 May to 21 June 2021 (inclusive). Any unopted shares were to be offered to the market during at least five business days within the month after the offering period ended pursuant to article 2441.3 of the Italian Civil Code.

On 26 May 2021, Consob approved the publication of the registration document, the information document on the financial instruments and the summary document. The offering period opened on 31 May. After completion of the auction for any unexercised rights held on 23 and 24 June, the parent announced the completion of the capital increase on 25 June 2021 with the subscription of 89.87% of the new shares offered for a total amount (including the premium) of €23,411,239.68. The parent's majority shareholder, PF Holdings B.V., subscribed shares for €19,844,239 and its post-capital increase investment is 78.82% of the 78,673,836 shares making up the new share capital.

On 5 July 2021, after filing the capital increase certification with the Turin company registrar, the parent's share capital increased by €2,194,804 due to the reclassification from other reserves of the payment for the capital increase.

(b) Share premium reserve

On 5 July 2021, after filing the capital increase certification with the Turin company registrar, this reserve increased by €21,216,436 due to the reclassification from other reserves of the share premium related to the capital increase net of the transaction costs (€364,618).

(c) Reserve for treasury shares

This reserve of €175,697, unchanged from the previous year end, is recognised in accordance with the provisions of article 2357 of the Italian Civil Code.

(d) Legal reserve

The legal reserve of €10,854,234, which pursuant to the provisions of article 2430 of the Italian Civil Code is available to cover any losses, is unchanged from the previous year end.

(e) Stock option reserve

Pursuant to article 114-bis of the Consolidated Finance Act, on 21 November 2016, the shareholders approved a stock option plan that provides for the free assignment of options for the subscription of ordinary shares to the parent's employees. The ratio is one share for each option. The plan aims at incentivising attainment of the parent's objectives and retaining employees. It provides that the maximum number of shares to be assigned to the beneficiaries is 2,225,925 and that the options' exercise price is €1.10 for each share. The plan term is seven years (2016-2023).

This reserve is unchanged from the previous year end.

The options are measured using the Black-Scholes valuation approach and the following assumptions:

1. Volatility: 80% (three-year average)
2. Risk-free rate: -0.41% (the average of the three instalments considered)
3. Dividends: no dividends are expected during the plan term
4. Average share price: €1.10
5. Vesting conditions: permanence of the employment agreement
6. Settlement method: equity instruments
7. Cost for the year: the plan costs were fully recognised from 2016 to 2019
8. Carrying amount at the reporting date: €2,216,799.

(f) Translation reserve

The translation reserve reflects the cumulative differences from the translation of financial statements of companies with functional currencies other than the Euro, which is the Group's presentation currency. These companies are Pininfarina Shanghai Co Ltd. and Pininfarina of America Corp..

(g) Other reserves

Other reserves decreased by €19,844,240 on the previous year end due to the reclassification of the amount injected for future capital increases in 2020 to share capital and to the share premium reserve.

(h) Losses carried forward

Losses carried forward totalled €63,141,702 at the reporting date, up by €24,445,89 from the 31 December 2020 figure. The increase is due to:

- the allocation of the loss for 2020 of €24,437,689;
- the negative effect for the year of the adoption of IAS 19 (revised), quantified at €8,203.

The table reconciling the parent's profit and equity as at and for the year ended 31 December 2021 with the Group's relevant figures is provided in the directors' report, to which reference is made.

14. Loans and borrowings

(a) Rescheduling Agreement

The new Rescheduling Agreement (the "Agreement") between Pininfarina S.p.A. and its lending institutions became effective on 30 May 2016. Its effects are summarised below:

- settlement and extinguishment of 56.74% of the nominal amount of the parent's debt with the lending institutions that accepted this option, in addition to the interest accrued up to the effective date;
- the rescheduling of the nominal amount of the debt with the lending institutions that accepted this option, totalling €41.5 million, to 2025;
- the application of a fixed interest rate of 0.25% per annum, based on a year of 360 days, increased by the difference between this rate and the six-month Euribor, should the latter exceed 4%.

(b) Fair value of restructured debt

On 30 May 2015, the fair value of the restructured debt was determined by discounting the cash flows as per the Rescheduling Agreement to their present value using a 6.5% rate, determined with the assistance of a third-party financial advisor, as the sum of 1) the return on risk-free investments and 2) a credit spread attributed to Pininfarina S.p.A..

The table below summarises the changes in loans and borrowings:

	31.12.2020	Unrealised interest	Repayment / Derecognition of liabilities	Current/ non-current reclassification	31.12.2021
Other loans and borrowings	18,474,109	1,350,414	(200,594)	(3,578,089)	16,045,840
Non-current portion	**18,474,109**	**1,350,414**	**(200,594)**	**(3,578,089)**	**16,045,840**
Bank overdrafts	41,132	-	(41,132)	-	-
Other loans and borrowings	3,630,554	-	(3,617,028)	3,578,089	3,591,615
Current portion	**3,671,686**	**-**	**(3,658,160)**	**3,578,089**	**3,591,615**
Current and non-current portions	**22,145,795**	**1,350,414**	**(3,858,754)**	**-**	**19,637,455**

The non-current portion of the"Repayment/derecognition of liabilities" column shows the extinguishment of the loan of €200,594 (USD246,149) taken out by Pininfarina of America from Centennial Bank as part of the measures introduced by the Small Business Administration to tackle the effect of the Covid-19 pandemic. The loan bore interest at a fixed rate of 1%. On 23 April 2021, the Small Business Administration waived its right to repayment of the entire loan.

The caption "Gain on the extinguishment of financial liabilities" in the statement of profit or loss refers to this waiver.

The decrease in bank overdrafts is due to the termination of its credit facilities by Pininfarina Deutschland GmbH.

Other loans and borrowings include the amounts due to the parent's lending institutions, parties to the Agreement, pursuant to the relevant loan and financing agreements.

A breakdown of the contractual cash flows by maturity is provided in paragraph (e) of the "Financial risk management" section.

A breakdown of changes by lender is set out below:

	31.12.2020	Unrealised interest	Repayment / Settlements	31.12.2021
Intesa Sanpaolo S.p.A.	14,145,408	874,177	(2,316,237)	12,703,348
Banca Nazionale del Lavoro S.p.A.	832,645	51,457	(136,341)	747,761
Ubi Banca S.p.A. (formerly Banca Regionale Europea S.p.A.)	3,325,011	205,483	(544,456)	2,986,038
Selmabipiemme Leasing S.p.A.	3,548,540	219,297	(581,055)	3,186,782
Volksbank Region Leonberg (Germany)	52,465	-	(38,939)	13,526
Centennial Bank	200,594	-	(200,594)	-
Other loans and borrowings	**22,104,663**	**1,350,414**	**(3,817,622)**	**19,637,455**

Pininfarina Deutschland Holding GmbH has a €19,126 loan with Volksbank Region Leonberg (Germany).

The Group's loans and borrowings are not subject to currency risk.

Reference should be made to the table presented at the end of these notes for more details on the net financial position (ESMA).

15. Post-employment benefits

Post-employment benefits show the present value of the obligation to employees under article 2120 of the Italian Civil Code. Following the changes made to Italian laws some years ago, benefits vested before 1 January 2007 are classified as defined benefit plans pursuant to IAS 19 - Employee benefits, while those accrued thereafter are classified as defined contribution plans.

Changes for the year are provided below:

	2021	2020
Opening post-employment benefits	**3,239,401**	4,243,045
Interest cost recognised in profit or loss	**(895)**	13,531
Actuarial losses recognised in other comprehensive income	**8,203**	159,754
Payments	**(512,719)**	(739,922)
Transfer due to termination of Bairo plant's business lease	**-**	830,629
Other changes	**-**	(139,698)
Reclassification	**-**	(1,127,938)
Closing post-employment benefits	**2,733,990**	3,239,401

Other changes show the prior year effect of the non-application of IAS 19-R recognised by Pininfarina Engineering S.r.l. in liquidation when it commenced its winding up procedure.

The prior year reclassification relates to the post-employment benefits of Pininfarina Engineering S.r.l. in liquidation that were reclassified to other financial liabilities.

The main assumptions underlying the actuarial calculation of the liability in the current and previous years are set out below:

	2021	2020
Annual inflation rate	**1.5%**	0.7%
Benefit discount rate	**-0.31%**	-0.03%

16. Trade payables, other financial liabilities and other liabilities

(a) Trade payables

	31.12.2021	31.12.2020
Third parties	**16,363,653**	14,845,034
Related parties	**261,709**	560,460
Other liabilities - third parties	**255,575**	1,425,105
Trade payables	**16,880,937**	16,830,599

Trade payables to third parties include roughly €5.8 million arising from an advisory services agreement that the parent signed in connection with a long-term contract.

The amount due under the agreement is recognised at the discounted value of the payment plan originally agreed with the service provider.

Since the engineering contract to which the obligation refers has been suspended, the related liability has also been suspended, pending a development in the end customer's situation.

The reporting-date balance comprises amounts that will be paid within twelve months of the reporting date, except for the trade payable described above, which will be settled over the term of the contract to which it relates.

(b) Other financial liabilities

	31.12.2021	31.12.2020
Wages and salaries payable	**3,129,331**	6,234,200
Social security charges payable	**980,289**	961,593
Other	**1,262,462**	1,568,955
Other financial liabilities	**5,372,082**	8,764,748

17. Provisions for risks and charges, contingent liabilities and litigation

(a) Provisions for risks and charges

Changes in provisions for risks and charges are set out below, with a comment on the main changes:

	31.12.2020	**Additions**	**Utilisations**	**Releases**	**31.12.2021**
Provision for product warranties	53,236	-	-	-	53,236
Restructuring provision	6,495,647	-	(2,859,164)	(2,767,001)	869,482
Other provisions	238,575	250,947	(220,234)	(2,785)	266,503
Provisions for risks and charges	**6,787,458**	**250,947**	**(3,079,398)**	**(2,769,786)**	**1,189,221**

The provision for product warranties, unchanged from the previous reporting date, represents the best estimate of the Group's contractual and legal obligations with regard to costs related to warranties provided on certain components of the vehicles it manufactured for a specific period, starting from the sale of the vehicles to end customers. The above-mentioned estimate was determined based on the Group's experience, specific contractual terms and product specifications and defect data generated by the statistical survey systems of the Group's customers.

The restructuring provision, which was accounted for in 2020, reflects the best estimate of the liabilities for restructuring relating to the parent (31 December 2021: €386,500) and the winding up of Pininfarina Engineering S.r.l. in liquidation (31 December 2021: €482,982). Specifically, the latter has been recognised to fully cover the obligations reasonably expected to date on the basis of the collective trade union agreements, the legal requirements, the individual agreements and, given the usual outcome of these procedures, the possible refusal to participate in the plan envisaged by the collective agreements by employees who oppose the agreement. The winding up procedure continued throughout 2021 and all the subsidiary's employment agreements were terminated in October. Therefore, the Group measured the residual liability until the end of the winding up procedure and released the excess portion of €2.3 million. The "Releases" column also include the €350 thousand and €117 thousand releases of the restructuring provision relating to the parent and Pininfarina Deutschland GmbH, respectively. Utilisations for the year relate to Pininfarina Deutschland GmbH (€881,271), Pininfarina Engineering S.r.l. in liquidation (€1,914,393) and the parent (€63,500).

Other provisions are made up as follows:

	31.12.2020	**Additions**	**Utilisations**	**Releases**	**31.12.2021**
Provision for litigation with former employees	2,785	-	-	(2,785)	-
Provision for losses to complete contracts	235,790	250,947	(220,234)	-	266,503
Other provisions	**238,575**	**113,825**	**(871,809)**	**(2,402,143)**	**238,575**

The provision for losses to complete contracts shows the effects of the measurement of losses to complete long-term contracts.

(b) Contingent liabilities and litigation

The parent has a pending dispute with the French company GreenGT (GGT) before the commercial court of Paris, whereby GGT claimed damages alleging the company's failure to perform a contract, leading to the consequent loss of business opportunities and reputation damage. On 9 November 2021, the court handed down its first-level decision dismissing the claim for failure to perform the contract and the alleged reputation damage, but held Pininfarina S.p.A. liable for the loss of investment and profit incurred by GGT for an amount of €2,532,800.

Confident that it will prove its point in the subsequent proceedings, the parent promptly filed an appeal and did not consider it necessary to make a specific provision.

There are no further contingent liabilities or litigation to report.

18. Current and deferred taxes

(a) Deferred taxes

The table below provides a breakdown of deferred tax assets and liabilities:

	31.12.2021	31.12.2020
Deferred tax assets	**18,593**	17,161
(Deferred tax liabilities)	**-**	-
Net deferred tax assets	**18,593**	17,161

The net deferred tax assets relate to Pininfarina of America.

(b) Current taxes

Income taxes recognised in profit or loss are detailed below:

	2021	2020
Income taxes	**(193,110)**	5,049
Addition to prior year provision	**-**	(146,501)
Current taxes	**(193,110)**	(141,452)
Change in deferred tax assets	**-**	(820,326)
Deferred taxes	**-**	**(820,326)**
Income taxes	**(193,110)**	(961,778)

19. Revenue from sales and services

a) Revenue streams

The company's revenue mainly relates to the provision of design and engineering services and sales of spare parts and prototypes.

	2021	2020
Sales - Italy	**555,610**	1,065,663
Sales - EU	**377,062**	1,898,188
Sales - Non-EU countries	**4,233,524**	1,069,344
Services - Italy	**5,915,245**	6,862,513
Services - EU	**22,502,117**	29,830,307
Services - Non-EU countries	**29,811,963**	23,475,028
Royalties - Italy	**1,125,226**	919,670
Royalties - EU	**156,536**	134,213
Royalties - Non-EU countries	**886,062**	564,513
Change in contract assets	**696,033**	(333,791)
Revenue from sales and services	**66,259,378**	65,485,648

Other sources of revenue include the following:

	2021	2020
Lease income	**107,771**	637,750
Grants for research and training	**8,803**	47,254
Prior year income	**47,330**	512,703
Insurance compensation	**100,298**	3,536
Sundry	**181,613**	122,463
Rebilling	**134,519**	176,256
Other revenue and income	**580,334**	1,499,962

Lease income refers to the building previously owned by Pininfarina Deutschland Holding GmbH and sold in February 2021.

Prior year income refers to prior year income and estimation differences, other than errors, resulting from the normal updating of estimates made in previous years.

b) Disaggregation of revenue from contracts with customers

In the following table, revenue from contracts with customers is disaggregated by primary geographical market, major product and service lines and timing of revenue recognition. The table also includes a reconciliation of the disaggregated revenue with the Group's reportable segments:

	Design	**Engineering**	**Total**
Geographical market			
Italy	7,491,375	104,706	7,596,081
EU	8,093,893	16,359,069	24,452,962
Non-EU countries	34,764,751	-	34,764,751
Total	**50,350,019**	**16,463,775**	**66,813,794**
Major product/service lines			
Design services	47,975,444	-	47,975,444
Engineering services	-	16,116,110	16,116,110
Royalties	2,167,824	-	2,167,824
Lease income	-	107,771	107,771
Other	206,751	239,894	446,645
Total	**50,350,019**	**16,463,775**	**66,813,794**
Timing of revenue recognition			
Products transferred at a point in time	4,173,831	239,894	4,413,725
Products and services transferred over time	46,176,188	16,223,881	62,400,069
Total	**50,350,019**	**16,463,775**	**66,813,794**

c) Contract balances

The following table provides information about receivables, assets and liabilities from contracts with customers.

	31.12.2021	01.01.2021
Amounts included in trade receivables	**14,031,790**	16,493,136
Contract assets	**5,433,708**	4,575,923
Contract liabilities	**(6,452,049)**	(6,060,721)

The contract assets primarily relate to the Group's rights to consideration for work completed but not billed at the reporting date on made-to-order products/services.

Contract assets were impaired by €250,947 during the year. They are reclassified to receivables when the rights become unconditional. This usually occurs when the Group issues an invoice to the customer.

Contract liabilities represent the Group's obligation to transfer goods or services to a customer for which it has received consideration (or an amount of consideration is due) from that customer.

d) Performance obligations and revenue recognition policies

Revenue is measured based on the consideration specified in a contract with a customer.

The Group recognises revenue when it transfers control over a good or service to a customer.

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies.

Major product/service lines	Nature and timing of satisfaction of performance obligations, including significant payment terms	Revenue recognition under IFRS 15
Design, engineering and operations services	The Group has determined that, for made-to-order products, the customer controls all of the work in progress as the products are being manufactured. This is because, under those contracts, products/services are made to a customer's specifications and if a contract is terminated by the customer, then the Group is entitled to reimbursement of the costs incurred to date, including a reasonable margin. Invoices are issued according to contractual terms and are usually payable within 30 days. Uninvoiced amounts are presented as contract assets.	Revenue and associated costs are recognised over time - i.e., before the goods/services are made available at the customers' premises. Progress is determined based on the cost-to-cost method. When incremental in accordance with IFRS 15, costs of obtaining a contract are recognised as assets and depreciated in line with the transfer of control over the related product/service.
Architecture and design services	The Group has determined that, for design services, revenue is recognised over time. This is because, under those contracts, services are made to a customer's specifications and if a contract is terminated by the customer, then the Group is entitled to reimbursement of the costs incurred to date, including a reasonable margin. Invoices are issued according to contractual terms and are usually payable within 30 days. Uninvoiced amounts are presented as contract assets.	Revenue and associated costs are recognised over time - i.e., before the services are made available at the customers' premises. Progress is determined based on the cost-to-cost method. When incremental in accordance with IFRS 15, costs of obtaining a contract are recognised as assets and depreciated in line with the transfer of control over the related product/service.
Royalties	The Group has determined that royalties are substantially related to the licence to use the Pininfarina trademark on designed products it manufactures. Even though customers do not control the trademark, they benefit therefrom. This shared benefit led the Group to believe that this is a right to access rather than use the trademark and, therefore, the related revenue is recognised over time.	Revenue is recognised over time
Lease income	The Group has determined that lease income arises from services whereby the customer simultaneously receives and uses the related benefits as the Group provides them. Accordingly, revenue from these performance obligations is recognised over time.	Revenue is recognised over time
Other	The Group determines the most appropriate recognition of other minor revenue on a case by case basis.	Revenue is recognised over time/at a point in time

20. Raw materials and components

Raw materials and components mainly include purchases of equipment and materials used for the design and engineering contracts and spare parts resold by the parent.

21. External variable engineering services

External variable engineering services mainly refer to design and technical services.

22. Wages, salaries and employee benefits

	2021	2020
Wages and salaries	**(30,415,803)**	(37,265,306)
Social security contributions	**(7,371,554)**	(9,421,839)
Independent contractors	**-**	(1,101,112)
Utilisation of restructuring provision	**2,652,664**	-
Blue collars, white collars and managers	**(35,134,693)**	(47,788,257)
Post-employment benefits - defined contribution plan	**(1,205,596)**	(1,359,582)
Wages, salaries and employee benefits	**(36,340,289)**	(49,147,839)

Post-employment benefits – defined contribution plan reflect the costs related to post-employment benefits both for defined benefit and defined contribution plans.

A breakdown of the actual number of employees at 31 December 2021 and the average number for the year is set out below, as per article 2427 of the Italian Civil Code, calculated by adding the number of employees at the beginning and end of the year and dividing the result by two.

	31.12.2021		31.12.2020	
	reporting date	**average**	reporting date	average
Managers	**22**	**22**	29	29
White collars	**435**	**481**	576	617
Blue collars	**29**	**31**	34	42
Total	**486**	**534**	639	688

23. Additions to/utilisation of provisions and impairment losses and gains

	2021	2020
Net impairment losses on loans and receivables	**(277,303)**	(81,043)
Change in accounting estimate of the loss allowance	**375,095**	-
Additions to/releases of the restructuring provision	**2,767,000**	(6,495,647)
Additions to the provision for losses to complete contracts	**(250,947)**	(113,825)
Utilisation and change in accounting estimates of provisions for risks and charges	**220,233**	3,213,882
Impairment losses on foreign withholding taxes	**(589,713)**	(5,129,767)
Reversal of impairment losses on property, plant and equipment	**2,337,541**	-
Reversal of impairment losses on intangible assets	**336,005**	-
Impairment losses on property, plant and equipment	**-**	(1,088,098)
Impairment losses on intangible assets	**-**	(469,780)
Impairment losses on right-of-use assets	**-**	(206,247)
Additions to/utilisation of provisions and impairment losses	**4,917,911**	(10,370,525)

Net impairment losses on loans and receivables and the change in accounting estimate of the loss allowance show the impairment losses and the decrease in the impairment losses recognised on receivables from two customers of the Chinese subsidiary in the previous year.

Reference should be made to note 17 for details of the release of the restructuring provision.

Reference should be made to note 17 for details of additions to the provision for losses to complete contracts and utilisation and changes in accounting estimates of provisions for risks and charges.

Reference should be made to note 11 for details of the impairment losses on foreign withholding taxes.

Reference should be made to notes 1 and 2 for details of the reversals of impairment losses on property, plant and equipment and intangible assets.

24. Other expenses

	2021	2020
Consulting and other services	**(2,840,905)**	(3,666,414)
General services and other expenses	**(973,840)**	(1,035,286)
Leases	**(953,416)**	(1,578,623)
Other personnel costs	**(725,484)**	(917,420)
Indirect taxes	**(679,257)**	(805,964)
Directors' and statutory auditors' fees	**(652,037)**	(662,593)
Postal expenses	**(448,095)**	(385,159)
Travel expenses	**(392,872)**	(536,218)
Insurance	**(392,126)**	(486,000)
Advertising	**(383,472)**	(556,751)
Cleaning and waste disposal services	**(319,422)**	(324,083)
Membership fees	**(98,691)**	(132,454)
Prior year expense	**(11,620)**	(1,931)
Other expenses	**(8,871,237)**	(11,088,896)

Consulting and other services mainly include IT, administrative and commercial consultancy fees.

General services and other expenses include costs for general services, guarantees and settlements in court.

Leases mainly refer to IT equipment under operating leases that are not covered by IFRS 16 either because they do not convey the right to use the asset or as a result of the application of the practical expedient to short-term or low value leases.

25. Net financial expense

	2021	2020
Interest and commission expense on credit facilities	**(88,991)**	(141,653)
Lease interest expense	**(173,157)**	(285,270)
Interest expense on loans and financing	**(1,419,134)**	(1,561,032)
Interest expense on trade payables	**(10)**	-
Financial expense	**(1,681,292)**	(1,987,955)
Bank interest income	**5,314**	4,335
Interest income on loans and receivables - third parties	**8,066**	42,455
Sales of unopted rights	**608**	-
Financial income	**13,988**	46,790
Net financial expense	**(1,667,304)**	(1,941,165)

Interest and commission expense refers to interest paid on credit facilities and bank fees.

Lease interest expense relates to the amortised-cost measurement of lease liabilities under IFRS 16.

Interest expense on loans and financing of €1,419,134 comprises the effect of amortised-cost accounting (€1,350,414) and interest accrued under the existing Agreement (€68,383). The remainder relates to subsidiaries.

Bank interest income accrued on the current account credit balances.

OTHER INFORMATION

Events after the reporting date

There are no other significant events that occurred after the reporting date.

Related party transactions – Pininfarina Group

The table below, which is presented pursuant to Consob communication no. DEM/6064293 of 28 July 2006, summarises related party transactions, including intragroup transactions. These transactions were carried out at market conditions, considering the nature of the goods exchanged or services provided. They were neither atypical nor unusual for the purposes of the above-mentioned communication.

	Commercial		Financial		Operating		Financial	
	Assets	Liabilities	Assets	Liabilities	Revenue	Expense	Income	Expense
Signature S.r.l.	81,293	-	550,000	-	174,391	20,092	-	-
Tech Mahindra Ltd	85,837	261,709	-	-	137,837	134,223	-	-
Tech Mahindra GmbH	35,272	-	-	-	188,272	-	-	-
Mahindra&Mahindra Ltd	155,436	-	-	-	920,863	-	-	-
Automobili Pininfarina GmbH	232,962	759,389	-	-	2,614,920	-	-	-
Total	**590,800**	**1,021,098**	**550,000**	**-**	**4,036,283**	**154,315**	**-**	**-**

Intragroup transactions include:

- Signature S.r.l.: loan agreement and services and design agreements with Pininfarina S.p.A. and purchase of goods by Pininfarina S.p.A.;
- Tech Mahindra Ltd: services agreements with Pininfarina Deutschland GmbH and a services agreement with Pininfarina S.p.A.;
- Tech Mahindra GmbH: services agreement with Pininfarina Deutschland GmbH;
- Mahindra&Mahindra Ltd: brand licence agreement and design and engineering services agreements with Pininfarina S.p.A.;
- Automobili Pininfarina GmbH: design and engineering services agreement with Pininfarina S.p.A..

In addition to the above figures:

- Studio Starclex - Studio Legale Associato Guglielmetti, related to Romina Guglielmetti (director of Pininfarina S.p.A.), provided legal assistance to the parent for €9,667; this engagement ended in April 2021.

The parent, Pininfarina S.p.A., signed eight design and engineering services agreements with Automobili Pininfarina GmbH ("AP") on 29 June 2018, 26 March 2019, 31 May 2019, 22 July 2019, 9 December 2019, 23 March 2021, 5 August 2021 and 8 November 2021, respectively, for the development of a project for the design of the interior and exterior of a new car, the design of the upper body systems of the body shell, integration of the body shell with the main operating systems and achievement of the performance requested of a new AP vehicle based on its new platform.

The parent will receive a total fee of €21,682,930 for its services to be provided under the above contracts from June 2018 to January 2022. This fee qualifies the transaction as a "major transaction" pursuant to the relevant legislation. The services provided are part of the "company's normal business activities" and are rendered on an arm's length basis. At the reporting date, services provided to the customer totalled €21,265,517, €2,322,201 of which in 2021.

Directors' and statutory auditors' fees

(€'000)	**2021**	2020
Directors	**549**	551
Statutory auditors	**103**	112
Total	**652**	663

The 2021 total fees to Pininfarina S.p.A.'s key management personnel approximate €1 million.

D.	**Total cash and cash equivalents (A+B+C)**	**(29,358)**	**(28,529)**	**(829)**
E.	Current loans and borrowings	**-**	**41**	**(41)**
F.	Current portion of non-current debt	4,610	5,152	(542)
G.	**Current financial debt (E+F)**	**4,610**	**5,193**	**(583)**
H.	**Net current financial position (G-D)**	**(24,748)**	**(23,336)**	**(1,412)**
I.	Non-current loans and borrowings	18,368	21,499	(3,131)
J.	Debt instruments	-	-	-
K.	Trade payables and other current liabilities	-	-	-
L.	**Net non-current financial debt (I+J+K)**	**18,368**	**21,499**	**(3,131)**
M.	**Net financial position (H+L)**	**(6,380)**	**(1,837)**	**(4,543)**

The "Net financial position" set out above is presented in accordance with the format recommended by ESMA Guidelines 32-82-1138 enacting Regulation (EU) 2017/1129 applicable since 5 May 2021. Because the purpose of this table is to show "Net financial debt", assets are shown with a minus sign and liabilities with a plus sign. On the contrary, in the "Net financial position" table provided at the previous page, assets are shown with a plus sign and liabilities with a minus sign.

The reason for the difference between the amount of the "Net financial position" of the first table and that of the ESMA table is that the latter does not include non-current loan assets. The total amount of these differences at the relevant reporting dates is shown below:

- At 31 December 2020: €550 thousand
- At 31 December 2021: €550 thousand

The net financial position at the reporting date comprises the effect of IFRS 16 (approximately €3.3 million compared to €4.5 million at 31 June 2020).

Significant non-recurring transactions

As required by Consob communication no. DEM/6064293 of 28 July 2006, the effects of non-recurring events or transactions, i.e., those events or transactions that do not occur frequently during the normal course of business, are shown in the tables below:

	31.12.2021	Sale of Pininfarina Deutschland's building	Pininfarina S.p.A.'s capital increase	Reversal of impairment losses on the design CGU's assets	Release of restructuring provision - Pininfarina Deutschland	Release of restructuring provision - Pininfarina S.p.A. The transactions identified as significant and non-recurring are as follows:

- sale of the second Renningen building (Germany) by Pininfarina Deutschland Holding GmbH;
- the parent's capital increase;
- reversal of the impairment losses relating to the "Other design activities" CGU;
- release of the restructuring provisions by Pininfarina Deutschland GmbH, Pininfarina S.p.A. and Pininfarina Engineering S.r.l. in liquidation.

Atypical and unusual transactions

As required by Consob communication no. DEM/6064293 of 28 July 2006, the Pininfarina Group specifies that it did not carry out atypical or unusual transactions during the year, as defined in the above-mentioned Communication, according to which atypical and/or unusual transactions are transactions that, because of their significance/material amount, nature of the counterparty, subject, method used to determine the transfer price and timing of the event, could create doubts as to: the accuracy/completeness of the disclosure provided in the financial statements, the existence of a conflict of interest, the safeguarding of corporate assets and the protection of non-controlling investors.

Disclosure on the independent auditors' fees required by article 149-duodecies of the Issuers' Regulation

The 2021 fees for audit and non-audit services provided by KPMG and other entities of its network are detailed below, pursuant to article 149-duodecies of the Consob Issuers' Regulation.

Service provider	Service recipient	2021 fee
KPMG S.p.A.	Pininfarina S.p.A. (1)	183,000
KPMG Advisory S.p.A.	Pininfarina S.p.A. (2)	87,000
KPMG S.p.A.	Pininfarina Engineering S.r.l. (3)	15,000
KPMG network	Subsidiaries (4)	64,600
Total		**349,600**

(1) Includes the following services for total fees of €84,500:

- audit of the consolidated reporting package at 31 March 2021 for the consolidation purposes of the Tech Mahindra Group;
- translation of financial documents;
- assistance with the preparation of the Prospectus;
- limited assurance engagement on the non-financial statement.

(2) Includes the following services:

- non-financial statement assessment and benchmarking;
- privacy security assessment.

(3) Audit of the financial statements of Pininfarina Engineering S.r.l. in liquidation.

(4) Includes €18,800 for the audit services at 31 March 2021 for the consolidation purposes of the Tech Mahindra Group.

Chief Executive Officer
Silvio Pietro Angori
(signed on the original)
Turin, 23rd March 2022

Statement on the consolidated financial statements pursuant to article 154-bis of Legislative decree no. 58/98

◊ The undersigned Silvio Pietro Angori, as CEO, and Gianfranco Albertini, as manager in charge of financial reporting of Pininfarina S.p.A., also considering the provisions of article 154-bis.3/4 of Legislative decree no. 58 of 24 February 1998, state that the administrative and accounting policies adopted for the preparation of the consolidated financial statements:

- are adequate in relation to the company's characteristics and
- have been effectively applied during 2021.

◊ Moreover, they state that

- The consolidated financial statements:
- have been prepared in accordance with the International Financial Reporting Standards endorsed by the European Community pursuant to Regulation (EC) no. 1606/2002 of the European Parliament and of the Council of 19 July 2002;
- are consistent with the accounting ledgers and records;
- are suitable to give a true and fair view of the financial position, financial performance and cash flows of the issuer and the group of companies included in the consolidation scope;

The annual financial report includes a reliable analysis of the Group's performance and results of operations and the issuer's and consolidated companies' financial position and performance, as well as a description of the main risks and uncertainties to which they are exposed.

Independent auditors' report pursuant to article 14 of Legislative decree no. 39 of 27 January 2010 and article 10 of Regulation (EU) no. 537 of 16 April 2014

To the shareholders of
Pininfarina S.p.A.

Report on the audit of the consolidated financial statements

Opinion

We have audited the consolidated financial statements of the Pininfarina Group (the "group"), which comprise the statement of financial position as at 31 December 2021, the statements of profit or loss, comprehensive income, changes in equity and cash flows for the year then ended and notes thereto, which include a summary of the significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Pininfarina Group as at 31 December 2021 and of its financial performance and cash flows for the year then ended in accordance with the International Financial Reporting Standards endorsed by the European Union and the Italian regulations implementing article 9 of Legislative decree no. 38/05.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISA Italia). Our responsibilities under those standards are further described in the "*Auditors' responsibilities for the audit of the consolidated financial statements*" section of our report. We are independent of Pininfarina S.p.A. (the "parent") in accordance with the ethics and independence rules and standards applicable in Italy to audits of financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty about going concern

We draw attention to that disclosed by the directors in the "Assessments that affect the consolidated financial statements (a) Going concern" section of the notes to the consolidated statements and the "Going concern" section of the directors' report about events and circumstances that indicate that there is material uncertainty which would cast significant doubts about the parent's and group's ability to continue as a going concern and the reasons why the directors deemed it appropriate to prepare the consolidated financial statements at 31 December 2021 on a going concern basis.

Obtaining sufficient audit evidence supporting the parent's directors' use of the going concern basis of accounting was a key audit matter.

Our audit procedures included:

— analysing the process applied by the directors to assess the parent's and group's ability to continue as a going concern;

— understanding and assessing the reasonableness of the main assumptions underlying the 2022-2024 projections approved by the board of directors on 28 February 2022;

— understanding and analysing the 2022 expected cash flows prepared by the parent on the basis of the 2022 budget approved by the board of directors on 18 January 2022 and the underlying key assumptions;

— checking any discrepancies between the previous year forecast and actual figures, in order to check the accuracy of the estimation process;

— comparing the main assumptions underlying the projections to the group's historical data and external information, where available;

— updating the analysis of the main transactions that the group commenced and completed during the year, especially the winding up of Pininfarina Engineering S.r.l. and the restructuring of the subsidiary Pininfarina Deutschland GmbH;

— obtaining evidence supporting the capital injection for future capital increases made by the majority shareholder and checking its accounting treatment;

— analysing the minutes of the parent's internal bodies' meetings;

— checking the directors' calculations of the financial covenants provided for by the loan agreements;

— analysing the events after the reporting date that provide information useful for an assessment of the appropriateness of the use of the going concern assumption;

— obtaining written representations from the parent's directors in relation to future action plans and their viability;

— assessing the appropriateness of the disclosures provided in the notes about the going concern assumption.

We did not qualify our opinion in this respect.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in the audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to that described in the *Material uncertainty about going concern* section, we have identified the following key audit matters to report herein:

Estimate of the recoverable amount of non-current assets

Notes to the consolidated financial statements: note "Assessments that affect the consolidated financial statements, paragraph (c) Impairment testing", note 1 "Property, plant and equipment" and note 3 "Intangible assets".

Key audit matter	Audit procedures addressing the key audit matter
The consolidated financial statements at 31 December 2021 include property, plant and equipment of €33.9 million, €15.7 million of which relating to non-operating industrial facilities, intangible assets of €6.3 million and right-of-use assets of €3 million. Further to the major restructuring undertaken as a result of the persisting general negative performance of the reference automotive market and the concurrent effect of the COVID-19 pandemic, the parent and its group recognised operating losses and impairment losses on non-current assets in the past few years. The conditions of the Pininfarina Group's reference market for 2021 were better than those of one year earlier. A general pick-up in demand with substantially stable prices was especially recorded by the other design activities CGU and its 2021 actual financial performance was better than budgeted, partly thanks to the new post-restructuring cost positioning. The 2022 budget prepared by the directors confirm the 2021 scenario, albeit in a difficult general context.	Our audit procedures included: — understanding the process adopted to prepare the impairment test approved by the parent's board of directors; — understanding the process adopted to prepare the CGUs' financial projections from which the expected cash flows used for impairment testing have been derived; — analysing the reasonableness of the assumptions used to prepare the financial projections; — checking any discrepancies between the previous year forecast and actual figures, in order to check the accuracy of the estimation process; — comparing the expected cash flows used for impairment testing to those used for the financial projections and analysing the reasonableness of any discrepancies; — involving experts of the KPMG network in the assessment of the reasonableness of the impairment testing model and related assumptions, including by means of a comparison with external data and information;

Like in the past, the directors tested the non-current assets' reporting-date carrying amounts for impairment in order to identify any impairment losses or the need to reverse impairment losses previously recognised. As a result of the test, the directors reversed impairment losses of €2.7 million previously recognised on non-current assets, mainly relating to the other design activities CGU. They estimated the recoverable amount based on its value in use, calculated using the discounted cash flow model. Impairment testing requires a high level of judgement, especially in relation to: — the expected cash flows derived from the 2022-2024 projections approved by the board of directors on 28 February 2022, which are calculated by taking into account the general economic performance and that of the group's sector and the actual cash flows generated by the CGUs in recent years; — the financial parameters to be used to discount the above cash flows. For the above reasons, we believe that the recoverability of non-current assets is a key audit matter.	— assessing the appropriateness of the disclosures provided in the notes about non-current assets and the related impairment test.

Recoverability of the Bairo Canavese and San Giorgio Canavese industrial facilities

Notes to the consolidated financial statements: note "Assessments that affect the consolidated financial statements, paragraph (c) impairment testing" and note 1 "Property, plant and equipment".

Key audit matter	Audit procedures addressing the key audit matter
The caption "Property, plant and equipment" of the consolidated financial statements at 31 December 2021 include the carrying amounts of the discontinued Bairo Canavese and San Giorgio Canavese industrial facilities (€11.7 million and €4 million, respectively). The recoverability of the above facilities' carrying amounts is based on their fair value, which is in line with the most recent appraisals available to the parent.	Our audit procedures included: — analysing the method used to calculate the Bairo Canavese and San Giorgio Canavese industrial facilities' fair value; — analysing the reasonableness of the assumptions underlying the above industrial facilities' fair value measurement, including by analysing the appraisals prepared by the external consultants engaged by the parent;

Measuring fair value entails a high level of judgement by the directors, especially in relation to the key underlying assumptions. For the above reasons, we believe that the recoverability of the industrial facilities mentioned above is a key audit matter.	— involving experts of the KPMG network in the assessment of the reasonableness of the assumptions and valuations underlying the appraisals prepared by the parent's external consultants, including by means of a comparison with external data and information; — analysing the events after the reporting date that provide information useful for an assessment of the recoverability of the carrying amounts of those industrial facilities; — assessing the appropriateness of the disclosures provided in the notes about the recoverability of the carrying amounts of those industrial facilities.

Responsibilities of the parent's directors and board of statutory auditors ("Collegio Sindacale") for the consolidated financial statements

The directors are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with the International Financial Reporting Standards endorsed by the European Union and the Italian regulations implementing article 9 of Legislative decree no. 38/05 and, within the terms established by the Italian law, for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The directors are responsible for assessing the group's ability to continue as a going concern and for the appropriate use of the going concern basis in the preparation of the consolidated financial statements and for the adequacy of the related disclosures. The use of this basis of accounting is appropriate unless the directors believe that the conditions for liquidating the parent or ceasing operations exist, or have no realistic alternative but to do so.

The *Collegio Sindacale* is responsible for overseeing, within the terms established by the Italian law, the group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA Italia will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISA Italia, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

— identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

— obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group's internal control;

— evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors;

— conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion.
Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the group to cease to continue as a going concern;

— evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation;

— obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance, identified at the appropriate level required by ISA Italia, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the ethics and independence rules and standards applicable in Italy and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are, therefore, the key audit matters. We describe these matters in our auditors' report.

Other information required by article 10 of Regulation (EU) no. 537/14

On 6 May 2013, the parent's shareholders appointed us to perform the statutory audit of its separate and consolidated financial statements as at and for the years ending from 31 December 2013 to 31 December 2021.

We declare that we did not provide the prohibited non-audit services referred to in article 5.1 of Regulation (EU) no. 537/14 and that we remained independent of the parent in conducting the statutory audit.

We confirm that the opinion on the consolidated financial statements expressed herein is consistent with the additional report to the *Collegio Sindacale*, in its capacity as audit committee, prepared in accordance with article 11 of the Regulation mentioned above.

Report on other legal and regulatory requirements

Opinion on the compliance with the provisions of Commission Delegated Regulation (EU) 2019/815

The parent's directors are responsible for the application of the provisions of Commission Delegated Regulation (EU) 2019/815 with regard to regulatory technical standards on the specification of a single electronic reporting format (ESEF) to the consolidated financial statements to be included in the annual financial report.

We have performed the procedures required by Standard on Auditing (SA Italia) 700B in order to express an opinion on the compliance of the consolidated financial statements with Commission Delegated Regulation (EU) 2019/815.

In our opinion, the consolidated financial statements have been prepared in XHTML format in compliance with the provisions of Commission Delegated Regulation (EU) 2019/815.

Opinion pursuant to article 14.2.e) of Legislative decree no. 39/10 and article 123-bis.4 of Legislative decree no. 58/98

The parent's directors are responsible for the preparation of the group's directors' report and report on corporate governance and ownership structure at 31 December 2021 and for the consistency of such reports with the related consolidated financial statements and their compliance with the applicable law.

We have performed the procedures required by Standard on Auditing (SA Italia) 720B in order to express an opinion on the consistency of the directors' report and the specific information presented in the report on corporate governance and ownership structure indicated by article 123-*bis*.4 of Legislative decree no. 58/98 with the group's consolidated financial statements at 31 December 2021 and their compliance with the applicable law and to state whether we have identified material misstatements.

In our opinion, the directors' report and the specific information presented in the report on corporate governance and ownership structure referred to above are consistent with the group's consolidated financial statements at 31 December 2021 and have been prepared in compliance with the applicable law.

With reference to the above statement required by article 14.2.e) of Legislative decree no. 39/10, based on our knowledge and understanding of the entity and its environment obtained through our audit, we have nothing to report.

Statement pursuant to article 4 of the Consob regulation implementing Legislative decree no. 254/16

The directors of Pininfarina S.p.A. are responsible for the preparation of a consolidated non-financial statement pursuant to Legislative decree no. 254/16. We have checked that the directors had approved such consolidated non-financial statement. In accordance with article 3.10 of Legislative decree no. 254/16, we attested the compliance of the non-financial statement separately.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2022 AND 2021

NOTE 1—DESCRIPTION OF OPERATIONS AND BASIS OF PRESENTATION

Lightbridge Communications Corporation ("LCC"), a Delaware corporation, was formed in March 2010 and is headquartered in Plano, Texas. Unless the context indicates otherwise, the term "Company" refers herein to LCC and its subsidiaries.

Effective January 1, 2015, LCC is a wholly owned subsidiary of Tech Mahindra (Americas), Inc., which is a wholly owned subsidiary of Tech Mahindra Limited ("Tech Mahindra").

LCC conducts business through its direct and indirect wholly owned subsidiaries that provide services in North America, Europe, Middle East and Africa, Latin America, and Asia.

The Company provides integrated end-to-end solutions for wireless voice and data communications networks with offerings ranging from high level technical consulting to system design and optimization services, ongoing operations and maintenance services, and deployment services. The Company uses initial opportunities to provide high-level technical consulting services to secure later-stage system design and network optimization contracts. Engagements to provide design services also create opportunities for the Company to propose on operations and maintenance projects including network optimization contracts as well as other services. The Company's technical consulting, system design and network optimization practices position it to capitalize on additional opportunities as new technologies are developed and wireless service providers upgrade their existing networks, deploy the latest available technologies, and respond to changes in how customers use wireless services.

The accompanying consolidated financial statements include the results of LCC and its direct and indirect wholly owned subsidiaries. Intercompany transactions and balances have been eliminated in the consolidated financial statements. Investments in entities in which the Company does not have majority ownership have been accounted for using the equity method of accounting. The share of profit / loss of the associate company has been adjusted to the cost of investment in the associate, as per the 'Equity method'.

During the previous year, LCC Telecom GMBH, erstwhile step-down subsidiary of LCC has been merged with Tech Mahindra GmbH effective October 02, 2020. As per draft scheme of merger, the appointed date of the merger was April 01, 2020 without any exchange of sale consideration. The effect of the merger has been given in the previous financial year and accordingly capital reserve amounting to USD 10.67 million has been recorded.

Shares of LCC Network Services B.V, erstwhile step-down subsidiary of Lightbridge Communications Corporation have been transferred to Tech Mahindra Limited effective March 31, 2021 for a consideration of EURO 1. The effect of the same has been given in the previous financial year and accordingly capital reserve amounting to USD 1.36 million has been recorded.

Liquidity

As of March 31, 2022, the Company had an accumulated deficit of $ 292.63 million and the Company incurred a net loss of $ 2.98 million for the year ended March 31, 2022. The Company had cash inflow from operations of $ 6.91 million for the year ended March 31, 2022. As of March 31, 2022, the Company has approximately $ 66.65 million of short-term borrowings, the most significant of which are $ 36.88 million from Citibank N.A scheduled to mature in February 2023 with renewals at agreed intervals, $ 6.44 million from Notes issued to Tech Mahindra (Americas), Inc. scheduled to mature in October 2022 and $19.98 million from CJS Solutions Group LLC scheduled to mature at agreed intervals from January 2023. The borrowings under these facilities are guaranteed by Tech Mahindra Limited, the ultimate holding company or funded by its related parties. See Note 6, Borrowings. Management has prepared projections and believes that cash flows from operations, existing cash on hand, available cash under existing credit facilities, plus availability of cash, if needed, from Tech Mahindra Limited will be adequate to fund the Company's cash requirements for the foreseeable future. Accordingly, the financial statements for the year ended March 31, 2022 has been prepared on a going concern basis.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Significant accounting policies are as follows:

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Estimates are used in accounting for, among other things, revenue recognition on contracts, allowance for doubtful accounts, accrual of income taxes, recoverability of investments in affiliates, goodwill and other intangible assets, discounting of lease liability and the accrual of restructuring charges. Although these estimates are based upon management's best knowledge of current events and actions, actual amounts may differ from estimates.

Cash and Cash Equivalents and Restricted Cash

Cash and cash equivalents include all highly liquid investments purchased with original maturities of 90 days or less and short-term money market funds. The Company places its cash and cash equivalents with high-quality financial institutions.

Restricted cash includes margin money kept with the bank for Line of Credit.

At March 31, 2022 and March 31, 2021, the Company had $ 23.3 million and $ 24.4 million of cash in foreign bank accounts, respectively.

Concentration of Credit Risk

Financial instruments that potentially expose the Company to concentration of credit risk consist primarily of trade receivables, cash and cash equivalents and restricted cash. The Company sells services globally. Generally, the Company does not require collateral or other security to support customer receivables. The Company performs ongoing credit evaluations of its customers' financial condition and maintains an allowance for doubtful accounts related to potential credit losses. The Company had the following significant concentrations of trade receivables from customers including within United States of America at March 31, 2022 and March 31, 2021:

	March 31,	
	2022	2021
	(In thousands)	
Middle East/Africa	$ 17,458	22,082
Americas	12,647	10,015
Europe	3,261	3,723
Rest of the world	566	720

The Company's existing and potential customer base is diverse and includes domestic and foreign telecommunications carriers, equipment manufacturers and foreign enterprises. The Company derived approximately 73% and 70% of its revenues from ten customers for the year ended March 31, 2022 and 2021, respectively. The Company has approximately 71% and 62% of its accounts receivable (including unbilled revenue) from ten customers as of March 31, 2022 and 2021, respectively. Individually, one of these top ten customers comprised 17% and 17% of total revenue for the year ended March 31, 2022 and 2021 respectively. Individually, one of these top ten customers of the Company had net receivable balance (including unbilled revenue) at 14% and 14% of total receivables as of March 31, 2022 and 2021, respectively.

At times, the Company maintains cash balances in financial institutions, which may exceed federally insured limits. The Company has not experienced any losses in its accounts and believes it is not exposed to a significant credit risk on its cash and cash equivalents. As at March 31, 2022, the Company has Nil [2021: $285,027] as balances in excess of the federally insured amounts.

Although the Company believes that the diversity of its customer base may minimize the risk of incurring material losses due to concentrations of credit risk, the Company may be exposed to a declining customer base in periods of market downturns, severe competition, exchange rate fluctuations or other international developments.

Fair Value Measurements

The carrying amounts reported in the consolidated balance sheet for cash and cash equivalents, accounts receivable, notes payable, accounts payable and accrued expenses and certain other current liabilities approximate fair value due to the immediate to short-term maturity of these financial instruments.

The Company follows the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, for financial assets and liabilities measured on a recurring basis. ASC 820 applies to all financial assets and financial liabilities that are being measured and reported on a fair value basis. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches, including market, income and/or cost approaches. ASC 820, Fair Value Measurements and Disclosures establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company.

Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. Financial assets and liabilities which are recorded at fair value in the accompanying financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. The levels are directly related to the amount of subjectivity associated with the inputs to fair valuation of these assets and liabilities, and are as follows:

Level 1 – Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Valuation adjustments and block discounts are not applied to Level 1 instruments. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuations of these products do not entail a significant degree of judgment.

Level 2 – Inputs other than quoted prices included in Level 1, which are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active. The Company's interest rate swaps are valued using level 2 inputs.

Level 3 – Unobservable inputs that reflect the reporting entity's own assumptions.

Property, Equipment and Software

Property and equipment are stated at cost, less an allowance for depreciation and amortization.

Assets under capital lease obligations are recorded at lower of the present value of the minimum lease payments or the fair market value of the leased asset, at the inception of the lease.

Replacements and major improvements are capitalized; maintenance and repairs are charged to expense as incurred.

Depreciation is calculated using the straight-line method over the estimated useful lives of the related assets per the table below.

Computer and electronics	3 years
Software	3 years
Machinery and equipment	3 to 7 years
Furniture and office equipment	3 to 15 years
Office building	20 years
Leasehold improvements	Shorter of the term of the lease or estimated useful life
Vehicles	3 to 5 years

Expenditure for maintenance and repairs are expensed as incurred. When assets are retired or otherwise disposed of, the cost of the asset and related accumulated depreciation and amortization are eliminated from the financial records. Any gain or loss on disposal is credited or charged to the statement of operations.

Impairment of Long-Lived Assets

The Company's policy is to review its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable in accordance with ASC 360, Property Plant and Equipment. The Company recognizes an impairment loss when the sum of the expected undiscounted future cash flows is less than the carrying amount of the asset. The measurement of the impairment losses to be recognized is based upon the difference between the fair value and the carrying amount of the assets.

Goodwill and Other Intangible Assets

Goodwill and other intangible assets acquired in a business combination and determined to have an indefinite useful life are not amortized, but instead tested for impairment at least annually in accordance with the provisions of ASC 350, Intangibles - Goodwill and Other (ASC 350). ASC 350 also requires that intangible assets with estimable useful lives be amortized over their respective estimated useful lives to their estimated residual values and reviewed for impairment. Goodwill represents the excess of cost over the fair value of identifiable net assets acquired. The Company tests goodwill for impairment on an annual basis as of March 31. In addition, goodwill and other intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable.

The goodwill and indefinite-lived intangibles impairment test consists of a two-step process, if necessary. The Company first assesses qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill and indefinite-lived intangibles impairment test. The more likely than not threshold is defined as having a likelihood of more than 50 percent. This evaluation includes macroeconomic and industry and market specific considerations, financial performance indicators and measurements, and other factors. If, after assessing the totality of events or circumstances, the Company determines that it is not more likely than not that the fair value of a reporting unit is less than it's carrying amount, then performing the two-step impairment test is unnecessary, and goodwill and other indefinite-lived intangible assets are considered to be unimpaired. However, if based on the Company's qualitative assessment, it concludes that it is more likely than not that the fair value of a reporting unit is less than it's carrying amount, the Company will proceed with performing the two-step process. The Company performed a qualitative assessment as of March 31, 2022 and concluded that it was more likely than not that goodwill and indefinite-lived intangible assets were not impaired.

The first step of the impairment test involves comparing the fair value of the reporting unit to its net book value, including goodwill. If the net book value exceeds its fair value, then the Company would perform the second step of the goodwill impairment test to determine the amount of the impairment loss. The impairment loss would be calculated by comparing the implied fair value of the Company to its net book value. In calculating the implied fair value of the Company's goodwill, the fair value of the Company would be allocated to all of the other assets and liabilities based on their fair values. The excess of the fair value of the Company over the amount assigned to its other assets and liabilities is the implied fair value of goodwill. An impairment loss would be recognized when the carrying amount of goodwill exceeds its implied fair value. There have been no impairments of goodwill or indefinite-lived intangible assets recorded in the Company's consolidated statement of operations during the year ended March 31, 2022 and March 31, 2021.

Allowance for Doubtful Accounts

Accounts receivable from customers are generally due within 60-90 days and are stated at amounts due from customers, net of an allowance for doubtful accounts. The Company makes estimates of the probability of collection of accounts receivable by specifically analyzing customer balances, concentrations, credit-worthiness, current economic trends and changes in customer payment terms when evaluating the adequacy of the allowance for doubtful accounts. Accounts receivable are written off when they become uncollectible.

Revenue Recognition

The Company's principal sources of revenue are consulting, integration, operations and solutions.

Revenue is recognized upon transfer of control of contracted products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

The Company recognizes revenues from fixed-price contracts using the percentage-of-completion method and proportional performance method based on nature and terms of the contract with customers. Under proportional performance method, revenue from services is recognized in accounting periods in which the services are rendered, by reference to completion of the specific transaction, assessed on the basis of the actual service provided as a proportion of the total services to be provided. Depending on the nature of the contract, revenue is recognized based on the proportion of the contract term completed, or the specific services provided to date.

Under the percentage-of-completion method, revenues are recognized based on the ratio of individual contract costs incurred to date on a project compared with total estimated contract costs. The Company compares costs incurred to date to progress achieved against project milestones to determine if the percentage of completion is reasonable. Anticipated contract losses are recognized as soon as they become known and estimable.

The Company recognizes revenues on time and materials contracts as the services are performed i.e. based on time / efforts spent.

In deployment projects, the Company generally receives purchase orders for individual cell sites based on agreed upon fixed prices for types of standard cell sites. Non-standard services related to a cell site are priced on a variable basis using either agreed upon rates per hour or a rate schedule for such non-standard services. Deployment of cell sites may take up to several months and revenues and costs are recognized on a percentage of completion basis based upon the Company's engineering estimates.

Contract assets are recognized when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (under current assets) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue is recognized when there is billing in excess of revenues, under current liabilities. The billing schedules agreed with customers include periodic performance -based payments and / or milestone - based progress payments. Invoices are payable within contractually agreed credit period.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for. There are no material contract acquisition cost incurred by the Company.

Use of significant estimates and judgements

The Company uses the expected cost- plus margin approach to allocate the transaction price to each distinct performance obligation.

Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended are used to measure progress towards completion as there is a direct relationship between input and productivity.

The Company uses significant judgements while determining the transaction price allocated to performance obligations using the expected cost-plus margin approach.

Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Disaggregation of revenue:

The Company disaggregates revenue from contracts with customers by geography and contract-type, as it believes it best depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by industry, market and other economic factors. Revenues are attributed to geographic regions based upon client location.

The following tables set forth reported revenue by geography and contract type:

(In thousands)

Geographic Location	Year ended 31 March 2022	Year ended 31 March 2021
Middle East / Africa	115,968	112,784
Americas	50,685	44,880
Europe	23,186	24,913
Rest of the world	9,293	7,672
Total	**199,132**	**190,249**

Type of Contract	Year ended 31 March 2022	Year ended 31 March 2021
Fixed Price	141,625	130,697
Time and Materials	57,507	59,552
Total	**199,132**	**190,249**

Income Taxes

Income taxes are determined in accordance with ASC 740, Income Taxes. Under this guidance, temporary differences arise as a result of the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Deferred tax assets and liabilities of different jurisdictions are not offset.

The Company recognizes the financial statement effect of an income tax position when it is more likely than not, based on technical merits, that the position will be sustained upon examination by a taxing authority. Recognized tax positions are initially and subsequently measured as the largest amount of tax benefit that is more likely than not of being realized upon ultimate settlement with the relevant taxing authority. The Company has chosen to treat interest and penalties related to uncertain tax liabilities as income tax expense and as an increase to the income tax liability. For the year ended March 31, 2022 and March 31, 2021, the Company did not record any interest or penalties related to uncertain tax positions.

As a subsidiary of Tech Mahindra (Americas), Inc., with whom the Company files consolidated federal and state returns, the Company calculates the provision for income taxes by using a “benefits-for-loss” method. Under this method, the Company and its subsidiaries are assumed to file a separate return with the tax authority, thereby reporting the taxable income or loss and paying the applicable tax to or receiving the appropriate refund from Tech Mahindra (Americas), Inc. as if the Company and all of its subsidiaries were separate taxpayers, except that the net operating losses (or other current or deferred tax attributes) are characterized as realized (or realizable) by the Company and its subsidiaries when those tax attributes are realized by the consolidated group even if the Company and its subsidiaries would not otherwise have realized the attributes on a stand-alone basis. The Company’s intercompany tax-related receivable from Tech Mahindra (Americas), Inc. are $2.8 million and $2.7 million at March 31, 2022 and March 31, 2021, respectively.

Certain of the Company’s international operations are subject to local income taxes. Currently, the Company is subject to taxation on income from certain operations in Europe, Latin America, Africa, the Middle East and the non-U.S. portions of North America where the Company has subsidiaries, has established branch offices or has performed significant services that constitute a “permanent establishment” for tax reporting purposes. The foreign taxes paid or accrued by the Company may represent a potential credit for the Company against U.K. or U.S. federal income taxes.

Foreign Currency Translation

The Company’s foreign operations are subject to exchange rate fluctuations and foreign currency transaction costs. The majority of the Company’s foreign transactions are denominated in Euro and Saudi Riyals.

The financial statements of the Company’s foreign subsidiaries have been translated into U.S. dollars in accordance with ASC 830-30, Translation of Financial Statements. For foreign operations with the local currency as the functional currency, assets and liabilities denominated in non-U.S. dollar functional currencies are translated using the period-end spot exchange rates. Revenues and expenses are translated at monthly-average exchange rates. Capital accounts are translated at historical exchange rates. The current period effects of translating operations with a functional currency other than the reporting currency are reported within the statement of comprehensive income (loss) with accumulated effects presented as a component of accumulated other comprehensive income (loss) within the consolidated statement of changes in shareholders’ equity. The determination of functional currency is based on the subsidiary’s relative financial and operational independence from the Company’s US based parent.

The Company is also subject to foreign currency transaction gains or losses due to inter-company payables and receivables denominated in foreign currency. For the year ended March 31, 2022 and March 31, 2021, these balances generated a foreign exchange loss of $ 0.21 million and loss of $ 0.16 million, respectively. These amounts are included in other income/(expense) in the consolidated statement of operations.

Other Comprehensive Income/(Loss)

Comprehensive income/(loss) is defined as net income/(loss) plus the changes in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. Other comprehensive income/(loss) refers to revenues, expenses, gains and losses that under U.S. GAAP are included in comprehensive income/(loss), but excluded from net income (loss).

Derivative Instruments

The Company records derivatives at fair value. The designation of a derivative instrument as a hedge and its ability to meet the hedge accounting criteria determine how the Company reflects the change in fair value of the derivative instrument within its consolidated financial statements. A derivative qualifies for hedge accounting if, at inception, the Company expects that the derivative will be highly effective in offsetting the underlying hedged cash flows and the Company fulfills the hedge documentation standards at the time it enters into the derivative contract.

The Company designates a hedge as a cash flow hedge based on the exposure it is hedging. For the effective portion of qualifying cash flow hedges, the Company records changes in fair value in other comprehensive income/(loss) (“OCI”). The Company reviews the effectiveness of its hedging instruments quarterly. The Company manages its exposure to the interest fluctuation risk by monitoring available financing alternatives, as well as through development and application of credit granting policies. As a matter of policy, the Company only enters into transactions that it believes will be highly effective at offsetting the underlying risk, and the Company does not use derivatives for trading or speculative purposes.

Leases:

Effective April 1, 2019, the Company has early adopted, with modified retrospective application, Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2016-02, “Leases (Topic 842)” (ASC 842), which replaces existing lease accounting rules (ASC 840) with a comprehensive lease measurement and recognition standard and expanded disclosure.

This update requires the recognition of lease assets and lease liabilities on the balance sheet for all lease obligations and disclosing key information about leasing arrangements. This update requires the recognition of lease assets and lease liabilities by lessees for arrangements that are classified as operating leases. The Company’s operating leases resulted in the recognition of additional assets and the corresponding liabilities on its Consolidated Balance Sheet.

The Company determines whether an arrangement is a lease at contract inception by establishing if the contract conveys the right to control the use of identified property, plant and equipment for a period of time in exchange for consideration.

Right of Use (ROU) Assets and Lease Liabilities for operating leases are separately disclosed under non-current assets, current liabilities and non-current liabilities in the consolidated balance sheet as at March 31, 2022 and March 31, 2021. The ROU Assets represent the right to use an underlying asset for the lease term and lease liabilities represent an obligation to make lease payments arising from the lease. Commitments under finance leases are not significant, and are included in Property, plant and equipment, current liabilities, and non-current liabilities in the consolidated balance sheet as at March 31, 2022 and March 31, 2021.

The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. The lease expenses with original terms of one year or less is charged to the Consolidated Statement of Operations.

The key change upon adoption of the standard was balance sheet recognition, given that operating lease was recognized as lease expense in the statement of operations under historical accounting. Using the modified retrospective transition method of adoption, the Company did not adjust the balance sheet for comparative periods.

NOTE 3—ACCOUNTS RECEIVABLE

The Company is party to various long-term contracts for which significant revenues are recognized on the percentage-of-completion method. Certain of these contracts have large amounts of unbilled receivables associated with them and will be performed over a period of more than one year.

The Company is party to accounts receivable factoring agreements with financial institutions in Europe, Middle East and Africa jurisdiction whereby the Company may sell eligible accounts receivable. The Company accounts for these programs under ASC 860, Transfers and Servicing which requires that transferred assets have been isolated from the transferor, the transferee obtains the right to transfer or exchange the asset and the transferor does not maintain effective control over the transferred assets through an agreement that both entitles and obligates the transferor to repurchase or redeem the assets transferred in order to qualify as a sale. The Company's factoring arrangements do not meet all of the criteria for sale accounting, thus those factoring arrangements are accounted for as secured borrowings or offset with balances of cash and cash equivalents (where it pertains to the same bank) and if the Company's factoring arrangement meets the criteria for sale accounting, those factoring arrangements are accounted as net of trade receivables.

The Company is party to a factoring agreement (the "HSBC Agreement") with HSBC FACTORING France ("HSBC") whereby the Company's French subsidiary may sell its eligible accounts receivable to HSBC on a revolving basis up to a maximum of 2.0 million Euros. Under the terms of the HSBC Agreement, accounts receivables are sold to HSBC with recourse at 90% of their face value, less interest of EONIA plus 1.5% and a commission of 0.45%. Transfers of accounts receivable were approximately 0.61 million and 0.49 million Euros (approximately $0.68 million and $0.58 million) as of March 31, 2022 and March 31, 2021, respectively, which is included within lines of credit in the consolidated balance sheets. As of March 31, 2022, and March 31, 2021, the Company had unutilized limit of 1.15 million and 1.22 million Euros (approximately $1.28 million and $1.44 million), respectively, available under the HSBC Agreement.

There are no restrictions on assets reported by an entity in its balance sheet that relate to a transferred financial asset, including the carrying amounts of those assets. No servicing assets and servicing liabilities are reported. The Company accounts for factoring arrangements as secured borrowings or offset with balances of cash and cash equivalents (where it pertains to the same bank), since the transferor has continuing involvement with the transferred financial assets.

The Company is party to a factoring agreement (the "Bankinter Agreement") with Bankinter S.A., ("Bankinter") whereby the Company's Spanish subsidiary may sell its eligible accounts receivable to Bankinter on a revolving basis up to a maximum of 0.5 million Euros. Under the terms of the Bankinter Agreement, accounts receivables are sold to Bankinter without recourse at 100% of their face value less interest of EURIBOR plus 2.5% and a commission of 0.50%. During the current year and previous year, there were no transfers of accounts receivable. As of March 31, 2022, and March 31, 2021, the Company had unutilized limits of 0.50 million Euros and 0.50 million Euros (approximately US$0.55 million and US$0.58 million), respectively, available under the Bankinter Agreement.

NOTE 4—PROPERTY AND EQUIPMENT

At March 31, 2022 and 2021, property and equipment consisted of the following:

	March 31, 2022	March 31, 2021
	(In thousands)	
Computer and electronics	$ 2,754	$ 2,766
Machinery and equipment	9,580	13,500
Furniture and office equipment	2,867	3,257
Office building	2,356	2,340
Leasehold improvements	3,771	3,845
Vehicles	4,728	4,920
Property and equipment	26,056	30,628
Less: accumulated depreciation and amortization	(22,752)	(26,652)
Property and equipment, net	**$ 3,304**	**$ 3,976**

Property and equipment include vehicles and machinery and equipment under capital lease amounting to $4.5 million and $4.8 million as of March 31, 2022 and March 31, 2021 respectively. Accumulated depreciation for vehicles and machinery and equipment under capital lease amounted to $4.3 million and $3.8 million as of March 31, 2022 and March 31, 2021 respectively.

Depreciation and amortization expense related to property and equipment for the year ended March 31, 2022 and 2021 was $1.5 million and $3.4 million, respectively.

NOTE 5—GOODWILL AND INTANGIBLE ASSETS

As of March 31, 2022 and 2021, intangible assets consisted of the following:

	March 31, 2022	March 31, 2021
	(In thousands)	
Goodwill (Beginning and end of the year)	$ 3,443	$ 3,443
Other intangible assets:		
Customer relationships	33,762	33,816
Backlog	309	308
Trade names	6,689	6,689
Patents	48	48
Software	4,463	4,471
Total other intangible assets	**45,271**	**44,820**
Less: Accumulated amortization		
Customer relationships	(30,016)	(27,528)
Backlog	(309)	(308)
Trade names	(5,288)	(4,664)
Patents	(48)	(48)
Software	(3,855)	(4,139)
Accumulated amortization	(39,516)	(36,687)
Other intangible assets, net	**$ 5,755**	**$ 8,645**

The Company reviews its definite-life intangible assets for impairment, in accordance with ASC 350 — Intangibles — Goodwill and Other. The result of this review identified no impairment of the intangible assets as of March 31, 2022 and 2021.

Amortization expense related to intangibles was $3.3 million and $3.5 million for the year ended March 31, 2022 and 2021, respectively. The weighted average amortization period is 12 years for customer relationships; 10 years for patents; 10 years for trade names; 1.5 years for backlog and 4 years for software.

The following summarizes expected amortization expense for each of the five succeeding years (In thousands):

March 31, 2023		2,535
March 31, 2024		2,270
March 31, 2025		645
March 31, 2026		97
March 31, 2027		97
Thereafter		111
	$	**5,755**

NOTE 6—BORROWINGS

Unsecured Credit Facilities

In March 2015, the Company entered into a $50.0 million uncommitted line of credit agreement with Citibank, N.A ("Citibank") which allows borrowing up to $50.0 million until March 1, 2016. The loan has been extended from time to time with most recent extension till February 2023. The facility accrues interest at a rate of LIBOR plus 0.65% from December 2017, and further reduced to LIBOR plus 0.60% from December 2019. Amendment 4 to the agreement was signed on December 5, 2019 to facilitate a Euro line of credit not exceeding EURO 31 Million against aforementioned $50 million line of credit. The USD line of credit was decreased by $16.9M (equivalent of EURO 15 million) and a separate EURO 15 million line of credit was obtained. Amendment 7 extends the agreement to February 2023 with all advances and interest at a rate of SOFR plus 1% . The facility is an unsecured facility. Tech Mahindra serves as a guarantor for the facilities.

In April 2016, the Company entered into an agreement with Citibank for additional credit facility, which allowed borrowing up to $30.0 million until April 15, 2018. An amendment was signed on March 21, 2018 to facilitate 8.6 million Euro line of credit within aforementioned $30 million line of credit ($29 million funded line and $1 million non-funded line). Amendment 4 to the agreement was signed on September 11, 2019 increasing the EURO line of credit to 11.6 million Euros. Amendment 5 extended the line to April 10, 2021. A new agreement was drawn and facility was changed to $29.0 million funded line only upto April 20, 2022. The facility accrued interest at a rate of LIBOR plus 0.95% till December 2017 and at a rate of LIBOR plus 0.80% post December 2017. Tech Mahindra serves as a guarantor for the facilities.

As of March 31, 2022, $ 18.5 million and $18.4 million were drawn against the two Citibank facilities mentioned above. Total interest expense on the said facility was $0.39 million and $0.79 million for the year ended March 31, 2022 and 2021, respectively.

In March 2015, the Company received a $ 40.00 million line of credit from JPMorgan Chase Bank, N.A. ("JPMorgan") under which it could have borrowings until February 29, 2016. The line of credit was increased to $48.0 million in September 2015. The maturity was extended from time to time with most recent extension till December 2020. Each loan issued under the promissory note matures no later than twelve months from the date of the loan. The facility accrues interest at a rate of the greater of (i) the Prime Rate, (ii) Federal Funds Effective Rate plus 0.5%, (iii) the Eurodollar Rate for a one-month period plus 1.0%. The facility is an unsecured facility. Tech Mahindra Limited serves as a guarantor for the facility.

As of March 31, 2022, there is no amount drawn against the JPMorgan facility. Total interest expense on the facility was $ Nil million and $ 0.18 million for the year ended March 31, 2022 and 2021, respectively. The entire $ 48.00 million was repaid in May 2020.

In September 2020, the Company entered into an agreement with Tech Mahindra (Americas) Inc. for loan facility, which allowed borrowing up to $ 50.00 million until September 29, 2021. $ 32.00 million was advanced and in January 2021, $ 27.00 million was repaid. $0.56 million was repaid in September 2021 & $1.5 million was repaid in March, 2022. Further, in March, 2021, $ 2.00 million was advanced and in June 2021 $1.5 million was advanced. On the $32 million advance; the Company accrued and paid interest at a rate of LIBOR plus 105 BPS (1.31925% p.a.) and has further extended to September 2022 at a rate of (1.32% p.a.). On the $2 million dollar advance, the Company accrued and paid interest at a rate of LIBOR plus 100 BPS (1.205% pa) to March 22, 2022, then extended to April 21, 2022 at a rate of (1.24% p.a.). On the $1.5 million dollar advance, the Company accrued and paid interest at a rate of LIBOR plus 100 BPS (1.2% p.a.) with latest extension to April 13, 2022 at a rate of (1.19% p.a.). The total outstanding Principal amount for the three loans is $ 6.4 million with no outstanding interest at March 31, 2022.

In September 2020, the Company entered into an agreement with CJS Solutions Group LLC for loan facility, which allowed borrowing up to $ 10.00 million until September 30, 2021. $ 4.30 million was advanced and the Company accrued and paid interest at a rate of LIBOR plus 100 BPS (1.36% p.a.). The loan was repaid at $2 million in March, 2021; $1.5 million in June, 2021 & final payment of $0.8 million in August 2021. There is no outstanding principal and interest at March 31, 2022.

In December, 2020, the Company entered into an additional agreement with CJS Solutions Group LLC for loan facility, which allowed borrowing up to $ 20 million until December 2021. $ 9.00 million was advanced and the Company accrued and paid interest at a rate of LIBOR plus 80 BPS (1.04% p.a.). $0.7 million was repaid in August 2021; $0.01 was repaid in March 2022 and $1.5 million was advanced in March 2022. The loan has been extended to December 2022 at rate of LIBOR plus 80 BPS (0.87% p.a.) The total outstanding Principal amount for the loan is $ 9.8 million with no outstanding interest at March 31, 2022. In January 2021, the Company entered into a third agreement with CJS Solutions Group LLC for loan facility, which allowed borrowing up to $ 20.00 million until January 2022. $ 6.70 million was advanced and the Company accrued and paid interest at a rate of LIBOR plus 80 BPS (1.00188% p.a.). $.01 million was repaid in March 2022 and the loan has been extended to January 2023. The total outstanding Principal amount for the loan is $ 6.7 million with no outstanding interest at March 31, 2022. In August 2021, the Company entered into another agreement with CJS Solutions Group LLC for loan facility, which allowed borrowing up to $20.0 million until August 2022. $3.5 million was advanced and the Company accrued and paid interest at a rate of LIBOR plus 80 BPS (1.0355% p.a.) The total outstanding Principal amount for the loan is $ 3.5 million with no outstanding interest at March 31, 2022.

The aggregate maturities (inclusive of interest accrued and due) of all borrowings as of March 31, 2022 are as follows (In thousands):

2023	$ 66,646
2024	0
	$ 66,646

As of March 31, 2022 and 2021, the total outstanding borrowings, as discussed above, are as follows:

		2022		2021
		(In thousands)		
Line of Credit				
Citibank, including accrued interest	$	36,880	$	42,243
Other credit facilities	$	3,346	$	4,384
	$	**40,226**	**$**	**46,627**
Short term borrowings from related parties				
Tech Mahindra (Americas) Inc.	$	6,439	$	7,000
CJS Solutions Group LLC	$	19,981	$	18,000
	$	**26,420**	**$**	**25,000**

The Company entered into multiple interest rate swaps agreements with JP Morgan and Citibank to reduce exposure to interest rate fluctuations on its variable rate debt. Upon proper qualifications, these contracts are accounted for as cash flow hedges under current accounting standards. All derivative financial instruments are reported at fair value within the consolidated balance sheet.

Changes in the fair value of derivative instruments designated as cash flow hedges approximated gain of $ 2.72 million and gain of $ 0.85 million for the year ended March 31, 2022 and 2021, respectively and are recorded in accumulated other comprehensive income/(loss), a component of shareholder’s equity, to the extent they are effective. Based on the criteria established by current accounting standards, all the Company’s cash flow hedge contracts are to be highly effective.

The following tables set forth the fair value of the forward exchange contract and its location on the consolidated financial statements (Figures in thousands);

Interest rate swaps	March 31, 2022	March 31, 2021
Other non-current assets (maturing after 12 months)	1,798	-
Other current assets	96	-
Other current liabilities	-	792
Other non-current liabilities (maturing after 12 months)	-	31

The following tables set forth the effect of foreign currency exchange contracts on the consolidated statements of income and accumulated other comprehensive income/(loss) for the years ended March 31, 2022 and 2021 (Figures in thousands).

Interest rate swaps	**March 31, 2022**	**March 31, 2021**
Unrealised gain on cash flow hedges recognized in AOCI	2,717	854
Gain /(loss) on cash flow hedge recognized in net income	370	(717)

NOTE 7—INCOME TAXES

As a result of Tech Mahindra Group's acquisition of the Company in January 2015, the Company had filed its final consolidated federal income tax return which includes all of its US subsidiaries, for year ended December 31, 2014. The Company with all of its subsidiaries and associate became part of Tech Mahindra Group and a subsidiary of Tech Mahindra (Americas), Inc. and accordingly a group consolidated federal income tax return for Tech Mahindra (Americas), Inc. is filed after incorporating the details of the Company including its US subsidiaries, starting with period ended March 31, 2015.

The Company has subsidiaries that file tax returns in several foreign jurisdictions. LCC and its subsidiaries also file tax returns in local tax jurisdictions in many of the countries in which they do business. Many of the Company's subsidiaries' tax returns have been examined through various dates. Generally, the Company is currently open to audit under the statute of limitations by the Internal Revenue Service for the years ending March 31, 2018 to March 31, 2021. In addition, the Company is currently open to audit under the statute of limitations in various foreign jurisdictions for the tax years between 2009 and 2021.

The provision for income taxes for the year ended March 31, 2022 and March 31, 2021 consisted of the following (Figures in thousands):

(Figures in thousands):

	March 31,2022	**March 31, 2021**

Total	**3,562**	**3,078**

Deferred income taxes, net includes the following components as of March 31, 2022 and March 31, 2021 (Figures in thousands):

	March 31, 2022	**March 31, 2021**
	(In Thousands)	
Deferred taxes:		
Gross deferred tax assets	23,687	23,797
Less: valuation allowance	(21,759)	(21,967)
Deferred tax assets, net of Valuation Allowance	1,928	1,830
Gross deferred tax liabilities	(1,563)	(2,143)

* Includes tax pertaining to earlier years amounting to USD 0.3 million.

The Company believes that the deferred tax assets are realisable based on the Company's financial results for the year ended March 31, 2022 and March 31, 2021, projected future taxable income and tax planning strategies. The Company's deferred tax assets are primarily comprised of net operating losses of USD 22.13 million and USD 21.76 million at March 31, 2022 and March 31, 2021 respectively. The Company's deferred tax liabilities are primarily related to intangible assets recorded on the acquisition of Leadcom.

Pursuant to Section 382 of the Internal Revenue Code, the Company underwent an ownership change for tax purposes (i.e., a more than 50% change in stock ownership in aggregated 5% shareholder) as a result of the acquisition by Tech Mahindra (Americas), Inc.

The Company has U.S. operating loss carryforwards of USD 30.10 million as of March 31, 2022 which expire beginning in 2029. Entire amount of USD 30.10 million will be utilised within the period of Sec 382 limitation. The Company also has USD 86.16 million of foreign net operating loss carryforwards, some of which can be carried forward indefinitely, subject to certain restrictions.

Foreign income tax expense is generated from business conducted in countries where the Company has subsidiaries or has established branch offices or has performed significant services that constitute a “permanent establishment” for tax reporting purposes. Foreign income tax also includes non-recoverable withholding tax on projects in countries where the Company does not have a registered presence.

The Company has made no provision for deferred U.S. income taxes or additional foreign taxes on any unremitted earnings of its controlled foreign subsidiaries because the Company considers these earnings to be permanently reinvested.

In determining the income tax valuation allowances, management considers whether it is unlikely that any portion of the deferred tax assets will be realized. Based on the Company’s financial results for the year ended March 31, 2022 and March 31, 2021, the Company decreased its gross deferred tax assets and its valuation allowance on foreign and domestic net operating loss carry-forwards by $208,258 during the year ended March 31, 2022.

As a subsidiary of Tech Mahindra (Americas), Inc., with whom the Company files consolidated federal and state returns, the Company calculates the provision for income taxes by using a “benefits-for-loss” method. The Company’s intercompany tax-related receivable from Tech Mahindra (Americas), Inc. are $2.8 million (nil towards deferred tax) and $2.7 million (nil towards deferred tax) at March 31, 2022 and March 31, 2021 respectively.

The difference between statutory tax rate and effective tax rate primarily includes effect of differential overseas tax rates, effect of expenses that are not deductible in determining taxable profit, adjustment recognised in the current year in relation to the current tax of prior years.

NOTE 8 - LEASES

The Company is a party to operating and finance lease agreements primarily for office facilities, warehouses, residential premises and vehicles expiring on various dates between 2023 and 2029. Some of the operating leases include one or more options to renew. The exercise of these renewal options is at Company’s sole discretion. Renewal options were included in the calculations of the operating lease ROU assets and operating lease liabilities when it is reasonably certain that such options will be exercised.

A. Components of lease costs for the year ended March 31, 2022 included in the Statement of operations are as follows:

(In thousands)

Particulars	March 31, 2022	March 31, 2021
Operating lease cost	2,237	2,558
Finance lease cost:		
Depreciation of right-of-use assets	591	1,046
Interest on lease liabilities	19	87
Short term lease cost	2,465	1,483
Sub-lease income	(795)	(590)
Total lease cost	**4,517**	**4,845**

B. Cash paid for amounts included in measurement of lease liability:

(In thousands)

Particulars	March 31, 2022	March 31, 2021
Operating cash flow towards finance leases (interest)	19	367
Operating cash flow towards operating leases	2,218	2,191
Financing cash flow towards finance leases	777	1,015
Right of use assets recognised in exchange for new finance lease liabilities	137	496
Right of use assets recognised in exchange for new operating lease liabilities	876	2,555

C. Components of lease assets and liabilities as at March 31, 2022 included in the Balance Sheet are as follows:

(In thousands)

Particulars – assets	**March 31, 2022**	**March 31, 2021**
Operating lease right-of-use assets	6,744	8,324
Capital leases:		
Property and equipment, at cost	4,514	4,795
Accumulated depreciation	(4,316)	(3,796)
Property and equipment, net	198	999

(In thousands)

Particulars – liabilities	**March 31, 2022**	**March 31, 2021**
Operating lease:		
Current	1,939	2,118
Non-current	5,458	6,869
Capital lease:		
Current	114	751
Non-current	62	57

D. Weighted Average Remaining Lease term and Discount Rate:

Particulars	**LCC (excluding Leadcom)**	**Leadcom**	**Average***
Weighted-Average Remaining Lease Term:			
Operating leases	5.39	4.40	4.89
Capital leases	0.75	2.40	1.58
Weighted-Average Discount Rate:			
Operating leases	2.40%	5.20%	3.80%
Finance leases	0.91%	7.30%	4.10%

* Average has been derived by considering weighted average of LCC and Leadcom data.

E. The following table provides the schedule of maturities of operating and finance lease liabilities, under the New Lease Standard, as of March 31, 2022:

(In thousands)

Particulars – Operating leases	**March 31, 2022**
2022-2023	1,998
2023-2024	1,587
2024-2025	1,253
2025-2026	1,248
2026-2027	1,290
Thereafter	559
Total lease payments	**7,935**
Less: Imputed Interest	538
Net	**7,397**

(In thousands)

Particulars – Finance leases	March 31, 2022
2022-2023	115
2023-2024	62
Total lease payments	**177**
Less: Imputed Interest	1
Net	**176**

NOTE 9—HEALTH AND RETIREMENT PLANS

April 2021 to March 2022

Defined contribution plan

The Company's foreign subsidiaries participate in separate defined contribution retirement plans for which the Group made contributions on behalf of employees amounting to $2.2 million and $2.7 million for the year ended March 31, 2022 and 2021, respectively.

Defined benefit plan

The amount recognized in the consolidated statement of operations related to gratuity plans were approximately $1.7 million and $2.6 million for the year ended March 31, 2022 and March 31, 2021, respectively.

The following table sets out the unfunded status of the Gratuity Scheme.

(In thousands)

	Year ended March 31, 2022	Year ended March 31, 2021
Change in the benefit obligation		
Projected Benefit Obligation ("PBO") at the beginning of the year	7,738	7,601
Service cost	1,781	1,683
Interest cost	143	267
Actuarial loss/(gain)	(210)	794
Benefits paid	(1,496)	(2,616)
Exchange loss/(gain)	(26)	9
PBO at the end of the year	**7,930**	**7,738**

The expected benefit payments during the next 10 years are given below:

(In thousands)

Financial Year Expected benefit payments	As at March 31, 2022
2022-23	1,127
2023-24	939
2024-25	1,001
2025-26	1,028
2026-27	1,064
Thereafter	4,948

The assumptions used to determine net benefit cost were as follows:

	Year ended March 31,2022	Year ended March 31, 2021
Discount rate (p.a.)	2.8% to 8%	2.1% to 6%
Rate of increase in compensation levels	1.5% to 3%	2% to 5%

The Group evaluates these assumptions annually based on its long-term plans of growth and industry standards. The discount rates are based on market yields at the end of the reporting period on government bonds.

The Company's US group health benefits are self-insured for claims up to $0.35 million, per participant per plan year (individual stop loss) under the Tech Mahindra stop loss policy. It carries aggregate reinsurance capped at approximately $52.9 million for the entire Tech Mahindra population, depending on the number of participants during the year and actual monthly enrollments.

The assumed health care cost trend rate(s) for the next year used to measure the expected cost of benefits covered by the plan (gross eligible charges), and a general description of the direction and pattern of change in the assumed trend rates thereafter, together with the ultimate trend rate(s) and when that rate is expected to be achieved is not currently available and hence not disclosed.

Characteristics of the Company's non-US health benefits vary by region.

NOTE 10—SHAREHOLDERS' EQUITY

As of March 31, 2022, all of the outstanding common stock issued by the Company are wholly owned by Tech Mahindra Americas, Inc. The share capital of the Company comprises of one class of equity shares with par value USD 0.50. Each Shareholder is eligible for one vote per share held. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts in proportion to the shareholding. The dividend, if proposed by the Board of Directors will be paid in USD and will be subject to approval of the shareholders.

NOTE 12—RELATED PARTY TRANSACTIONS

	Tech Mahindra Limited	45	47

NOTE 12—INVESTMENTS IN OTHER ENTITIES

The Company accounts for the investment in Djazatech using the equity method and recognizes its 49% share of Djazatech's profits and losses. The Company has created provision towards this investment during the year ended March 31, 2018. Further, the Company's share of losses of this associate exceeds its interest in the associate; hence, the Company has discontinued recognizing its share of further losses.

NOTE 13—COMMITMENTS AND CONTINGENCIES

Legal Proceedings

The Company is a party to various litigation matters and claims that are normal in the course of operations and while the results of such litigation matters and claims cannot be predicted with certainty, the Company believes that it is not reasonably possible that the final outcome of such matters will have a material adverse impact on the consolidated financial position, results of operations or cash flows of the Company.

As per ASC 450 "Contingencies", loss contingencies towards Income tax liability that may arise in respect of matters in appeal as at March 31, 2022 and 2021 is $ 3.26 million and $ 4.27 million respectively. Guarantees outstanding as at March 31, 2022 and 2021 are $0.01 million and $0.07 million respectively. Claims not acknowledged as debt as at March 31, 2022 and 2021 are $0.19 million and $0.81 million respectively

NOTE 14 - Estimation uncertainty relating to the global health pandemic - COVID-19

In January 2020, the World Health Organization has declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern", which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. The impact of COVID-19 on the business operations of the Company, including the duration, cannot be reasonably ascertained at this point in time, however, considering the fact that the Company's services have been classified as essential services, the management does not anticipate any material adverse impact on the business, results of operations, financial position and cash flows in the financial year ending 31 March 2023.

NOTE 15—SUBSEQUENT EVENTS

The Company evaluated its financial statements for subsequent events through July 05, 2022, the date the financial statements were available to be issued. The Company is not aware of any additional subsequent events which would require recognition or disclosure in the financial statements.

OVERVIEW AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Management has evaluated subsequent events through May 31st, 2022, the date on which financial statements were available to be issued.

Company and Background

Digital OnUs, Inc. ("Company") is a hyper-specialized services company enabling digital transformations for enterprise customers. With an area of focus on cloud-native development, Hybrid cloud infrastructure automation and SRE automation for operation. Recognized by Inc. Magazine as a Top 10 IT Systems Development Company for the 3rd year in a row, Digital OnUs services customers globally from its headquarter in San Jose along with its nearshore delivery centers in Monterrey, Guadalajara, Saltillo (Mexico) & Ottawa (Canada).

The Company was incorporated on March 24, 2015 in Delaware.

Operations outside the United States include a branch in Mexico and subsidiaries in India and Canada. Foreign operations are subject to risks inherent in operating under different legal systems and various political and economic environments. Among the risks are changes in existing tax laws, possible limitations on foreign investment and income repatriation, government price or foreign exchange controls, and restrictions on currency exchange.

Basis of Presentation

The consolidated financial statements include the accounts of Digital OnUs, Inc., Digital OnUs S. DE

R.L. DE C.V. ("DOU Mexico"), and its subsidiaries and Digital OnUs Technologies Inc ("DOU Canada"). The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). All significant intercompany balances and transactions have been eliminated in consolidation

Cash and equivalents

For purposes of the statement of cash flows, the Company considers all short-term debt securities purchased with a maturity of three months or less to be cash equivalents.

Trade Accounts Receivable

The Company grants credit terms in the normal course of business to its customers. Concentrations of credit risk with respect to these trade receivables are considered minimal due to the geographical and operating diversity of the companies involved. The Company's revenues and resulting accounts receivable are derived primarily from large and mid-sized organizations in various industries throughout the United States.

Accounts receivable are recorded at invoiced amounts, net of the Company's estimated allowances for doubtful accounts. The allowance for doubtful accounts is based on specifically identified amounts that the Company believes to be uncollectible. If actual collections experience changes, revisions to the allowance may be required.

Property and Equipment

Property and equipment are stated at cost less depreciation and provision for impairment where appropriate. Depreciation expense is computed using the straight-line method over estimated useful lives of three to seven years. All repair and maintenance costs are expensed as incurred.

Revenue Recognition

Revenues are recognized when all of the following criteria are met:

Persuasive evidence of an arrangement exists. Evidence of an arrangement consists of a written contract signed by both the customer and management prior to the end of the period.

Delivery or performance has occurred. The Company's software is delivered electronically to the customer. Delivery is considered to have occurred when the Company provides the customer access to the software along with login credentials.

Fees are fixed or determinable. Fees from licenses are generally due in annual or, in certain cases, quarterly installments over the term of the agreement beginning on the effective date of the license. Accordingly, fees from term licenses may not be considered to be fixed or determinable until they become due.

Collectability is probable. Collectability is assessed on a customer-by-customer basis, based primarily on creditworthiness as determined by credit checks and analysis, as well as customer payment history. Payment terms generally range from 30 to 90 days from invoice date. If it is determined prior to revenue recognition that collection of an arrangement fee is not probable, revenues are deferred until collection becomes probable or cash is collected, assuming all other revenue recognition criteria are satisfied.

The Company generates revenue from consulting services. Consulting service arrangements are billed on time-and-material basis and associated revenue is recognized when there is persuasive evidence of a contractual arrangement with customers, delivery has occurred, the sales price is fixed or determinable and collectability is probable.

Revenue from fixed price milestone-based projects is recognized after delivery commitments are met, as it meets the criteria for fixed or determinable fees and the payment from customers is not contingent upon purchase or delivery of future maintenance and support.

Income Taxes

Income tax for the period comprises current and deferred tax. Income tax is recognized in the income statement except to the extent that it relates to items recognized directly to equity, in which case it is recognized in equity.

Current tax charge or (benefit) is the amount expected to be paid or recovered from the taxation authorities in respect of taxable profits or losses for current periods and prior periods. Taxes, other than on income, are recorded within operating expenses.

Deferred taxes are recognized using the balance sheet liability method for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax balances are measured at tax rates enacted or substantially enacted at balance sheet date which are expected to apply to the period when the temporary differences will reverse, or the tax loss carry forwards will be utilized. Deferred tax assets for deductible temporary differences are recorded only to the extent that it is probable that future taxable profits will be available against the deductions can be utilized.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. No uncertain positions were identified during any of the periods presented.

U.S. State Income Taxes

The Company engages in business activities in multiple states in the United States. These states subject the US entity to varying rates of franchise or income tax based on the share of revenue, payroll and property factors apportioned to each state.

Share-based compensation

Share-based compensation expense is recognized over the requisite service period for awards of equity instruments to employees based on the grant date fair value of those awards expected to ultimately vest. Forfeitures are estimated on the date of grant and revised if actual or expected forfeiture activity differs materially from original estimates.

The fair value of share-based payments is expensed, with a corresponding increase to additional paid- in capital for the equity-classified awards. Upon exercise of stock options, the consideration paid upon exercise is recorded as ordinary shares in additional paid-in capital.

The Company utilizes the Black-Scholes option pricing model to estimate the fair value of its share- based compensation expense. The model requires management to make assumptions including expected volatility, expected option life, risk-free interest rate, and expected dividends. The underlying assumptions to these fair value calculations are discussed in Note C – Share-Based Compensation.

Comprehensive Income

Comprehensive income consists of two components, net income, and other comprehensive income. Other comprehensive income refers to revenue, expenses, and gains and losses that under GAAP are recorded as an element of shareholders' equity but are excluded from net income. The Company's other comprehensive income consists of foreign currency translation adjustments from those subsidiaries not using the U.S. dollar as their functional currency, and net changes in fair value of derivative instruments related to net investment hedges.

Foreign Currency Transactions

Results of operations for the Company's foreign subsidiaries are translated from the local (functional) currency to the U.S. dollar using average exchange rates during the period, while assets and liabilities translated at rates of exchange in effect at the date of the balance sheet. The resulting foreign currency translation adjustments are recorded as a separate component of accumulated other comprehensive income in the accompanying consolidated balance sheets. Foreign currency transaction gains (losses) resulting from exchange rate fluctuations on transactions denominated in a currency other than the foreign subsidiary's functional currency are included in earnings.

Management Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Company’s most significant estimates relate to the allowance for doubtful accounts, potential asset impairments, and accruals for bonuses.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents, to the extent of the amounts recorded on the balance sheet.

Fair Value of Financial Instruments

The Company has estimated the fair value of its financial instruments which include cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities and amounts due to related companies. The Company used information available as at fiscal year-end to determine that the carrying amounts of such financial instruments approximate fair value in all cases.

At March 31, 2022 the Company’s financial assets and liabilities for which fair value is required to be disclosed under ASC 825, Financial Instruments, consist of cash and cash equivalents. The Company maintains its cash and cash equivalents in bank deposit accounts in the United States, Mexico, India, and Canada. Cash and cash equivalents are reported at fair value using observable market prices from active markets.

Acquisition of Born Group Pte Ltd	6(A)	17,401,170	33,932,095
Acquisition of Tenzing Limited	6(B)	1,218,211	28,299,158
Acquisition of Tech Mahindra Digital Pty Ltd (Formerly known as Momenton Pty Ltd. Name changed effective 23-July-2021)	6(C)	503,832	9,273,290
Acquisition of Comviva Technologies Singapore Pte Limited.	6(D)	35,000	–
Acquisition of Tech Mahindra Products Services Singapore Pte Limited	6(E)	4,720,155	–
Acquisition of Geomatic.ai Pty Limited	6(F)	4,322,085	–
Consideration settled in cash, representing cash outflow on acquisition		**28,200,453**	**71,504,543**

Amounts of $1,921,489 (2021: Nil) addition in investment in subsidiaries relates to earnout consideration on the acquisition of subsidiaries during the year (note 13).

NOTES TO THE FINANCIAL STATEMENTS

These notes form an integral part of the financial statements.

The financial statements were authorised for issue by the Board of Directors.

1 Domicile and activities

Tech Mahindra (Singapore) Pte. Limited ('the Company') is incorporated in the Republic of Singapore. The address of the Company's registered office is 17, Changi Business Park Central 1, #06-01 Honeywell Building, Singapore 486073.

The principal activities of the Company are that providing consultancy and services relating to information technology and development of software solutions and products.

The Company is a wholly owned subsidiary of Tech Mahindra Limited, incorporated in India, which is also the ultimate holding company.

2 Basis of preparation

2.1 Going concern

The Company incurred a net profit of $4,306,066 (net loss 2021: $4,342,178) in the financial year ended 31 March 2022 and as at the date, the Company was in net current liabilities of $568,116 (2021: $4,210,358). Notwithstanding these, the financial statements of the Company have been prepared on a going concern basis, as the ultimate holding company, i.e. Tech Mahindra Limited, has undertaken to provide continuing financial support to the Company for at least 12 months from the date of this report, to enable it to continue its operations and meet its liabilities as and when they fall due. Management has assessed that the ultimate holding company has the ability to provide the financial support.

2.2 Statement of compliance

The financial statements have been prepared in accordance with Financial Reporting Standards in Singapore ('FRS').

2.3 Basis of measurement

The financial statements have been prepared on the historical cost basis except as otherwise described in the notes below.

2.4 Functional and presentation currency

These financial statements are presented in Singapore dollars, which is the Company's functional currency.

2.5 Use of estimates and judgements

The preparation of the financial statements in conformity with FRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year are included in the following notes:

- Note 6 – measurement of recoverable amounts of investment in subsidiaries
- Note 8, 10 and 22 – measurement of expected credit loss (ECL) allowance for trade receivables and contract assets: key assumptions in determining the weighted-average loss rate.

Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement (with Level 3 being the lowest).

2.6 Changes in accounting policies

New standards and amendments

The Company has applied the following FRSs, amendments to and interpretations of FRS for the first time for the annual period beginning on 1 April 2021:

- COVID-19-Related Rent Concessions (Amendments to FRS 116)
- Interest Rate Benchmark Reform – Phase 2 (Amendments to FRS 109, FRS 39, FRS 107, FRS 104 and FRS 116)

The application of these amendments to standards and interpretations does not have a material effect on the financial statements.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, except as explained in note 2.6, which addresses changes in accounting policies.

3.1 Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the year.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction. Foreign currency differences arising on translation are generally recognised in profit or loss.

3.2 Subsidiaries

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Investments in subsidiaries are stated in the Company's statement of financial position at cost less accumulated impairment losses.

Consolidated financial statements for the Company and its subsidiaries have not been prepared as the Company is itself a wholly-owned subsidiary of Tech Mahindra Limited, which publishes consolidated financial statements which are available for public use. The registered address of Tech Mahindra Limited is Gateway Building, Apollo Bunder, Mumbai 400001.

3.3 Financial instruments

(i) Recognition and initial measurement

Non-derivative financial assets and financial liabilities

Trade receivables and debt investments issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(ii) Classification and subsequent measurement

Non-derivative financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held-for-trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Non-derivative financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Non-derivative financial assets: Subsequent measurement and gains and losses

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Non-derivative financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are initially measured at fair value less directly attributable transaction costs. They are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss.

(iii) Derecognition

Financial assets

The Company derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either
  - substantially all of the risks and rewards of ownership of the financial asset are transferred; or
  - the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Transferred assets are not derecognised when the Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(v) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and short-term deposits with maturities of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

(vi) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

3.4 Plant and equipment

(i) Recognition and measurement

Items of plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

If significant parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

The gain or loss on disposal of an item of plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised. The costs of the day-to-day servicing of plant and equipment are recognised in profit or loss as incurred.

(iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is recognised as an expense in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of plant and equipment, unless it is included in the carrying amount of another asset. Land is not depreciated.

Depreciation is recognised from the date that the plant and equipment are installed and are ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use.

The estimated useful lives for the current and comparative years are as follows:

- Equipment 3 years
- Leasehold improvements 3 years or over the remaining term of lease period

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate.

3.5 Intangible assets

Intangible assets acquired separately are reported at cost less accumulated amortisation (where they have finite useful lives) and accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in profit or loss in the year in which the expenditure is incurred.

The estimated useful life has been taken as follows:

- Software 5 years

Intangible assets are amortised over the estimated useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss when the asset is derecognised.

3.6 Impairment

(i) Non-derivative financial assets and contract assets

The Company recognises loss allowances for ECLs on:

- financial assets measured at amortised costs; and
- contract assets (as defined in FRS 115).

Loss allowances of the Company are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from default events that are possible within the 12 months after the reporting date (or for a shorter period if the expected life of the instrument is less than 12 months); or
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument or contract asset.

Simplified approach

The Company applies the simplified approach to provide for ECLs for all trade receivables (including lease receivables) and contract assets. The simplified approach requires the loss allowance to be measured at an amount equal to lifetime ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

General approach

The Company applies the general approach to provide for ECLs on all other financial instruments. Under the general approach, the loss allowance is measured at an amount equal to 12-month ECLs at initial recognition.

At each reporting date, the Company assesses whether the credit risk of a financial instrument has increased significantly since initial recognition. When credit risk has increased significantly since initial recognition, loss allowance is measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and includes forward-looking information.

If credit risk has not increased significantly since initial recognition or if the credit quality of the financial instruments improves such that there is no longer a significant increase in credit risk since initial recognition, loss allowance is measured at an amount equal to 12-month ECLs.

The Company considers a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before considering any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

The Company considers a contract asset to be in default when the customer is unlikely to pay its contractual obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of ECLs

ECLs are probability-weighted estimates of credit losses. Credit losses are measured at the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt investments at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than 90 days past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECLs in the statement of financial position

Loss allowances for financial assets measured at amortised cost and contract assets are deducted from the gross carrying amount of these assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

(ii) Non-financial assets

The carrying amounts of the Company's non-financial assets, other than investment property, inventories, contract assets and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The Company's corporate assets do not generate separate cash inflows and are utilised by more than one CGU. Corporate assets are allocated to CGUs on a reasonable and consistent basis and tested for impairment as part of the testing of the CGU to which the corporate asset is allocated.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated to reduce the carrying amounts of the assets in the CGU (group of CGUs) on a pro rata basis.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

3.7 Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

3.8 Revenue

Rendering of services

Revenue from rendering of services in the ordinary course of business is recognised when the Company satisfies a performance obligation (PO) by transferring control of a promised service to the customer. The amount of revenue recognised is the amount of the transaction price allocated to the satisfied PO.

The transaction price is allocated to each PO in the contract on the basis of the relative stand-alone selling prices of the promised services. The individual standalone selling price of a service that has not previously been sold on a stand-alone basis, or has a highly variable selling price, is determined based on the residual portion of the transaction price after allocating the transaction price to services with observable stand-alone selling prices. A discount or variable consideration is allocated to one or more, but not all, of the performance obligations if it relates specifically to those POs.

The transaction price is the amount of consideration in the contract to which the Company expects to be entitled in exchange for transferring the promised services. The transaction price may be fixed or variable and is adjusted for time value of money if the contract includes a significant financing component. Consideration payable to a customer is deducted from the transaction price if the Company does not receive a separate identifiable benefit from the customer. When consideration is variable, the estimated amount is included in the transaction price to the extent that it is highly probable that a significant reversal of the cumulative revenue will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue may be recognised at a point in time or over time following the timing of satisfaction of the PO. If a PO is satisfied over time, revenue is recognised based on the percentage of completion reflecting the progress towards complete satisfaction of that PO.

3.9 Finance cost

Finance costs comprise interest expense on borrowings.

3.10 Employment benefits

(i) Retirement benefit costs

Payments to defined contribution retirement benefit plans are charged as an expense when employees have rendered the services entitling them to the contributions. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Company's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

(ii) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

(iii) Compensated absences (employee leave entitlement)

The Company provides for compensated absences subject to Company's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or utilisation. The liability is accrued based on the number of days of unutilised leave at each balance sheet date. It is measured at the balance sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method. Actuarial gains and losses are recognised in full in the statement of profit and loss in the period in which they occur. The Company also offers a short term benefit in the form of encashment of unutilised accumulated compensated absences above certain limits for all of its employees and same is recognised as undiscounted liability at the balance sheet date.

3.11 Tax

Tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in OCI.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under FRS 37 Provisions, Contingent Liabilities and Contingent Assets.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if certain criteria are met.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss. The measurement of deferred taxes reflects the tax consequences that would follow the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on tax rates and tax laws that have been enacted or substantively enacted by the reporting date, and reflects uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

3.12 Government grants

A conditional grant related to staff costs is recognised in profit or loss as a deduction of staff costs. Grants for expenses are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received, and the Company will comply with the conditions associated with the grant. Grants that compensate the Company for expenses incurred are recognised in profit or loss as a deduction against expenses on a systematic basis in the same periods in which the expenses are recognised.

3.13 New standards and interpretations not yet adopted

A number of new standards, interpretations and amendments to standards are effective for annual periods beginning after 1 April 2021 and earlier application is permitted; however, the Company has not early adopted the new or amended standards and interpretations in preparing these financial statements.

The following new FRSs, interpretations and amendments to FRSs are not expected to have a significant impact on the Company's financial statements.

- FRS 117 Insurance Contracts and amendments to FRS 117 Insurance Contracts
- Covid-19-Related Rent Concessions beyond 30 June 2021 (Amendment to FRS 116)
- Reference to the Conceptual Framework (Amendments to FRS 103)
- Property, Plant and Equipment – Proceeds before Intended Use (Amendments to FRS 16)
- Onerous Contracts – Costs of Fulfilling a Contract (Amendments to FRS 37)
- Classification of Liabilities as Current or Non-current (Amendments to FRS 1)
- Annual Improvements to FRSs 2018 – 2020
- Disclosure of Accounting Policies (Amendments to FRS 1 and FRS Practice Statement 2)
- Definition of Accounting Estimates (Amendments to FRS 8)
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to FRS 12)

(A) Acquisition of Born Group Pte Ltd

In previous financial year, the Company acquired 100% stake in Born Group Pte. Limited (Born Group) on 26 November 2019 with a consideration of 112,633,477. Born Group is engaged in providing content production and commerce solutions services across USA, APAC and Europe.

Consideration transferred for the acquisition of Born Group

	2020
	$
Total consideration for 100% equity interest acquired	112,633,477
Less: Earnout consideration recognised as at acquisition date (note 13)	(32,134,506)
Consideration settled in cash, representing cash outflow on acquisition	**80,498,971**

Contingent consideration arrangement

As part of the acquisition agreement with the previous shareholders of Born Group, a contingent consideration has been agreed. Additional cash payments shall be payable to the previous shareholders of Born Group based on the audited financial performance of Born Group Pte Ltd for the financial period year ended 31 December 2019. As at the acquisition date and 31 March 2021, the contingent consideration was determined at USD 21,500,000 (approximately SGD 32,134,506) and recognised as “Other payables” (note 13).

Subsequent to acquisition date, Born Group’s actual financial performance exceeded the earnings target and the final settlement of earnout consideration amounting to $33,932,095 was paid to previous shareholders of Born Group in May 2020. The fair value change of earnout consideration resulted in a loss of $1,797,589 (difference between earnout consideration at acquisition date of SGD 32,134,506 and actual earnout consideration of $33,932,095), which has been recognised in the statement of profit and loss.

Finance costs related to the acquisition

For the purpose of acquisition of Born Group, the Company had obtained a loan from its related company, i.e. Tech Mahindra (Americas) Inc on 1 November 2019 amounted to USD 62,000,000 (approximately $84,072,000) and the Company had fully repaid the loan on 10 December 2019. The loan was unsecured and bore interest rate of 2.84%. The interest expenses paid of the loan amounted to $515,290 had been recognised as “Finance costs” for the financial year ended 31 March 2020.

During the financial year, the Company acquired total of 12,850,000 ordinary shares of the Born Group at USD 1 per share at sum of USD 12,850,000 (approximately $17,401,170).

(B) Acquisition of Tenzing Limited

The Company acquired 100% stake in Tenzing Limited ("Tenzing Group") on 23 October 2020. Tenzing is based in New Zealand and is a Technology Consulting Firm and Tenzing was acquired with a consideration of NZD 41,573,536 (approximately $39,328,258).

Consideration transferred for the acquisition of Tenzing Group

	2021
	$
Total consideration for 100% equity interest acquired	39,328,258
Less: Earnout consideration recognised as at acquisition date (note 13)	(11,029,100)
Consideration settled in cash, representing cash outflow on acquisition	**28,299,158**

Contingent consideration arrangement

As part of the acquisition agreement with the previous shareholders of Tenzing Group, a contingent consideration has been agreed. Additional cash payments shall be payable to the previous shareholders of Tenzing Group based on the audited financial performance of Tenzing Group from the financial period year ended 31 March 2021 to 31 March 2023.

As at the acquisition date and 31 March 2021, the contingent consideration for above was determined at NZD 11,526,536 (approximately $11,029,100) and recognised as "Other payables" (note 13). As of 31 March 2022, Tenzing's actual financial performance for the year ended 31 March 2021 does not exceeded the earnings target. Amounts of NZD 4,131,305 (approximately $3,883,173) of contingent liabilities have been reversed against the investment carrying amount.

As of 31 March 2022, the Company has made payment of NZD 1,616,355 (approximately $1,453,465) on the realised tax benefits as part of the acquisition agreement with the previous shareholders. Amount of NZD 257,452 (approximately SGD 235,254) has been received as reduction of investment carrying amount upon finalisation of purchase price consideration.

(C) Acquisition of Tech Mahindra Digital Pty Ltd (Formerly known as Momenton Pty Ltd. Name changed effective 23-July-2021.)

The Company acquired 100% stake in Tech Mahindra Digital Pty Ltd (TM Digital) in 23 October 2020. TM Digital is based in Australia and is Digital Enterprise Technology Firm and it was acquired at consideration of AUD 9,005,507 (approximately SGD 9,273,290).

As part of the acquisition agreement with the previous shareholders of TM Digital, a contingent consideration has been agreed. Additional cash payments shall be payable to the previous shareholders of TM Digital based on the audited financial performance of TM Digital from the financial period year ended 31 March 2021 to 31 March 2024. Accordingly, no contingent consideration has been recognised for the financial year ended 31 March 2021.

` As of 31 March 2022, contingent consideration was determined at AUD 4,145,113 (approximately SGD 4,220,555) and recognised as "Other payables" (note 13). Subsequent to acquisition date, TM Digital's actual financial performance exceeded the earnings target for the year ended 31 March 2022 and a consideration amounting to AUD 2,275,512 (approximately SGD 2,194,488) was paid to previous shareholders of TM Digital. Additionally, amount of AUD 485,891 (approximately SGD 503,831) has been made upon finalisation of purchase price consideration.

D) Acquisition of Comviva Technologies Singapore Pte. Ltd

The Company acquired 100% stake in Comviva Technologies Singapore Pte. Ltd (Comviva Group) on 12 November 2021. Comviva Group is based in Singapore and provides solutions for telecommunication & network and it was acquired at consideration of SGD 35,000.

(E) Acquisition of Tech Mahindra Products Services Singapore Pte. Limited

The Company acquired 100% stake in Tech Mahindra Products Services Singapore Pte. Limited (Sofgen Group) on 1 February 2022. Sofgen Group is based in Singapore and provides services of holding of investments & provision of consultancy services and it was acquired at consideration of SGD 4,720,155.

(F) Acquisition of Geomatic.ai Pty Limited

The Company acquired 80% stake in Geomatic.ai Pty Limited on 15 February 2022. Geomatic is based in Australia and involved in geospatial business and provide data capture services and it was acquired at consideration of AUD 4,444,211 (approximately $4,322,085).

Contingent consideration arrangement

As part of the acquisition agreement with the previous shareholders of Geomatic.ai, a contingent consideration has been agreed. Additional cash payments shall be payable to the previous shareholders of Geomatic Group based on the audited financial performance of Geomatic Group from the financial period year ended 31 March 2022 to 31 March 2027.

As at the acquisition date and 31 March 2022, the contingent consideration for above was determined at AUD 1,555,789 (approximately $1,584,105) and recognized as “Other payables” (note 13).

(G) Impairment loss assessment

Investments in subsidiaries are stated at cost less impairment loss. The Company evaluates whether there is an indicator that an impairment may have occurred. The financial health of and near-term business outlook for the subsidiaries, such as industry performance and operating cash flows are considered. Any significant changes in the business environment and key input to the recoverable amount calculation may be seen as an indicator of impairment. Dividend income from the subsidiaries, under certain circumstances, may also be considered as an indicator of impairment. If any such indicator is present, the Company determines the amount of impairment loss based on the recoverable amount of the investment. The amount of any impairment loss identified is measured as the difference between the investment’s or cash generating unit’s carrying amount and recoverable amount representing the higher of value in use (VIU). In current and prior financial years, management assessed that there is no impairment loss on the investment in subsidiaries.

7 Deferred tax assets

	2022	2021
	$	$
Deferred tax assets	**186,930**	**1,270,290**

The following are the deferred tax assets recognised by the Company during the year:

	At 1 April 2020	Recognised in profit/ (loss) (Note 20)	At 31 March 2021	Recognised in profit/ (loss) (Note 20)	At 31 March 2022
	$	$	$	$	$
Deferred tax assets					
Plant and equipment	(3,048)	1,180	(1,868)	1,342	(526)
Trade and other receivables	527,224	571,772	1,098,996	(1,085,486)	13,510
Provisions	153,084	(15,026)	138,058	784	138,842
Others	41,743	(6,639)	35,104	–	35,104
	719,003	**551,287**	**1,270,290**	**(1,083,360)**	**186,930**

8 Trade receivables

	2022	2021
	$	$
Third parties	277,953	1,691,366
Less: Impairment loss	(129,392)	(1,564,077)
	148,561	127,289
Holding company	513,000	356,266
	661,561	**483,555**

The credit period on services rendered ranges from 30 to 60 days (2021: 30 to 60 days). No interest is charged on the outstanding balance.

9 Contract assets

	2022	2021
	$	$
Unbilled software installation services	–	**17,700**

Payment for installation of software services is not due from the customer until the installation services are completed and therefore a contract asset is recognised over the period in which the installation services are performed to represent the Company's right to consideration for the services transferred to date.

10 Other receivables and prepayments

	2022	2021
	$	$
Advance to employees	82,304	79,474
Less: Impairment loss	(79,474)	(79,474)
Advance to employees (net)	2,830	–
Loan to a related company	1,993,798	4,821,133
Less: Impairment loss on loan to related company	–	(4,821,133)
Loan to a related company (net)	1,993,798	–
Other receivables from fellow subsidiaries	653,687	1,351,058
Prepayments	284,861	303,805
Other receivables	55,197	–
	993,745	1,654,863
	2,990,373	**1,654,863**

Loan to a related company is unsecured and the interest rate on the loan is 1.25% (2021: 1.26%) per annum. The other receivables from fellow subsidiaries are unsecured, non-interest bearing and receivable on demand.

11 Cash and cash equivalents

	2021	2020
	$	$
Cash at bank	1,110,012	557,453
Fixed deposit	1,700,000	–
	2,810,012	**557,453**

The effective interest rate relating to fixed deposit with a financial institution, at the reporting date is 2.58% (2021: Nil) per annum.

12 Share capital

	2022	2021	2022	2021
	Number of shares		$	$
Ordinary shares, with no par value				
At 1 April	15,024,807	8,028,998	150,248,087	80,289,980
Issuance of shares	3,081,325	6,995,809	30,813,250	69,958,107
At 31 March	**18,106,132**	**15,024,807**	**181,061,337**	**150,248,087**

During the year, the Company issued 3,081,325 of ordinary shares at $10 per share to the holding company, resulting in increase of share capital by $30,813,250.

13 Other payables

	2022	2021
	$	$
Accruals	417,997	392,442
Consideration payable	10,756,099	11,029,100
	11,174,096	11,421,542
Less: Non-current consideration payable	(4,583,413)	(7,010,029)
	6,590,683	**4,411,513**

The consideration payable relates to the earnout consideration in connection to the acquisition of Tenzing Group, TM Digital & Geomatic.ai (2021: Tenzing Group) (note 6).

14 Provisions

	2022	2021
	$	$
Provision for unutilised leave	241,870	251,559
Less: Non-current provision for unutilised leave	(67,000)	(86,769)
Current provision for unutilised leave	**174,870**	**164,790**

The Company calculates and records unutilised leave (the "Leave Benefit Scheme") for its qualified employees. The amount recognised in the statement of financial position are determined as follows:

	2022	2021
	$	$
Present value of Leave Benefit Scheme	241,870	251,559
(i) Represented by:		
Current liabilities	174,870	164,790
Non-current liabilities	67,000	86,769
	241,870	**251,559**

Reconciliations of the present value of the Leave Benefit Scheme liabilities are as follows:

	2022	2021
	$	$
At beginning of the year	251,559	317,462
(i) Provisions made during the year	90,224	28,105
Benefits paid	(99,913)	(94,008)
At end of the year	**241,870**	**251,559**

The cost of providing post-employment benefits is calculated by independent actuaries, Willis Tower Watson, using the Projected Unit Credit Method. The actuarial valuation was carried out using the following key assumptions:

	2022	2021
	$	$
Normal retirement age	60 years	60 years
Discount rate	1.6%	1%
(i) Salary escalation rate	2.00% - 4.00%	2.00% - 4.00%
(ii) Withdrawal rate	0.1% - 50%	0.1% - 50%

15 Trade payables

	2022	2021
	$	$
Third parties	159,143	1,021
Holding company	55,702	2,309,774
	214,845	**2,310,795**

The average credit period on trade payables is 30 days (2021: 30 days). No interest is charged on the outstanding balance.

16 Revenue

	2022	2021
	$	$
Service income – immediate holding company	**4,733,874**	**4,596,616**

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies:

Time and material

Nature of goods or services	Service agreement with the immediate and ultimate holding company for reimbursement of costs incurred plus a mark-up ("cost-plus method")
When revenue is recognised	Revenue from services are recognised as performance obligation is satisfied over a period of time based on the stage of completion of the contract in case of third party contracts. Revenue from immediate and ultimate holding company is accrued according to the terms of the agreement with the immediate and ultimate holding company based on attributable costs incurred on date of accrual.
Significant payment terms	Invoices are issued to the customers after the services are performed and are normally payable within 30 days.

Contract balances

The following table provides information about receivables and contract assets from contracts with customers.

	Note	2022	2021
		$	$
Trade receivables	8	661,561	483,555
Contract assets	9	**–**	**17,700**

Significant changes in the contract assets and the contract liabilities balances during the period are as follows.

	Contract assets	
	2022	2021
	$	$
Changes in measurement of progress	–	17,700
Contract asset reclassified to trade receivables	**17,700**	**48,061**

Significant judgements are used to estimate these total contract costs to complete. In making these estimates, management has relied on the expertise of project teams to determine the progress of the contracts and also on past experience of completed projects. The estimated total contract costs is reviewed every reporting period and adjusted where necessary, with the corresponding effect of change being recognised prospectively from the date of change.

22 Financial instruments

Financial risk management

Overview

The Company has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Company’s exposure to each of the above risks, the Company’s objectives, policies and processes for measuring and managing risk, and the Company’s management of capital.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company’s risk management framework. Board is responsible for developing and monitoring the Company’s risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or a counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's trade receivables, contract asset and receivable from holding company.

The carrying amounts of financial assets and contract assets represents the Company's maximum exposure to credit risk, before taking into account any collateral held. The Company does not require any collateral in respect of their financial assets.

The Company has adopted procedures in extending credit terms to customers and in monitoring its credit risk. The Company only grants credit to creditworthy counterparties.

At the end of the reporting period, 78% (2021: 74%) of the trade receivables are due from holding company. The risk management process includes assessing corresponding credit standing and monitoring of collections.

Trade receivables and contract assets

Expected credit loss ("ECL") assessment

Loss allowance for trade receivables is measured at an amount equal to lifetime expected credit losses (ECL). The ECL on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

As at 31 March 2022, the allowance for expected credit losses of trade receivables and contract assets recognised based on lifetime ECL is $129,392 (2021: $1,564,077).

Summarised below is the information about the credit risk exposure on the Company's trade receivables and contract assets using provision matrix:

	Expected credit loss rate	**Gross carrying amount at default**	**Lifetime ECL**	**Credit impaired**
	%	**$**	**$**	**$**
2022				
Not past due	–	96,138	–	No
Past due more than 30 days	–	501,629	–	No
Past due 31 – 60 days	–	20,683	–	No
Past due 61 – 90 days	–	–	–	No
Past due 91 – 365 days	–	43,112	–	No
More than 365 days	100	129,392	(129,392)	Yes
		790,954	**(129,392)**	
2021				
Not past due	–	8,753	–	No
Past due more than 30 days	–	394,144	–	No
Past due 31 – 60 days	–	–	–	No
Past due 61 – 90 days	–	3,893	–	No
Past due 91 – 365 days	–	76,765	–	No
More than 365 days	100	1,564,077	(1,564,077)	Yes
		2,047,632	**(1,564,077)**	

The movements in credit loss allowance are as follows:

	2022	2021
	$	$
At beginning of year	1,564,077	1,541,420
Impairment loss recognised in profit or loss during the year	90,817	22,657
Written off during the year	(1,525,502)	–
At end of year	129,392	1,564,077

Cash and cash equivalents

The Company places its cash with reputable financial institutions. The cash and cash equivalents are held with bank and financial institution counterparties with high credit ratings.

Impairment on cash and cash equivalents has been measured on the 12-month expected loss basis and reflects the short maturities of the exposures. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties. The amount of the allowance on cash and cash equivalents is negligible.

Non-trade financial assets at amortised cost

Expected credit loss (“ECL”) assessment

The Company held non-trade financial assets which comprises of advances to employees, loan to a related company, other receivables from fellow subsidiaries, prepayments and other receivables disclosed at note 10.

The Company provides for lifetime expected credit losses for all non-trade financial assets using a provision matrix. The provision rates are determined based on the Company’s historical observed default rates analysed in accordance to days past due and incorporates forward looking information such as forecast of economic conditions where the gross domestic product will deteriorate over the next year, leading to an increased number of defaults.

As at 31 March 2022, the allowance for expected credit losses of advances to employees and loan to a related company recognised based on lifetime ECL are $79,474 and Nil respectively (2021: $79,474, $4,821,133).

There are no significant changes to estimation techniques or assumptions made during the year.

Movement in the credit loss allowance on non-trade financial assets:

	Note	2022	2021
		$	$
At beginning of year		4,900,607	1,559,902
Charge to profit or loss	17	(4,821,133)	3,340,705
At end of year		79,474	4,900,607

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

The Company’s objective when managing liquidity is to ensure, as far as possible, it will always have sufficient liquidity to meet its liability when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company’s reputation.

Liquidity risk is managed by matching the payment and receipt cycle. The Company’s operations are financed mainly through equity and accumulated profits.

The following table summarises the Company's remaining contractual maturity for its non-derivative financial liabilities at the end of the reporting period based on undiscounted cash flows of financial instruments premised on the earlier of the contractual date or when the Company is expected to pay.

	Carrying amount	Contractual cash flows	One year or less	One to five year
	$	$	$	$
Non-derivatives financial liabilities				
31 March 2022				
Trade and other payables	**11,388,941**	**11,388,941**	**6,805,528**	**4,583,413**
31 March 2021				
Trade and other payables	**13,732,337**	**6,722,308**	**7,010,029**	**–**

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Foreign exchange risk

Foreign exchange risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company has very minimal exposure to foreign exchange risk as most transactions are transacted in the functional currency which is in Singapore dollars. The Company does not hedge its exposure to foreign exchange risk as the risk is not expected to be significant.

Interest rate risk

The Company does not have any interest-bearing financial assets and liabilities except for its fixed deposits and loan to a related company. Fixed deposits and loan to related company are all short-term, hence, with the current interest rate level, any future variations in interest rates will not have a material impact on net profit.

No sensitivity analysis is prepared as the Company does not expect any material effect on the Company's profit or loss arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the reporting period.

Capital management

The primary objective of the Company's capital management is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholder and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to monitor and adjust the capital structure, the Company may adjust the amount of dividends paid to shareholder or issue new shares. In the event that the Company requires additional capital, monies would be infused by the shareholders to provide appropriate financial support to the Company.

Accounting classification and fair values

The carrying amounts of the financial assets and financial liabilities (including trade and other receivables, cash and cash equivalents and trade and other payables) recorded in the financial statements at amortised cost approximate their fair values due to the relatively short-term maturity of these financial instruments or re-pricing.

During the financial year, amounts due to related parties of $4,180,908 (2021: Nil) has settled by converted into 4,180,908 ordinary shares at $1 per shares.

NOTES TO THE FINANCIAL STATEMENTS

These notes form an integral part of the financial statements.

The financial statements were authorised for issue by the Board of Directors on [date of signing].

1 Domicile and activities

Tech Mahindra Products Services Singapore Pte. Ltd. ('the Company') is incorporated in the Republic of Singapore. The address of the Company's registered office is 1 Changi Business Park Crescent, #04-04/06, Plaza 8 @ CBP, Singapore 486025. The Company's name was changed from Sofgen Services Pte. Ltd. to Tech Mahindra Products Services Singapore Pte. Ltd. with effective from 15 September 2020.

The principal activities of the Company are to carry on the business of software consultancy services.

The Company's immediate and ultimate holding corporation are Sofgen Holdings Limited, incorporated in the Republic of Cyprus and Tech Mahindra Limited, incorporated in India respectively.

2 Basis of preparation

2.1 Going concern

As at 31 March 2022, the Company was in net current liabilities and net assets of $60,147 and $922,000 (2021: $7,682,320 and $8,012,934) respectively. Notwithstanding these, the financial statements of the Company have been prepared on a going concern basis, as the ultimate holding company, i.e. Tech Mahindra Limited, has undertaken to provide continuing financial support to the Company for at least 12 months from the date of this report, to enable it to continue its operations and meet its liabilities as and when they fall due. Management has assessed that the ultimate holding company has the ability to provide the financial support.

2.2 Statement of compliance

The financial statements have been prepared in accordance with Financial Reporting Standards in Singapore ('FRS'). The changes to significant accounting policies are described in note 2.6.

2.3 Basis of measurement

The financial statements have been prepared on the historical cost basis except as otherwise described in the notes below.

2.4 Functional and presentation currency

These financial statements are presented in Singapore dollars, which is the Company's functional currency.

2.5 Use of estimates and judgements

The preparation of the financial statements in conformity with FRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year are included in the following notes:

- Note 7, 8 and 22 – measurement of expected credit loss (ECL) allowance for trade receivables and contract assets: key assumptions in determining the weighted-average loss rate.

Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement (with Level 3 being the lowest).

2.6 Changes in accounting policies

New standards and amendments

The Company has applied the following FRSs, amendments to and interpretations of FRS for the first time for the annual period beginning on 1 April 2021:

- COVID-19-Related Rent Concessions (Amendments to FRS 116)
- Interest Rate Benchmark Reform – Phase 2 (Amendments to FRS 109, FRS 39, FRS 107, FRS 104 and FRS 116)

The application of these amendments to standards and interpretations does not have a material effect on the financial statements.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

3.1 Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the year.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction. Foreign currency differences arising on translation are generally recognised in profit or loss.

3.2 Financial instruments

(i) Recognition and initial measurement

Non-derivative financial assets and financial liabilities

Trade receivables and debt investments issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(ii) Classification and subsequent measurement

Non-derivative financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held-for-trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Non-derivative financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Non-derivative financial assets: Subsequent measurement and gains and losses

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Non-derivative financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are initially measured at fair value less directly attributable transaction costs. They are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss.

(iii) Derecognition

Financial assets

The Company derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either
  - substantially all of the risks and rewards of ownership of the financial asset are transferred; or
  - the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Transferred assets are not derecognised when the Company enters into transactions whereby it transfers assets recognised in its statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(v) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and short-term deposits with maturities of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value and are used by the Company in the management of its short-term commitments.

(vi) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

3.3 Plant and equipment

(i) Recognition and measurement

Items of plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

If significant parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

The gain or loss on disposal of an item of plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised. The costs of the day-to-day servicing of plant and equipment are recognised in profit or loss as incurred.

(iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is recognised as an expense in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of plant and equipment, unless it is included in the carrying amount of another asset.

Depreciation is recognised from the date that the plant and equipment are installed and are ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use.

The estimated useful lives for the current and comparative years are as follows:

- Office equipment and computers 3 years
- Furniture and fittings 5 years
- Leasehold building 3 years or over the remaining term of lease period

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate.

3.4 Intangible assets

Intangible assets acquired separately are reported at cost less accumulated amortisation (where they have finite useful lives) and accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in profit or loss in the year in which the expenditure is incurred.

The estimated useful life has been taken as follows:

- Computer software 5 years

Intangible assets are amortised over the estimated useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss when the asset is derecognised.

3.5 Impairment

(i) Non-derivative financial assets and contract assets

The Company recognises loss allowances for ECLs on:

- financial assets measured at amortised costs; and
- contract assets (as defined in FRS 115).

Loss allowances of the Company are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from default events that are possible within the 12 months after the reporting date (or for a shorter period if the expected life of the instrument is less than 12 months); or
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument or contract asset.

Simplified approach

The Company applies the simplified approach to provide for ECLs for all trade receivables and contract assets. The simplified approach requires the loss allowance to be measured at an amount equal to lifetime ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

General approach

The Company applies the general approach to provide for ECLs on all other financial instruments. Under the general approach, the loss allowance is measured at an amount equal to 12-month ECLs at initial recognition.

At each reporting date, the Company assesses whether the credit risk of a financial instrument has increased significantly since initial recognition. When credit risk has increased significantly since initial recognition, loss allowance is measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and includes forward-looking information.

If credit risk has not increased significantly since initial recognition or if the credit quality of the financial instruments improves such that there is no longer a significant increase in credit risk since initial recognition, loss allowance is measured at an amount equal to 12-month ECLs.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due.

The Company considers a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before considering any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

The Company considers a contract asset to be in default when the customer is unlikely to pay its contractual obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of ECLs

ECLs are probability-weighted estimates of credit losses. Credit losses are measured at the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than [90 days] past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECLs in the statement of financial position

Loss allowances for financial assets measured at amortised cost and contract assets are deducted from the gross carrying amount of these assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

(ii) Non-financial assets

The carrying amounts of the Company's non-financial assets, other than investment property, inventories, contract assets and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated to reduce the carrying amounts of the assets in the CGU (group of CGUs) on a pro rata basis.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

3.6 Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

3.7 Revenue

Rendering of services

Revenue from rendering of services in the ordinary course of business is recognised when the Company satisfies a performance obligation (PO) by transferring control of a promised service to the customer. The amount of revenue recognised is the amount of the transaction price allocated to the satisfied PO.

The transaction price is allocated to each PO in the contract based on the relative stand-alone selling prices of the promised services. The individual standalone selling price of a service that has not previously been sold on a stand-alone basis, or has a highly variable selling price, is determined based on the residual portion of the transaction price after allocating the transaction price to services with observable stand-alone selling prices. A discount or variable consideration is allocated to one or more, but not all, of the performance obligations if it relates specifically to those POs.

The transaction price is the amount of consideration in the contract to which the Company expects to be entitled in exchange for transferring the promised services. The transaction price may be fixed or variable and is adjusted for time value of money if the contract includes a significant financing component. Consideration payable to a customer is deducted from the transaction price if the Company does not receive a separate identifiable benefit from the customer. When consideration is variable, the estimated amount is included in the transaction price to the extent that it is highly probable that a significant reversal of the cumulative revenue will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue may be recognised at a point in time or over time following the timing of satisfaction of the PO. If a PO is satisfied over time, revenue is recognised based on the percentage of completion reflecting the progress towards complete satisfaction of that PO.

3.8 Employment benefits

(i) Retirement benefit costs

Payments to defined contribution retirement benefit plans are charged as an expense when employees have rendered the services entitling them to the contributions. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Company's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

(ii) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

(iii) Compensated absences (employee leave entitlement)

The Company provides for compensated absences subject to Company's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or utilisation. The liability is accrued based on the number of days of unutilised leave at each balance sheet date. It is measured at the balance sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method. Actuarial gains and losses are recognised in full in the statement of profit and loss in the period in which they occur. The Company also offers a short-term benefit in the form of encashment of unutilised accumulated compensated absences above certain limits for all of its employees and same is recognised as undiscounted liability at the balance sheet date.

3.9 Finance cost

Finance costs comprise interest expense on borrowings.

3.10 Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property, the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the lessee's incremental borrowing rate. Generally, the Company uses the lessee's incremental borrowing rate as the discount rate.

The Company determines the lessee's incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company presents right-of-use assets that do not meet the definition of investment property in 'plant and equipment' and 'lease liabilities' in the statement of financial position.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including [IT equipment]. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

3.11 Government grants

A conditional grant related to staff costs is recognised in profit or loss as a deduction of staff costs. Grants for expenses are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received, and the Company will comply with the conditions associated with the grant. Grants that compensate the Company for expenses incurred are recognised in profit or loss as a deduction against expenses on a systematic basis in the same periods in which the expenses are recognised.

3.12 Tax

Tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in OCI.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under FRS 37 Provisions, Contingent Liabilities and Contingent Assets.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if certain criteria are met.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

The measurement of deferred taxes reflects the tax consequences that would follow the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on tax rates and tax laws that have been enacted or substantively enacted by the reporting date, and reflects uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

3.13 New standards and interpretations not yet adopted

A number of new standards, interpretations and amendments to standards are effective for annual periods beginning after 1 April 2021 and earlier application is permitted; however, the Company has not early adopted the new or amended standards and interpretations in preparing these financial statements.

The following new FRSs, interpretations and amendments to FRSs are not expected to have a significant impact on the Company's financial statements.

- FRS 117 Insurance Contracts and amendments to FRS 117 Insurance Contracts
- Covid-19-Related Rent Concessions beyond 30 June 2021 (Amendment to FRS 116)
- Reference to the Conceptual Framework (Amendments to FRS 103)
- Property, Plant and Equipment – Proceeds before Intended Use (Amendments to FRS 16)
- Onerous Contracts – Costs of Fulfilling a Contract (Amendments to FRS 37)
- Classification of Liabilities as Current or Non-current (Amendments to FRS 1)
- Annual Improvements to FRSs 2018 – 2020
- Disclosure of Accounting Policies (Amendments to FRS 1 and FRS Practice Statement 2)
- Definition of Accounting Estimates (Amendments to FRS 8)
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to FRS 12)

7 Trade receivables

	2022	2021
	$	$
Third parties	1,658,798	1,538,688
Less: Impairment loss on receivables	(132,177)	(341,318)
Net trade receivables from third parties	1,526,621	1,197,370
Related parties	1,836,170	2,604,824
Related companies	1,728,057	2,208,971
Immediate holding company	–	2,380
Ultimate holding company	108,112	393,473
Less: Impairment loss on receivables	(1,463,299)	(2,186,527)
Net trade receivables from related parties	372,871	418,297
Total trade receivables	**1,899,492**	**1,615,667**

Trade receivables are non-interest bearing and are generally on 30 to 60 days' terms (2021: 30 to 60 days).

The amounts due from ultimate holding company, immediate holding company and other related companies are unsecured, non-interest bearing and are generally on 30 days credit terms.

Credit and market risks, and impairment losses

The Company's exposure to credit and currency risks, and impairment losses for trade receivables are disclosed in note 22.

Loss allowance for trade receivables are measured at an amount equal to lifetime expected credit losses (ECL). The ECL on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

A trade receivable is written off when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery.

The following tables detail the risk profile of trade receivables from contracts with customers based on the Company's provision matrix. As the Company's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished between the Company's different customer base.

The Company has considered the possible effects that may result from COVID19, a global pandemic, on the carrying amount of trade and other receivables, unbilled revenue, intangible assets and investments. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used an internal and external source of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

	Trade receivables – days past due				
	Not past due	**Less than 30 days**	**31 – 365 days**	**More than 365 days**	**Total**
	$	**$**	**$**	**$**	**$**

Lifetime ECL	–	–	(341,318)	(2,186,527)	(2,527,845)
					1,615,667

The movement in credit loss allowance are as follows:

	2022	**2021**
	$	**$**
At beginning of year	2,527,845	1,958,704
Loss allowance recognised in profit or loss during the year on:		
-Assets originated	132,177	5,102,254
-Amounts recovered	(723,228)	(1,585,489)
Receivables written off as uncollectible	(341,318)	(2,947,624)
At end of year	**1,595,476**	**2,527,845**

8 Contract assets and contract liabilities

(a) Contract assets

Contract assets comprise unbilled revenue and other recoverable from customers for which the Company has performed work at balance sheet date, but the agreed billing milestones have not been reached. Such unbilled revenue and recoverable arise from consulting services, maintenance services and installation of software services.

Credit and market risks, and impairment losses

The Company's exposure to credit and currency risks, and impairment losses for contract assets are disclosed in note 22.

Management estimates the loss allowance on amounts due from customers at an amount equal to lifetime ECL, taking into account the historical default experience and the future prospects of the relevant customers' industry. None of the amounts due from customers at the end of the reporting period is past due.

Based on the Company's historical credit loss experience with the relevant customers, as well as available forward-looking information, the Company has assessed the expected credit loss rate on contract assets to be insignificant.

There has been no significant change in the estimation techniques or significant assumptions made during the current reporting period in assessing the loss allowance for the contract assets.

(b) Contract liabilities

Revenue is recognised upon transfer of control of the promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. The Company recognises contract liabilities when there is an obligation to transfer goods or services to a customer for which consideration has been received from the customer.

9 Other receivables and prepayments

	2022	2021
	$	$
Deposits	140,163	140,163
Prepayments	93,904	47,824
Withholding tax receivables	271,726	160,991
Goods and Services Tax ("GST") receivables	–	25,665
Other receivables	17,101	11,532
Advances	–	381
	522,894	**386,556**

Credit and market risks, and impairment losses

The Company's exposure to credit and currency risks, and impairment losses for other receivables are disclosed in note 22.

For the purpose of impairment assessment, other receivables are considered to have low credit risk as they are not due for payment at the end of the reporting period and there has been no significant increase in the risk of default on the receivables since initial recognition. Accordingly, for the purpose of impairment assessment for other receivables and loan to a related company, the loss allowance is measured at an amount equal to 12-month expected credit losses (ECL).

There has been no significant change in the estimation techniques or significant assumptions made during the current reporting period in assessing the loss allowance for other receivables. Based on the Company's historical credit loss experience with the relevant counterparties, as well as available forward-looking information, the Company has assessed the expected credit loss rate on other receivables to be insignificant.

31 March	**4,580,908**	**400,000**

Ordinary shares

The holders of ordinary shares are entitled to receive dividends as and when declared by the Company. All ordinary shares carry one vote per share without restrictions. The ordinary shares have no par value.

Capital management

The primary objective of the Company's capital management is to ensure that the Company is able to continue as a going concern and maintain an optimal structure so as to maximise shareholder value. The Company is a subsidiary within a larger corporate group. Consequently, management of capital is conducted with the context of Tech Mahindra Limited consolidated group, not necessarily looking at the Company individually.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The Company is not subject to externally imposed capital requirements. No changes were made in the objective, policies or processes during the year ended 31 March 2022 and 2021.

11 Lease liabilities

	2022	2021
	$	$
Current liabilities		
Lease liabilities	**245,455**	**199,246**

Terms and debt repayment schedule

Terms and conditions of outstanding lease liabilities are as follows:

	Currency	Nominal interest rate	Year of maturity	Face value	Carrying amount	Face value	Carrying amount
				$	$	$	$
Group							
Lease liabilities	SGD	0.45%	2022	245,688	245,455	204,740	199,246

Reconciliation of movements of liabilities to cash flows arising from financing activities:

	Amounts due to related companies	Lease liabilities	Total
	$	$	$
Balance at 1 April 2021	5,242,945	199,246	5,442,191
Changes in financing cash flows			
Amounts due to related companies	(973,910)	–	(973,910)
Payment of lease liabilities	–	(484,922)	(484,922)
Interest paid	(139,920)	(1,646)	(141,566)
Total changes from financing cash flows	**(1,113,830)**	**(486,568)**	**(1,600,398)**
Other changes			
Liability-related			
Offset with capital infusion during the year	(4,180,908)	–	(4,180,908)
New lease	–	531,131	531,131
Interest expense	51,793	1,646	53,439
Total liability-related other changes	**(4,129,115)**	**532,777**	**(3,596,338)**
Balance at 31 March 2022	–	245,455	245,455
Balance at 1 April 2020	5,667,729	682,214	6,349,943
Changes in financing cash flows			
Advances from related companies	2,294,750	–	2,294,750
Repayment of amounts due to related companies	(2,786,548)	–	(2,786,548)
Payment of lease liabilities	–	(488,968)	(488,968)
Interest paid	(62,400)	(8,407)	(8,407)
Total changes from financing cash flows	**5,113,531**	**(497,375)**	**(989,173)**
Other changes			
Liability-related			
New lease	–	–	–
Interest expense	129,414	8,407	137,821
Total liability-related other changes	**129,414**	**8,407**	**137,821**
Balance at 31 March 2021	5,242,945	199,246	5,442,191

12 Provisions

	2022	2021
	$	$
(i) Provision for unutilised leave	504,462	835,563
Less: Non-current provision for unutilised leave	(352,830)	(578,322)
Current provision for unutilised leave	**151,632**	**257,241**

The Company calculates and records unutilised leave (the "Leave Benefit Scheme") for its qualified employees. The amount recognised in the statement of financial position are determined as follows:

	2022	2021
	$	$
Present value of Leave Benefit Scheme	504,462	835,563
(i) Represented by:		
Current liabilities	151,632	257,241
Non-current liabilities	352,830	578,322
	504,462	**835,563**

Reconciliations of the present value of the Leave Benefit Scheme liabilities are as follows:

	2022	2021
	$	$
At beginning of the year	835,563	979,399
(i) Provisions made/(reversed) during the year	164,489	205,593
Benefits paid	(495,590)	(349,429)
At end of the year	**504,462**	**835,563**

The cost of providing post-employment benefits is calculated by independent actuaries, Willis Tower Watson, using the Projected Unit Credit Method. The actuarial valuation was carried out using the following key assumptions:

	2022	2021
	$	$
Normal retirement age	60 years	60 years
Discount rate	2.30%	1.00%
(i) Salary escalation rate	3.00%	3.00%
(ii) Withdrawal rate	25%	25%

13 Trade payables

	2022	2021
	$	$
Third party payables	170,803	–
Related companies	4,877,194	5,415,890
Immediate holding company	–	503,035
Ultimate holding company	13,484	61,657
	5,061,482	**5,980,582**

Trade payables are non-interest bearing and are normally settled on 30 days' terms (2021: 30 days).

The amounts due to related companies, immediate holding company and ultimate holding company are unsecured, non-interest bearing and repayable on demand.

Market and liquidity risks

The Company's exposures to currency risk and to liquidity risk related to trade payables are disclosed in note 22.

14 Other payables

	2022	2021
	$	$
Accruals	314,874	318,045
Related companies	–	5,242,945
Payables for staff benefits	12,632	339,438
Goods and Services Tax ("GST") payable	25,996	–
	353,502	**5,900,428**

Other payables are non-interest bearing and are normally settled on 30 to 60 days' terms (2021: 30 to 60 days).

The amounts due to related companies are unsecured, interest bearing at average interest rate of 1% (2021: 1%) repayable on demand. During the year, amounts of $4,198,098 (2021: Nil) has been converted into 4,189,000 ordinary shares at $1 per shares.

Market and liquidity risks

The Company's exposures to currency risk and to liquidity risk related to other payables are disclosed in note 22.

15 Revenue

	2022	2021
	$	$
Rendering of services		
Time and material	9,817,180	8,505,846
Fixed price	1,349,934	1,066,668
Cost plus mark-up	2,555,870	4,552,860
	13,722,984	**14,125,374**

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies:

Time and material

Nature of goods or services	Consulting services and maintenance services
When revenue is recognised	Revenue is recognised over the implementation services period based on the efforts.
Significant payment terms	Invoices are issued to the customers according to their respective billing plans and are normally payable within 30-60 days.

Fixed price

Nature of goods or services	Installation and implementation of software services
When revenue is recognised	Revenue from services are recognised as performance obligations are satisfied. Where performance obligations are satisfied over time as work progresses, revenue is recognised progressively based on the percentage of completion method. The stage of completion is determined as the proportion of the total time cost expected to install the software services that has elapsed at the end of the reporting period (input method).
Significant payment terms	Invoices are issued to the customers after the services are performed and are normally payable within 30-60 days.

Cost-plus mark up

Nature of goods or services	Service agreement with the immediate and ultimate holding company for reimbursement of costs incurred plus a mark-up ("cost-plus method")
When revenue is recognised	Revenue from services are recognised as performance obligation is satisfied over a period of time based on the stage of completion of the contract.
Significant payment terms	Invoices are issued to the customers after the services are performed and are normally payable within 30 days.

Disaggregation of revenue from contracts with customers

In the following table, revenue from contracts with customers is disaggregated by geographical markets and timing of revenue recognition:

	2022	2021
	$	$
Primary markets		
Singapore	10,976,898	9,592,605
India	2,225,288	4,361,604
Other countries	520,798	171,165
	13,722,984	**14,125,374**

Contract balances

The following table provides information about receivables, contract assets and contract liabilities from contracts with customers.

	Note	2022	2021
		$	$
Trade receivables	7	1,899,493	1,615,667
Contract assets	8	2,070,439	1,567,239
Contract liabilities	8	4,456	16,542

Significant changes in the contract assets and the contract liabilities balances during the year are as follows.

	Contract assets		Contract liabilities	
	2022	2021	2022	2021
	$	$	$	$
Revenue recognised from prior year balance	–	–	16,542	510,156
Cash received in advance and not recognised as revenue	–	–	4,456	16,542
Changes in measurement of progress	2,070,439	1,567,239	–	–
Contract asset reclassified to trade receivables	1,567,239	673,290	–	–

Significant judgements are used to estimate these total contract costs to complete. In making these estimates, management has relied on the expertise of project teams to determine the progress of the fixed price contracts and also on past experience of completed projects. The estimated total contract costs are reviewed every reporting period and adjusted where necessary, with the corresponding effect of change being recognised prospectively from the date of change.

Transaction price allocated to the remaining performance obligations

The aggregate amount of the transaction price allocated to performance obligations that are unsatisfied (or partially unsatisfied) for above services as at the end of the reporting period is $1,605,144 (2021: $Nil). Management expects that 100% of the transaction price allocated to the unsatisfied contracts as of 31 March 2022 will be recognised as revenue during the next reporting period.

16 Other income

	2022	2021
	$	$

Foreign exchange loss	112,562	–
Others	223,903	429,096
	1,310,829	**5,850,469**

19 Tax credit

	2022	2021
	$	$
Current tax		
Current year	–	–
Over provision in prior year	109,444	–
	109,444	**–**
Deferred tax		
Current year	(1,089,204)	–
	(1,089,204)	**–**
Tax credit	**(979,760)**	**–**
Reconciliation of effective tax rate		
Profit/(loss) before tax	3,774,265	(3,478,444)
Tax using Singapore tax rate of 17% (2021:17%)	641,625	(591,335)
Non-deductible expenses	28,759	16,418
Tax exempt income	–	(10,873)
Deferred tax assets not recognised	–	585,790
Utilisation of prior year tax losses not recognised	(632,015)	–
Recognition of deferred tax not recognised assets previously	(1,127,573)	–
Under provision of current tax in prior year	109,444	–
	(979,760)	**–**

As at the end of the reporting period, the Company has the following unutilised tax losses available for offsetting against future taxable profits:

	2022	2021
	$	$
Unutilised tax losses	6,632,784	10,302,042
Deferred tax assets on above not recognised	–	1,751,347

The realisation of the future income tax benefits from tax loss carry forwards is available for an unlimited future period subject to the conditions imposed by law including the retention of majority shareholders as defined.

Amounts of $3,669,258 (2021: Nil) of unutilised losses have been used to offset against current year taxable profits. The Company is proposed to be amalgamated with its immediate holding company, Tech Mahindra Pte. Ltd. in upcoming financial year.

20 Leases

Leases as lessee

The Company leases an office in a commercial building. The lease typically runs for a period of 1 year. The Company is restricted from entering into any sub-lease arrangements.

Information about leases for which the Company is a lessee is presented below.

Right-of-use assets

Right-of-use assets related to leased properties that do not meet the definition of investment property are presented as plant and equipment (see Note 4).

	Leasehold building	
	2022	2021
	$	$
Balance at 1 April	202,126	684,325
Additions to right-of-use assets	531,131	–

Balance at 31 March	**245,137**	**202,126**

Amounts recognised in profit or loss

	2022	2021
	$	$
Leases under FRS 116		
Expenses relating to short-term leases	13,436	8,628

Amounts recognised in statement of cash flows

	2022	2021
	$	$
Total cash outflow for leases	**483,276**	**491,375**

Extension options

Some property leases contain extension options exercisable by the Company up to one year before the end of the non-cancellable contract period. Where practicable, the Company seeks to include extension options in new leases to provide operational flexibility. The extension options held are exercisable only by the Company and not by the lessors. The Company assesses at lease commencement date whether it is reasonably certain to exercise the extension options. The Company reassesses whether it is reasonably certain to exercise the options if there is a significant event or significant changes in circumstances within its control.

The lease agreements do not mention of the extension clause and accordingly no excess lease liability is required to be recognised.

21 Related party transactions

Key management personnel compensation

Key management personnel of the Company are those persons having the authority and responsibility for planning, directing and controlling the activities of the entity. The directors and key executives are considered as key management personnel of the Company.

There is no payment made to key management personnel for the financial year (2021:Nil).

Other related party transactions

The following related company transactions took place between the Company and related companies during the year on terms agreed by the parties concerned:

	2022	2021
	$	$
Ultimate holding company		
Consultancy fee charged	-	205,643
Others	(717)	-
Administrative service income	(2,225,288)	(4,354,717)

Related companies		
Consultancy fee charged	-	339,832
Others	(5,801)	-
Administrative service income	(330,582)	(198,143)

22 Financial instruments

Financial risk management

Overview

The Company has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. Management is responsible for developing and monitoring the Company's risk management policies. Management reports regularly to the Board of Directors on its activities.

Credit risk

The Company has adopted procedures in extending credit terms to customers and in monitoring its credit risk. The Company only grants credit to creditworthy counterparties. At the end of the reporting period, 20% (2021: 26%) of the trade receivables are due from ultimate holding company, immediate holding company and related companies after providing for the same. The risk management process includes assessing corresponding credit standing and monitoring of collections.

The carrying amount of financial assets recorded in the financial statements, grossed up for any allowances for losses, represents the Company's maximum exposure to credit risk.

Further details of credit risks on trade receivables, contract assets and other receivables are disclosed in Note 7, 8 and 9 to the financial statements respectively.

The Company places its cash with reputable financial institutions. The cash and cash equivalents are held with bank and financial institution counterparties with high credit ratings.

Impairment on cash and cash equivalents has been measured on the 12-month expected loss basis and reflects the short maturities of the exposures. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties. The amount of the allowance on cash and cash equivalents is negligible.

The Company's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognising expected credit losses (ECL)
Performing	The counterparty has a low risk of default and does not have any past-due amounts.	Trade receivables: Lifetime ECL - not credit impaired Receivable from Related Party – 12 month ECL Other receivables: 12-month ECL
Doubtful	Amount is less than 1 year past due or there has been a significant increase in credit risk since initial recognition.	Lifetime ECL - not credit-impaired Receivable from Related Party – 12 month ECL
In default	Amount is more than 1 year past due or there is evidence indicating the asset is credit impaired.	Lifetime ECL - credit-impaired Receivable from Related Party – 12 month ECL
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Company has no realistic prospect of recovery.	Amount is written off

The table below details the credit quality of the Company's financial assets as well as maximum exposure to credit risk by credit risk rating grades:

	Note	Internal credit assessment	12-month or lifetime ECL	Gross carrying amount	Loss allowance	Net carrying amount
		$	$	$	$	$
2022						
Trade receivables from third parties	7	(i)	Lifetime ECL (simplified approach)	1,658,799	(132,177)	1,526,622
Trade receivables from ultimate holding company	7	(i)	12-month ECL	108,112	-	108,112
Trade receivables from immediate holding company	7	In-default	12-month ECL	-	-	-
Trade receivables from related companies	7	In-default	12-month ECL	1,728,057	(1,463,299)	264,758
Contract assets	8	(i)	Lifetime ECL (simplified approach)	2,070,439	-	2,070,439
Other receivables	9	Performing	12-month ECL	17,101	-	17,101
2021						
Trade receivables from third parties	7	(i)	Lifetime ECL (simplified approach)	1,538,688	(341,318)	1,197,370
Trade receivables from ultimate holding company	7	(i)	12-month ECL	393,473	–	393,473
Trade receivables from immediate holding company	7	In-default	12-month ECL	2,380	–	2,380
Trade receivables from related companies	7	In-default	12-month ECL	2,208,971	(2,186,527)	22,444
Contract assets	8	(i)	Lifetime ECL (simplified approach)	1,567,239	–	1,567,239
Other receivables	9	Performing	12-month ECL	11,532	–	11,532

(i) The Company determines the expected credit losses on these items based on historical credit loss experience on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions.

Liquidity risk

Liquidity risk is managed by matching the payment and receipt cycle. The Company's operations are financed mainly through equity and continued financial support from related companies.

The following table summarises the Company's remaining contractual maturity for its non-derivative financial liabilities at the end of the reporting period based on undiscounted cash flows of financial instruments premised on the earlier of the contractual date or when the Company is expected to pay.

Particulars		**Cash flow**	
	Carrying amount	**Contractual cash flows**	**Within one year**
	$	**$**	**$**
2022			
Non-derivatives financial liabilities			
Trade payables	5,061,482	5,061,482	5,061,482
Other payables	353,502	353,502	353,502
Leases liabilities	245,455	245,688	245,688
	5,660,439	**5,660,672**	**5,660,672**
2021			
Non-derivatives financial liabilities			
Trade payables	5,980,582	5,980,582	5,980,582
Other payables	5,900,428	5,900,428	5,900,428
Leases liabilities	199,246	204,740	204,740
	12,080,256	**12,085,750**	**12,085,750**

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Foreign exchange risk

The Company's foreign currency exposures arise mainly from the exchange rate movements of the United States dollar (USD), Australian dollar (AUD), Swiss Francs (CHF), Philippines Peso (PHP) and Euro dollar (EUR) against the Singapore dollars (SGD). The Company does not hedge its exposure to foreign exchange risk as the risk is not expected to be significant.

At the end of the reporting period, the carrying amounts of monetary assets and monetary liabilities denominated in currencies other than the Company's functional currency are as follows:

	Assets		**Liabilities**	
	2022	**2021**	**2022**	**2021**
	$	**$**	**$**	**$**
USD	3,148,684	3,338,619	(5,016,138)	9,807,173
AUD	36,706	18,820	–	–
CHF	–	–	–	23,865
PHP	–		10,034	
EUR	–	337,552	190	–

Foreign currency sensitivity

The following table details the sensitivity to a 5% increase and decrease in the foreign currency against the functional currency of the Company. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in foreign currency rates.

If the relevant foreign currency strengthens by 5% against the functional currency of the Company, profit before income tax will increase/(decrease) by:

	2022	2021
	$	$
USD	(93,373)	(323,428)
AUD	1,835	941
CHF		(1,193)
PHP	(502)	–
EUR	(10)	16,878

If the relevant foreign currency weakens by 5% against the functional currency of the Company, the impact on profit before tax would be vice versa.

Interest rate risk management

The Company has no significant interest rate risk as the Company has no significant interest-bearing financial assets or liabilities. Accordingly, no sensitivity analysis has been prepared and disclosed.

Accounting classification and fair values

The carrying amounts of the financial assets and financial liabilities (including trade and other receivables, cash and cash equivalents and trade and other payables) recorded in the financial statements at amortised cost approximate their fair values due to the relatively short-term maturity of these financial instruments or re-pricing.

Categories of financial instruments

NOTES TO THE FINANCIAL STATEMENTS

Tech Mahindra ICT Services (Malaysia) Sdn. Bhd. is a private limited liability company, incorporated and domiciled in Malaysia. The addresses of the principal place of business and registered office of the Company are as follows:

Principal place of business

Malaysia Global Solution Center
Lot 12122, Persiaran APEC
63000 Cyberjaya
Selangor Darul Ehsan

Registered office

35-3, Jalan SS15/8A
47500 Subang Jaya
Selangor Darul Ehsan

The Company is principally engaged in the business of developing, advising, consulting and implementing of software systems relating to information technology and electronic services including application and programming services, administration and management control, technical, scientific and operational assistance, systems design, project management training and support of personnel, management of services facility and generally, any type of business in connection therein. There has been no significant change in the nature of these activities during the financial year.

The Company is a wholly-owned subsidiary of Tech Mahindra Limited, which is incorporated in India and regarded by the Directors as the Company's ultimate holding company, during the financial year and until the date of this report.

Basis of preparation

(a) Statement of compliance

The financial statements of the Company have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

The following are accounting standards, interpretations and amendments of the MFRSs that have been issued by the Malaysian Accounting Standards Board ("MASB") but have not been adopted by the Company:

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 June 2020

- Amendment to MFRS 16, Leases – Covid-19-Related Rent Concessions beyond 30 June 2021

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2021

- Amendments to MFRS 9, Financial Instruments, MFRS 139, Financial Instruments: Recognition and Measurement, MFRS 7, Financial Instruments: Disclosures, MFRS 4, Insurance Contracts and MFRS 16, Leases – Interest Rate Benchmark Reform – Phase 2

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 April 2021

- Amendment to MFRS 16, Leases – Covid-19-Related Rent Concessions beyond 30 June 2021

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2022

- Amendments to MFRS 1, First-time Adoption of Malaysian Financial Reporting Standards (Annual Improvements to MFRS Standards 2018−2020)
- Amendments to MFRS 3, Business Combinations – Reference to the Conceptual Framework
- Amendments to MFRS 9, Financial Instruments (Annual Improvements to MFRS Standards 2018−2020)
- Amendments to Illustrative Examples accompanying MFRS 16, Leases (Annual Improvements to MFRS Standards 2018−2020)
- Amendments to MFRS 116, Property, Plant and Equipment − Proceeds before Intended Use
- Amendments to MFRS 137, Provisions, Contingent Liabilities and Contingent Assets − Onerous Contracts − Cost of Fulfilling a Contract
- Amendments to MFRS 141, Agriculture (Annual Improvements to MFRS Standards 2018−2020)

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2023

- MFRS 17, Insurance Contracts
- Amendments to MFRS 101, Presentation of Financial Statements – Classification of Liabilities as Current or Non-current and Disclosures of Accounting Policies
- Amendments to MFRS 108, Accounting Policies, Changes in Accounting Estimates and Errors – Definition of Accounting Estimates
- Amendments to MFRS 112, Income Taxes – Deferred Tax related to Assets and Liabilities arising from a Single Transaction

MFRSs, interpretations and amendments effective for annual periods beginning on or after a date yet to be confirmed

- Amendments to MFRS 10, Consolidated Financial Statements and MFRS 128, Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The Company plans to apply the abovementioned accounting standards, interpretations and amendments:

- from the annual period beginning on 1 April 2021 for those amendments that are effective for annual periods beginning on or after 1 June 2020 and 1 January 2021.
- from the annual period beginning on 1 April 2022 for those amendments that are effective for annual periods beginning on or after 1 April 2021 and 1 January 2022, except for amendments to MFRS 1, MFRS 3 and MFRS 141 which are not applicable to the Company.
- from the annual period beginning on 1 April 2023 for the accounting standard and amendments that are effective for annual periods beginning on or after 1 January 2023, except for MFRS 17 which is not applicable to the Company.

The initial application of the abovementioned accounting standards, amendments and interpretations is not expected to have any material financial impact to the current period and prior period financial statements of the Company.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis other than as disclosed in Note 2.

(c) Functional and presentation currency

The financial statements are presented in Ringgit Malaysia (“RM”), which is the Company’s functional currency. All financial information is presented in RM, unless otherwise stated.

(d) Use of estimates and judgements

The preparation of financial statements in conformity with MFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements other than those disclosed below:

- Note 12.2 – Provision for onerous contracts
- Note 17.4 – Measurement of expected credit loss (“ECL”)

2. Significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements, unless otherwise stated.

(a) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies are not retranslated at the end of the reporting date.

Foreign currency differences arising on retranslation are recognised in profit or loss.

(b) Financial instruments

(i) Recognition and initial measurement

A financial asset or a financial liability is recognised in the statement of financial position when, and only when, the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without significant financing component) or a financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

(ii) Financial instrument categories and subsequent measurement

Financial assets

Categories of financial assets are determined on initial recognition and are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change of the business model.

Amortised cost

Amortised cost category comprises financial assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The financial assets are not designated as fair value through profit or loss. Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Interest income is recognised by applying effective interest rate to the gross carrying amount except for credit impaired financial assets (see Note 2(f)(i)) where the effective interest rate is applied to the amortised cost.

All financial assets are subject to impairment assessment (see Note 2(f)(i)).

(ii) Financial instrument categories and subsequent measurement (continued)

Financial liabilities

The categories of financial liabilities at initial recognition are as follows:

Amortised cost

Financial liabilities not categorised as fair value through profit or loss are subsequently measured at amortised cost using the effective interest method.

Interest expense and foreign exchange gains and losses are recognised in the profit or loss. Any gains or losses on derecognition are also recognised in the profit or loss.

(iii) Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset expire or transferred, or control of the asset is not retained or substantially all of the risks and rewards of ownership of the financial asset are transferred to another party. On derecognition of a financial asset, the difference between the carrying amount of the financial asset and the sum of consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged, cancelled or expires. A financial liability is also derecognised when its terms are modified and the cash flows of the modified liability are substantially different, in which case, a new financial liability based on modified terms is recognised at fair value. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and liability simultaneously.

(c) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. The cost of self-constructed assets also includes the cost of materials and direct labour. For qualifying assets, borrowing costs are capitalised in accordance with the accounting policy on borrowing costs.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and is recognised net within “other income” and “other expenses” respectively in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised to profit or loss. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

(iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed, and if a component has a useful life that is different from the remainder of that asset, then that component is depreciated separately.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment from the date that they are available for use.

The estimated useful lives for the current and comparative periods are as follows:

• Office equipment	5 years
• Computers	3 years
• Plant and equipment	3 to 5 years
• Lease improvement	Lease period
• Furniture and fixtures	5 years

Depreciation methods, useful lives and residual values are reviewed at the end of the reporting period, and adjusted as appropriate.

(d) Leases

(i) Definition of a lease

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the customer has the right to obtain a substantially all of the economic benefits from use of the asset throughout the period of use; and
- the customer has the right to direct the use of the asset. The customer has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the customer has the right to direct the use of the asset if either the customer has the right to operate the asset; or the customer designed the asset in a way that predetermines how and for what purpose it will be used.

At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties in which the Company is a lessee, it has elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component.

(ii) Recognition and initial measurement

(a) As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise of the following:

- fixed payments, including in-substance fixed payments less any incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee;
- the exercise price under a purchase option that the Company is reasonably certain to exercise; and
- penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The Company excludes variable lease payments that linked to future performance or usage of the underlying asset from the lease liability. Instead, these payments are recognised in profit or loss in the period in which the performance or use occurs.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(b) As a lessor

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease.

If an arrangement contains lease and non-lease components, the Company applies MFRS 15 to allocate the consideration in the contract based on the stand-alone selling prices.

The Company recognises assets held under a finance lease in its statement of financial position and presents them as a receivable at an amount equal to the net investment in the lease. The Company uses the interest rate implicit in the lease to measure the net investment in the lease.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. It assesses the lease classification of a sublease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sublease as an operating lease.

(iii) Subsequent measurement

(a) As a lessee

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a revision of in-substance fixed lease payments, or if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

(b) As a lessor

The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term as part of "other operating income".

The Company recognises finance income over the lease term, based on a pattern reflecting a constant periodic rate of return on the Company's net investment in the lease. The Company aims to allocate finance income over the lease term on a systematic and rational basis. The Company applies the lease payments relating to the period against the gross investment in the lease to reduce both the principal and the unearned finance income. The net investment in the lease is subject to impairment requirements in MFRS 9, Financial Instruments (see note 2(m)(i)).

(e) Contract asset/contract liability

A contract asset is recognised when the Company's right to consideration is conditional on something other than the passage of time. A contract asset is subject to impairment in accordance to MFRS 9, Financial Instruments (see Note 2(g)(i)).

A contract liability is stated at cost and represents the obligation of the Company to transfer goods or services to a customer for which consideration has been received (or the amount is due) from the customers.

(f) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, balances and deposits with banks and highly liquid investments which have an insignificant risk of changes in fair value with original maturities of three months or less, and are used by the Company in the management of their short term commitments.

(g) Impairment

(i) Financial assets

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost and contract assets. Expected credit losses are a probability-weighted estimate of credit losses.

The Company measures loss allowances at an amount equal to lifetime expected credit loss, except for debt securities that are determined to have low credit risk at the reporting date, cash and bank balance and other debt securities for which credit risk has not increased significantly since initial recognition, which are measured at 12-month expected credit loss. Loss allowances for trade receivables and contract assets are always measured at an amount equal to lifetime expected credit loss.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit loss, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information, where available.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of the asset, while 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within the 12 months after the reporting date. The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

An impairment loss in respect of financial assets measured at amortised cost is recognised in profit or loss and the carrying amount of the asset is reduced through the use of an allowance account.

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The gross carrying amount of a financial asset is written off (either partially or full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery amounts due.

(ii) Other assets

The carrying amounts of other assets are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For the purpose of impairment testing, assets are Companyed together into the smallest Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit exceeds its estimated recoverable amount.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amounts of the other assets in the cash-generating unit (Companys of cash-generating units) on a pro rata basis.

In respect of other assets, impairment losses recognised in prior years are assessed at the end of each reporting year for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to profit or loss in the financial year in which the reversals are recognised.

(h) Equity instruments

Instruments classified as equity are measured at cost on initial recognition and are not remeasured subsequently.

Ordinary shares

Ordinary shares are classified as equity.

(i) Employee benefits

(i) Short-term employee benefits

Short-term employee benefit obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) State plans

The Company's contributions to the statutory pension funds are charged to profit or loss in the financial year to which they relate. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

(j) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Onerous contracts

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

(k) Revenue and other income

(i) Revenue from contracts with customers

Revenue is measured based on the consideration specified in a contract with a customer in exchange for transferring services to a customer, excluding amounts collected on behalf of third parties. The Company recognises revenue when (or as) it transfers control over a product or service to customer. An asset is transferred when (or as) the customer obtains control of the asset.

The Company transfers control of service at a point in time unless one of the following overtime criteria is met:

(a) the customer simultaneously receives and consumes the benefits provided as the Company performs;

(b) the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or

(c) the Company's performance does not create an asset with an alternative use and the Company has an enforceable right to payment for performance completed to date.

(ii) Interest income

Interest income is recognised as it accrues using the effective interest method in profit or loss.

(l) Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statement of financial position and their tax bases. Deferred tax is not recognised for the temporary differences arising from the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are not discounted.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(m) Fair value measurements

Fair value of an asset or a liability, except for share-based payment and lease transactions, is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair value is categorised into different levels in a fair value hierarchy based on the input used in the valuation technique as follows:

Level 1 : quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.

Level 2 : inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 : unobservable inputs for the asset or liability.

The Company recognises transfers between levels of the fair value hierarchy as of the date of the event or change in circumstances that caused the transfers.

		92,627,505	**132,248,880**

6.1 Lease receivables

The lease periods under these arrangements range from 3 years to 7 years and are discounted using an interest rate of 4.9%. There is no collateral pledged in this transaction. The lease receivables as at reporting dates are as follows:

	2022 RM
At 1 April	-
Addition	17,748,634
Interest income	(632,341)
Lease payments received	(6,509,703)
At 31 March	**10,606,588**

The lease payments to be received are as follows:

	2022 RM
Less than one year	4,566,191
One to two years	3,926,150
Two to five years	2,114,247
More than five years	-
Total undiscounted lease payments	10,606,588
Unearned interest income	(521,821)
Net investment in lease	**10,084,767**

6.2 Trade receivables

Trade receivables are usually settled on 30 to 90 days.

6.3 Amount due from ultimate holding company and related companies

The amount due from ultimate holding company and related companies are subject to the normal trade terms.

6.4 Amount due from related company

The amount due from related company is unsecured, subject to interest at 1.23% per annum (2021: 3.78% per annum) and repayable on demand.

7. Contract assets/(liabilities)

	2022 RM	2021 RM
Current		
Contract assets	13,025,028	26,341,590
Non-current		
Contract liabilities	(87,935)	(733,506)
Current		
Contract liabilities	(2,160,821)	(2,434,475)

The contract assets primarily relate to the Company's right to consideration for work completed on the milestone-based projects but not yet billed at the reporting date.

The contract liabilities primarily relate to the advance consideration received from customers for the milestone-based projects, which revenue is recognised overtime during the duration of the projects.

	2022 RM	2021 RM
Contract liabilities at the beginning of the period recognised as revenue	2,434,475	3,450,228

8. Cash and cash equivalents

	Note	2022 RM	2021 RM
Cash at banks		11,400,159	401,737
Fixed deposits with licensed bank	8.1	32,210,227	28,556,501
		43,610,386	**28,958,238**

8.1 The effective interest rate of fixed deposits ranges from 0.95% to 1.20% (2021: 0.95% to 1.55%) per annum and the maturity period ranges from 7 days to 3 months (2020: 1 to 3 months).

9. Share capital

	Number of shares 2022	Amount 2022 RM	Number of shares 2021	Amount 2021 RM
Issued and fully paid shares with no par value classified as equity instruments:				
Ordinary shares At 1 April/31 March	**10,654,000**	**10,654,000**	**10,654,000**	**10,654,000**

Ordinary shares

The holder of ordinary shares is entitled to receive dividends as declared from time to time, and is entitled to one vote per share at meetings of the Company.

10. Lease liabilities

	2022 RM	2021 RM
Non-current		
Finance lease liabilities	5,226,289	9,091,269
Lease liabilities	-	-
	5,226,289	**9,091,269**
Current		
Finance lease liabilities	2,897,723	4,776,607
Lease liabilities		3,674,094
	2,897,723	**8,450,701**
	8,124,012	**17,541,970**

Included in the current balance of lease liabilities were lease payables in relation the rental of office building amounting to RM 0 (2021: RM 3,674,094). The remaining balances are on account of the hardware and software related finance lease transactions which are subsequently lease back to the customer.

Finance lease liabilities

Finance lease liabilities are payable as follows:

	Future minimum lease payments 2022 RM	Interest 2022 RM	Present value of minimum lease payments 2022 RM
Less than one year	3,266,428	(368,705)	2,897,723
Between one and five years	5,226,289	0	5,226,289
	8,492,717	**(368,705)**	**8,124,012**

11. Trade payables

	Note	2022 RM	2021 RM
Trade payables	11.1	1,700,178	907,995
Amount due to immediate holding company	11.2	22,068,735	55,537,952
Amount due to related companies	11.2		1,053,285
		23,768,913	**57,499,232**

11.1 Trade payables

Trade payables are usually settled on 30 to 60 days.

11.2 Amount due to immediate holding company and related companies

The amount due to immediate holding company and related companies are subject to the normal trade terms.

12. Other payables

	Note	2022 RM	2021 RM
Non-current			
Provision for employee benefits: leave encashment	12.1	805,390	890,870
Provision for onerous contracts	12.2	21,447,270	31,242,094
		22,252,660	**32,132,964**
Current			
Other payables		27,391,012	2,138,542
Accrued expenses		2,431,707	27,670,587
Provision for employee benefits: leave encashment	12.1	1,498,535	1,551,750
Provision for onerous contracts	12.2	13,244,497	29,594,155
		44,565,751	60,955,034
		66,818,411	**93,087,998**

12.1 Provision for employee benefits: leave encashment

Movement in provision for employee benefits: leave encashment is shown as follow:

	2022 RM	2021 RM
At 1 April	2,442,620	1,719,670
Charge for the year (Note 15)	993,342	1,555,353
Leave encashment paid	(1,132,037)	(832,403)
At 31 March	**2,303,925**	**2,442,620**

The Company provides for the compensated absences subject to Company's leave policy. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is accrued based on the number of days of unavailed leave at each reporting date. It is measured as at reporting date on the basis of an independent actuarial valuation using the Projected Unit Credit method.

12.2 Provision for onerous contracts

This provision related to onerous contracts which are recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Significant estimate and judgement are required in estimating the budgeted costs in relation of the contract. A change in the estimates will directly affect the provision to be recognised in relation to the future obligations under the contract. The discount rate used is a pre-tax rate that reflects the current market assessment of the time value of money and the risks specific to the liability. This provision for onerous contract has occurred from a service agreement with other party and is towards the additional delivery costs.

13. Revenue

	2022 RM	2021 RM
Revenue from contracts with customers		
Sale of equipment	17,793,008	5,074,435
Rendering of services	201,041,755	214,754,486
	218,834,763	**219,828,921**

13.1 Disaggregation of revenue

	2022 RM	2021 RM
Timing of revenue recognition		
At a point of time	17,793,008	5,074,435
Over time	201,041,755	214,754,486
	218,834,763	**219,828,921**

13.2 Nature of services

The following information reflects the typical transactions of the Company:

Nature of services	Timing of recognition or method used to recognised revenue	Significant payment terms
Sale of equipment	Revenue is recognised at a point of time upon the completion of the project when the services are delivered and accepted by the customers at their premises.	Credit period of 30-90 days from invoice date.
Rendering of services	Revenue is recognised over the period of time for the milestone-based projects when the services are delivered and accepted by the customers at their premises.	Credit period of 30-90 days from invoice date.

13.3 Transaction price allocated to the remaining performance obligations

Revenue from performance obligations that are unsatisfied (or partially unsatisfied) as at the reporting date and will be recognised in the next twelve months is 2022 : RM 88,218,828 (2021: RM 33,970,486).

14. Cost of services

	2022 RM	2021 RM
Employee cost	148,094,517	133,389,988
Hardware related expenses	60,491,176	53,968,710
Anticipated loss on project	(26,144,482)	60,836,249
	182,441,211	**248,194,947**

15. (Loss)/Profit for the year

	2022 RM	2021 RM
(Loss)/Profit for the year is arrived at after charging/(crediting):		
Auditors' remuneration		
Audit fees:		
- KPMG PLT	54,000	54,000
Material expenses/(income)		
Depreciation of property, plant and equipment	1,163,201	804,478
Depreciation on right-of-use assets	3,994,114	3,994,114.
Personnel expenses (including key management personnel):		
- Salaries and allowances	70,339,621	70,603,107
- Defined contribution plan	6,403,116	5,761,431
- Other staff-related expenses	4,756,816	4,709,684
Leave encashment expenses	993,342	1,555,353
Foreign exchange losses/(gain):

Financial liabilities		
Trade payables	(57,499,232)	(57,499,232)
Other payables (excluding VAT payable)	(28,820,253)	(28,820,253)
	(86,319,485)	**(86,319,485)**

17.2 Net gains and losses arising from financial instruments

	2022 RM	2021 RM
Net losses on:		
Financial assets at amortised cost	4,772,411	2,561,327

17.3 Financial risk management

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

17.4 Credit risk

Credit risk is the risk of a financial loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company's exposure to credit risk arises principally from the individual characteristic of each customer. There are no significant changes as compared to prior periods.

Trade receivables and contract assets

Risk management objectives, policies and processes for managing the risk

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on new customers requiring credit over a certain amount.

At each reporting date, the Company assesses whether any of the trade receivables and contract assets are credit impaired.

The gross carrying amounts of credit impaired trade receivables and contract assets are written off (either partially or fully) when there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. Nevertheless, trade receivables and contract assets that are written off could still be subject to enforcement activities.

There are no significant changes as compared to previous year.

Exposure to credit risk, credit quality and collateral

As at the end of the reporting period, the maximum exposure to credit risk arising from trade receivables and contract assets are represented by the carrying amounts in the statement of financial position.

Recognition and measurement of impairment loss

In managing credit risk of trade receivables, the Company manages its customers and take appropriate action (including but not limited to legal action) to recover long overdue balances. Generally, trade receivables will pay within 30-90 days. The Company's debt recovery process is as follows:

a) Above 180 days past due after credit term, the Company will start to initiate a structured debt recovery process which is monitored by the sales management team; and

b) Above 365 days past due, the Company will commence a legal proceeding against the customer.

The Company uses a simple average loss rate model and past due date to measure Expected Credit Losses ("ECLs") of trade receivables and contract assets. Consistent with the debt recovery process, invoices which are past due 365 days will be considered as credit impaired.

The Company assessed the risk of loss of each customer individually based on their financial information, past trend of payments and external credit ratings, where applicable. All of these customers have low risk of default.

The Company also considers differences between (a) economic conditions during the period over which the historic data has been collected, (b) current conditions and (c) the Company's view of economic conditions over the expected lives of the receivables. Nevertheless, the Company believes that these factors are immaterial for the purpose of impairment calculation for the year.

The following table provides information about the exposure to credit risk and ECLs for trade receivables and contract assets which are grouped together as they are expected to have similar risk nature.

	Gross carrying amount	Loss allowance	Net balance
	RM	RM	RM
2022			
Current (not past due)	29,220,591	-	29,220,591
0 - 90 days past due	20,534,670	-	20,534,670

	94,680,548	**(15,345,075)**	**79,335,473**

The movements in the allowance for impairment in respect of trade receivables during the year are shown below:

	Not credit impaired	Credit impaired	Total
	RM	RM	RM
Balance at 1 April 2021	-	15,345,075	15,345,075
Amounts written off	-	-	-
Net remeasurement of loss allowance	2,325		2,325
Balance at 31 March 2021/ 1 April 2021	**2,325**	**15,345,075**	**15,347,400**
Net remeasurement of loss allowance	(2,325)	646,916	644,591
Balance at 31 March 2022	**-**	**15,991,991**	**15,991,991**

Other receivables

Risk management objectives, policies and processes for managing the risk

Credit risks on other receivables and deposits are mainly arising from deposits paid for office buildings and fixtures rented. These deposits will be received at the end of each lease terms. The Company manages the credit risk together with the leasing arrangement.

Exposure to credit risk, credit quality and collateral

As at the end of the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position.

Recognition and measurement of impairment loss

The following table provides information about the exposure to credit risk for other receivable and deposits balances.

	Gross carrying amount	Impairment loss allowances	Net balance
	RM	**RM**	**RM**
2022			
Other receivables	10,585,676	(580,472)	10,005,204
Deposits	342,953	(6,000)	336,953
	10,928,629	**(586,472)**	**10,342,157**
2021			
Other receivables	1,004,826	(576,941)	427,885
Deposits	1,159,690	(6,000)	1,153,690
	2,164,516	**(582,941)**	**1,581,575**

The movement of allowance account used to record the impairment are as follows:

	Other receivables	Deposits	Total
	RM	**RM**	**RM**
Balance at 1 April 2020	285,940	6,000	291,940
Impairment loss recognised	291,000	-	291,000
Balance at 31 March 2021/ 1 April 2021	**576,940**	**6,000**	**582,940**
Impairment loss recognised	3,532	-	3,532
Balance at 31 March 2022	**580,472**	**6,000**	**586,472**

Other than the impairment losses made, the Company is of the view that the loss allowance is not material in relation to the other receivables and deposits balances at financial year end and hence, it is not provided for.

Cash and cash equivalents

Risk management objectives, policies and processes for managing the risk

The cash and cash equivalents are held with banks and financial institutions.

Exposure to credit risk, credit quality and collateral

As at the end of the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position.

Recognition and measurement of impairment loss

These banks and financial institutions have low credit risks. In addition, some of the bank balances are insured by government agencies. Consequently, the Company is of the view that the loss allowance is not material and hence, it is not provided for.

Inter-company balances

Risk management objectives, policies and processes for managing the risk

The Company trades with its ultimate holding company and related companies and provides advances to a related party. The Company monitors the results of the immediate holding company, related companies and related party on individual basis.

Exposure to credit risk, credit quality and collateral

As at the end of reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position.

Recognition and measurement of impairment loss

Generally, the Company considers receivables from its ultimate holding company, related companies and related party to have low credit risk. The Company assumes that there is a significant increase in credit risk when the financial position of immediate holding company's and related companies' financial positions deteriorate significantly. As the Company is able to determine the timing of payments of the balances when they are payable, the Company considers the balances to be in default when the immediate holding company, related companies or related party is not able to pay when demanded. The Company considers the immediate holding company's, a related company's or a related party's balances to be credit impaired when:

- The immediate holding company, a related company or a related party is unlikely to repay its balance to the Company in full.
- The immediate holding company, a related company or a related party is continuously loss making and is having a deficit shareholder's fund.

The Company determines the profitability of default for the receivables individually using internal information available.

Inter-company balances

The following table provides information about the exposure to credit risk for inter-companies balances.

	Gross carrying amount	Impairment loss allowance	Net balances
	RM	RM	RM
2022			
Amount due from ultimate holding company	(6,446,579)	-	(6,446,579)
Amount due from related company	33,550,329		33,550,329
	27,103,749	**-**	**27,103,749**
2021			
Amount due from ultimate holding company	11,508,925	-	11,508,925
Amount due from related company	47,797,426	(4,974,597)	42,822,829
	59,306,351	**(4,974,597)**	**54,331,754**

The movement of allowance account used to record the impairment are as follows:

	Credit impaired
	RM
Balance at 1 April 2020	**6,072,850**
Impairment loss	(1,098,253)
Balance at 31 March 2021/1 April 2021	**4,974,597**
Impairment loss	(4,974,597)
Balance at 31 March 2022	**-**

Other than the impairment loss made for the financial year, the Company did not recognise any allowances for impairment loss as the Company is of the view that the loss allowances is not material and hence, it is not provided for.

17.5 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's exposure to liquidity risk arises principally from its various payables.

The Company maintains a level of cash and cash equivalents deemed adequate by the management to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they fall due.

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts

Maturity analysis

The table below summarises the maturity profile of the Company's financial liabilities as at the end of the reporting period:

	Carrying amount	Discount rate %	Contractual cash flows	Under 1 year	More than 1 year
2022	**RM**		**RM**	**RM**	
Non-derivative financial liabilities					
Lease liabilities	8,124,012	2.75 – 4.90	8,124,012	3,266,429	4,857,583
Trade payables	23,768,913	-	23,768,913	23,768,913	-
Other payables	29,247,499	-	29,247,499	29,247,499	-
	61,140,424		**61,140,424**	**56,282,841**	**4,857,583**
2021					
Non-derivative financial liabilities					
Lease liabilities	17,541,970	2.75-4.90	18,664,472	18,664,472	9,671,657
Trade payables	57,499,232	-	57,499,232	57,499,232	-
Other payables	28,820,253	-	28,820,253	28,820,253	-
	103,861,455		**104,983,957**	**104,983,957**	**9,671,657**

17.6 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates that will affect the Company's financial position or cash flows. The Company is not exposed to other price risk.

17.6.1 Currency risk

The Company is exposed to foreign currency risk on services rendered that are denominated in a currency other than the functional currency of the Company. The currencies giving rise to this risk are primarily United States Dollar ("USD"), Euro Dollar ("EUR"), Indian Rupee ("INR") and Australian Dollar ("AUD").

Risk management objectives, policies and processes for managing the risk

The Company ensures that the net exposure is kept to an acceptable level by monitoring the fluctuation of the foreign currency.

Exposure to foreign currency risk
